(b) For the purpose of determining "income" under Minnesota Statutes, section 289A.08, the commissioner of revenue must consider the additions under subdivisions 6 and 8 and the subtractions under subdivisions 2 and 4.

(c) A taxpayer's alternative minimum taxable income under Minnesota Statutes, section 290.091, is increased by the amount of the taxpayer's additions under subdivisions 6 and 8, and reduced by the amount of the taxpayer's subtractions under subdivisions 2 and 4.

(d) This section is effective for taxable years in which a taxpayer had an addition or subtraction under this section.

EFFECTIVE DATE. This section is effective for the taxable years specified in each subdivision.

Sec. 16. **WORKING FAMILY CREDIT; SPECIAL EARNED INCOME RULES FOR TAX YEAR 2020.**

For the purposes of calculating the credit under Minnesota Statutes, section 290.067, the commissioner of revenue must allow a taxpayer to elect to determine earned income using the rules in section 211 of the Taxpayer Certainty and Disaster Tax Relief Act of 2020 in Public Law 116-260.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2019, and before January 1, 2021.

Sec. 17. **TEMPORARY INDIVIDUAL INCOME TAX SUBTRACTION; UNEMPLOYMENT INSURANCE BENEFITS.**

(a) For the purposes of this section:

(1) "subtraction" has the meaning given in Minnesota Statutes, section 290.0132; and

(2) "unemployment compensation" has the meaning given in section 85(b) of the Internal Revenue Code.

(b) For taxable years beginning after December 31, 2019, and before January 1, 2021, an individual taxpayer with adjusted gross income that is less than $150,000 is allowed a subtraction equal to the amount of unemployment compensation received in the taxable year. The subtraction is limited to $10,200, except for a joint return the subtraction is limited to $10,200 in unemployment compensation received by each spouse.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2019, and before January 1, 2021.

ARTICLE 2
INDIVIDUAL INCOME AND CORPORATE FRANCHISE TAXES

Section 1. Minnesota Statutes 2020, section 41B.0391, subdivision 2, is amended to read:

Subd. 2. **Tax credit for owners of agricultural assets.** (a) An owner of agricultural assets may take a credit against the tax due under chapter 290 for the sale or rental of agricultural assets to a beginning farmer in the amount allocated by the authority under subdivision 4. An owner of agricultural assets is eligible for allocation of a credit equal to:

(1) five percent of the lesser of the sale price or the fair market value of the agricultural asset, up to a maximum of $32,000;

(2) ten percent of the gross rental income in each of the first, second, and third years of a rental agreement, up to a maximum of $7,000 per year; or

(3) 15 percent of the cash equivalent of the gross rental income in each of the first, second, and third years of a share rent agreement, up to a maximum of $10,000 per year.

(b) A qualifying rental agreement includes cash rent of agricultural assets or a share rent agreement. The agricultural asset must be rented at prevailing community rates as determined by the authority.

(c) The credit may be claimed only after approval and certification by the authority, and is limited to the amount stated on the certificate issued under subdivision 4. An owner of agricultural assets must apply to the authority for certification and allocation of a credit, in a form and manner prescribed by the authority.

(d) An owner of agricultural assets or beginning farmer may terminate a rental agreement, including a share rent agreement, for reasonable cause upon approval of the authority. If a rental agreement is terminated without the fault of the owner of agricultural assets, the tax credits shall not be retroactively disallowed. In determining reasonable cause, the authority must look at which party was at fault in the termination of the agreement. If the authority determines the owner of agricultural assets did not have reasonable cause, the owner of agricultural assets must repay all credits received as a result of the rental agreement to the commissioner of revenue. The repayment is additional income tax for the taxable year in which the authority makes its decision or when a final adjudication under subdivision 5, paragraph (a), is made, whichever is later.

(e) The credit is limited to the liability for tax as computed under chapter 290 for the taxable year. If the amount of the credit determined under this section for any taxable year exceeds this limitation, the excess is a beginning farmer incentive credit carryover according to section 290.06, subdivision 37.

(f) Notwithstanding subdivision 1, paragraph (c), for purposes of the credit for the sale of an agricultural asset under paragraph (a), clause (1), the family member definitional exclusions in subdivision 1, paragraph (c), clauses (4) and (5), do not apply.

(g) For a qualifying sale to a family member, to qualify for the credit under paragraph (a), clause (1), the sale price of the agricultural asset must equal or exceed the assessed value of the asset as of the date of the sale. If there is no assessed value, the sale price must equal or exceed 80 percent of the fair market value of the asset as of the date of the sale.

(h) For the purposes of this section, "qualifying sale to a family member" means a sale to a beginning farmer in which the beginning farmer or the beginning farmer's spouse is a family member of:

(1) the owner of the agricultural asset; or

(2) a partner, member, shareholder, or trustee of the owner of the agricultural asset.

(i) For a sale to a socially disadvantaged farmer or rancher, the credit rate under paragraph (a), clause (1), is ten percent rather than five percent. For the purposes of this section, "socially disadvantaged farmer or rancher" has the meaning given in United States Code, title 7, section 2279(a)(5).

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

Sec. 2. Minnesota Statutes 2020, section 41B.0391, subdivision 4, is amended to read:

Subd. 4. **Authority duties.** (a) The authority shall:

(1) approve and certify or recertify beginning farmers as eligible for the program under this section;

(2) approve and certify or recertify owners of agricultural assets as eligible for the tax credit under subdivision 2 subject to the allocation limits in paragraph (c);

(3) provide necessary and reasonable assistance and support to beginning farmers for qualification and participation in financial management programs approved by the authority;

(4) refer beginning farmers to agencies and organizations that may provide additional pertinent information and assistance; and

(5) notwithstanding section 41B.211, the Rural Finance Authority must share information with the commissioner of revenue to the extent necessary to administer provisions under this subdivision and section 290.06, subdivisions 37 and 38. The Rural Finance Authority must annually notify the commissioner of revenue of approval and certification or recertification of beginning farmers and owners of agricultural assets under this section. For credits under subdivision 2, the notification must include the amount of credit approved by the authority and stated on the credit certificate.

(b) The certification of a beginning farmer or an owner of agricultural assets under this section is valid for the year of the certification and the two following years, after which time the beginning farmer or owner of agricultural assets must apply to the authority for recertification.

(c) For credits for owners of agricultural assets allowed under subdivision 2, the authority must not allocate more than $5,000,000 for taxable years beginning after December 31, 2017, and before January 1, 2019, and must not allocate more than $6,000,000 for taxable years beginning after December 31, 2018. The authority must allocate credits on a first-come, first-served basis beginning on January 1 of each year, except that recertifications for the second and third years of credits under subdivision 2, paragraph (a), clauses (1) and (2), have first priority. Any amount authorized but not allocated in any taxable year does not cancel and is added to the allocation for the next taxable year.

(d) For taxable years beginning after December 31, 2020, the amount available to be allocated for the taxable year under paragraph (c) is reduced by five percent. Beginning in fiscal year 2022, an amount equal to the reduction under this paragraph is annually appropriated from the general fund to the Rural Finance Authority to develop an online application system and administer the credits under this section. The amount of the appropriation for a fiscal year must be determined based on the reduction for taxable years beginning after December 31 of the previous fiscal year and before January 1 of the fiscal year of the appropriation. The Rural Finance Authority must disregard amounts carried forward from previous taxable years when calculating the reduction under this paragraph.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

Sec. 3. Minnesota Statutes 2020, section 116J.8737, subdivision 5, is amended to read:

Subd. 5. **Credit allowed.** (a) A qualified investor or qualified fund is eligible for a credit equal to 25 percent of the qualified investment in a qualified small business. Investments made by a pass-through entity qualify for a credit only if the entity is a qualified fund. The commissioner must not allocate more than $10,000,000 in credits to qualified investors or qualified funds for the taxable years listed in paragraph (i). For each taxable year, 50 percent must be allocated to credits for qualified investments in qualified greater Minnesota businesses and minority-owned, women-owned, or veteran-owned qualified small businesses in Minnesota. Any portion of a taxable year's credits that is reserved for qualified investments in greater Minnesota businesses and minority-owned, women-owned, or veteran-owned qualified small businesses in Minnesota that is not allocated by September 30 of the taxable year is available for allocation to other credit applications beginning on October 1. Any portion of a taxable year's credits that is not allocated by the commissioner does not cancel and may be carried forward to subsequent taxable years until all credits have been allocated.

(b) The commissioner may not allocate more than a total maximum amount in credits for a taxable year to a qualified investor for the investor's cumulative qualified investments as an individual qualified investor and as an investor in a qualified fund; for married couples filing joint returns the maximum is $250,000, and for all other filers the maximum is $125,000. The commissioner may not allocate more than a total of $1,000,000 in credits over all taxable years for qualified investments in any one qualified small business.

(c) The commissioner may not allocate a credit to a qualified investor either as an individual qualified investor or as an investor in a qualified fund if, at the time the investment is proposed:

(1) the investor is an officer or principal of the qualified small business; or

(2) the investor, either individually or in combination with one or more members of the investor's family, owns, controls, or holds the power to vote 20 percent or more of the outstanding securities of the qualified small business.

A member of the family of an individual disqualified by this paragraph is not eligible for a credit under this section. For a married couple filing a joint return, the limitations in this paragraph apply collectively to the investor and spouse. For purposes of determining the ownership interest of an investor under this paragraph, the rules under section 267(c) and 267(e) of the Internal Revenue Code apply.

(d) Applications for tax credits for 2010 must be made available on the department's website by September 1, 2010, and the department must begin accepting applications by September 1, 2010. Applications for subsequent years must be made available by November 1 of the preceding year.

(e) Qualified investors and qualified funds must apply to the commissioner for tax credits. Tax credits must be allocated to qualified investors or qualified funds in the order that the tax credit request applications are filed with the department. The commissioner must approve or reject tax credit request applications within 15 days of receiving the application. The investment specified in the application must be made within 60 days of the allocation of the credits. If the investment is not made within 60 days, the credit allocation is canceled and available for reallocation. A qualified investor or qualified fund that fails to invest as specified in the application, within 60 days of allocation of the credits, must notify the commissioner of the failure to invest within five business days of the expiration of the 60-day investment period.

(f) All tax credit request applications filed with the department on the same day must be treated as having been filed contemporaneously. If two or more qualified investors or qualified funds file tax credit request applications on the same day, and the aggregate amount of credit allocation claims exceeds the aggregate limit of credits under this section or the lesser amount of credits that remain unallocated on that day, then the credits must be allocated among the qualified investors or qualified funds who filed on that day on a pro rata basis with respect to the amounts claimed. The pro rata allocation for any one qualified investor or qualified fund is the product obtained by multiplying a fraction, the numerator of which is the amount of the credit allocation claim filed on behalf of a qualified investor and the denominator of which is the total of all credit allocation claims filed on behalf of all applicants on that day, by the amount of credits that remain unallocated on that day for the taxable year.

(g) A qualified investor or qualified fund, or a qualified small business acting on their behalf, must notify the commissioner when an investment for which credits were allocated has been made, and the taxable year in which the investment was made. A qualified fund must also provide the commissioner with a statement indicating the amount invested by each investor in the qualified fund based on each investor's share of the assets of the qualified fund at the time of the qualified investment. After receiving notification that the investment was made, the commissioner must issue credit certificates for the taxable year in which the investment was made to the qualified investor or, for an investment made by a qualified fund, to each qualified investor who is an investor in the fund. The certificate must state that the credit is subject to revocation if the qualified investor or qualified fund does not hold the investment in the qualified small business for at least three years, consisting of the calendar year in which the investment was made and the two following years. The three-year holding period does not apply if:

(1) the investment by the qualified investor or qualified fund becomes worthless before the end of the three-year period;

(2) 80 percent or more of the assets of the qualified small business is sold before the end of the three-year period;

(3) the qualified small business is sold before the end of the three-year period;

(4) the qualified small business's common stock begins trading on a public exchange before the end of the three-year period; or

(5) the qualified investor dies before the end of the three-year period.

(h) The commissioner must notify the commissioner of revenue of credit certificates issued under this section.

(i) The credit allowed under this subdivision is effective for each of the ~~following taxable years:~~ taxable years beginning after December 31, 2020, and before January 1, 2023.

~~(1) taxable years beginning after December 31, 2018, and before January 1, 2020; and~~

~~(2) taxable years beginning after December 31, 2020, and before January 1, 2022.~~

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2020, section 116J.8737, subdivision 12, is amended to read:

Subd. 12. **Sunset.** This section expires for taxable years beginning after December 31, ~~2021~~ 2022, except that reporting requirements under subdivision 6 and revocation of credits under subdivision 7 remain in effect through ~~2023~~ 2024 for qualified investors and qualified funds, and through ~~2025~~ 2026 for qualified small businesses, reporting requirements under subdivision 9 remain in effect through ~~2021~~ 2022, and the appropriation in subdivision 11 remains in effect through ~~2025~~ 2026.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 5. **[116U.27] FILM PRODUCTION CREDIT.**

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given.

(b) "Allocation certificate" means a certificate issued by the commissioner to a taxpayer upon receipt of an initial application for a credit for a project that has not yet been completed.

(c) "Application" means the application for a credit under subdivision 4.

(d) "Commissioner" means the commissioner of employment and economic development.

(e) "Credit certificate" means a certificate issued by the commissioner upon submission of the cost verification report in subdivision 4, paragraph (e).

(f) "Eligible production costs" means eligible production costs as defined in section 116U.26, paragraph (b), clause (1), incurred in Minnesota that are directly attributable to the production of a film project in Minnesota.

(g) "Film" has the meaning given in section 116U.26, paragraph (b), clause (2).

(h) "Project" means a film:

(1) that includes the promotion of Minnesota;

(2) for which the taxpayer has expended at least $1,000,000 in the taxable year for eligible production costs; and

(3) to the extent practicable, that employs Minnesota residents.

(i) "Promotion of Minnesota" or "promotion" means visible display of a static or animated logo, approved by the commissioner and lasting approximately five seconds, that promotes Minnesota within its presentation and all promotional trailers worldwide in the end credits before the below-the-line crew crawl for the life of the project.

Subd. 2. **Credit allowed.** A taxpayer is eligible for a credit up to 25 percent of eligible production costs paid in a taxable year. A taxpayer may only claim a credit if the taxpayer was issued a credit certificate under subdivision 4.

Subd. 3. **Credit assignable.** A taxpayer who is eligible for a credit under this subdivision may assign the credit, in whole or in part, to another taxpayer, who is then allowed the credit under section 290.06, subdivision 39, or 297I.20, subdivision 4. An assignment is not valid unless the assignee notifies the commissioner within 30 days of the date that the assignment is made. The commissioner shall prescribe the forms necessary for notifying the commissioner of the assignment of a credit certificate and for claiming a credit by assignment. A credit must be assigned for at least 75 percent of the credit amount subject to assignment. A credit may be assigned at any time, provided that, for an assignment of a credit carryover under section 290.06, subdivision 39, paragraph (b), only the unused amount of the carryover is assigned.

Subd. 4. **Applications; allocations.** (a) To qualify for a credit under this section, a taxpayer must submit to the commissioner an initial application for a credit in the form prescribed by the commissioner, in consultation with the commissioner of revenue.

(b) Upon approving an application for a credit that meets the requirements of this section, the commissioner shall issue allocation certificates that:

(1) verify eligibility for the credit;

(2) state the amount of credit anticipated for the eligible project, with the credit amount up to 25 percent of eligible project costs; and

(3) state the taxable year in which the credit is allocated.

The commissioner must consult with Minnesota Film and Television prior to issuing an allocation certificate.

(c) The commissioner must not issue allocation certificates for more than $10,000,000 of credits each year. If the entire amount is not allocated in that taxable year, any remaining amount is available for allocation for the four following taxable years until the entire allocation has been made. The commissioner must not award any credits for taxable years beginning after December 31, 2024, and any unallocated amounts cancel on that date.

(d) The commissioner must allocate credits on a first-come, first-served basis.

(e) Upon completion of a project, the taxpayer shall submit to the commissioner a report prepared by an independent certified public accountant licensed in the state of Minnesota to verify the amount of eligible production costs related to the project. The report must be prepared in accordance with generally accepted accounting principles. Upon receipt and review of the cost verification report, the commissioner shall determine the final amount of eligible production costs and issue a credit certificate to the taxpayer. The credit may not exceed the anticipated credit amount on the allocation certificate. If the credit is less than the anticipated amount on the allocation credit, the difference is returned to the amount available for allocation under paragraph (c). To claim the credit under section 290.06, subdivision 39, or 297I.20, subdivision 4, a taxpayer must include a copy of the certificate as part of the taxpayer's return.

Subd. 5. **Report required.** By March 15, 2024, the commissioner, in consultation with the commissioner of revenue, must provide a report to the chairs and ranking minority members of the legislative committees with jurisdiction over economic development and taxes. The report must comply with sections 3.195 and 3.197, and must detail the following:

(1) the amount of credits earned in each taxable year;

(2) the number of applications received and approved for the credit;

(3) the types of projects eligible for the credit;

(4) the total economic impact of the credit in Minnesota, including the number of jobs resulting from the credit; and

(5) any other information the commissioner, in consultation with the commissioner of revenue, deems necessary for purposes of claiming and administering the credit.

Subd. 6. **Expiration.** This section expires January 1, 2025, for taxable years beginning after December 31, 2024.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020, and before January 1, 2025.

Sec. 6. Minnesota Statutes 2020, section 289A.08, subdivision 7, is amended to read:

Subd. 7. **Composite income tax returns for nonresident partners, shareholders, and beneficiaries.** (a) The commissioner may allow a partnership with nonresident partners to file a composite return and to pay the tax on behalf of nonresident partners who have no other Minnesota source income. This composite return must include the names, addresses, Social Security numbers, income allocation, and tax liability for the nonresident partners electing to be covered by the composite return.

(b) The computation of a partner's tax liability must be determined by multiplying the income allocated to that partner by the highest rate used to determine the tax liability for individuals under section 290.06, subdivision 2c. Nonbusiness deductions, standard deductions, or personal exemptions are not allowed.

(c) The partnership must submit a request to use this composite return filing method for nonresident partners. The requesting partnership must file a composite return in the form prescribed by the commissioner of revenue. The filing of a composite return is considered a request to use the composite return filing method.

(d) The electing partner must not have any Minnesota source income other than the income from the partnership and other electing partnerships. If it is determined that the electing partner has other Minnesota source income, the inclusion of the income and tax liability for that partner under this provision will not constitute a return to satisfy the requirements of subdivision 1. The tax paid for the individual as part of the composite return is allowed as a payment of the tax by the individual on the date on which the composite return payment was made. If the electing nonresident partner has no other Minnesota source income, filing of the composite return is a return for purposes of subdivision 1.

(e) This subdivision does not negate the requirement that an individual pay estimated tax if the individual's liability would exceed the requirements set forth in section 289A.25. The individual's liability to pay estimated tax is, however, satisfied when the partnership pays composite estimated tax in the manner prescribed in section 289A.25.

(f) If an electing partner's share of the partnership's gross income from Minnesota sources is less than the filing requirements for a nonresident under this subdivision, the tax liability is zero. However, a statement showing the partner's share of gross income must be included as part of the composite return.

(g) The election provided in this subdivision is only available to a partner who has no other Minnesota source income and who is either (1) a full-year nonresident individual or (2) a trust or estate that does not claim a deduction under either section 651 or 661 of the Internal Revenue Code.

(h) A corporation defined in section 290.9725 and its nonresident shareholders may make an election under this paragraph. The provisions covering the partnership apply to the corporation and the provisions applying to the partner apply to the shareholder.

(i) Estates and trusts distributing current income only and the nonresident individual beneficiaries of the estates or trusts may make an election under this paragraph. The provisions covering the partnership apply to the estate or trust. The provisions applying to the partner apply to the beneficiary.

(j) For the purposes of this subdivision, "income" means the partner's share of federal adjusted gross income from the partnership modified by the additions provided in section 290.0131, subdivisions 8 to 10 ~~and~~, 16, and 19 to 23, and the subtractions provided in: (1) section 290.0132, subdivision 9, to the extent the amount is assignable or allocable to Minnesota under section 290.17; and (2) section 290.0132, ~~subdivision~~ subdivisions 14, 30, and 31. The subtraction allowed under section 290.0132, subdivision 9, is only allowed on the composite tax computation to the extent the electing partner would have been allowed the subtraction.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020, except that the provisions relating to section 290.0131, subdivisions 20 and 21, are effective retroactively for taxable years beginning after December 31, 2017, and the provisions relating to section 290.0131, subdivision 19, and section 290.0132, subdivisions 30 and 31, are effective retroactively for taxable years beginning after December 31, 2018.

Sec. 7. Minnesota Statutes 2020, section 289A.08, is amended by adding a subdivision to read:

Subd. 7a. **Pass-through entity tax.** (a) For the purposes of this subdivision, the following terms have the meanings given:

(1) "income" has the meaning given in subdivision 7, paragraph (j), except that the provisions that apply to a partnership apply to a qualifying entity and the provisions that apply to a partner apply to a qualifying owner. The income of both a resident and nonresident qualifying owner is allocated and assigned to this state as provided for nonresident partners and shareholders under section 290.17;

(2) "qualifying owner" means a resident or nonresident individual, estate, or trust that is a partner, member, or shareholder of a qualifying entity; and

(3) "qualifying entity" means a partnership, limited liability company, or corporation organized under subchapter S of the Internal Revenue Code for federal income tax purposes, including a qualified subsidiary also organized under subchapter S of the Internal Revenue Code. Qualifying entity does not include a partnership, limited liability company, or corporation that has a partnership, limited liability company, or corporation as a partner, member, or shareholder.

(b) A qualifying entity may elect to file a return and pay the pass-through entity tax imposed under paragraph (c). The election:

(1) must be made on or before the due date or extended due date of the qualifying entity's pass-through entity tax return;

(2) may only be made by qualifying owners who hold more than a 50 percent ownership interest in a qualifying entity; and

(3) is binding on all qualifying owners who have an ownership interest in the qualifying entity.

(c) Subject to the election in paragraph (b), a pass-through entity tax is imposed on a qualifying entity in an amount equal to the sum of the tax liability of each qualifying owner.

(d) The amount of a qualifying owner's tax liability under paragraph (c) is the amount of the qualifying owner's income multiplied by the tax rates and brackets used to determine the tax liability for married individuals filing separate returns, estates, and trusts under section 290.06, subdivision 2c. When making this determination:

(1) nonbusiness deductions, standard deductions, or personal exemptions are not allowed; and

(2) a credit or deduction is allowed only to the extent allowed to the qualifying owner.

(e) The amount of each credit and deduction used to determine a qualifying owner's tax liability under paragraph (d) must also be used to determine that qualifying owner's individual income tax liability under chapter 290.

(f) This subdivision does not negate the requirement that a qualifying owner pay estimated tax if the qualifying owner's tax liability would exceed the requirements set forth in section 289A.25. The qualifying owner's liability to pay estimated tax on the qualifying owner's tax liability as determined under paragraph (d) is, however, satisfied when the qualifying entity pays estimated tax in the manner prescribed in section 289A.25 for composite estimated tax.

(g) A qualifying owner's adjusted basis in the interest in the qualifying entity, and the treatment of distributions, is determined as if the election to pay the pass-through entity tax under paragraph (b) is not made.

(h) To the extent not inconsistent with this subdivision, for purposes of this chapter, a pass-through entity tax return must be treated as a composite return and a qualifying entity filing a pass-through entity tax return must be treated as a partnership filing a composite return.

(i) The provisions of subdivision 17 apply to the election to pay the pass-through entity tax under this subdivision.

(j) If a nonresident qualifying owner of a qualifying entity making the election to file and pay the tax under this subdivision has no other Minnesota source income, filing of the pass-through entity tax return is a return for purposes of subdivision 1, provided that the nonresident qualifying owner must not have any Minnesota source income other than the income from the qualifying entity and other electing qualifying entities. If it is determined that the nonresident qualifying owner has other Minnesota source income, the inclusion of the income and tax liability for that owner under this provision will not constitute a return to satisfy the requirements of subdivision 1. The tax paid for the individual as part of the pass-through entity tax return is allowed as a payment of the tax by the individual on the date on which the pass-through entity tax return payment was made.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

Sec. 8. Minnesota Statutes 2020, section 289A.08, subdivision 11, is amended to read:

Subd. 11. **Information included in income tax return.** (a) The return must state:

(1) the name of the taxpayer, or taxpayers, if the return is a joint return, and the address of the taxpayer in the same name or names and same address as the taxpayer has used in making the taxpayer's income tax return to the United States;

(2) the date or dates of birth of the taxpayer or taxpayers;

(3) the following information:

(i) the Social Security number of the taxpayer, or taxpayers, if a Social Security number has been issued by the United States with respect to the taxpayers; or

(ii) the individual tax identification number of the taxpayer, or taxpayers, if a Social Security number has not been issued by the United States with respect to the taxpayers, as allowed under section 290.0671; and

(4) the amount of the taxable income of the taxpayer as it appears on the federal return for the taxable year to which the Minnesota state return applies.

(b) The taxpayer must attach to the taxpayer's Minnesota state income tax return a copy of the federal income tax return that the taxpayer has filed or is about to file for the period.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

Sec. 9. Minnesota Statutes 2020, section 290.01, is amended by adding a subdivision to read:

Subd. 7c. **Resident trust.** (a) "Resident trust" means a trust, except a grantor type trust, which has sufficient relevant connections with Minnesota during the applicable tax year to be permissibly taxed, consistent with due process, as a resident trust. Relevant connections with Minnesota include but are not limited to the following:

(1) one or more of the trustees, fiduciaries, nonfiduciary service providers, settlors, grantors, or beneficiaries of the trust are residents or part-year residents of Minnesota;

(2) tangible or intangible assets making up any part of the trust are located in Minnesota;

(3) any part of the administration of the trust took place in Minnesota;

(4) the laws of Minnesota are specifically made applicable to the trust or to the parties to the trust, whether by choice of law or by operation of law;

(5) the trust was created by a will of a decedent who at death was domiciled in Minnesota;

(6) the trust and the will under which it was created were probated in Minnesota or were otherwise approved or enforced by Minnesota's courts; and

(7) Minnesota's courts have a continuing supervisory or other existing relationship with the trust.

(b) The term "grantor type trust" means a trust where the income or gains of the trust are taxable to the grantor or others treated as substantial owners under sections 671 to 678 of the Internal Revenue Code.

(c) The term "administration of the trust" means the performance of any administrative function for the trust, including but not limited to the following:

(1) investing of trust assets;

(2) distributing of trust assets;

(3) conducting trust business;

(4) conducting any litigation or other legal proceedings;

(5) conducting administrative services, including but not limited to record keeping and the preparation and filing of tax returns;

(6) making fiduciary decisions, including but not limited to decisions regarding any of the administrative functions listed in this paragraph; and

(5) On all over $1,000,000, 11.15 percent.

Married individuals filing separate returns, estates, and trusts must compute their income tax by applying the above rates to their taxable income, except that the income brackets will be one-half of the above amounts after the adjustment required in subdivision 2d.

(b) The income taxes imposed by this chapter upon unmarried individuals must be computed by applying to taxable net income the following schedule of rates:

(1) On the first ~~$26,520~~ $29,270, 5.35 percent;

(d) In lieu of a tax computed according to the rates set forth in this subdivision, the tax of any individual taxpayer whose taxable net income for the taxable year is less than an amount determined by the commissioner must be computed in accordance with tables prepared and issued by the commissioner of revenue based on income brackets of not more than $100. The amount of tax for each bracket shall be computed at the rates set forth in this subdivision, provided that the commissioner may disregard a fractional part of a dollar unless it amounts to 50 cents or more, in which case it may be increased to $1.

(e) An individual who is not a Minnesota resident for the entire year must compute the individual's Minnesota income tax as provided in this subdivision. After the application of the nonrefundable credits provided in this chapter, the tax liability must then be multiplied by a fraction in which:

(1) the numerator is the individual's Minnesota source federal adjusted gross income as defined in section 62 of the Internal Revenue Code and increased by:

The statutory year is taxable year ~~2019~~ 2021. The rate applicable to any rate bracket must not be changed. The dollar amounts setting forth the tax shall be adjusted to reflect the changes in the rate brackets. The rate brackets as adjusted must be rounded to the nearest $10 amount. If the rate bracket ends in $5, it must be rounded up to the nearest $10 amount. The commissioner shall determine the rate bracket for married filing separate returns after this adjustment is done. The rate bracket for married filing separate must be one-half of the rate bracket for married filing joint.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2021.

Sec. 20. Minnesota Statutes 2020, section 290.06, subdivision 22, is amended to read:

Subd. 22. **Credit for taxes paid to another state.** (a) A taxpayer who is liable for taxes based on net income to another state, as provided in paragraphs (b) through (f), upon income allocated or apportioned to Minnesota, is entitled to a credit for the tax paid to another state if the tax is actually paid in the taxable year or a subsequent taxable year. A taxpayer who is a resident of this state pursuant to section 290.01, subdivision 7, paragraph (b), and who is subject to income tax as a resident in the state of the individual's domicile is not allowed this credit unless the state of domicile does not allow a similar credit.

(b) For an individual, estate, or trust, the credit is determined by multiplying the tax payable under this chapter by the ratio derived by dividing the income subject to tax in the other state that is also subject to tax in Minnesota while a resident of Minnesota by the taxpayer's federal adjusted gross income, as defined in section 62 of the Internal Revenue Code, modified by the addition required by section 290.0131, subdivision 2, and the subtraction allowed by section 290.0132, subdivision 2, to the extent the income is allocated or assigned to Minnesota under sections 290.081 and 290.17.

(c) If the taxpayer is an athletic team that apportions all of its income under section 290.17, subdivision 5, the credit is determined by multiplying the tax payable under this chapter by the ratio derived from dividing the total net income subject to tax in the other state by the taxpayer's Minnesota taxable income.

(d)(1) The credit determined under paragraph (b) or (c) shall not exceed the amount of tax so paid to the other state on the gross income earned within the other state subject to tax under this chapter; and

(2) the allowance of the credit does not reduce the taxes paid under this chapter to an amount less than what would be assessed if the gross income earned within the other state were excluded from taxable net income.

(e) In the case of the tax assessed on a lump-sum distribution under section 290.032, the credit allowed under paragraph (a) is the tax assessed by the other state on the lump-sum distribution that is also subject to tax under section 290.032, and shall not exceed the tax assessed under section 290.032. To the extent the total lump-sum distribution defined in section 290.032, subdivision 1, includes lump-sum distributions received in prior years or is all or in part an annuity contract, the reduction to the tax on the lump-sum distribution allowed under section 290.032, subdivision 2, includes tax paid to another state that is properly apportioned to that distribution.

(f) If a Minnesota resident reported an item of income to Minnesota and is assessed tax in such other state on that same income after the Minnesota statute of limitations has expired, the taxpayer shall receive a credit for that year under paragraph (a), notwithstanding any statute of limitations to the contrary. The claim for the credit must be submitted within one year from the date the taxes were paid to the other state. The taxpayer must submit sufficient proof to show entitlement to a credit.

(g) For the purposes of this subdivision, a resident shareholder of a corporation treated as an "S" corporation under section 290.9725, must be considered to have paid a tax imposed on the shareholder in an amount equal to the shareholder's pro rata share of any net income tax paid by the S corporation to another state. For the purposes of the preceding sentence, the term "net income tax" means any tax imposed on or measured by a corporation's net income.

(h) For the purposes of this subdivision, a resident partner of an entity taxed as a partnership under the Internal Revenue Code must be considered to have paid a tax imposed on the partner in an amount equal to the partner's pro rata share of any net income tax paid by the partnership to another state. For purposes of the preceding sentence, the term "net income" tax means any tax imposed on or measured by a partnership's net income. For purposes of this paragraph, "partnership" includes a limited liability company and "partner" includes a member of a limited liability company.

(i) For the purposes of this subdivision, "another state":

(1) includes:

(i) the District of Columbia; and

(ii) a province or territory of Canada; but

(2) excludes Puerto Rico and the several territories organized by Congress.

(j) The limitations on the credit in paragraphs (b), (c), and (d), are imposed on a state by state basis.

(k) For a tax imposed by a province or territory of Canada, the tax for purposes of this subdivision is the excess of the tax over the amount of the foreign tax credit allowed under section 27 of the Internal Revenue Code. In determining the amount of the foreign tax credit allowed, the net income taxes imposed by Canada on the income are deducted first. Any remaining amount of the allowable foreign tax credit reduces the provincial or territorial tax that qualifies for the credit under this subdivision.

(l)(1) The credit allowed to a qualifying individual under this section for tax paid to a qualifying state equals the credit calculated under paragraphs (b) and (d), plus the amount calculated by multiplying:

(i) the difference between the preliminary credit and the credit calculated under paragraphs (b) and (d), by

(ii) the ratio derived by dividing the income subject to tax in the qualifying state that consists of compensation for performance of personal or professional services by the total amount of income subject to tax in the qualifying state.

(2) If the amount of the credit that a qualifying individual is eligible to receive under clause (1) for tax paid to a qualifying state exceeds the tax due under this chapter before the application of the credit calculated under clause (1), the commissioner shall refund the excess to the qualifying individual. An amount sufficient to pay the refunds required by this subdivision is appropriated to the commissioner from the general fund.

(3) For purposes of this paragraph, "preliminary credit" means the credit that a qualifying individual is eligible to receive under paragraphs (b) and (d) for tax paid to a qualifying state without regard to the limitation in paragraph (d), clause (2); "qualifying individual" means a Minnesota resident under section 290.01, subdivision 7, paragraph

(a), who received compensation during the taxable year for the performance of personal or professional services within a qualifying state; and "qualifying state" means a state with which an agreement under section 290.081 is not in effect for the taxable year but was in effect for a taxable year beginning before January 1, 2010.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

Sec. 21. Minnesota Statutes 2020, section 290.06, is amended by adding a subdivision to read:

Subd. 39. **Film production credit.** (a) A taxpayer, including a taxpayer to whom a credit has been assigned under section 116U.27, subdivision 3, may claim a credit against the tax imposed by this chapter equal to the amount certified on a credit certificate under section 116U.27, subject to the limitations in this subdivision.

(b) The credit is limited to the liability for tax, as computed under this chapter, for the taxable year. If the amount of the credit determined under this subdivision for any taxable year exceeds this limitation, the excess is a film production credit carryover to each of the five succeeding taxable years. The entire amount of the excess unused credit for the taxable year is carried first to the earliest of the taxable years to which the credit may be carried and then to each successive year to which the credit may be carried. The amount of the unused credit that may be added under this paragraph must not exceed the taxpayer's liability for tax, less any film production credit for the taxable year.

(c) Credits allowed to a partnership, a limited liability company taxed as a partnership, or an S corporation are passed through to the partners, members, shareholders, or owners, respectively, pro rata to each based on the partner's, member's, shareholder's, or owner's share of the entity's assets, or as specially allocated in the organizational documents or any other executed agreement, as of the last day of the taxable year.

(d) Notwithstanding the approval and certification by the commissioner of employment and economic development under section 116U.27, the commissioner may utilize any audit and examination powers under chapter 270C or 289A to the extent necessary to verify that the taxpayer is eligible for the credit and to assess the amount of any improperly claimed credit. The commissioner may only assess the original recipient of the credit certificate for the amount of improperly claimed credits. The commissioner may not assess a credit certificate transferee for any amount of improperly claimed credits, and a transferee's claim for credit is not affected by the commissioner's assessment of improperly claimed credits against the transferor.

(e) This subdivision expires January 1, 2025, for taxable years beginning after December 31, 2024, except that the expiration of this section does not affect the commissioner of revenue's authority to audit or power of examination and assessment for credits claimed under this subdivision.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020, and before January 1, 2025.

Sec. 22. Minnesota Statutes 2020, section 290.06, is amended by adding a subdivision to read:

(b) If the amount of the credit the taxpayer may claim under this subdivision exceeds the taxpayer's tax liability under this chapter, the commissioner of revenue shall refund the excess to the taxpayer. The amount necessary to pay the claim for the refund provided in this subdivision is appropriated from the general fund to the commissioner of revenue.

(c) For purposes of this subdivision, "qualifying entity," "qualifying owner," and "tax liability" have the meanings given in section 289A.08, subdivision 7a, paragraphs (a) and (d).

