

2003-2004 SEARS Data Casebook

Acknowledgements

A project such as the Student Expenses and Resources Survey (SEARS) could not be accomplished without the cooperation of the postsecondary education segments within the State of California. SEARS data is of timely and great value to the higher education community. We would like to recognize certain individuals and organizations for their assistance in the development and the execution of the survey. Without their assistance this survey could not have been possible, especially in such a timely manner.

Background

The Student Expenses and Resources Survey (SEARS) is conducted every three years by the California Student Aid Commission (Commission) to assess the financial circumstances, attendance costs, and resources of California's college students. This survey is carried out in cooperation with California's five segments of higher education: the California Community Colleges (CCC), the University of California (UC), the California State University (CSU), the Association of Independent California Colleges and Universities (AICCU), and the private career colleges (PCC). The 2003-04 SEARS is the twelfth survey conducted since 1972.

The Commission administered the 2003-04 survey to approximately 80,000 California postsecondary students.

The data in this casebook reflect student responses to questions that are considered "core" subjects and are essential to the Commission's administration of the Cal Grant programs. These "core" subjects include age, veteran status, student marital status, parent marital status, number of dependents, and graduate status (required to determine dependency), educational and living expenses, student and family financial resources , and housing arrangements while attending college.

General Methodology

Advisory Committee

The Commission worked with an advisory committee (Committee) made up of representatives from each segment, the California Postsecondary Education Commission and other interested parties. The Committee ensured that the questions were relevant, clearly worded, and effective. The segments were also responsible for providing the Commission with datasets and additional contacts within their segment.

Questionnaire Design

The 2003-04 survey was more complex than prior versions. For the first time, the segments were given the option of a Web-based survey or a paper survey. In addition, the paper version was redesigned to enable automated data-capture. Each segment opting for an on-line survey also requested a paper questionnaire for those students without Internet access.

All students were asked questions about their basic demographic characteristics, work and volunteer patterns, living expenses, and their resources for the current academic year. Students were also asked about their parents, including their education level, number of dependents, marital status and income. Each segment was invited to add additional questions.

Web Version

For the first time in its history, the SEARS was available on-line to students at the University of California, the California State University and the independent colleges and universities (ICU). The Commission worked with its consultant, Atlantis InfoTech, to design a user-friendly, efficient, and secure Web-based survey for each of the participating segments.

Paper Version

The basic design of the 2003-04 SEARS questionnaire did not change from prior years. Each segment was provided with its own version, which was designed to be reverse-folded for pre-paid postage return. However, the 2003-04 questionnaires were designed to utilize automated data capture, which eliminated the need for manual data entry and reduced the possibility of errors.

Also, "fill-in" style questions used in previous years to obtain specific information about age, distance to campus, work hours, and other topics, have been replaced with predetermined intervals, to facilitate data capture.

Survey Administration

The administration of the SEARS varied by segment. A brief description for each segment is provided below.

California Community Colleges

The California Community College (CCC) system is composed of 109 colleges and serves over 2.9 million credit and non-credit students. By law, the CCC must admit any California resident with a high school diploma (or its equivalent), and those capable of benefiting from the instruction available. The primary mission of the CCC is to offer academic and vocational education at the lower division level for both recent high school graduates and those returning to school.

The CCC also strives to advance California's economic growth and global competitiveness through education, training, and services that contribute to continuous workforce improvement. The system's other essential functions include: basic skills instruction, English as a second language instruction, adult non-credit instruction, and providing support services to help students succeed.

Methodology

To address recent declining response rates, the Commission and the California Community Colleges Chancellor's Office administered the surveys to CCC students in-class. Each campus assisted in distributing, administering, and returning the completed surveys to the Commission.

The Chancellor's Office contracted with the Center for Student Success with the Research and Planners Group of the California Community Colleges to design the CCC survey. A three-stage process was used to determine college participation in the survey. First, the colleges in the CCC system were grouped into eight categories based on enrollment by size (small, small-medium, medium-large, and large) and by region (Northern, Central, Southern California and the Bay Area). Second, the colleges were screened for a student population with an ethnic distribution similar to the ethnic distribution of the total population and also ranked within each group by combined percent of basic skills and Board of Governors' grant enrollment. Finally, one or two colleges were selected from each group to participate.

