# Emergency Rules

## DECLARATION OF EMERGENCY

### Department of Health and Hospitals Behavior Analyst Board

#### Application Procedures and Board Fees (LAC 46:VIII.Chapter 3)

The Louisiana Department of Health and Hospitals, Louisiana Behavior Analyst Board has exercised the emergency provisions of the Administrative Procedure Act, specifically R.S. 49:953(B)(1), to create rules relative to the practice of behavior analysis, to be designated as Chapter 3, Application Procedures and Board Fees, of the board rules. This Emergency Rule containing all new material, is effective February 13, 2014, and will remain in effect for a period of 120 days.

This action is necessary due to Act 351 of the 2013 Legislative Session, effective August 1, 2013, which created the Louisiana Behavior Analyst Board to safeguard life, health, property and the public welfare of this state, and in order to protect the people of this state against unauthorized, unqualified, and improper application of applied behavior analysis. Act 351 created a licensure process for behavior analysts, certification for assistant behavior analysts and requires registration of line technicians in the best interest of public protection. There is no grandfathering clause in Act 351 and individuals are practicing behavior analysis in the community, therefore there is insufficient time to promulgate these rules under the usual Administrative Procedure Act rulemaking process. However, a Notice of Intent to adopt a permanent Rule will be promulgated in connection with the proposed adoption of Emergency Rule on this subject.

Home and Community-Based Services Waivers

Children's Choice—Allocation of Waiver

Opportunities for Chisholm Class Members

(LAC 50:XXI.Chapter 111, 11301-11303 and Chapter 115)

The Department of Health and Hospitals, Bureau of Health Services Financing and the Office for Citizens with Developmental Disabilities amend LAC 50:XXI.Chapter 111, §§11301-§11303 and Chapter 115 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing and the Office for Citizens with Developmental Disabilities amended the provisions governing the children's choice waiver to clarify the provisions of the waiver and to adopt provisions for a self-direction initiative which will allow participants and their families to receive coordination of children's choice services through a direct support professional rather than a licensed enrolled provider agency (*Louisiana Register*, Volume 39, Number 9).

The department promulgated an Emergency Rule which amended the provisions of the children's choice waiver to provide for the allocation of waiver opportunities to Medicaid eligible children identified in the Melanie Chisholm, et al vs. Kathy Kliebert class action litigation (hereafter referred to as Chisholm class members) who have a diagnosis of pervasive developmental disorder or autism spectrum disorder, and are in need of applied behavioral analysis (ABA) services. This Emergency Rule also adopted criteria governing the provision of ABA services to Chisholm class members (*Louisiana Register*, Volume 39, Number 10).

The department subsequently amended the provisions of the September 19, 2013 Emergency Rule governing the children's choice waiver in order to clarify the provisions for the allocation of waiver opportunities and the criteria governing the provision of ABA services to eligible Chisholm class members (*Louisiana Register*, Volume 39, Number 10). This Emergency Rule is being promulgated to assure compliance with the technical requirements of R.S. 49:953, and to continue the provisions of the October 20, 2013 Emergency Rule governing the children's choice waiver which clarified the provisions governing ABA services for eligible Chisholm class members.

This action is being taken to comply with the judge's order that ABA services be provided to Chisholm class members, and to avoid imminent peril to the public health and welfare of Chisholm class members who are in immediate need of ABA services until such time as a 1915(i) Medicaid state plan or other Medicaid state plan service is approved by the Centers for Medicare and Medicaid Services. It is estimated that implementation of this Emergency Rule will have no fiscal impact for state fiscal year 2013-2014 as the fiscal projections were included in the September 19, 2013 Emergency Rule governing the ABA services to Chisholm class members.

Effective February 22, 2014, the Department of Health and Hospitals, Bureau of Health Services Financing and the Office for Citizens with Developmental Disabilities amend the provisions governing the allocation of opportunities in the children's choice waiver.

## DECLARATION OF EMERGENCY

### Department of Health and Hospitals Bureau of Health Services Financing

Hospice Services (LAC 50:XV.Chapters 33-43)

The Department of Health and Hospitals, Bureau of Health Services Financing, amends LAC 50:XV.Chapters 33-43 under the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

As a result of a budgetary shortfall in state fiscal year 2009, the Department of Health and Hospitals, Bureau of Health Services Financing amended the provisions governing the reimbursement methodology for hospice services provided to long-term care residents to reduce the reimbursement rates (*Louisiana Register*, Volume 35, Number 9).

The Department of Health and Hospitals, Bureau of Health Services Financing promulgated an Emergency Rule which amended the provisions governing hospice services in order to bring these provisions into compliance with the requirements of the Patient Protection and Affordable Care Act (PPACA) and also amended the provisions governing prior authorization for hospice services in order to control the escalating costs associated with the Hospice Program (*Louisiana Register*, Volume 38, Number 3). The department promulgated a Notice of Intent which further revised and clarified the provisions governing hospice services (*Louisiana Register*, Volume 39, Number 11). The department subsequently promulgated an Emergency Rule which amended the provisions of the May 1, 2012 Emergency Rule to incorporate the revisions made in the Notice of Intent and to revise the formatting of these provisions in order to ensure that the provisions are promulgated in a clear and concise manner (*Louisiana Register*, Volume 39, Number 11).

The department now proposes to amend the November 20, 2013 Emergency Rule to further clarify the provisions governing prior authorization for hospice services. This action is being taken to avoid sanctions from the U.S. Department of Health and Human Services, Centers for

Medicare and Medicaid Services for noncompliance with PPACA requirements, and to avoid a budget deficit in the medical assistance programs.

Effective March 20, 2014, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions of the November 20, 2013 Emergency Rule governing hospice services.

A. ...

1. For the first 90-day period of hospice coverage, the hospice must obtain a verbal certification no later than two calendar days after hospice care is initiated. If a verbal certification is not obtained within two calendar days following the initiation of hospice care, a written certification must be made within 10 calendar days following the initiation of hospice care. The written certification and notice of election must be obtained before requesting prior authorization for hospice care. a. - 4. Repealed.

B. Face-to-Face Encounter

The face-to-face encounter must occur no more than 30 calendar days prior to the third benefit period recertification, and every benefit period recertification thereafter, to gather clinical findings to determine continued eligibility for hospice care.

2. The physician or nurse practitioner who performs the face-to-face encounter with the patient must attest in writing that he or she had a face-to-face encounter with the patient, including the date of that visit. The attestation of the nurse practitioner or a non-certifying hospice physician shall state that the clinical findings of that visit were provided to the certifying physician for use in determining continued eligibility for hospice care.

C. Content of Certifications

1. Certifications shall be based on the physician's or medical director's clinical judgment regarding the normal course of the individual's illness.

2. The certification must specify that the individual's prognosis is for a life expectancy of six months or less if the terminal illness runs its normal course.

3. Written clinical information and other documentation that support the medical prognosis must accompany the certification of terminal illness and must be based on the physician's clinical judgment regarding the normal course of the individual's illness filed in the medical record with the written certification, as set forth in §3703.C.

4. The physician must include a brief written narrative explanation of the clinical findings that support a life expectancy of six months or less as part of the certification and recertification forms, or as an addendum to the certification/recertification forms:

a. if the physician includes an addendum to the certification and recertification forms, it shall include, at a minimum:

- i. the patient's name;
- ii. physician's name;
- iii. terminal diagnosis(es);

An approved facility is one that meets the standards as provided in 42 CFR §418.98(b). This service cannot be delivered to individuals already residing in a nursing facility.

d. General Inpatient Care Day. A general inpatient care day is a day on which an individual receives general inpatient care in an inpatient facility that meets the standards as provided in 42 CFR §418.98(a) and for the purpose of pain control or acute or chronic symptom management which cannot be managed in other settings.

### **Chapter 41. Prior Authorization**

#### **§4101. Prior Authorization of Hospice Services**

A. Prior authorization is required for all election periods as specified in §3501.C of this Subpart. The prognosis of terminal illness will be reviewed. A patient must have a terminal prognosis and not just certification of terminal illness. Authorization will be made on the basis that a patient is terminally ill as defined in federal regulations. These regulations require certification of the patient's prognosis, rather than diagnosis. Authorization will be based on objective clinical evidence contained in the clinical record which supports the medical prognosis that the patient's life expectancy is six months or less if the illness runs its normal course and not simply on the patient's diagnosis.

1. The Medicare criteria found in local coverage determination (LCD) hospice determining terminal status (L32015) will be used in analyzing information provided by the hospice to determine if the patient meets clinical requirements for this program.

2. Providers shall submit the appropriate forms and documentation required for prior authorization of hospice services as designated by the department in the Medicaid Program's service and provider manuals, memorandums, etc.

B. Written Notice of Denial. In the case of a denial, a written notice of denial shall be submitted to the hospice, recipient, recipient's legal representative, and nursing facility, if appropriate.

C. Reconsideration. Claims will only be paid from the date of the hospice notice of election if the prior authorization request is received within 10 days from the date of election and is approved. If the prior authorization request is received 10 days or more after the date on the hospice notice of election, the approved begin date for hospice services is the date the completed prior authorization packet is received.

D. Appeals. If the recipient does not agree with the denial of a hospice prior authorization request, the recipient, the recipient's legal representative, or the hospice on behalf of the recipient, can request an appeal of the prior authorization decision. The appeal request must be filed with the Division of Administrative Law within 30 days from the date of the postmark on the denial letter. The appeal proceedings will be conducted in accordance with the Administrative Procedure Act.

#### **§4303. Levels of Care for Payment**

A. - B.3. ...

C. Inpatient Respite Care. The inpatient respite care rate is paid for each day the recipient is in an approved inpatient

facility and is receiving respite care (see §3901.A.11.c). Respite care may be provided only on an occasional basis and payment for respite care may be made for a maximum of five days at a time including the date of admission but not counting the date of discharge. Payment for the day of discharge in a respite setting shall be at the routine home level-of-care discharged alive rate.

1. ...

2. Respite care may not be provided when the hospice patient is a nursing home resident, regardless of the setting, i.e., long-term acute care setting.

D. General Inpatient Care. Payment at the inpatient rate is made when an individual receives general inpatient care in an inpatient facility for pain control or acute or chronic symptom management which cannot be managed in other settings. General inpatient care is a short-term level of care and is not intended to be a permanent solution to a negligent or absent caregiver. A lower level of care must be used once symptoms are under control. General inpatient care and nursing facility or intermediate care facility for persons with intellectual disabilities room and board cannot be reimbursed for the same recipient on the same covered days of service. Payment for the day of discharge in a general inpatient setting shall be at the routine home level-of-care discharged alive rate.

Intermediate Care Facilities for Persons with  
Developmental Disabilities—Public Facilities  
Reimbursement Methodology  
(LAC 50:VII.32969)

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 50:VII.32969 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing amended the provisions governing the reimbursement methodology for public intermediate care facilities for persons with developmental disabilities (ICFs/DD) to establish a transitional Medicaid reimbursement rate for community homes that are being privatized (*Louisiana Register*, Volume 39, Number 2). This Rule also adopted all of the provisions governing reimbursements to state-owned and operated facilities and quasi-public facilities in a codified format for inclusion in the *Louisiana Administrative Code*.

The department amended the provisions governing the transitional rates for public facilities in order to redefine the period of transition (*Louisiana Register*, Volume 39, Number 10). This Emergency Rule is being promulgated to assure compliance with the technical requirements of R.S. 49:53, and to continue the provisions of the October 1, 2013 Emergency Rule governing transitional rates for public facilities which redefined the period of transition. This action is being taken to protect the health and welfare of Medicaid recipients transitioning from public ICFs/DD. It is estimated that implementation of this Emergency Rule will have no fiscal impact for state fiscal year 2013-2014 as stated in the October 1, 2013 Emergency Rule governing the transitional rates for public facilities.

Effective February 22, 2014, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the reimbursement methodology for public intermediate care facilities for persons with developmental disabilities.

### **DECLARATION OF EMERGENCY**

#### **Department of Health and Hospitals Bureau of Health Services Financing**

Pediatric Day Health Care Program  
(LAC 48:I.5237, 5247, 5257, 12501-12503,  
and 12508 and LAC 50:XV.27503)

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 48:I.5237, §5247, §5257, §12501-12503, adopts §12508, and amends LAC 50:XV.27503 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

In compliance with Act 432 of the 2004 Regular Session of the Louisiana Legislature, the Department of Health and Hospitals, Bureau of Health Services Financing adopted provisions governing the licensing standards for pediatric day health care facilities (*Louisiana Register*, Volume 35, Number 12). The department subsequently adopted provisions to implement pediatric day health care (PDHC) services as an optional covered service under the Medicaid State Plan (*Louisiana Register*, Volume 36, Number 7).

The department now proposes to amend the licensing standards for PDHC facilities to revise the provisions governing provider participation, development and educational services and transportation requirements. The department also proposes to adopt provisions for the inclusion of PDHC facilities in the Facility Need Review (FNR) Program. This Emergency Rule will also amend the provisions governing pediatric day health care services in order to revise the recipient criteria which will better align the program's operational procedures with the approved Medicaid State Plan provisions governing these services.

This action is being taken to avoid sanctions or federal penalties from the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS), as the administrative rule is not consistent with the approved Medicaid state plan for PDHC services, and to ensure that these optional services are more cost effective

and appropriate. It is estimated that implementation of this Emergency Rule will reduce expenditures in the Medicaid Program by approximately \$389,332 in state fiscal year 2013-2014.

Effective March 1, 2014, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the recipient criteria for pediatric day health care services.

### **Subchapter B. Determination of Bed, Unit, Facility or Agency Need**

#### **§12508. Pediatric Day Health Care Providers**

A. No PDHC provider shall be licensed to operate unless the FNR Program has granted an approval for the issuance of a PDHC provider license. Once the FNR Program approval is granted, a PDHC provider is eligible to be

licensed by the department, subject to meeting all of the requirements for licensure.

B. For purposes of facility need review, the service area for a proposed PDHC shall be within a 30 mile radius of the proposed physical address where the provider will be licensed.

