Pricing Proposal

REDACTED

Confidential Information Statement

The enclosed Proposal contains confidential information and trade secrets of IGT and/or its affiliated entities that are exempt from public disclosure under the New York State Freedom of Information Law (“FOIL”). The public disclosure of such information may irreparably harm IGT and cause substantial injury to its competitive position.

In accordance with RFP 1.15, Designation of Proprietary Information, IGT has submitted with its Proposal a request to exempt such information from disclosure. With the request, we have included a Confidential Information Table, which identifies the specific material in the Proposal that should be exempt from disclosure, the location of such material, and the reasons why the information should be exempt from disclosure.

Trademark Statement

The trademarks and logo contained in this Proposal are owned by and/or licensed to IGT or its affiliates and are printed with its permission and may not be used without its permission. In some cases, the game names and game logos in this Proposal serve as examples only, and additional analysis, including searches of third-party trademarks, may be required to determine whether use outside the scope of this Proposal is appropriate.

Pricing Proposal

Lot 1 Bidders must use this form. Lot 2 and 3 may use an alternative form.

Base Pricing

Each vendor shall provide their pricing for slant top and upright as a percentage of net terminal income, carried to four (4) decimal places, including zeros. If a bidder does not carry out a price quote to four (4) decimal places, the Commission will add the appropriate number of zeros. For example, if a quote is stated as 0.10%, the Commission will add two (2) zeros to make the quote read 0.1000%. Pricing is inclusive of machine lease, games, software, maintenance and seats.

Term of Placement fee

Each Bidder shall specify a minimum duration that a machine must remain in service on the gaming floor once placed into service. The Bidder shall also establish a fee schedule if such machine is removed from service prior to the minimum time required:

IGT would establish the following fee schedule for all machines (of the type specified in RFP Section 3.2.C) being removed within sixty (60) months of being placed in service (“Term of Placement”):

Fifty percent (50%) of the previous six (6) months’ average daily fee payable to IGT for the machines being removed (or since the day it has been placed into service if the machine has been in service for less than six (6) months, and excluding any day in which the machine has been inactive) multiplied by the remaining number of days until the end of the Term of Placement.