The CCC had a 50.8 percent response rate for the 2003-04 SEARS. This high response rate was due, in large part, to the in-class administration of the survey.

University of California

The University of California (UC) system has nine campuses (a 10th campus is scheduled to open in Merced in 2005) that serve more than 201,000 students. UC's fundamental missions are teaching, research and public service. The UC educates students at all levels, from undergraduate to the most advanced graduate and first professional degree programs. Undergraduate programs are available to all eligible California high-school graduates and community college transfer students who qualify to attend UC. Some of the world's best research faculty and brightest students in hundreds of disciplines are found on UC campuses, national laboratories, medical centers and other research facilities around the state. Today, through its public service programs and industry partnerships, UC disseminates research results and translates scientific discoveries into practical knowledge and technological innovations that benefit California and the nation.

Methodology

The UC Office of the President (UCOP) specified the number and type of students included in the sample for this year's SEARS. The undergraduate sample was stratified solely by campus, while the graduate sample was stratified by campus and type of degree program (academic or professional). At each campus, the Director of Institutional Research was responsible for drawing the random sample according to the UCOP's specifications.

Both the Commission and the UCOP took steps to encourage students to participate in the survey. The Commission developed a postcard announcing the survey that students received a week before the survey Web site was launched. The UCOP sent an email announcement requesting students' participation. Students were later provided with an official email invitation with an active hyperlink, unique identifier, and a password to access the survey Website.

A paper questionnaire was sent to students who did not have a valid email address on file with the UC and to students who had not responded to the survey invitation or reminder (Graduate students did not have the option of a paper survey).

Of the 20,000 UC students surveyed, 7,455 (37.3 percent) returned a completed questionnaire.

California State University

The California State University (CSU) is the largest (23 campuses), most diverse, and one of the most affordable public university systems in the country for students seeking a baccalaureate education or professional training as a teacher, nurse, social worker, or engineer. The CSU awards more than one-half of the bachelor's degrees and a third of the master's degrees granted in California each year. CSU enrollment totaled nearly 409,000 students in fall 2003.

The mission of the California State University is:

- To advance and extend knowledge, learning, and culture

- To provide opportunities for individuals to develop intellectually, personally, and professionally
- To prepare significant numbers of educated, responsible people to contribute to California's schools, economy, culture, and future
- To encourage and provide access to an excellent education to all who are eligible and prepared to participate in collegiate study
- To offer undergraduate and graduate instruction leading to bachelor's and higher degrees in liberal arts and sciences and in applied fields;
- To prepare students for an international, multi-cultural society
- To provide public services that enrich the university and its communities.

Methodology

The CSU Office of the Chancellor developed the CSU survey. In past years, the sample was stratified by academic level (undergraduate or graduate), ethnicity, and load level. In an effort to increase both campus- and system-wide participation and response rates, the 2003-04 sample was stratified by campus only.

The Commission notified students by electronic and regular mail. A postcard was sent to students a week before the survey Web site was launched, followed by an official email invitation with an active hyperlink, unique identifier, and a password. Non-respondents were sent a reminder email within ten days.

A paper questionnaire was sent to students who did not have a valid email address on file, and to students who had not responded to the survey invitation or reminder. In addition, the Commission contacted nearly 7,000 students by telephone.

More than 5,100 of the 20,744 sampled responded to the survey, resulting in a 24.7 percent response rate.

Independent Colleges and Universities (ICU)

The Association of Independent California Colleges and Universities (AICCU), which serves as the unified statewide voice of independent higher education in California, worked as a liaison between AICCU member schools and the Commission. Of the 81 member schools in the organization, 43 chose to participate.

Methodology

Institutional Research staff at each participating school was asked to provide a random sample of students comprised of at least ten percent of their enrollment or a minimum of 100 students. Sample sizes ranged from 30 students (total enrollment) at Phillips Graduate Institute to 3,000 students at the University of Southern California. The total sample size for the ICU was 16,856 students.

The Commission developed a school-specific timeline for participating ICU schools. Students received an official email invitation with an active hyperlink, unique identifier, and a password. Non-respondents were sent a reminder email within ten days.

A paper questionnaire was sent to students who did not have a valid email address on file, and to students who had not responded to the survey invitation or reminder. In addition, the Commission contacted nearly 7,000 students by telephone.

The overall response rate for the ICU was 27.9 percent.