#### **C. Determination of Need/Approval**

1. The department will review the application to determine if there is a need for an additional PDHC provider in the geographic location and service area for which the application is submitted.

2. The department shall grant FNR approval only if the FNR application, the data contained in the application, and other evidence effectively establishes the probability of serious, adverse consequences to recipients' ability to access health care if the provider is not allowed to be licensed.

3. In reviewing the application, the department may consider, but is not limited to, evidence showing:

- a. the number of other PDHC providers in the same geographic location, region, and service area servicing the same population; and
- b. allegations involving issues of access to health care and services.

4. The burden is on the applicant to provide data and evidence to effectively establish the probability of serious, adverse consequences to recipients' ability to access health care if the provider is not allowed to be licensed. The department shall not grant any FNR approvals if the application fails to provide such data and evidence.

D. Applications for approvals of licensed providers submitted under these provisions are bound to the description in the application with regard to the type of services proposed as well as to the site and location as defined in the application. FNR approval of licensed providers shall expire if these aspects of the application are altered or changed.

E. FNR approvals for licensed providers are non-transferable and are limited to the location and the name of the original licensee.

1. A PDHC provider undergoing a change of location in the same licensed service area shall submit a written attestation of the change of location and the department shall re-issue the FNR approval with the name and new location. A PDHC provider undergoing a change of location outside of the licensed service area shall submit a new FNR application and appropriate fee and undergo the FNR approval process.

2. A PDHC provider undergoing a change of ownership shall submit a new application to the department's FNR Program. FNR approval for the new owner shall be granted upon submission of the new application and proof of the change of ownership, which must show the seller's or transferor's intent to relinquish the FNR approval.

3. FNR approval of a licensed provider shall automatically expire if the provider is moved or transferred to another party, entity or location without application to and approval by the FNR program.

2. require ongoing skilled medical care or skilled nursing care by a knowledgeable and experienced licensed professional registered nurse (RN) or licensed practical nurse (LPN);

3. have a medically complex condition(s) which require frequent, specialized therapeutic interventions and close nursing supervision. Interventions are those medically necessary procedures provided to sustain and maintain health and life. Interventions required and performed by individuals other than the recipient's personal care giver would require the skilled care provided by professionals at PDHC centers. Examples of medically necessary interventions include, but are not limited to:

a. suctioning using sterile technique;

b. provision of care to a ventilator dependent and/or oxygen dependent recipients to maintain patent airway and adequate oxygen saturation, inclusive of physician consultation as needed;

c. monitoring of blood pressure and/or pulse oximetry level in order to maintain stable health condition and provide medical provisions through physician consultation;

d. maintenance and interventions for technology dependent recipients who require life-sustaining equipment; or

4. have a medically fragile condition, defined as a medically complex condition characterized by multiple, significant medical problems that require extended care. Medically fragile individuals are medically complex and potentially dependent upon medical devices, experienced medical supervision, and/or medical interventions to sustain life;

a. medically complex may be considered as chronic, debilitating diseases or conditions, involving one or more physiological or organ systems, requiring skilled medical care, professional observation or medical intervention;

b. examples of medically fragile conditions include, but are not limited to:

- i. severe lung disease requiring oxygen;
- ii. severe lung disease requiring ventilator or tracheotomy care;
- iii. complicated heart disease;
- iv. complicated neuromuscular disease; and
- v. unstable central nervous system disease;

5. have a signed physician's order, not to exceed 180 days, for pediatric day health care by the recipient's physician specifying the frequency and duration of services; and

6. be stable for outpatient medical services.

B. If the medical director of the PDHC facility is also the child's prescribing physician, the Department reserves the right to review the prescription for the recommendation of the child's participation in the PDHC Program.

1. - 1.j. Repealed.

C. Re-evaluation of PDHC services must be performed, at a minimum, every 120 days. This evaluation must include a review of the recipient's current medical plan of care and provider agency documented current assessment and progress toward goals.

D. A face-to-face evaluation shall be held every four months by the child's prescribing physician. Services shall be revised during evaluation periods to reflect accurate and appropriate provision of services for current medical status.

E. Physician's orders for services are required to individually meet the needs of each recipient and shall not be in excess of the recipient's needs. Physician orders prescribing or recommending PDHC services do not, in themselves, indicate services are medically necessary or indicate a necessity for a covered service. Eligibility for participation in the PDHC Program must also include meeting the medically complex provisions of this Section.

F. When determining the necessity for PDHC services, consideration shall be given to all of the services the recipient may be receiving, including waiver services and other community supports and services. This consideration must be reflected and documented in the recipient's treatment plan.

## DECLARATION OF EMERGENCY

### Department of Health and Hospitals Bureau of Health Services Financing

Pharmacy Benefits Management Program  
State Supplemental Rebate Agreement Program  
(LAC 50:XXIX.Chapter 11)

The Department of Health and Hospitals, Bureau of Health Services Financing adopts LAC 50:XXIX.Chapter 11 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing provides Medicaid coverage of prescription drugs through its Pharmacy Benefits Management Program. The department amended the provisions governing the Pharmacy Benefits Management Program in order to establish provisions for the Medicaid Program's participation in The Optimal PDL Solution (TOP\$) State Supplemental Rebate Agreement Program which is a multi-state Medicaid state supplemental drug rebate pooling initiative (*Louisiana Register*, Volume 39, Number 10). This program allows states to leverage their pharmaceutical purchasing power as a group to achieve more supplemental rebates than could be achieved independently. It is anticipated that this program will lower the net cost of brand drugs and the overall dollars spent on pharmacy benefits. This Emergency Rule is being promulgated to assure compliance with the technical requirements of R.S. 49:953, and to continue the provisions of the October 1, 2013 Emergency Rule governing the Pharmacy Benefits Management Program which established provisions for the Medicaid Program's participation in The Optimal PDL Solution (TOP\$) State Supplemental Rebate Agreement Program.

This action is being taken to avoid a budget deficit in the medical assistance programs. It is estimated that implementation of this Emergency Rule will have no fiscal impact for state fiscal year 2013-2014 as the fiscal projections were included in the October 1, 2013 Emergency Rule governing the Pharmacy Benefits Management Program.

Effective February 22, 2014, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the Medicaid coverage of prescription drugs to establish provisions for participation in TOP\$ State Supplemental Rebate Agreement Program.

B. Pursuant to R.S. 46:153.3, the department shall enter into a contractual agreement with Provider Synergies to participate in TOP\$. Provider Synergies/Magellan Medicaid Administration will act on the department's behalf to provide the necessary administration services relative to this agreement for the provision of state supplemental drug rebate contracting and preferred drug list administration services.

## DECLARATION OF EMERGENCY

### Department of Health and Hospitals Bureau of Health Services Financing

Prohibition of Provider Steering of Medicaid Recipients  
(LAC 50:I.Chapter 13)

The Department of Health and Hospitals, Bureau of Health Services Financing adopts LAC 50:I.Chapter 13 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing administers the Medicaid Program which provides health care coverage to eligible recipients through Medicaid contracted managed care entities and/or through Medicaid fee-for-service.

The department promulgated an Emergency Rule which adopted provisions prohibiting Medicaid providers and contracted managed care entities from engaging in provider

steering in order to ensure the integrity of Medicaid recipients' freedom of choice in choosing a particular health plan in which to enroll and, when eligible, the freedom of choice in deciding whether or not to receive care through Medicaid fee-for-service (*Louisiana Register*, Volume 39, Number 12). This Emergency Rule also established criteria for the sanctioning of providers and managed care entities who engage in provider steering of Medicaid recipients. The department now proposes to amend the December 1, 2013 Emergency Rule in order to clarify these provisions and to incorporate provisions governing provider appeals.

This action is being taken to avoid federal sanctions from the Centers for Medicare and Medicaid Services (CMS) by ensuring the integrity of Medicaid recipients' freedom of choice in choosing a health care provider, and to ensure compliance with the federal regulations which apply to contract requirements contained in 42 CFR §438.104.

Effective March 20, 2014, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions of the December 1, 2013 Emergency Rule governing the prohibition of provider steering of Medicaid recipients.

## DECLARATION OF EMERGENCY

### Department of Health and Hospitals Office of Public Health

#### Minimum Disinfectant Residual Levels in Public Water Systems

(LAC 51:XII.Chapter 3, 903, Chapter 11 and 1503)

The state health officer, acting through the Department of Health and Hospitals, Office of Public Health (DHH-OPH), pursuant to the rulemaking authority granted by R.S. 40:4(A) (8) and (13), hereby adopts the following Emergency Rule to prevent an imminent peril to the public health and safety. This Rule is being promulgated in accordance with the Administrative Procedure Act (R.S. 49:950, et seq.).

The state health officer, through DHH-OPH, finds it necessary to promulgate an Emergency Rule effective March 6, 2014. This Emergency Rule increases the minimum disinfection residual levels that are required for public water systems. Among other items addressed as well, the rule increases the number of residual measurements taken monthly by 25 percent. The Rule clarifies that daily residual measurements are required at the point of maximum residence time in the distribution system and records of chlorine residual measurements taken in the distribution system, besides from the treatment plant(s) itself, shall be recorded and retained by the public water system as required by the National Primary Drinking Water Regulations (as this term is defined in Part XII). This Rule is based upon scientific data and recommendations from the federal Centers for Disease Control and Prevention (CDC) relative to the control of the *Naegleria fowleri* (brain-eating amoeba) parasite, which has recently been found in two public water systems in Louisiana. Unless rescinded or terminated earlier, this Emergency Rule shall remain in effect for the maximum period authorized under state law. This Emergency Rule may

be amended as additional research and science data becomes available.

**§361. Implementation of Disinfection Requirements**

A. A public water system not holding a disinfection variance on November 6, 2013 shall comply with the requirements of §355.A, §357, §367.C, and §367.G of this Part on the later of:

1. February 1, 2014; or
2. the expiration date of any additional time for compliance beyond February 1, 2014 granted by the state health officer. A request for additional time may be submitted in writing prior to February 1, 2014 only, and shall provide detailed justification and rationale for the additional time requested. The state health officer may grant such additional time if significant infrastructure improvements are required to achieve compliance with said requirements.

B. A public water system holding a disinfection variance on November 6, 2013 shall comply with one of the following options by February 1, 2014:

1. implement continuous disinfection that complies with the requirements of §355.A, §357, §367.C, and §367.G of this Part;

2. request additional time for complying with the requirements of §355.A, §357, §367.C, and §367.G of this Part by submitting a written request, if significant infrastructure improvements are required to achieve compliance therewith or extraordinary circumstances exist with regard to the introduction of disinfection to the system. Such written request shall provide detailed justification and rationale for the additional time requested;

3. (This option shall be available only if the public water system's potable water distribution piping is utilized for onsite industrial processes.) notify the state health officer in writing that in lieu of implementing continuous disinfection, the PWS has provided, and will thereafter provide on a quarterly basis, notification to all system users, in a manner compliant with §1907 of this Part, that the system does not disinfect its water. The notification shall state that because the water is not disinfected, the water quality is unknown in regard to the *Naegleria fowleri* amoeba. A public water system selecting this option must sign an acknowledgement form, to be developed by the state health officer, stating that the public water system understands the risks presented by the lack of disinfection and that the public water system maintains responsibility for ensuring the safety of its water for end users; or

4. (This option shall be available only if the public water system's potable water distribution piping is utilized for onsite industrial processes.) request approval of an alternate plan providing water quality and public health protection equivalent to the requirements of §355.A and §357 of this Part. The state health officer may approve such a plan only if it is supported by peer reviewed, generally accepted research and science.

AUTHORITY NOTE: Promulgated in accordance with R.S. 40:4 (A)(8)(13) and R.S. 40:5 (2)(3)(5)(6)(17)(20).

**§363. Revocation of Variances**

**[formerly paragraph 12:021-5]**

A. A variance from mandatory disinfection shall be revoked when a public water system has a bacteriological MCL violation. When a variance is revoked, the system shall install mandatory continuous disinfection as stated in §355 of this Part within the times specified in a compliance schedule submitted to and approved by the state health officer. Such schedule shall be submitted within 10 days of receipt of notice of revocation.

B. Except for variances held by qualifying public water systems that comply with §361.B.3 of this Part or receive approval of an alternate plan under §361.B.4 of this Part, any variance concerning the mandatory disinfection requirements of §355 and/or §357 of this Part held by a public water system as of November 6, 2013 shall be automatically revoked on the later of:

1. February 1, 2014;
2. The expiration date of any additional time for compliance granted by the state health officer under §361.B.2 of this Part; or
3. The denial of a request for approval of an alternate plan submitted under §361.B.4 of this Part.

A. Disinfectant Residual Monitoring in Treatment Plant. A public water system (PWS) shall measure the residual disinfectant concentration in water being delivered to the distribution system at least once per day.

B. Disinfectant Residual Monitoring in Distribution System. A PWS shall measure the residual disinfectant concentration within the distribution system:

1. by sampling at the same points in the distribution system and at the same times that samples for total coliforms are required to be collected by the PWS under this Part;

2. by sampling at an additional number of sites calculated by multiplying 0.25 times the number of total coliform samples the PWS is required under this Part to take on a monthly or quarterly basis, rounding any mixed (fractional) number product up to the next whole number. These additional residual monitoring samples shall be taken from sites in low flow areas and extremities in the distribution system at regular time intervals throughout the applicable monthly or quarterly sampling period; and

3. by sampling at the site that represents the maximum residence time (MRT) in the distribution system at least once per day.

C. A PWS shall increase sampling to not less than daily at any site in the distribution system that has a measured disinfectant residual concentration of less than 0.5 mg/l free chlorine or 0.5 mg/l chloramine residual (measured as total chlorine) until such disinfectant residual concentration is achieved at such site.

D. The records of the measurement and sampling required under Subsections A and B of this Section shall be maintained on forms approved by the state health officer and shall be retained as prescribed in the National Primary Drinking Water Regulations, and shall be made available for review upon request by the state health officer.

