Our Tradition of Live Racing

The roots, and name, of Penn National Gaming trace to a racetrack in Grantville, Pennsylvania. Starting in 1972 with Penn National Race Course, the Company has now grown into not only one of the nation’s top gaming companies, but the largest owner of pari-mutuel facilities in North America. The Company conducts nearly 1,350 live racing dates annually and processes over \$1 billion in pari-mutuel handle on its races or at its facilities annually.

PNGI has full or joint venture ownership in 13 racetracks, including Thoroughbred Racing at Hollywood Gaming at Mahoning Valley Race Course (Austintown, OH), Zia Park Casino, Hotel & Racetrack (Hobbs, NM), Hollywood Casino at Penn National Race Course (Grantville, PA), Hollywood Casino at Charles Town Races (Charles Town, WV), Sam Houston Race Park (Houston, TX), and Retama Park (Selma, TX.) (Retama Park, Sam Houston Race Park and Zia Park also conduct Quarter Horse racing.) Standardbred Racing is conducted at Freehold Raceway (Freehold, NJ); Hollywood Casino, Hotel & Raceway (Bangor, ME), The Meadows Casino, Racetrack and Hotel (Washington, PA), Hollywood Gaming at Dayton Raceway (Dayton, OH) and Plainridge Park Casino (Plainville, MA.) In addition to live racing, year-round simulcasting from racetracks around the country, and the world, are offered at all of these facilities.

PNGI operates or jointly operates five Off-Track Wagering facilities: two in Pennsylvania, two in New Jersey and one inside our Bangor, Maine casino. PNGI also operates the national account wagering site *Hollywoodraces.com* which offers legal pari-mutuel wagering via the internet, mobile app and telephone in over 22 states.

Major Races & Events

Offering quality race meets and presenting marquee races is the mission for PNGI’s racing division. PNGI’s racing profile has increased dramatically in recent years, highlighted by the

Grade 2, \$1 million Charles Town Classic, the richest thoroughbred dirt race in the United States for older horses outside of the Breeders' Cup Classic and Pegasus World Cup. Charles Town is also host to the Grade 3, \$300,000 Charles Town Oaks.

Other major racing events hosted by Company racetracks include the \$500,000 Grade 2 PENN Mile and \$200,000 Fabulous Strike Handicap (Penn National Race Course), the \$300,000 Houston Ladies Classic and \$200,000 John Connally Stake, both Grade 3 races (Sam Houston Race Park), \$2 million New Mexico Breeder's Championships and \$1 million Land of Enchantment Day (Zia Park), \$250,000 Steel Valley Sprint (Mahoning Valley), the \$150,000 Dayton Trotting Derby and \$150,000 Dayton Pacing Derby (Dayton Raceway) and the \$400,000 Adios Stakes (The Meadows.)

INTRODUCTION TO THE GUIDE

The public reputation and goodwill of Penn National Gaming, Inc. ("PNGI"), as well as each of the race tracks it owns or operates (collectively and individually referred to herein as the "Racetrack"), are valuable assets vital to our success. As members of the pari-mutuel wagering and gaming communities, it is necessary for all of us to adhere to the industry's highest standards of integrity in order to ensure both positive public perception and maintain the licenses and regulatory privileges of PNGI and the Racetrack.

This *Horse Racing Guide* (the "Guide") applies to all personnel and individuals associated with the Racetrack, including all persons who hold valid and current racing licenses or who are otherwise permitted on the Racetrack's privately owned property, including, but not limited to, owners, racing officials directly employed by the Racetrack (excluding employees of Racing Commissions or other government regulatory bodies), trainers, trainers' agents, grooms, veterinarians, vendors, pony people, outriders, independent contractors, jockeys, jockeys' agents, drivers, guests, other agents, and anyone else with a racing license or permit (collectively referred to herein as the "Racing Participants").

Racing Participants shall comply with all rules and policies within the Guide. Failure to abide by the rules and policies within the Guide may result in sanctions being imposed on a Racing Participant, including but not limited to loss of stabling and/or racing privileges, ejection, eviction or barring from the all premises of the Racetrack. A Racing Participant's violation of the Guide at any one PNGI's Racetrack, may be considered by PNGI, in its sole discretion, as a violation applicable to all other PNGI Racetracks, and such Racing Participant may face sanctions at all PNGI Racetracks.

