

Mitigation Projects

Over the last three years, DEM's Mitigation Planning Unit has been coordinating with SHMPAT organizations to collect regular updates on current projects and proposed projects in accordance with the SITE plan monitoring procedures outlined in **Section 7: Plan Maintenance**. This process has helped cultivate relationships, evaluate the state's progress on goals and objectives, and track mitigation initiatives at the state level.

Florida is a unique state when it comes to mitigation. Local mitigation projects are prioritized by each Local Mitigation Strategy (LMS) working group. Prioritized lists are submitted to the state each year as a part of the Rule 27P-22 update process and again with five-year plan updates. DEM has delegated its authority to set priorities and select projects to the LMS working groups in order to validate the local mitigation planning process embodied in the LMS. Under the rule, only prioritized projects from the LMSs are eligible for Hazard Mitigation Grant Program (HMGP) project funding. Projects submitted to the state for potential funding must be accompanied by a letter informing the state of their prioritized ranking and be endorsed by the LMS working group chairperson. More on project prioritization can be found in **Section 5: Funding and Projects**.

Appendix N: State Managed Projects consists of the following tables:

- Table 1 is a compilation of all projects awarded between 2010 and December 2012. Projects on this list are all managed by DEM and kept updated in the project management database, FloridaMitigaion.org.
- Table 2 is the most recent version of the SITE database, which is used to track the SHMPAT's mitigation initiatives. Table 2 consists of all current initiatives.
- Table 3 contains the initiatives identified by SHMPAT member organizations that have been completed throughout the past few years.
- Table 4 identifies the number of projects that have been funded under the annual federally funded non-disaster grant programs and the target closeout date of the full grant package.
- Table 5 shows the disaster declarations the past 20 years which received HMGP, the closeout dates, and which ones are still currently open and being managed by DEM and FEMA.
- Table 6 provides the most up-to-date information on the HMGP applications received under Tropical Storm Debby. The table lists submitted projects by county and by the funding priority established by the LMS working groups.

Mitigation projects in addition to those found here are located in **Section 4.2: Agency Capability Assessment** and **Section 5: Funding and Projects**. To facilitate your understanding of this section, agencies and their acronyms are listed below:

- Florida Division of Emergency Management (DEM)
- Florida Department of Agriculture and Consumer Services (DACS)
- Florida Department of Economic Opportunity (DEO)

- Florida Department of Education (DOE)
- Florida Department of Environmental Protection (DEP)
- Florida Department of Financial Services (DFS)
- Florida Department of Transportation (DOT)
- Florida Department of Veterans' Affairs (DVA)
- Florida Fish and Wildlife Conservation Commission (FWC)
- Regional Planning Councils (RPCs)
- State Board of Administration (SBA)
- Board of Governor's State University System (BOG SUS)
- Volunteer Florida (VF)
- Water Management Districts (WMDs)
- American Red Cross (ARC)
- Federal Alliance for Safe Homes (FLASH)
- Florida Association of Counties (FAC)
- Florida Floodplain Managers Association (FFMA)
- Florida Home Builders Association (FHBA)
- Florida Interfaith Networking in Disaster (FIND)
- Florida International University International Hurricane Research Center (FIU IHRC)
- Florida League of Cities (FLC)

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
FIU International Hurricane Research Center	Wall of Wind Mitigation Challenge (WOW challenge)	Teams of South Florida high school students research mitigation techniques that will lead to human safety, property loss reduction, insurance cost reduction, and a "culture" of preparedness for natural disasters. Concepts tested at the IHRC.	RCMP	As of 12/3/12 On-going	Goal 3, Goal 4
FIU International Hurricane Research Center	Museum Exhibit	An interactive exhibit at the Miami Science Museum focusing on hurricane science and mitigation will be developed in addition to the existing hurricane mitigation exhibit in order to promote IHRC hurricane mitigation research among the community.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Mitigation Event	Special event to focus on educating policymakers and business interests in the need for mitigation and promoting the benefits of mitigation.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Hurricane Science, Mitigation & Preparedness Day (Feel the Force)	Collaborative community education outreach project showcasing hands-on interactive activities and demonstrations teaching hurricane science, mitigation, preparedness and safety.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Roof Tile Research	Evaluate wind induced load on roof tiles. Measure uplift force and pressures on roof tiles using wall of wind. Investigate the adequacy of Florida Building Code provisions for hip, ridge and perimeter/starter tile prescriptive installations.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Florida Sunroom Research	Research the wind-induced loading on sunrooms attached to low-rise buildings.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Florida Building Code guidance for wind uplift of roof tiles	Develop guidance in Florida Building Code format for the design of roof shingles, tiles and pavers of various sizes against hurricane wind forces.	RCMP	As of 12/3/12 On-going	Goal 3