E. Each PWS shall submit a written monitoring plan to the state health officer for review and approval. The monitoring plan shall be on a form approved by the state health officer and shall include all the total coliform and disinfectant residual monitoring sites required under this Section and §903.A of this Part. Each PWS shall also submit a map of the distribution system depicting all total coliform and disinfectant residual monitoring sites required under this Section. The sites shall be identified along with a 911 street address (if there is no 911 street address, then the latitude/longitude coordinates shall be provided). A PWS in existence as of November 6, 2013 shall submit such a monitoring plan no later than January 1, 2014.

F. Chlorine residuals shall be measured in accordance with the analytical methods set forth in §1105.C of this Part.

G. Where a continuous chloramination (i.e., chlorine with ammonia addition) method is used, a nitrification control plan shall be developed and submitted to the state health officer. A PWS in existence as of November 6, 2013 shall submit such a nitrification control plan no later than March 1, 2014.

Each public water system (PWS) shall submit a written monitoring plan on a form approved by the state health officer. The monitoring plan shall include a minimum number of point of collection (POC) monitoring sites calculated by multiplying 1.5 times the minimum number of samples required to be routinely collected in accordance

with Subsections C and D of this Section, rounding any mixed (fractional) number product up to the next whole number. The monitoring plan shall include a map of the system with each POC sampling site identified along with a 911 street address (if there is no 911 street address, then the latitude/longitude coordinates shall be provided). In accordance with requirements of Subsection E of this Section, the plan shall also indicate how the PWS will alternate routine sampling between all of the approved POC sampling sites.

B. - D. ...

E. Unless the state health officer specifies otherwise, the public water supply shall collect routine samples at regular time intervals throughout the month and shall alternate routine sampling between all of the approved POC sites. Routine samples shall not be collected from the same POC more than once per month.

### Department of Economic Development Office of Business Development

#### Economic Zone Program (LAC 13:I.Chapter 7)

The Department of Economic Development, Office of Business Development, as authorized by and pursuant to the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., and R.S. 36:104, has amended §§701-749 and adopted §751 for the administration of the Enterprise Zone Program.

#### Title 13

#### ECONOMIC DEVELOPMENT

#### Part I. Financial Incentive Programs

#### Chapter 7. Enterprise Zone Program

#### §701. Scope and Qualifications

A. Intent of Program. The intent of the program is to stimulate employment for residents in depressed areas of the state that are designated as enterprise zones by providing tax incentives to a business hiring from these areas.

B. Description of Program. The Louisiana Enterprise Zone Program is a jobs program that gives tax incentives to a business hiring from certain specified targeted groups of individuals. Enterprise zone program incentives are in addition to other state-sponsored incentives such as the industrial tax exemption program and the Restoration Tax Abatement Program. Enterprise zone and quality jobs programs are mutually exclusive.

C. Incentives. The following incentives are available:

1. a one-time tax credit of \$2,500 for each net new job;

2. in lieu of the §701.C.1 tax credit, a one-time tax credit of \$5,000 for each net new job for the following businesses:

a. aviation and aerospace industries as defined in the NAICS industries 336411, 336412, 336413 or 332912;

b. the rubber manufacturing industry as defined in the NAICS industry 326211 (until June 30, 2012); or

c. auto parts manufacturers as defined in the NAICS industry group 3363 (until June 30, 2009);

3. in addition to the §701.C.1 and §701.C.2 tax credits, a one-time tax credit of \$2,500 for each recipient of temporary assistance for needy families (TANF) hired by a business. The TANF recipient must receive compensation which will disqualify them from continued participation in TANF and must be employed for two years to generate the additional tax credit. An employer shall not obtain the jobs tax credit for more than 10 TANF employees in the first year of participation in the program;

4. rebates of sales and use taxes imposed by the state, and sales and use taxes imposed by its political subdivisions upon approval of the governing authority of the appropriate taxing political subdivision, on all eligible purchases during a specified project period of not more than 30 months:

a. sales and use taxes imposed by a political subdivision which are dedicated to the repayment of bonded indebtedness or dedicated to schools shall not be eligible for rebate;

b. a business seeking a local sales and use tax rebate must obtain an endorsement resolution specific to the project from each political subdivision levying the taxes to be rebated. The endorsement resolution must clearly state the intention to rebate sales and use taxes as allowable for the project. The endorsement resolution must be adopted prior to board approval of the application, or if the project cost is greater than one hundred million dollars, prior to the project ending date;

5. in lieu of the §701.C.4 rebates, a refundable investment tax credit equal to one and one-half percent of the amount of qualified expenditures for assets that are located at the project site and are placed in service during the project period.

D. The §701.C.1, §701.C.2, and §701.C.3 tax credits may be used to satisfy state income tax and franchise tax liabilities, and may be taken on the tax return for the year in which the credit was created, or it may be taken on the tax return for a future year. If the entire tax credit cannot be used in the year created, the remainder may be applied against state income tax and franchise tax liabilities for the succeeding 10 years from the year in which the credit was created or until the entire credit is used, whichever occurs first.

E. Qualifications

1.a. To qualify for the enterprise zone program, a business must create permanent full-time net new jobs that are at least equal to the lesser of:

i. five jobs, created within the first two years of the contract period; or

ii. the number of jobs equal to a minimum of 10 percent of the employees employed throughout the United States by the business and its affiliates, a minimum of one, created within the first year of the contract period.

b. For good cause shown, the board may grant an extension of not more than two years to comply with the above job creation requirements.

2. For projects with advance notifications filed with business incentives services prior to June 21, 2013, qualification will be determined in accordance with prior policy and practice in place at the time of the filing of the advance notification.

3. Residential developments, (including but not limited to the construction, selling, or leasing of single-family or multi-family dwellings, apartment buildings, condominiums, town houses, etc.), churches, and businesses with gaming on site (see LAC 13:I.Chapter 3, Gaming Ineligibility) are not eligible for enterprise zone benefits.

B. An advance notification expires one year after the estimated project ending date shown on the advance notification, unless an application is timely filed, or a written date revision request is received by business incentive services prior to the expiration date.

C. An advance notification filed after the beginning of the project requires a waiver of late filing from the board, based upon events beyond the control of the business caused the late filing or documented fault or error on the part of the business incentive services that caused the business's late filing. Total estimated tax relief includes jobs tax credits, state sales and use tax rebates and investment tax credits. Jobs tax credits are calculated by multiplying the total new jobs estimated to be created within the five-year contract period by \$2,500 (\$5,000 for rubber, aerospace or auto parts manufacturers). An additional application fee will be due if a project's employment or investment is increased from that stated in the application, resulting in a minimum fee of \$100 more than previously paid. **Department of Environmental Quality  
Office of the Secretary

Asbestos-Containing Materials in  
Schools and State Buildings  
(LAC 33:III.Chapter 27)(AQ329S)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary has amended the Air regulations, LAC 33:III.2701, 2703, 2705, 2707, 2711, 2713, 2717, 2719, 2721, 2723, 2725, 2735, 2739, 2741 and 2799 (AQ329).

LAC 33:III.Chapter 27 requires local education agencies and the state government to identify friable and nonfriable asbestos containing material (ACM) in schools and state buildings by visually inspecting schools and develop management plans to manage the asbestos. This action is required to delete unnecessary language, clarify some language in the regulations and make necessary changes in order to help implement the programs. The basis and rationale for this Rule revision is to clarify language adopted from the federal regulations to ensure that the regulated community understands the requirements to protect public health when disturbing asbestos-containing materials. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

**Title 33  
ENVIRONMENTAL QUALITY  
Part III. Air**

**Chapter 27. Asbestos-Containing Materials (ACM) in  
Schools and State Buildings**

**§2701. Asbestos-Containing Materials (ACM) in  
Schools and State Buildings**

A. - B.1. ...

2. Except for the requirement to submit Form AAC-8 pursuant to LAC 33:III.2723.A, state buildings built after 1978 are exempt from the requirements of this Chapter if:

a. the state building is not used as a school building for the education of grades kindergarten through post-graduate; or

b. the state building does not contain asbestos as determined through review and approval of the Office of Environmental Services prior to occupancy of the building by:

i. a signed *statement(s) of no asbestos in construction* as defined in LAC 33:III.2703.A that addresses the entire building, and all additions and renovations; or

ii. an inspection report submitted in accordance with LAC 33:III.2707 as a result of an inspection stating that no asbestos is contained in, or on the outside of the state building, together with signed statement(s) of no asbestos in construction that address all additions and renovations conducted after the inspection; and

c. a copy of the department approval of any documents submitted pursuant to Subparagraph B.2.a. of this Subsection shall be maintained at the administrative office of the building.

3. Except for the requirement to submit Form AAC-8 pursuant to LAC 33:III.2723.A, state buildings built prior to 1979 are exempt from the requirements of this Chapter provided that:

a. the building is not used as a school building for the education of grades kindergarten through post-graduate;

b. prior to occupancy, the department reviews and approves documentation of one of the following:

i. the complete renovation of the state building after January 1, 1979 that complied with the following:

(a) an inspection conducted during the renovation that showed that all ACM was removed from the inside and the outside of the building; and

(b) no asbestos containing material was added in the renovations as documented by signed statement(s) of no asbestos in construction; or

ii. an inspection conducted in accordance with LAC 33:III.2707.A reveals that no asbestos is contained in or on the outside of the state building; and

c. no asbestos containing materials were added to the building subsequent to the inspection conducted pursuant to Clause B.3.b.i of this Section or the renovation conducted in accordance with Clause B.3.b.ii of this Section as documented by signed statement(s) of no asbestos in construction;

d. a copy of the documentation submitted pursuant to Subparagraphs B.3.b and c of this Section shall be submitted to the Office of Environmental Services; and

e. a copy of the documentation submitted pursuant to Subparagraphs B.3.b and c of this Section and department approval shall be maintained at the building administrative office.

**C. Scope**

1. This regulation requires local education agencies and the state government to identify friable and nonfriable ACM in schools and state buildings by visually inspecting schools and state buildings for such materials, sampling such materials if they are not assumed to be ACM, and having samples analyzed by appropriate techniques referred to in this Rule. The regulation requires local education agencies and the state government to submit management plans to the Office of Environmental Services at least 30 days prior to

occupancy of any school or state building, and implement the plan within 180 days after occupancy.

2. If an exemption is requested for a state building that contains no asbestos, a determination supporting that exemption shall be submitted in accordance with Subparagraph B.2.b or 3.b of this Section.

3. Management plans submitted to and approved by the Department of Environmental Quality shall meet the inspection and assessment requirements of this Chapter.

4. In addition, local education agencies and the state government are required to employ persons who have been accredited to conduct inspections, reinspections, develop management plans, or perform response actions including the design of those actions.

5. The regulation also includes recordkeeping requirements.

6. Local education agencies and the state government may contractually delegate their duties under this Rule, but they remain responsible for the proper performance of those duties.

7. Local education agencies and the state government are encouraged to consult with the Office of Environmental Compliance of the Department of Environmental Quality for assistance in complying with this Rule.

8. Local education agencies and the state government shall provide for the transportation and disposal of asbestos in accordance with provisions of LAC 33:III.Chapter 51, Subchapter M.

**§2703. Definitions**

A. The terms used in this Chapter are defined in LAC 33:III.111 and LAC 33:III.5151.B of these regulations with the exception of those terms specifically defined in this Section as follows.

\* \* \*

*Accredited* or *Accreditation*—when referring to a person, *accreditation* by the Department of Environmental Quality under the provisions of LAC 33:III.2799 and when referring to a laboratory, *accreditation* under the provisions of LAC 33:I, Subpart 3, Chapters 45-59.

\* \* \*

*Asbestos-Containing Material (ACM)*—when referring to schools or state buildings, any material or product which contains more than 1 percent asbestos as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy.

\* \* \*

*Category I Nonfriable ACM*—asbestos-containing packings, gaskets, resilient floor covering, and asphalt roofing products containing more than 1 percent asbestos as determined by using the method specified in appendix E,

subpart E, 40 CFR part 763, section 1, polarized light microscopy that when dry cannot be crumbled, pulverized, or reduced to powder by hand pressure.

*Category II Nonfriable ACM*—any material, excluding category I nonfriable ACM, containing more than 1 percent asbestos as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

*Damaged Floor Covering that Contains ACM*—resilient floor covering or the mastic used to attach it to the floor surface that contains ACM which has deteriorated or sustained physical impact such that the internal structure (cohesion) of the material is inadequate or, if applicable, which has delaminated such that its bond to the substrate (adhesion) is inadequate or which for any other reason lacks fiber cohesion or adhesion qualities. Such damage or deterioration may be illustrated by the separation of ACM into layers; separation of ACM from the substrate; flaking, blistering or crumbling of the ACM surface; water damage; significant or repeated water stains; scrapes, gouges, or mars; or other signs of physical impact on the ACM. Asbestos debris originating from the ACBM in question may also indicate damage.

\* \* \*

*Facility Component*—any part of a facility, including equipment, that is under the control of a local education agency or the state.

\* \* \*

*Friable Asbestos-Containing Material (ACM)*—any material containing more than 1 percent asbestos as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy, which has been applied on ceilings, walls, structural members, piping, duct work, or any other part of the building, which when dry, may be crumbled, pulverized, or reduced to powder by hand pressure. If the asbestos content is less than 10 percent as determined by a method other than point counting by polarized light microscopy (PLM), the asbestos content can be verified by point counting using PLM or assume the amount to be greater than 1 percent and treat the material as ACM.

\* \* \*

*Guest Instructor*—an individual with expertise in a specific non-asbestos field who is designated by the RATP or principal trainer to provide instruction specific to certain course topics (i.e., law, medicine, etc.).

\* \* \*

*Inspection*—any activity undertaken in a school building, or a state building, to determine the presence or location, or to assess the condition of friable or nonfriable asbestos-containing material (ACM), whether by visual or physical examination, or by collecting samples of such material. This term includes reinspections of friable and nonfriable known or assumed ACM which has been previously identified. The term does not include the following:

a. - b. ...

c. visual inspections of the type described in LAC 33:III.2717.J solely for the purpose of determining completion of response actions.

*Local Education Agency*—

a. a public board of education or other authority legally constituted within Louisiana for either administrative control or direction of, or to perform a service function for, public or private; profit or nonprofit; day, night, or residential schools; elementary or secondary schools, colleges, graduate, medical, dental, or post-graduate education institutions;

b. the governing authority of any elementary or secondary school, college, or post-graduate education institution.

