

# Carbon and Forest Management Work Group

July 10, 2024 | 9 am – 3 pm

Meeting #8

# Welcome to Work Group Members

- This is a public meeting and is being recorded.
- Please use the chat for questions during the presentations. We will have designated times to address questions throughout the meeting.
- Please keep cameras on.
- Please keep microphones off unless speaking.
- Materials, including the meeting recording, will be available on the work group website after the meeting.

# Welcome to Members of the Public

- The public will not be able to comment within this meeting but can share questions via email.
- Please direct all questions to Duane Emmons, [duane.emmons@dnr.wa.gov](mailto:duane.emmons@dnr.wa.gov)
- Refer to the work group website for meeting information and materials.

The screenshot shows the Washington State Department of Natural Resources website. The header includes the DNR logo, the text "WASHINGTON STATE DEPARTMENT OF NATURAL RESOURCES", and "HILARY S. FRANZ | COMMISSIONER OF PUBLIC LANDS". A search bar is located in the top right corner. The main navigation menu includes "PROGRAMS AND SERVICES", "ABOUT", "MANAGED LANDS", and "EMPLOYMENT". The page is titled "Boards and Commissions" and lists several advisory bodies. The "Carbon and Forest Management Work Group" is highlighted in blue. The page content includes a photo of Commissioner Hilary Franz and text stating that the DNR manages over 2 million acres of forested state trust lands and is establishing a work group to examine the relationship between forest management and atmospheric carbon sequestration. A bullet point at the bottom of the page lists "Conserving and managing older, carbon-dense, structurally complex forest stands".
