DECLARATION OF EMERGENCY

Office of the Governor Tax Commission

In accordance with the emergency provisions of the Administrative Procedures Act (R.S. 49:953B), the Tax Commission has adopted the following guidelines for the receipt and expenditure of funds to be appropriated by the 1981 Legislature in connection with the implementation of the constitutional mandate in Article VII, Section 18 of the Louisiana Constitution of 1974, relative to the assessment of property for ad valorem property tax purposes.

Of the amount to be made available to and used solely by parish assessors for property reassessment, the assessors shall use the funds they receive in accordance with the following rules and guidelines:

1. Funds shall be allocated to the assessors based upon need after each assessor has submitted a proposal to the Tax Commission setting forth needs and projected expenses.

2. When assessors submit a proposal, consideration shall be given to funds remaining from previous reappraisal period in determining need.

3. After need has been determined, each parish assessor shall receive an amount based upon \$3.00 per assessment listing as contained on the 1980 assessment roll.

4. Payment shall be made by the Tax Commission on a quarterly basis. The first payment shall be made after the assessor submits a statement of the anticipated expenses necessary to complete the reappraisal as referred to in item one. Subsequent payments will be made after the reappraisal program has been in progress for a period of three months, and quarterly thereafter, and verification by the Tax Commission that the allocations have been properly utilized. This may be amended during the quarter if the work is behind or ahead of the assessor's projected schedule in order to assure a smooth flow of work and production.

5. Upon receipt by the assessor, the funds shall be deposited in a separate bank account (i.e., separate and apart from the Assessor's Salary and Expense Fund), to be designated as the "Assessment Fund".

6. Expenditures from the separate Assessment Fund shall be made only in connection with the performance of duties required by Article VII, Section 18 of the Louisiana Constitution of 1974. These funds shall be used in the assembly of data, extensions of value, classification, entry of information and clerical help in the revaluation program. Funds shall not be used to pay those salaries or other expenses normally paid by the Assessor's Salary and Expense Fund for regular employees, nor shall any such funds be used for investment purposes, the purchase of office furniture or automobiles. Upon the approval by the Tax Commission certain specialized equipment may be purchased.

7. Expenditures from the Assessment Fund shall be accounted for in the same manner as expenditures from the Assessor's Salary and Expense Fund.

8. The assessors shall report to the Tax Commission each quarter, the total amount of expenditures, proof of production and the outstanding balance on a form provided by the Tax Commission.

9. Reimbursements from the Assessment Fund to the Assessor's Salary and Expense Fund for expenses already incurred, and attributable to the assessment procedure, shall reflect the particular item of expense and the specific check number for which reimbursement is made.

10. The funds shall be subject to audit by the Legislative Auditor in the same manner as other public funds.

Department of Agriculture Livestock Sanitary Board

The Louisiana Department of Agriculture, Livestock Sanitary Board, pursuant to the authority granted by LSA 3:2223 and in accordance with Notices of Intent published on April 20, 1981, conducted a public hearing on May 7, 1981, at which public hearing the Board adopted the following amendments to its Rules and Regulations:

Section 6 of Regulation 8, Governing the Sale and Use of Brucella Abortus Vaccine, was amended to read as follows:

6. After January 1, 1982, all heifer calves in Louisiana must be calfhood vaccinated between four and twelve months of age with the reduced dose Brucella Strain 19 vaccine. All heifer calves must be permanently identified as vaccinates by tattoo and individually by eartag in right ear applied at the time of vaccination. The vaccination of heifer calves for brucellosis will make them eligible to be sold or moved from property that is owned or leased by the owner of the cattle.

Calfhood vaccination of heifers may be done on the farm or at an auction market. However, it must be done prior to the auction market sale. After January 1, 1983, any female cattle sold that are born after January 1, 1982, that are not calfhood vaccinates must be "S" branded and sold for slaughter.

Any calves or cows brought into Louisiana must meet the same calfhood vaccination requirements that apply to calves and cows raised in Louisiana. Health certificates will be issued only on calves and cows that meet the calfhood vaccination requirements.

Regulation 18, Governing Area Brucellosis Certification and Recertification, was amended by adding thereto a new Section 3, entitled "Procedures for Reinstatement of 'Modified Certified' Status", reading as follows:

A. Upon loss of modified certified status in any parish of the State, all cattle herds in the area must be blood-tested for brucellosis to achieve reinstatement of "modified certified" status.

Areas losing certification may be re-certified as "modified certified" upon compliance with the requirements set forth in Section 1 hereof.

B. In addition to the testing requirements, cattle producers may hold a referendum after the parish's loss of "modified certified" status:

(1) The referendum shall be conducted by the Livestock Sanitary Board in conjunction with the cattle producers organizations in the area. The referendum will be held within 90 days after the issuance of the call for the referendum. All producers of cattle in the affected area shall be eligible to participate in the referendum.