\*\*\*

*Operations and Maintenance Program (O and M)*—a program of work practices to maintain regulated ACM in good condition, ensure cleanup of asbestos fibers previously released, and prevent further release by minimizing and controlling disturbance or damage of regulated ACM.

\*\*\*

*Principal Trainer*—the trainers recognized by the department and identified by the RATP in its application for recognition to provide instruction in asbestos training courses (e.g., inspector, etc.).

\*\*\*

*Recognized Asbestos Training Provider (RATP)*—a person or organization recognized by the department, to provide training related to asbestos activities conducted in Louisiana.

*Regulated Asbestos-Containing Material (RACM)*—

a. friable asbestos material;

b. category I and II nonfriable ACM that has become friable such as asbestos-cement material that is not removed from a facility prior to demolition;

c. category I and II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized, ground, sanded, cut, abraded, or reduced to powder by the forces that have acted or are expected to act on the material in the course of demolition or renovation operations; or

d. resilient floor covering or the asbestos-containing mastic used to attach it to the floor surface that is scraped, sanded, abraded, bead blasted, cut, ground, crumbled, pulverized, or reduced to powder by any means, including hand and mechanical equipment. This definition does not include resilient floor covering removed by using dry ice, heat, wet methods, and chemicals where the tiles or sheeting are removed intact (minor tears or minor breakage is acceptable where, for all intents and purposes, the flooring is considered whole) or asbestos-containing mastic that has been removed by chemical or other means that results in the asbestos fibers in ACWM being bound within a macro substrate and cannot reasonably become airborne unless further forces are applied.

\*\*\*

*Related Scientific Field*—animal science, biological sciences, chemistry, geosciences, atmospheric sciences, soil sciences, physical geography, physics, health sciences, toxicology, environmental sciences, wildlife and fisheries sciences, engineering, nuclear science, agronomy, forestry, health physics, medical physics, or statistics and quantitative methods.

Schools do not include locations where the primary purpose is not the education of students, but that provide for internships or other on the job training.

*School Building*—

a. - e. ...

f. any exterior structure, portico or covered exterior hallway or walkway and any exterior portion of a mechanical system used to condition interior space.

*Significantly Damaged Floor Covering that Contains ACM*—damaged floor covering that contains ACM where the damage is extensive and severe.

**§2717. Response Actions**

A. The local education agency or the state government shall select and implement in a timely manner the appropriate response actions in this Section consistent with the assessment conducted in LAC 33:III.2713. The response actions selected shall be sufficient to protect human health and the environment. The local education agency or the state government may then select, from the response actions which protect human health and the environment, that action which is the least burdensome method. Nothing in this Section shall be construed to prohibit removal of ACBM from a school or state building at any time, should removal be the preferred response action of the local education agency or the state government. If any damaged or significantly damaged thermal system insulation, friable surfacing ACM or miscellaneous ACM is present, the local education agency or the state government shall:

1. immediately isolate the area with the damaged or significantly damaged thermal system insulation, and restrict

access to protect human health and the environment until the response action is completed; and

2. perform any response actions in accordance with appropriate requirements as provided in LAC 33:III.5151.

B. If damaged or significantly damaged thermal system insulation ACM is present in a building, the local education agency or the state government shall:

1. repair the damaged area;

2. remove the damaged material if it is not feasible, due to technological factors, to repair the damage; and

3. maintain all thermal system insulation ACM and its covering in an intact state and undamaged condition.

C. Selection of Response Action for Damaged ACM

1. If damaged friable surfacing ACM or damaged friable miscellaneous ACM or damaged floor covering that contains ACM is present in a school or state building, the local education agency, or the state government shall select from among the following response actions: encapsulation, enclosure, removal, or repair of the damaged material.

2. In selecting the response action from among those that meet the definition in LAC 33:III.2703 and, the local education agency or the state government shall determine which of these response actions protects human health and the environment. For purposes of determining which of these response actions are the least burdensome, the local education agency or the state government may then consider local circumstances, including occupancy and use patterns within the school or state building, and its economic concerns, including short- and long-term costs.

D. Selection of Response Action for Significantly Damaged ACM

1. If significantly damaged friable surfacing ACM or significantly damaged friable miscellaneous ACM or significantly damaged floor coverings as defined in LAC 33:III.2703.A that contain ACM is present in a school or state building, the local education agency or the state government shall remove the material in the functional space, or depending upon whether enclosure or encapsulation would be sufficient to protect human health and the environment, enclose or encapsulate.

E. If any friable surfacing ACM, thermal system insulation ACM friable miscellaneous ACM, or floor coverings that contain ACM that has potential for damage is present in a building, the local education agency or the state government shall at least implement an operations and maintenance (O and M) program, as described under LAC 33:III.2719.

F. If any friable surfacing ACM, thermal system insulation ACM, friable miscellaneous ACM, or any floor covering that contains ACM that has potential for significant damage is present in a building, the local education agency or the state government shall:

1. - 3. ...

G. A response action related to removal of floor coverings that contain ACM in a school or state building shall follow the requirements of this Section and those requirements related to renovations in LAC 33:III.5151.F and J.

H. Response actions including removal, encapsulation, enclosure, or repair, other than SSSD repairs, shall be designed, supervised and conducted by persons accredited to design, supervise and conduct response actions.

I. Local education agencies and the state government shall comply with either the OSHA asbestos worker protection for general industry at 29 CFR 1910.1001 or the asbestos construction standard at 29 CFR 1926.1101, whichever is applicable.

J. Completion of Response Actions

1. At the conclusion of any action to remove, encapsulate, or enclose ACBM or material assumed to be ACBM, a person designated by the local education agency or the state government, shall visually inspect each functional space where such action was conducted to determine whether the action has been properly completed.

2. The following requirements apply to collection and analysis of air samples.

a. A person designated by the local education agency or the state government shall collect air samples using aggressive sampling as described in EPA regulations contained in 40 CFR part 763, subpart E, appendix A to monitor air for clearance after each removal, encapsulation, and enclosure project involving ACBM, except for SSSD projects.

b. Local education agencies and the state government shall have air samples collected under this Section analyzed for asbestos using laboratories accredited by the Department of Environmental Quality according to LAC 33:I, Subpart 3, Chapters 45-59, to conduct such analysis using phase contrast microscopy (PCM) and transmission electron microscopy (TEM) equipped with an energy dispersive x-ray analysis system or, under circumstances permitted in this Section.

3. Except as provided in Paragraph J.4, 5, or 7 of this Section, an action to remove, encapsulate, or enclose ACBM shall be considered complete when the average concentration of asbestos of five air samples collected within the affected functional space and analyzed by the TEM method contained in EPA regulations 40 CFR part 763, subpart E, appendix A is not statistically significantly different, as determined by the Z-test calculation found in EPA regulations 40 CFR part 763, subpart E, appendix A from the average asbestos concentration of five air samples collected at the same time outside the affected functional space and analyzed in the same manner, and the average asbestos concentration of the three field blanks described in EPA regulations, 40 CFR part 763, subpart E, appendix A is below the filter background level of 70 structures per square millimeter ( $70 \text{ s/mm}^2$ ).

4. An action may also be considered complete if the volume of air drawn for each of the five samples collected within the affected functional space is equal to or greater than 1,199 L of air for a 25-mm filter or equal to or greater than 2,799 L of air for a 37-mm filter, and the average concentration of asbestos as analyzed by the TEM method in EPA regulations, 40 CFR part 763, subpart E, appendix A for the five air samples does not exceed the filter background level of 70 structures per square millimeter ( $70 \text{ s/mm}^2$ ). If the average concentration of asbestos of the five air samples within the affected functional space exceeds  $70 \text{ s/mm}^2$ , or if the volume of air in each of the samples is less than 1,199 L of air for a 25-mm filter or less than 2,799 L of air for a 37-mm filter, the action shall be considered complete only when the requirements of Paragraph J.3 or 5 of this Section are met.

5. At any time, a local education agency or the state government may analyze air monitoring samples collected for clearance purposes by phase contrast microscopy (PCM) to confirm completion of removal, encapsulation, or enclosure of ACM that is greater than SSSD and less than or equal to 64 square feet or 60 linear feet. The action shall be considered complete when the results of samples collected in the affected functional space and analyzed by PCM using the National Institute for Occupational Safety and Health (NIOSH) Method 7400 entitled "Fibers" published in the *NIOSH Manual of Analytical Methods*, 3rd Edition, Second Supplement, August 1987, show that the concentration of fibers for each of the five samples is less than or equal to a limit of quantitation for PCM (0.01 fibers per cubic centimeter [0.01 f/cm<sup>3</sup>] of air). A description of the method is available at the Office of the Federal Register information center. The method is incorporated as it exists on the effective date of this Rule, and a notice of any change to the method will be published in the *Louisiana Register*.

6. To determine the amount of ACM affected under Paragraph J.5 of this Section, the local education agency or the state government shall add the total square or linear footage of ACM within the containment barriers used to isolate the functional space for the action to remove, encapsulate, or enclose the ACM. Contiguous portions of material subject to such action conducted concurrently or at approximately the same time within the same school or state building shall not be separated to qualify under Paragraph J.5 of this Section.

7. In the case of a demolition of a school or state building where occupants will not reenter the building, clearance sampling is not required.

K. Response actions in a school building, state building, or public and commercial building including removal, encapsulation, enclosure, or repair, other than SSSD shall be designed, supervised, and conducted by persons accredited to perform such activities.

### §2799. Appendix A—Agent Accreditation Plan

A. Purpose. Training requirements for purposes of accreditation are specified in both terms of required subjects of instruction and in terms of length of training. The duration of initial and refresher training courses is specified in numbers of days. A day of training equals eight consecutive training hours, including breaks and lunch. Course instruction shall be provided either by DEQ RATPs or from training providers recognized by EPA or an EPA authorized state. The training requirements that follow are for the training of persons required to have accreditation under the Toxic Substances Control Act (TSCA) title II and LAC 33:III.2739.

1. Initial training courses for a specific discipline (e.g., workers, inspectors) require hands-on training. For asbestos abatement supervisors and workers, hands-on training shall include working with asbestos-substitute materials, fitting and using respirators, use of glove-bags, donning protective clothing, constructing a decontamination unit, as well as other abatement work activities. Hands-on training shall permit all supervisors and workers to have actual experience performing tasks associated with asbestos abatement. ### RULE

#### Department of Environmental Quality Office of the Secretary Legal Division

Emission Standard for Asbestos (Demo/Reno)  
(LAC 33:III.5151)(AQ330S)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary amends the Air regulations, LAC 33:III.5151 (AQ330S).

LAC 33:III.Chapter 51 regulates each owner or operator of a demolition or renovation activity, including the removal of regulated asbestos-containing material or the renovation or demolition of asbestos-containing materials. The regulation provides for notification and accreditation requirements. This action is required to delete unnecessary language, clarify some language in the regulations and make necessary changes in order to help implement the programs. The basis and rationale for this Rule revision is to clarify language adopted from federal regulations to ensure that the regulated community understands the requirements to protect public health when disturbing asbestos-containing materials. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

**Title 33**  
**ENVIRONMENTAL QUALITY**

**Part III. Air**

**Chapter 51. Comprehensive Toxic Air Pollutant  
Emission Control Program**

**Subchapter M. Asbestos**

**§5151. Emission Standard for Asbestos**

A. Applicability. The provisions of this Subchapter are applicable to those sources specified in Subsections C-O of this Section.

B. Definitions. Terms used in this Section are defined in LAC 33:III.111 of these regulations with the exception of those terms specifically defined in LAC 33:III.5103 or below, as follows.

*Accessible*—asbestos-containing material that is subject to disturbance by facility occupants, custodial or maintenance personnel in the course of their normal activities. *Accessible* also refers to *asbestos-containing material* that is available for examination and sampling purposes prior to a *demolition* or *renovation*.

\* \* \*

*Adequately Wet*—sufficiently mix or penetrate with liquid to prevent the release of particulates. If visible emissions are observed coming from asbestos-containing materials, then that material has not been *adequately wetted*. However, the absence of visible emissions is not sufficient evidence of being *adequately wet*. Once contained, water droplets formed inside disposal containers will be sufficient evidence of being *adequately wet*. Lack of water droplets means it is not *adequately wet*.

*Asbestos*—the asbestiform varieties of serpentinite (chrysotile), riebeckite (crocidolite), cummingtonite-grunerite (amosite), anthophyllite, and actinolite-tremolite.

*Asbestos-Containing Material (ACM)*—any material or product that contains more than 1 percent *asbestos* as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy.

*Asbestos-Containing Waste Material (ACWM)*—mill tailings or any waste that contains commercial or previously commercial asbestos and is generated by a source subject to the provisions of this Subchapter. This term includes filters from control devices, friable asbestos waste material, and bags or other similar packaging contaminated with commercial *asbestos*. As applied to *demolition* and *renovation* operations, this term also includes *regulated*

*asbestos-containing material* waste and materials contaminated with *asbestos*, including *ACD*, and disposable equipment and clothing.

*Asbestos-Contaminated Debris (ACD)*—demolition or renovation debris that contains *regulated asbestos-containing material* as defined in this Subsection.

*Asbestos-Contaminated Debris Activity (ACDA)*—the handling and/or disposal of *asbestos-contaminated debris* as *RACM*.

\* \* \*

*Category I Nonfriable (ACM)*—asbestos-containing packings, gaskets, resilient floor covering, and asphalt roofing products containing more than 1 percent asbestos as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy that when dry cannot be crumbled, pulverized, or reduced to powder by hand pressure.

*Category II Nonfriable ACM*—any material, excluding *category I nonfriable ACM*, containing more than 1 percent asbestos as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

\* \* \*

*Demolition*—the permanent wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility.

\* \* \*

*Enclosure*—an airtight, impermeable, barrier placed around *ACM* during activities that disturb asbestos to prevent the release of asbestos fibers into the ambient air.

