UNITED STATES DEPARTMENT OF COMMERCE  
The Secretary of Commerce  
Washington, D.C. 20230

The President of the Senate  
Speaker of the House of Representatives

Dear Mr. President and Madam Speaker:

I am pleased to submit the annual report on the activities of the Economic Development Administration, U.S. Department of Commerce, for Fiscal Year 2008, in compliance with Section 603 of the Public Works and Economic Development Act of 1965, as amended.

Sincerely,

A handwritten signature in blue ink that reads "Gary Locke".

Gary Locke

## **Statement from the Chief Financial Officer and Chief Administrative Officer Economic Development Administration**

I am pleased to report to Congress the achievements of the U.S. Department of Commerce's Economic Development Administration (EDA) on behalf of the American people during FY 2008. EDA's mission is to *lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy*. The agency does this through grants to states, local government entities, and eligible non-profits to create jobs and generate private investment. Our investments assist communities to develop the conditions necessary for job creation, often in the midst of economic hardship or adjustment.

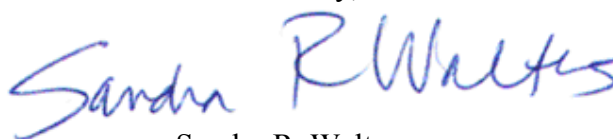

EDA's investments have two major goals: attracting private capital investment and creating higher-skill, higher-wage jobs. In FY 2008, including reimbursables and disaster supplemental funds, EDA awarded investments that totaled approximately \$302 million. Of this amount, approximately \$220 million funded construction projects that are expected to create about 59,000 jobs and generate nearly \$7 billion in private investment, according to grantee estimates at the time of the award. This yields an average cost of \$3,697 per job and a private capital investment to taxpayer dollar ratio of 31 to 1.

EDA's strong results are a product of our focus on four funding policy priorities that support:

- Collaborative, long-term, regional approaches to economic development
- Innovation
- Competitiveness
- Investment strategies to connect regional economies with worldwide markets.

In this annual report, we are proud to outline our achievements during FY 2008 and to mark EDA's 43<sup>rd</sup> year of assisting America's economically distressed regions to create jobs and increase economic opportunity.

Sincerely,

Sandra R. Walters  
Chief Financial Officer  
Chief Administrative Officer

## **Economic Development Administration**

### **Mission Statement**

#### **Mission Statement**

To lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy.

## EDA Headquarters and Regional Offices

---

## EDA Reauthorization Act of 2004 Reporting Requirements

### EDA Leveraging Goals for Private Sector Fiscal Year 2008

Section 603 (b) (2) of the Public Works and Economic Development Act of 1965, as amended, required EDA to include in its annual report to Congress a discussion of private sector leveraging goals set for investments awarded to :

- (a) rural\* and urban economically distressed areas; and,
- (b) highly distressed areas. \*\*

The following information is provided to respond to those requirements.\*\*\*

#### **(a) EDA's private sector leveraging goal with respect to grants awarded to rural and urban economically distressed areas:**

Since 2004, EDA has shown sound results in attracting private capital investment in both rural and urban distressed communities. In FY 2008, EDA invested 68.74 percent of its infrastructure and RLF funds in rural areas with an average ratio of recipient-estimated private investment of \$33.82 for each EDA dollar invested; 31.26 percent of the funds were invested in urban areas with an average recipient-estimated private sector investment ratio of \$32.88 to \$1.

#### **(b) EDA's private sector leveraging goal with respect to grants awarded to highly distressed areas:**

EDA recognizes the importance of private capital investment for successful economic development and recognizes the significance of maintaining significant flexibility to assist communities that are taking the first steps toward economic growth. Therefore, EDA often makes prudent investments in areas where leverage ratios are lowest.

In FY 2008, EDA invested 34.03 percent of all its funds in highly distressed areas, and the infrastructure and RLF funds invested in highly distressed areas are projected to

generate \$18.70 of private investment for each EDA dollar, based on recipient-estimated projections.

\* *Rural includes investments made to Indian tribes.*

\*\* *For an area to qualify as being highly distressed, one of the following criteria must be met:*

*(a) a 24-month unemployment rate of at least 200 percent of the national average*

*(b) a per capita income not more than 60 percent of the national average*

*(c) a catastrophic disaster*

*(d) special need*

\*\*\* *The calculation determining the percentage of construction and RLF investments that are located in rural, urban, and highly distressed areas exclude a small number of research and state-wide projects from the aggregate number of projects in FY 2008 because it is not possible to designate certain investments as exclusively rural, urban or highly distressed areas. Also, U.S. Department of Defense reimbursable investments and disaster supplemental investments are not included in these calculations.*
