CENTRO NACIONAL DE CONTROL DEL GAS NATURAL

EIA Energy Conference

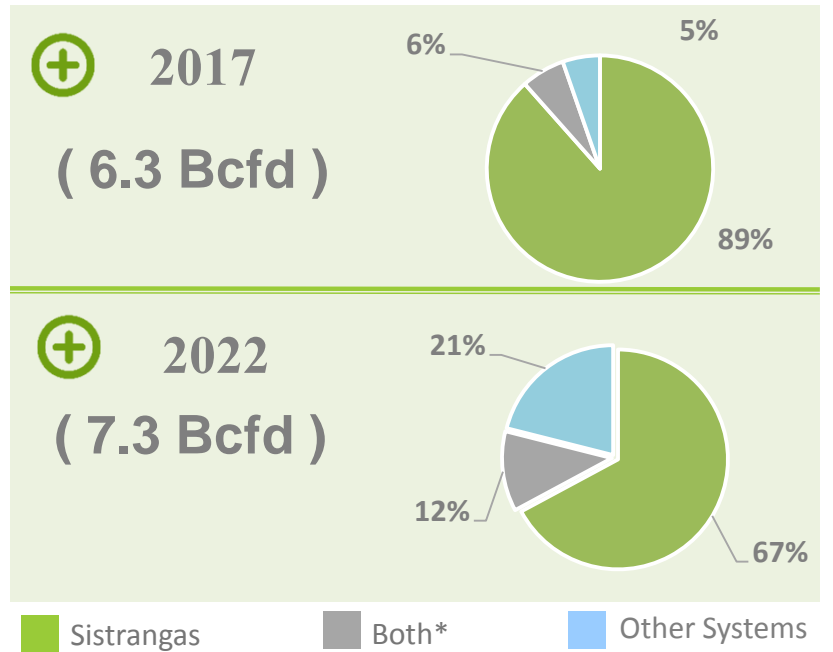

Natural gas infrastructure to serve growing markets

June, 2017

National Grid & Sistrangas

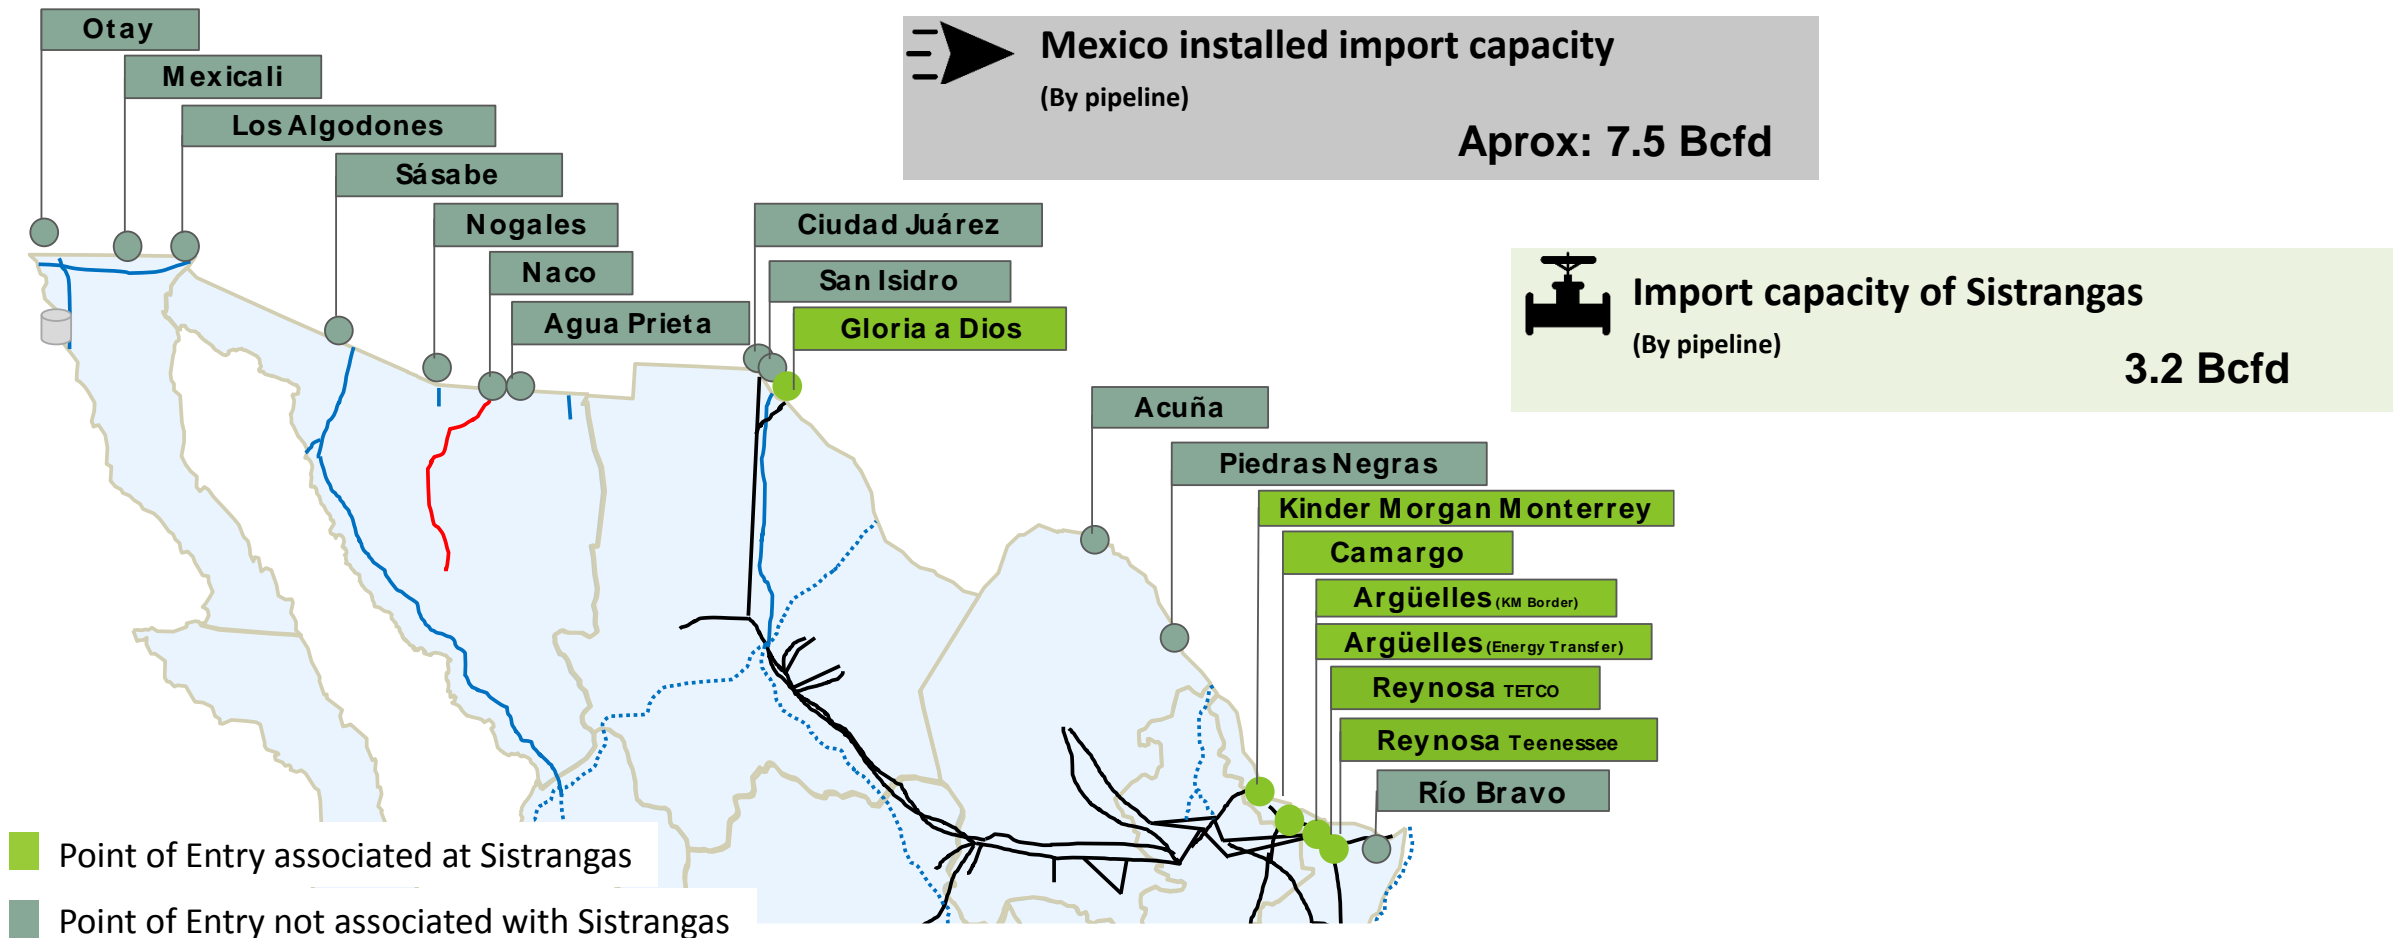

National natural gas demand served

*This demand includes those users who will be able to take gas, both from Sistrangas and other projects linked to the Five-Year Expansion Plan of Sistrangas 2015-2019.