\* \* \*

*Facility*—any institutional, commercial, public, industrial, or residential structure, installation, or building (including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential cooperative, and residential buildings having greater than four dwelling units); any ship; and any active or inactive waste disposal, or *ACD* site. Residential buildings that have four or fewer dwelling units are exempt from the provisions of this Subchapter, except those residential structures that are intentionally demolished or renovated as part of a commercial or public project, such as urban renewal or highway right-of-way projects and those that are intentionally burned. For purposes of this definition, any building, structure, or installation that contains a loft used as a dwelling is not considered a residential structure, installation, or building. Any structure, installation or building that was previously subject to this Subchapter is not excluded, regardless of its current use or function.

*Facility Component*—any part of a *facility*, including equipment, that is under the control of an owner or operator.

*Fiber Release Episode*—any uncontrolled or unintentional disturbance of *ACM*.

*Friable Asbestos Material*—any material containing more than 1 percent asbestos as determined by using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy that, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure. If the *asbestos* content is less than 10 percent as determined by a method other than point counting by

polarized light microscopy (PLM), verify the asbestos content by point counting using PLM, or assume the amount to be greater than 1 percent and treat the material as *ACM*.

\*\*\*

*Glove Bag*—a sealed compartment with attached inner gloves used for the handling of *ACM*. Properly installed and used, *glove bags* provide a small work area enclosure typically used for small-scale asbestos stripping operations.

a. - c. ...

d. Any deviation from single use of a *glove bag* requires prior written approval of the administrative authority. Additional information on *glove bag* installation, equipment and supplies, and work practices can be obtained from the Occupational Safety and Health Administration's (OSHA's) final Rule on occupational exposure to asbestos (29 CFR 1926.1101(g)).

\*\*\*

*Inspection* or *Inspect*—an examination of a facility or facility component to determine the presence or location, or to assess the condition of friable or nonfriable *asbestos* material, or suspected *asbestos* material, whether by visual or physical examination, or by collecting samples of such material. This term includes reinspections of assumed *asbestos* material and friable and nonfriable asbestos material which has been previously identified. The term does not include the following:

a. periodic surveillance of the type described in LAC 33:III.2721.B solely for the purpose of recording or reporting a change in the condition of known or assumed asbestos material;

b. inspections performed by employees or agents of federal, state, or local government solely for the purpose of determining compliance with applicable statutes or regulations; or

c. visual inspections of the type described in LAC 33:III.2717.J solely for the purpose of determining completion of response actions.

*Installation*—any building or structure or any group of buildings or structures at a single demolition or renovation site that part of a planned project that are under the control of the same owner or operator (or owner or operator under common control).

\*\*\*

*Nonfriable Asbestos-Containing Material*—any material containing more than one percent asbestos as determined by the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy, that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

\*\*\*

*Nonscheduled Operation*—a *renovation* operation necessitated by the routine failure of equipment, which is expected to occur within a given period based on past operation experience, but for which an exact date cannot be predicted. Diaphragm cell renewal is considered a *nonscheduled operation*.

*Operations and Maintenance (O and M)*—Repealed.

\*\*\*

*Owner or Operator of a Demolition, Renovation, Response Action or ACD Activity (owner/operator)*—any person who owns, leases, operates, controls, or supervises the facility being demolished or renovated, or an *ACDA* or

any person who owns, leases, operates, controls, or supervises the demolition or renovation operation, or both, response action, or an *ACDA*.

\*\*\*

*Recognized Asbestos Landfill (RAL)*—a waste disposal site recognized by DEQ, Office of Environmental Services after receipt of an asbestos landfill recognition form (AAC-7). An in-state landfill shall comply with Subsection N of this Section and be permitted or authorized to accept *ACWM*. An out-of-state landfill shall be subject to 40 CFR part 61.154 or another state's applicable regulation that EPA has determined to be at least as stringent as §61.154.

*Recognized Disposal Site*—Repealed.

*Regulated Asbestos-Containing Material (RACM)*—

a. friable asbestos material;

b. *category I* and *II nonfriable ACM* that has become friable such as asbestos-cement material that is not removed from a facility prior to demolition;

c. *category I* and *II nonfriable ACM* that has a high probability of becoming or has become crumbled, pulverized, ground, sanded, cut, abraded, or reduced to powder by the forces that have acted or are expected to act on the material in the course of *demolition* or *renovation* operations; or

d. *resilient floor covering* or the asbestos-containing mastic used to attach it to the floor surface that is scraped, sanded, abraded, bead blasted, cut, ground, crumbled, pulverized, or reduced to powder by any means, either hand or mechanical equipment. This definition does not include *resilient floor covering* removed by using dry ice, heat, wet methods, and chemicals where the tiles or sheeting are removed intact (minor tears or minor breakage is acceptable where, for all intents and purposes, the flooring is considered whole) or asbestos-containing mastic that has been removed by chemical or other means that results in the asbestos fibers in *ACWM* being bound within a macro substrate and cannot reasonably become airborne unless further forces are applied.

*Remove*—to take out *RACM* or facility components that contain or are covered with *RACM*.

*Renovation*—altering a facility or one or more facility components in any way, including the washing, stripping, or removal of *RACM* from a facility component. Operations in which load-supporting structural members are wrecked or taken out are *demolitions*.

\*\*\*

*Resilient Floor Covering*—asbestos-containing floor tiles, including asphalt and vinyl floor tile, and sheet vinyl floor covering containing more than 1 percent *asbestos* as determined by using polarized light microscopy according to the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy.

*Response Action*—a method, including actions during demolition or renovation that provides for removal, encapsulation, enclosure, repair, and operations and maintenance activities, that protects human health and the environment from *RACM*.

\*\*\*

*Small-Scale, Short-Duration (SSSD) Activities*—Repealed.

*State Building*—Repealed.

\*\*\*

*Urban Renewal*—demolitions or renovations of blighted or condemned properties authorized or conducted by government entities (city, parish, or state) as part of commercial or public projects.

\* \* \*

*Waste Shipment Record*—the shipping document, asbestos disposal verification form, (ADVF), required to be originated and signed by the waste generator or the owner or operator of a demolition, renovation, response action or ACD activity, used to track and substantiate the disposition of asbestos-containing waste material to an RAL.

*Wet Methods*—for resilient floor coverings, wetting sufficiently to cause the coverings to break loose or lift from the substrate in whole pieces.

*Work Area Controls*—work practices and engineering procedures that shall be used when removing RACM, as outlined in OSHA 29 CFR 1926.1101.g.

C. - E.8. ...

F. Emission Standard for Demolition, Renovation, Asbestos-Contaminated Debris Activities, Response Actions and Major Fiber Release Episodes

1. Applicability. To determine which requirements of Paragraphs F.1, 2 and 3 of this Section apply to the owner or operator of a demolition, or renovation, response action or ACD activity and prior to the commencement of the activity, the owner/operator shall either assume that RACM, as defined in Subsection B of this Section, is present or an accredited inspector shall thoroughly inspect the affected facility or part of the facility where the activity will occur for the presence of asbestos, including category I and category II nonfriable ACM. All homogeneous areas that potentially contain asbestos shall either be assumed to be ACM or samples shall be collected and submitted for analysis. The requirements of Paragraphs F.2 and 3 of this Section apply to each owner or operator of a *demolition, renovation, response action* or ACD activity as defined in Subsection B of this Section, as follows.

a. In a facility being demolished, all the requirements of Subparagraphs F.2.a, b, d, and f, Clauses F.2.c.i and v, and Paragraph F.3 of this Section apply, except when the facility is being demolished under an order by a state or local government agency, issued because the facility is structurally unsound and in danger of imminent collapse as provided in Subparagraph F.1.c of this Section, if the combined the amount of RACM is:

- i. at least 60 linear feet on pipes;
- ii. at least 64 square feet on other facility components; or
- iii. at least 27 cubic feet off facility components where the length or area could not be measured previously.

b. In a facility being demolished, only the notification requirements of Subparagraphs F.2.a and b and Clauses F.2.c.ii and v, d.i-vii, ix, xiv and xvii of this Section apply, if category I or II nonfriable ACM present in the facility will remain in good condition, would not be rendered RACM as a result of the demolition activity (any category I or II nonfriable ACM that may be rendered RACM as a result of the demolition activity, such as asbestos-cement products, must be counted toward the thresholds below), and the combined amount of RACM (including category I or II nonfriable ACM that may be converted to RACM) is:

- i. less than 60 linear feet on pipes;
- ii. less than 64 square feet on other facility components; or
- iii. less than 27 cubic feet off facility components where the length or area could not be measured previously.

c. If the facility is being demolished under an order of a state or local government agency, issued because the facility is structurally unsound and in danger of imminent collapse only the requirements of Subparagraphs F.2.a and b, Clause F.2.c.iii, Subparagraph F.2.d (except Clause F.2.d.viii), Subparagraph F.2.f, and Paragraph F.3 (except Subparagraph F.3.a) of this Section apply.

d. If a facility is demolished or renovated prior to an inspection or notification, then all debris at the site is categorized as *asbestos-contaminated debris (ACD)*, as defined in Subsection B of this Section unless the owner/operator affirmatively demonstrates there is no ACM in the debris. The owner/operator shall follow the procedures and requirements as provided in Subparagraphs F.2.a, b, d, and f and Clauses F.2.c.i and v of this Section, and shall handle and dispose of the debris in accordance with Paragraph F.3 and Subsection J of this Section.

e. In a facility being renovated, including a response action and any individual nonscheduled renovation operation, all the requirements of Paragraphs F.2 and 3 of this Section apply if:

- i. the combined amount of RACM to be stripped, removed, dislodged, cut, drilled, or similarly disturbed is:
  - (a). at least 60 linear feet on pipes;
  - (b). at least 64 square feet on other facility components; or
  - (c). at least 27 cubic feet off facility components where the length or area could not be measured previously.

ii. To determine whether Subclause F.1.e.i.(a), (b), or (c) of this Section applies to planned renovation operations involving individual nonscheduled operations, predict the combined additive amount of RACM to be removed, stripped dislodged, cut, drilled, or similarly disturbed during a calendar year of January 1 through December 31 based on past operating experience.

iii. To determine whether Subclause F.1.e.i.(a), (b), or (c) of this Section applies to emergency renovation operations, including those associated with major fiber release episodes and response actions, estimate the combined amount of RACM to be removed, stripped, dislodged, cut, drilled, or similarly disturbed as a result of the sudden, unexpected event that necessitated the renovation.

iv. If Clause F.1.e.i of this Section is not applicable to the renovation activity, it is exempt from any further requirements of this Section (except to conduct the inspection or assume material is RACM pursuant to Paragraph F.1 of this Section).

f. Owners or operators of demolition, renovation, response actions and ACD operations are exempt from the requirements of LAC 33:III.5105.A, 5109.E, 5111.A and 5113.A.

g. Residential structures including those with four and fewer dwelling units that are demolished or renovated as part of a commercial or public project, such as urban renewal or highway right-of-way projects, are considered

installations and are subject to the provisions of this Subchapter.

h. A person contracted to perform a demolition, renovation, or response action which disturbs RACM or conducts ACDA shall comply with any applicable requirements of the Louisiana State Licensing Board for Contractors to perform asbestos abatement. The supplying of regulated personnel on an hourly, monthly, or other time basis to another company is considered contracting (i.e., abatement workers, supervisors, air monitoring, or project monitoring personnel).

i. If the activities are emergency demolition operations, all the requirements of Subparagraphs F.2.a, b, d, e, and f, and Paragraph F.3 of this Section apply.

j. When greater than 64 square feet of either *resilient floor covering*, as defined in Subsection B of this Section, is removed by using dry ice, heat, wet methods, and chemicals where the tiles or sheeting are removed intact (minor tears or minor breakage is acceptable where, for all intents and purposes, the flooring is considered whole) or asbestos-containing mastic removed by chemical or other means that results in the asbestos fibers in the ACWM being bound within a macro substrate and cannot reasonably become airborne unless further forces are applied, Subparagraphs F.2.a and b, and Clauses F.2.c.vi, d.i-ix, and xv-xvii of this Section apply.

k. Paragraphs F.2 and 3 of this Section (except Subparagraph F.3.a of this Section) apply to any ACDA.

l. An asbestos renovation or demolition project, or ACDA shall not begin until an asbestos notification of renovation and demolition form AAC-2 is received by the department, except in the case of an emergency.

2. Notification Requirements. Each owner or operator of a demolition, renovation, response action or ACD activity to which this Subsection applies shall:

a. provide the Office of Environmental Services with typed notice of intention to demolish, renovate, conduct a response action, or an ACDA by completing and submitting the latest version of notification of demolition and renovation and asbestos-contaminated debris activity form, AAC-2, and fees, if applicable. This form is available from the Office of Environmental Services or through the department's website. Delivery of the notice by U.S. Postal Service, commercial delivery service, hand delivery, or email is acceptable. The use of a prior version of the AAC-2 form is acceptable unless the department has previously provided the owner/operator with notice of or a copy of the current version, or the owner/operator is aware of the latest version.

i. After review of the notification, if the application is incomplete, inaccurate, or the fee is not submitted, a response shall be faxed or emailed to the company indicating the application is incomplete, and processing will be discontinued until all applicable information is completed and submitted to DEQ.

ii. Any unauthorized renovation, demolition, or ACDA project, including those not processed due to incompleteness or inaccurate information on Form AAC-2 is a violation of this Section.

b. Update by highlighting or circling revisions on, a revised Form AAC-2, as necessary, (i.e., when the amount of asbestos affected changes by plus or minus 20 percent) and

indicate revised total amount of the entire project in cubic yards, or if there is a change in transporter, contractor, or designated landfill.

c. Postmark or deliver the notice as follows:

i. at least 10 working days before asbestos stripping or removal work or any other activity begins (such as site preparation that would break up, dislodge, or similarly disturb asbestos material), if the activity is a demolition or renovation of a facility where RACM is present as described in Subparagraphs F.1.a and e (except Clauses F.1.e.ii [nonscheduled operations] and iii [emergency operations]) of this Section;

ii. at least five working days before demolition begins, if a facility is being demolished where RACM is below threshold levels as provided in Subparagraph F.1.b of this Section;

iii. as early as possible before, but not later than the following working day, when the facility is being demolished under an order issued by a state or local government agency because the facility is structurally unsound and in danger of imminent collapse, according to Subparagraph F.1.c of this Section, or if the operation is an emergency renovation described in Clause F.1.e.iii of this Section;

iv. at least 10 working days before the end of the calendar year preceding the year for which notice is being given for renovations described in Clause F.1.e.ii of this Section;

v. for activity covered by Subsection F (except Clauses F.1.e.ii and iii), that will begin on a date other than the one contained in the original notice, notice of the new start date must be provided to the DEQ as follows:

(a) when activity covered by Subsection F will begin after the date contained in the notice (AAC-2 form):

(i). notify the DEQ regional office responsible for inspecting the project site of the new start date by fax or email as soon as possible before the original start date; and

(ii). provide the Office of Environmental Services with a revised AAC-2 form of the new start date as soon as possible before, and no later than, the original start date. Delivery of the updated notice by U.S. Postal Service, commercial delivery service, fax, email, or hand delivery is acceptable;

(b) when the activity covered by Subsection F will begin on a date earlier than the original start date, submit a revised AAC-2 form with the new start date. The revised notice shall meet the requirements of Subparagraph F.2.c; and

(c) in no event shall an operation covered by this Subsection begin on a date other than the date contained in the written notice (AAC-2) of the new start date.

vi. Notify the DEQ regional office by fax or email three days prior to the start of the removal of *resilient floor covering*, as defined in Subsection B of this Section, by using dry ice, heat, wet methods, and chemicals where the tiles or sheeting are removed intact or asbestos-containing mastic removed by chemical or other means that results in the asbestos fibers in the ACWM being bound within a macro substrate and cannot reasonably become airborne unless forces are applied when required by Subparagraph F.1.j.