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

The date on which a request for hearing is served by mail is the postmark date on the envelope in which the request for hearing is mailed.

(f) If a tax preparer does not timely request a hearing regarding an administrative order issued under paragraph (b), the order becomes a final order of the commissioner and is not subject to review by any court or agency.

(g) If a tax preparer timely requests a hearing regarding an administrative order issued under paragraph (b), the hearing must be commenced within ten days after the commissioner receives the request for a hearing.

(h) A hearing timely requested under paragraph (e) is subject to the contested case procedure under chapter 14, as modified by this subdivision. The administrative law judge must issue a report containing findings of fact, conclusions of law, and a recommended order within ten days after the completion of the hearing, the receipt of late-filed exhibits, or the submission of written arguments, whichever is later.

(i) Within five days of the date of the administrative law judge's report issued under paragraph (h), any party aggrieved by the administrative law judge's report may submit written exceptions and arguments to the commissioner. Within 15 days after receiving the administrative law judge's report, the commissioner must issue an order vacating, modifying, or making final the administrative order.

(j) The commissioner and the tax preparer requesting a hearing may by agreement lengthen any time periods prescribed in paragraphs (g) to (i).

(k) An administrative order issued under paragraph (b) is in effect until it is modified or vacated by the commissioner or an appellate court. The administrative hearing provided by paragraphs (e) to (i) and any appellate judicial review as provided in chapter 14 constitute the exclusive remedy for a tax preparer aggrieved by the order.

(l) The commissioner may impose an administrative penalty, in addition to the penalty under paragraph (a), up to $5,000 per violation of a cease and desist order issued under paragraph (b). Imposition of a penalty under this paragraph is subject to the contested case procedure under chapter 14. Within 30 days after the commissioner imposes a penalty under this paragraph, the tax preparer assessed the penalty may request a hearing to review the penalty order. The request for hearing must be made in writing and must be served on the commissioner at the address specified in the order. The hearing request must specifically state the reasons for seeking review of the order. The cease and desist order issued under paragraph (b) is not subject to review in a proceeding to challenge the penalty order under this paragraph. The date on which a request for hearing is served by mail is the postmark date on the envelope in which the request for hearing is mailed. If the tax preparer does not timely request a hearing, the penalty order becomes a final order of the commissioner and is not subject to review by any court or agency. A penalty imposed by the commissioner under this paragraph may be collected and enforced by the commissioner as an income tax liability. There is no right to make a claim for refund under section 289A.50 of the penalty imposed under this paragraph. A penalty imposed under this paragraph is public data.

(m) If a tax preparer violates a cease and desist order issued under paragraph (b), the commissioner may terminate the tax preparer's authority to transmit returns electronically to the state. Termination under this paragraph is public data.

(n) A cease and desist order issued under paragraph (b) is public data when it is a final order.

(o) Notwithstanding any other law, the commissioner may impose a penalty or take other action under this subdivision against a tax preparer, with respect to a return, within the period to assess tax on that return as provided by ~~section~~ sections 289A.38 to 289A.382.

(p) Notwithstanding any other law, the imposition of a penalty or any other action against a tax preparer under this subdivision, other than with respect to a return, must be taken by the commissioner within five years of the violation of statute.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 2. Minnesota Statutes 2020, section 289A.31, subdivision 1, is amended to read:

Subdivision 1. **Individual income, fiduciary income, mining company, corporate franchise, and entertainment taxes.** (a) Individual income, fiduciary income, mining company, and corporate franchise taxes, and interest and penalties, must be paid by the taxpayer upon whom the tax is imposed, except in the following cases:

If there is no personal representative, the taxes, interest, and penalty must be paid by the transferees, as defined in section 270C.58, subdivision 3, to the extent they receive property from the decedent;

(2) the tax due from an infant or other incompetent person must be paid by the person's guardian or other person authorized or permitted by law to act for the person;

(3) the tax due from the estate of a decedent must be paid by the estate's personal representative;

(4) the tax due from a trust, including those within the definition of a corporation, as defined in section 290.01, subdivision 4, must be paid by a trustee; and

The payor is liable to the state for the payment of the tax required to be deducted and withheld under section 290.9201, subdivision 7, and is not liable to the entertainer for the amount of the payment.

(c) The taxes imposed under sections 289A.35, paragraph (b), 289A.382, subdivision 3, and 290.0922 on partnerships are the joint and several liability of the partnership and the general partners.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 3. Minnesota Statutes 2020, section 289A.37, subdivision 2, is amended to read:

Subd. 2. **Erroneous refunds.** (a) Except as provided in paragraph (b), an erroneous refund occurs when the commissioner issues a payment to a person that exceeds the amount the person is entitled to receive under law. An erroneous refund is considered an underpayment of tax on the date issued.

(b) To the extent that the amount paid does not exceed the amount claimed by the taxpayer, an erroneous refund does not include the following:

(1) any amount of a refund or credit paid pursuant to a claim for refund filed by a taxpayer, including but not limited to refunds of claims made under section 290.06, subdivision 23; 290.067; 290.0671; 290.0672; 290.0674; 290.0675; 290.0677; 290.068; 290.0681; or 290.0692; or chapter 290A; or

(2) any amount paid pursuant to a claim for refund of an overpayment of tax filed by a taxpayer.

(c) The commissioner may make an assessment to recover an erroneous refund at any time within two years from the issuance of the erroneous refund. If all or part of the erroneous refund was induced by fraud or misrepresentation of a material fact, the assessment may be made at any time.

(d) Assessments of amounts that are not erroneous refunds under paragraph (b) must be conducted under ~~section~~ sections 289A.38 to 289A.382.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 4. Minnesota Statutes 2020, section 289A.38, subdivision 7, is amended to read:

Subd. 7. **Federal tax changes.** (a) If the amount of income, items of tax preference, deductions, or credits for any year of a taxpayer, or the wages paid by a taxpayer for any period, as reported to the Internal Revenue Service is changed or corrected by the commissioner of Internal Revenue or other officer of the United States or other competent authority, or where a renegotiation of a contract or subcontract with the United States results in a change in income, items of tax preference, deductions, credits, or withholding tax, or, in the case of estate tax, where there are adjustments to the taxable estate, the taxpayer shall report the ~~change or correction or renegotiation results~~ federal adjustments in writing to the commissioner. The federal adjustments report must be submitted within 180 days after the final determination date and must be in the form of either an amended Minnesota estate, withholding

tax, corporate franchise tax, or income tax return conceding the accuracy of the federal ~~determination~~ adjustment or a letter detailing how the federal ~~determination~~ adjustment is incorrect or does not change the Minnesota tax. An amended Minnesota income tax return must be accompanied by an amended property tax refund return, if necessary. A taxpayer filing an amended federal tax return must also file a copy of the amended return with the commissioner of revenue within 180 days after filing the amended return.

(b) ~~For the purposes of paragraph (a), a change or correction includes any case where a taxpayer reaches a closing agreement or compromise with the Internal Revenue Service under section 7121 or 7122 of the Internal Revenue Code.~~ In the case of a final federal adjustment arising from a partnership-level audit or an administrative adjustment request filed by a partnership under section 6227 of the Internal Revenue Code, a taxpayer must report adjustments as provided for under section 289A.382, and not this section.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 5. Minnesota Statutes 2020, section 289A.38, subdivision 8, is amended to read:

Subd. 8. **Failure to report change or correction of federal return.** If a taxpayer fails to make a federal adjustments report as required by subdivision 7 or section 289A.382, the commissioner may recompute the tax, including a refund, based on information available to the commissioner. The tax may be recomputed within six years after the federal adjustments report should have been filed, notwithstanding any period of limitations to the contrary.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 6. Minnesota Statutes 2020, section 289A.38, subdivision 9, is amended to read:

Subd. 9. **Report made of change or correction of federal return.** If a taxpayer is required to make a federal adjustments report under subdivision 7 or section 289A.382, and does report the change or files a copy of the amended return, the commissioner may recompute and reassess the tax due, including a refund (1) within one year after the federal adjustments report or amended return is filed with the commissioner, notwithstanding any period of limitations to the contrary, or (2) within any other applicable period stated in this section, whichever period is longer. The period provided for the carryback of any amount of loss or credit is also extended as provided in this subdivision, notwithstanding any law to the contrary. If the commissioner has completed a field audit of the taxpayer, and, but for this subdivision, the commissioner's time period to adjust the tax has expired, the additional tax due or refund is limited to only those changes that are required to be made to the return which relate to the changes made on the federal return. This subdivision does not apply to sales and use tax.

For purposes of this subdivision and section 289A.42, subdivision 2, a "field audit" is the physical presence of examiners in the taxpayer's or taxpayer's representative's office conducting an examination of the taxpayer with the intention of issuing an assessment or notice of change in tax or which results in the issuing of an assessment or notice of change in tax. The examination may include inspecting a taxpayer's place of business, tangible personal property, equipment, computer systems and facilities, pertinent books, records, papers, vouchers, computer printouts, accounts, and documents.

A taxpayer may make estimated payments to the commissioner of the tax expected to result from a pending audit by the Internal Revenue Service. The taxpayer may make estimated payments prior to the due date of the federal adjustments report without the taxpayer having to file the report with the commissioner. The commissioner must

credit the estimated tax payments against any tax liability of the taxpayer ultimately found to be due to the commissioner. The estimated payments limit the accrual of further statutory interest on that amount. If the estimated tax payments exceed the final tax liability plus statutory interest ultimately determined to be due, the taxpayer is entitled to a refund or credit for the excess, provided the taxpayer files a federal adjustments report, or claim for refund or credit of tax, no later than one year following the final determination date.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 7. Minnesota Statutes 2020, section 289A.38, subdivision 10, is amended to read:

Subd. 10. **Incorrect determination of federal adjusted gross income.** Notwithstanding any other provision of this chapter, if a taxpayer whose net income is determined under section 290.01, subdivision 19, omits from income an amount that will under the Internal Revenue Code extend the statute of limitations for the assessment of federal income taxes, or otherwise incorrectly determines the taxpayer's federal adjusted gross income resulting in adjustments by the Internal Revenue Service, then the period of assessment and determination of tax will be that under the Internal Revenue Code. When a change is made to federal income during the extended time provided under this subdivision, the provisions under subdivisions 7 to 9 and section 289A.382 regarding additional extensions apply.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

A federal adjustment is positive to the extent that it increases taxable income as determined under section 290.01, subdivision 29, and is negative to the extent that it decreases taxable income as determined under section 290.01, subdivision 29.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 9. **[289A.382] REPORTING AND PAYMENT REQUIREMENTS.**

Subdivision 1. **State partnership representative.** (a) With respect to an action required or permitted to be taken by a partnership under this section, or in a proceeding under section 270C.35 or 271.06, the state partnership representative for the reviewed year shall have the sole authority to act on behalf of the partnership, and its direct partners and indirect partners shall be bound by those actions.

(b) The state partnership representative for the reviewed year is the partnership's federal partnership representative unless the partnership, in a form and manner prescribed by the commissioner, designates another person as its state partnership representative.

Subd. 2. **Reporting and payment requirements for partnerships and tiered partners.** (a) Except for when an audited partnership makes the election in subdivision 3, and except for negative federal adjustments required under federal law taken into account by the partnership in the partnership return for the adjustment or other year, all final federal adjustments of an audited partnership must comply with paragraph (b) and each direct partner of the audited partnership, other than a tiered partner, must comply with paragraph (c).

(b) No later than 90 days after the final determination date, the audited partnership must:

(2) notify each of its direct partners of their distributive share of the final federal adjustments;

(3) file an amended composite report for all direct partners who were included in a composite return under section 289A.08, subdivision 7, in the reviewed year, and pay the additional amount that would have been due had the federal adjustments been reported properly as required; and

(4) file amended withholding reports for all direct partners who were or should have been subject to nonresident withholding under section 290.92, subdivision 4b, in the reviewed year, and pay the additional amount that would have been due had the federal adjustments been reported properly as required.

(c) No later than 180 days after the final determination date, each direct partner, other than a tiered partner, that is subject to a tax administered under this chapter, other than the sales tax, must:

(1) file a federal adjustments report reporting their distributive share of the adjustments reported to them under paragraph (b), clause (2); and

Subd. 3. **Election; partnership or tiered partners pay.** (a) An audited partnership may make an election under this subdivision to pay its assessment at the entity level. If an audited partnership makes an election to pay its assessment at the entity level it must:

(ii) exclude from final federal adjustments the distributive share of these adjustments made to a direct partner that has filed a federal adjustments report and paid the applicable tax, as required under subdivision 2, for the distributive share of adjustments reported on a federal return under section 6225(c) of the Internal Revenue Code;

(iii) assign and apportion at the partnership level using sections 290.17 to 290.20 the total distributive share of the remaining final federal adjustments for the reviewed year attributed to direct corporate partners and direct exempt partners; multiply the total by the highest tax rate in section 290.06, subdivision 1, for the reviewed year; and calculate interest and penalties as applicable under this chapter;

(iv) allocate at the partnership level using section 290.17, subdivision 1, the total distributive share of all final federal adjustments attributable to individual resident direct partners for the reviewed year; multiply the total by the highest tax rate in section 290.06, subdivision 2c, for the reviewed year; and calculate interest and penalties as applicable under this chapter;

(v) assign and apportion at the partnership level using sections 290.17 to 290.20 the total distributive share of the remaining final federal adjustments attributable to nonresident individual direct partners and direct partners who are an estate or a trust for the reviewed year; multiply the total by the highest tax rate in section 290.06, subdivision 2c, for the reviewed year; and calculate interest and penalties as applicable under this chapter;

(vi) for the total distributive share of the remaining final federal adjustments reported to tiered partners:

(A) determine the amount of the adjustments that would be assigned using section 290.17, subdivision 2, paragraphs (a) to (d), excluding income or gains from intangible personal property not employed in the business of the recipient of the income or gains if the recipient of the income or gains is a resident of this state or is a resident trust or estate under section 290.17, subdivision 2, paragraph (c), or apportioned using sections 290.17, subdivision 3, 290.191, and 290.20; and then determine the portion of the amount that would be allocated to this state;

(B) determine the amount of the adjustments that are fully sourced to the taxpayer's state of residency under section 290.17, subdivision 2, paragraph (e), and income or gains from intangible personal property not employed in the business of the recipient of the income or gains if the recipient of the income or gains is a resident of this state or is a resident trust or estate under section 290.17, subdivision 2, paragraph (c);

(C) determine the portion of the amount determined in subitem (B) that can be established to be properly allocable to nonresident indirect partners or other partners not subject to tax on the adjustments; and

(D) multiply the total of the amounts determined in subitems (A) and (B) reduced by the amount determined in subitem (C) by the highest tax rate in section 290.06, subdivision 2c, for the reviewed year, and calculate interest and penalties as applicable under this chapter; and

(vii) add the amounts determined in items (iii) to (vi), and pay all applicable taxes, penalties, and interest to the commissioner.

(b) An audited partnership may not make an election under this subdivision to report:

(1) a federal adjustment that results in unitary business income to a corporate partner required to file as a member of a combined report under section 290.17, subdivision 4; or

(2) any final federal adjustments resulting from an administrative adjustment request.

(c) An audited partnership not otherwise subject to any reporting or payment obligation to this state may not make an election under this subdivision.

The tiered partners or their partners shall make required reports and payments no later than 90 days after the time for filing and furnishing of statements to tiered partners and their partners as established under section 6226 of the Internal Revenue Code.

Subd. 5. **Effects of election by partnership or tiered partner and payment of amount due.** (a) Unless the commissioner determines otherwise, an election under subdivision 3 is irrevocable.

(b) If an audited partnership or tiered partner properly reports and pays an amount determined in subdivision 3, the amount must be treated as paid in lieu of taxes owed by the partnership's direct partners and indirect partners, to the extent applicable, on the same final federal adjustments. The direct partners or indirect partners of the partnership who are not resident partners may not take any deduction or credit for this amount or claim a refund of the amount in this state.

(c) Nothing in this subdivision precludes resident direct partners from claiming a credit against taxes paid under section 290.06 on any amounts paid by the audited partnership or tiered partners on the resident partner's behalf to another state or local tax jurisdiction.

Subd. 6. **Failure of partnership or tiered partner to report or pay.** Nothing in this section prevents the commissioner from assessing direct partners or indirect partners for taxes they owe, using the best information available, in the event that, for any reason, a partnership or tiered partner fails to timely make any report or payment required by this section.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 10. Minnesota Statutes 2020, section 289A.42, is amended to read:

289A.42 CONSENT TO EXTEND STATUTE.

Subdivision 1. **Extension agreement.** If before the expiration of time prescribed in sections 289A.38 to 289A.382 and 289A.40 for the assessment of tax or the filing of a claim for refund, both the commissioner and the taxpayer have consented in writing to the assessment or filing of a claim for refund after that time, the tax may be assessed or the claim for refund filed at any time before the expiration of the agreed-upon period. The period may be extended by later agreements in writing before the expiration of the period previously agreed upon. The taxpayer and the commissioner may also agree to extend the period for collection of the tax.

Subd. 2. **Federal extensions.** When a taxpayer consents to an extension of time for the assessment of federal withholding or income taxes, the period in which the commissioner may recompute the tax is also extended, notwithstanding any period of limitations to the contrary, as follows:

(1) for the periods provided in ~~section~~ sections 289A.38, subdivisions 8 and 9, and 289A.382, subdivisions 2 and 3;

(2) for six months following the expiration of the extended federal period of limitations when no change is made by the federal authority. If no change is made by the federal authority, and, but for this subdivision, the commissioner's time period to adjust the tax has expired, and if the commissioner has completed a field audit of the taxpayer, no additional changes resulting in additional tax due or a refund may be made. For purposes of this subdivision, "field audit" has the meaning given ~~it~~ in section 289A.38, subdivision 9.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 11. Minnesota Statutes 2020, section 289A.60, subdivision 24, is amended to read:

Subd. 24. **Penalty for failure to notify of federal change.** If a person fails to report to the commissioner a change or correction of the person's federal return in the manner and time prescribed in ~~section~~ sections 289A.38, subdivision 7, and 289A.382, there must be added to the tax an amount equal to ten percent of the amount of any underpayment of Minnesota tax attributable to the federal change.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2017, except that for partnerships that make an election under Code of Federal Regulations, title 26, section 301.9100-22T, this section is effective retroactively and applies to the same tax periods to which the election relates.

Sec. 12. Minnesota Statutes 2020, section 290.31, subdivision 1, is amended to read:

Subdivision 1. **Partners, not partnership, subject to tax.** Except as provided under ~~section~~ sections 289A.35, paragraph (b), and 289A.382, subdivision 3, a partnership as such shall not be subject to the income tax imposed by this chapter, but is subject to the tax imposed under section 290.0922. Persons carrying on business as partners shall be liable for income tax only in their separate or individual capacities.

EFFECTIVE DATE. However, the tax must be calculated by the waste management service provider using the same method for calculating the waste management service fee so that both are calculated according to container capacity, actual volume, or weight.

(b) Notwithstanding section 297H.02, a residential generator that generates nonmixed municipal solid waste shall pay a solid waste management tax in the same manner as provided in paragraph (a).

(c) The ~~weight-to-volume conversion schedule~~ tax for:

The commissioner of revenue, after consultation with the commissioner of the Pollution Control Agency, shall determine and ~~may~~ publish by notice a weight-to-volume conversion schedule for construction debris;

(2) industrial waste as defined in section 115A.03, subdivision 13a, is equal to 60 cents per cubic yard. (3) infectious waste as defined in section 116.76, subdivision 12, and pathological waste as defined in section 116.76, subdivision 14, is 150 pounds equals one cubic yard, or 60 cents per 150 pounds.

EFFECTIVE DATE. This section is effective July 1, 2021.

Sec. 2. Minnesota Statutes 2020, section 297H.05, is amended to read:

297H.05 SELF-HAULERS.

(c) The tax imposed on the self-hauler of nonmixed municipal solid waste may be based either on the capacity of the container, the actual volume, or the weight-to-volume conversion schedule in paragraph (d). However, the tax must be calculated by the operator using the same method for calculating the tipping fee so that both are calculated according to container capacity, actual volume, or weight.

(d) The ~~weight-to-volume conversion schedule~~ tax for:

(1) construction debris as defined in section 115A.03, subdivision 7, is ~~one ton equals 3.33 cubic yards, or $2 per ton~~ equal to 60 cents per cubic yard. The political subdivision is liable for the tax.

EFFECTIVE DATE. This section is effective July 1, 2021, except the new rate for construction debris applies to waste delivered after June 30, 2021.

Sec. 3. Minnesota Statutes 2020, section 297I.05, subdivision 7, is amended to read:

(c) No state other than the home state of an insured may require any premium tax payment for nonadmitted insurance. When Minnesota is the home state of the insured, as provided under section 297I.01, 100 percent of the gross premiums are taxable in Minnesota with no allocation of the tax to other states.

EFFECTIVE DATE. This section is effective for policies with an effective date after December 31, 2021.

Sec. 4. Minnesota Statutes 2020, section 298.001, is amended by adding a subdivision to read:

Subd. 13. **Merchantable iron ore concentrate.** "Merchantable iron ore concentrate" means iron-bearing material that has been treated in Minnesota by any means of beneficiation, separation, concentration, or refinement for the purpose of making it salable for its iron ore content.

EFFECTIVE DATE. This section is effective for taxes payable in 2022 and thereafter.

Sec. 5. Minnesota Statutes 2020, section 298.24, subdivision 1, is amended to read:

Subdivision 1. **Imposed; calculation.** (a) For concentrate produced in 2013, there is imposed upon taconite and iron sulphides, and upon the mining and quarrying thereof, and upon the production of iron ore concentrate therefrom, and upon the concentrate so produced, a tax of $2.56 per gross ton of merchantable iron ore concentrate produced therefrom.

(b) For concentrates produced in 2014 and subsequent years, the tax rate shall be equal to the preceding year's tax rate plus an amount equal to the preceding year's tax rate multiplied by the percentage increase in the implicit price deflator from the fourth quarter of the second preceding year to the fourth quarter of the preceding year. "Implicit price deflator" means the implicit price deflator for the gross domestic product prepared by the Bureau of Economic Analysis of the United States Department of Commerce.

(c) An additional tax is imposed equal to three cents per gross ton of merchantable iron ore concentrate for each one percent that the iron content of the product exceeds 72 percent, when dried at 212 degrees Fahrenheit.

(d) The tax on taconite and iron sulphides shall be imposed on the average of the production for the current year and the previous two years. The rate of the tax imposed will be the current year's tax rate. This clause shall not apply in the case of the closing of a taconite facility if the property taxes on the facility would be higher if this clause and section 298.25 were not applicable.

(e) The tax under paragraph (a) is also imposed upon other iron-bearing material as described in section 298.405 on the tonnage of merchantable iron ore concentrate produced therefrom. The tax on other iron-bearing material shall be imposed on the current year production. The rate of the tax imposed is the current year's tax rate.

(f) If the tax or any part of the tax imposed by this subdivision is held to be unconstitutional, a tax of $2.56 per gross ton of merchantable iron ore concentrate produced shall be imposed.

(g) Consistent with the intent of this subdivision to impose a tax based upon the weight of merchantable iron ore concentrate, the commissioner of revenue may indirectly determine the weight of merchantable iron ore concentrate included in fluxed pellets by subtracting the weight of the limestone, dolomite, or olivine derivatives or other basic flux additives included in the pellets from the weight of the pellets. For purposes of this paragraph, "fluxed pellets" are pellets produced in a process in which limestone, dolomite, olivine, or other basic flux additives are combined with merchantable iron ore concentrate. No subtraction from the weight of the pellets shall be allowed for binders, mineral and chemical additives other than basic flux additives, or moisture.

(h)(1) Notwithstanding any other provision of this subdivision, for the first two years of a plant's commercial production of direct reduced ore from ore mined in this state, no tax is imposed under this section. For the third year of a plant's commercial production of direct reduced ore, the rate to be applied to direct reduced ore is 25 percent of the rate otherwise determined under this subdivision. For the fourth commercial production year, the rate is 50 percent of the rate otherwise determined under this subdivision; for the fifth commercial production year, the rate is 75 percent of the rate otherwise determined under this subdivision; and for all subsequent commercial production years, the full rate is imposed.

(2) Subject to clause (1), production of direct reduced ore in this state is subject to the tax imposed by this section, but if that production is not produced by a producer of taconite, iron sulfides, or other iron-bearing material, the production of taconite, iron sulfides, or other iron-bearing material, that is consumed in the production of direct reduced ore in this state is not subject to the tax imposed by this section on taconite, iron sulfides, or other iron-bearing material.

(3) Notwithstanding any other provision of this subdivision, no tax is imposed on direct reduced ore under this section during the facility's noncommercial production of direct reduced ore. The taconite or iron sulphides consumed in the noncommercial production of direct reduced ore is subject to the tax imposed by this section on taconite and iron sulphides. Three-year average production of direct reduced ore does not include production of direct reduced ore in any noncommercial year.

(4) Three-year average production for a direct reduced ore facility that has noncommercial production is the average of the commercial production of direct reduced ore for the current year and the previous two commercial years.

(5) As used in this paragraph, "commercial production" means production of more than 50,000 tons of direct reduced ore in the current year or in any prior year, and "noncommercial production" means production of 50,000 tons or less of direct reduced ore in any year.

(6) This paragraph applies only to plants for which all environmental permits have been obtained and construction has begun before July 1, 2008.

EFFECTIVE DATE. This section is effective for taxes payable in 2022 and thereafter.

Sec. 6. Minnesota Statutes 2020, section 298.405, subdivision 1, is amended to read:

Subdivision 1. **Definition.** Iron-bearing material, other than taconite and semitaconite, having not more than 46.5 percent natural iron content on the average, is subject to taxation under section 298.24. The tax under that section applies to material that is:

ARTICLE 7
PROPERTY TAXES

Section 1. Minnesota Statutes 2020, section 270B.12, subdivision 8, is amended to read:

Subd. 8. **County assessors; homestead classification and renter credit.** The commissioner may disclose names and Social Security numbers or names and individual taxpayer identification numbers of individuals who have applied for both homestead classification under section 273.13 and a property tax refund as a renter under chapter 290A for the purpose of and to the extent necessary to administer section 290A.25.

EFFECTIVE DATE. This section is effective for allowed disclosures made in 2021 and thereafter.

Sec. 2. Minnesota Statutes 2020, section 270B.12, subdivision 9, is amended to read:

Subd. 9. **County assessors; homestead application, determination, and income tax status.** (a) If, as a result of an audit, the commissioner determines that a person is a Minnesota nonresident or part-year resident for income tax purposes, the commissioner may disclose the person's name, address, and Social Security number or the person's name, address, and individual taxpayer identification number to the assessor of any political subdivision in the state, when there is reason to believe that the person may have claimed or received homestead property tax benefits for a corresponding assessment year in regard to property apparently located in the assessor's jurisdiction.

(b) To the extent permitted by section 273.124, subdivision 1, paragraph (a), the Department of Revenue may verify to a county assessor whether an individual who is requesting or receiving a homestead classification has filed a Minnesota income tax return as a resident for the most recent taxable year for which the information is available.

EFFECTIVE DATE. This section is effective for allowed disclosures made in 2021 and thereafter.

Sec. 3. Minnesota Statutes 2020, section 272.02, is amended by adding a subdivision to read:

Subd. 104. **Certain property owned by an Indian Tribe.** (a) Property is exempt that:

(1) is located in a county with a population greater than 28,000 but less than 29,000 as of the 2010 federal census;

(2) was on January 2, 2018, and is for the current assessment owned by a federally recognized Indian Tribe or its instrumentality, that is located in Minnesota;

(3) was on January 2, 2018, erroneously treated as exempt under subdivision 7; and

(4) is used for the same purpose as the property was used on January 2, 2018.

(b) The owner of property exempt under paragraph (a) may apply to the county for a refund of any state general tax paid for property taxes payable in 2020 and 2021. The county may prescribe the form and manner of the application. The county auditor must certify to the commissioner of revenue the amount needed for refunds under this section, which the commissioner must pay to the county. An amount necessary for refunds under this paragraph is appropriated from the general fund to the commissioner of revenue in fiscal year 2022. This paragraph expires June 30, 2022.

EFFECTIVE DATE. (a) The amendments in paragraph (a) are effective beginning with assessment year 2021. For assessment year 2021, an exemption application under this section must be filed with the county assessor by August 1, 2021.

(b) The amendments in paragraph (b) are effective the day following final enactment.

Sec. 4. Minnesota Statutes 2020, section 272.115, subdivision 1, is amended to read:

Subdivision 1. **Requirement.** Except as otherwise provided in subdivision 5, 6, or 7, whenever any real estate is sold for a consideration in excess of $3,000, whether by warranty deed, quitclaim deed, contract for deed or any other method of sale, the grantor, grantee or the legal agent of either shall file a certificate of value with the county auditor in the county in which the property is located when the deed or other document is presented for recording. Contract for deeds are subject to recording under section 507.235, subdivision 1. Value shall, in the case of any deed not a gift, be the amount of the full actual consideration thereof, paid or to be paid, including the amount of any lien or liens assumed. The items and value of personal property transferred with the real property must be listed and deducted from the sale price. The certificate of value shall include the classification to which the property belongs for the purpose of determining the fair market value of the property, and shall include any proposed change in use of the property known to the person filing the certificate that could change the classification of the property. The certificate shall include financing terms and conditions of the sale which are necessary to determine the actual, present value of the sale price for purposes of the sales ratio study. If the property is being acquired as part of a like-kind exchange under section 1031 of the Internal Revenue Code of 1986, as amended through December 31, 2006, that must be indicated on the certificate. The commissioner of revenue shall promulgate administrative rules specifying the financing terms and conditions which must be included on the certificate. The certificate of value must include the Social Security number, individual tax identification number, or the federal employer identification number of the grantors and grantees. However, a married person who is not an owner of record and who is signing a conveyance instrument along with the person's spouse solely to release and convey their marital interest, if any, in the real property being conveyed is not a grantor for the purpose of the preceding sentence. A statement in the deed that is substantially in the following form is sufficient to allow the county auditor to accept a certificate for filing without the Social Security number or individual tax identification number of the named spouse: "(Name) claims no ownership interest in the real property being conveyed and is executing this instrument solely to release and convey a marital interest, if any, in that real property." The identification numbers of the grantors and grantees are private data on individuals or nonpublic data as defined in section 13.02, subdivisions 9 and 12, but, notwithstanding that section, the private or nonpublic data may be disclosed to the commissioner of revenue for purposes of tax administration. The information required to be shown on the certificate of value is limited to the information required as of the date of the acknowledgment on the deed or other document to be recorded.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 5. Minnesota Statutes 2020, section 273.124, subdivision 1, is amended to read:

Subdivision 1. **General rule.** (a) Residential real estate that is occupied and used for the purposes of a homestead by its owner, who must be a Minnesota resident, is a residential homestead.

Agricultural land, as defined in section 273.13, subdivision 23, that is occupied and used as a homestead by its owner, who must be a Minnesota resident, is an agricultural homestead.

Dates for establishment of a homestead and homestead treatment provided to particular types of property are as provided in this section.

Property held by a trustee under a trust is eligible for homestead classification if the requirements under this chapter are satisfied.

The assessor shall require proof, as provided in subdivision 13, of the facts upon which classification as a homestead may be determined. Notwithstanding any other law, the assessor may at any time require a homestead application to be filed in order to verify that any property classified as a homestead continues to be eligible for homestead status. Notwithstanding any other law to the contrary, the Department of Revenue may, upon request from an assessor, verify whether an individual who is requesting or receiving homestead classification has filed a Minnesota income tax return as a resident for the most recent taxable year for which the information is available.

When there is a name change or a transfer of homestead property, the assessor may reclassify the property in the next assessment unless a homestead application is filed to verify that the property continues to qualify for homestead classification.

(b) For purposes of this section, homestead property shall include property which is used for purposes of the homestead but is separated from the homestead by a road, street, lot, waterway, or other similar intervening property. The term "used for purposes of the homestead" shall include but not be limited to uses for gardens, garages, or other outbuildings commonly associated with a homestead, but shall not include vacant land held primarily for future development. In order to receive homestead treatment for the noncontiguous property, the owner must use the property for the purposes of the homestead, and must apply to the assessor, both by the deadlines given in subdivision 9. After initial qualification for the homestead treatment, additional applications for subsequent years are not required.

(c) Residential real estate that is occupied and used for purposes of a homestead by a relative of the owner is a homestead but only to the extent of the homestead treatment that would be provided if the related owner occupied the property. For purposes of this paragraph and paragraph (g), "relative" means a parent, stepparent, child, stepchild, grandparent, grandchild, brother, sister, uncle, aunt, nephew, or niece. This relationship may be by blood or marriage. Property that has been classified as seasonal residential recreational property at any time during which it has been owned by the current owner or spouse of the current owner will not be reclassified as a homestead unless it is occupied as a homestead by the owner; this prohibition also applies to property that, in the absence of this paragraph, would have been classified as seasonal residential recreational property at the time when the residence was constructed. Neither the related occupant nor the owner of the property may claim a property tax refund under chapter 290A for a homestead occupied by a relative. In the case of a residence located on agricultural land, only the house, garage, and immediately surrounding one acre of land shall be classified as a homestead under this paragraph, except as provided in paragraph (d).

(d) Agricultural property that is occupied and used for purposes of a homestead by a relative of the owner, is a homestead, only to the extent of the homestead treatment that would be provided if the related owner occupied the property, and only if all of the following criteria are met:

(1) the relative who is occupying the agricultural property is a grandchild, child, sibling, ~~or~~ parent, grandparent, stepparent, stepchild, uncle, aunt, nephew, or niece of the owner of the agricultural property or of the spouse of the owner;

(2) the owner of the agricultural property must be a Minnesota resident;

(3) the owner of the agricultural property must not receive homestead treatment on any other agricultural property in Minnesota; and

(4) the owner of the agricultural property is limited to only one agricultural homestead per family under this paragraph.

Neither the related occupant nor the owner of the property may claim a property tax refund under chapter 290A for a homestead occupied by a relative qualifying under this paragraph. For purposes of this paragraph, "agricultural property" means the house, garage, other farm buildings and structures, and agricultural land.

Application must be made to the assessor by the owner of the agricultural property to receive homestead benefits under this paragraph. The assessor may require the necessary proof that the requirements under this paragraph have been met.

(e) In the case of property owned by a property owner who is married, the assessor must not deny homestead treatment in whole or in part if only one of the spouses occupies the property and the other spouse is absent due to: (1) marriage dissolution proceedings, (2) legal separation, (3) employment or self-employment in another location, or (4) other personal circumstances causing the spouses to live separately, not including an intent to obtain two homestead classifications for property tax purposes. To qualify under clause (3), the spouse's place of employment or self-employment must be at least 50 miles distant from the other spouse's place of employment, and the homesteads must be at least 50 miles distant from each other.

(f) The assessor must not deny homestead treatment in whole or in part if:

(1) in the case of a property owner who is not married, the owner is absent due to residence in a nursing home, boarding care facility, or an elderly assisted living facility property as defined in section 273.13, subdivision 25a, and the property is not otherwise occupied; or

(2) in the case of a property owner who is married, the owner or the owner's spouse or both are absent due to residence in a nursing home, boarding care facility, or an elderly assisted living facility property as defined in section 273.13, subdivision 25a, and the property is not occupied or is occupied only by the owner's spouse.

(g) If an individual is purchasing property with the intent of claiming it as a homestead and is required by the terms of the financing agreement to have a relative shown on the deed as a co-owner, the assessor shall allow a full homestead classification. This provision only applies to first-time purchasers, whether married or single, or to a person who had previously been married and is purchasing as a single individual for the first time. The application for homestead benefits must be on a form prescribed by the commissioner and must contain the data necessary for the assessor to determine if full homestead benefits are warranted.

(h) If residential or agricultural real estate is occupied and used for purposes of a homestead by a child of a deceased owner and the property is subject to jurisdiction of probate court, the child shall receive relative homestead classification under paragraph (c) or (d) to the same extent they would be entitled to it if the owner was still living, until the probate is completed. For purposes of this paragraph, "child" includes a relationship by blood or by marriage.

