

PDA NARRATIVE REPORT

City	County	State	Date	Page	Local Government Official/Contact #
1. Event type (i.e. flood, wind driven rain, tornado) and description of damage trends observed (i.e., water contamination).					
2. Identify issues related to sewer back up (i.e., insurance, damage to sewer lines, normal sewer back up).					
3. Identify areas with utilities out; include projected date of restoration.					
4. Identify areas of concentrated damages.					
5. Identify remote areas.			6. Identify major inaccessible areas and reasons (i.e., mudslide, landslide, roads out).		
7. Describe types of structures surveyed (i.e., brick, wood frame, foundation, basements, etc).					
8. Describe prevalence of damage to manufactured homes or mobile home parks.					
9. Number of businesses impacted.			10. Names of major employers impacted (i.e., description, # of employees).		
11. Other factors that impact tax-base (i.e., vacation and tourism properties damaged, permanent exodus of population from disaster area, loss of use of commercial areas, loss of production base).			12. Describe agricultural impact, if applicable (i.e., loss of crops, livestock).		
13. Are there currently shelters open?					
14. Estimated number of displaced households and where they are staying.					
15. Are there sufficient housing and rental resources to meet the needs of the displaced? If no, where are the nearest available resources?					
16. Describe local and VOAD activities, and agency resources available.					
17. Is there a significant need for counseling services?					
18. Describe impact on special populations (i.e., access and functional needs, people with language barriers, seniors and children).					
19. List Tribal nations impacted.					
20. List storm related fatalities and injuries (provide total numbers and names if possible).					
21. Any other factors affecting the area not listed above (i.e., evacuations, manufactured homes moved, schools as shelters, secondary homes, concern of local contact).
