Hi Maury,

I found the community engagement draft quite sufficient, and could not think of any changes or additions. I especially like, under Principle 2, “CETA will require its partners to conduct early, responsive, and inclusive communication with **local** communities and stakeholders”. Every area is different, and micro-communities are sometimes overlooked, such as the Amish, in Alamosa and Rio Grande Counties.

Craig

Subject: CETA Written Comments Requested by 8/2

Hello,

The Colorado Electric Transmission Authority held a [study session](#) on July 15 to consider [draft principles of community engagement](#) for transmission development. Written comments on these draft principles are requested by **this Friday, Aug. 2**.

Please email your written comments to CETA Executive Director Maury Galbraith (mgalbraith_CETA@outlook.com).

Thank you for your attention to this matter,
Cathy Boies, consultant for CETA

Cathy Boies
Director, Interior West