(i) If a single-family home, duplex, or triplex classified as either residential homestead or agricultural homestead is also used to provide licensed child care, the portion of the property used for licensed child care must be classified as a part of the homestead property.

EFFECTIVE DATE. This section is effective beginning with property taxes payable in 2022 and thereafter.

Sec. 6. Minnesota Statutes 2020, section 273.124, subdivision 3a, is amended to read:

Subd. 3a. **Manufactured home park cooperative.** (a) When a manufactured home park is owned by a corporation or association organized under chapter 308A or 308B, and each person who owns a share or shares in the corporation or association is entitled to occupy a lot within the park, the corporation or association may claim homestead treatment for the park. Each lot must be designated by legal description or number, and each lot is limited to not more than one-half acre of land.

(b) The manufactured home park shall be entitled to homestead treatment if all of the following criteria are met:

(1) the occupant or the cooperative corporation or association is paying the ad valorem property taxes and any special assessments levied against the land and structure either directly, or indirectly through dues to the corporation or association; and

(2) the corporation or association organized under chapter 308A or 308B is wholly owned by persons having a right to occupy a lot owned by the corporation or association.

(c) A charitable corporation, organized under the laws of Minnesota with no outstanding stock, and granted a ruling by the Internal Revenue Service for 501(c)(3) tax-exempt status, qualifies for homestead treatment with respect to a manufactured home park if its members hold residential participation warrants entitling them to occupy a lot in the manufactured home park.

(d) "Homestead treatment" under this subdivision means the classification rate provided for class 4c property classified under section 273.13, subdivision 25, paragraph (d), clause (5), ~~item (ii),~~ and the homestead market value exclusion under section 273.13, subdivision 35, does not apply.

EFFECTIVE DATE. This section is effective beginning with property taxes payable in 2023 and thereafter.

Sec. 7. Minnesota Statutes 2020, section 273.124, subdivision 6, is amended to read:

Subd. 6. **Leasehold cooperatives.** When one or more dwellings or one or more buildings which each contain several dwelling units is owned by a nonprofit corporation subject to the provisions of chapter 317A and qualifying under section 501(c)(3) or 501(c)(4) of the Internal Revenue Code, or a limited partnership which corporation or partnership operates the property in conjunction with a cooperative association, and has received public financing, homestead treatment may be claimed by the cooperative association on behalf of the members of the cooperative for each dwelling unit occupied by a member of the cooperative. The cooperative association must provide the assessor with the Social Security numbers or individual tax identification numbers of those members. To qualify for the treatment provided by this subdivision, the following conditions must be met:

(a) the cooperative association must be organized under chapter 308A or 308B and all voting members of the board of directors must be resident tenants of the cooperative and must be elected by the resident tenants of the cooperative;

(b) the cooperative association must have a lease for occupancy of the property for a term of at least 20 years, which permits the cooperative association, while not in default on the lease, to participate materially in the management of the property, including material participation in establishing budgets, setting rent levels, and hiring and supervising a management agent;

(c) to the extent permitted under state or federal law, the cooperative association must have a right under a written agreement with the owner to purchase the property if the owner proposes to sell it; if the cooperative association does not purchase the property it is offered for sale, the owner may not subsequently sell the property to another purchaser at a price lower than the price at which it was offered for sale to the cooperative association unless the cooperative association approves the sale;

(d) a minimum of 40 percent of the cooperative association's members must have incomes at or less than 60 percent of area median gross income as determined by the United States Secretary of Housing and Urban Development under section 142(d)(2)(B) of the Internal Revenue Code. For purposes of this clause, "member income" means the income of a member existing at the time the member acquires cooperative membership;

(e) if a limited partnership owns the property, it must include as the managing general partner a nonprofit organization operating under the provisions of chapter 317A and qualifying under section 501(c)(3) or 501(c)(4) of the Internal Revenue Code and the limited partnership agreement must provide that the managing general partner have sufficient powers so that it materially participates in the management and control of the limited partnership;

(f) prior to becoming a member of a leasehold cooperative described in this subdivision, a person must have received notice that (1) describes leasehold cooperative property in plain language, including but not limited to the effects of classification under this subdivision on rents, property taxes and tax credits or refunds, and operating expenses, and (2) states that copies of the articles of incorporation and bylaws of the cooperative association, the lease between the owner and the cooperative association, a sample sublease between the cooperative association and a tenant, and, if the owner is a partnership, a copy of the limited partnership agreement, can be obtained upon written request at no charge from the owner, and the owner must send or deliver the materials within seven days after receiving any request;

(g) if a dwelling unit of a building was occupied on the 60th day prior to the date on which the unit became leasehold cooperative property described in this subdivision, the notice described in paragraph (f) must have been sent by first class mail to the occupant of the unit at least 60 days prior to the date on which the unit became leasehold cooperative property. For purposes of the notice under this paragraph, the copies of the documents referred to in paragraph (f) may be in proposed version, provided that any subsequent material alteration of those documents made after the occupant has requested a copy shall be disclosed to any occupant who has requested a copy of the document. Copies of the articles of incorporation and certificate of limited partnership shall be filed with the secretary of state after the expiration of the 60-day period unless the change to leasehold cooperative status does not proceed;

(h) the county attorney of the county in which the property is located must certify to the assessor that the property meets the requirements of this subdivision;

(i) the public financing received must be from at least one of the following sources:

(1) tax increment financing proceeds used for the acquisition or rehabilitation of the building or interest rate write-downs relating to the acquisition of the building;

(2) government issued bonds exempt from taxes under section 103 of the Internal Revenue Code, the proceeds of which are used for the acquisition or rehabilitation of the building;

(3) programs under section 221(d)(3), 202, or 236, of Title II of the National Housing Act;

(4) rental housing program funds under Section 8 of the United States Housing Act of 1937, as amended, or the market rate family graduated payment mortgage program funds administered by the Minnesota Housing Finance Agency that are used for the acquisition or rehabilitation of the building;

(5) low-income housing credit under section 42 of the Internal Revenue Code;

(6) public financing provided by a local government used for the acquisition or rehabilitation of the building, including grants or loans from (i) federal community development block grants; (ii) HOME block grants; or (iii) residential rental bonds issued under chapter 474A; or

(7) other rental housing program funds provided by the Minnesota Housing Finance Agency for the acquisition or rehabilitation of the building;

(j) at the time of the initial request for homestead classification or of any transfer of ownership of the property, the governing body of the municipality in which the property is located must hold a public hearing and make the following findings:

(1) that the granting of the homestead treatment of the apartment's units will facilitate safe, clean, affordable housing for the cooperative members that would otherwise not be available absent the homestead designation;

(2) that the owner has presented information satisfactory to the governing body showing that the savings garnered from the homestead designation of the units will be used to reduce tenant's rents or provide a level of furnishing or maintenance not possible absent the designation; and

(3) that the requirements of paragraphs (b), (d), and (i) have been met.

Homestead treatment must be afforded to units occupied by members of the cooperative association and the units must be assessed as provided in subdivision 3, provided that any unit not so occupied shall be classified and assessed pursuant to the appropriate class. No more than three acres of land may, for assessment purposes, be included with each dwelling unit that qualifies for homestead treatment under this subdivision.

When dwelling units no longer qualify under this subdivision, the current owner must notify the assessor within 60 days. Failure to notify the assessor within 60 days shall result in the loss of benefits under this subdivision for taxes payable in the year that the failure is discovered. For these purposes, "benefits under this subdivision" means the difference in the net tax capacity of the units which no longer qualify as computed under this subdivision and as computed under the otherwise applicable law, times the local tax rate applicable to the building for that taxes payable year. Upon discovery of a failure to notify, the assessor shall inform the auditor of the difference in net tax capacity for the building or buildings in which units no longer qualify, and the auditor shall calculate the benefits under this subdivision. Such amount, plus a penalty equal to 100 percent of that amount, shall then be demanded of the building's owner. The property owner may appeal the county's determination by serving copies of a petition for review with county officials as provided in section 278.01 and filing a proof of service as provided in section 278.01 with the Minnesota Tax Court within 60 days of the date of the notice from the county. The appeal shall be governed by the Tax Court procedures provided in chapter 271, for cases relating to the tax laws as defined in section 271.01, subdivision 5; disregarding sections 273.125, subdivision 5, and 278.03, but including section 278.05, subdivision 2. If the amount of the benefits under this subdivision and penalty are not paid within 60 days, and if no appeal has been filed, the county auditor shall certify the amount of the benefit and penalty to the succeeding year's tax list to be collected as part of the property taxes on the affected buildings.

EFFECTIVE DATE. This section is effective beginning with assessment year 2021 and thereafter.

Sec. 8. Minnesota Statutes 2020, section 273.124, subdivision 9, is amended to read:

Subd. 9. **Homestead established after assessment date.** Any property that was not used for the purpose of a homestead on the assessment date, but which was used for the purpose of a homestead on December ~~1~~ 31 of a year, constitutes class 1 or class 2a.

Any taxpayer meeting the requirements of this subdivision must notify the county assessor, or the assessor who has the powers of the county assessor under section 273.063, in writing, by December ~~15~~ 31 of the year of occupancy in order to qualify under this subdivision. The assessor must not deny full homestead treatment to a property that is partially homesteaded on January 2 but occupied for the purpose of a full homestead on December ~~1~~ 31 of a year.

The county assessor and the county auditor may make the necessary changes on their assessment and tax records to provide for proper homestead classification as provided in this subdivision.

If homestead classification has not been requested as of December ~~15~~ 31, the assessor will classify the property as nonhomestead for the current assessment year for taxes payable in the following year, provided that the owner of any property qualifying under this subdivision, which has not been accorded the benefits of this subdivision, may be entitled to receive homestead classification by proper application as provided in section 375.192.

The county assessor may publish in a newspaper of general circulation within the county a notice requesting the public to file an application for homestead as soon as practicable after acquisition of a homestead, but no later than December ~~15~~ 31.

The county assessor shall publish in a newspaper of general circulation within the county no later than December 1 of each year a notice informing the public of the requirement to file an application for homestead by December ~~15~~ 31.

In the case of manufactured homes assessed as personal property, the homestead must be established, and a homestead classification requested, by May 29 of the assessment year. The assessor may include information on these deadlines for manufactured homes assessed as personal property in the published notice or notices.

EFFECTIVE DATE. This section is effective beginning with assessments in 2021.

Sec. 9. Minnesota Statutes 2020, section 273.124, subdivision 13, is amended to read:

Subd. 13. **Homestead application.** (a) A person who meets the homestead requirements under subdivision 1 must file a homestead application with the county assessor to initially obtain homestead classification.

(b) The commissioner shall prescribe the content, format, and manner of the homestead application required to be filed under this chapter pursuant to section 270C.30. The application must clearly inform the taxpayer that this application must be signed by all owners who occupy the property or by the qualifying relative and returned to the county assessor in order for the property to receive homestead treatment.

(c) Every property owner applying for homestead classification must furnish to the county assessor the Social Security number or individual tax identification number of each occupant who is listed as an owner of the property on the deed of record, the name and address of each owner who does not occupy the property, and the name and Social Security number or individual tax identification number of the spouse of each occupying owner. The application must be signed by each owner who occupies the property and by each owner's spouse who occupies the property, or, in the case of property that qualifies as a homestead under subdivision 1, paragraph (c), by the qualifying relative.

If a property owner occupies a homestead, the property owner's spouse may not claim another property as a homestead unless the property owner and the property owner's spouse file with the assessor an affidavit or other proof required by the assessor stating that the property qualifies as a homestead under subdivision 1, paragraph (e).

Owners or spouses occupying residences owned by their spouses and previously occupied with the other spouse, either of whom fail to include the other spouse's name and Social Security number or individual tax identification number on the homestead application or provide the affidavits or other proof requested, will be deemed to have elected to receive only partial homestead treatment of their residence. The remainder of the residence will be classified as nonhomestead residential. When an owner or spouse's name and Social Security number or individual tax identification number appear on homestead applications for two separate residences and only one application is signed, the owner or spouse will be deemed to have elected to homestead the residence for which the application was signed.

(d) If residential real estate is occupied and used for purposes of a homestead by a relative of the owner and qualifies for a homestead under subdivision 1, paragraph (c), in order for the property to receive homestead status, a homestead application must be filed with the assessor. The Social Security number or individual tax identification number of each relative occupying the property and the name and Social Security number or individual tax identification number of the spouse of a relative occupying the property shall be required on the homestead application filed under this subdivision. If a different relative of the owner subsequently occupies the property, the owner of the property must notify the assessor within 30 days of the change in occupancy. The Social Security number or individual tax identification number of a relative occupying the property or the spouse of a relative occupying the property is private data on individuals as defined by section 13.02, subdivision 12, but may be disclosed to the commissioner of revenue, or, for the purposes of proceeding under the Revenue Recapture Act to recover personal property taxes owing, to the county treasurer.

(e) The homestead application shall also notify the property owners that if the property is granted homestead status for any assessment year, that same property shall remain classified as homestead until the property is sold or transferred to another person, or the owners, the spouse of the owner, or the relatives no longer use the property as their homestead. Upon the sale or transfer of the homestead property, a certificate of value must be timely filed with the county auditor as provided under section 272.115. Failure to notify the assessor within 30 days that the property has been sold, transferred, or that the owner, the spouse of the owner, or the relative is no longer occupying the property as a homestead, shall result in the penalty provided under this subdivision and the property will lose its current homestead status.

(f) If a homestead application has not been filed with the county by December ~~15~~ 31, the assessor shall classify the property as nonhomestead for the current assessment year for taxes payable in the following year, provided that the owner may be entitled to receive the homestead classification by proper application under section 375.192.

EFFECTIVE DATE. This section is effective beginning with assessments in 2021.

Sec. 10. Minnesota Statutes 2020, section 273.124, subdivision 13a, is amended to read:

Subd. 13a. **Occupant list.** At the request of the commissioner, each county must give the commissioner a list that includes the name and Social Security number or individual tax identification number of each occupant of homestead property who is the property owner, property owner's spouse, qualifying relative of a property owner, or a spouse of a qualifying relative. The commissioner shall use the information provided on the lists as appropriate under the law, including for the detection of improper claims by owners, or relatives of owners, under chapter 290A.

EFFECTIVE DATE. This section is effective beginning with assessment year 2021 and thereafter.

Sec. 11. Minnesota Statutes 2020, section 273.124, subdivision 13c, is amended to read:

Subd. 13c. **Property lists.** In addition to lists of homestead properties, the commissioner may ask the counties to furnish lists of all properties and the record owners. The Social Security numbers, individual tax identification numbers, and federal identification numbers that are maintained by a county or city assessor for property tax administration purposes, and that may appear on the lists retain their classification as private or nonpublic data; but may be viewed, accessed, and used by the county auditor or treasurer of the same county for the limited purpose of assisting the commissioner in the preparation of microdata samples under section 270C.12. The commissioner shall use the information provided on the lists as appropriate under the law, including for the detection of improper claims by owners, or relatives of owners, under chapter 290A.

EFFECTIVE DATE. This section is effective for homestead data provided to the commissioner of revenue in 2022 and thereafter.

Sec. 12. Minnesota Statutes 2020, section 273.124, subdivision 13d, is amended to read:

Subd. 13d. **Homestead data.** On or before April 30 each year beginning in 2007, each county must provide the commissioner with the following data for each parcel of homestead property by electronic means as defined in section 289A.02, subdivision 8:

(1) the property identification number assigned to the parcel for purposes of taxes payable in the current year;

(2) the name and Social Security number or individual tax identification number of each occupant of homestead property who is the property owner or qualifying relative of a property owner, and the spouse of the property owner who occupies homestead property or spouse of a qualifying relative of a property owner who occupies homestead property;

(3) the classification of the property under section 273.13 for taxes payable in the current year and in the prior year;

(4) an indication of whether the property was classified as a homestead for taxes payable in the current year because of occupancy by a relative of the owner or by a spouse of a relative;

(5) the property taxes payable as defined in section 290A.03, subdivision 13, for the current year and the prior year;

(6) the market value of improvements to the property first assessed for tax purposes for taxes payable in the current year;

(7) the assessor's estimated market value assigned to the property for taxes payable in the current year and the prior year;

(8) the taxable market value assigned to the property for taxes payable in the current year and the prior year;

(9) whether there are delinquent property taxes owing on the homestead;

(10) the unique taxing district in which the property is located; and

(11) such other information as the commissioner decides is necessary.

The commissioner shall use the information provided on the lists as appropriate under the law, including for the detection of improper claims by owners, or relatives of owners, under chapter 290A.

EFFECTIVE DATE. This section is effective for homestead data provided to the commissioner of revenue in 2022 and thereafter.

Sec. 13. Minnesota Statutes 2020, section 273.124, subdivision 14, is amended to read:

Subd. 14. **Agricultural homesteads; special provisions.** (a) Real estate of less than ten acres that is the homestead of its owner must be classified as class 2a under section 273.13, subdivision 23, paragraph (a), if:

(1) the parcel on which the house is located is contiguous on at least two sides to (i) agricultural land, (ii) land owned or administered by the United States Fish and Wildlife Service, or (iii) land administered by the Department of Natural Resources on which in lieu taxes are paid under sections 477A.11 to 477A.14;

(2) its owner also owns a noncontiguous parcel of agricultural land that is at least 20 acres;

(3) the noncontiguous land is located not farther than four townships or cities, or a combination of townships or cities from the homestead; and

(4) the agricultural use value of the noncontiguous land and farm buildings is equal to at least 50 percent of the market value of the house, garage, and one acre of land.

Homesteads initially classified as class 2a under the provisions of this paragraph shall remain classified as class 2a, irrespective of subsequent changes in the use of adjoining properties, as long as the homestead remains under the same ownership, the owner owns a noncontiguous parcel of agricultural land that is at least 20 acres, and the agricultural use value qualifies under clause (4). Homestead classification under this paragraph is limited to property that qualified under this paragraph for the 1998 assessment.

(b)(i) Agricultural property shall be classified as the owner's homestead, to the same extent as other agricultural homestead property, if all of the following criteria are met:

(1) the agricultural property consists of at least 40 acres including undivided government lots and correctional 40's;

(2) the owner, the owner's spouse, or a grandchild, child, sibling, or parent of the owner or of the owner's spouse, is actively farming the agricultural property, either on the person's own behalf as an individual or on behalf of a partnership operating a family farm, family farm corporation, joint family farm venture, or limited liability company of which the person is a partner, shareholder, or member;

(3) both the owner of the agricultural property and the person who is actively farming the agricultural property under clause (2), are Minnesota residents;

(4) neither the owner nor the spouse of the owner claims another agricultural homestead in Minnesota; and

(5) neither the owner nor the person actively farming the agricultural property lives farther than four townships or cities, or a combination of four townships or cities, from the agricultural property, except that if the owner or the owner's spouse is required to live in employer-provided housing, the owner or owner's spouse, whichever is actively farming the agricultural property, may live more than four townships or cities, or combination of four townships or cities from the agricultural property.

The relationship under this paragraph may be either by blood or marriage.

(ii) Property containing the residence of an owner who owns qualified property under clause (i) shall be classified as part of the owner's agricultural homestead, if that property is also used for noncommercial storage or drying of agricultural crops.

(iii) As used in this paragraph, "agricultural property" means class 2a property and any class 2b property that is contiguous to and under the same ownership as the class 2a property.

(c) Noncontiguous land shall be included as part of a homestead under section 273.13, subdivision 23, paragraph (a), only if the homestead is classified as class 2a and the detached land is located in the same township or city, or not farther than four townships or cities or combination thereof from the homestead. Any taxpayer of these noncontiguous lands must notify the county assessor that the noncontiguous land is part of the taxpayer's homestead, and, if the homestead is located in another county, the taxpayer must also notify the assessor of the other county.

(d) Agricultural land used for purposes of a homestead and actively farmed by a person holding a vested remainder interest in it must be classified as a homestead under section 273.13, subdivision 23, paragraph (a). If agricultural land is classified class 2a, any other dwellings on the land used for purposes of a homestead by persons holding vested remainder interests who are actively engaged in farming the property, and up to one acre of the land surrounding each homestead and reasonably necessary for the use of the dwelling as a home, must also be assessed class 2a.

(e) Agricultural land and buildings that were class 2a homestead property under section 273.13, subdivision 23, paragraph (a), for the 1997 assessment shall remain classified as agricultural homesteads for subsequent assessments if:

(1) the property owner abandoned the homestead dwelling located on the agricultural homestead as a result of the April 1997 floods;

(2) the property is located in the county of Polk, Clay, Kittson, Marshall, Norman, or Wilkin;

(3) the agricultural land and buildings remain under the same ownership for the current assessment year as existed for the 1997 assessment year and continue to be used for agricultural purposes;

(4) the dwelling occupied by the owner is located in Minnesota and is within 30 miles of one of the parcels of agricultural land that is owned by the taxpayer; and

(5) the owner notifies the county assessor that the relocation was due to the 1997 floods, and the owner furnishes the assessor any information deemed necessary by the assessor in verifying the change in dwelling. Further notifications to the assessor are not required if the property continues to meet all the requirements in this paragraph and any dwellings on the agricultural land remain uninhabited.

(f) Agricultural land and buildings that were class 2a homestead property under section 273.13, subdivision 23, paragraph (a), for the 1998 assessment shall remain classified agricultural homesteads for subsequent assessments if:

(1) the property owner abandoned the homestead dwelling located on the agricultural homestead as a result of damage caused by a March 29, 1998, tornado;

(2) the property is located in the county of Blue Earth, Brown, Cottonwood, LeSueur, Nicollet, Nobles, or Rice;

(3) the agricultural land and buildings remain under the same ownership for the current assessment year as existed for the 1998 assessment year;

(4) the dwelling occupied by the owner is located in this state and is within 50 miles of one of the parcels of agricultural land that is owned by the taxpayer; and

(5) the owner notifies the county assessor that the relocation was due to a March 29, 1998, tornado, and the owner furnishes the assessor any information deemed necessary by the assessor in verifying the change in homestead dwelling. For taxes payable in 1999, the owner must notify the assessor by December 1, 1998. Further notifications to the assessor are not required if the property continues to meet all the requirements in this paragraph and any dwellings on the agricultural land remain uninhabited.

(g) Agricultural property of a family farm corporation, joint family farm venture, family farm limited liability company, or partnership operating a family farm as described under subdivision 8 shall be classified homestead, to the same extent as other agricultural homestead property, if all of the following criteria are met:

(1) the property consists of at least 40 acres including undivided government lots and correctional 40's;

(2) a shareholder, member, or partner of that entity is actively farming the agricultural property;

(3) that shareholder, member, or partner who is actively farming the agricultural property is a Minnesota resident;

(4) neither that shareholder, member, or partner, nor the spouse of that shareholder, member, or partner claims another agricultural homestead in Minnesota; and

(5) that shareholder, member, or partner does not live farther than four townships or cities, or a combination of four townships or cities, from the agricultural property.

Homestead treatment applies under this paragraph even if:

(i) the shareholder, member, or partner of that entity is actively farming the agricultural property on the shareholder's, member's, or partner's own behalf; or

(ii) the family farm is operated by a family farm corporation, joint family farm venture, partnership, or limited liability company other than the family farm corporation, joint family farm venture, partnership, or limited liability company that owns the land, provided that:

(A) the shareholder, member, or partner of the family farm corporation, joint family farm venture, partnership, or limited liability company that owns the land who is actively farming the land is a shareholder, member, or partner of the family farm corporation, joint family farm venture, partnership, or limited liability company that is operating the farm; and

(B) more than half of the shareholders, members, or partners of each family farm corporation, joint family farm venture, partnership, or limited liability company are persons or spouses of persons who are a qualifying relative under section 273.124, subdivision 1, paragraphs (c) and (d).

Homestead treatment applies under this paragraph for property leased to a family farm corporation, joint farm venture, limited liability company, or partnership operating a family farm if legal title to the property is in the name of an individual who is a member, shareholder, or partner in the entity.

(h) To be eligible for the special agricultural homestead under this subdivision, an initial full application must be submitted to the county assessor where the property is located. Owners and the persons who are actively farming the property shall be required to complete only a one-page abbreviated version of the application in each subsequent year provided that none of the following items have changed since the initial application:

(1) the day-to-day operation, administration, and financial risks remain the same;

(2) the owners and the persons actively farming the property continue to live within the four townships or city criteria and are Minnesota residents;

(3) the same operator of the agricultural property is listed with the Farm Service Agency;

(4) a Schedule F or equivalent income tax form was filed for the most recent year;

(5) the property's acreage is unchanged; and

(6) none of the property's acres have been enrolled in a federal or state farm program since the initial application.

The owners and any persons who are actively farming the property must include the appropriate Social Security numbers or individual tax identification numbers, and sign and date the application. If any of the specified information has changed since the full application was filed, the owner must notify the assessor, and must complete a new application to determine if the property continues to qualify for the special agricultural homestead. The commissioner of revenue shall prepare a standard reapplication form for use by the assessors.

(i) Agricultural land and buildings that were class 2a homestead property under section 273.13, subdivision 23, paragraph (a), for the 2007 assessment shall remain classified agricultural homesteads for subsequent assessments if:

(1) the property owner abandoned the homestead dwelling located on the agricultural homestead as a result of damage caused by the August 2007 floods;

(2) the property is located in the county of Dodge, Fillmore, Houston, Olmsted, Steele, Wabasha, or Winona;

(3) the agricultural land and buildings remain under the same ownership for the current assessment year as existed for the 2007 assessment year;

(4) the dwelling occupied by the owner is located in this state and is within 50 miles of one of the parcels of agricultural land that is owned by the taxpayer; and

(5) the owner notifies the county assessor that the relocation was due to the August 2007 floods, and the owner furnishes the assessor any information deemed necessary by the assessor in verifying the change in homestead dwelling. For taxes payable in 2009, the owner must notify the assessor by December 1, 2008. Further notifications to the assessor are not required if the property continues to meet all the requirements in this paragraph and any dwellings on the agricultural land remain uninhabited.

(j) Agricultural land and buildings that were class 2a homestead property under section 273.13, subdivision 23, paragraph (a), for the 2008 assessment shall remain classified as agricultural homesteads for subsequent assessments if:

(1) the property owner abandoned the homestead dwelling located on the agricultural homestead as a result of the March 2009 floods;

(2) the property is located in the county of Marshall;

(3) the agricultural land and buildings remain under the same ownership for the current assessment year as existed for the 2008 assessment year and continue to be used for agricultural purposes;

(4) the dwelling occupied by the owner is located in Minnesota and is within 50 miles of one of the parcels of agricultural land that is owned by the taxpayer; and

(5) the owner notifies the county assessor that the relocation was due to the 2009 floods, and the owner furnishes the assessor any information deemed necessary by the assessor in verifying the change in dwelling. Further notifications to the assessor are not required if the property continues to meet all the requirements in this paragraph and any dwellings on the agricultural land remain uninhabited.

EFFECTIVE DATE. This section is effective for applications for homestead filed in 2021 and thereafter.

(1) Social Security numbers;

(2) individual tax identification numbers;

~~(2)~~ (3) copies of state or federal income tax returns; and

~~(3)~~ (4) state or federal income tax return information, including the federal income tax schedule F.

EFFECTIVE DATE. This section is effective for applications for homestead filed in 2021 and thereafter.

Sec. 15. Minnesota Statutes 2020, section 273.13, subdivision 23, is amended to read:

Subd. 23. **Class 2.** (a) An agricultural homestead consists of class 2a agricultural land that is homesteaded, along with any class 2b rural vacant land that is contiguous to the class 2a land under the same ownership. The market value of the house and garage and immediately surrounding one acre of land has the same classification rates as class 1a or 1b property under subdivision 22. The value of the remaining land including improvements up to the first tier valuation limit of agricultural homestead property has a classification rate of 0.5 percent of market value. The remaining property over the first tier has a classification rate of one percent of market value. For purposes of this subdivision, the "first tier valuation limit of agricultural homestead property" and "first tier" means the limit certified under section 273.11, subdivision 23.

(b) Class 2a agricultural land consists of parcels of property, or portions thereof, that are agricultural land and buildings. Class 2a property has a classification rate of one percent of market value, unless it is part of an agricultural homestead under paragraph (a). Class 2a property must also include any property that would otherwise be classified as 2b, but is interspersed with class 2a property, including but not limited to sloughs, wooded wind shelters, acreage abutting ditches, ravines, rock piles, land subject to a setback requirement, and other similar land that is impractical for the assessor to value separately from the rest of the property or that is unlikely to be able to be sold separately from the rest of the property.

An assessor may classify the part of a parcel described in this subdivision that is used for agricultural purposes as class 2a and the remainder in the class appropriate to its use.

(c) Class 2b rural vacant land consists of parcels of property, or portions thereof, that are unplatted real estate, rural in character and not used for agricultural purposes, including land used for growing trees for timber, lumber, and wood and wood products, that is not improved with a structure. The presence of a minor, ancillary nonresidential structure as defined by the commissioner of revenue does not disqualify the property from classification under this paragraph. Any parcel of 20 acres or more improved with a structure that is not a minor, ancillary nonresidential structure must be split-classified, and ten acres must be assigned to the split parcel containing the structure. <u>If a parcel of 20 acres or more is enrolled in the sustainable forest management incentive program under chapter 290C, the number of acres assigned to the split parcel improved with a structure that is not a minor, ancillary nonresidential structure must equal three acres or the number of acres excluded from the sustainable forest incentive act covenant due to the structure, whichever is greater.</u> Class 2b property has a classification rate of one percent of market value unless it is part of an agricultural homestead under paragraph (a), or qualifies as class 2c under paragraph (d).

(d) Class 2c managed forest land consists of no less than 20 and no more than 1,920 acres statewide per taxpayer that is being managed under a forest management plan that meets the requirements of chapter 290C, but is not enrolled in the sustainable forest resource management incentive program. It has a classification rate of .65 percent, provided that the owner of the property must apply to the assessor in order for the property to initially qualify for the reduced rate and provide the information required by the assessor to verify that the property qualifies for the reduced rate. If the assessor receives the application and information before May 1 in an assessment year, the property qualifies beginning with that assessment year. If the assessor receives the application and information after April 30 in an assessment year, the property may not qualify until the next assessment year. The commissioner of natural resources must concur that the land is qualified. The commissioner of natural resources shall annually provide county assessors verification information on a timely basis. The presence of a minor, ancillary nonresidential structure as defined by the commissioner of revenue does not disqualify the property from classification under this paragraph.

(e) Agricultural land as used in this section means:

(1) contiguous acreage of ten acres or more, used during the preceding year for agricultural purposes; or

(2) contiguous acreage used during the preceding year for an intensive livestock or poultry confinement operation, provided that land used only for pasturing or grazing does not qualify under this clause.

"Agricultural purposes" as used in this section means the raising, cultivation, drying, or storage of agricultural products for sale, or the storage of machinery or equipment used in support of agricultural production by the same farm entity. For a property to be classified as agricultural based only on the drying or storage of agricultural products, the products being dried or stored must have been produced by the same farm entity as the entity operating the drying or storage facility. "Agricultural purposes" also includes (i) enrollment in a local conservation program or the Reinvest in Minnesota program under sections 103F.501 to 103F.535 or the federal Conservation Reserve Program as contained in Public Law 99-198 or a similar state or federal conservation program if the property was classified as agricultural (A) under this subdivision for taxes payable in 2003 because of its enrollment in a qualifying program and the land remains enrolled or (B) in the year prior to its enrollment, or (ii) use of land, not to exceed three acres, to provide environmental benefits such as buffer strips, old growth forest restoration or retention, or retention ponds to prevent soil erosion. For purposes of this section, a "local conservation program" means a program administered by a town, statutory or home rule charter city, or county, including a watershed district, water management organization, or soil and water conservation district, in which landowners voluntarily enroll land and receive incentive payments equal to at least $50 per acre in exchange for use or other restrictions placed on the land. In order for property to qualify under the local conservation program provision, a taxpayer must apply to the assessor by February 1 of the assessment year and must submit the information required by the assessor, including but not limited to a copy of the program requirements, the specific agreement between the land owner and the local agency, if applicable, and a map of the conservation area. Agricultural classification shall not be based upon the market value of any residential structures on the parcel or contiguous parcels under the same ownership.

"Contiguous acreage," for purposes of this paragraph, means all of, or a contiguous portion of, a tax parcel as described in section 272.193, or all of, or a contiguous portion of, a set of contiguous tax parcels under that section that are owned by the same person.

(f) Agricultural land under this section also includes:

(1) contiguous acreage that is less than ten acres in size and exclusively used in the preceding year for raising or cultivating agricultural products; or

(2) contiguous acreage that contains a residence and is less than 11 acres in size, if the contiguous acreage exclusive of the house, garage, and surrounding one acre of land was used in the preceding year for one or more of the following three uses:

(i) for an intensive grain drying or storage operation, or for intensive machinery or equipment storage activities used to support agricultural activities on other parcels of property operated by the same farming entity;

(ii) as a nursery, provided that only those acres used intensively to produce nursery stock are considered agricultural land; or

(iii) for intensive market farming; for purposes of this paragraph, "market farming" means the cultivation of one or more fruits or vegetables or production of animal or other agricultural products for sale to local markets by the farmer or an organization with which the farmer is affiliated.

"Contiguous acreage," for purposes of this paragraph, means all of a tax parcel as described in section 272.193, or all of a set of contiguous tax parcels under that section that are owned by the same person.

(g) Land shall be classified as agricultural even if all or a portion of the agricultural use of that property is the leasing to, or use by another person for agricultural purposes.

Classification under this subdivision is not determinative for qualifying under section 273.111.

(h) The property classification under this section supersedes, for property tax purposes only, any locally administered agricultural policies or land use restrictions that define minimum or maximum farm acreage.

(i) The term "agricultural products" as used in this subdivision includes production for sale of:

(1) livestock, dairy animals, dairy products, poultry and poultry products, fur-bearing animals, horticultural and nursery stock, fruit of all kinds, vegetables, forage, grains, bees, and apiary products by the owner;

(2) aquacultural products for sale and consumption, as defined under section 17.47, if the aquaculture occurs on land zoned for agricultural use;

(3) the commercial boarding of horses, which may include related horse training and riding instruction, if the boarding is done on property that is also used for raising pasture to graze horses or raising or cultivating other agricultural products as defined in clause (1);

(4) property which is owned and operated by nonprofit organizations used for equestrian activities, excluding racing;

(5) game birds and waterfowl bred and raised (i) on a game farm licensed under section 97A.105, provided that the annual licensing report to the Department of Natural Resources, which must be submitted annually by March 30 to the assessor, indicates that at least 500 birds were raised or used for breeding stock on the property during the preceding year and that the owner provides a copy of the owner's most recent schedule F; or (ii) for use on a shooting preserve licensed under section 97A.115;

(6) insects primarily bred to be used as food for animals;

(7) trees, grown for sale as a crop, including short rotation woody crops, and not sold for timber, lumber, wood, or wood products; and

(8) maple syrup taken from trees grown by a person licensed by the Minnesota Department of Agriculture under chapter 28A as a food processor.

(j) If a parcel used for agricultural purposes is also used for commercial or industrial purposes, including but not limited to:

(1) wholesale and retail sales;

(2) processing of raw agricultural products or other goods;

(3) warehousing or storage of processed goods; and

(4) office facilities for the support of the activities enumerated in clauses (1), (2), and (3),

the assessor shall classify the part of the parcel used for agricultural purposes as class 1b, 2a, or 2b, whichever is appropriate, and the remainder in the class appropriate to its use. The grading, sorting, and packaging of raw agricultural products for first sale is considered an agricultural purpose. A greenhouse or other building where horticultural or nursery products are grown that is also used for the conduct of retail sales must be classified as agricultural if it is primarily used for the growing of horticultural or nursery products from seed, cuttings, or roots and occasionally as a showroom for the retail sale of those products. Use of a greenhouse or building only for the display of already grown horticultural or nursery products does not qualify as an agricultural purpose.

(k) The assessor shall determine and list separately on the records the market value of the homestead dwelling and the one acre of land on which that dwelling is located. If any farm buildings or structures are located on this homesteaded acre of land, their market value shall not be included in this separate determination.

