Background

4. FHFC is a public corporation, organized to provide and promote the public welfare by administering the governmental function of financing and refinancing housing and related facilities in the State of Florida.

5. The Low Income Housing Tax Credit ("Tax Credit") program is created within the Internal Revenue Code, and awards a dollar for dollar credit against federal income tax liability in exchange for the acquisition and substantial rehabilitation or new construction of rental housing units targeted at low and very

low income population groups. Developers sell, or syndicate, the Tax Credits to generate a substantial portion of the funding necessary for construction of affordable housing development.

6. FHFC is the designated "housing credit agency" responsible for the allocation and distribution of Florida's Tax Credits to applicants for the development of rental housing for low income and very low income families.

7. FHFC uses a Qualified Allocation Plan ("QAP"), the Universal Application and a scoring process for the award of Tax Credits, as outlined in Rule 67-48.004, Florida Administrative Code. The provisions of the QAP are adopted and incorporated by reference in Rule 67-48.002(94), Florida Administrative Code. Pursuant to the QAP, Tax Credits are apportioned among the most populated counties, medium populated counties, and least populated counties. The QAP also establishes various set-asides and special targeting goals.

8. The 2011 Universal Cycle Application is adopted as Form UA1016 (Rev. 2-11) by Rule 67-48.004(1)(a), Florida Administrative Code, and consists of Parts I through V and Instructions, some of which are not applicable to every Applicant.

9. FHFC's scoring process for 2011, found at Rules 67-48.004-.005, Florida Administrative Code, involves the following:

- a) the publication and adoption by rule of an application package;

- b) the completion and submission of applications by developers;
- c) FHFC's preliminary scoring of applications;
- d) an initial round of administrative challenges in which an applicant may take issue with FHFC's scoring of another application by filing a Notice of Possible Scoring Error ("NOPSE");
- e) FHFC's consideration of the NOPSEs submitted, with notice to applicants of any resulting change in their preliminary scores;
- f) an opportunity for the applicant to submit additional materials to FHFC to "cure" any items for which the applicant received less than the maximum score;
- g) a second round of administrative challenges whereby an applicant may raise scoring issues arising from another applicant's cure materials by filing a Notice of Alleged Deficiency ("NOAD");
- h) FHFC's consideration of the NOADs submitted, with notice to applicants of any resulting change in their scores;
- i) an opportunity for applicants to challenge, via informal or formal administrative proceedings, FHFC's evaluation of any item for which the applicant received less than the maximum score; and

j) final scores, ranking, and allocation of funding to successful applicants, as well as those who successfully appeal through the adoption of final orders.

10. The 2011 Universal Cycle Application offers a maximum score of 79 points. In the event of a tie between competing applications, the Application Instructions provide for a series of tie-breaking procedures to rank such applications for funding priority including the use of lottery numbers (randomly assigned during the application process).

11. On December 6, 2011, SP submitted an application for competitive 9% low income housing tax credits in FHFC's 2011 funding cycle for its proposed Central Court Apartments development (Application No. 2011-149C) ("the Application"). The proposed development involves acquisition and preservation of an existing rental facility. The proposed development is a multi-family rental facility located in Tampa, Florida, consisting of 68 units of garden style apartments.

12. Among other things, Part III of the Application Instructions provides for the award of Proximity Tie-Breaker points. Application Instructions, III.A.10. at 28. The maximum Proximity Tie-Breaker points each Applicant is eligible to receive is 37, of which a maximum of 7 points will be awarded to an application for the proximity of the Development's Tie-Breaker Measurement Point to eligible

Transit services. Application Instructions at iv and III.A.10 at 28-29. Of the 4 categories of eligible Transit Services from which an applicant may select, a maximum of 6 points will be awarded for a Public Bus Transfer Stop. Application Instructions, III.A.10.a.(2)(a)(ii) at 30.

13. To be eligible for Proximity Tie-Breaker points, Applicants are required to submit information regarding the Tie-Breaker Measurement Point and proximity to services. Application Instructions, III.A.10.a. at 28-29.