(2) At the referendum, the question of total mandatory vaccination for brucellosis of all adult cattle in the area, along with the brucellosis testing requirement of the cattle, shall be submitted to a vote of all producers of cattle in the area.

(3) If a majority of the eligible cattle producers vote in favor of mandatory brucellosis vaccination of all adult cattle in the area, all producers of cattle in the area will be required to vaccinate all adult cattle for brucellosis.

(4) The following herds may be exempt from adult vaccination requirements at the owner's request should the referendum be held and the cattle producers vote in favor of it:

- a) certified brucellosis-free herds;
- b) herds that test negative for brucellosis and all cows in the herd are official calfhood vaccinates;
- c) herds of registered cattle;
- d) dairy herds that are negative to the milk ring test.

A new Regulation 30, Payment of Indemnities, was adopted, reading as follows:

Section 1: Eligibility for Payment

Producers of registered and grade cattle found to be infected with brucellosis and dairymen whose herds are found to be infected with brucellosis shall be eligible for an indemnity payment for each infected animal slaughtered regardless of the point of concentration where the brucellosis is first identified.

Section 2: Source and Amount of Indemnification

Indemnities may be paid by either the state or federal government. When indemnities are paid by the State of Louisiana, the amount of the payments shall be set by motion of the Livestock Sanitary Board and information concerning the level of indemnification shall be made available to all producers of livestock and dairymen.

Section 3: Cattle Owners Not Eligible for Indemnification

No indemnity shall be paid to livestock owners who do not own the cattle 120 days prior to the testing. The owner must prove ownership of the cows tested.

RULE

Department of Culture, Recreation and Tourism Office of Tourism

The Louisiana Office of Tourism, an office of the Department of Culture, Recreation and Tourism, has adopted and will develop guidelines for the funding and administration of the Act 455 Matching Funds program. These guidelines will be developed in accordance with sound fiscal management and aimed at the smooth and efficient management of this program.

Guidelines

Act 455 Matching Funds Program Office of Tourism

CONTACT: Mr. Bob Dudden, Assistant Director, Louisiana Office of Tourism, Box 44291, Baton Rouge, Louisiana 70804, Phone: (504) 342-4900.

1. Any non-profit organization desiring funds for a specific tourist promotion project must first be recognized by the local governing body as “a Tourist Promotion Agency or Agencies” in an area authorized to receive this money. For a city or town this would be done by ordinance; for a parish, by resolution of the governing police jury or city parish government.

2. A proposal known as a “letter of intent” shall be made. This letter will be prepared by the Tourist Promotion Agency giving basic details about the project and why it is needed.

3. The applicant must show “proof of local funds.” In doing so, a copy of a bank deposit slip must show: (a) the name of the applicant; (b) the amount of deposit equals the amount of request; (c) the name of the project for which the funds are dedicated. There will be no in-kind monies for projects. All money must be on a dollar-per-dollar basis for matching funds grants.

4. Parishes and municipalities situated within a designated Economic Development District shall first submit to that Economic Development District director their applications for participating in the Matching Funds Program provided under Act 455, passed by the Legislature of 1970. Said applications shall be drawn up according to the requirements of Act 455, and subsequently screened by the respective Economic Development District directors. The “deadline for submitting applications” for review is no later than April 1 each year. The staff of the various Economic

Development Districts shall assist local communities, parishes, or combinations of parishes in the development of their respective programs. After screening these applications, the Economic Development District directors will forward the applications, with proper recommendations, to the Matching Funds Committee of the Louisiana Tourist Commission, by May 1 of each year.

5. All geographic areas not within organized Economic Development Districts shall apply under the existing requirements of the act and guidelines, directly to the Louisiana Tourist Commission.

6. The Economic Development District will note in its recommendations that any expenditure of funds involving capital improvement or other developments on property, shall be on property which is not owned, controlled, or operated by private individuals, firms, associations, or corporations.

7. The Louisiana Tourist Commission, as provided in the Act creating the Matching Funds Program, shall have final decision in the approval of the application for funds for any and all programs submitted.

8. All requests for these Matching Funds will be studied and appraised by the Matching Funds Committee of the Louisiana Tourist Commission, who will make the final decision on the approval of applications. Following Commission approval, "notice to proceed" will be provided the Tourist Promotion Agency. Those projects disapproved will also be notified and reason for disapproval will be given.

9. Upon submission of evidence of expenditures, matching funds will be supplied by the Louisiana Tourist Commission to the applicant in the form of one-half payment on all valid expenditures submitted on their projects; i.e., if the Tourist Promotion Agency has expended \$2,000.00, the Commission will reimburse one-half that amount, \$1,000.00. Only expenditures incurred on or after the official "notice to proceed" date (as described in paragraph 8) will be accepted for reimbursement.

