Can I see my court adoption records?

All court adoption files are sealed. The release of information from a court adoption file may be made only upon written request, granted by the court.

Court staff shall provide a blank Motion for... (NHJB-2201-DFP) to a party who is requesting the information. Adoption files are in family and probate division locations.

The form is also available on the website: <http://www.courts.state.nh.us/probate/pcforms/index.htm>

The Motion must include such things as the requesting party's name, mailing address and relationship to the adoption; the information being requested from the file; any information known by the requesting party concerning the adoption; as well as the reason the information is being requested.
