AUTHORIZATION FOR RELEASE OF CONFIDENTIAL PROTECTED HEALTH INFORMATION (PHI)

CONFIDENTIAL PHI RECORDS SENSITIVE IN NATURE

Certain Federal and State Privacy laws require your express permission before we may discuss/release protected health information (PHI) to your relatives, friends, employer, etc. This authorization is required in order to document your intent and to identify the person(s) who has your permission to contact us on your behalf ("authorized person") for the reasons mentioned below.

This authorization is solely for release of PHI related to mental health, substance use treatment, sexually transmitted disease, contraception, and/or abortion.

*This authorization allows an Authorized Person(s) access to PHI for purposes such as checking claims status, policy benefits, pre-authorization procedures, etc. To authorize the release of records **not** related to mental health, substance use, sexually transmitted disease, contraception, and/or abortion, a 2A (Authorization to Use or Disclose PHI) form must be completed.*