10. Ninety days prior to the end of the fiscal year (June 30) in which the Act 455 funds are awarded, all projects that have not made an appreciable expenditure on their project will have their project thoroughly reviewed by the Matching Funds Committee of the Louisiana Tourist Commission, with the purpose of reallocating the remaining funds to another project.

11. If the remaining funds are awarded to a new project, the new grantee must expend the funds within that remaining ninety day period. However, if the grantee can show reasonable cause, they may apply for a one-year extension to complete the project.

12. Applicants for matching funds should plan for monies to be spent by June 30 in the fiscal year that the monies are appropriated. If the project cannot be completed during the fiscal year of the appropriation, the applicant may request a one-year extension of time. This request for an extension of time must be in writing and in the hands of the Louisiana Tourist Commission by June 1. If the one-year extension is granted and the applicant fails to spend all monies by the end of the additional year, the grant will automatically be terminated and all monies remaining for that project will be returned to the general fund of the State of Louisiana. (Under no circumstances will more than one extension be granted).

13. Project proposals which will entail more than one year of work for completion should be submitted in phases. If your project will be longer than one year in scope, then your application should reflect the amount of work that can be done and the amount of monies that you will spend within the present fiscal year. The following year you may submit an application indicating this is a supplementary grant to continue work on an existing project, and

supplementary grant applications can be submitted yearly until the project is completed.

14. Quarterly Progress Reports must be submitted to the Louisiana Tourist Commission. Failure to do so will be in violation of these guidelines.

These guidelines will determine the review process, dates for submission of applications, eligibility of grantees, as well as outline the process of administering this Act 455 program. Copies of these guidelines will be available for public inspection at its offices at 666 North Foster Drive, Baton Rouge, Louisiana or will be mailed to interested parties.

Department of Transportation and Development Office of the General Counsel

EDSM No. IV.2.1.6

Outdoor Advertising Visibility Maintenance

1. PURPOSE. To establish policy and procedures relating to location of trees, shrubs or other vegetation and traffic signs that impair the visibility of outdoor advertising display or on-premise business identification signs or devices adjacent to highway right-of-way.

2. POLICY. Traffic signs as determined by the Department shall be placed so as to avoid obscuring existing off-premise or on-premise advertising displays, provided the traffic sign can be legally, safely and effectively erected in an adjacent location which does not obscure such displays.

Trees, shrubs or other vegetation plantings shall not be placed so as to purposely obscure existing off-premise or on-premise outdoor advertising displays. Where existing plantings do obscure displays that were in place prior to the planting, judicious trimming, relocation, removal or replacement will be considered as warranted by local conditions. It is emphasized that this policy relating to plantings will not apply to landscaped segments of highway, or to illegally placed signs.

3. PROCEDURE. The Right-of-Way Permits Engineer will be responsible for the implementation and coordination of these procedures.

a. Any request for visibility improvement for an off-premise or on-premise advertising display will be made using the attached supplement and application for Project Permit Form Nos. DOTD 03-41-3035 or DOTD 03-41-0593, copies of which will be maintained in each District Office.

b. The application for permit with request form shall be sent to the Right-of-Way Permits Unit in Baton Rouge for further handling and in sequence as per the following:

1. Headquarters Traffic and Planning Section for verification, location and legal status.

2. Right-of-Way Permits Unit for transmittal to and review by the District Administrator.

3. Review by Roadside Development Specialist.

(a) To determine if area affected in a designated landscaped portion of the Right-of-Way or under vegetation management by maintenance forces.

(b) Protect the aesthetic value of right-of-way vegetation and determine what the permittee intends to do.

4. Transmittal to Headquarters Right-of-Way Permits Unit by District Administrator for final processing.

c. The Traffic Operations Engineer will verify the location of the display and will forward the request to the Right-of-Way Permits Unit with information about the display's legal status.

Legal status will include any available and pertinent information that should be considered by the District Administrator.

Legal information could include:

- (1) Is this display under active citation?
- (2) Is the display subject to imminent removal?
- (3) Is the sign illegally placed?
- (4) Is the display nonconforming to State beautification criteria?

d. The Traffic Operations Engineer will determine whether or not the display is currently under contract with the State to be removed or is required to be removed within one year.

e. The cost of all work to be performed will be borne by the applicant and the necessary trimming, relocation, removal or replacement will be performed by a bonafide, bonded tree care service. The Department will then, through the Right-of-Way Permits Unit, review the permit, and if satisfactory, issue same to the service for it to enter upon the highway right-of-way and do the work in accordance with the preapproved plan.

f. Prior to issuance of the permit, the tree care service shall furnish bond or deposit in the amount of \$2,500 as security.

g. The permit shall contain:

(1) Language requiring the permittee to have said permit in its possession at all times at the work site.

