

## Snohomish County

### 2021 Quarterly Income Report – Quarter 1

The Washington State Department of Natural Resources manages more than 600,000 acres of state forestlands in Washington. State forestlands generate revenue that helps support counties and local services. The lands are located in 21 counties, though the amount of acreage of trust land varies considerably by county. This report provides county-specific information regarding quarterly revenue from state forestlands.

**ALL REVENUE<sup>1</sup> distributed to Snohomish County this calendar year, 2021, as of March 31, 2021.**

**\$2,294,689.00**

**NET VALUE<sup>2</sup> of State Forestland timber in Snohomish County under contract as of March 31, 2021.**

**\$10,400,286.62**

NOTE: This table shows revenue from timber only, it does not include non-timber revenue.

\* This revenue is distributed by the county in accordance with RCW 79.64.110

April 2021 Draft - subject to change

**There are two types of state forestlands: State Forest Transfer lands, and State Forest Purchase lands.**

1. **State Forest *Transfer* Lands.** These are lands acquired by counties through tax foreclosures that were subsequently turned over to the state. The Department of Natural Resources currently manages more than 538,000 acres of these forestlands in trust for 20 counties. Revenue from State Forestlands is distributed in accordance with RCW 79.64.110. Based on population, Skamania and Wahkiakum Counties have different distribution requirements compared with other counties.
2. **State Forest *Purchase* Lands.** State-issued bonds were used to acquire certain parcels of forestland from private owners. Typically, these forestlands had been logged and were in need of active management. Allocation of revenue from these lands was determined when purchase was authorized, as follows: 26.5 percent to the county in which the property is located; 50 percent to DNR for management expenses; and the remaining 23.5 percent to the State General Fund.

**State Forestlands**