(l) Class 2d airport landing area consists of a landing area or public access area of a privately owned public use airport. It has a classification rate of one percent of market value. To qualify for classification under this paragraph, a privately owned public use airport must be licensed as a public airport under section 360.018. For purposes of this paragraph, "landing area" means that part of a privately owned public use airport properly cleared, regularly maintained, and made available to the public for use by aircraft and includes runways, taxiways, aprons, and sites upon which are situated landing or navigational aids. A landing area also includes land underlying both the primary surface and the approach surfaces that comply with all of the following:

(i) the land is properly cleared and regularly maintained for the primary purposes of the landing, taking off, and taxiing of aircraft; but that portion of the land that contains facilities for servicing, repair, or maintenance of aircraft is not included as a landing area;

(ii) the land is part of the airport property; and

(iii) the land is not used for commercial or residential purposes.

The land contained in a landing area under this paragraph must be described and certified by the commissioner of transportation. The certification is effective until it is modified, or until the airport or landing area no longer meets the requirements of this paragraph. For purposes of this paragraph, "public access area" means property used as an aircraft parking ramp, apron, or storage hangar, or an arrival and departure building in connection with the airport.

(m) Class 2e consists of land with a commercial aggregate deposit that is not actively being mined and is not otherwise classified as class 2a or 2b, provided that the land is not located in a county that has elected to opt-out of the aggregate preservation program as provided in section 273.1115, subdivision 6. It has a classification rate of one percent of market value. To qualify for classification under this paragraph, the property must be at least ten contiguous acres in size and the owner of the property must record with the county recorder of the county in which the property is located an affidavit containing:

(1) a legal description of the property;

(2) a disclosure that the property contains a commercial aggregate deposit that is not actively being mined but is present on the entire parcel enrolled;

(3) documentation that the conditional use under the county or local zoning ordinance of this property is for mining; and

(4) documentation that a permit has been issued by the local unit of government or the mining activity is allowed under local ordinance. The disclosure must include a statement from a registered professional geologist, engineer, or soil scientist delineating the deposit and certifying that it is a commercial aggregate deposit.

For purposes of this section and section 273.1115, "commercial aggregate deposit" means a deposit that will yield crushed stone or sand and gravel that is suitable for use as a construction aggregate; and "actively mined" means the removal of top soil and overburden in preparation for excavation or excavation of a commercial deposit.

(n) When any portion of the property under this subdivision or subdivision 22 begins to be actively mined, the owner must file a supplemental affidavit within 60 days from the day any aggregate is removed stating the number of acres of the property that is actively being mined. The acres actively being mined must be (1) valued and

classified under subdivision 24 in the next subsequent assessment year, and (2) removed from the aggregate resource preservation property tax program under section 273.1115, if the land was enrolled in that program. Copies of the original affidavit and all supplemental affidavits must be filed with the county assessor, the local zoning administrator, and the Department of Natural Resources, Division of Land and Minerals. A supplemental affidavit must be filed each time a subsequent portion of the property is actively mined, provided that the minimum acreage change is five acres, even if the actual mining activity constitutes less than five acres.

(o) The definitions prescribed by the commissioner under paragraphs (c) and (d) are not rules and are exempt from the rulemaking provisions of chapter 14, and the provisions in section 14.386 concerning exempt rules do not apply.

EFFECTIVE DATE. This section is effective for assessment year 2022 and thereafter.

Sec. 16. Minnesota Statutes 2020, section 273.13, subdivision 25, is amended to read:

Subd. 25. **Class 4.** (a) Class 4a is residential real estate containing four or more units and used or held for use by the owner or by the tenants or lessees of the owner as a residence for rental periods of 30 days or more, excluding property qualifying for class 4d. Class 4a also includes hospitals licensed under sections 144.50 to 144.56, other than hospitals exempt under section 272.02, and contiguous property used for hospital purposes, without regard to whether the property has been platted or subdivided. The market value of class 4a property has a classification rate of 1.25 percent.

(b) Class 4b includes:

(1) residential real estate containing less than four units, including property rented as a short-term rental property for more than 14 days in the preceding year, that does not qualify as class 4bb, other than seasonal residential recreational property;

(2) manufactured homes not classified under any other provision;

(3) a dwelling, garage, and surrounding one acre of property on a nonhomestead farm classified under subdivision 23, paragraph (b) containing two or three units; and

(4) unimproved property that is classified residential as determined under subdivision 33.

For the purposes of this paragraph, "short-term rental property" means nonhomestead residential real estate rented for periods of less than 30 consecutive days.

The market value of class 4b property has a classification rate of 1.25 percent.

(c) Class 4bb includes:

(1) nonhomestead residential real estate containing one unit, other than seasonal residential recreational property;

(2) a single family dwelling, garage, and surrounding one acre of property on a nonhomestead farm classified under subdivision 23, paragraph (b); and

(3) a condominium-type storage unit having an individual property identification number that is not used for a commercial purpose.

Class 4bb property has the same classification rates as class 1a property under subdivision 22.

Property that has been classified as seasonal residential recreational property at any time during which it has been owned by the current owner or spouse of the current owner does not qualify for class 4bb.

(d) Class 4c property includes:

(1) except as provided in subdivision 22, paragraph (c), real and personal property devoted to commercial temporary and seasonal residential occupancy for recreation purposes, for not more than 250 days in the year preceding the year of assessment. For purposes of this clause, property is devoted to a commercial purpose on a specific day if any portion of the property is used for residential occupancy, and a fee is charged for residential occupancy. Class 4c property under this clause must contain three or more rental units. A "rental unit" is defined as a cabin, condominium, townhouse, sleeping room, or individual camping site equipped with water and electrical hookups for recreational vehicles. A camping pad offered for rent by a property that otherwise qualifies for class 4c under this clause is also class 4c under this clause regardless of the term of the rental agreement, as long as the use of the camping pad does not exceed 250 days. In order for a property to be classified under this clause, either (i) the business located on the property must provide recreational activities, at least 40 percent of the annual gross lodging receipts related to the property must be from business conducted during 90 consecutive days, and either (A) at least 60 percent of all paid bookings by lodging guests during the year must be for periods of at least two consecutive nights; or (B) at least 20 percent of the annual gross receipts must be from charges for providing recreational activities, or (ii) the business must contain 20 or fewer rental units, and must be located in a township or a city with a population of 2,500 or less located outside the metropolitan area, as defined under section 473.121, subdivision 2, that contains a portion of a state trail administered by the Department of Natural Resources. For purposes of item (i)(A), a paid booking of five or more nights shall be counted as two bookings. Class 4c property also includes commercial use real property used exclusively for recreational purposes in conjunction with other class 4c property classified under this clause and devoted to temporary and seasonal residential occupancy for recreational purposes, up to a total of two acres, provided the property is not devoted to commercial recreational use for more than 250 days in the year preceding the year of assessment and is located within two miles of the class 4c property with which it is used. In order for a property to qualify for classification under this clause, the owner must submit a declaration to the assessor designating the cabins or units occupied for 250 days or less in the year preceding the year of assessment by January 15 of the assessment year. Those cabins or units and a proportionate share of the land on which they are located must be designated class 4c under this clause as otherwise provided. The remainder of the cabins or units and a proportionate share of the land on which they are located will be designated as class 3a. The owner of property desiring designation as class 4c property under this clause must provide guest registers or other records demonstrating that the units for which class 4c designation is sought were not occupied for more than 250 days in the year preceding the assessment if so requested. The portion of a property operated as a (1) restaurant, (2) bar, (3) gift shop, (4) conference center or meeting room, and (5) other nonresidential facility operated on a commercial basis not directly related to temporary and seasonal residential occupancy for recreation purposes does not qualify for class 4c. (B) "property taxes" excludes the state general tax;

(C) a "nonprofit community service oriented organization" means any corporation, society, association, foundation, or institution organized and operated exclusively for charitable, religious, fraternal, civic, or educational purposes, and which is exempt from federal income taxation pursuant to section 501(c)(3), (8), (10), or (19) of the Internal Revenue Code; and

The use of the property for social events open exclusively to members and their guests for periods of less than 24 hours, when an admission is not charged nor any revenues are received by the organization shall not be considered a revenue-producing activity.

The organization shall maintain records of its charitable contributions and donations and of public meetings and events held on the property and make them available upon request any time to the assessor to ensure eligibility. (i) the land is on an airport owned or operated by a city, town, county, Metropolitan Airports Commission, or group thereof; and

(ii) the land lease, or any ordinance or signed agreement restricting the use of the leased premise, prohibits commercial activity performed at the hangar.

(i) the land abuts a public airport; and

(ii) the owner of the aircraft storage hangar provides the assessor with a signed agreement restricting the use of the premises, prohibiting commercial use or activity performed at the hangar; and

Gross receipts from the sale of alcoholic beverages must be included in determining the property's qualification under item (ii). The property's primary business must be as a restaurant and not as a bar. Gross receipts from gift shop sales located on the premises must be excluded. Owners of real property desiring 4c classification under this clause must submit an annual declaration to the assessor by February 1 of the current assessment year, based on the property's relevant information for the preceding assessment year;

No more than 800 feet of lakeshore may be included in this classification. (e) Class 4d property is qualifying low-income rental housing certified to the assessor by the Housing Finance Agency under section 273.128, subdivision 3. If only a portion of the units in the building qualify as low-income rental housing units as certified under section 273.128, subdivision 3, only the proportion of qualifying units to the total number of units in the building qualify for class 4d. The remaining portion of the building shall be classified by the assessor based upon its use. Class 4d also includes the same proportion of land as the qualifying low-income rental housing units are to the total units in the building. For all properties qualifying as class 4d, the market value determined by the assessor must be based on the normal approach to value using normal unrestricted rents.

(f) The first tier of market value of class 4d property has a classification rate of 0.75 percent. The remaining value of class 4d property has a classification rate of 0.25 percent. For the purposes of this paragraph, the "first tier of market value of class 4d property" means the market value of each housing unit up to the first tier limit. Subd. 34. **Homestead of veteran with a disability or family caregiver.** (a) All or a portion of the market value of property owned by a veteran and serving as the veteran's homestead under this section is excluded in determining the property's taxable market value if the veteran has a service-connected disability of 70 percent or more as certified by the United States Department of Veterans Affairs. To qualify for exclusion under this subdivision, the veteran must have been honorably discharged from the United States armed forces, as indicated by United States Government Form DD214 or other official military discharge papers.

(2) for a total (100 percent) and permanent disability, $300,000 of market value is excluded.

(c) If a veteran with a disability qualifying for a valuation exclusion under paragraph (b), clause (2), predeceases the veteran's spouse, and if upon the death of the veteran the spouse holds the legal or beneficial title to the homestead and permanently resides there, the exclusion shall carry over to the benefit of the veteran's spouse until such time as the spouse remarries, or sells, transfers, or otherwise disposes of the property, except as otherwise provided in paragraph (n). Qualification under this paragraph requires an application under paragraph (h), and a spouse must notify the assessor if there is a change in the spouse's marital status, ownership of the property, or use of the property as a permanent residence.

(d) If the spouse of a member of any branch or unit of the United States armed forces who dies due to a service-connected cause while serving honorably in active service, as indicated on United States Government Form DD1300 or DD2064, holds the legal or beneficial title to a homestead and permanently resides there, the spouse is entitled to the benefit described in paragraph (b), clause (2), until such time as the spouse remarries or sells, transfers, or otherwise disposes of the property, except as otherwise provided in paragraph (n).

(e) If a veteran meets the disability criteria of paragraph (a) but does not own property classified as homestead in the state of Minnesota, then the homestead of the veteran's primary family caregiver, if any, is eligible for the exclusion that the veteran would otherwise qualify for under paragraph (b).

(f) In the case of an agricultural homestead, only the portion of the property consisting of the house and garage and immediately surrounding one acre of land qualifies for the valuation exclusion under this subdivision.

(g) A property qualifying for a valuation exclusion under this subdivision is not eligible for the market value exclusion under subdivision 35, or classification under subdivision 22, paragraph (b).

(h) To qualify for a valuation exclusion under this subdivision a property owner must apply to the assessor by December ~~15~~ 31 of the first assessment year for which the exclusion is sought. ~~For an application received after December 15, the exclusion shall become effective for the following assessment year.~~ Except as provided in paragraph (c), the owner of a property that has been accepted for a valuation exclusion must notify the assessor if there is a change in ownership of the property or in the use of the property as a homestead.

(i) A first-time application by a qualifying spouse for the market value exclusion under paragraph (d) must be made any time within two years of the death of the service member.

(j) For purposes of this subdivision:

(1) "active service" has the meaning given in section 190.05;

(2) "own" means that the person's name is present as an owner on the property deed;

(3) "primary family caregiver" means a person who is approved by the secretary of the United States Department of Veterans Affairs for assistance as the primary provider of personal care services for an eligible veteran under the Program of Comprehensive Assistance for Family Caregivers, codified as United States Code, title 38, section 1720G; and

(4) "veteran" has the meaning given the term in section 197.447.

(k) If a veteran dying after December 31, 2011, did not apply for or receive the exclusion under paragraph (b), clause (2), before dying, the veteran's spouse is entitled to the benefit under paragraph (b), clause (2), until the spouse remarries or sells, transfers, or otherwise disposes of the property, except as otherwise provided in paragraph (n), if

(1) the spouse files a first-time application within two years of the death of the service member or by June 1, 2019, whichever is later;

(2) upon the death of the veteran, the spouse holds the legal or beneficial title to the homestead and permanently resides there;

(3) the veteran met the honorable discharge requirements of paragraph (a); and

(4) the United States Department of Veterans Affairs certifies that:

(i) the veteran met the total (100 percent) and permanent disability requirement under paragraph (b), clause (2); or

(ii) the spouse has been awarded dependency and indemnity compensation.

(l) The purpose of this provision of law providing a level of homestead property tax relief for veterans with a disability, their primary family caregivers, and their surviving spouses is to help ease the burdens of war for those among our state's citizens who bear those burdens most heavily.

(m) By July 1, the county veterans service officer must certify the disability rating and permanent address of each veteran receiving the benefit under paragraph (b) to the assessor.

(n) A spouse who received the benefit in paragraph (c), (d), or (k) but no longer holds the legal or beneficial title to the property may continue to receive the exclusion for a property other than the property for which the exclusion was initially granted until the spouse remarries or sells, transfers, or otherwise disposes of the property, provided that:

(1) the spouse applies under paragraph (h) for the continuation of the exclusion allowed under this paragraph;

(2) the spouse holds the legal or beneficial title to the property for which the continuation of the exclusion is sought under this paragraph, and permanently resides there;

(4) the spouse has not previously received the benefit under this paragraph for a property other than the property for which the exclusion is sought.

EFFECTIVE DATE. This section is effective beginning with assessments in 2021.

Subd. 2. **Class 1b homestead declaration 2009 and thereafter.** (a) Any property owner seeking classification and assessment of the owner's homestead as class 1b property pursuant to section 273.13, subdivision 22, paragraph (b), after October 1, 2008, shall file with the county assessor a class 1b homestead declaration, on a form prescribed by the commissioner of revenue. The declaration must contain the following information:

(2) any additional information prescribed by the commissioner.

If approved by the assessor, the declaration remains in effect until the property no longer qualifies under section 273.13, subdivision 22, paragraph (b). Failure to notify the assessor within 30 days that the property no longer qualifies under that paragraph because of a sale, change in occupancy, or change in the status or condition of an occupant shall result in the penalty provided in section 273.124, subdivision 13b, computed on the basis of the class 1b benefits for the property, and the property shall lose its current class 1b classification.

EFFECTIVE DATE. This section is effective for applications for homestead filed in 2021 and thereafter.

Sec. 19. Minnesota Statutes 2020, section 275.025, subdivision 1, is amended to read:

Subdivision 1. **Levy amount.** The state general levy is levied against commercial-industrial property and seasonal residential recreational property, as defined in this section. The state general levy for commercial-industrial property is ~~$737,090,000~~ $716,990,000 for taxes payable in ~~2020~~ 2022 and thereafter. The state general levy for seasonal-recreational property is $41,690,000 for taxes payable in 2020 and thereafter. The tax under this section is not treated as a local tax rate under section 469.177 and is not the levy of a governmental unit under chapters 276A and 473F.

The commissioner shall increase or decrease the preliminary or final rate for a year as necessary to account for errors and tax base changes that affected a preliminary or final rate for either of the two preceding years. Adjustments are allowed to the extent that the necessary information is available to the commissioner at the time the rates for a year must be certified, and for the following reasons:

(1) an erroneous report of taxable value by a local official;

(2) an erroneous calculation by the commissioner; and

(3) an increase or decrease in taxable value for commercial-industrial or seasonal residential recreational property reported to the commissioner under section 270C.85, subdivision 2, clause (4), for the same year.

The commissioner may, but need not, make adjustments if the total difference in the tax levied for the year would be less than $100,000.

EFFECTIVE DATE. This section is effective beginning with property taxes payable in 2022 and thereafter.

Sec. 20. Minnesota Statutes 2020, section 275.025, subdivision 2, is amended to read:

Subd. 2. **Commercial-industrial tax capacity.** For the purposes of this section, "commercial-industrial tax capacity" means the tax capacity of all taxable property classified as class 3 or class 5(1) under section 273.13, excluding:

(1) the tax capacity attributable to the first ~~$100,000~~ $150,000 of market value of each parcel of commercial-industrial property as defined under section 273.13, subdivision 24, clauses (1) and (2);

(2) electric generation attached machinery under class 3; and

(3) property described in section 473.625.

County commercial-industrial tax capacity amounts are not adjusted for the captured net tax capacity of a tax increment financing district under section 469.177, subdivision 2, the net tax capacity of transmission lines deducted from a local government's total net tax capacity under section 273.425, or fiscal disparities contribution and distribution net tax capacities under chapter 276A or 473F. For purposes of this subdivision, the procedures for determining eligibility for tier 1 under section 273.13, subdivision 24, clauses (1) and (2), shall apply in determining the portion of a property eligible to be considered within the first ~~$100,000~~ $150,000 of market value.

EFFECTIVE DATE. This section is effective beginning with property taxes payable in 2022 and thereafter.

Sec. 21. Minnesota Statutes 2020, section 275.065, subdivision 1, is amended to read:

Subdivision 1. **Proposed levy.** (a) Notwithstanding any law or charter to the contrary, on or before September 30, each county, home rule charter or statutory city, town, and special taxing district, excluding the Metropolitan Council and the Metropolitan Mosquito Control Commission, shall certify to the county auditor the proposed property tax levy for taxes payable in the following year. For towns, the final certified levy shall also be considered the proposed levy.

(b) Each county and city with a population of at least 500 must annually notify the public of its revenue, expenditures, fund balances, and other relevant budget information that is used to establish the proposed property tax levy. Each county and city with a population of at least 500 must hold a public meeting on the budget and proposed levy. The meeting must be held at least seven days prior to the day that the proposed levy under this subdivision is certified, the public must be allowed to speak at the meeting, and the meeting must not begin before 6:00 p.m.

~~(b)~~ (c) Notwithstanding any law or charter to the contrary, on or before September 15, the Metropolitan Council and the Metropolitan Mosquito Control Commission shall adopt and certify to the county auditor a proposed property tax levy for taxes payable in the following year.

~~(c)~~ (d) On or before September 30, each school district that has not mutually agreed with its home county to extend this date shall certify to the county auditor the proposed property tax levy for taxes payable in the following year. Each school district that has agreed with its home county to delay the certification of its proposed property tax levy must certify its proposed property tax levy for the following year no later than October 7. The school district shall certify the proposed levy as:

(1) a specific dollar amount by school district fund, broken down between voter-approved and non-voter-approved levies and between referendum market value and tax capacity levies; or

(2) the maximum levy limitation certified by the commissioner of education according to section 126C.48, subdivision 1.

~~(d)~~ (e) If the board of estimate and taxation or any similar board that establishes maximum tax levies for taxing jurisdictions within a first class city certifies the maximum property tax levies for funds under its jurisdiction by charter to the county auditor by the date specified in paragraph (a), the city shall be deemed to have certified its levies for those taxing jurisdictions.

~~(e)~~ (f) For purposes of this section, "special taxing district" means a special taxing district as defined in section 275.066. Intermediate school districts that levy a tax under chapter 124 or 136D, joint powers boards established under sections 123A.44 to 123A.445, and Common School Districts No. 323, Franconia, and No. 815, Prinsburg, are also special taxing districts for purposes of this section.

~~(f)~~ (g) At the meeting at which a taxing authority, other than a town, adopts its proposed tax levy under this subdivision, the taxing authority shall announce the time and place of any subsequent regularly scheduled meetings at which the budget and levy will be discussed and at which the public will be allowed to speak. The time and place of those meetings must be included in the proceedings or summary of proceedings published in the official newspaper of the taxing authority under section 123B.09, 375.12, or 412.191.

EFFECTIVE DATE. This section is effective for property taxes payable in 2022 and thereafter.

Sec. 22. Minnesota Statutes 2020, section 275.065, subdivision 3, is amended to read:

Subd. 3. **Notice of proposed property taxes.** (a) The county auditor shall prepare and the county treasurer shall deliver after November 10 and on or before November 24 each year, by first class mail to each taxpayer at the address listed on the county's current year's assessment roll, a notice of proposed property taxes. Upon written request by the taxpayer, the treasurer may send the notice in electronic form or by ~~electronic mail~~ e-mail instead of on paper or by ordinary mail.

(b) The commissioner of revenue shall prescribe the form of the notice.

(c) The notice must inform taxpayers that it contains the amount of property taxes each taxing authority proposes to collect for taxes payable the following year. In the case of a town, or in the case of the state general tax, the final tax amount will be its proposed tax. The notice must clearly state for each ~~city that has a population over 500, county, school district,~~ regional library authority established under section 134.201, ~~and~~ metropolitan taxing districts as defined in paragraph (i), and fire protection special taxing districts established under section 299O.01, the time and place of a meeting for each taxing authority in which the budget and levy will be discussed and public input allowed, prior to the final budget and levy determination. ~~The taxing authorities must provide the county auditor with the information to be included in the notice on or before the time it certifies its proposed levy under subdivision 1.~~ The public must be allowed to speak at that meeting, which must occur after November 24 and must not be held before 6:00 p.m. The notice must state for each city that has a population over 500, county, and school district, the time and place of the meeting to be held pursuant to subdivision 11. The taxing authorities must provide the county auditor with the information to be included in the notice on or before the time it certifies its proposed levy under subdivision 1. It must provide a telephone number for the taxing authority that taxpayers may call if they have questions related to the notice and an address where comments will be received by mail, except that no notice required under this section shall be interpreted as requiring the printing of a personal telephone number or address as the contact information for a taxing authority. If a taxing authority does not maintain public offices where telephone calls can be received by the authority, the authority may inform the county of the lack of a public telephone number and the county shall not list a telephone number for that taxing authority.

(d) The notice must state for each parcel:

(1) the market value of the property as determined under section 273.11, and used for computing property taxes payable in the following year and for taxes payable in the current year as each appears in the records of the county assessor on November 1 of the current year; and, in the case of residential property, whether the property is classified as homestead or nonhomestead. The notice must clearly inform taxpayers of the years to which the market values apply and that the values are final values;

(2) the items listed below, shown separately by county, city or town, and state general tax, agricultural homestead credit under section 273.1384, school building bond agricultural credit under section 273.1387, voter approved school levy, other local school levy, and the sum of the special taxing districts, and as a total of all taxing authorities:

(i) the actual tax for taxes payable in the current year; and

(ii) the proposed tax amount.

If the county levy under clause (2) includes an amount for a lake improvement district as defined under sections 103B.501 to 103B.581, the amount attributable for that purpose must be separately stated from the remaining county levy amount.

In the case of a town or the state general tax, the final tax shall also be its proposed tax unless the town changes its levy at a special town meeting under section 365.52. If a school district has certified under section 126C.17, subdivision 9, that a referendum will be held in the school district at the November general election, the county auditor must note next to the school district's proposed amount that a referendum is pending and that, if approved by the voters, the tax amount may be higher than shown on the notice. In the case of the city of Minneapolis, the levy for Minneapolis Park and Recreation shall be listed separately from the remaining amount of the city's levy. In the case of the city of St. Paul, the levy for the St. Paul Library Agency must be listed separately from the remaining amount of the city's levy. In the case of Ramsey County, any amount levied under section 134.07 may be listed separately from the remaining amount of the county's levy. In the case of a parcel where tax increment or the fiscal disparities areawide tax under chapter 276A or 473F applies, the proposed tax levy on the captured value or the proposed tax levy on the tax capacity subject to the areawide tax must each be stated separately and not included in the sum of the special taxing districts; and

(3) the increase or decrease between the total taxes payable in the current year and the total proposed taxes, expressed as a percentage.

For purposes of this section, the amount of the tax on homesteads qualifying under the senior citizens' property tax deferral program under chapter 290B is the total amount of property tax before subtraction of the deferred property tax amount.

(e) The notice must clearly state that the proposed or final taxes do not include the following:

(1) special assessments;

(2) levies approved by the voters after the date the proposed taxes are certified, including bond referenda and school district levy referenda;

(3) a levy limit increase approved by the voters by the first Tuesday after the first Monday in November of the levy year as provided under section 275.73;

(4) amounts necessary to pay cleanup or other costs due to a natural disaster occurring after the date the proposed taxes are certified;

(5) amounts necessary to pay tort judgments against the taxing authority that become final after the date the proposed taxes are certified; and

(6) the contamination tax imposed on properties which received market value reductions for contamination.

(f) Except as provided in subdivision 7, failure of the county auditor to prepare or the county treasurer to deliver the notice as required in this section does not invalidate the proposed or final tax levy or the taxes payable pursuant to the tax levy.

(g) If the notice the taxpayer receives under this section lists the property as nonhomestead, and satisfactory documentation is provided to the county assessor by the applicable deadline, and the property qualifies for the homestead classification in that assessment year, the assessor shall reclassify the property to homestead for taxes payable in the following year.

(h) In the case of class 4 residential property used as a residence for lease or rental periods of 30 days or more, the taxpayer must either:

(1) mail or deliver a copy of the notice of proposed property taxes to each tenant, renter, or lessee; or

(2) post a copy of the notice in a conspicuous place on the premises of the property.

The notice must be mailed or posted by the taxpayer by November 27 or within three days of receipt of the notice, whichever is later. A taxpayer may notify the county treasurer of the address of the taxpayer, agent, caretaker, or manager of the premises to which the notice must be mailed in order to fulfill the requirements of this paragraph.

(i) For purposes of this subdivision and subdivision 6, "metropolitan special taxing districts" means the following taxing districts in the seven-county metropolitan area that levy a property tax for any of the specified purposes listed below:

(1) Metropolitan Council under section 473.132, 473.167, 473.249, 473.325, 473.446, 473.521, 473.547, or 473.834;

(2) Metropolitan Airports Commission under section 473.667, 473.671, or 473.672; and

(3) Metropolitan Mosquito Control Commission under section 473.711.

For purposes of this section, any levies made by the regional rail authorities in the county of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, or Washington under chapter 398A shall be included with the appropriate county's levy.

(j) The governing body of a county, city, or school district may, with the consent of the county board, include supplemental information with the statement of proposed property taxes about the impact of state aid increases or decreases on property tax increases or decreases and on the level of services provided in the affected jurisdiction. This supplemental information may include information for the following year, the current year, and for as many consecutive preceding years as deemed appropriate by the governing body of the county, city, or school district. It may include only information regarding:

(1) the impact of inflation as measured by the implicit price deflator for state and local government purchases;

(2) population growth and decline;

(3) state or federal government action; and

(4) other financial factors that affect the level of property taxation and local services that the governing body of the county, city, or school district may deem appropriate to include.

The information may be presented using tables, written narrative, and graphic representations and may contain instruction toward further sources of information or opportunity for comment.

EFFECTIVE DATE. This section is effective for property taxes payable in 2022 and thereafter.

Sec. 23. Minnesota Statutes 2020, section 275.065, is amended by adding a subdivision to read:

Subd. 3b. **Notice of proposed property taxes required supplemental information.** (a) The county auditor must prepare a separate statement to be delivered with the notice of proposed taxes described in subdivision 3. The statement must fit on one sheet of paper and contain for each parcel:

(1) for the county, city or township, and school district in which the parcel lies, the certified levy for the current taxes payable year, the proposed levy for taxes payable in the following year, and the increase or decrease between these two amounts, expressed as a percentage;

(2) summary budget information listed in paragraph (b); and

(3) information on how to access each taxing authority's website where the taxpayer can find the proposed budget and information on how to participate in person and remotely in the Minnesota Property Taxpayer's Day meetings, held pursuant to subdivision 11.

(b) Summary budget information must contain budget data from the county, city, and school district that proposes a property tax levy on the parcel for taxes payable the following year. For the school district, the summary budget data must include the information provided to the public under section 123B.10, subdivision 1, paragraph (b), for the current year and prior year. For the county and city, the reported summary budget data must contain the same information, in the same categories, and in the same format as provided to the Office of the State Auditor as required by section 6.745. The statement must provide the governmental revenues and current expenditures information in clauses (1) and (2) for the taxing authority's budget for taxes payable the following year and the taxing authority's budget from taxes payable in the current year, as well as the percent change between the two years. The city must provide the county auditor with the summary budget data at the same time as the information required under subdivision 3. Only cities with a population of at least 500 are required to report the data described in this paragraph. If a city with a population over 500 fails to report the required information to the county auditor, the county auditor must list the city as "budget information not reported" on the portion of the statement dedicated to the city's budget information. The statement may take the same format as the annual summary budget report for cities and counties issued by the Office of the State Auditor. The summary budget data must include:

(1) a governmental revenues category, including and separately stating:

(i) "property taxes" defined as property taxes levied on an assessed valuation of real property and personal property, if applicable, by the city and county, including fiscal disparities;

(ii) "special assessments" defined as levies made against certain properties to defray all or part of the costs of a specific improvement, such as new sewer and water mains, deemed to benefit primarily those properties;

(iii) "state general purpose aid" defined as aid received from the state that has no restrictions on its use, including local government aid, county program aid, and market value credits; and

(iv) "state categorical aid" defined as revenues received for a specific purpose, such as streets and highways, fire relief, and flood control, including but not limited to police and fire state aid and out-of-home placement aid; and

(2) a current expenditures category, including and separately stating:

(i) "general government" defined as administration costs of city or county governments, including salaries of officials and maintenance of buildings;

(ii) "public safety" defined as costs related to the protection of persons and property, such as police, fire, ambulance services, building inspections, animal control, and flood control;

(iii) "streets and highways" defined as costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment, such as patching, seal coating, street lighting, street cleaning, and snow removal;

(iv) "sanitation" defined as costs of refuse collection and disposal, recycling, and weed and pest control;

(v) "human services" defined as activities designed to provide public assistance and institutional care for individuals economically unable to provide for themselves;

(vi) "health" defined as costs of the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics;

(vii) "culture and recreation" defined as costs of libraries, park maintenance, mowing, planting, removal of trees, festivals, bands, museums, community centers, cable television, baseball fields, and organized recreation activities;

(viii) "conservation of natural resources" defined as the conservation and development of natural resources, including agricultural and forestry programs and services, weed inspection services, and soil and water conservation services;

(ix) "economic development and housing" defined as costs for development and redevelopment activities in blighted or otherwise economically disadvantaged areas, including low-interest loans, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and other assistance to those wanting to provide housing and economic opportunity within a disadvantaged area; and

(x) "all other current expenditures" defined as costs not classified elsewhere, such as airport expenditures, cemeteries, unallocated insurance costs, unallocated pension costs, and public transportation costs.

(c) If a taxing authority reporting this data does not have revenues or expenditures in a category listed in paragraph (b), then the taxing authority must designate the amount as "0" for that specific category.

(d) The supplemental statement provided under this subdivision must be sent in electronic form or by e-mail if the taxpayer requests an electronic version the notice of proposed property taxes under subdivision 3, paragraph (a).

EFFECTIVE DATE. This section is effective for property taxes payable in 2022 and thereafter.

Sec. 24. Minnesota Statutes 2020, section 275.065, is amended by adding a subdivision to read:

The meeting shall be known as "Minnesota Property Taxpayer's Day."

(b) Counties must begin a meeting at 6:00 p.m. and discuss the county's budget and levy. The public must be allowed to speak no later than 20 minutes after the start of the meeting. Cities must begin a meeting to discuss their budget and levy at 7:00 p.m. and must allow the public to speak no later than 20 minutes after the start of the meeting. School districts must begin a meeting to discuss their budget and levy at 8:00 p.m. and must allow the public to speak no later than 20 minutes after the start of the meeting.

(c) Each taxing jurisdiction must broadcast the meeting virtually and provide a method for the public to participate in person and remotely. Sec. 26. Minnesota Statutes 2020, section 290A.25, is amended to read:

290A.25 VERIFICATION OF SOCIAL SECURITY NUMBERS.

Annually, the commissioner of revenue shall furnish a list to the county assessor containing the names ~~and~~, Social Security numbers, and individual tax identification numbers of persons who have applied for both homestead classification under section 273.13 and a property tax refund as a renter under this chapter.

Within 90 days of the notification, the county assessor shall investigate to determine if the homestead classification was improperly claimed. If the property owner does not qualify, the county assessor shall notify the county auditor who will determine the amount of homestead benefits that has been improperly allowed. For the purpose of this section, "homestead benefits" has the meaning given in section 273.124, subdivision 13b. The county auditor shall send a notice to persons who owned the affected property at the time the homestead application related to the improper homestead was filed, demanding reimbursement of the homestead benefits plus a penalty equal to 100 percent of the homestead benefits. The person notified may appeal the county's determination with the Minnesota Tax Court within 60 days of the date of the notice from the county as provided in section 273.124, subdivision 13b.

If the amount of homestead benefits and penalty is not paid within 60 days, and if no appeal has been filed, the county auditor shall certify the amount of taxes and penalty to the county treasurer. The county treasurer will add interest to the unpaid homestead benefits and penalty amounts at the rate provided for delinquent personal property taxes for the period beginning 60 days after demand for payment was made until payment. If the person notified is the current owner of the property, the treasurer may add the total amount of benefits, penalty, interest, and costs to the real estate taxes otherwise payable on the property in the following year. If the person notified is not the current owner of the property, the treasurer may collect the amounts due under the Revenue Recapture Act in chapter 270A, or use any of the powers granted in sections 277.20 and 277.21 without exclusion, to enforce payment of the benefits, penalty, interest, and costs, as if those amounts were delinquent tax obligations of the person who owned the property at the time the application related to the improperly allowed homestead was filed. The treasurer may relieve a prior owner of personal liability for the benefits, penalty, interest, and costs, and instead extend those amounts on the tax lists against the property for taxes payable in the following year to the extent that the current owner agrees in writing.

Any amount of homestead benefits recovered by the county from the property owner shall be distributed to the county, city or town, and school district where the property is located in the same proportion that each taxing district's levy was to the total of the three taxing districts' levy for the current year. Any amount recovered attributable to taconite homestead credit shall be transmitted to the St. Louis County auditor to be deposited in the taconite property tax relief account. Any amount recovered that is attributable to supplemental homestead credit is to be transmitted to the commissioner of revenue for deposit in the general fund of the state treasury. The total amount of penalty collected must be deposited in the county general fund.

EFFECTIVE DATE. This section is effective for lists furnished by the commissioner of revenue to county assessors in 2021 and thereafter.

Sec. 27. **[299O.01] FIRE PROTECTION SPECIAL TAXING DISTRICTS.**

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given unless the context clearly indicates otherwise.

(b) "City" means a statutory or home rule charter city.

(c) "Governing body" means for a city, the city council; for a county, the county board; and for a town, the board of supervisors.

(d) "Political subdivision" means a county, city, or township organized to provide town government.

Subd. 2. **Authority to establish.** (a) Two or more political subdivisions may establish, by resolution of their governing bodies, a special taxing district to provide fire protection or emergency medical services or both in the area of the district, comprising the jurisdiction of each of the political subdivisions forming the district. For a county that participates in establishing a district, the county's jurisdiction comprises the unorganized territory of the county that it designates in its resolution for inclusion in the district. The area of the special taxing district does not need to be contiguous or its boundaries continuous.

(b) Before establishing a district under this section, the participating political subdivisions must enter an agreement that specifies how any liabilities, other than debt issued under subdivision 6, and assets of the district will be distributed if the district is dissolved. The agreement may also include other terms, including a method for apportioning the levy of the district among participating political subdivisions under subdivision 4, paragraph (b), as the political subdivisions determine appropriate. The agreement must be adopted no later than upon passage of the resolution establishing the district under paragraph (a), but may be later amended by agreement of each of the political subdivisions participating in the district.