14. The Eligible Transit Services are defined in Part III of the Application Instructions:

(ii) Public Bus Transfer Stop (Maximum 6 Points)

For purposes of proximity tie-breaker points, a Public Bus Transfer Stop means a fixed location at which passengers may access at least three routes of public transportation via buses. Each route must have a scheduled stop at the Public Bus Transfer Stop at least hourly during the times of 7am to 9am and also during the times of 4pm to 6pm Monday through Friday, excluding holidays, on a year-round basis. This would include both bus stations (i.e. hubs) and bus stops with multiple routes. Bus routes must be established or approved by a Local Government department that manages public transportation. Buses that travel between states will not be considered.

Application Instructions, III.A.10.a.(2)(a)(ii) at 30-31.

15. The Application Instructions provide that to be considered for Proximity Tie-Breaker points, Transit Services must be in existence and available for use by

the general public as of the application deadline.¹ The Application Deadline was December 6, 2011. Proposed Rule Time Line.

16. Pursuant to Rule 67-48.004(6), Florida Administrative Code, SP provided the required information regarding the Tie-Breaker Measurement Point and proximity to services relating to a Public Bus Transfer Stop on or around February 29, 2012. See Cure Re: Application No. 2011-149C at 14.

17. In providing this information, SP relied upon a letter dated February 22, 2012, from Linda Walker, a planner for the Hillsborough Regional Transit Authority ("HART") stating that the "fixed location located at the NE corner of W. Columbus Dr and N. Florida Ave provides access to HART routes 15, 1 & 6. Access to HART routes 15, 1 & 6 is currently available at [the location SP provided] . . . and *has been available without interruption since December 6, 2011.*" (emphasis supplied). (Exhibit A). As can be seen, the letter expressly provides the information as of the application deadline, December 6, 2011.

18. On or around March 6, 2012, Applicant No. 2011-133C filed a NOAD regarding the Application, alleging that the bus stop identified by SP, located at the "north side of Columbus Drive just east of Florida Avenue" does not qualify as a Public Bus Rapid Transit Stop or a Public Bus Transfer Stop. (Exhibit B). Specifically, the NOAD alleged that the bus stop identified by SP serves only one

¹ To be considered for proximity tie-breaker points in this Application, all Transit Services, Tier 1 Services and Tier 2 Services must be in existence and available for use by the general public as of the Application Deadline with the exception of the SunRail Public Rail Stations. Application Instructions, III.A.10.a.(2)(c) at 37.

route, and accordingly is not a fixed location bus stop that serves three or more routes.

19. Notably, the NOAD included an email provided by HART's Manager of Service Planning, Steve Feigenbaum, dated March 6, 2012, stating that "*as of this date (March 5, 2012)*" (emphasis supplied) the stop identified serves Westbound 15 only. The email did not speak to the routes served as of the date of the application deadline.²

20. The NOAD also includes a photograph of the "Bus Stop Identified in Surveyor Certification," with a caption stating, "Route 15 Westbound, North Side of Columbus Avenue, Just east of Florida Avenue." It is impossible to determine the date on which the photograph was taken, but it indisputably makes no reference to the date of the application deadline. Therefore, it too fails to lend support to the NOAD's assertions.³

² The email was the only basis cited in the Final Scoring Summary for FHFC's denial of Public Bus Transfer Points.

³ Additionally, even if the photograph did relate back to the date of the application deadline, it merely captures an image of one bus stop sign at the intersection of Columbus Avenue and Florida Avenue. The scoring of Application 2011-118C, among others, demonstrates that FHFC accepts as a Public Bus Transfer Stop one with multiple embarkment locations which serve the same intersection but are, by the necessity of traffic patterns, denoted by separate signs. In Application 2011-118C, the applicant successfully argued that to meet the requirement for each route to make hourly stops at the Public Bus Transfer Stop during certain hours, it was entitled to count stops made by both Northbound Route 10 and Southbound Route 10. It would be impracticable for persons to embark the Northbound Route 10 bus and Southbound Route 10 bus at the exact same location, since a northbound bus would provide embarkment on one side of the street and a southbound bus would provide embarkment on the other. Nonetheless, and consistent with the intent of the Public Bus Transfer Rule to provide service at a convenient location to multiple routes, FHFC determined that the applicant was entitled to Public Bus Transfer Points. Undoubtedly, traffic patterns produce a similar result in numerous applications, since buses traveling in opposite directions will rarely have identical embarkment locations. The photograph in the NOAD is not expansive enough to capture additional signs that would denote embarkment locations serving the same intersection.