Private Career Colleges (PCC)

Survey administration for the PCCs required a different approach. In prior years, the Commission worked with the California Association of Private Postsecondary Schools (CAPPS) to select participating institutions that were also Title IV eligible, as defined in 34 CFR Parts 600 and 668. For 2003-04, the Commission sent surveys to all 114 Cal Grant eligible PCCs, requesting their participation. Eighty-seven schools (76.3 percent) administered the survey during class and returned completed questionnaires to the Commission. Sample sizes ranged from ten to 551 students, which represented anywhere from four to 100 percent of the school's enrollment.

The overall 2003-04 PCC response rate was 40.2 percent.

Data Handling

Once all Web based data were downloaded and paper survey data input, Commission staff began data verification and normalization. Each segment and data-capture method was processed differently to produce five segmental datasets, which were then checked for duplicate responses. In instances where a student began or completed a Web and a paper survey the most complete record was retained. Finally, incomplete surveys were reviewed and kept or deleted on a case-by-case basis.

Looking Ahead: 2006-07

The Commission is looking ahead to the 2006-07 Student Expenses and Resources Survey. On-going discussions about the 2003-04 survey process will identify areas of improvement in survey design and administration.

**Question for Tables:
W-19, U-19, and M-19**

What was your total income, if any, in **calendar year 2003**? If you are married, include your spouse's income also. Do **NOT** include any money received through student loans or grants, scholarships or fellowships. Include salaries, wages (including work-study and assistantship earnings), retirement benefits, public assistance, income from investments, child support, and all other income.

**Question for Tables:
W-20, U-20, and M-20**

Of your total calendar year 2003 income reported in the previous question, how much did you (and your spouse, if married) earn **last** summer? ***Please estimate for a three-month period, such as June, July, and August or July, August, and September.***

**Question for Tables:
W-21, U-21, and M-21**

What will be your total income for the current academic year? ***Please estimate for the nine-month period while you are attending school (e.g., September through May or October through June).*** As previously noted, **DO NOT** include any money received through student loans or grants, scholarships or fellowships. Include college work-study and assistantship earnings. If you are married, include your spouse's earnings.

**Question for Tables:
W-23, U-23, and M-23**

What will be the total amount of scholarships, fellowships, and grant assistance awarded to you for the current nine-month academic year? Include Pell Grants, Cal Grants, SEOG, or EOPS grants, and any other gift aid (money you do not have to repay) you received or will have received. If an employer is paying for education expenses, include this amount.

**Question for Tables:
W-24, U-24, and M-24**

What will be the **total amount** you will borrow to help pay for your educational and living expenses for the current nine-month academic year? Include loans from this school, banks, credit cards, friends or family. ***Do NOT include grants, scholarships or fellowships, or income from a job. If your spouse borrowed money for his/her educational expenses, do NOT include his/her loans in this amount.***

Question for Tables:

W-27, U-27, and M-27 (Previous educational debt)

W-28, U-28 and M-28 (Spouse's previous educational debt)

Excluding borrowing for the current academic year, what is your outstanding total debt for education and living expenses in previous academic years? Include loans from educational institutions, banks, or from friends or family, as well as credit card charges that have not been repaid. If you are married, please report how much your spouse has already borrowed.

**Question for Tables:
W-29, U-29, and M-29**

What is the total debt on all of your credit cards? Please indicate full amount you owe on all cards, regardless of when or why the charges were made. If you are married, include your spouse's credit card debt.

**Question for Tables:
W-42.1, U-42.1, and M-42.1
PCC**

Based on the length of time you indicated you would be attending school (question 17), what are your expenses for course books between July 1, 2003 and June 30, 2004? Some schools include books in your tuition costs. These costs should be included here. If you have questions about actual charges, please check with your school.”

**Question for Tables:
W-43.1, U-43.1, and M-43.1
PCC**

Based on the length of time you indicated you would be attending school (question 17), what are your expenses for necessary educational supplies or equipment (e.g., photocopying, blue books, pens, paper, notebooks, art supplies, uniforms, safety equipment, tools, computer paper, diskettes) between July 1, 2003 and June 30, 2004? Some schools include books in your tuition costs. Do **NOT** include the purchase of a personal computer or computer software.

