

SMALL CAP QUALITY

OVERVIEW

The GMO Small Cap Quality Fund seeks to generate total return by investing primarily in equities of U.S. small cap companies that the Focused Equity team believes to be of high quality.

The team believes that companies with established track records of historical profitability and strong fundamentals – high quality companies – are able to outgrow the average company over time and are therefore worth a premium price. The Fund's disciplined approach uses both quantitative and fundamental techniques to assess the relative quality and valuation of U.S. small cap companies and aims to exploit a long-term investment horizon while withstanding short-term volatility.