21. On or around March 6, 2012, Applicant No. 2011-046C also filed a NOAD regarding the Application, alleging that the location SP provided is not a Public Bus Rapid Transit Stop or a Public Bus Transfer Stop. (See exhibit C). Specifically, the NOAD alleged that the location provided in the form serves only one bus route.

22. The NOAD also includes a HART route map for Route 15. However, the route map does not indicate the dates to which they are applicable and does not speak to the date of the application deadline.

23. Additionally, the route map fails to support the NOAD's claims. These route maps demonstrate, as is admitted in the NOAD, that Route 15 stops at the intersection of Florida Avenue and Columbus Drive. The route map also shows, at the same intersection (Florida Avenue and Columbus Drive), 2 black ovals, inside of which the numbers 1 & 6 are denoted. The route map contains a "legend" indicating that the ovals on the map represent "connecting routes." The ovals shown at Florida Avenue and Columbus Drive represent a "connecting route 1" and a "connecting route 6" at that location.⁴ Accordingly, the route map provided shows 3 routes (15, 1 & 6) serving the Public Bus Transfer Stop at the intersection of Florida Avenue and Columbus Drive.

⁴ While it is not disputed that this location provides an embarkment location for route 15, logic also dictates that one may embark and disembark a Route 1 or Route 6 bus at a location denoted as a "Connecting Route" for Route 1 or Route 6, respectively.

24. The NOAD also included a historic "Google Maps Street View" image of a sign for a bus stop at the location provided. The sign denotes service of only Route 15. The image does not relate to the date of the application deadline. Therefore, it too fails to lend support to the NOAD's assertions.⁵

25. Thus, the NOAD contained no information that provided a proper basis upon which to disqualify the location SP provided as a Public Bus Transfer Stop.

26. Nonetheless, by its scoring summary dated March 28, 2012 (Exhibit D), FHFC determined that SP failed to achieve any Proximity Tie-Breaker points for the Public Bus Transfer Stop, citing the email included in the NOAD submitted by Applicant No. 2011-133C. Specifically, the scoring summary provides the following reason for this determination:

As a cure to Item 1P – 8P, the Applicant provided a Surveyor Certification for Competitive HC Applications form with latitude and longitude coordinates for the Public Bus Transfer Stop/Public Bus Rapid Transit Stop. A NOAD provided confirmation from a Manager of the Hillsborough Area Regional Transit Authority that this location does not meet the definition of either the Public Bus Transfer Stop or Public Bus Rapid Transit Stop.

SP's Substantial Interests

27. As an applicant for funds allocated by FHFC, SP's substantial interests are adversely affected by FHFC's scoring decisions. SP believes that a

⁵ See also Footnote 3.

determination that its Application has achieved the Proximity Tie-Breaker points for the Public Bus Transfer Stop would increase its likelihood of receiving housing credits through the Competitive HC Program. Accordingly, SP is a named party and its substantial interests will be affected by FHFC's determination.

Receipt of Notice of Agency Decision

28. On March 28, 2012, SP received notice of FHFC's decision as to the scoring of its Application as reflected in the attached scoring summary (Exhibit D).

Statement of Ultimate Facts

29. SP provided the information required to achieve 6 Tie-Breaker Measurement points for a Public Bus Transfer Stop. See Cure Re: Application No. 2011-149C at 14. The coordinates SP identified represent a fixed location that meets the definition of a Public Bus Transfer Stop.

30. In accordance with the requirements of the rules, SP provided FHFC with information for a Public Bus Transfer Stop that is consistent with a letter from a planner for HART stating that ". . . Access to HART routes 15, 1 & 6 is currently available at the fixed location . . . and *has been available without interruption since December 6, 2011.*" (emphasis supplied).

31. The only relevant date for services, according to FHFC's rules, is December 6, 2011, the date of the application deadline.

32. The rules do not allow FHFC to deny SP points to which it is entitled on the basis of information that does not clearly show whether the services were available on December 6, 2011. An applicant that fails "to demonstrate that service was available as of the application deadline date in accordance with the rules which govern the application *and scoring process*" (emphasis added), will be denied points. See Villa Capri Associates, Ltd., FHFC Case No. 2008-058UC (Final Order on Remand).