**Question for Tables:
W-48, U-48, and M-48**

What are your **monthly average** expenses for transportation to and from classes and work (e.g., bus fare, train fare, gasoline, tolls, parking, etc.) during the current academic year? If your campus includes transportation costs in your fees, do **NOT** include them here. **Do NOT include car payments, repairs, insurance, or registration.**

**QUESTION FOR TABLES:
W-55, U-55, and M-55 (Equipment Expense)
CCC and PCC**

Some courses of study require a one-time purchase of special equipment (i.e. safety equipment, lab kits, cosmetology kits, uniforms, etc.) prior to the first class. If you are enrolled in an occupational, technical, or vocational education program, please report any one-time purchase for the **current academic year**. Do NOT include the purchase of a personal computer or computer software. Do not include any expenses already reported in questions 46 and 47.

California Community College

STUDENT EXPENSES AND RESOURCES SURVEY

2003-2004 ACADEMIC YEAR

Dear Community College Student:

The California Student Aid Commission, in partnership with the California Community Colleges Chancellor's Office, conducts a Student Expenses and Resources Survey (SEARS) every three years to determine the actual costs associated with obtaining a postsecondary education in California. Data provided by students in prior years have been used to provide the Legislature with an accurate picture of the cost of attending college in California, which has enabled them to make informed decisions about student financial aid policy and determine typical student expense that is the basis for how much financial aid is provided.

You and your fellow classmates have been selected to take part in this study. Because it is important to understand the costs associated with a wide variety of financial aid programs, **your answers are vital to this project** and your help is very much appreciated.

- It is critical that you respond *regardless* of whether or not you are receiving any student financial aid.
- The responses you provide will in no way affect any student financial aid you may be receiving.
- Your responses to these questions are confidential and will not be individually identifiable.

Thank you for your help with this very important project.

Sincerely,

Diana Fuentes-Michel
Executive Director
California Student Aid Commission

INSTRUCTIONS:

- Please read and follow carefully all directions. Indicate your answer to each question by marking the appropriate circle. For each answer, please fill in marks like this: ● not like this: ✕ / ✎ / ☑
The survey results will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **Black Ink pen or Dark Lead pencil and do not fold or remove pages.**
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you are not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write **ONLY** in the Comments Section on the last page.

Thank you on behalf of all California Community College students.

Section I: Demographic Information

In this section we ask about your background and current experience at college. The questions may seem personal, but we have to ask them in order to use the rest of the information effectively. Everything on this survey is held ***in strict confidence*** and is used for research purposes. Only aggregated data from all respondents will be compiled. ***No information about individual respondents will be used for reporting purposes.***

University of California

STUDENT EXPENSES AND RESOURCES SURVEY 2003-2004 ACADEMIC YEAR

Dear University of California Student:

The University of California and the California Student Aid Commission need your help. You have been randomly selected to participate in a University survey about how students finance their college education. The University is conducting this survey because, in this era of limited funding, we need to understand how students are actually dealing with the costs of attending the University. We also want to know what your opinions are about the University.

As a token of our appreciation, each person who returns a completed questionnaire will be eligible to win a **GRAND PRIZE OF \$1,000 OR ONE OF TWO \$500 RUNNER-UP PRIZES**.

A random drawing of returned questionnaires will be held after the survey is completed. Winners will be notified by the UC Office of the President. Please do not remove your name and address from the questionnaire, as they will be used for the random drawing and for notification of prizewinners.

I guarantee that the information you provide will be treated with absolute confidentiality. The results of this survey will be used strictly for research purposes. Only aggregated data from all respondents will be compiled. No information about individual respondents will be used for reporting. Furthermore, your response will not affect, in any way, your eligibility to win a prize. For your convenience, we have designed the questionnaire so that you can send it back to us simply by reversing the fold and sealing the ends.

You have been selected to represent your fellow UC students. You cannot be replaced! Your cooperation is vital and very much appreciated.