Natural Gas Import Capacity

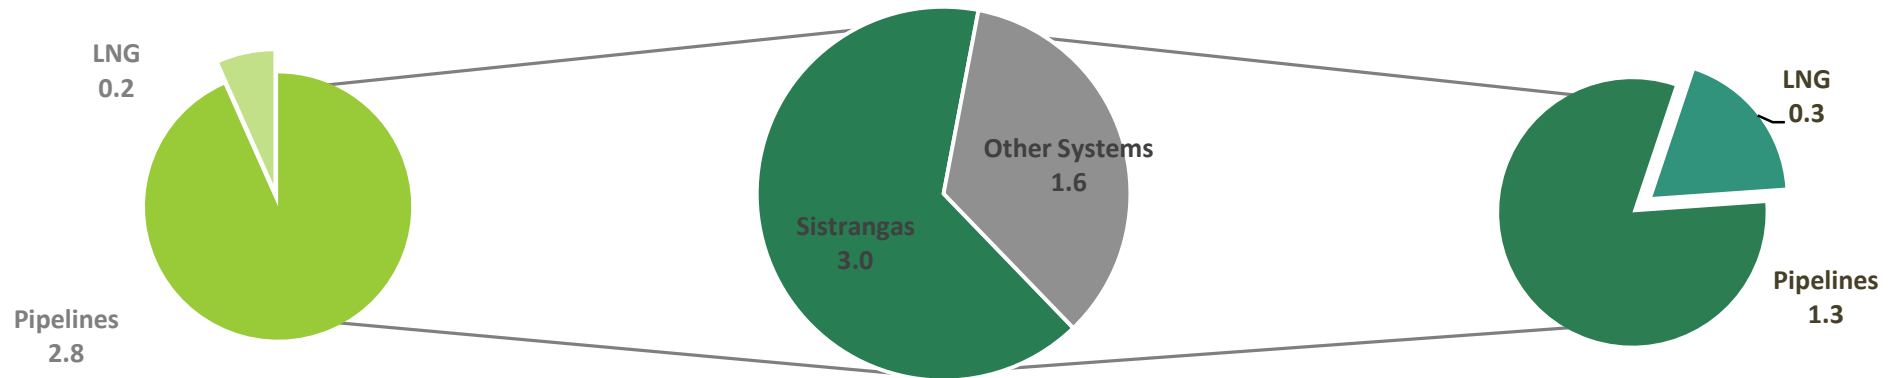

By Point of Entry

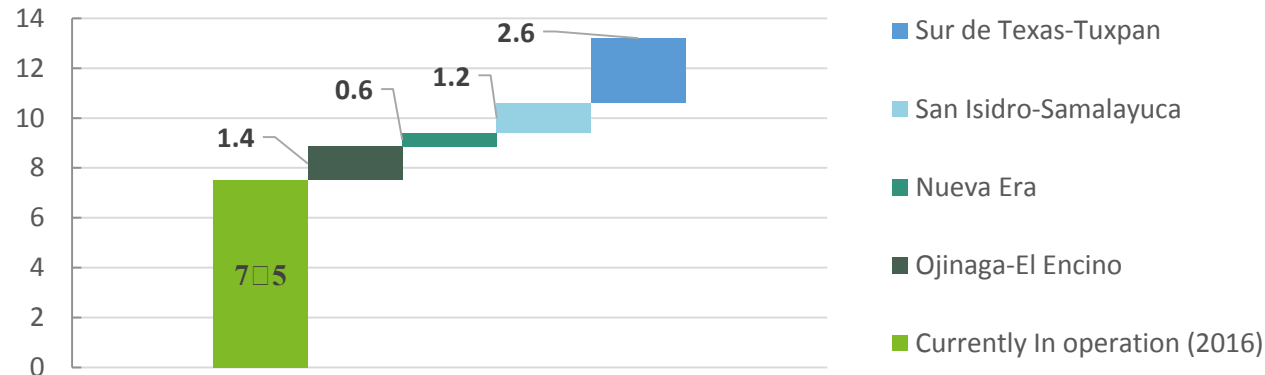

Mexican Natural Gas Imports

Jan-March 2017 Natural gas imports (Bcfd)