(2) A "hold-harmless" clause wherein the permittee agrees to hold the Department harmless for any damage to person or property arising out of its operation under the permit.

h. In the following situations, visibility improvement will not be undertaken:

(1) The request will involve highway landscaping in a designated landscape section of the highway.

(2) The display is illegally placed.

(3) The display is currently under contract with the State to be removed.

(4) The display is required to be removed within one year.

(5) The display is on State property.

(6) A right-of-way take is imminent within one year.

(7) The trees or shrubs to be trimmed, relocated or removed are over 500 feet measured along the highway from the display or business.

(8) The trimming, relocation or removal will affect the purpose of the plantings.

(9) The trimming, relocation or removal will result in permanent damage to the structure or character of the plant.

4. OTHER ISSUANCES AFFECTED. This directive supersedes EDSM NO. IV.2.1.6 issued September 26, 1980. All directives, memorandums or instructions issued heretofore in conflict with this directive are hereby rescinded.

5. IMPLEMENTATION. This directive will become effective immediately upon receipt.

NOTICE OF INTENT

Department of Commerce Office of Financial Institutions

Under authority granted by R.S. 6:237-B, the Commissioner of Financial Institutions intends to adopt the following rule for the purpose of providing a means by which State Chartered

Banks may have authority consistent with that granted National Banks by the Comptroller of the Currency Rules and Regulations 12 CFR, Part 29, which was published on Page 18932, Volume 46, No. 59 of the Federal Register dated March 27, 1981.

Proposed Rule

Notwithstanding any limitations imposed by R.S. 6:237 and 322, State Chartered Banks are hereby authorized to make, purchase, and participate in adjustable rate mortgage instruments authorized for National Banks by the Comptroller of the Currency Regulation 12 CFR, Part 29. For the information and guidance of state chartered banks, the Comptroller of the Currency Regulation, is outlined below. The words "national" and "Comptroller of the Currency" have been changed to "state" and "Commissioner of Financial Institutions."

Adjustable-Rate Mortgage Instruments

1. Purpose

This regulation is issued by the Office of Financial Institutions to establish rules for state banks making or purchasing adjustable-rate loans secured by liens on one-to-four family dwellings.

2. Definitions

An adjustable-rate mortgage loan is any loan made to finance or refinance the purchase of and secured by a lien on a one-to-four family dwelling, including a condominium unit, cooperative housing unit, or a mobile home, where such loan is made pursuant to an agreement intended to enable the lender to adjust the rate of interest from time to time. Adjustable-rate mortgage loans include loan agreements where the note and/or other loan documents expressly provide for adjusting the rate at periodic intervals. They also include fixed-rate loan agreements that implicitly permit rate adjustment by having the note mature on demand or at the end of an interval shorter than the term of the amortization schedule unless the state bank has clearly made no promise to refinance the loan (when demand is made or at maturity) and has made the disclosure specified in 8 (c).

3. General Rule

State banks may make or purchase adjustable-rate mortgage loans only if they conform to the conditions and limitations contained in this Part.

4. Index

Changes in the interest rate charged on an adjustable-rate mortgage loan must be linked to changes in an index specified in the loan documents, *i.e.*, a one basis point (one basis point = .01 percentage point) change in the index must be translated into a one basis point change of the same direction in the contract interest rate, except as otherwise provided in 5. The index values used for the purpose of determining changes shall be either (1) the most recently available values on the date of loan origination and on subsequent dates for notifying borrowers of impending rate changes or (2) the moving averages on such dates of all values of an index over the interval from the prior rate-change notification date to the current rate-change notification date, using as the starting index value the moving average of index values over an equivalent interval ending with the date of loan origination. The index must be one of the following:

(a) The monthly average contract interest rate charged by all lenders on mortgage loans for previously occupied homes, as published by the Federal Home Loan Bank Board in its "Journal" and made available by the Federal Home Loan Bank Board in news releases on about the twelfth day of each month.

(b) The monthly average yield on United States Treasury securities adjusted to a constant maturity of three years, as published in the "Federal Reserve Bulletin" and made available by the Federal Reserve Board in Statistical Release G.13(415) during the first week of each month.

(c) The monthly average of weekly average auction rates on United States Treasury bills with a maturity of six months, as published in the "Federal Reserve Bulletin" and made available by the Federal Reserve Board in Statistical Release G.13(415) during the first week of each month.

If a state bank uses the six-month Treasury bill rate index and adjusts interest rates less frequently than once every six months, then the bank must use the moving average, as described above, of the index values to measure interest rate changes.

5. Rate Changes

(a) *Frequency of Changes.* Interest rate changes on adjustable-rate mortgage loans may occur only at regular intervals of not less than six months, as specified in the loan documents. Notwithstanding the foregoing, a state bank may extend the length of the interval before the first potential interest rate change by any predetermined period.