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
FIU International Hurricane Research Center	Estimation of Surface Roughness Using Terrestrial LiDAR Measurements	Use LiDAR to estimate surface roughness in order to determine hurricane wind interaction with various types of communities, especially urban settings.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Temporary Residents and perceptions of mitigation	This project will investigate temporary residents' perceptions of coastal vulnerability and their preferences for risk mitigation options.	RCMP	As of 12/3/12 On-going	Goal 3
FIU International Hurricane Research Center	Understanding and Preparing for Storm Surges	Continued research effort to convert the CEST model into an operational forecast model.	NOAA	As of 12/3/12 On-going dependent on use of data	Goal 3
FIU International Hurricane Research Center	Quantification of Inundation of South Florida Caused by Sea Level Rises	Continue to investigate the non-linear interaction of storm surge and sea-level rise through experimental modeling of storm surges with a series of sea level rise scenarios.	NOAA	As of 12/3/12 On-going dependent on use of data	Goal 3 & Goal 4
FIU International Hurricane Research Center	Hurricane Loss projection Model	Recertification of a computer model that predicts how much hurricanes can damage houses, and how much it would cost to rebuild. Model has capability to estimate loss reduction from certain mitigation efforts.	Office of Insurance Regulation	As of 12/3/12 On-going	Goal 3 & Goal 4
DEM	Intern Initiative	Funding has been used to secure Graduate students from the Department of Urban and Regional Planning to assist with updates to the 2013 State Hazard Mitigation Plan. Contract expires June 30, 2013.	HMGP Planning	On-going as of 12/3/12	Goal 1
DEO	Post-Disaster Redevelopment Planning	Working with the City of Live Oak to develop a PDRP due to substantial damages from Tropical Storm Debby	DEO Staff time	On-going as of 12/3/12	Goal 2
DEO	Community Resilience Initiatives (Planning for Sea Level Rise)	A 5 year initiative which includes learning about Sea Level Rise & climate change and integrating parts into the State Hazard Mitigation Plan.	DEP	As of 12/3/12, getting ready to start year 2's tasks	Goal 4

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
SWFWMD	Environmental Resource Permitting Program	Using WMP data ensures new development compensates for losses in floodplain and historic basin storage, and does not increase stormwater runoff onto neighboring properties.	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	on-going as of 9/27/12	Goal 4
SWFWMD	Prescribed Burn Program	Prescribed burning (averaging 25,000 acres/year) to mitigate against uncontrolled wildfire. Levy, Marion, Citrus, Sumter, Lake, Hernando, Pasco, Hillsborough, Pinellas, Polk, Hardee, Manatee, Sarasota, DeSoto, Highlands, Charlotte	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	on-going as of 9/27/12	Goal 2
SWFWMD	Strategic Plan 2011-2015	Identifies the District's responsibilities for water supply, flood protection, water quality, and natural systems. Sets goals for each system and defines strategic initiatives to help meet the goals. Levy, Marion, Citrus, Sumter, Lake, Hernando, Pasco, Hillsborough, Pinellas, Polk, Hardee, Manatee, Sarasota, DeSoto, Highlands, Charlotte	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	on-going as of 9/27/12	Goal 2
SWFWMD	Watershed Management Program (WMP)	Collect and evaluate floodplain data to identify flood-related problems. Develop a best management practices to resolve the water resource difficulties, which includes land acquisition projects to reduce flood risk.	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	on-going as of 9/27/12	Goal 4