- d. In the notice include:
  - i. an indication of whether the notice is the original, additional, emergency, revised (including canceled), or nonscheduled maintenance operation (annual) notification, the number of ADVFs requested, and/or note if the structure is being demolished under an order of a state or local government agency;

- f. use the following procedures in order that the department can trace disposal of ACWM:
  - i. each properly completed and submitted demolition, renovation, response action, or ACDA notification received by the department that is associated with a project that generates asbestos-containing waste material shall result in issuance of an ADVF with a specific ADVF project number to the owner/operator. The ADVF, or

a copy, shall be kept at the facility, except as provided in Subparagraph F.1.1 of this Section, and available for inspection by the department during demolition, renovation, response action, and ACDA. Alterations of the ADVF shall invalidate the ADVF;

ii. the owner or operator of a demolition, renovation, response action, or ACDA shall complete and sign their portion of the valid ADVF, including the quantity shipped in cubic yards, the date the project is scheduled to be completed (or has been completed as applicable), printed name, signed and dated certification, and relinquish the valid ADVF to the waste transporter prior to the off-site shipment;

vi. the ADVF shall be completed in its entirety by the applicable person as indicated in the particular section of the form. Information entered onto the form must be legible;

vii. acceptance of an invalid ADVF by a contractor, waste transporter, or disposal site owner or operator is a violation of this Subchapter; and

viii. all ADVFs that are not used shall be returned by the owner/operator to the Office of Environmental Services within 30 working days after expiration.

3. Procedures for Asbestos Emission Control. Each owner or operator of a demolition, renovation, response action, or ACD activity to whom this Section applies, according to Paragraph F.1 of this Section, shall maintain the ADVF or a copy on-site, except for the provisions in Subparagraph F.1.1 of this Section and comply with the following procedures.

a. ...

i. it is category I nonfriable ACM that is not in poor condition and has a low probability that it will become RACM;

ii. ...

iii. it was not accessible for testing and was, therefore, not discovered until after demolition began and, as a result of the demolition, the material cannot be safely removed. If not removed for safety reasons, the exposed RACM and any ACD shall be treated as ACWM and adequately wet at all times until disposed of; and

(a). the RACM and any ACD shall be adequately wet, and contained in leak-tight, clear transparent wrapping; and

(b). the leak-tight, clear transparent wrapping shall be sealed and labeled according to Clause J.1.a.iv of this Section during all loading and unloading operations, transportation, and during storage;

iv. it is category II nonfriable ACM and the probability is low that the materials will become RACM.

b. - b.ii. ...

c. When RACM is removed during a response action or stripped from a facility component while it remains in place in the facility, adequately wet the RACM prior to and during the response action or the stripping operation. The *work area controls* as defined in Subsection B of this Section shall be employed to prevent the release of ACM to the outside air, and the controlled work area shall, when feasible, be visible to inspectors outside the work area (i.e., transparent window which is easily accessible).

i. In renovation operations, wetting is not required only if:

c.i.(a). - d.(ii). ...

e. For large facility components such as reactor vessels, large tanks, and steam generators, but not beams (which shall be handled in accordance with Subparagraphs F.3.b, c, and d of this Section), the RACM is not required to be stripped if the following requirements are met:

i. the component is removed, transported, stored, disposed of, or reused without disturbing or damaging the RACM;

ii. the component is encased in a leak-tight, clear, transparent wrapping; and

iii. the leak-tight, clear, transparent wrapping is labeled according to Clause J.1.a.iv of this Section during all loading and unloading operations, transportation, and during storage.

f. - f.iii. ...

iv. RACM contained in leak-tight, clear, transparent wrapping that has been removed in accordance with Subclause F.3.c.i.(a) of this Section need not be wetted provided written authorization from the administrative authority is maintained on site during this exception to the wetting requirements.

g. ...

i. The owner/operator need not comply with Clause F.3.b.i of this Section and the wetting provisions of Subparagraph F.3.c of this Section, provided written authorization from the administrative authority is maintained on-site during this exception to the wetting requirements.

ii. - iii. ...

h. Personnel and Accreditation

i. No demolition or renovation activity that disturbs RACM or ACDA shall be conducted at a facility regulated by this Subsection unless at least one asbestos abatement contractor/supervisor trained in accordance with Subsection P of this Section is physically present.

ii. All asbestos abatement workers who are performing demolition or renovation activity that disturbs RACM or ACDA shall be trained in accordance with Subsection P of this Section and supervised by a trained asbestos contractor/supervisor.

k. There shall be no discharge of asbestos contaminated liquids from the demolition, renovation, response action, or ACDA which are contaminated with asbestos material if it is reasonably anticipated that such asbestos may become airborne.

l. Prior to completion of a renovation, demolition, ACDA, or response action involving RACM, the work area (described area where the renovation, demolition, response action, or ACDA occurs) shall be cleaned by:

i. - ii. ...

m. Within 24 hours after the demolition, renovation, response action, or ACDA has ended and the work area has been cleaned in accordance with Subparagraph F.3.1 of this Section, notify by fax or email the DEQ regional office responsible for inspecting the project site of the conclusion of the cleanup. Only after the DEQ has been notified of project completion will the abatement activity be complete.

n. After completion of a demolition activity, where no load-supporting structural member of a facility is left, no asbestos-containing floor covering or asbestos-containing mastic shall remain on surfaces where the material has the potential to become RACM.

G. Standard for Spraying. The owner or operator of an operation in which asbestos-containing materials are spray applied shall comply with the following requirements.

1. For spray-on application on buildings, structures, pipes, and conduits, do not use material containing more than one percent asbestos as determined using the method specified in appendix E, subpart E, 40 CFR part 763, section 1, polarized light microscopy, except as provided in Paragraph G.3 of this Section.

Discharge no visible emissions to the outside air during collection, processing (including incineration), packaging, or transporting or deposition of any asbestos-containing waste material generated by the source, and use one of the emission control and waste treatment methods specified in Subparagraphs J.1.a-d of this Section. The ACWM shall be maintained as intact as practicable. The ACWM shall not be needlessly fragmented or crushed.

a. - a.ii. ...

iii. after wetting, seal all asbestos-containing waste material in leak-tight, clear, transparent containers (i.e., bags) while wet; or, for materials that will not fit into containers without additional breaking, put materials into leak-tight, clear, transparent wrapping, ensuring that the ACWM is securely wrapped and sealed. If utilizing plastic drums to contain ACM, the transparent wrapping requirement is not necessary. If drums are used to store bagged material, the bags must be transparent;

iv. label the containers or wrapped materials specified in this Subsection using warning labels specified by the Occupational Safety and Health Standards of the Department of Labor, Occupational Safety and Health Administration (OSHA) asbestos construction standard, 29 CFR 1926.1101(k)(8)(i)-(vi). The labels shall be printed in letters of sufficient size and contrast so as to be readily visible and legible;

v. ...

vi. store all wrapped and contained asbestos-containing waste material in a labeled, secured area away from the public, where it will not be subject to disturbance or tampering until it can be transported to a recognized asbestos landfill (RAL). Disposal of ACWM shall comply

with any other applicable requirements, including but not limited to appropriate hazardous waste (LAC 33:V) and solid waste (LAC 33:Part VII) regulations. In particular:

4. The cost-new values listed below are to be adjusted to allow depreciation by use of the appropriate percent good listed in Table 907.B.2. When determining the value of equipment associated with a single well, use the age of that well to determine the appropriate percent good. When determining the value of equipment used on multiple wells, the average age of the wells within the lease/field will determine the appropriate year to be used for this purpose.

5. Functional and/or economic obsolescence shall be considered in the analysis of fair market value as substantiated by the taxpayer in writing. Consistent with R.S. 47:1957, the assessor may request additional documentation.

6. Sales, properly documented, should be considered by the assessor as fair market value, provided the sale meets all tests relative to it being a valid sale.

Supplemental Payments  
(LAC 50:IX.15151 and 15153)

The Department of Health and Hospitals, Bureau of Health Services Financing has adopted §15151 and §15153 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to title XIX of the Social Security Act. This Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

#### Title 50

#### PUBLIC HEALTH—MEDICAL ASSISTANCE

##### Part IX. Professional Services Program

##### Subpart 15. Reimbursement

##### Chapter 151. Reimbursement Methodology

##### Subchapter F. Supplemental Payments

##### §15151. Qualifying Criteria—State-Owned or Operated Professional Services Practices

A. In order to qualify to receive supplemental payments, physicians and other eligible professional service practitioners must be:

1. licensed by the state of Louisiana;
2. enrolled as a Louisiana Medicaid provider; and
3. employed by a state-owned or operated entity, such as a state-operated hospital or other state entity, including a state academic health system, which:
  - a. has been designated by the bureau as an essential provider; and
  - b. has furnished satisfactory data to DHH regarding the commercial insurance payments made to its employed physicians and other professional service practitioners.

B. The supplemental payment to each qualifying physician or other eligible professional services practitioner in the practice plan will equal the difference between the Medicaid payments otherwise made to these qualifying providers for professional services and the average amount that would have been paid at the equivalent community rate. The *community rate* is defined as the average amount that would have been paid by commercial insurers for the same services.

C. The supplemental payments shall be calculated by applying a conversion factor to actual charges for claims paid during a quarter for Medicaid services provided by the state-owned or operated practice plan providers. The commercial payments and respective charges shall be

obtained for the state fiscal year preceding the reimbursement year. If this data is not provided satisfactorily to DHH, the default conversion factor shall equal “1”. This conversion factor shall be established annually for qualifying physicians/practitioners by:

1. determining the amount that private commercial insurance companies paid for commercial claims submitted by the state-owned or operated practice plan or entity; and

2. dividing that amount by the respective charges for these payers.

D. The actual charges for paid Medicaid services shall be multiplied by the conversion factor to determine the maximum allowable Medicaid reimbursement. For eligible non-physician practitioners, the maximum allowable Medicaid reimbursement shall be limited to 80 percent of this amount.

E. The actual base Medicaid payments to the qualifying physicians/practitioners employed by a state-owned or operated entity shall then be subtracted from the maximum Medicaid reimbursable amount to determine the supplemental payment amount.

F. The supplemental payment for services provided by the qualifying state-owned or operated physician practice plan will be implemented through a quarterly supplemental payment to providers, based on specific Medicaid-paid claim data.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 40:544 (March 2014).

##### §15153. Qualifying Criteria—Non-State-Owned or Operated Professional Services Practices

A. Effective for dates of service on or after July 1, 2010, physicians and other professional service practitioners who are employed by, or under contract with, a non-state-owned or operated governmental entity, such as a non-state-owned or operated public hospital, may qualify for supplemental payments for services rendered to Medicaid recipients. To qualify for the supplemental payment, the physician or professional service practitioner must be:

1. licensed by the state of Louisiana; and
2. enrolled as a Louisiana Medicaid provider.

B. The supplemental payment will be determined in a manner to bring payments for these services up to the community rate level.

1. For purposes of these provisions, the *community rate* shall be defined as the rates paid by commercial payers for the same service.

C. The non-state governmental entity shall periodically furnish satisfactory data for calculating the community rate as requested by DHH.

D. The supplemental payment amount shall be determined by establishing a Medicare to community rate conversion factor for the physician or physician practice plan. At the end of each quarter, for each Medicaid claim paid during the quarter, a Medicare payment amount will be calculated and the Medicare to community rate conversion factor will be applied to the result. Medicaid payments made for the claims paid during the quarter will then be subtracted from this amount to establish the supplemental payment amount for that quarter.

E. The supplemental payments shall be made on a quarterly basis and the Medicare to community rate conversion factor shall be recalculated periodically as determined by the department.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

Community and Family Support System  
Flexible Family Fund (LAC 48:I.Chapter 161)

The Department of Health and Hospitals, Office of the Secretary and the Department of Children and Family Services, Office of the Secretary amend §16103, §16105, §16107, §16109, §16111, §16113 and §16115 of Part I concerning the community and family support system flexible family fund as authorized by R.S. 28:821 and as directed by House Bill 1 of the 2012 Regular Session of the Louisiana Legislature which states: “The secretary is directed to utilize various cost containment measures to ensure expenditures remain at the level appropriated in this Schedule, including but not limited to precertification, preadmission screening, diversion, fraud control, utilization review and management, prior authorization, service limitations, drug therapy management, disease management, cost sharing, and other measures as permitted under federal law.” This Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

Act 378 of the 1989 Regular Session of the Louisiana Legislature and Act 1011 of the 1991 Regular Session of the Louisiana Legislature created and continued the community and family support system (R.S. 28:821 et seq.). The original Rule was promulgated to implement the cash subsidy program to provide a cash stipend to families of eligible children with severe and profound disabilities to offset the cost of keeping their children at home. The Department of Health and Hospitals, Office of the Secretary and the Department of Children and Family Services, Office of the Secretary amended the provisions governing the community and family support system flexible family fund by introducing a universal screening protocol for all children with identified qualifying exceptionalities for severity of functional limitations and changed terminology for qualifying exceptionalities to reflect current usage. The Rule also changed the name of the program from cash subsidy to flexible family fund. (*Louisiana Register*, Volume 37, Number 9).