(b) *Magnitude of Changes.* Interest rate adjustments to adjustable-rate mortgage loans may not exceed 100 basis points each six months. If the interval between interest rate changes exceeds six months, then the limitation on interest rate changes shall be 100 basis points multiplied by the number of whole consecutive six-month periods in the interval between interest rate changes. In no event may any one interest rate change exceed 500 basis points. Notwithstanding the rules contained in this subsection, a state bank may decrease the contract rate of interest on an adjustable-rate mortgage loan at any time and by any amount beyond decreases required by the rules contained in this Regulation.

(c) *Required and Permitted Rate Changes.* Interest rate changes on adjustable-rate mortgage loans made or purchased by state banks shall be subject to the following additional restrictions:

(1) Interest rate increases permitted in accordance with the provisions of this Rule shall be at the option of the bank.

(2) Interest bank decreases warranted by decreases in the index shall be mandatory except to the extent that rate increases fully reflecting increases in the index have not been implemented by the bank, either at its option or because of the limitation on increases specified in paragraph (b) of this section. If the bank agrees to impose a periodic or aggregate limitation on interest rate changes that is more restrictive than the limitation specified in paragraph (b) of this section, the same limitation shall apply to both increases and decreases.

(3) Banks offering adjustable-rate mortgage loans may establish in the loan documents any minimum interest rate change limitations and minimum increments of interest rate changes.

(4) Changes in the index not translated into changes in the interest rate because of the limitations contained in this Rule or, consistent with this Rule, at the discretion of the bank shall, to the extent not offset by subsequent movements of the index, be carried over and be available at succeeding rate-change dates.

(5) There shall be no charge by the state bank to the borrower, in the form of new closing cost, new processing fees, new finance charges, or similar fees, for any changes in the interest rate on an adjustable-rate mortgage loan.

(d) *Method of Rate Changes.* (1) Interest rate changes to an adjustable-rate mortgage loan may be implemented through changes in the amount of the installment payment or the rate of amortization (i.e., the amount, if any, of each installment payment allocated to repayment of principal) or any combination of these two methods, according to any schedule agreed upon by the borrower and the bank in the loan documents or as agreed upon by the parties at the time of any interest rate change.

(2) Changing the rate of amortization, including utilization of a period or periods of negative amortization, is permissible only if (1) the payment is adjusted at least every five years to a level

sufficient to amortize the outstanding principal at the interest rate then in effect over the remainder of the original loan term, which may not exceed 30 years; and (2) the amount of negative amortization, if any, permitted during any such period does not exceed 1.0 percent of the principal outstanding at the beginning of that period multiplied by the number of whole consecutive six-month periods included in the interval between payment changes. In no event may the amount of negative amortization allowed under the preceding sentence exceed 10.0 percent of the principal outstanding at the beginning of the period.

6. Prepayment Fees

State banks offering or purchasing adjustable-rate mortgage loans must allow the borrowers to prepay in whole or in part without penalty at any time beginning 30 days before the first scheduled interest rate adjustment date. State banks offering or purchasing adjustable-rate mortgage loans may impose penalties for prepayments made prior to the date specified in the preceding sentence of this paragraph.

7. Assumption

State banks offering or purchasing adjustable-rate mortgage loans are not required to allow those loans to be assumed by new purchasers of the mortgaged property, or to allow new purchasers to take title to such property subject to the lien of an adjustable-rate mortgage loan made pursuant to this rule. If a state bank does allow such a loan to be assumed or a purchaser to take title to property subject to the lien of an adjustable-rate mortgage loan made pursuant to this rule, the interest rate and any other loan terms may be reset as of the date of assumption. In order for an adjustable-rate mortgage loan to qualify for the benefits of this section, the loan note must contain a clause stating that the loan is due on sale or must contain some other provision indicating that the loan may be assumed or the property purchased subject to the bank's mortgage lien only at the bank's discretion.

8. Disclosure

(a) State banks offering adjustable-rate mortgage loans shall disclose in writing to a prospective borrower on the earlier of the date on which the bank first provides written information concerning residential mortgage loans available from the bank or provides a loan application form to the prospective borrower, the following items:

1) The fact that the interest rate may change and a brief description of the general nature of an adjustable-rate mortgage loan;

2) The index used, including the name of at least one readily available source in which it is published;

3) A 10-year series updated at least annually showing the values of the index on at least a semi-annual basis, presented in tabular form;

4) The frequency with which the interest rate and payment levels will be adjusted, including provision for any extended interval before the first interest rate adjustment;

5) Any rules relating to changes in the interest rate and/or installment payment amount;

6) A description of the method by which interest rate changes will be implemented, including an explanation of negative amortization if it may occur in connection with the loan;

7) The rules or conditions relating to refinancing of short-term and demand mortgage loans, prepayment, and assumption;

8) A statement, if appropriate, that other fees will be charged by the bank and/or any other persons in connection with the adjustable-rate mortgage loan, including fees due at loan closing; and

9) A schedule of the dollar amounts of the installment payments (principal and interest) on a \$10,000 loan at a commitment rate offered by the bank within the preceding 12-month

period if the mortgage interest rate were to increase as rapidly as possible, consistent with the interest rate limitations of the loan, by 10 percentage points (or by such lower aggregate interest rate limit as the bank may impose on its adjustable-rate mortgage loans).