(c) If the special taxing district includes the operation of a fire department, the resolution under paragraph (a) or agreement under paragraph (b) must specify which, if any, volunteer firefighter pension plan is associated with the district. A special taxing district that operates a fire department under this section may be associated with only one volunteer firefighting relief association or one account in the voluntary statewide volunteer firefighting retirement plan at one time.

(d) If the special taxing district includes the operation of a fire department, it must file its resolution establishing the fire protection special taxing district, and any agreements required for the establishment of the special taxing district, with the commissioner of revenue, including any amendments to those documents. If the resolution or agreement does not include sufficient information defining the fire department service area of the fire protection special taxing district, the secretary of the district board must file a written statement with the commissioner defining the fire department service area.

Subd. 3. **Board.** The special taxing district established under this section is governed by a board made up initially of representatives of each participating political subdivision in the proportions set out in the establishing resolution, subject to change as provided in the district's charter, if any, or in the district's bylaws. Each participating political subdivision's representative must be an elected member of the governing body of the political subdivision and serves at the pleasure of that participant's governing body.

Subd. 4. **Property tax levy.** (a) The board may levy a tax on the taxable real and personal property in the district. The proceeds of the levy must be used as provided in subdivision 5. The board shall certify the levy at the times provided under section 275.07. The board shall provide the county with whatever information is necessary to identify the property that is located within the district. If the boundaries include a part of a parcel, the entire parcel is included in the district. The county auditor must spread, collect, and distribute the proceeds of the tax at the same time and in the same manner as provided by law for all other property taxes.

(b) As an alternative to paragraph (a), the board may apportion its levy among the political subdivisions that are members of the district under a formula or method, such as population, number of service calls, cost of providing service, the market value of improvements, or other measure or measures, that was approved by the governing body of each of the political subdivisions that is a member of the district. The amount of the levy allocated to each political subdivision must be added to that political subdivision's levy and spread at the same time and in the same manner as provided by law for other taxes. The proceeds of the levy must be collected and remitted to the district and used as provided in subdivision 5.

Subd. 5. **Use of levy proceeds.** The proceeds of property taxes levied under this section must be used to provide fire protection or emergency medical services to residents of the district and property located in the district, as well as to pay debt issued under subdivision 6. Services may be provided by employees of the district or by contracting for services provided by other governmental or private entities.

Subd. 6. **Debt.** (a) The district may incur debt under chapter 475 when the board determines doing so is necessary to accomplish its duties.

(b) In addition, the board of the district may issue certificates of indebtedness or capital notes under section 412.301 to purchase capital equipment. In applying section 412.301, paragraph (e), to the district the following rules apply:

(1) the taxable property of the entire district must be used to calculate the percent of estimated market value; and

(2) "the number of voters at the last municipal election" means the sum of the number of voters at the last municipal election for each of the cities that is a member of the district plus the number of registered voters in each town that is a participating member of the district.

Subd. 7. **Powers.** (a) In addition to authority expressly granted in this section, a special taxing district may exercise any power that may be exercised by any of its participating political subdivisions and that is necessary or reasonable to support the services set out in subdivision 5. The district may only levy the taxes authorized in subdivision 4. These powers include, without limitation, the authority to participate in state programs and to enforce or carry out state laws related to fire protection or emergency medical services, including programs providing state aid, reimbursement or funding of employee benefits, authorizing local enforcement of state standards, and similar, to the extent the special taxing district meets the qualification criteria and requirements of a program. These include but are not limited to fire protection related programs and political subdivision powers or responsibilities under chapters 299A, 424A, and 477B; sections 6.495, 353.64, and 423A.022; and any administrative rules related to the fire code.

(b) To the extent that the district's authority under this subdivision overlaps with or may conflict with the authority of the participating political subdivision, the agreement under subdivision 2, paragraph (b), must provide for allocation of those powers or responsibilities between the participating political subdivisions and the district and may provide for resolution of conflicts in the exercise of those powers.

Subd. 8. **Additions and withdrawals.** (a) The board of the district may add additional eligible political subdivisions to a special taxing district under this section. The governing body of the proposed eligible political subdivision must agree to the addition in a resolution of its governing body. No political subdivision may be added to the district if it would cause the district to be out of compliance with subdivision 2, paragraph (c).

(b) A political subdivision may withdraw from a special taxing district under this section by resolution of its governing body. The political subdivision must notify the board of the special taxing district of the withdrawal by providing a copy of the resolution at least two years in advance of the proposed withdrawal. The taxable property of the withdrawing member is subject to the property tax levy under subdivision 4 for the two taxes payable years

following the notice of the withdrawal, unless the board and the withdrawing member agree otherwise by a resolution adopted by each of their governing bodies. If a political subdivision withdraws from a district for which debt was issued under subdivision 6 when the political subdivision was a participating member of the district and which is outstanding when the political subdivision withdraws from the district, the taxable property of the withdrawing political subdivision remains subject to the special taxing district debt levy until that outstanding debt has been paid or defeased. If the district's property levy to repay the debt was apportioned among the political subdivisions under an alternative formula or method under subdivision 4, paragraph (b), the withdrawing political subdivision is subject to the same percentage of the debt levy as applied in the taxes payable year immediately before its withdrawal from the district.

(c) Notwithstanding subdivision 2, a special taxing district comprised of two political subdivisions continues to exist even if one of the political subdivisions withdraws.

Subd. 9. **Dissolution.** The special taxing district may be dissolved by resolution approved by majority vote of the board. If the special taxing district is dissolved, the assets and liabilities may be assigned to a successor entity, if any, or otherwise disposed of for public purposes as provided in the agreement adopted under subdivision 2, paragraph (b), or otherwise agreed to by the participating political subdivisions. A district may not be dissolved until all debt issued under subdivision 6 has been paid or defeased.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 29. Minnesota Statutes 2020, section 429.031, subdivision 3, is amended to read:

Subd. 3. **Petition by all owners.** Whenever all owners of real property abutting upon any street named as the location of any improvement shall petition the council to construct the improvement and to assess the entire cost against their property, the council may, without a public hearing, adopt a resolution determining such fact and ordering the improvement. The validity of the resolution shall not be questioned by any taxpayer or property owner or the municipality unless an action for that purpose is commenced within 30 days after adoption of the resolution as provided in section 429.036. Nothing herein prevents any property owner from questioning the amount or validity of the special assessment against the owner's property pursuant to section 429.081. In the case of a petition for the municipality to own and install a fire protection system, energy improvement projects, a pedestrian skyway system, or on-site water contaminant improvements, the petition must contain or be accompanied by an undertaking satisfactory to the city by the petitioner that the petitioner will grant the municipality the necessary property interest in the building to permit the city to enter upon the property and the building to construct, maintain, and operate the fire protection system, energy improvement projects, pedestrian skyway system, or on-site water contaminant improvements. In the case of a petition for the installation of a fire protection system, energy improvement projects, a pedestrian skyway system, or on-site water contaminant improvements, the petitioner may request abandonment of the improvement at any time after it has been ordered pursuant to subdivision 1 and before contracts have been awarded for the construction of the improvement under section 429.041, subdivision 2. If such a request is received, the city council shall abandon the proceedings but in such case the petitioner shall reimburse the city for any and all expenses incurred by the city in connection with the improvement.

Sec. 30. Laws 2009, chapter 88, article 2, section 46, subdivision 3, as amended by Laws 2013, chapter 143, article 4, section 37, and Laws 2019, First Special Session chapter 6, article 4, section 34, is amended to read:

Subd. 3. **Tax.** The district board may impose a property tax on taxable property as provided in this subdivision to pay the costs of providing fire or ambulance services, or both, throughout the district. The board shall annually determine the total amount of the levy that is attributable to the cost of providing fire services and the cost of providing ambulance services within the primary service area. ~~For those municipalities that only receive ambulance services, the costs for the provision of ambulance services shall be levied against taxable property within those municipalities at a rate necessary not to exceed 0.019 percent of the estimated market value. For those municipalities that receive both fire and ambulance services, the tax shall be imposed at a rate that does not exceed 0.2835 percent of estimated market value.~~

When a member municipality opts to receive fire service from the district or an additional municipality becomes a member of the district, the cost of providing fire services to that community shall be determined by the board ~~and added to the maximum levy amount~~.

Each county auditor of a county that contains a municipality subject to the tax under this section must collect the tax and pay it to the Fire and Ambulance Special Taxing District. The district may also impose other fees or charges as allowed by law for the provision of fire and ambulance services.

Section 1. Minnesota Statutes 2020, section 469.176, is amended by adding a subdivision to read:

Subd. 4n. **Temporary use of increment authorized.** (a) Notwithstanding any other provision of this section or any other law to the contrary, except the requirements to pay bonds to which increments are pledged, the authority may elect by resolution to transfer unobligated increments from a district either (1) to the municipality for deposit into the municipality's general fund upon the request of the municipality, or (2) to provide improvements, loans, interest rate subsidies, or assistance in any form to businesses impacted by COVID-19. The authority may transfer increments under this subdivision after the spending plan and public hearing requirements under paragraph (c) are met. The municipality may expend transferred increments under clause (1) for any purpose permitted under the municipality's general fund.

(b) For each calendar year for which transfers are permitted under this subdivision, the maximum transfer equals the excess of the district's unobligated increments which includes any increment not required for payments of obligations due during the six months following the transfer on outstanding bonds, binding contracts, and other outstanding financial obligations of the district to which the district's increments are pledged.

(c) The authority may transfer increments permitted under this subdivision after creating a written spending plan that authorizes the authority to take the action described in paragraph (a) and details the use of transferred increments. Additionally, the municipality must approve the authority's spending plan after holding a public hearing. The municipality must publish notice of the hearing in a newspaper of general circulation in the municipality and on the municipality's public website at least ten days, but not more than 30 days, prior to the date of the hearing.

(d) Increment that is improperly retained, received, spent, or transferred is not eligible for a transfer under this subdivision.

(e) An authority making a transfer under this subdivision must provide to the Office of the State Auditor a copy of the spending plan approved and signed by the municipality.

(f) The authority to transfer increments under this subdivision expires on December 31, 2022. All transferred increments must be spent by December 31, 2022. If the municipality cannot spend the transferred increments by December 31, 2022, the municipality must adopt a spending plan that details the use of transferred increments, and must provide a copy of this spending plan to the Office of the State Auditor.

EFFECTIVE DATE; APPLICATION. This section is effective the day following final enactment and applies to increments from any district that are unobligated as of the date of final enactment regardless of when the authority made a request for certification.

Sec. 2. Minnesota Statutes 2020, section 469.1763, subdivision 2, is amended to read:

Subd. 2. **Expenditures outside district.** (a) For each tax increment financing district, an amount equal to at least 75 percent of the total revenue derived from tax increments paid by properties in the district must be expended on activities in the district or to pay bonds, to the extent that the proceeds of the bonds were used to finance activities in the district or to pay, or secure payment of, debt service on credit enhanced bonds. For districts, other than redevelopment districts for which the request for certification was made after June 30, 1995, the in-district percentage for purposes of the preceding sentence is 80 percent. Not more than 25 percent of the total revenue derived from tax increments paid by properties in the district may be expended, through a development fund or otherwise, on activities outside of the district but within the defined geographic area of the project except to pay, or secure payment of, debt service on credit enhanced bonds. For districts, other than redevelopment districts for which the request for certification was made after June 30, 1995, the pooling percentage for purposes of the preceding sentence is 20 percent. The revenues derived from tax increments paid by properties in the district that are expended on costs under section 469.176, subdivision 4h, paragraph (b), may be deducted first before calculating the percentages that must be expended within and without the district.

(b) In the case of a housing district, ~~a housing project, as defined in section 469.174, subdivision 11, is an activity in the district.~~ the following are considered to be activities in the district:

(1) a housing project, as defined in section 469.174, subdivision 11; and

(2) a transfer of increments to an affordable housing trust fund established pursuant to section 462C.16, for expenditures made in conformity with the political subdivision's ordinance and policy establishing the trust fund. Any transfers made pursuant to this clause are not subject to the annual reporting requirements imposed by section 469.175, subdivision 6, except that the amount of any transfer must be reported.

(c) All administrative expenses are for activities outside of the district, except that if the only expenses for activities outside of the district under this subdivision are for the purposes described in paragraph (d), administrative expenses will be considered as expenditures for activities in the district.

(d) The authority may elect, in the tax increment financing plan for the district, to increase by up to ~~ten~~ 25 percentage points the permitted amount of expenditures for activities located outside the geographic area of the district under paragraph (a). As permitted by section 469.176, subdivision 4k, the expenditures, including the permitted expenditures under paragraph (a), need not be made within the geographic area of the project. Expenditures that meet the requirements of this paragraph are legally permitted expenditures of the district, notwithstanding section 469.176, subdivisions 4b, 4c, and 4j. To qualify for the increase under this paragraph, the expenditures must:

(1) be used ~~exclusively~~ to assist housing that meets the requirement for a qualified low-income building, as that term is used in section 42 of the Internal Revenue Code, or to assist owner-occupied housing that meets the requirements of section 469.1761; ~~and~~

(2) not exceed the qualified basis of the housing, as defined under section 42(c) of the Internal Revenue Code, less the amount of any credit allowed under section 42 of the Internal Revenue Code; and

(3) be used to:

(i) acquire and prepare the site of the housing;

(ii) acquire, construct, or rehabilitate the housing; or

(iii) make public improvements directly related to the housing; or

(4) be used to develop housing:

(i) if the market value of the housing does not exceed the lesser of:

(A) 150 percent of the average market value of single-family homes in that municipality; or

(B) $200,000 for municipalities located in the metropolitan area, as defined in section 473.121, or $125,000 for all other municipalities; and

(ii) if the expenditures are used to pay the cost of site acquisition, relocation, demolition of existing structures, site preparation, and pollution abatement on one or more parcels, if the parcel contains a residence containing one to four family dwelling units that has been vacant for six or more months and is in foreclosure as defined in section 325N.10, subdivision 7, but without regard to whether the residence is the owner's principal residence, and only after the redemption period has expired.

(e) The authority under paragraph (d), clause (4), expires on December 31, 2016. Increments may continue to be expended under this authority after that date, if they are used to pay bonds or binding contracts that would qualify under subdivision 3, paragraph (a), if December 31, 2016, is considered to be the last date of the five-year period after certification under that provision.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2020, section 469.1763, subdivision 3, is amended to read:

Subd. 3. **Five-year rule.** (a) Revenues derived from tax increments paid by properties in the district are considered to have been expended on an activity within the district under subdivision 2 only if one of the following occurs:

(1) before or within five years after certification of the district, the revenues are actually paid to a third party with respect to the activity;

(2) bonds, the proceeds of which must be used to finance the activity, are issued and sold to a third party before or within five years after certification, the revenues are spent to repay the bonds, and the proceeds of the bonds either are, on the date of issuance, reasonably expected to be spent before the end of the later of (i) the five-year period, or (ii) a reasonable temporary period within the meaning of the use of that term under section 148(c)(1) of the Internal Revenue Code, or are deposited in a reasonably required reserve or replacement fund;

(3) binding contracts with a third party are entered into for performance of the activity before or within five years after certification of the district and the revenues are spent under the contractual obligation;

(4) costs with respect to the activity are paid before or within five years after certification of the district and the revenues are spent to reimburse a party for payment of the costs, including interest on unreimbursed costs; or

(5) expenditures are made for housing purposes as permitted by subdivision 2, paragraphs (b) and (d), or for public infrastructure purposes within a zone as permitted by subdivision 2, paragraph (e).

(b) For purposes of this subdivision, bonds include subsequent refunding bonds if the original refunded bonds meet the requirements of paragraph (a), clause (2).

(c) For a redevelopment district or a renewal and renovation district certified after June 30, 2003, and before April 20, 2009, the five-year periods described in paragraph (a) are extended to ten years after certification of the district. For a redevelopment district certified after April 20, 2009, and before June 30, 2012, the five-year periods described in paragraph (a) are extended to eight years after certification of the district. This extension is provided primarily to accommodate delays in development activities due to unanticipated economic circumstances.

(d) For a redevelopment district that was certified after December 31, 2017, the five-year periods described in paragraph (a) are extended to ten years after certification of the district.

EFFECTIVE DATE. This section is effective the day following final enactment.

(1) outstanding bonds, as defined in subdivision 3, paragraphs (a), clause (2), and (b);

(2) contracts, as defined in subdivision 3, paragraph (a), clauses (3) and (4);

(3) credit enhanced bonds to which the revenues derived from tax increments are pledged, but only to the extent that revenues of the district for which the credit enhanced bonds were issued are insufficient to pay the bonds and to the extent that the increments from the applicable pooling percent share for the district are insufficient; or

(4) the amount provided by the tax increment financing plan to be paid under subdivision 2, paragraphs (b), (d), and (e).

(b) The district must be decertified and the pledge of tax increment discharged when the outstanding bonds have been defeased and when sufficient money has been set aside to pay, based on the increment to be collected through the end of the calendar year, the following amounts:

(1) contractual obligations as defined in subdivision 3, paragraph (a), clauses (3) and (4);

(2) the amount specified in the tax increment financing plan for activities qualifying under subdivision 2, paragraph (b), that have not been funded with the proceeds of bonds qualifying under paragraph (a), clause (1); and

For all other modifications, the ordinance modifying the district may be adopted following the notice and veto requirements in section 428B.08.

EFFECTIVE DATE. This section is effective the day following final enactment.

ARTICLE 14
DEPARTMENT OF REVENUE POLICY AND TECHNICAL:
INCOME AND CORPORATE FRANCHISE TAXES

Section 1. Minnesota Statutes 2020, section 289A.08, subdivision 7, is amended to read:

Subd. 7. **Composite income tax returns for nonresident partners, shareholders, and beneficiaries.** (a) The commissioner may allow a partnership with nonresident partners to file a composite return and to pay the tax on behalf of nonresident partners who have no other Minnesota source income. This composite return must include the names, addresses, Social Security numbers, income allocation, and tax liability for the nonresident partners electing to be covered by the composite return.

(b) The computation of a partner's tax liability must be determined by multiplying the income allocated to that partner by the highest rate used to determine the tax liability for individuals under section 290.06, subdivision 2c. Nonbusiness deductions, standard deductions, or personal exemptions are not allowed.

(c) The partnership must submit a request to use this composite return filing method for nonresident partners. The requesting partnership must file a composite return in the form prescribed by the commissioner of revenue. The filing of a composite return is considered a request to use the composite return filing method.

(d) The electing partner must not have any Minnesota source income other than the income from the partnership and other electing partnerships. If it is determined that the electing partner has other Minnesota source income, the inclusion of the income and tax liability for that partner under this provision will not constitute a return to satisfy the requirements of subdivision 1. The tax paid for the individual as part of the composite return is allowed as a payment of the tax by the individual on the date on which the composite return payment was made. If the electing nonresident partner has no other Minnesota source income, filing of the composite return is a return for purposes of subdivision 1.

(e) This subdivision does not negate the requirement that an individual pay estimated tax if the individual's liability would exceed the requirements set forth in section 289A.25. The individual's liability to pay estimated tax is, however, satisfied when the partnership pays composite estimated tax in the manner prescribed in section 289A.25.

(f) If an electing partner's share of the partnership's gross income from Minnesota sources is less than the filing requirements for a nonresident under this subdivision, the tax liability is zero. However, a statement showing the partner's share of gross income must be included as part of the composite return.

(g) The election provided in this subdivision is only available to a partner who has no other Minnesota source income and who is either (1) a full-year nonresident individual or (2) a trust or estate that does not claim a deduction under either section 651 or 661 of the Internal Revenue Code.

(h) A corporation defined in section 290.9725 and its nonresident shareholders may make an election under this paragraph. The provisions covering the partnership apply to the corporation and the provisions applying to the partner apply to the shareholder.

(i) Estates and trusts distributing current income only and the nonresident individual beneficiaries of the estates or trusts may make an election under this paragraph. The provisions covering the partnership apply to the estate or trust. The provisions applying to the partner apply to the beneficiary.

(j) For the purposes of this subdivision, "income" means the partner's share of federal adjusted gross income from the partnership modified by the additions provided in section 290.0131, subdivisions 8 to 10 ~~and~~, 16, and 17, and the subtractions provided in: (1) section 290.0132, ~~subdivision~~ subdivisions 9, 27, and 28, to the extent the

amount is assignable or allocable to Minnesota under section 290.17; and (2) section 290.0132, subdivision 14. The subtraction allowed under section 290.0132, subdivision 9, is only allowed on the composite tax computation to the extent the electing partner would have been allowed the subtraction.

EFFECTIVE DATE. This section is effective retroactively for taxable years beginning after December 31, 2015.

Sec. 2. Minnesota Statutes 2020, section 289A.09, subdivision 2, is amended to read:

(1) name of the person;

(2) the name of the employee or payee and the employee's or payee's Social Security account number;

(3) the total amount of wages as that term is defined in section 290.92, subdivision 1, paragraph (1); the total amount of remuneration subject to withholding under section 290.92, subdivision 20; the amount of sick pay as required under section 6051(f) of the Internal Revenue Code; and the amount of royalties subject to withholding under section 290.923, subdivision 2; and

(4) the total amount deducted and withheld as tax under section 290.92, subdivision 2a or 3, or 290.923, subdivision 2.

(b) The statement required to be furnished by paragraph (a) with respect to any remuneration must be furnished at those times, must contain the information required, and must be in the form the commissioner prescribes.

(c) The commissioner may prescribe rules providing for reasonable extensions of time, not in excess of 30 days, to employers or payers required to give the statements to their employees or payees under this subdivision.

(d) A duplicate of any statement made under this subdivision and in accordance with rules prescribed by the commissioner must be filed with the commissioner on or before January 31 of the year after the payments were made.

(e) If an employer cancels the employer's Minnesota withholding account number required by section 290.92, subdivision 24, the information required by paragraph (d), must be filed with the commissioner within 30 days of the end of the quarter in which the employer cancels its account number.

(f) The employer must submit the statements required to be sent to the commissioner. The commissioner shall prescribe the content, format, and manner of the statement pursuant to section 270C.30.

(g) A "third-party bulk filer" as defined in section 290.92, subdivision 30, paragraph (a), clause (2), must submit the returns required by this subdivision and subdivision 1, paragraph (a), with the commissioner by electronic means.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

Sec. 3. Minnesota Statutes 2020, section 290.0121, subdivision 3, is amended to read:

Subd. 3. **Inflation adjustment.** For taxable years beginning after December 31, 2019, the commissioner must adjust for inflation the exemption amount in subdivision 1, paragraph (b), and the threshold amounts in subdivision 2, as provided in section 270C.22. The statutory year is taxable year 2019. The amounts as adjusted must be rounded down to the nearest $50 amount. ~~If the amount ends in $25, the amount is rounded down to the nearest $50 amount.~~ The threshold amount for married individuals filing separate returns must be one-half of the adjusted amount for married individuals filing joint returns.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2020, section 290.92, subdivision 1, is amended to read:

Subdivision 1. **Definitions.** (1) **Wages.** For purposes of this section, the term "wages" means the same as that term is defined in section 3401(a), (f), and (i) of the Internal Revenue Code.

(3) **Employee.** For purposes of this section the term "employee" means any resident individual performing services for an employer, either within or without, or both within and without the state of Minnesota, and every nonresident individual performing services within the state of Minnesota, the performance of which services constitute, establish, and determine the relationship between the parties as that of employer and employee. As used in the preceding sentence, the term "employee" includes an officer of a corporation, and an officer, employee, or elected official of the United States, a state, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing.

(4) **Employer.** For purposes of this section the term "employer" means any person, including individuals, fiduciaries, estates, trusts, partnerships, limited liability companies, and corporations transacting business in or deriving any income from sources within the state of Minnesota for whom an individual performs or performed any service, of whatever nature, as the employee of such person, except that if the person for whom the individual performs or performed the services does not have control of the payment of the wages for such services, the term "employer," except for purposes of paragraph (1), means the person having control of the payment of such wages. As used in the preceding sentence, the term "employer" includes any corporation, individual, estate, trust, or organization which is exempt from taxation under section 290.05 and further includes, but is not limited to, officers of corporations who have control, either individually or jointly with another or others, of the payment of the wages.

Subd. 2a. **Collection at source.** (1) **Deductions.** Every employer making payment of wages shall deduct and withhold upon such wages a tax as provided in this section.

(2) **Withholding on payroll period.** The employer shall withhold the tax on the basis of each payroll period or as otherwise provided in this section.

(3) **Withholding tables.** Unless the amount of tax to be withheld is determined as provided in subdivision 3, the amount of tax to be withheld for each individual shall be based upon tables to be prepared and distributed by the commissioner. The tables shall be computed for the several permissible withholding periods and shall take account of ~~exemptions~~ allowances allowed under this section; and the amounts computed for withholding shall be such that the amount withheld for any individual during the individual's taxable year shall approximate in the aggregate as closely as possible the tax which is levied and imposed under this chapter for that taxable year, upon the individual's salary, wages, or compensation for personal services of any kind for the employer.

(4) **Miscellaneous payroll period.** If wages are paid with respect to a period which is not a payroll period, the amount to be deducted and withheld shall be that applicable in the case of a miscellaneous payroll period containing a number of days, including Sundays and holidays, equal to the number of days in the period with respect to which such wages are paid.

(5) **Miscellaneous payroll period.** (a) In any case in which wages are paid by an employer without regard to any payroll period or other period, the amount to be deducted and withheld shall be that applicable in the case of a miscellaneous payroll period containing a number of days equal to the number of days, including Sundays and holidays, which have elapsed since the date of the last payment of such wages by such employer during the calendar year, or the date of commencement of employment with such employer during such year, or January 1 of such year, whichever is the later.

(b) In any case in which the period, or the time described in clause (a), in respect of any wages is less than one week, the commissioner, under rules prescribed by the commissioner, may authorize an employer to determine the amount to be deducted and withheld under the tables applicable in the case of a weekly payroll period, in which case the aggregate of the wages paid to the employee during the calendar week shall be considered the weekly wages.

(6) **Wages computed to nearest dollar.** If the wages exceed the highest bracket, in determining the amount to be deducted and withheld under this subdivision, the wages may, at the election of the employer, be computed to the nearest dollar.

(7) **Rules on withholding.** The commissioner may, by rule, authorize employers:

(a) to estimate the wages which will be paid to any employee in any quarter of the calendar year;

(b) to determine the amount to be deducted and withheld upon each payment of wages to such employee during such quarter as if the appropriate average of the wages so estimated constituted the actual wages paid; and

(c) to deduct and withhold upon any payment of wages to such employee during such quarter such amount as may be necessary to adjust the amount actually deducted and withheld upon wages of such employee during such quarter to the amount required to be deducted and withheld during such quarter without regard to this paragraph (7).

(8) **Additional withholding.** The commissioner is authorized to provide by rule for increases or decreases in the amount of withholding otherwise required under this section in cases where the employee requests the changes. Such additional withholding shall for all purposes be considered tax required to be deducted and withheld under this section.

(9) **Tips.** In the case of tips which constitute wages, this subdivision shall be applicable only to such tips as are included in a written statement furnished to the employer pursuant to section 6053 of the Internal Revenue Code and only to the extent that the tax can be deducted and withheld by the employer, at or after the time such statement is so furnished and before the close of the calendar year in which such statement is furnished, from such wages of the employee (excluding tips, but including funds turned over by the employee to the employer for the purpose of such deduction and withholding) as are under the control of the employer; and an employer who is furnished by an

employee a written statement of tips (received in a calendar month) pursuant to section 6053 of the Internal Revenue Code to which subdivision 1 is applicable may deduct and withhold the tax with respect to such tips from any wages of the employee (excluding tips) under the employer's control, even though at the time such statement is furnished the total amount of the tips included in statements furnished to the employer as having been received by the employee in such calendar month in the course of employment by such employer is less than $20. Such tax shall not at any time be deducted and withheld in an amount which exceeds the aggregate of such wages and funds as are under the control of the employer minus any tax required by other provisions of state or federal law to be collected from such wages and funds.

(10) **Vehicle fringe benefits.** An employer shall not deduct and withhold any tax under this section with respect to any vehicle fringe benefit provided to an employee if the employer has so elected for federal purposes and the requirement of and the definition contained in section 3402(s) of the Internal Revenue Code are complied with.

EFFECTIVE DATE. This section is effective for taxable years beginning after December 31, 2020.

(b) The amount of tax withheld is determined by multiplying the partner's distributive share allocable to Minnesota under section 290.17, paid or credited during the taxable year by the highest rate used to determine the income tax liability for an individual under section 290.06, subdivision 2c, except that the amount of tax withheld may be determined by the commissioner if the partner submits a withholding ~~exemption~~ allowance certificate under subdivision 5.

(c) The commissioner may reduce or abate the tax withheld under this subdivision if the partnership had reasonable cause to believe that no tax was due under this section.

(d) Notwithstanding paragraph (a), a partnership is not required to deduct and withhold tax for a nonresident partner if:

The lien arises under section 270C.63 from the date of assessment of the tax against the partner, and attaches to that partner's share of the profits and any other money due or to become due to that partner in respect of the partnership. Notice of the lien may be sent by mail to the partnership, without the necessity for recording the lien. The notice has the force and effect of a levy under section 270C.67, and is enforceable against the partnership in the manner provided by that section. The commissioner shall adjust the amounts based on the index as provided in this section. For purposes of this section, "index" means the Chained Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics. The values of the index used to determine the adjustments under this section are the latest published values when the Bureau of Labor Statistics publishes the initial value of the index for August of the year preceding the year to which the adjustment applies.

For each subsequent taxable year, the commissioner shall increase the dollar amounts by the percentage change in the index from August 31 of the year preceding the statutory year to August 31 of the year preceding the taxable year.

(d) To determine the dollar amounts for refunds payable in 2020 under chapter 290A, the commissioner shall determine the percentage change in the index for the 12-month period ending on August 31, 2019, and increase each of the unrounded dollar amounts in the sections referencing this section by that percentage change. For each subsequent year, the commissioner shall increase the dollar amounts by the percentage change in the index from August 31 of the ~~year preceding the~~ statutory year to August 31 of the year preceding the year in which refunds are payable.

(b) The board shall consider requests by the public for the board to proceed with a cost review of any prescription drug product identified under this section.

(c) If there is no consensus among the members of the board with respect to whether or not to initiate a cost review of a prescription drug product, any member of the board may request a vote to determine whether or not to review the cost of the prescription drug product.

Sec. 7. **[62J.91] PRESCRIPTION DRUG PRODUCT REVIEWS.**

Subdivision 1. **General.** Once a decision by the board has been made to proceed with a cost review of a prescription drug product, the board shall conduct the review and make a determination as to whether appropriate utilization of the prescription drug under review, based on utilization that is consistent with the United States Food and Drug Administration (FDA) label or standard medical practice, has led or will lead to affordability challenges for the state health care system or for patients.

Subd. 2. **Review considerations.** In reviewing the cost of a prescription drug product, the board may consider the following factors:

(1) the price at which the prescription drug product has been and will be sold in the state;

(2) the average monetary price concession, discount, or rebate the manufacturer provides to a group purchaser in this state as reported by the manufacturer and the group purchaser expressed as a percent of the WAC for prescription drug product under review;

(3) the price at which therapeutic alternatives have been or will be sold in the state;

(4) the average monetary price concession, discount, or rebate the manufacturer provides or is expected to provide to a group purchaser in the state or is expected to provide to group purchasers in the state for therapeutic alternatives;

(5) the cost to group purchasers based on patient access consistent with the United States Food and Drug Administration (FDA) labeled indications;

(6) the impact on patient access resulting from the cost of the prescription drug product relative to insurance benefit design;

(7) the current or expected dollar value of drug-specific patient access programs that are supported by manufacturers;

(8) the relative financial impacts to health, medical, or other social services costs that can be quantified and compared to baseline effects of existing therapeutic alternatives;

(9) the average patient co-pay or other cost-sharing for the prescription drug product in the state;

(10) any information a manufacturer chooses to provide; and

(11) any other factors as determined by the board.

Subd. 3. **Further review factors.** If, after considering the factors described in subdivision 2, the board is unable to determine whether a prescription drug product will produce or has produced an affordability challenge, the board may consider:

(1) manufacturer research and development costs, as indicated on the manufacturer's federal tax filing for the most recent tax year in proportion to the manufacturer's sales in the state;

(2) that portion of direct-to-consumer marketing costs eligible for favorable federal tax treatment in the most recent tax year that are specific to the prescription drug product under review and that are multiplied by the ratio of total manufacturer in-state sales to total manufacturer sales in the United States for the product under review;

(3) gross and net manufacturer revenues for the most recent tax year;

(4) any information and research related to the manufacturer's selection of the introductory price or price increase, including but not limited to:

(i) life cycle management;

(ii) market competition and context; and

(iii) projected revenue; and

(5) any additional factors determined by the board to be relevant.

Subd. 4. **Public data; proprietary information.** (a) Any submission made to the board related to a drug cost review shall be made available to the public, with the exception of information determined by the board to be proprietary.

(b) The board shall establish the standards for the information to be considered proprietary under paragraph (a) and section 62J.90, subdivision 2, including standards for heightened consideration of proprietary information for submissions for a cost review of a drug that is not yet approved by the FDA.

(c) Prior to the board establishing the standards under paragraph (b), the public shall be provided notice and the opportunity to submit comments.

Sec. 8. **[62J.92] DETERMINATIONS; COMPLIANCE; REMEDIES.**

Subdivision 1. **Upper payment limit.** (a) In the event the board finds that the spending on a prescription drug product reviewed under section 62J.91 creates an affordability challenge for the state health care system or for patients, the board shall establish an upper payment limit after considering:

(1) the cost to administer the drug;

(2) the cost to deliver the drug to consumers;

(3) the range of prices at which the drug is sold in the United States according to one or more pricing files accessed under section 62J.90, subdivision 1, and the range at which pharmacies are reimbursed in Canada; and

(4) any other relevant pricing and administrative cost information for the drug.

(b) The upper payment limit shall apply to all public and private purchases, payments, and payer reimbursements for the prescription drug product that is intended for individuals in the state in person, by mail, or by other means.

Subd. 2. **Noncompliance.** (a) The failure of an entity to comply with an upper payment limit established by the board under this section shall be referred to the Office of the Attorney General.

(b) If the Office of the Attorney General finds that an entity was noncompliant with the upper payment limit requirements, the attorney general may pursue remedies consistent with chapter 8 or appropriate criminal charges if there is evidence of intentional profiteering.

(c) An entity who obtains price concessions from a drug manufacturer that result in a lower net cost to the stakeholder than the upper payment limit established by the board shall not be considered to be in noncompliance.

(d) The Office of the Attorney General may provide guidance to stakeholders concerning activities that could be considered noncompliant.

Subd. 3. **Appeals.** (a) A person affected by a decision of the board may request an appeal of the board's decision within 30 days of the date of the decision. The board shall hear the appeal and render a decision within 60 days of the hearing.

(b) All appeal decisions are subject to judicial review in accordance with chapter 14.

Sec. 9. **[62J.93] REPORTS.**

Beginning March 1, 2022, and each March 1 thereafter, the board shall submit a report to the governor and legislature on general price trends for prescription drug products and the number of prescription drug products that were subject to the board's cost review and analysis, including the result of any analysis as well as the number and disposition of appeals and judicial reviews.

Sec. 10. **[62J.94] ERISA PLANS AND MEDICARE DRUG PLANS.**

(a) Nothing in sections 62J.85 to 62J.95 shall be construed to require ERISA plans or Medicare Part D plans to comply with decisions of the board, but are free to choose to exceed the upper payment limit established by the board under section 62J.92.

(b) Providers who dispense and administer drugs in the state must bill all payers no more than the upper payment limit without regard to whether or not an ERISA plan or Medicare Part D plan chooses to reimburse the provider in an amount greater than the upper payment limit established by the board.

(c) For purposes of this section, an ERISA plan or group health plan is an employee welfare benefit plan established by or maintained by an employer or an employee organization, or both, that provides employer sponsored health coverage to employees and the employee's dependents and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Sec. 11. **[62J.95] SEVERABILITY.**

If any provision of sections 62J.85 to 62J.94 or the application of sections 62J.85 to 62J.94 to any person or circumstance is held invalid for any reason in a court of competent jurisdiction, the invalidity does not affect other provisions or any other application of sections 62J.85 to 62J.94 that can be given effect without the invalid provision or application.