The Guide covers a wide range of actions designed to foster integrity and honesty among all Racing Participants. It does not cover every issue that may arise, but rather sets out basic principles of behavior for all Racing Participants. Dishonest or illegal conduct will constitute a violation regardless of whether the conduct is specifically addressed in the Guide. In order to maintain the privilege to enter and conduct business on the Racetrack grounds, Racing

Participants must be familiar with and comply with the Guide as well as all applicable laws and regulatory requirements.

No guide or code of conduct can replace the thoughtful behavior of someone conducting their business with a high level of integrity. Thus, in addition to the Guide, all Racing Participants are also expected to conform to the racing industry's highest standards of professional and ethical conduct. Any decision to act, or not to act, against a person covered by this Guide is at the sole discretion of the Racetrack and based on the information and circumstances of each individual occurrence.

While we expect to periodically give notice relative to updates to the Guide and other matters, because of the fast-paced and highly-regulated nature of our business, the Racetrack reserves the right to alter or amend this Guide and any or all of its rules and policies, at any time, and from time to time, at its or PNGI's sole discretion. The Guide is distributed in the public areas accessible to Racing Participants as well as on the websites of every Racetrack. We will make reasonable efforts to communicate any such change; however, it is incumbent upon the Racing Participants to make themselves familiar with the contents of the Guide and to be aware of any changes, updates or modifications to this Guide.

PART 1 – GENERAL

1.1 STANDARDS OF CONDUCT

A. General

All persons covered by the Guide shall avoid conduct that is detrimental to the integrity of, and public confidence in, the pari-mutuel wagering and gaming community. Ethical and responsible conduct serves the interests of the Racetrack, the Racing Participants, and the racing industry as a whole. Illegal or irresponsible conduct does more than simply tarnish the offender. It can put innocent persons at risk, damage the reputation of others, and undermine the public's respect and support for the racing industry.

In the normal course of our business, the Racetrack may require Racing Participants to complete and sign various forms, and provide other information as required or requested, prior to being granted access to or continuing with racing privileges at the Racetrack. Racing Participants are expected to fully cooperate at all times in these processes.

B. Dishonest, Offensive or Illegal Conduct

While criminal activity is clearly outside the scope of permissible conduct, and persons who engage in criminal activity will be subject to the appropriate legal actions, the standards of behavior for Racing Participants are considerably higher than merely avoiding conviction of a crime. Instead, persons must conduct themselves in a way that is not only "lawful," but that also

promotes a high degree of integrity within the industry. Persons who fail to live up to this standard are subject to sanctions by the Racetrack.

By way of example only, and not intended as an exclusive list, the following activities are prohibited (whether within or outside of the Racetrack grounds):

- Criminal offenses of any kind;
- Violent or threatening behavior;
- Conduct that creates a negative public perception of PNGI or the Racetrack;
- Conduct that undermines or puts at risk the integrity and reputation of the pari-mutuel wagering and gaming industry in general;
- Violation of the Racetrack’s safety policies or rules;
- Failure to comply with the lawful directions of authorized Racetrack representatives; and
- Misrepresentations in any application or form or other disclosure statements made to the Racetrack or to any government regulatory body.

C. Racing Misconduct

Any person(s) involved in entering or scratching horses that Racetrack reasonably believes is not in good faith will be in violation of the Guide. Examples of this conduct include, but are not limited to:

- Entering a race without the intention of racing;
- Entering a horse into a race or causing a horse to be entered into a race for the benefit of another;
- Frequent scratching of horses entered to race; and
- Knowingly receiving a horse through a transfer, or acting as a “program trainer,” from/or for individuals not permitted on Racetrack’s property or not properly licensed by the appropriate regulatory body.
 - i. In such cases, a trainer or other individual associated with horse may be required to provide written documentation evidencing such individual is the actual trainer, or that a legitimate transfer has taken place among the former trainer or owner, wholly separated from any matters involving such horse. Documentation that may be required includes, but is not limited to, bank records, checks, receipts or signed affidavits. This requirement is over and above any requirements that may be placed on an individual by a regulatory

body and the legitimacy of the transfer in question will be determined in the Racetrack's sole discretion.

- ii. Unless Racetrack receives documentation and evidence to its satisfaction that such a complete separation between current and former trainer exists, Racetrack reserves the right to restrict the entering of horses, or entry of horses to the grounds of Racetrack that (1) made their most recent start within 90 days; and/or (2) made their most recent start in the name of a Racing Participant who would not be permitted to participate in racing at Racetrack, whether due to action taken by Racetrack, a violation of this Guide, or based on violation of rules and regulations in the applicable jurisdiction.
- iii. In the event an individual is serving a suspension from a recognized jurisdiction, Racetrack reserves the right to restrict entries from individuals who are closely associated or related to the suspended individual or such individuals who worked directly for the suspended individual unless Racetrack has determined otherwise.