Use of the optional model disclosure form provided in the Appendix to this rule, amended where necessary to describe accurately permissible variations found in the bank's adjustable-rate mortgage loans, will constitute compliance with this Subsection.

(b) At least 30 days and no more than 45 days before any interest rate change may take effect, the bank must notify the borrower in writing of the following items:

- 1) The current and proposed new interest rate;
- 2) The base and current index values;
- 3) The extent to which the bank has forgone any increase in the mortgage interest rate;
- 4) The new monthly payment and/or other contractual effects of the rate change;
- 5) The amount of the monthly payment, if different from that given in response to item 4, that would be required to fully amortize the loan at the new interest rate over the remainder of the loan term; and
- 6) The fact that the loan may be prepaid at any time without penalty.

Use of the optional notification form provided in the Appendix to this rule will constitute compliance with this Subsection.

(c) A state bank making any loan to finance or refinance the purchase of, and secured by a lien on, a one-to-four family dwelling which is payable either on demand or at the end of a term which, including any terms for which the bank has promised to refinance the loan, is shorter than the term of the amortization schedule must include the following notice, displayed prominently and in capital letters, in or affixed to the loan application form and in or affixed to the loan note:

This loan is payable in full (at the end of _____ years or on demand). (At maturity or if the bank demands payment) you must repay the entire principal balance of the loan and unpaid interest then due. The bank is under no obligation to refinance the loan at that time. You will therefore be required to make payment out of other assets you may own, or you will have to find a lender willing to lend you the money at prevailing market rates, which may be considerably higher than the interest rate on this loan.

Fixed-rate short-term or demand loans for which this notice has been properly given will not be characterized as adjustable-rate mortgage loans.

(d) No later than the date on which an adjustable-rate mortgage loan is made by a state bank, the bank must inform the borrower of the base index value against which interest rate changes will be measured. This base value must be included in the note the borrower signs, and the borrower must be given a copy of this note no later than at loan closing.

9. Certain Payment-Capped Mortgages

(a) *Authority to Lend, Subject to Review by the Commissioner of Financial Institutions.* The limitations imposed by this Rule shall not apply to adjustable-rate mortgage loans which contain meaningful limitations on the magnitude of permissible changes in the amount of installment payments that offer borrowers sufficient protection against payment volatility. The Office of Financial Institutions may at any time require a state bank to modify or terminate a loan program qualifying under this Subsection if it is determined that the program does not adequately provide for repayment of the loans in a timely manner or that the program does not sufficiently protect borrowers against payment volatility.

10. Transition Rule

If on the effective date of this Rule a state bank has already made a loan or a binding commitment to lend under an adjustable-rate mortgage loan program which would violate any of the provisions of this rule, the state bank may continue to make loans or binding commitments to lend under the program for 120 days from the effective date of this Rule before the program must be brought into conformity with all the provisions of this Rule.

Interested persons may submit written comments on the proposed rule until 4:30 p.m., June 5, 1981, at the following address: Mr. Hunter O. Wagner, Jr., Commissioner, Office of Financial Institutions, Box 44095 - Capital Station, Baton Rouge, Louisiana 70804.

Mr. Wagner is the person responsible for responding to inquiries concerning the proposed rule.

Institutions

Rule Title: Funds Disbursement

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

The implementation of this rule will require approximately 20 percent of the man hours of one employee. Estimated agency cost, including associated operating expenses (postage and supplies), is about \$5,700.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

The rules relate to the allocation and use of funds provided as assistance to the assessors in their appraisal of all property in the State. The rules simply provide for the means by which assistance will be provided to the assessors; thus, the rules themselves do not provide for any revenue impact. It is possible that by appropriately allocating the assistance funds on the basis of need (as the rules provide for) the equity of assessments throughout the State for property tax revenue purposes could be enhanced.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

No cost to assessors. These funds will benefit the assessors by allowing them to perform their duties more efficiently.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

There should be no effect on competition and employment resulting from these rules.

NOTICE OF INTENT

Department of Health and Human Resources
Office of the Secretary

The Department of Health and Human Resources proposes to adopt amendments to the Rate Determination Manual for non-state operated residential facilities where Office of Human Development Funds are used to care for children, youth, and handicapped persons. The rules are being amended under the authority granted to the Department by R.S. 46:1757(6), La. R.S. 40:2125, and La. R.S. 15:1084. These revisions to the manual are necessary to provide for the determination of cost of service and care.