ARTICLE 3
INSURANCE

Section 1. Minnesota Statutes 2020, section 60A.092, subdivision 10a, is amended to read:

Subd. 10a. **Other jurisdictions.** The reinsurance is ceded and credit allowed to an assuming insurer not meeting the requirements of subdivision 2, 3, 4, 5, ~~or~~ 10, or 10b, but only with respect to the insurance of risks located in jurisdictions where the reinsurance is required by applicable law or regulation of that jurisdiction.

EFFECTIVE DATE. This section is effective January 1, 2022, and applies to reinsurance contracts entered into or renewed on or after that date.

Sec. 2. Minnesota Statutes 2020, section 60A.092, is amended by adding a subdivision to read:

Subd. 10b. **Credit allowed; reciprocal jurisdiction.** (a) Credit shall be allowed when the reinsurance is ceded to an assuming insurer meeting each of the following conditions:

(1) the assuming insurer must have its head office in or be domiciled in, as applicable, and be licensed in a reciprocal jurisdiction. A "reciprocal jurisdiction" means a jurisdiction that is:

(i) a non-United States jurisdiction that is subject to an in-force covered agreement with the United States, each within its legal authority, or, in the case of a covered agreement between the United States and the European Union, is a member state of the European Union. For purposes of this subdivision, a "covered agreement" means an agreement entered into pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, United States Code, title 31, sections 313 and 314, that is currently in effect or in a period of provisional application and addresses the elimination, under specified conditions, of collateral requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in Minnesota or for allowing the ceding insurer to recognize credit for reinsurance;

(ii) a United States jurisdiction that meets the requirements for accreditation under the National Association of Insurance Commissioners (NAIC) financial standards and accreditation program; or

(iii) a qualified jurisdiction, as determined by the commissioner, which is not otherwise described in item (i) or (ii) and which meets the following additional requirements, consistent with the terms and conditions of in-force covered agreements:

(A) provides that an insurer which has its head office or is domiciled in such qualified jurisdiction shall receive credit for reinsurance ceded to a United States-domiciled assuming insurer in the same manner as credit for reinsurance is received for reinsurance assumed by insurers domiciled in such qualified jurisdiction;

(B) does not require a United States-domiciled assuming insurer to establish or maintain a local presence as a condition for entering into a reinsurance agreement with any ceding insurer subject to regulation by the non-United States jurisdiction or as a condition to allow the ceding insurer to recognize credit for such reinsurance;

(C) recognizes the United States state regulatory approach to group supervision and group capital, by providing written confirmation by a competent regulatory authority, in such qualified jurisdiction, that insurers and insurance groups that are domiciled or maintain their headquarters in this state or another jurisdiction accredited by the NAIC shall be subject only to worldwide prudential insurance group supervision including worldwide group governance, solvency and capital, and reporting, as applicable, by the commissioner or the commissioner of the domiciliary state and will not be subject to group supervision at the level of the worldwide parent undertaking of the insurance or reinsurance group by the qualified jurisdiction; and

(D) provides written confirmation by a competent regulatory authority in such qualified jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated entities, if applicable, shall be provided to the commissioner in accordance with a memorandum of understanding or similar document between the commissioner and such qualified jurisdiction, including but not limited to the International Association of Insurance Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda of understanding coordinated by the NAIC;

(2) the assuming insurer must have and maintain, on an ongoing basis, minimum capital and surplus, or its equivalent, calculated according to the methodology of its domiciliary jurisdiction, on at least an annual basis as of the preceding December 31 or on the date otherwise statutorily reported to the reciprocal jurisdiction, in the following amounts:

(i) no less than $250,000,000; or

(ii) if the assuming insurer is an association, including incorporated and individual unincorporated underwriters:

(A) minimum capital and surplus equivalents, net of liabilities, or own funds of the equivalent of at least $250,000,000; and

(B) a central fund containing a balance of the equivalent of at least $250,000,000;

(3) the assuming insurer must have and maintain, on an ongoing basis, a minimum solvency or capital ratio, as applicable, as follows:

(i) if the assuming insurer has its head office or is domiciled in a reciprocal jurisdiction defined in clause (1), item (i), the ratio specified in the applicable covered agreement;

(ii) if the assuming insurer is domiciled in a reciprocal jurisdiction defined in clause (1), item (ii), a risk-based capital ratio of 300 percent of the authorized control level, calculated in accordance with the formula developed by the NAIC; or

(iii) if the assuming insurer is domiciled in a Reciprocal Jurisdiction defined in clause (1), item (iii), after consultation with the reciprocal jurisdiction and considering any recommendations published through the NAIC Committee Process, such solvency or capital ratio as the commissioner determines to be an effective measure of solvency;

(4) the assuming insurer must agree and provide adequate assurance in the form of a properly executed Form AR-1, Form CR-1, and Form RJ-1 of its agreement to the following:

(i) the assuming insurer must provide prompt written notice and explanation to the commissioner if it falls below the minimum requirements set forth in clause (2) or (3), or if any regulatory action is taken against the assuming insurer for serious noncompliance with applicable law;

(ii) the assuming insurer must consent in writing to the jurisdiction of the courts of Minnesota and to the appointment of the commissioner as agent for service of process. The commissioner may require that consent for service of process be provided to the commissioner and included in each reinsurance agreement. Nothing in this subdivision shall limit or in any way alter the capacity of parties to a reinsurance agreement to agree to alternative dispute resolution mechanisms, except to the extent such agreements are unenforceable under applicable insolvency or delinquency laws;

(iii) the assuming insurer must consent in writing to pay all final judgments, wherever enforcement is sought, obtained by a ceding insurer or its legal successor, that have been declared enforceable in the jurisdiction where the judgment was obtained;

(iv) each reinsurance agreement must include a provision requiring the assuming insurer to provide security in an amount equal to 100 percent of the assuming insurer's liabilities attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists enforcement of a final judgment that is enforceable under the law of the jurisdiction in which it was obtained or a properly enforceable arbitration award, whether obtained by the ceding insurer or by its legal successor on behalf of its resolution estate;

(v) the assuming insurer must confirm that it is not presently participating in any solvent scheme of arrangement which involves this state's ceding insurers, and agree to notify the ceding insurer and the commissioner and to provide security in an amount equal to 100 percent of the assuming insurer's liabilities to the ceding insurer, should the assuming insurer enter into such a solvent scheme of arrangement. The security shall be in a form consistent with sections 60A.092, subdivision 10, 60A.093, 60A.096, and 60A.097. For purposes of this section, the term "solvent scheme of arrangement" means a foreign or alien statutory or regulatory compromise procedure subject to requisite majority creditor approval and judicial sanction in the assuming insurer's home jurisdiction either to finally commute liabilities of duly noticed classed members or creditors of a solvent debtor, or to reorganize or restructure the debts and obligations of a solvent debtor on a final basis, and which may be subject to judicial recognition and enforcement of the arrangement by a governing authority outside the ceding insurer's home jurisdiction; and

(vi) the assuming insurer must agree in writing to meet the applicable information filing requirements set forth in clause (5);

(5) the assuming insurer or its legal successor must provide, if requested by the commissioner, on behalf of itself and any legal predecessors, the following documentation to the commissioner:

(i) for the two years preceding entry into the reinsurance agreement and on an annual basis thereafter, the assuming insurer's annual audited financial statements, in accordance with the applicable law of the jurisdiction of its head office or domiciliary jurisdiction, as applicable, including the external audit report;

(ii) for the two years preceding entry into the reinsurance agreement, the solvency and financial condition report or actuarial opinion, if filed with the assuming insurer's supervisor;

(iii) prior to entry into the reinsurance agreement and not more than semiannually thereafter, an updated list of all disputed and overdue reinsurance claims outstanding for 90 days or more, regarding reinsurance assumed from ceding insurers domiciled in the United States; and

(iv) prior to entry into the reinsurance agreement and not more than semiannually thereafter, information regarding the assuming insurer's assumed reinsurance by ceding insurer, ceded reinsurance by the assuming insurer, and reinsurance recoverable on paid and unpaid losses by the assuming insurer to allow for the evaluation of the criteria set forth in clause (6);

(6) the assuming insurer must maintain a practice of prompt payment of claims under reinsurance agreements. The lack of prompt payment will be evidenced if any of the following criteria is met:

(i) more than 15 percent of the reinsurance recoverables from the assuming insurer are overdue and in dispute as reported to the commissioner;

(ii) more than 15 percent of the assuming insurer's ceding insurers or reinsurers have overdue reinsurance recoverable on paid losses of 90 days or more which are not in dispute and which exceed for each ceding insurer $100,000, or as otherwise specified in a covered agreement; or

(iii) the aggregate amount of reinsurance recoverable on paid losses which are not in dispute, but are overdue by 90 days or more, exceeds $50,000,000, or as otherwise specified in a covered agreement;

(7) the assuming insurer's supervisory authority must confirm to the commissioner by December 31, 2021, and annually thereafter, or at the annual date otherwise statutorily reported to the reciprocal jurisdiction, that the assuming insurer complies with the requirements set forth in clauses (2) and (3); and

(8) nothing in this subdivision precludes an assuming insurer from providing the commissioner with information on a voluntary basis.

(b) The commissioner shall timely create and publish a list of reciprocal jurisdictions. The commissioner's list shall include any reciprocal jurisdiction as defined under paragraph (a), clause (1), items (i) and (ii), and shall consider any other reciprocal jurisdiction included on the NAIC list. The commissioner may approve a jurisdiction that does not appear on the NAIC list of reciprocal jurisdictions in accordance with criteria developed under rules issued by the commissioner. The commissioner may remove a jurisdiction from the list of reciprocal jurisdictions upon a determination that the jurisdiction no longer meets the requirements of a reciprocal jurisdiction, in accordance with a process set forth in rules issued by the commissioner, except that the commissioner shall not remove from the list a reciprocal jurisdiction as defined under paragraph (a), clause (1), items (i) and (ii). Upon removal of a reciprocal jurisdiction from the list, credit for reinsurance ceded to an assuming insurer which has its home office or is domiciled in that jurisdiction shall be allowed, if otherwise allowed pursuant to law.

(c) The commissioner shall timely create and publish a list of assuming insurers that have satisfied the conditions set forth in this subdivision and to which cessions shall be granted credit in accordance with this subdivision. The commissioner may add an assuming insurer to the list if an NAIC accredited jurisdiction has added the assuming insurer to a list of assuming insurers or if, upon initial eligibility, the assuming insurer submits the information to the commissioner as required under paragraph (a), clause (4), and complies with any additional requirements that the commissioner may impose by rule, except to the extent that they conflict with an applicable covered agreement.

(i) If an NAIC-accredited jurisdiction has determined that the conditions set forth in paragraph (a), clause (2), have been met, the commissioner has the discretion to defer to that jurisdiction's determination, and add such assuming insurer to the list of assuming insurers to which cessions shall be granted credit in accordance with this paragraph. The commissioner may accept financial documentation filed with another NAIC-accredited jurisdiction or with the NAIC in satisfaction of the requirements of paragraph (a), clause (2);

(ii) When requesting that the commissioner defer to another NAIC-accredited jurisdiction's determination, an assuming insurer must submit a properly executed Form RJ-1 and additional information as the commissioner may require. A state that has received such a request will notify other states through the NAIC Committee Process and provide relevant information with respect to the determination of eligibility.

(d) If the commissioner determines that an assuming insurer no longer meets one or more of the requirements under this subdivision, the commissioner may revoke or suspend the eligibility of the assuming insurer for recognition under this subdivision in accordance with procedures set forth in rule. While an assuming insurer's eligibility is suspended, no reinsurance agreement issued, amended, or renewed after the effective date of the suspension qualifies for credit, except to the extent that the assuming insurer's obligations under the contract are secured in accordance with this section. If an assuming insurer's eligibility is revoked, no credit for reinsurance may be granted after the effective date of the revocation with respect to any reinsurance agreements entered into by the assuming insurer, including reinsurance agreements entered into prior to the date of revocation, except to the extent that the assuming insurer's obligations under the contract are secured in a form acceptable to the commissioner and consistent with the provisions of this section.

(e) Before denying statement credit or imposing a requirement to post security with respect to paragraph (d) or adopting any similar requirement that will have substantially the same regulatory impact as security, the commissioner shall:

(1) communicate with the ceding insurer, the assuming insurer, and the assuming insurer's supervisory authority that the assuming insurer no longer satisfies one of the conditions listed in paragraph (a), clause (2);

(2) provide the assuming insurer with 30 days from the initial communication to submit a plan to remedy the defect, and 90 days from the initial communication to remedy the defect, except in exceptional circumstances in which a shorter period is necessary for policyholder and other consumer protection;

(3) after the expiration of 90 days or less, as set out in clause (2), if the commissioner determines that no or insufficient action was taken by the assuming insurer, the commissioner may impose any of the requirements as set out in this paragraph; and

(4) provide a written explanation to the assuming insurer of any of the requirements set out in this paragraph.

(f) If subject to a legal process of rehabilitation, liquidation, or conservation, as applicable, the ceding insurer, or its representative, may seek and, if determined appropriate by the court in which the proceedings are pending, may obtain an order requiring that the assuming insurer post security for all outstanding ceded liabilities.

(g) Nothing in this subdivision limits or in any way alters the capacity of parties to a reinsurance agreement to agree on requirements for security or other terms in the reinsurance agreement, except as expressly prohibited by applicable law or rule.

(h) Credit may be taken under this subdivision only for reinsurance agreements entered into, amended, or renewed on or after the effective date of this subdivision, and only with respect to losses incurred and reserves reported on or after the later of: (1) the date on which the assuming insurer has met all eligibility requirements pursuant to this subdivision; and (2) the effective date of the new reinsurance agreement, amendment, or renewal. This paragraph does not alter or impair a ceding insurer's right to take credit for reinsurance, to the extent that credit is not available under this subdivision, as long as the reinsurance qualifies for credit under any other applicable provision of law. Nothing in this subdivision shall authorize an assuming insurer to withdraw or reduce the security provided under any reinsurance agreement, except as permitted by the terms of the agreement. Nothing in this subdivision shall limit, or in any way alter, the capacity of parties to any reinsurance agreement to renegotiate the agreement.

EFFECTIVE DATE. This section is effective January 1, 2022, and applies to reinsurance contracts entered into or renewed on or after that date.

Sec. 3. Minnesota Statutes 2020, section 60A.0921, subdivision 2, is amended to read:

Subd. 2. **Certification procedure.** (a) The commissioner shall post notice on the department's website promptly upon receipt of any application for certification, including instructions on how members of the public may respond to the application. The commissioner may not take final action on the application until at least 30 days after posting the notice.

(b) The commissioner shall issue written notice to an assuming insurer that has applied and been approved as a certified reinsurer. The notice must include the rating assigned the certified reinsurer in accordance with subdivision 1. The commissioner shall publish a list of all certified reinsurers and their ratings.

(c) In order to be eligible for certification, the assuming insurer must:

(1) be domiciled and licensed to transact insurance or reinsurance in a qualified jurisdiction, as determined by the commissioner under subdivision 3;

(2) maintain capital and surplus, or its equivalent, of no less than $250,000,000 calculated in accordance with paragraph (d), clause (8). This requirement may also be satisfied by an association including incorporated and individual unincorporated underwriters having minimum capital and surplus equivalents net of liabilities of at least $250,000,000 and a central fund containing a balance of at least $250,000,000;

(3) maintain financial strength ratings from two or more rating agencies acceptable to the commissioner. These ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information. These financial strength ratings shall be one factor used by the commissioner in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies include the following:

(i) Standard & Poor's;

(ii) Moody's Investors Service;

(iii) Fitch Ratings;

(iv) A.M. Best Company; or

(v) any other nationally recognized statistical rating organization; and

(4) ensure that the certified reinsurer complies with any other requirements reasonably imposed by the commissioner.

(d) Each certified reinsurer shall be rated on a legal entity basis, with due consideration being given to the group rating where appropriate, except that an association including incorporated and individual unincorporated underwriters that has been approved to do business as a single certified reinsurer may be evaluated on the basis of its group rating. Factors that may be considered as part of the evaluation process include, but are not limited to:

(1) certified reinsurer's financial strength rating from an acceptable rating agency. The maximum rating that a certified reinsurer may be assigned will correspond to its financial strength rating as outlined in the table below. The commissioner shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two financial strength ratings from acceptable rating agencies will result in loss of eligibility for certification;

(3) for certified reinsurers domiciled in the United States, a review of the most recent applicable NAIC annual statement;

(4) for certified reinsurers not domiciled in the United States, a review annually of such forms as may be required by the commissioner;

(5) the reputation of the certified reinsurer for prompt payment of claims under reinsurance agreements, based on an analysis of ceding insurers' reporting of overdue reinsurance recoverables, including the proportion of obligations that are more than 90 days past due or are in dispute, with specific attention given to obligations payable to companies that are in administrative supervision or receivership;

(6) regulatory actions against the certified reinsurer;

(7) the report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in clause (8);

(8) for certified reinsurers not domiciled in the United States, audited financial statements (audited United States GAAP basis if available, audited IFRS basis statements are allowed, but must include an audited footnote reconciling equity and net income to a United States GAAP basis, or, with permission of the commissioner, audited IFRS statements with reconciliation to United States GAAP certified by an officer of the company). Upon the initial application for certification, the commissioner will consider audited financial statements for the last ~~three~~ two years filed with its non-United States jurisdiction supervisor;

(9) the liquidation priority of obligations to a ceding insurer in the certified reinsurer's domiciliary jurisdiction in the context of an insolvency proceeding;

(10) a certified reinsurer's participation in any solvent scheme of arrangement, or similar procedure, which involves United States ceding insurers. The commissioner must receive prior notice from a certified reinsurer that proposes participation by the certified reinsurer in a solvent scheme of arrangement; and

(11) other information as determined by the commissioner.

(e) Based on the analysis conducted under paragraph (d), clause (5), of a certified reinsurer's reputation for prompt payment of claims, the commissioner may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to United States ceding insurers, provided that the commissioner shall, at a minimum, increase the security the certified reinsurer is required to post by one rating level under paragraph (d), clause (1), if the commissioner finds that:

(1) more than 15 percent of the certified reinsurer's ceding insurance clients have overdue reinsurance recoverables on paid losses of 90 days or more which are not in dispute and which exceed $100,000 for each cedent; or

(2) the aggregate amount of reinsurance recoverables on paid losses which are not in dispute that are overdue by 90 days or more exceeds $50,000,000.

(f) The assuming insurer must submit such forms as required by the commissioner as evidence of its submission to the jurisdiction of this state, appoint the commissioner as an agent for service of process in this state, and agree to provide security for 100 percent of the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers if it resists enforcement of a final United States judgment. The commissioner shall not certify an assuming insurer that is domiciled in a jurisdiction that the commissioner has determined does not adequately and promptly enforce final United States judgments or arbitration awards.

(g) The certified reinsurer must agree to meet filing requirements as determined by the commissioner, both with respect to an initial application for certification and on an ongoing basis. All data submitted by certified reinsurers to the commissioner is nonpublic under section 13.02, subdivision 9. The certified reinsurer must file with the commissioner:

(1) a notification within ten days of any regulatory actions taken against the certified reinsurer, any change in the provisions of its domiciliary license, or any change in rating by an approved rating agency, including a statement describing such changes and the reasons therefore;

(2) an annual report regarding reinsurance assumed, in a form determined by the commissioner;

(3) an annual report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in clause (4);

(4) an annual audited financial statement, regulatory filings, and actuarial opinion filed with the certified reinsurer's supervisor. Upon the initial certification, audited financial statements for the last ~~three~~ two years filed with the certified reinsurer's supervisor;

(5) at least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from United States domestic ceding insurers;

(6) a certification from the certified reinsurer's domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction's highest regulatory action level; and

(7) any other relevant information as determined by the commissioner.

EFFECTIVE DATE. This section is effective January 1, 2022, and applies to reinsurance contracts entered into or renewed on or after that date.

Sec. 4. Minnesota Statutes 2020, section 60A.14, subdivision 1, is amended to read:

Subdivision 1. **Fees other than examination fees.** In addition to the fees and charges provided for examinations, the following fees must be paid to the commissioner for deposit in the general fund:

(a) by township mutual fire insurance companies:

(1) for filing certificate of incorporation $25 and amendments thereto, $10;

(2) for filing annual statements, $15;

(3) for each annual certificate of authority, $15;

(4) for filing bylaws $25 and amendments thereto, $10;

(3) for filing annual statement, ~~$225~~ $300;

(4) for filing certified copy of amendment to certificate or articles of incorporation, $100;

(6) for each company's certificate of authority, ~~$575~~ $750, annually;

(c) the following general fees apply:

(1) for each certificate, including certified copy of certificate of authority, renewal, valuation of life policies, corporate condition or qualification, $25;

(4) for valuing the policies of life insurance companies, ~~one cent~~ two cents per $1,000 of insurance so valued, provided that the fee shall not exceed ~~$13,000~~ $26,000 per year for any company. The commissioner may, in lieu of a valuation of the policies of any foreign life insurance company admitted, or applying for admission, to do business in this state, accept a certificate of valuation from the company's own actuary or from the commissioner of insurance of the state or territory in which the company is domiciled;

(5) for receiving and filing certificates of policies by the company's actuary, or by the commissioner of insurance of any other state or territory, $50;

EFFECTIVE DATE. This section is effective August 1, 2021.

Sec. 8. **[60A.9853] NOTIFICATION OF A CYBERSECURITY EVENT.**

Subdivision 1. **Notification to the commissioner.** Each licensee shall notify the commissioner of commerce or commissioner of health, whichever commissioner otherwise regulates the licensee, without unreasonable delay but in no event later than three business days from a determination that a cybersecurity event has occurred when either of the following criteria has been met:

(1) this state is the licensee's state of domicile, in the case of an insurer, or this state is the licensee's home state, in the case of a producer, as those terms are defined in chapter 60K and the cybersecurity event has a reasonable likelihood of materially harming:

(i) any consumer residing in this state; or

(ii) any part of the normal operations of the licensee; or

(2) the licensee reasonably believes that the nonpublic information involved is of 250 or more consumers residing in this state and that is either of the following:

(i) a cybersecurity event impacting the licensee of which notice is required to be provided to any government body, self-regulatory agency, or any other supervisory body pursuant to any state or federal law; or

(ii) a cybersecurity event that has a reasonable likelihood of materially harming:

(A) any consumer residing in this state; or

(B) any part of the normal operations of the licensee.

Subd. 2. **Information; notification.** A licensee making the notification required under subdivision 1 shall provide the information in electronic form as directed by the commissioner. The licensee shall have a continuing obligation to update and supplement initial and subsequent notifications to the commissioner concerning material changes to previously provided information relating to the cybersecurity event. The licensee shall provide as much of the following information as possible:

(1) date of the cybersecurity event;

(2) description of how the information was exposed, lost, stolen, or breached, including the specific roles and responsibilities of third-party service providers, if any;

(3) how the cybersecurity event was discovered;

(4) whether any lost, stolen, or breached information has been recovered and, if so, how this was done;

(5) the identity of the source of the cybersecurity event;

(6) whether the licensee has filed a police report or has notified any regulatory, government, or law enforcement agencies and, if so, when such notification was provided;

(7) description of the specific types of information acquired without authorization. Specific types of information means particular data elements including, for example, types of medical information, types of financial information, or types of information allowing identification of the consumer;

(8) the period during which the information system was compromised by the cybersecurity event;

(9) the number of total consumers in this state affected by the cybersecurity event. The licensee shall provide the best estimate in the initial report to the commissioner and update this estimate with each subsequent report to the commissioner pursuant to this section;

(10) the results of any internal review identifying a lapse in either automated controls or internal procedures, or confirming that all automated controls or internal procedures were followed;

(11) description of efforts being undertaken to remediate the situation which permitted the cybersecurity event to occur;

(12) a copy of the licensee's privacy policy and a statement outlining the steps the licensee will take to investigate and notify consumers affected by the cybersecurity event; and

Subd. 3. **Notification to consumers.** (a) If a licensee is required to submit a report to the commissioner under subdivision 1, the licensee shall notify any consumer residing in Minnesota if, as a result of the cybersecurity event reported to the commissioner, the consumer's nonpublic information was or is reasonably believed to have been acquired by an unauthorized person, and there is a reasonable likelihood of material harm to the consumer as a result of the cybersecurity event. Consumer notification is not required for a cybersecurity event resulting from the good faith acquisition of nonpublic information by an employee or agent of the licensee for the purposes of the licensee's business, provided the nonpublic information is not used for a purpose other than the licensee's business or subject to further unauthorized disclosure. The notification must be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement or with any measures necessary to determine the scope of the breach, identify the individuals affected, and restore the reasonable integrity of the data system. The notification may be delayed to a date certain if the commissioner determines that providing the notice impedes a criminal investigation. The licensee shall provide a copy of the notice to the commissioner.

(b) For purposes of this subdivision, notice required under paragraph (a) must be provided by one of the following methods:

(1) written notice to the consumer's most recent address in the licensee's records;

(2) electronic notice, if the licensee's primary method of communication with the consumer is by electronic means or if the notice provided is consistent with the provisions regarding electronic records and signatures in United States Code, title 15, section 7001; or

(3) if the cost of providing notice exceeds $250,000, the affected class of consumers to be notified exceeds 500,000, or the licensee does not have sufficient contact information for the subject consumers, notice as follows:

(i) e-mail notice when the licensee has an e-mail address for the subject consumers;

(ii) conspicuous posting of the notice on the website page of the licensee; and

(iii) notification to major statewide media.

(c) Notwithstanding paragraph (b), a licensee that maintains its own notification procedure as part of its information security program that is consistent with the timing requirements of this subdivision is deemed to comply with the notification requirements if the licensee notifies subject consumers in accordance with its program.

(d) A waiver of the requirements under this subdivision is contrary to public policy, and is void and unenforceable.

Subd. 4. **Notice regarding cybersecurity events of third-party service providers.** (a) In the case of a cybersecurity event in a system maintained by a third-party service provider, of which the licensee has become aware, the licensee shall treat such event as it would under subdivision 1 unless the third-party service provider provides the notice required under subdivision 1.

(b) The computation of a licensee's deadlines shall begin on the day after the third-party service provider notifies the licensee of the cybersecurity event or the licensee otherwise has actual knowledge of the cybersecurity event, whichever is sooner.

(c) Nothing in this act shall prevent or abrogate an agreement between a licensee and another licensee, a third-party service provider, or any other party to fulfill any of the investigation requirements imposed under section 60A.9854 or notice requirements imposed under this section.

Subd. 5. **Notice regarding cybersecurity events of reinsurers to insurers.** (a) In the case of a cybersecurity event involving nonpublic information that is used by the licensee that is acting as an assuming insurer or in the possession, custody, or control of a licensee that is acting as an assuming insurer and that does not have a direct contractual relationship with the affected consumers, the assuming insurer shall notify its affected ceding insurers and the commissioner of its state of domicile within three business days of making the determination that a cybersecurity event has occurred.

(b) The ceding insurers that have a direct contractual relationship with affected consumers shall fulfill the consumer notification requirements imposed under subdivision 3 and any other notification requirements relating to a cybersecurity event imposed under this section.

(d) The ceding insurers that have a direct contractual relationship with affected consumers shall fulfill the consumer notification requirements imposed under subdivision 3 and any other notification requirements relating to a cybersecurity event imposed under this section.

(e) Any licensee acting as an assuming insurer shall have no other notice obligations relating to a cybersecurity event or other data breach under this section.

Subd. 6. **Notice regarding cybersecurity events of insurers to producers of record.** (a) In the case of a cybersecurity event involving nonpublic information that is in the possession, custody, or control of a licensee that is an insurer or its third-party service provider and for which a consumer accessed the insurer's services through an independent insurance producer, the insurer shall notify the producers of record of all affected consumers no later than the time at which notice is provided to the affected consumers.

(b) The insurer is excused from this obligation for those instances in which it does not have the current producer of record information for any individual consumer or in those instances in which the producer of record is no longer appointed to sell, solicit, or negotiate on behalf of the insurer.

EFFECTIVE DATE. This section is effective August 1, 2021.

Sec. 9. **[60A.9854] POWER OF COMMISSIONER.**

(a) The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to that time at rates of interest as indicated in paragraph (b) of the net considerations, as defined in this subdivision, paid prior to that time, decreased by the sum of clauses (1) through (4):

(1) any prior withdrawals from or partial surrenders of the contract accumulated at rates of interest as indicated in paragraph (b);

(2) an annual contract charge of $50, accumulated at rates of interest as indicated in paragraph (b);

(3) any premium tax paid by the company for the contract and not subsequently credited back to the company, such as upon early termination of the contract, in which case this decrease must not be taken, accumulated at rates of interest as indicated in paragraph (b); and

(4) the amount of any indebtedness to the company on the contract, including interest due and accrued.

The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be an amount equal to 87.5 percent of the gross considerations credited to the contract during that contract year.

(b) The interest rate used in determining minimum nonforfeiture amounts must be an annual rate of interest determined as the lesser of three percent per annum and the following, which must be specified in the contract if the interest rate will be reset:

(1) the five-year constant maturity treasury rate reported by the Federal Reserve as of a date, or average over a period, rounded to the nearest 1/20 of one percent, specified in the contract no longer than 15 months prior to the contract issue date or redetermination date under clause (4);

Sec. 28. Minnesota Statutes 2020, section 256B.0625, subdivision 17, is amended to read:

Subd. 17. **Transportation costs.** (a) "Nonemergency medical transportation service" means motor vehicle transportation provided by a public or private person that serves Minnesota health care program beneficiaries who do not require emergency ambulance service, as defined in section 144E.001, subdivision 3, to obtain covered medical services.

(b) Medical assistance covers medical transportation costs incurred solely for obtaining emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company, nonemergency medical transportation company, or other recognized providers of transportation services. Medical transportation must be provided by:

(1) nonemergency medical transportation providers who meet the requirements of this subdivision;

(2) ambulances, as defined in section 144E.001, subdivision 2;

(3) taxicabs that meet the requirements of this subdivision;

(4) public transit, as defined in section 174.22, subdivision 7; or

(5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472, subdivision 1, paragraph (h).

(c) Medical assistance covers nonemergency medical transportation provided by nonemergency medical transportation providers enrolled in the Minnesota health care programs. All nonemergency medical transportation providers must comply with the operating standards for special transportation service as defined in sections 174.29 to 174.30 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the commissioner and reported on the claim as the individual who provided the service. All nonemergency medical transportation providers shall bill for nonemergency medical transportation services in accordance with Minnesota health care programs criteria. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this paragraph.

(d) An organization may be terminated, denied, or suspended from enrollment if:

(1) the provider has not initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

(2) the provider has initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

(i) the commissioner has sent the provider a notice that the individual has been disqualified under section 245C.14; and

(ii) the individual has not received a disqualification set-aside specific to the special transportation services provider under sections 245C.22 and 245C.23.

(e) The administrative agency of nonemergency medical transportation must:

(1) adhere to the policies defined by the commissioner in consultation with the Nonemergency Medical Transportation Advisory Committee;

(2) pay nonemergency medical transportation providers for services provided to Minnesota health care programs beneficiaries to obtain covered medical services;

(3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled trips, and number of trips by mode; and

(4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single administrative structure assessment tool that meets the technical requirements established by the commissioner, reconciles trip information with claims being submitted by providers, and ensures prompt payment for nonemergency medical transportation services.

(f) Until the commissioner implements the single administrative structure and delivery system under subdivision 18e, clients shall obtain their level-of-service certificate from the commissioner or an entity approved by the commissioner that does not dispatch rides for clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

(g) The commissioner may use an order by the recipient's attending physician, advanced practice registered nurse, or a medical or mental health professional to certify that the recipient requires nonemergency medical transportation services. Nonemergency medical transportation providers shall perform driver-assisted services for

eligible individuals, when appropriate. Driver-assisted service includes passenger pickup at and return to the individual's residence or place of business, assistance with admittance of the individual to the medical facility, and assistance in passenger securement or in securing of wheelchairs, child seats, or stretchers in the vehicle.

Nonemergency medical transportation providers must take clients to the health care provider using the most direct route, and must not exceed 30 miles for a trip to a primary care provider or 60 miles for a trip to a specialty care provider, unless the client receives authorization from the local agency.

Nonemergency medical transportation providers may not bill for separate base rates for the continuation of a trip beyond the original destination. Nonemergency medical transportation providers must maintain trip logs, which include pickup and drop-off times, signed by the medical provider or client, whichever is deemed most appropriate, attesting to mileage traveled to obtain covered medical services. Clients requesting client mileage reimbursement must sign the trip log attesting mileage traveled to obtain covered medical services.

(h) The administrative agency shall use the level of service process established by the commissioner in consultation with the Nonemergency Medical Transportation Advisory Committee to determine the client's most appropriate mode of transportation. If public transit or a certified transportation provider is not available to provide the appropriate service mode for the client, the client may receive a onetime service upgrade.

(i) The covered modes of transportation are:

(1) client reimbursement, which includes client mileage reimbursement provided to clients who have their own transportation, or to family or an acquaintance who provides transportation to the client;

(2) volunteer transport, which includes transportation by volunteers using their own vehicle;

(3) unassisted transport, which includes transportation provided to a client by a taxicab or public transit. If a taxicab or public transit is not available, the client can receive transportation from another nonemergency medical transportation provider;

(4) assisted transport, which includes transport provided to clients who require assistance by a nonemergency medical transportation provider;

(5) lift-equipped/ramp transport, which includes transport provided to a client who is dependent on a device and requires a nonemergency medical transportation provider with a vehicle containing a lift or ramp;

(6) protected transport, which includes transport provided to a client who has received a prescreening that has deemed other forms of transportation inappropriate and who requires a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety locks, a video recorder, and a transparent thermoplastic partition between the passenger and the vehicle driver; and (ii) who is certified as a protected transport provider; and

(7) stretcher transport, which includes transport for a client in a prone or supine position and requires a nonemergency medical transportation provider with a vehicle that can transport a client in a prone or supine position.

(j) The local agency shall be the single administrative agency and shall administer and reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the commissioner has developed, made available, and funded the web-based single administrative structure, assessment tool, and level of need assessment under subdivision 18e. The local agency's financial obligation is limited to funds provided by the state or federal government.

(k) The commissioner shall:

(1) in consultation with the Nonemergency Medical Transportation Advisory Committee, verify that the mode and use of nonemergency medical transportation is appropriate;

(2) verify that the client is going to an approved medical appointment; and

(3) investigate all complaints and appeals.

(l) The administrative agency shall pay for the services provided in this subdivision and seek reimbursement from the commissioner, if appropriate. As vendors of medical care, local agencies are subject to the provisions in section 256B.041, the sanctions and monetary recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

(m) Payments for nonemergency medical transportation must be paid based on the client's assessed mode under paragraph (h), not the type of vehicle used to provide the service. The medical assistance reimbursement rates for nonemergency medical transportation services that are payable by or on behalf of the commissioner for nonemergency medical transportation services are:

(1) $0.22 per mile for client reimbursement;

(2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer transport;

(3) equivalent to the standard fare for unassisted transport when provided by public transit, and $11 for the base rate and $1.30 per mile when provided by a nonemergency medical transportation provider;

(4) $13 for the base rate and $1.30 per mile for assisted transport;

(5) $18 for the base rate and $1.55 per mile for lift-equipped/ramp transport;

(6) $75 for the base rate and $2.40 per mile for protected transport; and

(7) $60 for the base rate and $2.40 per mile for stretcher transport, and $9 per trip for an additional attendant if deemed medically necessary.

(n) The base rate for nonemergency medical transportation services in areas defined under RUCA to be super rural is equal to 111.3 percent of the respective base rate in paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation services in areas defined under RUCA to be rural or super rural areas is:

(1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage rate in paragraph (m), clauses (1) to (7); and

(2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage rate in paragraph (m), clauses (1) to (7).

(o) For purposes of reimbursement rates for nonemergency medical transportation services under paragraphs (m) and (n), the zip code of the recipient's place of residence shall determine whether the urban, rural, or super rural reimbursement rate applies.