D. Medications and Related Issues

In the event of a positive test received in a recognized jurisdiction by a Racing Participant, or a horse under the care of a Racing Participant, Racetrack reserves the right to impose sanctions as contained herein.

A "positive test" is defined herein as the presence of a prohibited medication, or a medication in a horse in excess of allowable amounts as stated in the applicable rules and regulations of a recognized jurisdiction, the subsequent confirmation of such an excess by a split sample (if conducted) and the documented verification of such an excess by a recognized jurisdiction's horse racing regulatory authority; *provided however that* when a split sample is not requested, the original test indicating the presence of medication in excess of allowable amounts as stated in the applicable rules and regulations of a recognized jurisdiction shall constitute a "positive test."

Racetrack understands that positive tests occur with medications that are classified as to their pharmacological impact and its impact on the ability to affect the performance of a horse or the outcome of a race. However, an owner or trainer whose horse in such trainer's care and custody receives a positive test for a Class 1 or Class 2 medication or a Category A penalty (as determined by the Association of Racing Commissioners International, "ARCI"), or tests positive or is in possession of medication not permitted by the Food and Drug Administration (FDA) or tests positive or is in possession of a controlled substance within a recognized by jurisdiction (collectively referred to as "Medication Violations") may be sanctioned by the Racetrack, with such sanctions including revocation of racing and/or stabling privileges at Racetrack and other PNGI Racetracks, upon receipt of reasonable information acknowledging a positive test(s) or possession of such substances

The Racetrack reserves the right to restrict entry in any race at any PNGI Racetrack to a horse that has received a Medication Violation for a minimum period of 45 days from the date Racetrack receives proper notification of a Medication Violation, or until such horse tests

negative for any prohibited substances, and such horse(s) may be required to vacate the grounds of the Racetrack. All horses in the care of a trainer receiving a Medication Violation, may also be requested to vacate the Racetrack grounds for a period of time as determined by the Racetrack. An Owner whose horse(s) receives a Medication Violation with two (2) or more different trainers in any recognized jurisdiction may be sanctioned by the Racetrack, which may include revocation of racing privileges at Racetrack and PNGI Racetracks.. For purposes of this provision, any individual or corporation will be deemed an owner of a horse if their percentage of ownership requires them to be licensed in the jurisdiction where the positive test occurred.

A trainer, an individual horse(s) and/or the owner of an individual horse(s) that receive multiple positive tests, without regard for the classification of the medication, may be sanctioned by the Racetrack. In making such a determination, the Racetrack may consider the frequency and time span encompassing the period of reported positive tests; the classification of the medication(s) for the positive tests; the nature and severity of the medication involved in such positive tests; extenuating circumstances regarding the positive tests, and; any other previous conduct by the trainer and/or owner that Racetrack deems relevant in making such a determination regarding such positive tests.

Any adjudication process undertaken by a trainer, owner or individual associated with a horse receiving a positive test(s) shall not be a determining factor upon the Racetrack with regard to any independent action or sanctions imposed by the Racetrack.

With the exception of licensed veterinarians permitted to practice on Racetrack grounds, the possession of hypodermic needles, syringes and medications contrary to any applicable regulation is prohibited and may result in sanctions by the Racetrack.

Racetrack may take any action under this section for any violation of Prohibited Practices Section of ARCI's "*Uniform Classification Guidelines for Foreign Substances and Recommend Penalties and Model Rule*" as amended from time to time. Such Prohibited Practices include, but not limited to at this time, possession or use of Cobalt, Erythropoietin (EPO), Darbepoietin, Oxyglobin, Hemopure, and Demorphin or any other drug, substance or medication not approved by the United States Food and Drug Administration (FDA) for use in the United States or controlled medications or substances not approved within recognized racing jurisdictions.

E. Illegal Drugs/Alcohol

The use, distribution or possession of illegal drugs is not permitted at any time on grounds of the Racetrack. For the purposes of this rule, an illegal drug is any drug which is not legally obtainable, or one which is legally obtainable but has not been legally obtained, including prescription drugs not legally obtained and prescription drugs that were prescribed for someone else. Alcohol is not permitted within any Racetrack backstretch area, or in any barns or dormitories located on Racetrack property.