Proposed Amendments to the Rate Determination Manual
For Non-State Operated Residential Facilities
Where Office of Human Development Funds are Used to
Care for Children, Youth, and Handicapped Persons

1. Under the Introduction, change the third paragraph to read:

"The determination of appropriate placement for any client in any of these broad categories is made by the placing agency within the Department of Health and Human Resources, and all referrals for placement must originate and/or be approved through the placing agency of the Department before OHD funding will be committed for a particular client. It is the policy of this Department to place clients so as to achieve comparable services for the lowest available cost; thus the Department of Health and Human Resources will in no way guarantee placement to any particular facility. Private facilities from which placement services are purch-

ased retain the right of acceptance or rejection of the clients referred by the Department's supervising agencies with the exception of emergency shelter-care facilities which do not have the right of rejection."

2. Under the Section entitled, "Cost-Related Reimbursement," add No. 5 to read:

"Upward change in the level of care provided."

3. Also, under the Section entitled, "Cost-Related Reimbursement," change the seventh and eighth paragraph to read:

"Such adjustments to the determined rates, if approved by DHHR and the Legislature, would not go into effect until the first day of the succeeding state fiscal year, as mandated by Act 786. These adjustments should be recorded in the regular accounting books. During the initial year, these adjustments must also be recorded separately, and quarterly reports on the utilization of these funds must be submitted to the DHHR Rate Coordinator for the purpose of accountability. If these expenses are not incurred as stated and approved, the facility will be required to reimburse DHHR for the adjustments.

A facility, administrator, board, or other governing body may appeal the rate determined for the facility by submitting, within 30 days of the receipt of the rate determined, specific grievances in writing to the DHHR Rate Coordinator. The decision of the Secretary shall address each specific grievance and be provided in writing to the appealing party within 30 days of the receipt of the written appeal, or shall notify the appealing party of the reasons why a decision cannot be made within that time period.

4. Under the Sub-Section entitled, "General Instructions for Cost Reporting," change No. 3 to read as follows:

"Cost reports will be sent to: DHHR Rate Coordinator, Box 3776, Baton Rouge, LA 70821.

5. Under the Sub-Section entitled, "Clothing and Other Personal Need Cost," change the first and fifth paragraphs to read:

"A. Client's personal wardrobe, when necessary, not to exceed \$450.00 per client annually, including initial and replacement clothing; such items will be the client's personal property which they may take with them upon discharge."

"E. Client's personal allowance must be provided by the facility for all residents. For clients ages 13 and up, \$5.00 per week, and \$2.50 per week for clients below age 13. This allowance is above and beyond work payments.

Emergency care facilities are not required to give an allowance, but allowances are reimbursable under the same requirements as stated above."

6. Under the Sub-Section entitled, "Administrative Cost," delete No. 8 in item "D" and change item "J" to read:

"Attorneys' fees. Only actual and reasonable attorney fees incurred for nonlitigation legal services which are directly related to child care will be allowed."

7. Under the Sub-Section entitled, "In-Kind Contributions," change the first paragraph to read:

"In-kind contributions represent the value of non-cost contributions related to the direct care of clients provided by (1) the facility, (2) other public agencies and institutions, and (3) private organizations and individuals. In-kind contributions may consist of charges for real property and equipment and value of goods and services directly benefiting and specifically identifiable to all clients in the approved program."

8. Under the Sub-Section entitled, "Unallowable Cost for Services Provided," add No. 5 to read:

"5. Fines, penalties, judgments or settlements of any kind."

9. Under the Sub-Section entitled, "Limits of Reimbursement," change No. 4, "Occupancy Limits," to read,

"Those facilities which operate at less than 50 percent capacity will be penalized by using the 50 percent occupancy level. **NOTICE OF INTENT
Department of Natural Resources
Office of the Secretary
Division of State Lands**

In accordance with the provisions of the Administrative Procedure Act (R.S. 49:951 et seq.), notice is hereby given that the Department of Natural Resources, Division of State Lands intends to change the Rules and Regulations implementing Act 645 of 1978 (L.R.S. 41:1131 and L.R.S. 41:1701 through 1714).

In order to simplify the procedures for determining lease value under the provisions of Act 645, it is being proposed that the use of assessed value as the basis for lease price calculations be eliminated.

Currently, the lease price is set at five percent of the assessed valuation established by the assessor of the parish wherein the property is located. In no instance can the consideration be less than \$100 per annum.

The modification being considered would substitute square footage as a basis for calculation. Structures such as piers, wharves, etc., would be assessed \$100 for the first 500 square feet and ten cents per square foot thereafter. Pilings situated on state waterbottoms and not supporting any additional structure (i.e. anchor piles, pile dolphins, etc.) would be assessed \$100 plus \$10 for each piling. When such pilings exist independent of and in addition to any other structures subject to lease based on square footage, lease price will be computed at the rate of \$10 per piling.

