WASHINGTON DEPARTMENT OF NATURAL RESOURCES

## 2024-2025 SEEDLING PRE-ORDER

The DNR-managed Webster Forest Nursery grows a variety of native conifer seedlings for different planting zones in Washington state. Webster Nursery sells seedlings to help small private land owners meet replanting requirements.

Pre-order requests are accepted through September 13, 2024. Seedlings are not first-come, first-served during the pre-order window. To serve a greater number of Washington landowners, Webster Nursery fills as many pre-order requests as possible.

If the nursery cannot fulfill your large pre-order request, you will have priority to purchase available seedlings if other orders are cancelled. We maintain records of unfilled pre-order requests and will reach out to you periodically with updates.

In October 2024, Webster Nursery will confirm order details and invoice customers. Payment is due within 30 days to secure the order. Pick-ups may be scheduled December 2024-May 2025.

**Public Price List 24-25**

**Seedlings ONLY sold as full bundles**

Species	Trees/Bundle	0-599 Price/Tree	600+ Price/Tree

**WEBSTER FOREST NURSERY:** Located 4 mi. South of Tumwater, off I-5, take exit 99, travel West on 93rd Ave. for 1/2 mi. Turn left (South) to 9805 Blomberg St. SW.

**PICK-UP HOURS:** Monday-Friday December-April **by appointment.**

**SHIPMENT:** Orders ship from our facilities Monday - Wednesday upon request, for estimated 2-day delivery in Washington state Wednesday - Friday.

**PHONE:** Toll Free 1-877-890-2626 or 360-902-1234.

**CONDITIONS OF SALE:** We take great care to provide good quality, healthy nursery stock. However, we can give no guarantee of our stock's productivity or life span. Buyers assume responsibility of the plants as soon as they receive them. Buyers must report to the DNR Webster Nursery any stock received in unsatisfactory condition within FIVE (5) business days of receiving their seedlings. We will review all claims and will either replace seedlings or issue credit when justified. At no time will the DNR Webster Nursery be responsible for more than the purchase price. DNR Webster Nursery does not guarantee survivability of plants after they leave our care, either when the buyer picks them up or after we ship the seedlings to the buyer's destination.

**PAYMENT:** Pre-payment in full is required to secure an order. Upon receiving their invoice, customers have 30 days to complete payment. Orders are subject to cancellation without notice if not paid in full. Webster Nursery accepts only cash or check payments. **We are unable to accept credit cards.**

### Seedling Pre-Order Form

Complete Sections 1 and 2. Forms may be returned by mail or email. See our information below. To be considered for the pre-registration period, requests must be received by September 13, 2024.

#### Section 1: Customer Detail

Name \_\_\_\_\_

Mailing Address \_\_\_\_\_

City \_\_\_\_\_

State & Zip Code \_\_\_\_\_

Email \_\_\_\_\_

Check if you prefer email

Phone Number \_\_\_\_\_

Check if you prefer phone calls

Pick Up at the Nursery

Ship via UPS

Shipping Address \_\_\_\_\_

#### Section 2: Seedling Request

On each line, indicate the requested species, planting location details, and desired quantity for your planting project. Stock type is only required for Douglas-fir requests. Seedlings are sold in full-bag quantities.

Reviewing the seedling availability list will help you select seedlings that are best suited to your planting site.

If you have any questions, call or email the nursery.

### Seedling Distribution Information

*At Webster Nursery, we give seedlings the best possible care during their growing season, cull them for quality, and package them appropriately for cool storage conditions. The way you handle these seedlings is important in making your tree-planting project a success.*

**Plan ahead** to plant your seedlings. If you can't plant your seedlings within **one or two days**, we suggest you **refrigerate them** at 33°F (ideal) to 36°F (maximum) to prevent respiration and mold damage. If you have a large order and inadequate storage, consider staggering your pick-up dates or shipments.

Bags of seedlings measure approximately **36" by 12" by 12"** and weigh up to **40 pounds**. Boxes measure approximately **36" by 11" by 9"** and weigh up to **40 pounds**. Ensure you have adequate transportation to pick up your order. The best seedling transportation is in a **covered, cool vehicle** protected from sun and wind.

Find more advice in the guide ***Planting Forest Seedlings***, linked in the More Resources section.

---

Pick up seedlings by appointment at Webster Nursery: **9805 Blomberg St SW**, Olympia, WA 98512.

***If someone else will pick up seedlings on your behalf, you must notify the nursery to release to the appropriate party.***

UPS shipments typically arrive at addresses in Washington state 1-2 days after leaving the nursery. Nursery liability ceases when seedlings are delivered to carrier.

---

***We take great care to provide good quality, healthy nursery stock. Buyers must report to the DNR Webster Nursery any stock received in unsatisfactory condition within FIVE (5) business days of receiving their seedlings.***