F. No Solicitation Policy

There is a no solicitation policy at the Racetrack, which includes, but is not limited to, circulation of petitions, political flyers, or distribution of literature not approved in advance in writing by the Racetrack. Signs identifying stables and trainers and vendors must be approved and in writing by the Racing Secretary's Office or appropriate Racetrack Manager.

G. Mortality Reviews

In the event a horse suffers a catastrophic injury or sudden death either during the course of a live race, during training hours or otherwise while on the grounds of the Racetrack, Racetrack may require the trainer, and/or any other individual associated with the training, racing, care or custody of such horse to participate in a mortality review meeting with Racetrack. Such review meetings shall be scheduled as soon as practical after such incidents occur.

Furthermore, it is the responsibility of the trainer, or veterinarian for trainer, to report the death of any horse under their care or custody, regardless of reasons or circumstances, within eight (8) hours to the proper Racetrack racing official. No horse may be removed from the Racetrack grounds without such notification and authorization for removal by Racetrack. Racetrack reserves the right to require, at cost of trainer/owner of such horses, a necropsy, examination and removal of any horse that is euthanized or dies, for any reason, on the grounds of Racetrack.

Failure of any individual to participate in, and fully cooperate with the abovementioned reviews and notifications may lead to revocation of all stabling and racing privileges at the Racetrack and other PNGI Racetracks.

H. Animal Welfare

Any Racing Participant covered by this Guide who handles or treats any animal without regard for the well being of the animal or causes physical injury or pain or suffering to the animal, including excessive or unnecessary training or whipping, as determined in the sole discretion of Racetrack, may be sanctioned. Except as required by statute or regulation, it is the sole responsibility of the trainer to ensure that a licensed and competent veterinarian is available at all times to ensure the health and welfare of such trainer's horses and to attend to trainer's horses at all times such horses are on the grounds of Racetrack in any and all emergency situations in which a regulatory or Racetrack veterinarian is not required to be present or to respond to a trainer's horse(s).

In the event Racetrack receives credible and verifiable information regarding a Racing Participant who knowingly, or without conducting proper due diligence, buys or sells a horse for slaughter, directly or indirectly, such individual(s) may be sanctioned by the Racetrack. The Racetrack highly encourages Racing Participants to obtain proper written documentation on the sale or transfer of any horse that they previously raced or was stabled on the grounds of Racetrack. The Racetrack reserves the right to require trainer or individuals responsible for a horse to provide such documentation.

I. Treatment of Racetrack Staff/Non-Disparagement

All persons covered by the Guide are required to afford the Racetrack's staff the highest level of professional courtesy and treatment. Racing Participants agree to fully cooperate in providing information pursuant to any investigation by Racetrack or its agents.

Any verbal or physical mistreatment or inappropriate or disrespectful conduct toward the Racetrack's staff will be a violation of required standards.

It shall be a violation of standards for any person covered by the Guide to disparage PNGI or the Racetrack, or any of their affiliates, employees, staff or personnel, in any manner by any type of medium. This includes, but is not limited to, disparagement by use of the internet, e-mail, and via any social media such as blogs, Facebook, Twitter, etc.

J. Past Conduct and/or Sanctions

Past conduct and/or sanctions having occurred at other PNGI Racetracks, in other recognized jurisdictions or at other facilities may be considered when evaluating the fitness of an individual covered by the Guide to conduct business on any PNGI Racetrack property. Such evaluations and decisions will be at the sole discretion of PNGI and the Racetrack.

1.2 REPORTING GUIDELINES AND WHISTLEBLOWER PROTECTION

Individuals may, in good faith, report violations or suspected violations of the Guide via written submission made in a timely manner to the PNGI Corporate Vice President of Racing (c/o PNGI's corporate office at 825 Berkshire Blvd., Wyomissing, PA 19610) or the Racetrack's Director of Racing. There will be no retaliation of any kind against any person for good faith reporting of a suspected violation. Any person who feels that they have been retaliated against shall report it as set forth above. Any person who retaliates against someone who in good faith has reported a suspected violation is subject to sanctions by the Racetrack.

1.3 ACTING IN GOOD FAITH

Anyone filing a report or complaint concerning a violation or suspected violation of the Guide must act in good faith and have reasonable grounds for believing the information disclosed indicates a violation. Any allegations that prove not to be substantiated and which prove to have been made maliciously or were known to be false when made will be viewed as a serious violation of the principles contained in this Guide.