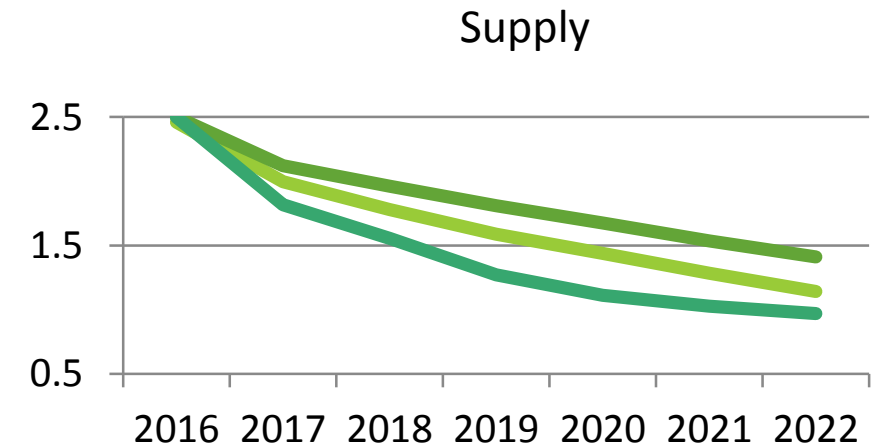

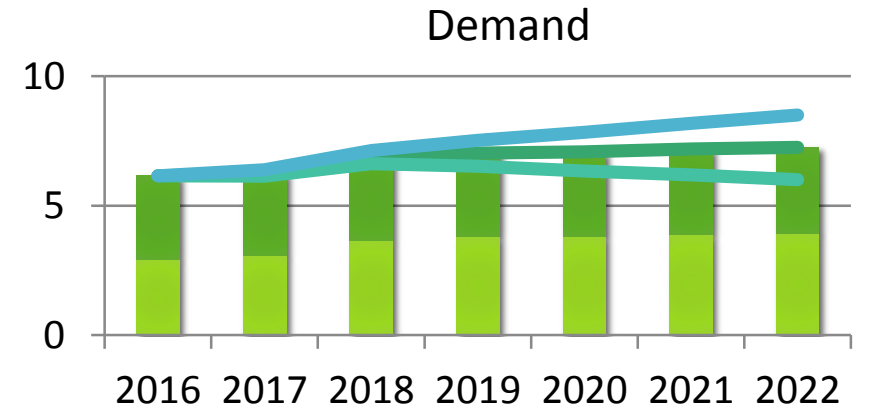

