Developing cybersecurity skills in youth

To further develop the cyber workforce of the future, Fortinet is sponsoring various competitions for students from middle school to college. This includes platinum sponsorship for [MITRE Engenuity's Embedded Capture the Flag \(eCTF\)](#) 12-week competition and a category sponsorship for the [Carnegie Mellon Capture the Flag competition](#).

Threat Predictions from FortiGuard Labs 2H 2022 Report

We're increasingly seeing cybercriminals take a "work smarter, not harder" approach to unveiling new tactics. From new advanced persistent cybercrime tactics to upgrading old-school botnets like Mirai, bad actors continually find more sophisticated ways to infiltrate networks, making every organization regardless of size or industry a target.

- APT-like wiper malware expands worldwide
- Attackers are reimagining old-school tactics
- Ransomware remains at peak levels
- Drive-by compromise goes full throttle
