STANDARD TERMS AND CONDITIONS

Delivery Tolerance – The Lottery will be billed only for the exact quantity of conforming tickets actually delivered within the delivery tolerance at the price for the ordered quantity involved.

Interpolation – Prices quoted are such that linear interpolation between cost levels applies should the Lottery wish to purchase a quantity of tickets other than those actually listed.

Royalties for Game Theme Trademarks, Copyrights, Licensed Properties, etc. – Our pricing does not include royalties to be paid for the use of intellectual property rights for game themes or designs not required to print our standard tickets. These property rights include our portfolio of licensed or patented game themes and play styles, such as MONOPOLY[®], HARLEY-DAVIDSON[®], HOLD 'EM POKER[®] or BETTY BOOP[®]. In the event we or our affiliates are an authorized licensing representative for such rights and the Lottery desires to use them, such rights will be provided in a separate licensing agreement at additional cost. In all other cases, where such rights are requested for a given game, the Lottery shall be responsible for acquiring the right to use them. In the alternative, if requested by the Lottery, we will attempt to acquire such rights upon such terms and conditions as may be acceptable to the Lottery.

Standard Items – Our standard inks, materials, and procedures, which meet all specified requirements of the RFP, will be used in producing the tickets under this proposal. If any special items or steps are desired beyond these standard items, we will endeavor to provide them, and will quote the additional charge for them, if any, beforehand, for the Lottery's consideration.

Inter-Relationship of Options – Most of the options presented here may be selected independently of one another. However, some of the options are inter-related because of equipment limitations or technical reasons. For example, the total number of coatings which consist of the front display colors, back display colors, lily pad coat, seal coats, release coats, latex coat and overprints is limited by the total number of printing stations on the printing press in use at a given time.

Dates – We strongly advise against placing of dates of any kind onto instant lottery game tickets. Note that dating tickets converts instant game tickets into a "perishable" commodity. If ticket delivery is delayed due to force majeure, a condition of such dating is that the Lottery agrees to assume the risk of such force majeure and to accept such delayed tickets (regardless of the dating thereon).

Taxes – The price quoted is based on the assumption that no sales or use tax, no gambling-related tax, or no customs, duties, or importation taxes will be levied on the goods and services involved herein, and if they are, our price should be considered to be increased to the extent of such taxes.

PRICE PROPOSAL

NASPL Best Practice Pricing Methodology – Scientific Games subscribes and supports the following NASPL RFP Best Practice Pricing Methodology for Deliverables and Services Not Originally Defined (NASPL Guide to the Standard Request For Proposal (RFP) Template, Section 3.23.2):

“Changes and enhancements that exceed RFP and contractually specified requirements (and which are not otherwise accommodated for in this RFP or by the pricing method in the RFP) will have the terms and price negotiated and approved by both parties, or be subject to a separate agreement. These include, but are not limited to, categorically different service obligations, and new technology enhancements.”
