Gross Expense Ratio	2.17

Net Expense Ratio reflects the reduction of expenses from fee reimbursements. The fee reimbursements will continue until at least June 30, 2024. Elimination of this reimbursement will result in higher fees and lower performance.

The adjusted expense ratios, which reflects the net and gross expense ratios excluding dividend and interest expense on short sales, are as follows: Net Expense Ratio: 0.83 and Gross Expense Ratio: 1.18. Dividends paid on borrowed securities are an expense of short sales. Such expenses are required to be treated as a Fund expense for accounting purposes and are not payable to GMO. The Fund also receives income in connection with short sales, which is reflected in the Fund's net income but is not reflected as an offset to dividend expenses on short sales in the Fund's annual fund operating expenses table. Any interest expense amount or dividends paid on securities sold short will vary based on the extent of Fund's use of those investments. **Gross Expense Ratio is equal to the Funds Total Annual Operating Expenses set forth in the Funds most recent prospectus dated June 30, 2023.**