1.4 RACETRACK AS SOLE ARBITER

As property owner responsible for the integrity of racing at its locations the Racetrack is the sole and ultimate arbiter in interpreting and enforcing provisions of this Guide and the Local Racing Guide of the respective Racetrack.

1.5 RACETRACK AS A PRIVATE ACTOR

While Racetrack may consider violations of racing rules in recognized jurisdictions and/or results of medication testing performed by a recognized jurisdiction when exercising its rights against individuals violating provisions of this Guide, Racetrack is a wholly separate and private entity from any state agency or government regulatory body and Racetrack at all times acts independently from any such agencies or regulatory bodies with respect to all persons covered by the Guide.

As Racetrack is duty bound to uphold the law, no efforts by Racetrack to do so shall be construed as Racetrack operating as an instrument of the state.

1.6 INSURANCE

All persons holding a racing license or permit as a trainer may be required to have workmen's compensation insurance as required by the Racetrack and/or recognized jurisdictional authority or Racing Commission. Trainers shall, upon request by Racetrack or recognized Racing Commission or jurisdictional authority, provide a workmen's compensation certificate and any other documentation Racetrack, Racing Commission or jurisdictional authority may reasonably request evidencing that the foregoing insurance is in effect.

Racetracks may require trainers, on behalf of themselves, and their agents and employees, as well as any other independent contractors working on the grounds of the Racetrack, to maintain comprehensive general liability insurance in a minimum amount proscribed in the Local Racing Guide, which is intended to indemnify the Racetrack, and its directors, officers, employees, landlords and agents from any and all liability arising from a trainer's actions. If such general liability insurance is mandated in the Local Racing Guide, the trainer, upon request by Racetrack, shall provide a certificate of insurance and any other documentation Racetrack may reasonably request evidencing that the foregoing insurance is in effect.

Vendors operating or regularly conducting business on Racetrack grounds may be required to show proof of insurance in such amounts as required by Racetrack.

Any vehicle operated on the Racetrack grounds or in the Racetrack stable area may be required to be properly registered with Racetrack and proof of proper insurance will be required upon request. No person shall operate any vehicle on the grounds of Racetrack without a valid driver's license.

Racetrack reserves the right, at any time, to require Racing Participants to show proof of any appropriate insurance coverage as it deems necessary.

1.7 SURVEILLANCE/INSPECTION

The racing industry is highly-regulated and requires significant oversight including security-related measures. As a result, surveillance and security inspection measures are in use within the

Racetrack premises. All individuals entering the grounds at the Racetrack consent to all surveillance and/or inspection measures employed by the Racetrack for both individuals and horses.

The Racetrack may require horses to be placed in a pre-race surveillance program and/or specified secured areas prior to the post time of the race in which they are entered under terms, conditions, policies and procedures prescribed from time to time by the Racetrack.

Racetrack reserves the right to inspect any vehicle entering, exiting or parked on the grounds of the Racetrack as well as any piece of equipment brought onto the grounds of Racetrack by any individual. Failure to allow inspections under this section may result in sanctions by the Racetrack.

A trainer and his/her veterinarian are required to ensure that there will be no treatment or administration given to a horse (other than for a documented emergency situation), or medications administered to a horse, on race day, other than the administration of approved race day medication(s) in the respective jurisdiction of Racetrack. Racetrack reserves the right to impose additional requirements for horses scheduled to race, including but not limited to restricting access to horse's stall on race day for purposes other than feeding, general grooming and administration of permissible race day medication(s) of such horse as well as emergency veterinary care.

Responsibility and costs for any horse in any surveillance program will remain solely with the horse's trainer. In no event will Racetrack assume responsibility or liability for such horse(s).

1.8 ASSUMPTION OF RISKS

All persons covered by this Guide acknowledge horses, horse riding and racing, horse training and practicing, caring for horses and all other equestrian related activities can be extremely dangerous and routinely involve risk of serious injury, death and/or property damage.

By participating in our industry and choosing to enter the Racetrack premises voluntarily, Racing Participant has and does hereby assume all of the above risks, and releases Racetrack, on the Racing Participant's behalf and on behalf of all their family members, and will hold Racetrack harmless from any and all liability, actions, causes of actions, debts, claims and demands of every kind and nature whatsoever which Racing Participant now has or which may arise out of or in connection with his/her participation in those activities and risks.