(p) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means a census-tract based classification system under which a geographical area is determined to be urban, rural, or super rural.

(q) The commissioner, when determining reimbursement rates for nonemergency medical transportation under paragraphs (m) and (n), shall exempt all modes of transportation listed under paragraph (i) from Minnesota Rules, part 9505.0445, item R, subitem (2).

Sec. 29. Minnesota Statutes 2020, section 325E.21, is amended by adding a subdivision to read:

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 23. Minnesota Statutes 2020, section 308A.201, subdivision 12, is amended to read:

Subd. 12. **Electric cooperative powers.** (a) An electric cooperative has the power and authority to:

(1) make loans to its members;

(2) prerefund debt;

(3) obtain funds through negotiated financing or public sale;

(4) borrow money and issue its bonds, debentures, notes, or other evidence of indebtedness;

(5) mortgage, pledge, or otherwise hypothecate its assets as may be necessary;

(6) invest its resources;

(7) deposit money in state and national banks and trust companies authorized to receive deposits; and

(8) exercise all other powers and authorities granted to cooperatives.

(b) A cooperative organized to provide rural electric power may enter agreements and contracts with other electric power cooperatives or with a cooperative constituted of electric power cooperatives to share losses and risk of losses to their transmission and distribution lines, transformers, substations, and related appurtenances from storm, sleet, hail, tornado, cyclone, hurricane, or windstorm. An agreement or contract or a cooperative formed to share losses under this paragraph is not subject to the laws of this state relating to insurance and insurance companies.

(c) An electric cooperative, an affiliate of the cooperative formed to provide broadband, or another entity pursuant to an agreement with the cooperative or the cooperative's affiliate may use the cooperative, affiliate, or entity's existing or subsequently acquired electric transmission or distribution easements for broadband infrastructure and to provide broadband service, which may include an agreement to lease fiber capacity. To exercise rights granted under this paragraph, the cooperative must provide to the property owner on which the easement is located written notice that the cooperative intends to use the easement for broadband purposes. The use of the easement for broadband services vests and runs with the land beginning six months after notice is provided under paragraph (d) unless a court action challenging the use of the easement for broadband purposes has been filed before that time by the property owner as provided under paragraph (e). The cooperative must also file evidence of the notice for recording with the county recorder.

(d) The cooperative's notice under paragraph (c) must be sent by first class mail to the last known address of the owner of the property on which the easement is located or by printed insertion in the property owner's utility bill. The notice must include the following:

(1) the name and mailing address of the cooperative;

(2) a narrative describing the nature and purpose of the intended easement use; and

(3) a description of any trenching or other underground work expected to result from the intended use, including the anticipated time frame for the work.

(e) A property owner, within six months after receiving notice under paragraph (d), may commence an action seeking to recover damages for an electric cooperative's use of an electric transmission or distribution easement for broadband service purposes. Notwithstanding any other law to the contrary, the procedures and substantive matters set forth in this subdivision govern an action under this paragraph and are the exclusive means to bring a claim for compensation with respect to a notice of intent to use a cooperative transmission or distribution easement for broadband purposes. To commence an action under this paragraph, the property owner must serve a complaint upon the electric cooperative as in a civil action and file the complaint with the district court for the county in which the easement is located. The complaint must state whether the property owner (1) is challenging the electric cooperative's right to use the easement for broadband services or infrastructure as authorized under paragraph (c), (2) is seeking damages as provided under paragraph (f), or (3) both.

(f) If the property owner is seeking damages, the electric cooperative may, at any time after answering the complaint (1) deposit with the court administrator an amount equal to the cooperative's estimate of damages or one dollar if damages are estimated to be not more than nominal, and (2) after making the deposit, use the electric transmission or service line easements for broadband purposes, conditioned on an obligation to pay the amount of damages determined by the court. If the property owner is challenging the electric cooperative's right to use the easement for broadband services or infrastructure as authorized under paragraph (c), after the electric cooperative answers the complaint the district court must promptly hold a hearing on the property owner's challenge. If the district court denies the property owner's challenge, the electric cooperative may proceed to make a deposit and make use of the easement for broadband service purposes, as provided under clause (2).

(g) In an action involving a property owner's claim for damages, the landowner has the burden to prove the existence and amount of any net reduction in the fair market value of the property, considering the existence, installation, construction, maintenance, modification, operation, repair, replacement, or removal of broadband infrastructure in the easement, as well as any benefit to the property from access to broadband service. Consequential or special damages must not be awarded. Evidence of revenue, profits, fees, income, or similar benefits to the electric cooperative, the cooperative's affiliate, or a third party is inadmissible. Any fees or costs incurred as a result of an action under this subdivision must be paid by the party that incurred the fees or costs.

(h) Nothing in this section limits in any way an electric cooperative's existing easement rights, including but not limited to rights an electric cooperative has or may acquire to transmit communications for electric system operations or otherwise.

(i) Placement of broadband infrastructure for use in providing broadband service under paragraphs (c) to (h) in any portion of an electric transmission or distribution easement located in the public right-of-way is subject to local government permitting and right-of-way management authority under section 237.163, and the placement must be coordinated with the relevant local government unit to minimize potential future relocations. The cooperative must notify a local government unit prior to placing infrastructure for broadband service in an easement that is in or adjacent to the local government unit's public right-of-way.

(j) For purposes of this subdivision:

(1) "broadband infrastructure" has the meaning given in section 116J.394; and

(a) As a condition of accepting an appropriation under this section, an agency or entity receiving an appropriation or a party to an agreement from an appropriation must comply with paragraphs (b) to (l) and Minnesota Statutes, chapter 116P, and must submit a work plan and annual or semiannual progress reports in the form determined by the Legislative-Citizen Commission on Minnesota Resources for any project funded in whole or in part with funds from the appropriation. Modifications to the approved work plan and budget expenditures must be made through the amendment process established by the Legislative-Citizen Commission on Minnesota Resources.

(b) A recipient of money appropriated in this section that conducts a restoration using funds appropriated in this section must use native plant species according to the Board of Water and Soil Resources' native vegetation establishment and enhancement guidelines and include an appropriate diversity of native species selected to provide habitat for pollinators throughout the growing season as required under Minnesota Statutes, section 84.973.

(c) For all restorations conducted with money appropriated under this section, a recipient must prepare an ecological restoration and management plan that, to the degree practicable, is consistent with the highest-quality conservation and ecological goals for the restoration site. Consideration should be given to soil, geology, topography, and other relevant factors that would provide the best chance for long-term success and durability of the restoration project. The plan must include the proposed timetable for implementing the restoration, including site preparation, establishment of diverse plant species, maintenance, and additional enhancement to establish the restoration; identify long-term maintenance and management needs of the restoration and how the maintenance, management, and enhancement will be financed; and take advantage of the best-available science and include innovative techniques to achieve the best restoration.

(d) An entity receiving an appropriation in this section for restoration activities must provide an initial restoration evaluation at the completion of the appropriation and an evaluation three years after the completion of the expenditure. Restorations must be evaluated relative to the stated goals and standards in the restoration plan, current science, and, when applicable, the Board of Water and Soil Resources' native vegetation establishment and enhancement guidelines. The evaluation must determine whether the restorations are meeting planned goals, identify any problems

with implementing the restorations, and, if necessary, give recommendations on improving restorations. The evaluation must be focused on improving future restorations.

(e) All restoration and enhancement projects funded with money appropriated in this section must be on land permanently protected by a conservation easement or public ownership.

(f) A recipient of money from an appropriation under this section must give consideration to contracting with Conservation Corps Minnesota for contract restoration and enhancement services.

(4) be sent to the Legislative-Citizen Commission on Minnesota Resources in an electronic format at least ten business days before closing;

(5) include a long-term monitoring and enforcement plan and funding for monitoring and enforcing the easement agreement; and

(6) include requirements in the easement document to protect the quantity and quality of groundwater and surface water through specific activities such as keeping water on the landscape, reducing nutrient and contaminant loading, and not permitting artificial hydrological modifications.

(h) For any acquisition of lands or interest in lands, a recipient of money appropriated under this section must not agree to pay more than 100 percent of the appraised value for a parcel of land using this money to complete the purchase, in part or in whole, except that up to ten percent above the appraised value may be allowed to complete the purchase, in part or in whole, using this money if permission is received in advance of the purchase from the Legislative-Citizen Commission on Minnesota Resources.

(i) For any acquisition of land or interest in land, a recipient of money appropriated under this section must give priority to high-quality natural resources or conservation lands that provide natural buffers to water resources.

(j) For new lands acquired with money appropriated under this section, a recipient must prepare an ecological restoration and management plan in compliance with paragraph (c), including

sufficient funding for implementation unless the work plan addresses why a portion of the money is not necessary to achieve a high-quality restoration.

(k) To ensure public accountability for using public funds, a recipient of money appropriated under this section must, within 60 days of the transaction, provide to the Legislative-Citizen Commission on Minnesota Resources documentation of the selection process used to identify parcels acquired and provide documentation of all related transaction costs, including but not limited to appraisals, legal fees, recording fees, commissions, other similar costs, and donations. This information must be provided for all parties involved in the transaction. The recipient must also report to the Legislative-Citizen Commission on Minnesota Resources any difference between the acquisition amount paid to the seller and the state-certified or state-reviewed appraisal, if a state-certified or state-reviewed appraisal was conducted.

If money recovered on behalf of injured persons or entities cannot reasonably be distributed to those persons or entities because they cannot readily be located or identified or because the cost of distributing the money would outweigh the benefit to the persons or entities, the money must be paid into the general fund.

(b) Money recovered on behalf of a fund in the state treasury other than the general fund may be deposited in that fund.

(c) This section does not prohibit a state official from distributing money to a person or entity other than the state in litigation or potential litigation in which the state is a defendant or potential defendant.

(d) State agencies may accept funds as directed by a federal court for any restitution or monetary penalty under United States Code, title 18, section 3663(a)(3), or United States Code, title 18, section 3663A(a)(3). Funds received must be deposited in a special revenue account and are appropriated to the commissioner of the agency for the purpose as directed by the federal court.

(e) Tobacco settlement revenues as defined in section 16A.98, subdivision 1, paragraph (t), may be deposited as provided in section 16A.98, subdivision 12.

(f) Any money received by the state resulting from a settlement agreement or an assurance of discontinuance entered into by the attorney general of the state, or a court order in litigation brought by the attorney general of the state, on behalf of the state or a state agency, against one or more opioid manufacturers or opioid wholesale drug

distributors related to alleged violations of consumer fraud laws in the marketing, sale, or distribution of opioids in this state or other alleged illegal actions that contributed to the excessive use of opioids, must be deposited in a separate account in the state treasury and the commissioner shall notify the chairs and ranking minority members of the Finance Committee in the senate and the Ways and Means Committee in the house of representatives that an account has been created. This paragraph does not apply to attorney fees and costs awarded to the state or the Attorney General's Office, to contract attorneys hired by the state or Attorney General's Office, or to other state agency attorneys. If the licensing fees under section 151.065, subdivision 1, clause (16), and subdivision 3, clause (14), are reduced and the registration fee under section 151.066, subdivision 3, is repealed in accordance with section 256.043, subdivision 4, then the commissioner shall transfer from the separate account created in this paragraph to the opiate epidemic response fund under section 256.043 an amount that ensures that $20,940,000 each fiscal year is available for distribution in accordance with section 256.043, subdivisions 2 and 3.

(g) If the Minnesota Pollution Control Agency recovers $250,000 or more in litigation or in settlement of a matter that could have resulted in litigation for a civil penalty from violations of a permit issued by the Minnesota Pollution Control Agency, then 40 percent of the money recovered must be distributed to the community health board, as defined in section 145A.02, where the permitted facility is located. The commissioner of the Minnesota Pollution Control Agency must notify the applicable community health board within 30 days of a final court order in the litigation or the effective date of the settlement agreement that the litigation has concluded or a settlement has been reached. The commissioner of the Minnesota Pollution Control Agency must collect the money and transfer it to the applicable community health board. The community health board must meet directly with the residents potentially affected by the pollution that was the subject of the litigation or settlement to understand the residents' concerns and incorporate those concerns into a project that addresses residents' health concerns resulting from their exposure to pollution. The project must be implemented by the community health board and funded as directed in this paragraph. The Department of Health shall assist the community health board with project development and implementation, if requested by the community health board. The community health board may use up to five percent of the funds transferred to it under this paragraph for the reasonable direct costs it incurs to administer the provisions of this paragraph and for assistance from the Department of Health under this paragraph. This paragraph directs the transfer and use of money only and does not create a right of intervention in the litigation or settlement of the enforcement action for any person or entity.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to all litigation actions or settlements from which the Minnesota Pollution Control Agency recovered $250,000 or more on or after that date.

Sec. 2. Minnesota Statutes 2020, section 115.03, subdivision 1, is amended to read:

Subdivision 1. **Generally.** The agency is hereby given and charged with the following powers and duties:

(a) to administer and enforce all laws relating to the pollution of any of the waters of the state;

(b) to investigate the extent, character, and effect of the pollution of the waters of this state and to gather data and information necessary or desirable in the administration or enforcement of pollution laws, and to make such classification of the waters of the state as it may deem advisable;

(c) to establish and alter such reasonable pollution standards for any waters of the state in relation to the public use to which they are or may be put as it shall deem necessary for the purposes of this chapter and, with respect to the pollution of waters of the state, chapter 116;

(d) to encourage waste treatment, including advanced waste treatment, instead of stream low-flow augmentation for dilution purposes to control and prevent pollution;

(e) to adopt, issue, reissue, modify, deny, ~~or~~ revoke, reopen, enter into, or enforce reasonable orders, permits, variances, standards, rules, schedules of compliance, and stipulation agreements, under such conditions as it may prescribe, in order to prevent, control or abate water pollution, or for the installation or operation of disposal systems or parts thereof, or for other equipment and facilities:

(1) requiring the discontinuance of the discharge of sewage, industrial waste or other wastes into any waters of the state resulting in pollution in excess of the applicable pollution standard established under this chapter;

(2) prohibiting or directing the abatement of any discharge of sewage, industrial waste, or other wastes, into any waters of the state or the deposit thereof or the discharge into any municipal disposal system where the same is likely to get into any waters of the state in violation of this chapter and, with respect to the pollution of waters of the state, chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and specifying the schedule of compliance within which such prohibition or abatement must be accomplished;

(3) prohibiting the storage of any liquid or solid substance or other pollutant in a manner which does not reasonably assure proper retention against entry into any waters of the state that would be likely to pollute any waters of the state;

(4) requiring the construction, installation, maintenance, and operation by any person of any disposal system or any part thereof, or other equipment and facilities, or the reconstruction, alteration, or enlargement of its existing disposal system or any part thereof, or the adoption of other remedial measures to prevent, control or abate any discharge or deposit of sewage, industrial waste or other wastes by any person;

(5) establishing, and from time to time revising, standards of performance for new sources taking into consideration, among other things, classes, types, sizes, and categories of sources, processes, pollution control technology, cost of achieving such effluent reduction, and any nonwater quality environmental impact and energy requirements. Said standards of performance for new sources shall encompass those standards for the control of the discharge of pollutants which reflect the greatest degree of effluent reduction which the agency determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants. New sources shall encompass buildings, structures, facilities, or installations from which there is or may be the discharge of pollutants, the construction of which is commenced after the publication by the agency of proposed rules prescribing a standard of performance which will be applicable to such source. Notwithstanding any other provision of the law of this state, any point source the construction of which is commenced after May 20, 1973, and which is so constructed as to meet all applicable standards of performance for new sources shall, consistent with and subject to the provisions of section 306(d) of the Amendments of 1972 to the Federal Water Pollution Control Act, not be subject to any more stringent standard of performance for new sources during a ten-year period beginning on the date of completion of such construction or during the period of depreciation or amortization of such facility for the purposes of section 167 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period ends first. Construction shall encompass any placement, assembly, or installation of facilities or equipment, including contractual obligations to purchase such facilities or equipment, at the premises where such equipment will be used, including preparation work at such premises;

(6) establishing and revising pretreatment standards to prevent or abate the discharge of any pollutant into any publicly owned disposal system, which pollutant interferes with, passes through, or otherwise is incompatible with such disposal system;

(7) requiring the owner or operator of any disposal system or any point source to establish and maintain such records, make such reports, install, use, and maintain such monitoring equipment or methods, including where appropriate biological monitoring methods, sample such effluents in accordance with such methods, at such locations, at such intervals, and in such a manner as the agency shall prescribe, and providing such other information as the agency may reasonably require;

(8) notwithstanding any other provision of this chapter, and with respect to the pollution of waters of the state, chapter 116, requiring the achievement of more stringent limitations than otherwise imposed by effluent limitations in order to meet any applicable water quality standard by establishing new effluent limitations, based upon section 115.01, subdivision 13, clause (b), including alternative effluent control strategies for any point source or group of point sources to insure the integrity of water quality classifications, whenever the agency determines that discharges of pollutants from such point source or sources, with the application of effluent limitations required to comply with any standard of best available technology, would interfere with the attainment or maintenance of the water quality classification in a specific portion of the waters of the state. Prior to establishment of any such effluent limitation, the agency shall hold a public hearing to determine the relationship of the economic and social costs of achieving such limitation or limitations, including any economic or social dislocation in the affected community or communities, to the social and economic benefits to be obtained and to determine whether or not such effluent limitation can be implemented with available technology or other alternative control strategies. If a person affected by such limitation demonstrates at such hearing that, whether or not such technology or other alternative control strategies are available, there is no reasonable relationship between the economic and social costs and the benefits to be obtained, such limitation shall not become effective and shall be adjusted as it applies to such person;

(9) modifying, in its discretion, any requirement or limitation based upon best available technology with respect to any point source for which a permit application is filed after July 1, 1977, upon a showing by the owner or operator of such point source satisfactory to the agency that such modified requirements will represent the maximum use of technology within the economic capability of the owner or operator and will result in reasonable further progress toward the elimination of the discharge of pollutants; ~~and~~

(10) requiring that applicants for wastewater discharge permits evaluate in their applications the potential reuses of the discharged wastewater; and

(11) requiring parties who enter into a negotiated agreement to settle an enforcement matter with the agency to reimburse the agency according to this clause for oversight costs that are incurred by the agency and associated with implementing the negotiated agreement. The agency may recover oversight costs exceeding $25,000. Oversight costs include personnel and direct costs associated with inspections, sampling, monitoring, modeling, risk assessment, permit writing, engineering review, economic analysis and review, and other record or document review. Only oversight costs incurred after executing the negotiated agreement are covered by this clause. The agency's legal and litigation costs are not covered by this clause. The commissioner has discretion as to whether to apply this clause in cases when the agency is using schedules of compliance to bring a class of regulated parties into compliance. Reimbursement amounts are appropriated to the commissioner;

(f) to require to be submitted and to approve plans and specifications for disposal systems or point sources, or any part thereof and to inspect the construction thereof for compliance with the approved plans and specifications thereof;

(g) to prescribe and alter rules, not inconsistent with law, for the conduct of the agency and other matters within the scope of the powers granted to and imposed upon it by this chapter and, with respect to pollution of waters of the state, in chapter 116, provided that every rule affecting any other department or agency of the state or any person other than a member or employee of the agency shall be filed with the secretary of state;

(h) to conduct such investigations, issue such notices, public and otherwise, and hold such hearings as are necessary or which it may deem advisable for the discharge of its duties under this chapter and, with respect to the pollution of waters of the state, under chapter 116, including, but not limited to, the issuance of permits, and to authorize any member, employee, or agent appointed by it to conduct such investigations or, issue such notices and hold such hearings;

(i) for the purpose of water pollution control planning by the state and pursuant to the Federal Water Pollution Control Act, as amended, to establish and revise planning areas, adopt plans and programs and continuing planning processes, including, but not limited to, basin plans and areawide waste treatment management plans, and to provide for the implementation of any such plans by means of, including, but not limited to, standards, plan elements, procedures for revision, intergovernmental cooperation, residual treatment process waste controls, and needs inventory and ranking for construction of disposal systems;

(j) to train water pollution control personnel, and charge such fees therefor as are necessary to cover the agency's costs. All such fees received shall be paid into the state treasury and credited to the Pollution Control Agency training account;

(k) to impose as additional conditions in permits to publicly owned disposal systems appropriate measures to insure compliance by industrial and other users with any pretreatment standard, including, but not limited to, those related to toxic pollutants, and any system of user charges ratably as is hereby required under state law or said Federal Water Pollution Control Act, as amended, or any regulations or guidelines promulgated thereunder;

(l) to set a period not to exceed five years for the duration of any national pollutant discharge elimination system permit or not to exceed ten years for any permit issued as a state disposal system permit only;

(m) to require each governmental subdivision identified as a permittee for a wastewater treatment works to evaluate in every odd-numbered year the condition of its existing system and identify future capital improvements that will be needed to attain or maintain compliance with a national pollutant discharge elimination system or state disposal system permit; and

(n) to train subsurface sewage treatment system personnel, including persons who design, construct, install, inspect, service, and operate subsurface sewage treatment systems, and charge fees as necessary to pay the agency's costs. All fees received must be paid into the state treasury and credited to the agency's training account. Money in the account is appropriated to the agency to pay expenses related to training.

The information required in clause (m) must be submitted in every odd-numbered year to the commissioner on a form provided by the commissioner. The commissioner shall provide technical assistance if requested by the governmental subdivision.

The powers and duties given the agency in this subdivision also apply to permits issued under chapter 114C.

Sec. 3. Minnesota Statutes 2020, section 115.061, is amended to read:

115.061 DUTY TO NOTIFY; AVOIDING WATER POLLUTION.

(a) Except as provided in paragraph (b), it is the duty of every person to notify the agency immediately of the discharge, accidental or otherwise, of any substance or material under its control which, if not recovered, may cause pollution of waters of the state, and the responsible person shall recover as rapidly and as thoroughly as possible such substance or material and take immediately such other action as may be reasonably possible to minimize or abate pollution of waters of the state caused thereby.

(b) Notification is not required under paragraph (a) for a discharge of five gallons or less of petroleum, as defined in section 115C.02, subdivision 10. This paragraph does not affect the other requirements of paragraph (a).

(c) Promptly after notifying the agency of a discharge event under paragraph (a), a publicly owned treatment works or a publicly or privately owned domestic sewer system owner must provide notice to the potentially impacted public and to any downstream drinking water facility that may be impacted by the discharge event. Notice

to the public and to any drinking water facility must be made using the most efficient communications system available to the facility owner, such as in person, phone call, radio, social media, webpage or another expedited form. In addition, signage must be posted at all impacted public use areas within the same jurisdiction or notification must be provided to the entity that has jurisdiction over any impacted public use areas. A notice under this paragraph must include the date and time of the release, a description of the material released, a warning of the potential public health risk, and the permittee's contact information.

Sec. 5. Minnesota Statutes 2020, section 115.071, is amended by adding a subdivision to read:

Subd. 3a. **Public informational meeting.** (a) The commissioner, before finalizing a stipulation agreement or consent decree with a facility in which the agency is seeking a settlement amount greater than $25,000, must hold a public informational meeting at a convenient time at a location near the facility to:

(1) notwithstanding section 13.39, subdivision 2, describe the amount, frequency, duration, and chemical nature of the pollution released or emitted by the facility and the risks to public health and the environment from that exposure; and

(2) allow members of the public, including those persons potentially exposed to pollution released or emitted from the facility, to make the agency aware of:

(i) interactions between the facility and the public regarding the facility's operations;

(ii) operational problems or incidents that have occurred at the facility; and

(iii) suggestions regarding supplemental environmental projects that the public may prefer as part of a stipulation agreement or consent decree between the facility and the agency.

(b) For the purposes of this section, "supplemental environmental project" means a project that benefits the environment or public health and that a regulated facility agrees to undertake as part of a settlement with respect to an enforcement action taken by the agency to resolve noncompliance.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 6. Minnesota Statutes 2020, section 115.071, subdivision 4, is amended to read:

Subd. 4. **Injunctions.** Any violation of the provisions, rules, standards, orders, stipulation agreements, variances, schedules of compliance, or permits specified in this chapter and chapters 114C and 116 ~~shall constitute~~ constitutes a public nuisance and may be enjoined as provided by law in an action, in the name of the state, brought by the attorney general. Injunctive relief under this subdivision may include but is not limited to a requirement that

a facility or person immediately cease operation or activities until such time as the commissioner has reasonable assurance that renewed operation or activities will not violate state pollution requirements, cause harm to human health, or result in a serious violation of an applicable permit.

Sec. 7. Minnesota Statutes 2020, section 115.071, is amended by adding a subdivision to read:

Subd. 8. **Stipulation agreements.** In exercising enforcement powers over a term of a stipulation agreement when a party asserts a good cause or force majeure claim for an extension of time to comply with a stipulated term, the commissioner must not grant the extension if the assertion is based solely on increased costs.

Sec. 8. Minnesota Statutes 2020, section 115.071, is amended by adding a subdivision to read:

Subd. 9. **Compliance when required permit not obtained.** The commissioner may require a person or facility that fails to obtain a required permit to comply with any terms of a permit that would have been issued had the person or facility obtained a permit, including but not limited to reporting, monitoring, controlling pollutant discharge, and creating and implementing operations and maintenance plans. The person or facility is subject to liability and penalties, including criminal liability, for failing to operate in compliance with a permit not obtained beginning at the time a permit should have been obtained.

Sec. 9. Minnesota Statutes 2020, section 115A.03, is amended by adding a subdivision to read:

Subd. 10b. **Environmental justice.** "Environmental justice" means that:

(1) communities of color, Indigenous communities, and low-income communities have a healthy environment and are treated fairly when environmental statutes, rules, and policies are developed, adopted, implemented, and enforced; and

(2) in all decisions that have the potential to affect the environment of an environmental justice area or the public health of its residents, due consideration is given to the history of those residents' cumulative exposure to pollutants and to any current socioeconomic conditions that increase the physical sensitivity of those residents to additional exposure to pollutants.

Sec. 10. Minnesota Statutes 2020, section 115A.03, is amended by adding a subdivision to read:

Subd. 10c. **Environmental justice area.** "Environmental justice area" means one or more census blocks in Minnesota:

(1) in which, based on the most recent data published by the United States Census Bureau:

(i) 40 percent or more of the population is nonwhite;

(ii) 35 percent or more of the households have an income at or below 200 percent of the federal poverty level; or

(iii) 40 percent or more of the population over the age of five have limited English proficiency; or

(2) within Indian country, as defined in United State Code, title 18, section 1151.

Sec. 11. Minnesota Statutes 2020, section 115A.1310, subdivision 12b, is amended to read:

Subd. 12b. **Phase II recycling credits.** "Phase II recycling credits" means ~~the number of pounds of covered electronic devices recycled by a manufacturer during a program year beginning July 1, 2019, and thereafter, from households located outside the 11-county metropolitan area, as defined in section 115A.1314, subdivision 2, less the~~

~~manufacturer's recycling obligation calculated for the same program year in section 115A.1320, subdivision 1, paragraph (g).~~ an amount calculated in a program year beginning July 1, 2019, and in each program year thereafter, according to the formula (1.5 x A) - (B - C), where:

A = the number of pounds of covered electronic devices a manufacturer recycled or arranged to have collected and recycled during a program year from households located outside the 11-county metropolitan area, as defined in section 115A.1314, subdivision 2;

B = the manufacturer's recycling obligation calculated for the same program year in section 115A.1320, subdivision 1, paragraph (g); and

C = the number of pounds of covered electronic devices a manufacturer recycled or arranged to have collected and recycled, up to but not exceeding B, during the same program year from households in the 11-county metropolitan area.

Sec. 12. Minnesota Statutes 2020, section 115A.1312, subdivision 1, is amended to read:

Subdivision 1. **Requirements for sale.** (a) On or after September 1, 2007, a manufacturer must not sell or offer for sale or deliver to retailers for subsequent sale a new video display device unless:

(1) the video display device is labeled with the manufacturer's brand, which label is permanently affixed and readily visible; and

(2) the manufacturer has filed a registration with the agency, as specified in subdivision 2.

~~(b) On or after February 1, 2008, a retailer who sells or offers for sale a new video display device to a household must, before the initial offer for sale, review the agency website specified in subdivision 2, paragraph (g), to determine that all new video display devices that the retailer is offering for sale are labeled with the manufacturer's brands that are registered with the agency.~~

(b) A retailer must not sell, offer for sale, rent, or lease a video display device unless the video display device is labeled according to this subdivision and listed as registered on the agency website according to subdivision 2.

(c) A retailer is not responsible for an unlawful sale under this subdivision if the manufacturer's registration expired or was revoked and the retailer took possession of the video display device prior to the expiration or revocation of the manufacturer's registration and the unlawful sale occurred within six months after the expiration or revocation.

Sec. 13. Minnesota Statutes 2020, section 115A.1314, subdivision 1, is amended to read:

Subdivision 1. **Registration fee.** (a) Each manufacturer who registers under section 115A.1312 must, by August 15 each year, pay to the commissioner of revenue an annual registration fee, on a form and in a manner prescribed by the commissioner of revenue. The commissioner of revenue must deposit the fee in the state treasury and credit the fee to the environmental fund.

(b) The registration fee for manufacturers that sell 100 or more video display devices to households in the state during the previous calendar year is $2,500, plus a variable recycling fee. The registration fee for manufacturers that sell fewer than 100 video display devices in the state during the previous calendar year is a variable recycling fee. The variable recycling fee is calculated according to the formula:

[A - (B + C)] x D, where:

A = the manufacturer's recycling obligation as determined under section 115A.1320;

B = the number of pounds of covered electronic devices ~~recycled by~~ that a manufacturer recycled or arranged to have collected and recycled from households during the immediately preceding program year, as reported under section 115A.1316, subdivision 1;

C = the number of phase I or phase II recycling credits a manufacturer elects to use to calculate the variable recycling fee; and

D = the estimated per-pound cost of recycling, initially set at $0.50 per pound for manufacturers who recycle less than 50 percent of the manufacturer's recycling obligation; $0.40 per pound for manufacturers who recycle at least 50 percent but less than 90 percent of the manufacturer's recycling obligation; $0.30 per pound for manufacturers who recycle at least 90 percent but less than 100 percent of the manufacturer's recycling obligation; and $0.00 per pound for manufacturers who recycle 100 percent or more of the manufacturer's recycling obligation.

(c) A manufacturer may petition the agency to waive the per-pound cost of recycling fee, element D in the formula in paragraph (b), required under this section. The agency shall direct the commissioner of revenue to waive the per-pound cost of recycling fee if the manufacturer demonstrates to the agency's satisfaction a good faith effort to meet its recycling obligation as determined under section 115A.1320. The petition must include:

(1) documentation that the manufacturer has met at least 75 percent of its recycling obligation as determined under section 115A.1320;

(2) a list of political subdivisions and public and private collectors with whom the manufacturer had a formal contract or agreement in effect during the previous program year to recycle or collect covered electronic devices;

(3) the total amounts of covered electronic devices collected from both within and outside of the 11-county metropolitan area, as defined in subdivision 2;

(4) a description of the manufacturer's best efforts to meet its recycling obligation as determined under section 115A.1320; and

(5) any other information requested by the agency.

(d) A manufacturer may retain phase I and phase II recycling credits to be added, in whole or in part, to the actual value of C, as reported under section 115A.1316, subdivision 2, during any succeeding program year, provided that no more than 25 percent of a manufacturer's recycling obligation (A ~~x B~~) for any program year may be met with phase I and phase II recycling credits, separately or in combination, generated in a prior program year. A manufacturer may sell any portion or all of its phase I and phase II recycling credits to another manufacturer, at a price negotiated by the parties, who may use the credits in the same manner.

(e) For the purpose of determining B in calculating a manufacturer's variable recycling fee using the formula under paragraph (b), starting with the program year beginning July 1, 2019, and continuing each year thereafter, the weight of covered electronic devices ~~collected from~~ that a manufacturer recycled or arranged to have collected and recycled from households located outside the 11-county metropolitan area, as defined in subdivision 2, paragraph (b), is calculated at 1.5 times their actual weight.

Sec. 14. Minnesota Statutes 2020, section 115A.1316, subdivision 1, is amended to read:

Subdivision 1. **Manufacturer reporting requirements.** ~~(a) By August 1, 2016, each manufacturer must report to the agency using the form prescribed:~~

~~(1) the total weight of each specific model of its video display devices sold to households during the previous program year; and~~

~~(2) either:~~

~~(i) the total weight of its video display devices sold to households during the previous program year; or~~

~~(ii) an estimate of the total weight of its video display devices sold to households during the previous program year, calculated by multiplying the weight of its video display devices sold nationally times the quotient of Minnesota's population divided by the national population. All manufacturers with sales of 99 or fewer video display devices to households in the state during the previous calendar year must report using the method under this item for calculating sales.~~

~~(b)~~ (a) By March 1~~, 2017, and each March 1 thereafter~~ each year, each manufacturer must report to the agency using the form prescribed:

(1) the total weight of each specific model of its video display devices sold to households during the previous calendar year; and

(2) either:

(i) the total weight of its video display devices sold to households during the previous calendar year; or

(ii) an estimate of the total weight of its video display devices sold to households during the previous calendar year, calculated by multiplying the weight of its video display devices sold nationally times the quotient of Minnesota's population divided by the national population. All manufacturers with sales of 99 or fewer video display devices to households in the state during the previous calendar year must report using the method under this item for calculating sales.

A manufacturer must submit with the report required under this paragraph a description of how the information or estimate was calculated.

~~(c)~~ (b) By August 15 each year, each manufacturer must report to ~~the department until June 30, 2017, and to~~ the agency ~~thereafter,~~:

(1) the total weight of covered electronic devices the manufacturer collected from households and recycled or arranged to have collected and recycled during the preceding program year~~.~~;

~~(d) By August 15 each year, each manufacturer must report separately to the department until June 30, 2017, and to the agency thereafter:~~

~~(1)~~ (2) the number of phase I and phase II recycling credits the manufacturer has purchased and sold during the preceding program year;

~~(2)~~ (3) the number of phase I and phase II recycling credits possessed by the manufacturer that the manufacturer elects to use in the calculation of its variable recycling fee under section 115A.1314, subdivision 1; and

~~(3)~~ (4) the number of phase I and phase II recycling credits the manufacturer retains at the beginning of the current program year.

~~(e)~~ (c) Upon request of the commissioner of revenue, the agency shall provide a copy of each report to the commissioner of revenue.

Sec. 15. Minnesota Statutes 2020, section 115A.1318, subdivision 2, is amended to read:

Subd. 2. **Recycler responsibilities.** (a) As part of the report submitted under section 115A.1316, subdivision 2, a recycler must certify, except as provided in paragraph (b), that facilities that recycle covered electronic devices, including all downstream recycling operations:

(1) use only registered collectors;

(2) comply with all applicable health, environmental, safety, and financial responsibility regulations;

(3) are licensed by all applicable governmental authorities;

(4) use no prison labor to recycle video display devices;

(5) possess liability insurance of not less than $1,000,000 for environmental releases, accidents, and other emergencies;

(6) provide a report annually to each registered collector regarding the video display devices received from that entity; and

(7) do not charge collectors for ~~the transportation and~~ transporting, recycling ~~of~~, or any necessary supplies related to transporting or recycling covered electronic devices that meet a manufacturer's recycling obligation as determined under section 115A.1320, unless otherwise mutually agreed upon.

(b) A nonprofit corporation that contracts with a correctional institution to refurbish and reuse donated computers in schools is exempt from paragraph (a), clauses (4) and (5).

(c) Except to the extent otherwise required by law and unless agreed upon otherwise by the recycler or manufacturer, a recycler has no responsibility for any data that may be contained in a covered electronic device if an information storage device is included in the covered electronic device.

Sec. 16. Minnesota Statutes 2020, section 115A.1320, subdivision 1, is amended to read:

Subdivision 1. **Duties of agency.** (a) The agency shall administer sections 115A.1310 to 115A.1330.

(b) The agency shall establish procedures for:

(1) receipt and maintenance of the registration statements and certifications filed with the agency under section 115A.1312; and

(2) making the statements and certifications easily available to manufacturers, retailers, and members of the public.

