

# United States Department of the Interior

OFFICE OF THE SECRETARY  
Washington, DC 20240

The Honorable Shalanda D. Young  
Director  
Office of Management and Budget  
725 17th Street, NW  
Washington, DC 20503

Dear Ms. Young,

The 21st Century Integrated Digital Experience Act (the Act), Public Law (P.L) 115-336, requires the head of each executive agency (that maintains a publicly available website or digital service) to submit an annual report to the Director of the Office of Management and Budget (OMB) on the progress of the implementation of the requirements for website modernization.

The Department of the Interior's (DOI, Department) Office of the Chief Information Officer (OCIO) and Office of Communications (OCO), with input from the DOI Web Council, identified 24 Departmental websites that are most viewed or utilized by the public or are otherwise important for public engagement.

- This list includes the Department's High Impact Service Providers (HISP): Bureau of Indian Affairs (BIA), Bureau of Trust Funds Administration (BTFA), U.S. Fish and Wildlife Service (FWS), and National Park Service (NPS).
- Of the 24 Departmental websites identified, 14 are fully modernized, 5 are currently undergoing modernization activities, 3 are scheduled to be modernized in the future, and 2 were consolidated with other web content and decommissioned.

In accordance with the Act, a summary table of the Department's most utilized public website information, and a detailed status of DOI's web site modernization activities are enclosed.

Please contact Mr. Kenneth Klinner, at [Kenneth\\_Klinner@ios.doi.gov](mailto:Kenneth_Klinner@ios.doi.gov) if you have any questions.

Sincerely,

Darren B. Ash  
Chief Information Officer

Enclosures:

Summary Tables: Websites Most Viewed by the Public  
Status of Department of the Interior Public Website Modernization Efforts

## Summary Tables: Websites Most Viewed by the Public

### Modernization Complete

Website maintained by the executive agency that are most viewed or utilized by the public or are otherwise important for public engagement	Requires modernization to meet requirements?