33. The NOAD relied upon by FHFC and the NOAD submitted by Applicant No. 2011-046C are insufficient and do not provide a proper basis, according to the standards of FHFC's rules, to justify FHFC's denial of Proximity Tie-Breaker points for the Public Bus Transfer Stop for SP. Among other deficiencies outlined below, none of the materials provided in the NOAD address the qualifications *as of the application deadline*, of the location provided.

34. The email provided in the NOAD relied upon by FHFC and cited by FHFC in its scoring summary⁶ fails to demonstrate that the location SP provided does not meet the definition of a Public Bus Transfer Stop. The email speaks only to the status of the location as of March 5, 2012, the date of the email, which is a

⁶ The email was the only basis cited in the Final Scoring Summary for FHFC's denial of Public Bus Transfer Points.

full 3 months after the application deadline.⁷ Accordingly, FHFC was not entitled to consider the email.

35. The photograph provided in the NOAD relied upon by FHFC and the Google Street View Image provided in the NOAD submitted by Applicant No. 2011-046C are also deficient. The record lacks any evidence that the photograph or the image provided in the NOADs present an accurate depiction *as of the date of the application deadline*.

36. Additionally, the scope of these images provides an insufficient basis for making any reasonable determination about the location provided. FHFC has accepted a Public Bus Transfer Stop with multiple embarkment locations which serve the same intersection but are, by the necessity of traffic patterns, denoted by separate signs. See footnote 3. *supra*. This standard is in accordance with the fact that no applicable definition is provided for the term "fixed location" and the definition of a Public Bus Transfer Stop explicitly includes "bus stops" (plural).⁸ The most common example justifying this standard is two embarkment locations on opposing sides of the street to serve buses traveling in opposite directions.

37. Thus, even if the images related to the date of the application deadline, the images does not capture an image of the intersection of Florida

⁷ The email not only fails to address the routes served as of the date of the application deadline, it explicitly disclaims making any assertions about dates other than March 5, 2012.

⁸ "This would include both bus stations (i.e. hubs) and bus stops with multiple routes." Application Instructions, III.A.10.a.(2)(a)(ii) at 30-31.

Avenue and Columbus Drive that is comprehensive enough for FHFC to reasonably conclude that only one route was served at the intersection.

38. As noted above, the route map provided in the NOAD submitted by Applicant No. 2011-046C not only fails to reference the date of the application deadline, it also fails to support the claim that the location SP provided serves only one route. The route map shows 3 routes (15, 1 & 6) serving the Public Bus Transfer Stop at the intersection of Florida Avenue and Columbus Drive.

39. As discussed above, none of the information contained in the NOAD provides a proper basis for FHFC to base its decision to deny SP Proximity Tie-Breaker points for the Public Bus Transfer Stop.

40. Accordingly, FHFC erred in determining that SP failed to achieve any Proximity Tie-Breaker points for the Public Bus Transfer Stop.

Specific Rules that Require Reversal or Modification

41. SP is entitled to a determination that its Application should receive 6 Proximity Tie-Breaker points for the Public Bus Transfer Stop, and thus a reversal or modification of agency action, by the following statutes and rules: Chapter 120, including Sections 120.569 and 120.57(2), Florida Statutes (2011), and Chapter 67-48, including Rules 67-48.004 and 67-48.005, Florida Administrative Code. Specifically, FHFC's definition of Public Bus Transfer Stop in Application Instructions, III.A.10.a.(2)(a)(ii) at 30-31, was applied in error to SP, resulting in

an erroneous determination that SP was not entitled to Proximity Tie-Breaker points for a Public Bus Transfer Stop.

No Material Facts Are in Dispute

42. SP is currently unaware of any disputed issues of material fact. However, SP reserves the right to request a formal hearing if FHFC or any other party disputes any of the material facts set out in this petition or otherwise relevant to SP's statement of ultimate facts or its requested relief.

Requested Relief

43. SP requests that it be granted an administrative proceeding to contest FHFC's erroneous scoring decision. SP requests the entry of recommended and final orders determining: (1) that SP provided the information required to achieve 6 Proximity Tie-Breaker points for a Public Bus Transfer Stop; and (2) 6 Proximity Tie-Breaker points should be added to the scoring of SP's application.