Sincerely,

Dennis J. Galligani, Ph.D.
Associate Vice President
Student Academic Services
University of California

INSTRUCTIONS:

- We are interested in your educational experiences during this **current 2003-04 academic year**.
- Please read and carefully follow all instructions. Indicate your answer in each question by marking the appropriate circle. For each answer, please fill in marks like this: ● not like this: ✕ ○ ○ The survey results will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **Black Ink pen or Dark Lead pencil**. **Please do not remove pages**.
- Please answer **every** question unless otherwise indicated. If you're not sure of an answer, **please give us your best estimate**. Write explanatory notes **ONLY** in the Comments Section at the end of the survey. There are six sections on this questionnaire and it should take about forty minutes to complete.
- Please return your completed questionnaire with the mailing label intact. The mailing label is primarily used to help us identify non-respondents who will receive a follow-up phone call, but it also contains the identification number that will be used in the random drawing that will determine who wins a prize.
- If you need assistance, you may contact us via e-mail at sears@csac.ca.gov. We will contact you as soon as possible.
- When you have completed the questionnaire, **fold and seal** it so that the return address shows on the outside, and mail it **as soon as possible**.
-

Thank you on behalf of all University of California students.

Section I: Demographic Information

In this section we ask about your background and current experience at college. The questions may seem personal, but we have to ask them in order to use the rest of the information effectively. Everything on this questionnaire is held in **strict confidence** and is used for research purposes. Only aggregated data from all respondents will be compiled. **No information about individual respondents will be used for reporting purposes.**

- 0 I was denied admission.
- 1 I could not afford to attend.
- 2 I could not get the classes, courses or programs that I wanted.
- 3 I received late notification of admission or housing.
- 4 The college was too far away or too close to home.
- 5 I did not receive any personal attention or interest from the college.
- 6 The classes conflicted with my work schedule.
- 7 Not applicable

74. Considering your loans, how much you have to work, and in general how much you pay for your education, would you say the education you are receiving is worth the cost?

- | | | | |
|-------------------------|------------------------------|-------------------------|-------------------------------|
| <input type="radio"/> 0 | Generally worth the cost | <input type="radio"/> 2 | Definitely worth the cost |
| <input type="radio"/> 1 | Generally NOT worth the cost | <input type="radio"/> 3 | Definitely NOT worth the cost |

Comments:

Thank you for taking the time to answer all of our questions. Your help is greatly appreciated. Please return your completed questionnaire to us as soon as possible. If you are interested in the survey results, please contact us at sears@csac.ca.gov.

Please fold, seal, and return this questionnaire by following the instructions on the outside cover page. Thank you.

California State University

STUDENT EXPENSES AND RESOURCES SURVEY 2003-2004 ACADEMIC YEAR

Dear California State University Student:

California State University and the California Student Aid Commission conduct a Student Expenses and Resources Survey every three years to determine the actual costs associated with obtaining a postsecondary education in California. Data provided by students in prior years have been used to provide the Legislature with an accurate picture of the cost of attending college in California, which has enabled them to make informed decisions about student financial aid policy.

You have been randomly selected from a sample of students to take part in this study. Because the selection process was designed to obtain a representative cross-section of all students, no one can substitute for you. **Your answers are vital to this project** and your help is very much appreciated.

- It is critical that you respond *regardless* of whether or not you are receiving any student financial aid.
- The responses you provide will in no way affect any student financial aid you may be receiving.
- Your responses to these questions are confidential and will not be individually identifiable.

Please complete the questionnaire and mail it **as soon as possible**. No postage is necessary.

Thank you for your help with this important project.

Sincerely,

A handwritten signature in blue ink that reads "Diana Fuentes-Michel".

Diana Fuentes-Michel
Executive Director
California Student Aid Commission

INSTRUCTIONS:

- We are interested in your educational experiences during the **current 2003-04 academic year**.
- Please read and carefully follow all instructions. Indicate your answer in each question by marking the appropriate circle. For each answer, please fill in marks like this: not like this: The ~~scanned~~ responses will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **Black Ink pen or Dark Lead pencil. Please do not remove pages.**
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you're not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write **ONLY** in the Comments Section on the last page.
- If you need assistance, you may contact us via e-mail at sears@csac.ca.gov. We will contact you as soon as possible.
- Please return your completed questionnaire with the mailing address information intact. When you have completed the questionnaire, **fold and seal** it so that the return address shows on the outside, and mail it **as soon as possible**.

Thank you on behalf of all California State University students.

Section II: Parental Information

Regardless of your age and dependency status, we would like you to answer these next few questions about your parents. These may have influenced your decision to attend college, and are important to our research.

Section VI: Student Opinions

This last section is used to gather your opinions on issues that the California State University is studying and to allow for any comments you may have.