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
NWFWM	Flood map Modernization Program	NWFWMD is working to modernize area flood maps. Particularly, to improve coastal flood maps, incorporate LiDAR data and simulated effects of storm surge and waves from hurricanes. This effort will result ins a web based mapping application, which provides LiDAR data to the public.	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	ongoing	Goal 3
SJRWMD	Upper St Johns River Basin Flood Control Project	Involves restoring marshes and other wetlands for freshwater storage.	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	ongoing	Goal 4
SJRWMD	Prescribed Fire Program	Prescribed burns conducted to prevent large fuel deposits.	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	ongoing	Goal 2
DEM	Shelter deficit reduction	In an effort to continue to reduce the State's public hurricane shelter deficit, an annually issues a Shelter Retrofit Report, which provides a list of facilities recommended to be retrofitted using state funds.	Grant	ongoing	Goal 1
DOEA	Website	Develop vulnerable populations toolkit and working group with Department of Health.	N/A	ongoing	Goal 3
PSC	IOU Rules	The PSC has adopted rules that require invested owner utilities (IOU) to implement system hardening initiatives.	unk	ongoing	Goal 4

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
SFWMD	East Coast Protection Levees	This project concerns the Levee which runs the length of Broward County. The project involves increasing ground inspections of the levee, installation of instrumentation along the levee to monitor water levels on a continuous basis, stockpiling rock in upland areas in case levee conditions change, installation of ring dikes as seepage control measures, and removal of vegetation for ease of inspection in order to meet FEMA accreditation standards.	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, & other misc. sources	ongoing	Goal 4
DEM/SHMPAT	Monitor/participate in Drought Action Plan	To collect better data for improved loss estimations for drought during the next plan revision cycle, work closely with these agencies involved in the state's Drought Action Plan: DEP, DOACS & WMDs	n/a	as of 1/11/13, not started yet	Goal 1, Goal 4
USACE	SWIF	System Wide Improvement Framework (SWIF) and evacuation plan for the State of Florida, Engage Levee Sponsors (primarily SFWMD, SWFWMD and SJRWMD) and identify solutions that optimize available resources, Develop and test a process which includes the sponsor in levee screening at district level, Develop an evacuation Plan and outreach program for the hazard of levee breach.	USACE approved 2012	Ongoing	Goal 3, Goal 4
USACE	Sea Level Rise and Storm Surge Communication for Northeast Florida	Sea Level Rise and Storm Surge Communication for NE FL. This effort will leverage the work of the 2010 Statewide Regional Evacuation study, SLOSH model results, storm surge maps, critical infra structure vulnerability data and LIDAR to more readily enable communities to assess potential Seal Level Rise scenarios by creating a mapping tool for Baseline, Intermediate and High levels for NE FL.	USACE submitted for FUNDING 2012	ongoing	Goal 2, Goal 4
USACE	Flood-Inundation and Levee Overtopping Risk Assessment	Flood-Inundation and Levee Overtopping Risk Assessment of the L-73 Levee forming the Jane Green Detention Area- Upper St. Johns River Basin located west of the city of Melbourne, Brevard County.	USACE submitted for FUNDING 2012	ongoing	Goal 4

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
DEM	Floridamitigation.org	FL Mitigation.org: FloridaMitigation.org is a web-based system that will provide the ability to effectively track both project management objectives as well as maintain mitigation program budget and expenditures.	n/a	Complete	Goal 1, Goal 3
DEM	Repetitive Loss Tool	Repetitive Loss Tool: DEM intends to utilize this information as an outreach tool in areas with substantial repetitive loss properties for future funding cycles.	n/a	Complete	Goal 2, Goal 3
DEM	Update Hurricane Evacuation Studies	Evacuation studies were updated by the regional planning councils using LiDAR data.	HMGP	Completed	Goal 3
DEM	Update SLOSH Studies	LiDAR data was used to update SLOSH model data for the evacuation studies.	HMGP	Completed	Goal 3
DEM	Internship Initiative	FMA Planning money was used to secure interns from Florida State University's Department of Urban and Regional Planning to help update the Severe Repetitive Loss Outreach Strategy of the 2013 State Hazard Mitigation Plan, create a best practice document (called Getting to Drier Ground) and write another best practice document on integrating & enhancing floodplain plan requirements into the LMS plans.	Flood Mitigation Assistance (FMA) Planning Grant	Completed in 2012	Goal 3
DEM	NFIP Office Expansion	A second planner and an administrative assistant will begin working in the NFIP office early 2010.		Completed in 2012	Goal 1