PART 2 – RESULT OF GUIDE VIOLATIONS

2.1 IMPOSITION OF SANCTIONS

A violation of any of the rules and policies set forth in this Guide and/or Racetrack's Local Guide may lead to the imposition of sanctions against Racing Participants. Subject to applicable regulatory requirements, sanctions shall be administered in the sole discretion of the Racetrack, including but not limited to:

- i. temporary suspension or permanent loss of privileges, including loss of stabling and/or racing privileges at Racetrack;
- ii. loss or refund of any or all nomination, declaration and entry fees;
- iii. being barred from all Racetrack and PNGI's Racetrack premises;
- iv. being barred from any PNGI property or facility;
- v. any other remedy available by law.

Any sanction which involves a Racing Participant's privileges being suspended or revoked, or a Racing Participant being barred from Racetrack premises, may involve such loss, suspension or barring from any or all of the PNGI Racetracks, as determined in the sole discretion of PNGI and or Racetrack. Subject to Section 2.2 below, the sanctions as set forth by Racetrack for any violation of the rules and policies are final.

2.2 OPPORTUNITY FOR RECONSIDERATION

In cases where Racetrack has barred a Racing Participant from the premises for a period of more than two (2) years, such person subject to such action may seek review of the decision by written request directed to the PNGI Corporate Vice President of Racing or the Director of Racing at Racetrack which originally issued the ejection and setting forth, in detail, the grounds for the request for reconsideration.

Any review shall not be considered until a minimum of one (1) year has elapsed since the last review of such ejection. Racetrack is under no obligation to grant a review or reconsider a prior ejection.

At the main stable entrance, they are to present and surrender a valid & current government issued photo ID, such as a driver's license or racing license from another jurisdiction in exchange for a wristband. They are to ensure that they have obtained a racing license and HCCTR Badge prior to their horse's race in order to enter the paddock. The wrist band will be removed by the Badging office personnel only. Following receipt of their license and HCCTR badge, the individual may go to the stable gate and retrieve their identification. Anyone choosing to leave property without obtaining a racing license will have their identification returned and their wristband removed. PART 18 - PREFERENCE & PREFERENCE DATE SYSTEM

- 18.1 Hollywood Casino at Charles Town Races utilizes a preference date system to determine a horse's preference in overnight races which overfill. Ten horses make up the body of each race with up to four alternates per race. All remaining horses are excluded. Alternates given the opportunity to run shall draw into the body of a race in order of preference.
- 18.2 Preference dates shall not supersede the conditions of a race (i.e. preference to high weight, preference to highest earnings, etc.).
- 18.3 There are three possible dates a horse may receive: an Entry (E-Date), Run (R-Date), or a Z-Date. The number(s) following the E, R, or Z correspond with the date in which the E, R, or Z date was established.
- 18.4 A horse without a date may establish an E-Date by:
- Signing in a horse's foal papers with the Racing Office.
 - Entering a horse in any overnight race (including extras) where the horse is excluded from the body of the race or the race is not used. The E-Date is awarded after the overnight is final.
 - A horse with an expired date or no preference date who is transferred (via a trainer transfer form) to a new trainer while papers are on file in the Racing Office.
- 18.5 An R-Date is established when a horse starts in an overnight race. An R-Date replaces an established E-Date or Z-Date.
- 18.6 A Z-Date may be awarded by the Racing Secretary when there are extenuating circumstances including, but not limited to, cancellations of live racing and clerical errors that adversely impact the horse in question.
- 18.7 A horse's date will be lost if one of the following occurs:
- The horse is scratched from the body of the race. Horses on the alternate list will not lose their date unless they agree to run and then scratch after scratch time.
 - The horse's foal papers are signed out of the Racing Office. If a horse's foal papers are signed out of the Racing Office with just cause (i.e. tattoo, corrections, etc.), as determined by the Racing Secretary, the horse will keep their established date.
 - The horse starts at a racetrack other than Hollywood Casino at Charles Town Races after the established date at Charles Town.
 - The most recent date established is older than 180 days.
- 18.8 The Racing Secretary reserves the right to allow a horse to keep a previous date, or establish an E-Date if no previous date was established, which may have otherwise been lost under extenuating circumstances (i.e. No rider available leading to a scratch, etc.).

- 18.9 The following determines a horse's preference based on their established date:
- Z-Dates have preference over all E-Dates and R-Dates.
 - Preference is given to those horses with the oldest date at the time of closing of entries.
 - E-Dates have preference over R-Dates of the same day.
 - If two or more horses have identical dates they will be chosen by lot.
 - Horses with no date but with papers on file in the Racing Office will receive preference over horses with no date and no papers on file.
 - Second preference horses have no preference over horses of a single entry.