As a result of a budgetary shortfall in state fiscal year 2013, the Department of Health and Hospitals promulgated an Emergency Rule which amended the provisions governing the flexible family fund to enact financial eligibility criteria for children receiving a home and community-based services waiver (*Louisiana Register*, Volume 38, Number 9). This Rule is being promulgated to continue the provisions of the October 1, 2012 Emergency Rule.

## FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

### RULE TITLE: **Community and Family Support System—Flexible Family Fund**

#### I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule amends Louisiana Administrative Code (LAC) 48, Part I, Chapter 161, Sections 16103, 16105, 16107, 16109, 16111, 16113 and 16115 to enact financial eligibility criteria in eligibility determination for the Community and Family Support System Flexible Family Fund (Cash Subsidy) as authorized by Louisiana Revised Statutes (R.S.) 28:821 and as directed by Act 13 of the 2012 Regular Legislature Session.

As a result of a budgetary shortfall in FY 2013 and action to avoid a budget deficit, the Department of Health and Hospitals (DHH), Office of Citizens with Developmental Disabilities (OCDD) amended the provisions governing the Flexible Family Fund through an October 1, 2012 emergency rule. The proposed rule continues the provision of the emergency rule to enact financial eligibility criteria in eligibility determination for Flexible Family Fund for children receiving a home and community-based services waiver (Children's Choice or NOW). Therefore, families earning over 650% of the federal poverty income guidelines and whose child receives both waiver services and a Flexible Family Fund stipend will no longer be eligible to receive the Flexible Family Fund stipend.

OCDD anticipates that the implementation of this proposed rule will result in an estimated State General Fund savings of \$170,280 (\$258 per month Flexible Family Fund stipend x 12 months x 55 ineligible families) in FY 13-14, FY 14-15, and FY 15-16. Also, OCDD anticipates the administrative expenses for promulgation of this proposed rule, for printing of the Notice of Intent and Final Rule in the Louisiana Register, is \$672 State General Fund in FY 13-14.

#### II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The implementation of this proposed rule will not affect revenue collection for state or local governmental units.

#### III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

This proposed rule continues the provisions of the October 1, 2012 emergency rule that impacted an estimated 55 families that were no longer eligible to receive the Flexible Family Fund stipend (\$258 per month) in FY 12-13. OCDD does not anticipate any additional families will be impacted in FY 13-14, FY 14-15, and FY 15-16.

#### IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

This rule has no known impact on competition and employment.

**FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES**

**RULE TITLE: Moderate Sedation, Minimal Education Requirements, Facilities, Personnel and Equipment**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

There will be a one-time cost to the Board of \$500 in FY 14 for publication of the proposed rules in the State Register. There are no estimated costs or savings to local governmental units from the proposed rules.

The Louisiana State Board of Dentistry is amending LAC 46:XXXIII.1505 and .1509 to remove the “limited” permit to administer moderate sedation with parenteral drugs for dentists. This change is being made because there are no longer training courses available to dentists for the “limited” permit. The only training courses that are available to dentists are for the “full” permit. Therefore, a dentist receiving the required training to obtain a permit to administer sedation with parenteral drugs qualifies for the full permit offered by the board.

Additionally, the board is amending LAC 46:XXXIII.1511 for clarification. The requirement for a dentist to have a working electrocardiograph and defibrillator when general anesthesia or deep sedation is utilized was listed under drugs that must be in an emergency kit. Therefore, the rule is being amended to move that requirement under the facilities and equipment that must be available for sedation procedures, rather than including it in the list of emergency drugs required.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

There will be no effect on revenue collections by the board.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

There are no estimated costs or economic benefits as a result of these rule changes.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT  
(Summary)

There is no estimated effect on competition and employment as a result of the proposed rule changes.

To prevent the accidental loss of electronic records, an adequate backup system shall be maintained. Backup support systems shall be updated at least once daily.

2. In the event the pharmacy information system experiences down time, a record of all refills dispensed during such time shall be recorded and then entered into the pharmacy information system as soon as it is available for use. During the time the pharmacy information system is not available, prescriptions may only be refilled if, in the professional judgment of the pharmacist, the number of refills authorized by the prescriber has not been exceeded.

c. The provider must request the informal reconsideration of the deficiencies in writing, which shall be received by the HSS within five calendar days of receipt of the notice of the results of the follow-up survey from the department. STATE OR LOCAL GOVERNMENT UNITS (Summary)**

It is anticipated that the implementation of this proposed Rule will result in no material impact on state general fund programmatic costs in FY 13-14, FY 14-15, and FY 15-16 since the inclusion of hospice recipients will not impact enrollment as only a very few hospice recipients will be

It is anticipated that \$656 (\$328 SGF and \$328 FED) will be expended in FY 13-14 for the state's administrative expense for promulgation of this proposed rule and the final rule.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

It is anticipated that the implementation of this proposed rule will not affect revenue collections other than the federal share of the promulgation costs for FY 13-14. FOR ADMINISTRATIVE RULES**

**RULE TITLE: Hospital Licensing Standards  
Alternative Birthing Units**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

It is anticipated that implementation of this proposed rule will have no programmatic fiscal impact to the state other than the cost of promulgation for FY 13-14. It is anticipated that \$2,296 (SGF) will be expended in FY 13-14 for the state's administrative expense for promulgation of this proposed rule and the final rule.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

It is anticipated that the implementation of this proposed rule will not affect revenue collections since the licensing fees, in the same amounts, will continue to be collected.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

This Rule proposes to amend the provisions governing hospital licensing standards to adopt provisions for alternative birthing units within hospitals. It is anticipated that implementation of this proposed rule will not have economic costs since the licensing fees have not changed, but may benefit hospitals for FY 13-14, FY 14-15, and FY 15-16 if the hospital opts to provide an alternative birthing unit within the qualified hospital.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

This rule has no known effect on competition but could have a positive effect on the employment of nurse midwives.

The Department of Health and Hospitals, Bureau of Health Services Financing proposes to adopt LAC 50:V.113 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

The Department of Health and Hospitals, Bureau of Health Services Financing provides Medicaid coverage and reimbursement for inpatient hospital services. Participating

hospitals are reimbursed a daily per diem rate that includes all inpatient services rendered to Medicaid eligible individuals.

The department now proposes to amend the provisions governing the reimbursement methodology for inpatient hospital services to establish Medicaid reimbursement for long-acting reversible contraceptive (LARC) devices provided to women in the hospital after the delivery of an infant(s). Coverage of LARC devices during the hospital stay ensures that Medicaid eligible women will have access to long-acting contraceptives immediately following childbirth.

**Title 50**

B. Reimbursement. Hospitals shall be reimbursed for LARCs as an add-on service in addition to their daily per diem rate for the inpatient hospital stay.

1. Physicians/professional practitioners who insert the device will also be reimbursed an insertion fee in accordance with the reimbursement rates established for this service in the Professional Services Program.

**FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES**

**RULE TITLE: Inpatient Hospital Services Coverage of Long-Acting Reversible Contraceptives**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

It is anticipated that implementation of this proposed rule will result in net state general fund programmatic savings in FY 13-14. Costs associated with long-acting reversible contraceptives will be directly offset by a larger savings realized from a reduction in expenditures in the Pharmacy and Professional Services Programs. Long-acting reversible contraceptive (LARC) devices are already covered in those programs and utilization is expected to decrease as a result of this proposed Rule. It is anticipated that \$246 (\$123 SGF and \$123 FED) will be expended in FY 13-14 for the state's administrative expense for promulgation of this proposed rule and the final rule.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

It is anticipated that the implementation of this proposed rule will not affect revenue collections other than the federal share of the promulgation costs for FY 13-14. It is anticipated that \$123 will be collected in FY 13-14 for the federal share of the expense for promulgation of this proposed rule and the final rule.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

This proposed Rule establishes Medicaid reimbursement to hospitals for LARC devices provided to women immediately following childbirth. It is anticipated that implementation of this proposed rule will not have economic costs, but may benefit acute care hospitals for FY 13-14, FY 14-15 and FY 15-16 if the service is rendered in an inpatient hospital setting. There is an expected net reduction in Medicaid costs by an indeterminable amount due to a corresponding reduction in costs in the Pharmacy and Professional Services Programs.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

This rule has no known effect on competition and employment.

Outpatient Hospital Services  
Triage Fees for Non-Emergent Care  
(LAC 50:V.5115)

The Department of Health and Hospitals, Bureau of Health Services Financing proposes to adopt LAC 50:V.5115 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

The Department of Health and Hospitals, Bureau of Health Services Financing provides Medicaid coverage and reimbursement of outpatient hospital services rendered by emergency departments of acute care hospitals.

The department proposes to adopt provisions in the hospital program to establish a triage fee for outpatient services rendered by hospital emergency departments when it is determined that the services provided were for treatment of a non-emergent condition. The triage fee will be at a lower rate than that for treatment of emergent conditions. This is expected to reduce the escalating cost associated with the treatment of non-emergent conditions and will also deter inappropriate use of hospital emergency departments.

#### Title 50

#### PUBLIC HEALTH—MEDICAL ASSISTANCE

#### Part V. Hospitals

#### Subpart 5. Outpatient Hospitals

#### Chapter 51. General Provisions

#### §5115. Triage Fees for Non-Emergent Care

A. The Medicaid Program shall establish a special triage fee to reimburse outpatient services rendered by hospital emergency departments when it is determined that the services provided are for the treatment of a non-emergent condition.

B. The triage fee shall be an established flat rate which covers the facility fee and any testing and/or supplies that are associated with the non-emergent visit. The established rate shall be lower than the rates paid for the treatment of an emergent condition.

C. The department shall use the “prudent layperson standard” to determine if a visit to an emergency room was appropriate as a result of an emergency medical condition. For purposes of these provisions, an emergency medical condition shall be defined as follows.

1. A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a “prudent layperson”, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:

- a. placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
- b. serious impairment of bodily functions; or
- c. serious dysfunction of any bodily organ or part.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 40:

Implementation of the provisions of this Rule may be contingent upon the approval of the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS), if it is determined that submission to CMS for review and approval is required.

#### Family Impact Statement

In compliance with Act 1183 of the 1999 Regular Session of the Louisiana Legislature, the impact of this proposed Rule on the family has been considered. It is anticipated that this proposed Rule may have a positive impact on family functioning, stability or autonomy as described in R.S. 49:972 by directing care to a provider who is familiar with the family member’s history and current medications/treatment regimen and will increase the quality and continuity of care for the individual and the entire family.

#### Poverty Impact Statement

In compliance with Act 854 of the 2012 Regular Session of the Louisiana Legislature, the poverty impact of this proposed Rule has been considered. It is anticipated that this proposed Rule may have a positive impact on child, individual, or family poverty in relation to individual or community asset development as described in R.S. 49:973 by reducing the financial costs associated with recovery when a family’s care is rendered by a provider who is familiar with the family member’s history and current medications/treatment regimen.

#### Public Comments

Interested persons may submit written comments to J. Ruth Kennedy, Bureau of Health Services Financing, P.O. Box 91030, Baton Rouge, LA 70821-9030 or by email to MedicaidPolicy@la.gov. Ms. Kennedy is responsible for responding to inquiries regarding this proposed Rule. The deadline for receipt of all written comments is 4:30 p.m. on the next business day following the public hearing.

Plumbing Fixtures, Water Supply and Distribution, and Referenced Standards (LAC 51:XIV.411, 609, and 1403)

Under the authority of R.S. 40:4 and 40:5, and in accordance with R.S. 49:950 et seq., the Administrative Procedure Act, notice is hereby given that the state health officer, acting through the Department of Health and Hospitals, Office of Public Health (DHH, OPH), intends to amend Part XIV (Plumbing) of the Louisiana State Sanitary Code [LAC 51 (Public Health—Sanitary Code)]. This amendment will provide an exception for certain small retail stores to have a drinking fountain installed and available for public use. This exception will only be applicable to retail stores having 2,000 square feet or less of usable floor space.

When meeting certain specified criteria, the proposed Rule will provide a waiver to the normal requirement calling for the installation of a containment device backflow preventer for multiple residential dwelling units served by a master meter. This proposed waiver is only applicable to multiple residential dwelling units when serving only two units and their water service or water distribution lines are connected together by a master water meter.

Additionally, the proposed Rule corrects several typographical errors contained in the 2013 publication of LAC 51:XIV (Plumbing). The first involves a single word typographical omission on earlier versions of Table 411 relative to the calculation of the number of lavatories when over 750 persons are served in assembly type occupancies. The second correction involves referencing metal plating plants (instead of meat plating plants) in Table 609.F.5.

numbers reflected above are based on a blended Federal Medical Assistance Percentage (FMAP) rate of 61.48 percent in FY 14-15. The enhanced rate of 62.11 percent for the last nine months of FY 14 is the federal rate for disaster-recovery FMAP adjustment states.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

It is anticipated that the implementation of this proposed Rule will increase federal revenue collections by \$164 for FY 13-14 and reduce federal revenue collections by approximately \$2,607,110 for FY 14-15 and \$2,928,972 for FY 15-16. It is anticipated that \$164 will be expended in FY 13-14 for the federal administrative expenses for promulgation of this proposed Rule and the Final Rule. The numbers reflected above are based on a blended Federal Medical Assistance Percentage (FMAP) rate of 61.48 percent in FY 14-15. The enhanced rate of 62.11 percent for the last nine months of FY 14 is the federal rate for disaster-recovery FMAP adjustment states

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

This proposed Rule adopts provisions in the Hospital Program to establish a triage fee for outpatient services rendered by hospital emergency departments when it is determined that the services provided were for treatment of a non-emergent condition. It is anticipated that implementation of this proposed Rule will reduce Medicaid Program expenditures by approximately \$4,200,951 for FY 14-15 and \$4,720,341 for FY 15-16.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

It is anticipated that the implementation of this proposed Rule will not have an effect on competition and employment.

