ORDERING GUIDE

FortiGate-as-a-Service

Overview

FortiGate-as-a-Service (FGaaS) delivers enterprise-grade FortiGate NGFW capabilities directly from the cloud, empowering organizations to enhance their network security with simplicity and scalability. FGaaS integrates seamlessly with the broader Fortinet Security Fabric, offering robust protection with the ease of cloud deployments and maintenance. The flagship NGFW product is hosted in the Fortinet managed data center, FortiGuard services, IPs, and bandwidth offerings with flexible monthly subscription.

Hardware

▪ Select FortiGate models from entry-level to high-end all running the same operating system, FOS, hosted in Fortinet managed data centers with FortiGuard Security Services, IPs, and guaranteed bandwidth to provide high-speed networking, hardware-accelerated performance features, and built-in market-leading SD-WAN.

AI-Powered Security Service

▪ Leverage Fortinet industry-leading threat intelligence powered by FortiGuard Labs, to provide real-time proactive protection against known and emerging threats. Select from FortiGuard UTP or Enterprise Services Bundles, with a-la-carte services to ensure you are protected from the latest threats.

Cost Efficiency

▪ Reduce capital expenditure and lower total cost of ownership (TCO) by eliminating the need to invest in physical hardware and associated maintenance costs.

FortiPoints

All hardware and service selections are offered using FortiPoints, calculated on a monthly cycle and validity with auto-renewal and FortiPoints deduction from the account. Service requires FortiPoints balance which can be ordered with the FortiPoints SKUs below. For more information on FortiPoints, please visit https://www.fortinet.com/products/fortipoints