60. Please think back to the last time you applied for admission to this school. At the time you were applying, which type of educational institution did you **really want to attend**?

- | | | | |
|---|---|---|---|
| 0 | The California State University campus I am now attending. | 4 | A California Community College. |
| 1 | A different California State University campus. | 5 | A California private trade, business, or vocational school. |
| 2 | A University of California campus. | 6 | An out-of-state or foreign college or university. |
| 3 | A private or independent college or university in California. | | |

61. If you are **NOT** currently attending the college you really wanted to attend, what is the **single most important** reason?

- | | | | |
|---|---|---|--|
| 0 | I was denied admission. | 4 | The college was too far away or too close to home. |
| 1 | I could not afford to attend. | 5 | I did not receive any personal attention or interest from the college. |
| 2 | I could not get the classes, courses or programs that I wanted. | 6 | The classes conflicted with my work schedule. |
| 3 | I received late notification of admission or housing. | 7 | Not applicable. |

62. Year-round operations would enable you to enroll term after term without taking a summer break. Attending school in this manner could allow you to complete your degree or credential program up to one year earlier than traditional operations. If financial aid policies can be adjusted to accommodate year-round attendance, would you be interested in enrolling year-round?

- Yes No

63. If you are enrolled in one of the following California Commission on Teaching Credentialing (CTC) approved credential programs, please fill in the appropriate circle:

- Single Subject Multiple Subject Special Education

Comments:

Thank you for taking the time to answer all of our questions. Your help is greatly appreciated. Please return your completed questionnaire to us as soon as possible. If you are interested in the survey results, please contact us at SEARS@CSAC.CA.GOV.

Please fold, seal and return this questionnaire by following the instructions on the outside cover page. Thank you.

Independent Colleges and Universities

STUDENT EXPENSES AND RESOURCES SURVEY 2003-2004 ACADEMIC YEAR

Dear Independent College Student:

Your college or university and the California Student Aid Commission conduct a Student Expenses and Resources Survey every three years to determine the actual costs associated with obtaining a postsecondary education in California. Data provided by students in prior years have been used to provide the Governor and the Legislature with an accurate picture of the cost of attending college in California, which has enabled them to make informed decisions about student financial aid policy. Informing the policy process about actual college costs and also understanding the profile of students who attend California institutions is critical to assuming an informed fee and financial aid policy in the state.

You have been randomly selected from a sample of students to take part in this study. Because the selection process was designed to obtain a representative cross-section of all students, no one can substitute for you. Your answers are vital to this project and your help is very much appreciated.

- * It is critical that you respond regardless of whether or not you are receiving any student financial aid.
- * The responses you provide will in no way affect any student financial aid you may be receiving.
- * Your responses to these questions are confidential and will not be individually identifiable.

Thank you for your help with this important project.

Sincerely,

Jonathan Brown
President
Association of Independent California
Colleges and Universities

INSTRUCTIONS:

- We are interested in your educational experiences during the **current 2003-04 academic year**.
- Please read and carefully follow all instructions. Indicate your answer in each question by marking the appropriate circle. For each answer, please fill in marks like this: not like this: The ~~scribbles~~ will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **Black Ink pen or Dark Lead pencil. Please do not remove pages.**
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you're not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write **ONLY** in the Comments Section on the last page.
- If you need assistance, you may contact us via e-mail at sears@csac.ca.gov. We will contact you as soon as possible.
- Please return your completed questionnaire with the mailing address information intact. When you have completed the questionnaire, **fold and seal** it so that the return address shows on the outside, and mail it **as soon as possible**.

Thank you on behalf of all California Independent College and University students.

Section I: Demographic & Enrollment Information

In this section we ask about your background and current experience at college. The questions may seem personal, but we have to ask them in order to use the rest of the information effectively. Everything on this questionnaire is held in **strict confidence** and is used only for research purposes. Only aggregated data from all respondents will be compiled. **No information about individual respondents will be used for reporting purposes.**

68. Please think back to the last time you applied for admission to this school. At the time you were applying, which type of educational institution did you **really want to attend**?

- ① The campus I am now attending.
- ① A different private or independent college or university in California.
- ② A University of California campus.
- ③ A California State University campus.
- ④ A California Community College.
- ⑤ A private trade, business, or vocational school in California.
- ⑥ An out-of-state college or university.