Brief Statement of Explanation regarding Application 2011 – 149C

Provide a separate brief statement for each NOAD

NOAD for Application 149C: Central Court Apartments, Item 1P

Summary: Applicant's cure (Item 1P from the NOPSE Scoring Summary Report) identifies a bus stop that does not meet FHFC's definition of either a "public bus transfer stop" or a "public bus rapid transit stop". As a result, zero proximity tiebreaker points should be awarded for this service.

1. Does not meet requirements for "Public Bus Transfer Stop" because it serves only one route.
2. Does not meet requirements for "Public Bus Rapid Transit Stop" because service during required hours is every 30 minutes.
3. Does not meet requirements for "Public Bus Rapid Transit Stop" because the route does not travel at any point in a lane or corridor that is exclusively used by buses.

The Applicant for Application 149C submitted a cure related to Exhibit 25, Surveyor Certification Form. In that cure, they identify a "Public Bus Transfer Stop or Public Bus Rapid Transit Stop" located at N27 58 00.9 W82 27 32.3 **THIS BUS STOP IS NEITHER A "PUBLIC BUS TRANSFER STOP" NOR A "PUBLIC BUS RAPID TRANSIT STOP"** This conclusion is supported by the attached email from the Hillsborough Area Regional Transit Authority ("HART"), a HART route schedule, and a photograph of the bus stop.

As the Surveyor Certification does not require the Applicant to indicate which of the two options they are claiming (Transfer Stop or Rapid Transit Stop), we will show that this bus stop does not meet the requirements of either option

Why the Stop is not a "Public Bus Transfer Stop": To meet this standard, the stop must constitute a fixed location that serves three or more routes. The **bus stop identified in the cure** is located north side of Columbus Drive just east of Florida Avenue, and only serves WESTBOUND Route 15. **This stop is a single route stop.** This is verified by both the HART email and the attached photograph of the bus stop.

It is important to note that the definition requires a "**fixed location**" bus stop that serves three or more routes—as opposed to two bus stops at different locations that are near each other that collectively serve three or more routes. The existence of a nearby bus stop that serves other routes does not meet FHFC's definition.

Why the Stop is not a “Public Bus Rapid Transit Stop”:

Reason 1: FHFC requires that a “public bus rapid transit stop” must service at least one route that has scheduled stops at the rapid transit stop in question at least every 20 minutes during the times of 7am to 9am and 4pm to 6pm, Monday through Friday. The attached HART route schedule for Route 15 (westbound, stop at Columbus and Florida) shows that service for the bus stop identified in the cure (during both the hours of 7am to 9am and from 4pm to 6pm) is every 30 minutes. For this reason alone, the stop fails to meet the requirements of a “public bus rapid transit stop”. The schedule is verified by the HART email and the attached HART route schedule.

Reason 2: FHFC requires that the stop “must service at least one bus that travels at some point during the route in either a lane or corridor that is exclusively used by buses”. Route 15 (the route that serve this location) does not meet this definition because it does not travel at any point in a lane or corridor that is exclusively used by buses. This is verified by the attached HART email.

Additionally, a bus route is not “rapid transit” because it includes an area where a bus can pull over to stop to avoid impeding other traffic, or if it simply ends its route at a bus-turnaround area (such as the C. K. Steele Plaza near the FHFC offices).

As we are not disputing the location of the bus stop as presented in the cure, we are not providing a surveyor certification related to the location.

Conclusion: Because the bus stop identified in the Exhibit 25 cure does not meet the definition of either a “Public Bus Transfer Stop” or a “Public Bus Rapid Transit Stop”, zero proximity tiebreaker points should be awarded for this service.

Please see the following response to your request provided by HART's Manager of Service Planning, Steve Feigenbaum.

Application 148C

- 1 I can confirm that there is a HART bus stop at the coordinate point referenced in the request. It is as stated on the North side of 21st Ave. East of 22nd. I have identified this stop as HART stop #2394 also named '21st Ave @ 22nd St.'.
2. I can confirm that as of this date (March 5, 2012) this stop serves Southbound Route 6 and Southbound Route 18 and does not presently serve any other bus stop.
- 3 I can confirm that neither Route 6 nor Route 18 'services any bus that travels at some point during the route in either a lane or corridor that is exclusively used by buses'. Route 6LTD (Limited) uses the Marion Street Transitway (a mixed use right-of-way) for two trips in the AM and two trips in the PM, but 6LTD travels a different pattern than Route 6 and does not travel 21st Avenue nor use stop #2394.