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
DEM	Revisions to the Florida Building Code and Model Ordinance Development	Florida Building Code: The updated Florida Building Code will be a new tool in The 2010 FBC update will further mitigate against natural hazards by incorporating the flood resistant standards, incorporate NFIP Standards to Florida's overall mitigation strategy. A report will be prepared to identify necessary revisions once the flood provisions are adopted into the FBC. An important task of this initiative is to coordinate ordinances by: 1. Developing a new model flood damage prevention ordinance as a companion to the		Completed in 2012	Goal 1
DEM/DEO	Post Disaster Redevelopment guide & pilot counties	DEM partnered with the Department of Community Affairs (now Department of Economic Opportunity) to develop a PDRP guidebook and fund the development of several plans in pilot communities.	HMGP Planning	Completed	Goal 3
DEO (DCA)	Integration of LMS into Comprehensive Plans	Integration of the county hazard mitigation plan into local comprehensive plans: One result of this support is the integration of hazard mitigation strategies into local comprehensive plans. The program evaluated comprehensive plans and Local Mitigation Strategies (LMS) for 35 coastal and 32 inland counties as well as 15 pilot municipalities. Results emphasized using land use strategies as a mitigation tool.	n/a	Completed in 2008	Goal 2
DEO	Waterfronts Partnership economic feasibility	This project explored the economic feasibility of utilizing land use tools, such as transfer of development rights, easements and acquisition for resiliency purposes in coastal areas	n/a	Completed in 2012	Goal 3, Goal 4

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
DEO	Waterfronts Partnership - mapping "upland islands" in CCHA	This project evaluated areas outside of the contiguous Category 1 Storm Surge Zone, as defined by SLOSH that were also found to be at an elevation subject to category 1 storm surge, therefore considered part of the Coastal High-Hazard Area.	n/a	Completed in 2012	Goal 3
NWFWMD	Rainfall and stormwater monitoring network	33 real-time monitoring stations provide public with information about hydrologic conditions.	HMGP	Completed in 2012	Goal 3
NWFWMD	Flood Mapping	Created a website with flood map information available to the public. Website: http://portal.nwfwmdfloodmaps.com	Ad valorem taxes, state & federal appropriations, permit fees, interest earnings, &	Completed in 2012	Goal 3
DOEA	Disaster Guide for Elders	Develop Disaster preparedness Guide for elders. Include FEMA application process and a helpline directory.		Completed in 2012	Goal 3
SRWMD	Prescribed Fire Program	Prescribed burning 8-14k acres/yr to prevent fuel loads accumulating		Completed 2012	Goal 2
Florida Building Commission and Building Code Training Program	2010 building code adopted/ training issue - all code info on website.	2010 building code adopted/ training issue - all code info on website.		2010 building code adopted by Florida in 2012.	Goal 2
DEP	Brevard County Shore Protection Project - North Reach	Brevard County Shore beach renourishment.		Completed 2012	Goal 2

<i>Agency Name</i>	<i>Project Title</i>	<i>Project Description</i>	<i>Funding</i>	<i>Status</i>	<i>Goal</i>
DEP	Dune Restoration	Post-Hurricane Beach and Dune Recovery Plan Cost Summary		Completed 2012	Goal 2
DEP	Submerged Geotube Groin Field	State beach erosion project		Completed 2009	Goal 4
DEP	Porous Groin Study	State beach erosion project		Completed 2009	Goal 4
DEP	FRAS Update	FRAS is updated to reflect current conditions and add a canopy layer. Results can be used to: <ul style="list-style-type: none"> • Locate opportunities for interagency planning • Identify opportunities for wildfire mitigation measures • Facilitate communication among agencies. This is helpful to better define priorities and improve emergency response to wildfires. • Develop a refined analysis of a complex landscape using GIS • Facilitate communication with local residents to address community priorities and Needs DOF outreach activities and coordination with any other agencies 		Completed 2011	Goal 3
DEP	Wildfire Annex	DOF now FFS submitted the annex to the SHMPAT for inclusion in the Enhanced State Hazard Mitigation Plan.		Completed 2011	Goal 1