69. If you are **NOT** currently attending the college you really wanted to attend, what is the **single most important** reason?

- ① I was denied admission.
- ① I could not afford to attend.
- ② I could not get the classes, courses or programs that I wanted.
- ③ I received late notification of admission or housing.
- ④ The college was too far away or too close to home.
- ⑤ I did not receive any personal attention or interest from the college.
- ⑥ The classes conflicted with my work schedule.
- ⑦ Not applicable.

Comments:

Thank you for taking the time to answer all of our questions. Your help is greatly appreciated. If you have any questions or would like to see the survey results, please contact us at SEARS@CSAC.CA.GOV.

Please fold, seal and return this questionnaire by following the instructions on the outside return mail page. Thank you.

Private Career Colleges

STUDENT EXPENSES AND RESOURCES SURVEY

2003-2004 ACADEMIC YEAR

Dear Student:

The California Student Aid Commission, in partnership with Private Career Colleges, conducts a Student Expenses and Resources Survey (SEARS) every three years to determine the actual costs associated with obtaining a postsecondary education in California. Data provided by students in prior years have been used to provide the Legislature with an accurate picture of the cost of attending college in California, which has enabled them to make informed decisions about student financial aid policy.

Your school has selected you and your fellow classmates to take part in this study. Because it is important to understand the costs associated with a wide variety of financial aid programs, **your answers are vital to this project** and your help is very much appreciated.

- It is critical that you respond *regardless* of whether or not you are receiving any student financial aid.
- The responses you provide will in no way affect any student financial aid you may be receiving.
- Your responses to these questions are confidential and will not be individually identifiable.

Thank you for your help with this important project.

Sincerely,

Diana Fuentes-Michel
Executive Director
California Student Aid Commission

INSTRUCTIONS:

- We are interested in your educational experiences between **July 1, 2003 and June 30, 2004**. Please keep this twelve-month period in mind as you work through the survey.
- Please read and carefully follow all directions. Indicate your answer to each question by marking the appropriate circle. For each answer, please fill in marks like this: ● not like this: ✗ / ◯ ✓
The survey results will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **Black Ink pen or Dark Lead pencil and do not fold or remove pages**.
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you're not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write **ONLY** in the Comments Section on the last page.
- When you have completed the questionnaire, **return it to your school**. The school will forward all surveys directly to the California Student Aid Commission.

Thank you on behalf of all private career college students.

Section V: Education and Living Expenses

These questions concern your expenses while attending college. **Please answer these questions for the period between July 1, 2003 and June 30, 2004.** If you share housing, food, or other costs with roommates, please report your share only. If you have a spouse or dependents, please include housing, food, medical, and other living expenses for them as well as yourself.

52. What is your share of **monthly** housing costs for your residence? *Include rent, mortgage and property taxes, payments to your parents or other relatives, etc.* Taking seasonal variations into account, include your share of utilities for water, gas, electricity, garbage, and telephone, excluding long distance charges.

Section VI: Student Opinions

This last section provides us with information regarding your satisfaction with the education and services you receive.

71. Please think back to the last time you applied for admission to this school. At the time you were applying, which type of educational institution did you **really want to attend**?

- ⓪ The school I am now attending. (Please go to question #73)
- ⓪ A different private trade, business, or vocational school in California.
- ⓪ A University of California campus.
- ⓪ A California State University campus.
- ⓪ A California Community College.
- ⓪ A private or independent college or university in California.
- ⓪ An out-of-state college or university.

72. If you are **NOT** currently attending the college you really wanted to attend, what is the *single most important* reason?
Please choose only one.

- ① I was denied admission.
- ① I could not afford to attend.
- ② I could not get the classes, courses or programs that I wanted.
- ③ I received late notification of admission or housing.
- ④ The college was too far away or too close to home.
- ⑤ I did not receive any personal attention or interest from the college.
- ⑥ The classes conflicted with my work schedule.
- ⑦ Other

73. If you had the option of taking this survey on-line in a web version or a paper version, which would you choose?

- ① I would prefer a paper version of the questionnaire.
- ① I would prefer to take the survey on the Internet.

Comments:

Thank you for taking the time to answer all of our questions. Your help is greatly appreciated. Please return your completed questionnaire to your school as soon as possible. If you are interested in the survey results, please contact us at SEARS@csac.ca.gov