Application 149C

1. I can confirm that there is a HART bus stop at the coordinate point referenced in the request. It is as stated on the North side of Columbus Dr East of Florida Ave. I have identified this stop as HART stop #3005 also named 'Columbus Dr @ Florida Ave'.
- 2 I can confirm that as of this date (March 5, 2012) this bus stop serves Westbound 15 only and no additional routes.
3. I can confirm that Route 15 does not 'service any bus the travels at some point during the route in either a lane or corridor that is exclusively used by buses'.
4. I can confirm that as of this date (March 3, 2012) Route 15 provides 30 minute service to stop #3005 between the hours of 7 AM to 9AM and from the hours of 4 PM and 6 PM Monday through Friday.

Re. Public Records Request

Dear Mr. Sandusky:

Below is the information we are requesting to be confirmed for the bus stops listed below. For your reference, I have attached the Surveyor Certification Forms from the below listed applications to Florida Housing Finance Corporation.

We are working with a very tight deadline and we must submit this information to Florida Housing Finance Corporation by 5:00 p.m. on Tuesday, March 6th.

Application 148C – Jackson Heights Apartments

Application 148C utilizes the bus stop at N27 58 13 8 W82 26 04 4

- 1 This is the bus stop located on the north side of 21st Avenue, just east of 22nd Street
2. This bus stop only serves SOUTHBOUND Routes 6 and 18. This stop does not service any other bus routes.
- 3 Neither Route 6 nor Route 18 services any bus that “travels at some point during the route in either a lane or corridor that is exclusively used by buses”

Application 149C – Central Court Apartments

Application 149C utilizes the bus stop at N27 58 00.9 W82 27 32.3

1. This bus stop is located on north side of Columbus Drive just east of Florida Avenue
- 2 This bus stop serves WESTBOUND Route 15 This stop is a single route stop.

Brief Statement of Explanation regarding
Application 2011 – 149C

Provide a separate brief statement for each NOAD

Part III.A.10.a.(2)(a)(ii) of the Application Instructions defines Public Bus Transfer Stop as a fixed location at which passengers may access at least three routes of public transportation via buses.

At Application, the Applicant did not submit a Surveyor Certification form; however, the Applicant submitted the form with its cure materials – see Attachment A.

Using Google Maps Street View, the Transit Service provided in the form was found to offer only one route of public transportation via bus – see Attachment B.

The Transit Service provided in the form is on Columbus Drive between Florida Avenue and I-275. Per the Hillsborough Area Regional Transit (HART) website, the only route that serves this portion of Columbus Drive is Route 15 – see Attachment C.

The Applicant did not provide coordinates for a Public Bus Transfer Stop as defined by the Application Instructions; and is, therefore, only eligible to receive tie-breaker points for a Public Bus Stop as defined by the Application Instructions.

Reason(s) for Failure to Achieve Selected Proximity Tie-Breaker Points:

Item #	Reason(s)	Created As Result	Rescinded As Result
9P	Although the Applicant stated that it was eligible for automatic proximity tie-breaker points at Part III.A.10.b.(6) of the Application, the Development does not qualify for this selection because it appears that none of the proposed Development is not located in a Set-Aside Location A Area. It was not eligible for proximity tie-breaker points based on its location because the Surveyor Certification for Competitive HC Applications form was not provided (see Item 1P - 8P).	Preliminary	
1P-8P	The Applicant did not receive any proximity tie-breaker points for Transit, Tier 1 or Tier 2 Services because the Applicant did not submit the Surveyor Certification for Competitive HC Applications form.	Preliminary	

Additional Application Comments:

1C	V.	B.		Pro Forma	The Applicant listed 6-month operating reserve of \$150,000. However, No. 5 on the Development Cost Pro Forma Notes states "For purposes of the Development Cost calculation in this Application, the only reserves allowed are contingency reserves for rehabilitation and construction..." Therefore, the Total Development Cost was reduced by \$150,000.	Preliminary	
2C	III.	A.	2.d.	Urban In-Fill	The Applicant indicated that the proposed Development qualifies as an Urban In-fill Development, but failed to provide the Local Government Verification of Qualification as Urban In-Fill Development form.	Preliminary