Questions and comments regarding this notice should be addressed to Mr. Stephen Zerangue, Chief of Title and Records, Division of State Lands, Department of Natural Resources, Box 44124, Baton Rouge, Louisiana 70804 or at 504-342-4582. Comments will be accepted through June 10, 1981.

Michael J. Bourgeois
Director

**Fiscal and Economic Impact Statement
For Administrative Rules
Rule Title: Modify Act 645 of 1978**

- I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
Total savings to the Division resulting from the proposed change are difficult to estimate. On a per lease basis, however, savings could amount to \$200 in personal services and operating expenses.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

Because it is impossible to predict the number of leases that will be written over the next couple of years, it is difficult to estimate the impact on revenues resulting from this change. It is believed, however, that generally lease values on the smaller structures will tend to be higher. At the same time lease values for the larger industry related structures will tend to be lower. The net impact on revenues should be slightly positive due to the fact that more permits and leases are issued for the smaller structures than are issued for the larger structures.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

Costs to lease applicants on the smaller structures will be slightly higher. There will be no change in costs for structures up to 500 square feet in size. Costs to lease applicants on the larger structures will be slightly lower. At the same time lease processing will be quicker resulting in faster turnaround to the applicant.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

There is nothing to indicate that this change will have an impact on competition or employment.

Rule Title: 1981/82 Alligator Season

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

There will be an additional cost to the agency of \$1,000 for tags to be issued for skins to verify legal taking. The increase is due to the fact that 13 additional parishes are included this season under the regulations concerning legal taking of alligators.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

There will be an estimated increase in revenue collections to the Department of \$8,135. The amount was estimated as follows:

200 additional licenses at \$25	\$5,000
12,540 additional skins at \$.25 severance tax	3,135
Total increase in revenues	\$8,135

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The benefit provided to alligator trappers in the 13 additional parishes where alligator trapping is legalized is estimated to be \$1,600,000. It is estimated that each trapper will receive \$8,000 from the sale of skins. Therefore the estimated 200 additional trappers will receive \$8,000 each, or a total of \$1,600,000.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

It is estimated that 200 additional trappers will be employed during the alligator season.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

Hunting licenses accounted for \$2,353,561 in self-generated revenue during fiscal year 1979/80. These monies are deposited to the Conservation Fund thereby contributing to the financing of the operations of this Department. It is expected that the revenue for fiscal years 1980/81 and 81/82 will equal the amount collected for fiscal year 1979/80.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

Data to determine the estimated costs is not available. However, the establishment of proper seasons, bag limits, and regulations pertaining to resident and migratory game birds and resident game benefits the hunters of the state in the following manner: It insures that the resources is utilized on a sustained yield basis thereby perpetuating the species for further use; it provides maximum outdoor recreation opportunities to the outdoor enthusiast. It also prevents destruction of the habitat of the species by controlling their number to the carrying capacity of their range. It further protects the species during breeding seasons so as to insure proper reproduction.

Errata

ERRATA

Department of Natural Resources Office of Environmental Affairs Air Quality Division

In the March 20, 1981 *Louisiana Register*, the incorrect version of Section 17.12 of the Air Quality Regulation was presented. The corrected version is:

Section 17.12 of the Louisiana Environmental Control Commission Regulation shall be changed to read as follows:

17.12 Emission Inventory. Emission inventory data must

be submitted to the Department for any facility or location which has 100 or more tons/year of emissions of any single pollutant for locations which are designated as non-attainment for that pollutant, for any facility with 100 or more tons/year of emission which is one of the 28 listed Prevention of Significant Deterioration Sources, or for any facility regardless of location which emits 250 or more tons/year of any other single pollutant. (Emission data for smaller facilities shall be supplied upon request.) These data must be submitted in machine readable format and must be updated annually if emission changes significantly. A significant emission change shall be considered to be a change in emissions of 5 percent or more from an emission source (stack, vent or fugitive) from emission levels currently on file for that source. An emission change of less than 10 tons per year for non-attainment pollutants or 25 tons per year for other pollutants will be considered insignificant for this regulation. An emission inventory submitted to the department shall include all emission sources. All emissions except carbon dioxide, water vapor, air and nitrogen shall be reported. Emission sources are any and all points of origin of air contaminants as defined in Section 4.4 of the Louisiana Environmental Control Commission regulations, whether privately or publicly owned or operated. Grouping of similar smaller emission points is suggested to simplify reporting. Sources with less than 10 emission points are exempted from supplying the emission data in machine readable format. These data must be submitted in a form suitable for keypunching using forms supplied by the Air Quality Section.

Any request for Emission Inventory data (initial request or update) shall be furnished to the Department within 90 days of the request. Failure to provide adequate emission inventory data within this time period can cause Commission action which could result in a revocation of the source's permit or a possible fine.