2. Multiple Residential Dwelling Units served by a master meter-(see below—Clause 5.a.i of this Subsection)	***

- i. For multiple residential dwelling units served by a master meter serving only two units, containment protection may be waived by the water supplier when a cross connection control survey is performed on the premises by an individual holding a valid cross-connection control surveyor certificate issued under the requirements of ASSE 5120 (or other individuals holding a surveyor certificate from a nationally recognized backflow certification organization approved by the state health officer) at least once every five years and the surveyor determines no hazards exist requiring containment protection.

**Family Impact Statement**

In accordance with Section 953 and 974 of Title 49 of the Revised Statutes, there is hereby submitted a Family Impact Statement on the Rule proposed for amendment. There is no effect anticipated on the stability of the family, the authority and rights of parents regarding education and supervision of their children, the functioning of the family, or the behavior and responsibility of children. No effect on family earning and family budget is anticipated for most families. However, those families affected by the proposed Rule (i.e., those

families involved in opening a retail store with 2,000 square feet or less of usable floor space) will see some economic savings as a result of not having to purchase and install a drinking water fountain. In addition, those families residing in a multiple residential dwelling unit consisting of only two units and both units' water service or water distribution lines are interconnected and served by a master water meter could realize an economic savings as a result of not having to purchase, install, and annually test a containment device backflow preventer for the two unit residence. There will be no effect on the ability of the family to perform the functions contained in the rule relative to the drinking fountain exception. Local government building officials and building inspectors will have to realize such a drinking fountain exception exists for small retail store occupancies and apply it accordingly. In order to obtain a waiver for the installation of a containment device backflow preventer for a two unit multiple residential dwelling unit served by a master meter, families seeking an exception for the need to install this device may have to hire a qualified individual every five years to ensure that no cross connection hazard exists. In certain local governmentally owned water districts or municipal water systems, the water system itself may decide to provide this service to its customers on behalf of the affected families. Regardless, the officials of the local governmentally owned water districts or municipal water systems will be expected to enforce the need for a containment device backflow preventer or authorize an exception allowed under this proposed rule in order to adequately protect the water system's water supply from possible contamination.

#### **Poverty Impact Statement**

In accordance with section 973 of title 49 of the Louisiana Revised Statutes, there is hereby submitted a Poverty Impact Statement on the Rule proposed for amendment. The proposed Rule change will result in an economic benefit to those persons directly affected by the proposed Rule. The proposed Rule is expected to provide some economic relief (estimated \$500 to \$1,500) to small retail store owners in the form of a reduction in startup costs by not having to purchase and install a drinking water fountain in their building. In addition, OPH estimates a cost savings of \$850-\$950 for the first five years and \$550 for every subsequent five year interval for those individuals qualifying for a waiver to install a containment device backflow preventer in a qualifying multiple residential dwelling unit served by a master meter. There will be no effect on childhood development and preschool through postsecondary education development. No effect on employment and workforce development is expected. Small retail store owners and affected homeowners would also see a one-time sales tax savings in the form of not having to purchase and install either a drinking water fountain for their small retail business or, respectively, a containment device backflow preventer for their residence. No effect is anticipated on child and dependent care, housing, health care, nutrition, transportation, and utilities assistance.

#### **Small Business Statement**

The impact of the proposed Rule on small businesses as defined in the Regulatory Flexibility Act has been considered. The agency, consistent with health, safety, environmental and economic welfare factors has considered

and, where possible, utilized regulatory methods in the drafting of the proposed Rule that will accomplish the objectives of supporting critical programs while minimizing the adverse impact of the proposed Rule on small businesses. The adoption of the proposed amendment will reduce the economic impact on start-up costs for small retail store owners and will also reduce the economic impact for certain multiple residential dwelling units when serving only two units and their water service or water distribution lines are connected together by a master water meter.

#### **Public Comments**

In addition, all interested persons are invited to submit written comments on the proposed Rule. Such comments must be received no later than Tuesday, April 29, 2014 at COB, 4:30 p.m., and should be addressed to Jake Causey, Chief Engineer, Engineering Services Section, Center for Environmental Health Services, Office of Public Health, CEHS Mail Bin # 3, P.O. Fourth Street, Room 134, Baton Rouge, LA 70802.

#### **Public Hearing**

### **FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Plumbing Fixtures, Water Supply and Distribution, and Referenced Standards**

#### **I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

The Office of Public Health (OPH) proposes to amend Tables 411 (Minimum Fixture Requirements) and 609.F.5 (Containment) of LAC 51:XIV (Plumbing).

The first provision of this proposed rule will add an exception for the installation of drinking fountains in retail stores with 2,000 ft<sup>2</sup> or less of usable floor space.

In addition, the second provision of this proposed rule will provide a waiver to the normal requirement calling for the installation of a containment device backflow preventer for multiple residential dwelling units served by a master meter. This proposed waiver is only applicable to multiple residential dwelling units when serving only two units and their water service or water distribution lines are connected together by a master water meter.

Lastly, the third provision of this proposed rule corrects several typographical errors contained in the 2013 publication of LAC 51:XIV (Plumbing). The first error correction involves

a single word typographical omission on earlier versions of Table 411 relative to the calculation of the number of lavatories when over 750 persons are served in assembly type occupancies. The second error correction involves referencing metal plating plants (instead of meat plating plants) in Table 609.F.5.

It is not anticipated that the proposed action will result in any significant implementation costs to local governmental units.

The proposed rule changes will result in an estimated cost of \$1,681 to publish the notice of intent and final rule in the *Louisiana Register*. OPH has sufficient funds to implement the proposed action.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There are no anticipated effects on revenue collections of local governmental units anticipated as a result of promulgating the proposed rule changes.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The rule change will result in an economic benefit to those persons that receive an exception or waiver allowed by the proposed rule. OPH estimates a cost savings of \$500 to \$1,500 per retail store that receives an exception for the installation of drinking fountains as part of this proposed rule. In addition, OPH estimates a cost savings of \$850 to \$950 for the first five years and \$550 for every subsequent five-year interval for those individuals owning multiple residential dwelling unit served by a master meter that qualify for a waiver to install a containment device backflow preventer.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There are no effects on competition and employment anticipated as a result of these proposed rule changes.

## **FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Stamping Agent and Exporter Regulations**

### **I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

Promulgation of these proposed rule amendments will not result in any costs or savings to state or local government units. The proposed rule amendments define terminology related to the creation of a new permit designation. The amendments further state applicant requirements for the new permit designation allowing a stamping agent to also have an exporter license, though the enacting legislation (Act 221 of 2013) designates further action by ATC and other agencies. The amendments further restate some, though not all, applicant requirements for the new permit designation. The Office of Alcohol and Tobacco Control will absorb any related administrative expenses within its existing budget.

### **II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

Promulgation of these proposed amendments do not appear to affect revenue collections of state or local governmental units, since it is primarily a verbatim restatement of statutory definitions. Compliance penalties are addressed in the authorizing law (Act 221 of 2013) but are not addressed by the proposed rule amendment.

### **III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

The proposed amendments will not impose any additional cost on non-governmental persons or groups, but will help ensure that permit holders practice compliance with existing Louisiana excise tax laws. Act 221 of the 2013 Regular Session and existing statutes include these definitions among others that are in place to facilitate compliance with the recent arbitration settlement for the disputed portion of the Master Settlement Agreement. Additional duties and consequences of the permitting process and tobacco tax enforcement guidelines are included in the statute along with responsibilities of and guidelines for the Department of Revenue and the Office of the Attorney General. However, the proposed rule addresses mainly related to the Office of Alcohol and Tobacco Control.

### **IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

As stipulated in the Master Settlement Agreement (MSA), the proposed rule amendment is part of an enforcement effort that may result in stricter adherence to tobacco tax laws for those not participating in the MSA and may require more effort to adhere to procedures put in place for compliance, though the definitions in the proposed amendment do not directly require this adherence. All market participants will be subject to the same laws, regardless of whether the proposed amendment is adopted, and, assuming lawful behavior, competition and employment will remain impacted as agreed to under the provisions of the MSA.

**RULE TITLE: Commercial Fishing**

**Lake Bruin, False River, and Lake Providence**

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed Rule change is expected to have no effect on implementation costs to state or local governmental units. The proposed Rule change would lengthen the commercial fishing season on three water bodies by one month: Lake Providence in East Carroll Parish, Lake Bruin in Tensas Parish, and False

River in Pointe Coupee Parish. Under the proposed Rule change, the commercial fishing season on these lakes would be open from October 1 through the end of February. The current commercial fishing season runs from November 1 through the end of February.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed Rule change is expected to have no effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

Commercial fishermen in and around East Carroll, Tensas, and Pointe Coupee parishes would benefit from a longer commercial fishing season in Lake Bruin, Lake Providence, and False River. This proposed regulatory change may result in a minor increase in commercial fishing activity, harvests, and revenues.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed Rule change is expected to have no effect on competition or employment.

### Department of Environmental Quality Office of Environmental Services Water Permits Division

#### Reissuance of the General Permit for Discharges of Storm Water from Construction Activities Five Acres or Greater

The general permit for discharges of storm water from construction activities five acres or greater (LPDES permit no. LAR100000) heretofore referred to as the “general permit,” will expire September 30, 2014. Due to the significance of the proposed changes in the upcoming reissuance, the LDEQ Water Permits Division is providing advanced notification of these changes to the regulated community and the general public. As part of the reissuance process, the department is proposing the following changes to the general permit. (1403Pot1)

The proposed changes under consideration include the following: (1) The owners and/or operators applying for coverage under the general permit shall select the time frame for which permit coverage is needed, a minimum of one year up to five years. Prior to receiving coverage, the applicant(s) must submit payment of the annual general permit fee(s) for the entirety of the selected coverage (LAC 33:IX.1309.F and N). As a result, permitted operators will no longer receive annual invoices and notices of termination will not be required to be submitted by the permittees. Permit coverage will be automatically terminated based on the number of years selected by the applicant. (2) Current permitted owners and/or operators in good financial standing with the department will automatically have their coverage extended under the reissued general permit for one year. Extensions of coverage beyond one year will be allowed for any permittee with written notification and payment of the additional annual permit fee(s). (3) Current permitted owners and/or operators that owe outstanding permit fees to the department will not be extended automatic coverage under the reissued general permit. All past due invoices must be paid by the effective date of the general permit in order to ensure automatic reauthorization.

Annual permit fees are not being increased. The proposed changes affect the timing and method of payment. The proposed changes to the payment method are expected to reduce the paperwork burden on both the permittee(s) and the department, eliminate duplicate billing due to the complications of invoicing permittee(s) based on the state fiscal year, and eliminate the need for permittee(s) to track when a notice of termination is due to be submitted.

A notification to solicit public comment on these proposed changes is anticipated to be published in the official state journals in July of 2014. If you wish to be notified of the public comment period, please subscribe to the statewide public notice list at <http://louisiana.gov/Services/>

Email [Notifications\\_DEQ\\_PN/](mailto:Notifications_DEQ_PN/) or contact the LDEQ Public Participation Group at (225) 219-5337. Additionally, current permitted owners and/or operators that owe outstanding fees to the department will be notified by the Water Permits Division of their financial status in advance of the general permit reissuance. The Department of Children and Family Services (DCFS) announces opportunities for public review of the state's 2014 annual progress and services report (APSR). The APSR is a report on the fifth and final year of the 2010-2014 child and family services plan (CFSP) as well as the new five year CFSP. These plans address the use of Title IV-B, Subpart 1 and Subpart 2, Title IV-E Chafee Foster Care Independence Program (CFCIP), educational and training vouchers (ETV), and Child Abuse Prevention and Treatment Act (CAPTA) funds. The APSR is the report on the achievement of goals and objectives and/or outcomes for the 2010-2014 CFSP and the new 2015-2020 CFSP sets forth new goals and objectives for the next five years.

Louisiana, through the DCFS, provides services that include child abuse prevention, child protection investigations, family services, foster care, adoption and the youth transition services. The department will use its allotted funds provided under the Social Security Act, Title IV-B, Subpart 1, entitled the "Stephanie Tubbs Jones Child Welfare Services Program," to provide child welfare services to prevent child abuse and neglect, to prevent foster care placement, to reunite families, to arrange adoptions, and to ensure adequate foster care. Title IV-B, Subpart 2, entitled "Promoting Safe and Stable Families," funds services to support families and prevent the need for foster care. The CFCIP funds services to assist foster children 15 years of age and older who are likely to remain in foster care until 18 years of age. Former foster care recipients who are 18 years of age who have aged out of foster care, and those who were adopted or entered guardianship at age 16 years of age or older, are also eligible for services. The services include basic living skills training and education and employment initiatives. The CAPTA funding is used to complement and support the overall mission of child welfare with emphasis on developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs.

The DCFS is encouraging public participation in the planning of services and the writing of the document. The report can be found for review on the internet under <http://www.dss.state.la.us/index.cfm?md=pagebuilder&tmp=home&pid=132> then the 2013 APSR link. Inquiries and comments on the plan may be submitted in writing to the DCFS, Attention: Child Welfare Administrator, P.O. Box 3318, Baton Rouge, LA 70821. The deadline for receipt of written comments is May 7, 2014 at 4 p.m.

All interested persons will have the opportunity to provide comments and/or recommendations on the plan, orally or in writing, at a public hearing scheduled for May 7, 2014 at 10:30 a.m. in Room 1-127 of the Iberville Building located at 627 North Fourth Street, Baton Rouge.

Individuals with disabilities who require special services should contact the Bureau of Appeals at least seven working days in advance of the hearing. For assistance, call (225) 342-4120 (voice and TDD).