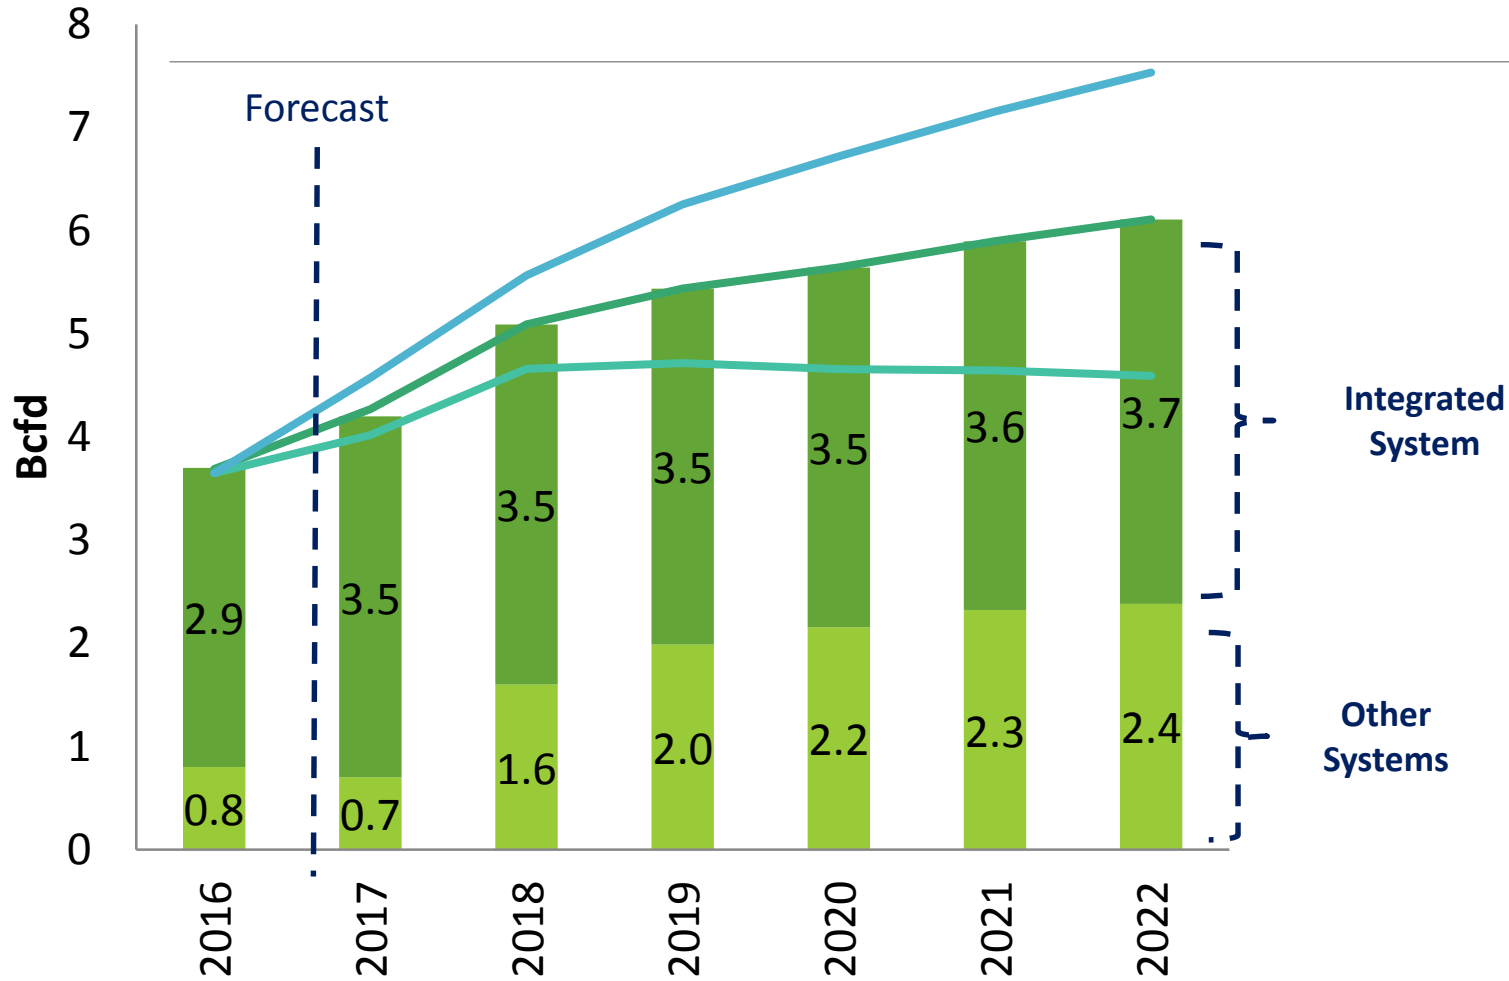

Installed import capacity 2016 -> 2019 (Bcfd)

Outlook on Imports

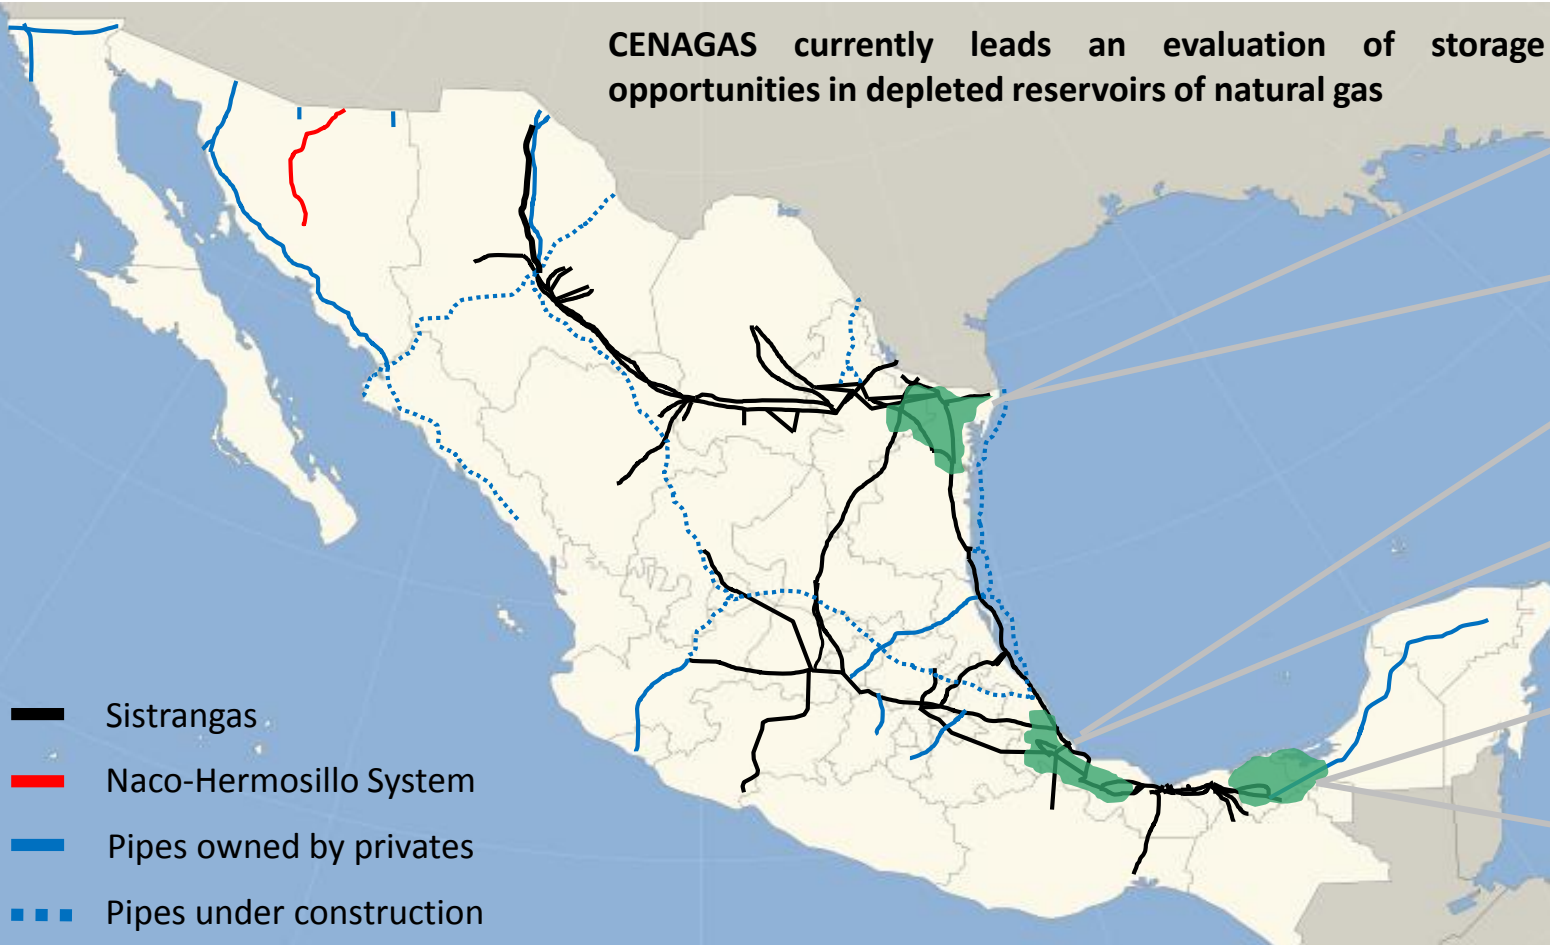

2016-2022

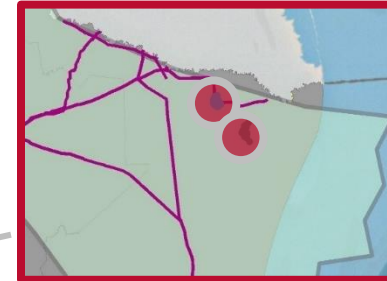

Underground Storage

Potential of Natural Gas in Mexico

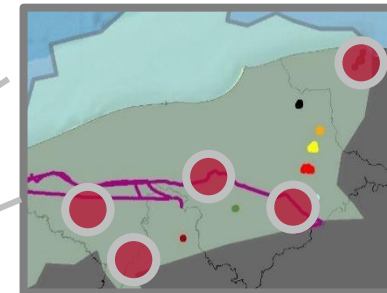

CENAGAS currently leads an evaluation of storage opportunities in depleted reservoirs of natural gas

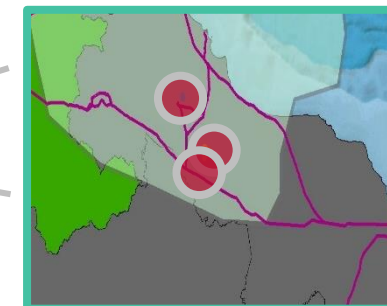

Fields with development potential

Burgos Basin

Veracruz Basin

Macuspana-Muspac Basin