(c) The agency shall annually review the following variables that are used to calculate a manufacturer's annual registration fee under section 115A.1314, subdivision 1:

(1) the obligation-setting mechanism for manufacturers as specified under paragraph (g);

(2) the estimated per-pound price of recycling covered electronic devices sold to households; and

(3) the base registration fee.

(d) If the agency determines that any of these values must be changed in order to improve the efficiency or effectiveness of the activities regulated under sections 115A.1312 to 115A.1330, or if the revenues exceed the amount that the agency determines is necessary, the agency shall submit recommended changes and the reasons for them to the chairs of the senate and house of representatives committees with jurisdiction over solid waste policy.

(e) By ~~September 1, 2016, and by May 1, 2017, and each~~ May 1 ~~thereafter~~ each year, the agency shall publish a statewide recycling goal for all video display device waste that is the weight of all video display devices collected for recycling during each of the three most recently completed program years, excluding the most recently concluded program year, divided by two. ~~For the program years beginning July 1, 2016, July 1, 2017, and July 1, 2018, the agency shall establish and publish separate statewide recycling goals for video display devices as follows:~~

~~(1) the agency shall set the statewide recycling goal for video display devices at 25,000,000 pounds, 23,000,000 pounds, and 21,000,000 pounds, respectively, during these successive program years;~~

~~(2) the agency shall set the recycling goal for televisions at 80 percent of the applicable amount in clause (1); and~~

~~(3) the agency shall set the recycling goal for computer monitors at 20 percent of the applicable amount in clause (1).~~

(f) By ~~September 1, 2016, and by May 1, 2017, and each~~ May 1 ~~thereafter~~ each year, the agency shall determine each registered manufacturer's market share of video display devices to be collected and recycled based on the manufacturer's percentage share of the total weight of video display devices sold as reported to the agency under section 115A.1316, subdivision 1.

(g) By ~~September 1, 2016, and by May 1, 2017, and each~~ May 1 ~~thereafter~~ each year, the agency shall provide each manufacturer with a determination of the manufacturer's share of video display devices to be collected and recycled. A manufacturer's market share of video display devices as specified in paragraph (f) is applied proportionally to the statewide recycling goal as specified in paragraph (e) to determine an individual manufacturer's recycling obligation. Upon request by the commissioner of revenue, the agency must provide the information submitted to manufacturers under this paragraph to the commissioner of revenue.

(h) The agency shall provide a report to the governor and the legislature on the implementation of sections 115A.1310 to 115A.1330. For each program year, the report must discuss the total weight of covered electronic devices recycled and a summary of information in the reports submitted by manufacturers and recyclers under section 115A.1316. The report must also discuss the various collection programs used by manufacturers to collect covered electronic devices; information regarding covered electronic devices that are being collected by persons other than registered manufacturers, collectors, and recyclers; and information about covered electronic devices, if any, being disposed of in landfills in this state. The report must examine which covered electronic devices, based on economic and environmental considerations, should be subject to the obligation-setting mechanism under paragraph (g). The report must include a description of enforcement actions under sections 115A.1310 to 115A.1330. The agency may include in its report other information received by the agency regarding the implementation of sections 115A.1312 to 115A.1330. The report must be done in conjunction with the report required under section 115A.121.

(i) The agency shall promote public participation in the activities regulated under sections 115A.1312 to 115A.1330 through public education and outreach efforts.

(j) The agency shall enforce sections 115A.1310 to 115A.1330 in the manner provided by sections 115.071, subdivisions 1, 3, 4, 5, and 6; and 116.072, except for those provisions enforced by the department, as provided in subdivision 2. The agency may revoke a registration of a collector or recycler found to have violated sections 115A.1310 to 115A.1330.

(k) The agency shall facilitate communication between counties, collection and recycling centers, and manufacturers to ensure that manufacturers are aware of video display devices available for recycling.

(l) The agency shall post on its website the contact information provided by each manufacturer under section 115A.1318, subdivision 1, paragraph (e).

Sec. 17. **[115A.40] CITATION.**

Sections 115A.40 to 115A.405 may be cited as the "Landfill Responsibility Act."

Sec. 18. **[115A.401] LEGISLATIVE GOALS AND INTENT.**

(a) It is the goal of the Landfill Responsibility Act to reduce the environmental impacts from all aspects of solid waste, from acquiring product material through disposing of product, and to prioritize the expansion of waste reduction or source reduction activities across the state. In accordance with the goals and policies of this chapter and the waste management preferences in section 115A.02, the Landfill Responsibility Act supports waste reduction and reuse.

(b) The legislature intends for the projects developed under the Landfill Responsibility Act to encourage a greater awareness of the need for and benefits of waste reduction and reuse and to develop a greater degree of cooperation and coordination among all elements of government, industry, and the public in advancing more sustainable actions.

Sec. 19. **[115A.402] DEFINITIONS.**

Subdivision 1. **Applicability.** For the purposes of sections 115A.40 to 115A.405, the terms defined in this section have the meanings given.

Subd. 2. **Applicable area.** "Applicable area" means an area described in a permit for a disposal facility that accepted mixed municipal solid waste during the immediately preceding year.

Subd. 3. **Covered entity.** "Covered entity" means the owner or operator of a disposal facility at which an applicable area is located.

Subd. 4. **Rate charged.** "Rate charged" means the total amount charged by a covered entity, per ton, to accept solid waste at a disposal facility for treatment, storage, processing, transfer, disposal, or any other purpose and includes tipping fees and service charges.

Sec. 20. **[115A.403] LANDFILL RESPONSIBILITY PROJECTS.**

Subdivision 1. **Project application and eligibility.** (a) Every three years, or more frequently at the commissioner's discretion, the commissioner must provide public notice and solicit proposals for eligible landfill responsibility projects.

(b) At any time after the notice is provided under paragraph (a), a person may propose a landfill responsibility project. Proposals must be submitted in the form and manner prescribed by the commissioner. At a minimum, a proposal must include:

(1) a description of the proposer's qualifications with waste reduction or source reduction;

(2) a description of the scope of the project, including how the project will result in waste reduction or source reduction;

(3) the expected amount of waste reduction or source reduction attributable to the project;

(4) a description of the timeline of the project;

(5) a detailed annual budget for the project;

(6) identification and a description of environmental justice areas served by the project;

(7) a description of how the project meets the following minimum requirements:

(i) is administered in the state;

(ii) does not supplant existing work;

(iii) provides a high return in environmental benefits, including but not limited to reducing greenhouse gas emissions;

(iv) demonstrates cost-effectiveness;

(v) has measurable outcomes for waste reduction or source reduction; and

(vi) includes only waste reduction or source reduction activities; and

(8) any other information required by the commissioner to evaluate the project.

(c) Only waste reduction and reuse as a waste management practice under section 115A.02, paragraph (b), clause (1), are eligible for project funding under this section. Waste management practices under section 115A.02, paragraph (b), clauses (2) to (6), are not eligible.

(d) The commissioner must establish and maintain a list of eligible landfill responsibility projects and make the list available to covered entities. The commissioner must evaluate proposals submitted under paragraph (b) and determine whether to include each proposal on the list of eligible landfill responsibility projects. The commissioner may remove a project from the list at any time if the project no longer meets the minimum criteria under paragraph (b), clause (7), or if the commissioner determines the project will not be completed as proposed.

(e) The waste reduction or source reduction activities of an eligible project as described in a proposal under paragraph (b) may not begin until:

(1) the project is included in a plan approved by the commissioner under subdivision 4; or

(2) the proposal is rescinded or the project is removed from the eligible projects list.

Subd. 2. **Obligation.** (a) Each year, a covered entity must fund eligible landfill responsibility projects according to this subdivision in an amount at least equal to the covered entity's obligation determined under paragraph (b).

(b) A covered entity's obligation is three percent of the covered entity's revenue and is calculated according to the formula:

$X=(A*B) * 0.03$

Where:

X is the total obligation that the covered entity must meet in the three-year approved plan

A is the annual average rate charged at an applicable area during the three-year period immediately preceding the date a plan must be submitted under subdivision 3

B is the total tons of solid waste accepted in the applicable area during the three-year period immediately preceding the date a plan must be submitted under subdivision 3

Subd. 3. **Covered entity plans.** (a) By January 1, 2023, and every third year thereafter, or more frequently as determined by the commissioner, a covered entity must submit a plan to the commissioner in the form and manner prescribed by the commissioner. The plan must include:

(1) the covered entity's obligation for the plan period as calculated in subdivision 2;

(2) a selection of projects from the list of eligible projects under subdivision 1, paragraph (d), according to the following:

(i) selection must be made so that 40 percent of the obligation will directly serve environmental justice areas; and

(ii) the total selection must include projects with budgets that annually meet or exceed the covered entity's obligation for the period of the plan;

(3) estimated amounts of waste reduction or source reduction for each selected project, categorized by material type;

(4) a description of how the covered entity will annually meet its obligation for each of the three years in the plan period; and

(5) any other criteria required by the commissioner to determine the sufficiency of the plan.

(b) The commissioner may modify dates for plan submission under paragraph (a) if the commissioner determines it is necessary to implement the Landfill Responsibility Act.

Subd. 4. **Commissioner review.** (a) Upon receiving a plan under subdivision 3, the commissioner must:

(1) notify a covered entity if a plan is incomplete, specifying the specific items that need to be submitted to make the plan complete;

(2) giving first-come first-served preference based on when a plan is submitted, require a covered entity to revise and resubmit a plan if the commissioner determines it necessary to:

(i) ensure that no more than 25 percent of the total obligation of all covered entities is allocated to a single recipient;

(ii) prevent duplicative selection of eligible projects;

(iii) prioritize fully funding individual eligible projects before selecting additional projects for funding; or

(iv) implement the Landfill Responsibility Act and remain consistent with other state law; and

(3) provide covered entities with plan approval, including any modifications required under this paragraph, within 45 days after the plan is submitted under subdivision 3.

(b) After receiving initial approval of a plan, a covered entity must revise and resubmit a plan for approval or disapproval if the eligible projects change during the plan period. If a project can no longer be completed as described, a covered entity must choose another project to meet its obligation. The covered entity must resubmit its plan to the commissioner if there is a substantial change in obligation or if an eligible project is unable to be performed as described.

Subd. 5. **Project implementation.** (a) After a plan is approved under subdivision 4, a covered entity must implement the plan.

(b) After a person receives funding from a covered entity, the covered entity and the person receiving funding must implement the plan according to the proposal submitted under subdivision 1. If a person implementing the project is no longer able to perform the project according to the proposal, the person must immediately notify the covered entity and the commissioner.

Subd. 6. **Reporting requirements.** (a) No later than February 1 each year, a covered entity must submit a report to the commissioner for the preceding calendar year. The annual report must be submitted in a form and manner prescribed by the commissioner and must include:

(1) a description of the covered entity's progress made toward objectives detailed in the plan developed under subdivision 3, including a summary of the projects completed for the reporting year;

(2) evidence, such as receipts, of meeting the covered entity's obligation for the previous year;

(3) the rate charged during the preceding calendar year;

(4) proof of how at least 40 percent of the covered entity's obligation is met through projects directly serving environmental justice; and

(5) any other information requested by the commissioner to determine compliance.

(b) No later than February 1 each year, a person receiving funding for a landfill responsibility project must submit a report to the commissioner for the preceding calendar year. The annual report must be submitted in a form and manner prescribed by the commissioner and must include:

(1) proof of the amount of funding received and the time frame for each eligible project;

(2) the time frame for the project;

(3) a description of the amount of waste reduction or source reduction achieved by the project during the reporting year by weight, categorized by material type;

(4) a description of how the project served environmental justice areas, if applicable;

(5) a description of how the data was measured and the activities used to achieve the specified waste reduction or source reduction amounts; and

(6) any other information requested by the commissioner to determine compliance.

Subd. 7. **Operating record.** A covered entity must record and maintain in an operating record all information used to determine the rate charged, including gate receipts and financial records, for a minimum of five years.

Subd. 8. **Duty to provide information.** If the commissioner requests information to determine compliance with this section, a person must furnish to the commissioner any information that the person may have or may reasonably obtain.

Sec. 21. **[115A.404] LANDFILL RESPONSIBILITY ASSESSMENT.**

(a) By January 1 each year, a covered entity must pay to the commissioner an assessment fee according to this section. The commissioner must deposit the fee in the state treasury and credit the fee to the environmental fund.

(b) The annual assessment fee is calculated for each covered entity according to the formula:

$X = A * (B/C)$

Where:

X is the assessment fee owed by each covered entity

A is the anticipated total annual cost to the agency to administer and implement the Landfill Responsibility Act for the following year, as determined by the commissioner

B is the total amount of solid waste, measured in tons, disposed of in a covered entity's applicable area or applicable areas according to the covered entity's most recent annual report

C is the total amount of solid waste, measured in tons, disposed of in the applicable areas at all covered entities according to the covered entities' most recent annual reports

Sec. 22. **[115A.405] WASTE COMPOSITION STUDY.**

Subdivision 1. **Waste composition study.** By January 1 each year, the commissioner must conduct a waste composition study at covered entities. When identifying facilities for waste composition studies, the commissioner must rotate the covered entities and each covered entity must allow the commissioner to perform a waste composition study at least once every three years.

Subd. 2. **Access.** The commissioner or commissioner's designee, upon presentation of credentials, may enter upon any public or private property to take any action authorized by this section. The covered entity must provide access to pertinent books and records and provide reasonable accommodations for a waste composition study to be completed accurately and safely.

Subd. 3. **Data compilation.** The commissioner must annually compile and summarize the waste composition data. The commissioner must make the summary information available to the public.

Sec. 23. Minnesota Statutes 2020, section 115A.565, subdivision 1, is amended to read:

Subdivision 1. **Grant program established.** The commissioner ~~shall~~ must make competitive grants to political subdivisions or federally recognized Tribes to establish curbside recycling or composting, increase recycling or composting, reduce the amount of recyclable materials entering disposal facilities, or reduce the costs associated with hauling waste by locating collection sites as close as possible to the site where the waste is generated. To be eligible for grants under this section, a political subdivision or federally recognized Tribe must be located outside the seven-county metropolitan area and a city must have a population of less than 45,000.

Sec. 24. Minnesota Statutes 2020, section 115B.17, subdivision 13, is amended to read:

Subd. 13. **Priorities; rules.** (a) By November 1, 1983, the Pollution Control Agency shall establish a temporary list of priorities among releases or threatened releases for the purpose of taking remedial action and, to the extent practicable consistent with the urgency of the action, for taking removal action under this section. The temporary list, with any necessary modifications, shall remain in effect until the Pollution Control Agency adopts rules establishing state criteria for determining priorities among releases and threatened releases. The Pollution Control Agency shall adopt the rules by July 1, 1984. After rules are adopted, a permanent priority list shall be established, and may be modified from time to time, using the current guidance and tools for the Hazard Ranking System adopted by the federal Environmental Protection Agency and according to the criteria set forth in the rules. Before any list is established under this subdivision the Pollution Control Agency shall publish the list in the State Register and allow 30 days for comments on the list by the public.

(b) The temporary list and the rules required by this subdivision shall be based upon the relative risk or danger to public health or welfare or the environment, taking into account to the extent possible the population at risk, the hazardous potential of the hazardous substances at the facilities, the potential for contamination of drinking water supplies, the potential for direct human contact, the potential for destruction of sensitive ecosystems, the administrative and financial capabilities of the Pollution Control Agency, and other appropriate factors.

Sec. 25. Minnesota Statutes 2020, section 115B.406, subdivision 1, is amended to read:

Subdivision 1. **Legislative findings.** The legislature recognizes the need to protect the public health and welfare and the environment at priority qualified facilities. To implement a timely and effective cleanup and prevent multiparty litigation, the legislature finds it is in the public interest to direct the commissioner of the Pollution Control Agency to:

(1) take environmental response actions that the commissioner deems reasonable and necessary to protect the public health or welfare or the environment at priority qualified facilities ~~and to~~;

(2) acquire real property interests at priority qualified facilities to ensure the completion and long-term effectiveness of environmental response actions~~.~~; and

(3) prevent both an unjust financial windfall to and double liability of owners and operators of priority qualified facilities.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to actions commenced on or after January 1, 2021.

Sec. 26. Minnesota Statutes 2020, section 115B.406, subdivision 9, is amended to read:

Subd. 9. **Environmental ~~response costs;~~ liens.** (a) All environmental response costs and reasonable and necessary expenses, including administrative and legal expenses, incurred by the commissioner at a priority qualified facility constitute a lien in favor of the state upon any real property located in the state, other than homestead property, owned by the owner or operator of the priority qualified facility who is subject to the requirements of section 115B.40, subdivision 4 or 5. Notwithstanding section 514.672, a lien under this paragraph continues until the lien is satisfied or is released according to paragraph (c).

(b) If the commissioner conducts an environmental response action at a priority qualified facility and the environmental response action increases the fair market value of the facility above the fair market value of the facility that existed before the response action was initiated, then the state has a lien on the facility for the increase in fair market value of the property attributable to the response action, valued at the time that construction of the final environmental response action was completed, not including operation and maintenance. Notwithstanding section 514.672, a lien under this paragraph continues until the lien is satisfied or is released according to paragraph (c).

(c) A lien under ~~this subdivision~~ paragraph (a) or (b) attaches when the environmental response costs are first incurred. ~~Notwithstanding section 514.672, a lien under this subdivision continues until the lien is satisfied or six years after completion of construction of the final environmental response action, not including operation and maintenance.~~ Notice, filing, ~~and~~ release, and enforcement of the lien are governed by sections 514.671 to 514.676, except where those requirements specifically are related to only cleanup action expenses as defined in section 514.671. The commissioner may release a lien under this subdivision if the commissioner determines that attachment or enforcement of the lien is not in the public interest. A lien under this subdivision is not subject to the foreclosure limitation described in section 514.674, subdivision 2. Relative priority of a lien under this subdivision is governed by section 514.672, except that a lien attached to property that was included in any permit for the priority qualified facility takes precedence over all other liens regardless of when the other liens were or are perfected. Amounts received to satisfy all or a part of a lien must be deposited in the remediation fund. An environmental lien notice for a lien under paragraph (a) or (b) must state that it is a lien in accordance with this section and identify whether the property described in the notice was included in any permit for the priority qualified facility.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to actions commenced on or after January 1, 2021.

Sec. 27. Minnesota Statutes 2020, section 115B.407, is amended to read:

115B.407 ~~ACQUISITION AND DISPOSITION~~ ACQUIRING AND DISPOSING OF REAL PROPERTY AT PRIORITY QUALIFIED FACILITIES.

Subdivision 1. **Acquiring and disposing of real property.** (a) The commissioner may acquire interests in real property by donation or eminent domain at all or a portion of a priority qualified facility. Condemnation under this section includes acquisition of fee title or an easement. After acquiring an interest in real property under this section, the commissioner must take environmental response actions at the priority qualified facility according to sections 115B.39 to 115B.414 after the legislature makes an appropriation for that purpose.

(b) The commissioner may dispose of real property acquired under this section according to section 115B.17, subdivision 16.

(c) Except as modified by this section, chapter 117 governs condemnation proceedings by the commissioner under this section. The exceptions under section 117.189 apply to the use of eminent domain authority under this section. Section 117.226 does not apply to properties acquired by the use of eminent domain authority under this section.

(d) The state is not liable under this chapter solely as a result of acquiring an interest in real property under this section.

Subd. 2. **Eminent domain damages.** (a) For purposes of this subdivision, the following terms have the meanings given:

(1) "after-market value" means the property value of that portion of the subject property remaining after a partial taking;

(2) "as remediated" means the condition of the property assuming the environmental response actions selected by the commissioner have been completed, including environmental covenants and easements and other institutional controls that may apply;

(3) "before-market value" means the property value of the entire subject property before the taking, less the remediation costs;

(4) "property value" means the fair market value of the real property, as remediated, less any reduction in value attributable to the stigma of pollution; and

(5) "remediation costs" means the reasonably foreseeable costs and expenses, including administrative and legal expenses, that the commissioner will incur to implement the environmental response actions that the commissioner selected for the property according to section 115B.406, subdivision 3, less the amount, if any, that the property owner demonstrates was released under section 115B.443, subdivision 8, which must not be greater than the extent of insurance coverage under policies for the property included in a settlement consistent with section 115B.443, subdivision 8.

(b) The damages awarded for condemnation of real property under this section is the greater of $500 or:

(1) for a total taking of the subject property, the before-market value; or

(2) for a partial taking of the subject property, the before-market value less the after-market value.

(c) When awarding damages in a condemnation proceeding under this section, in addition to any other requirement of chapter 117, the finder of fact must report:

(1) the amount determined for the property value of the entire subject property before the taking; and

(2) the itemized amount determined for remediation costs.

(d) The commissioner may seek recovery of environmental response costs only to the extent the costs exceed the lower of the remediation costs or the property value of the entire subject property before the taking as reported under paragraph (c).

(e) If the actual expenses incurred by the commissioner to take environmental response actions at the priority qualified facility as determined at the time construction of the final environmental response action was completed would have yielded a higher award of damages under this section, then the commissioner must reimburse the owner an amount equal to the amount of damages as if the actual expenses were used instead of the remediation costs, less any damages already awarded.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to actions commenced on or after January 1, 2021.

Sec. 28. Minnesota Statutes 2020, section 115B.421, is amended to read:

115B.421 CLOSED LANDFILL INVESTMENT FUND.

(a) The closed landfill investment fund is established in the state treasury. The fund consists of money credited to the fund, and interest and other earnings on money in the fund. Beginning July 1, 2003, funds must be deposited as described in section 115B.445. The fund shall be managed to maximize long-term gain through the State Board of Investment.

~~Money in~~ (b) Interest earned by the fund is appropriated to the commissioner and may be spent ~~by the commissioner after fiscal year 2020~~ in accordance with sections 115B.39 to 115B.444. By January 15 each year, the commissioner must submit a report to the chairs and ranking minority members of the house of representatives and senate committees and divisions with jurisdiction over environment policy and finance on the expenditure of money appropriated under this section. This paragraph expires June 30, 2025.

Sec. 29. Minnesota Statutes 2020, section 115B.49, subdivision 4, is amended to read:

Subd. 4. **Registration; fees.** (a) The owner or operator of a dry cleaning facility ~~shall~~ must register on or before October 1 of each year with the commissioner of revenue in a manner prescribed by the commissioner of revenue and pay a registration fee for the facility. The amount of the fee is~~:~~

~~(1) $500, for facilities with a full-time equivalence of fewer than five;~~ equal to ... percent of the facility's gross revenues for the preceding year.

~~(2) $1,000, for facilities with a full-time equivalence of five to ten; and~~

~~(3) $1,500, for facilities with a full-time equivalence of more than ten.~~

The registration fee must be paid on or before October 18 or the owner or operator of a dry cleaning facility may elect to pay the fee in equal installments. Installment payments must be paid on or before October 18, on or before January 18, on or before April 18, and on or before June 18. All payments made after October 18 bear interest at the rate specified in section 270C.40.

(b) A person who sells dry cleaning solvents for use by dry cleaning facilities in the state shall collect and remit to the commissioner of revenue in the same manner prescribed by the commissioner of revenue, for the taxes imposed under chapter 297A, a fee of:

(1) $3.50 for each gallon of perchloroethylene sold for use by dry cleaning facilities in the state;

(2) 70 cents for each gallon of hydrocarbon-based dry cleaning solvent sold for use by dry cleaning facilities in the state; and

(3) 35 cents for each gallon of other nonaqueous solvents sold for use by dry cleaning facilities in the state.

(c) The audit, assessment, appeal, collection, enforcement, and administrative provisions of chapters 270C and 289A apply to the fee imposed by this subdivision. To enforce this subdivision, the commissioner of revenue may grant extensions to file returns and pay fees, impose penalties and interest on the annual registration fee under paragraph (a) and the monthly fee under paragraph (b), and abate penalties and interest in the manner provided in chapters 270C and 289A. The penalties and interest imposed on taxes under chapter 297A apply to the fees imposed under this subdivision. Disclosure of data collected by the commissioner of revenue under this subdivision is governed by chapter 270B.

Sec. 30. Minnesota Statutes 2020, section 116.06, is amended by adding a subdivision to read:

Subd. 6a. **Commissioner.** "Commissioner" means the commissioner of the Minnesota Pollution Control Agency.

Sec. 31. **[116.064] PERMITTING; ENVIRONMENTAL JUSTICE AREAS.**

Subdivision 1. **Definitions.** (a) For the purposes of this section, the terms in this subdivision have the meanings given.

(b) "Census block" means the smallest geographical unit for which the United States Census Bureau tabulates decennial census data.

(c) "Cumulative impacts analysis" means the potential public health and environmental impacts affecting a specific geographical area from past, present, and foreseeable future exposure to pollutants from all media and incorporates the concept of a community's vulnerability to withstand incremental environmental impacts.

(d) "Environmental justice" means that:

(1) communities of color, Indigenous communities, and low-income communities have a healthy environment and are treated fairly when environmental statutes, rules, and policies are developed, adopted, implemented, and enforced; and

(2) in all decisions that have the potential to affect the environment of an environmental justice area or the public health of its residents, due consideration is given to the history of those residents' cumulative exposure to pollutants and to any current socioeconomic conditions that increase the physical sensitivity of those residents to additional exposure to pollutants.

(e) "Environmental justice area" means one or more census blocks in Minnesota:

(1) in which, based on the most recent data published by the United States Census Bureau:

(i) 40 percent or more of the population is nonwhite;

(ii) 35 percent or more of the households have an income at or below 200 percent of the federal poverty level; or

(iii) 40 percent or more of the population over the age of five have limited English proficiency; or

(2) within Indian country, as defined in United State Code, title 18, section 1151.

Subd. 2. **Rulemaking.** No later than November 1, 2021, the commissioner must begin the process to adopt rules under chapter 14 that implement the provisions of this section to establish a process and decision-making criteria the agency must utilize to address the permitting of facilities that have the potential to impact the environment of environmental justice areas and the health of persons residing within them.

Subd. 3. **Application.** The provisions of this section apply to an application for a new permit, permit renewal, or major permit amendment filed with the agency whose emissions or releases of pollutants may affect an environmental justice area.

Subd. 4. **Environmental justice area; determination.** The agency has the responsibility to determine the geographical boundaries of an environmental justice area. The agency's determination of the boundaries of an environmental justice area may be appealed by the filing of a petition signed by at least 50 residents filed with the commissioner that contains evidence that one or more census blocks meet the definition of environmental justice area in subdivision 1, paragraph (e). The commissioner may, after reviewing the petition, amend the boundaries of an environmental justice area.

Subd. 5. **Process; cumulative impact analysis.** (a) The agency must ensure that residents of an environmental justice area are notified about all steps in the permitting process and the progress of the analysis required to be conducted under this section. Notification must include but not be limited to postings on the agency's website and direct delivery of written materials to environmental justice area residents in applicable languages in areas where English proficiency is limited.

(b) When a new facility or a proposed expansion of an existing facility is located in an environmental justice area, the owner or operator of the facility must:

(1) conduct an analysis of the cumulative impacts that the facility or expansion would cause or contribute to in the environmental justice area; and

(2) if seeking a state permit under chapter 115 or 116, hold at least one public meeting in the environmental justice area before the commissioner issues or denies a permit.

(c) The commissioner may require a permitted facility located in an environmental justice area to hold in-person meetings with nearby residents to share information and discuss community concerns. The commissioner may establish the number and frequency of required meetings as permit conditions.

(d) A cumulative impact analysis must also describe demographic and socioeconomic conditions that may make residents of an environmental justice area more vulnerable to the effects of incremental exposure to environmental pollutants. The analysis, based on publicly available or otherwise obtainable data, must include but is not limited to the following factors:

(1) demographic factors, including the age distribution and racial and ethnic characteristics of the population;

Sec. 90. Minnesota Statutes 2020, section 290C.01, is amended to read:

290C.01 PURPOSE.

It is the policy of this state to promote sustainable forest resource management on the state's public and private lands. The state's private forests comprise approximately one-half of the state forest land resources. These forests play a critical role in protecting water quality and soil resources, and provide extensive wildlife habitat, natural carbon sequestration, diverse recreational experiences, and significant forest products that support the state's economy. Ad valorem property taxes represent a significant annual cost that can discourage long-term forest management investments. In order to foster silviculture investments and retain these forests for their economic and ecological benefits, this chapter, hereafter referred to as the "Sustainable Forest Incentive Act," is enacted to encourage the state's private forest landowners to make a long-term commitment to sustainable forest management.

Sec. 91. **TIMBER PERMITS; CANCELLATION AND EXTENSION.**

Subdivision 1. **Eligibility.** (a) For the purposes of this section, an "eligible permit" is a timber permit issued before July 1, 2020.

(c) In order to be eligible under subdivisions 2, 4, and 5, a permit holder must submit the written request to the commissioner of natural resources before the expiration of the permit or by July 1, 2021, whichever is earlier.

Subd. 2. **Extensions.** Upon written request to the commissioner of natural resources by the holder of an eligible permit with more than 30 percent of the total permit volume in any combination of spruce or balsam fir, the commissioner may grant an extension of the permit for two years without penalty or interest.

Subd. 3. **Unused balsam fir.** The commissioner of natural resources may cancel any provision in a timber sale that requires the security payment for or removal of all or part of the balsam fir when the permit contains more than 50 cords of balsam fir. The commissioner may require the permit holder to fell or pile the balsam fir to meet management objectives.

Subd. 4. **Refunds.** (a) Upon written request to the commissioner of natural resources by the holder of an eligible permit that is inactive and intact with more than 30 percent of the total permit volume in any combination of spruce or balsam fir, the commissioner may cancel the permit and refund the sale security, advance payments, or bid guarantee as applicable for the permit to the permit holder.

(b) Upon written request to the commissioner of natural resources by the holder of an eligible active permit with more than 30 percent of the total permit volume in any combination of spruce or balsam fir and a previously existing cutting block agreement, the commissioner may cancel any intact cutting block designated in the permit that was not bonded or bonded before July 1, 2020, and refund security, as applicable, for the cutting block to the permit holder. Any partially harvested cutting block is ineligible to be canceled under this paragraph. The remaining provisions of the permit remain in effect.

Subd. 5. **Good Neighbor Authority.** The commissioner of natural resources, in consultation with the United States Forest Service, may negotiate and provide holders of eligible permits with more than 30 percent of the total permit volume in any combination of spruce or balsam fir a method to voluntarily return intact cutting blocks designated in Good Neighbor Authority permits. Upon written request by the eligible permit holder, the commissioner may cancel any intact cutting block designated in the permit that was not bonded or bonded before July 1, 2020, and refund applicable security for the cutting block to the permit holder. Any partially harvested cutting block is ineligible to be canceled under this subdivision. The remaining provisions of the permit remain in effect.

Sec. 93. **CARBON SEQUESTRATION IN FORESTS OF THE STATE; GOALS.**

The commissioner of natural resources must establish goals for increasing carbon sequestration in public and private forests in the state. To achieve the goals, the commissioner must identify sustainable forestry strategies that increase the ability of forests to sequester atmospheric carbon while enhancing other ecosystem services, such as improved soil and water quality. By January 15, 2023, the commissioner must submit a report with the goals and recommended forestry strategies to the chairs and ranking minority members of the legislative committees and divisions with jurisdiction over natural resources policy.

Sec. 94. **STATE PARK PERMIT FEES; FISCAL YEAR 2022.**

(b) To determine the value of the land, the parties to the exchange may either (1) cause the land to be appraised, or (2) determine the value for each 40-acre tract or lot, or a portion thereof, using the ~~most current~~ township or county assessment schedules within the preceding two years for similar land types from the county assessor of the county in which the lands are located. Merchantable timber value should be considered in finalizing valuation of the lands.

(c) Except for school trust lands and university lands, the lands exchanged under this section shall be exchanged only for lands of at least substantially equal value. For the purposes of this subdivision, "substantially equal value" has the meaning given under section 94.343, subdivision 3, paragraph (b). (e) The state land administered by the commissioner of natural resources in Koochiching County borders the Lost River. The lands to be exchanged are not required to provide at least equal opportunity for access to waters by the public, but the lands must be at least equal in value and have the potential to generate revenue for the school trust lands.

Subd. 2. **Gifts of land.** Notwithstanding Minnesota Statutes, section 94.342 or 94.343, or any other law to the contrary, the Land Exchange Board may consider a gift of land from the exchange partner pursuant to Minnesota Statutes, section 84.085, subdivision 1, paragraph (d), in addition to land proposed for exchange with the state land referenced in subdivision 1, paragraph (b), in determining whether the proposal is in the best interests of the school trust.

(5) the average length of time individuals convicted as an extended jurisdiction juvenile spend on probation.

Sec. 5. Minnesota Statutes 2020, section 241.021, subdivision 1, is amended to read:

Subdivision 1. **Correctional facilities; inspection; licensing.** (a) Except as provided in paragraph (b), the commissioner of corrections shall inspect and license all correctional facilities throughout the state, whether public or private, established and operated for the detention and confinement of persons ~~detained or~~ confined or incarcerated therein according to law except to the extent that they are inspected or licensed by other state regulating agencies. The commissioner shall promulgate pursuant to chapter 14, rules establishing minimum standards for these facilities with respect to their management, operation, physical condition, and the security, safety, health, treatment, and discipline of persons ~~detained or~~ confined or incarcerated therein. ~~Commencing September 1, 1980,~~ These minimum standards shall include but are not limited to specific guidance pertaining to:

(1) screening, appraisal, assessment, and treatment for persons confined or incarcerated in correctional facilities with mental illness or substance use disorders;

(2) a policy on the involuntary administration of medications;

(3) suicide prevention plans and training;

(4) verification of medications in a timely manner;

(5) well-being checks;

(6) discharge planning, including providing prescribed medications to persons confined or incarcerated in correctional facilities upon release;

(7) a policy on referrals or transfers to medical or mental health care in a noncorrectional institution;

(8) use of segregation and mental health checks;

(9) critical incident debriefings;

(10) clinical management of substance use disorders;

(11) a policy regarding identification of persons with special needs confined or incarcerated in correctional facilities;

(12) a policy regarding the use of telehealth;

(13) self-auditing of compliance with minimum standards;

(14) information sharing with medical personnel and when medical assessment must be facilitated;

(15) a code of conduct policy for facility staff and annual training;

(16) a policy on death review of all circumstances surrounding the death of an individual committed to the custody of the facility; and

(17) dissemination of a rights statement made available to persons confined or incarcerated in licensed correctional facilities.

No individual, corporation, partnership, voluntary association, or other private organization legally responsible for the operation of a correctional facility may operate the facility unless ~~licensed by~~ it possesses a current license from the commissioner of corrections. Private adult correctional facilities shall have the authority of section 624.714, subdivision 13, if the Department of Corrections licenses the facility with ~~such~~ the authority and the facility meets requirements of section 243.52.

The commissioner shall review the correctional facilities described in this subdivision at least once every ~~biennium~~ two years, except as otherwise provided ~~herein~~, to determine compliance with the minimum standards established ~~pursuant~~ according to this subdivision or other law related to minimum standards and conditions of confinement.

The commissioner shall grant a license to any facility found to conform to minimum standards or to any facility which, in the commissioner's judgment, is making satisfactory progress toward substantial conformity and the standards not being met do not impact the interests and well-being of the persons ~~detained or~~ confined ~~therein~~ or incarcerated in the facility ~~are protected~~. A limited license under subdivision 1a may be issued for purposes of effectuating a facility closure. The commissioner may grant licensure up to two years. Unless otherwise specified by statute, all licenses issued under this chapter expire at 12:01 a.m. on the day after the expiration date stated on the license.

The commissioner shall have access to the buildings, grounds, books, records, staff, and to persons ~~detained or~~ confined or incarcerated in these facilities. The commissioner may require the officers in charge of these facilities to furnish all information and statistics the commissioner deems necessary, at a time and place designated by the commissioner.

All facility administrators of correctional facilities defined under subdivision 1g are required to report all deaths of individuals who died while committed to the custody of the facility, regardless of whether the death occurred at the facility or after removal from the facility for medical care stemming from an incident or need for medical care at the correctional facility, as soon as practicable, but no later than 24 hours of receiving knowledge of the death, including any demographic information as required by the commissioner.

All facility administrators of correctional facilities defined under subdivision 1g are required to report all other emergency or unusual occurrences as defined by rule, including uses of force by facility staff that result in substantial bodily harm or suicide attempts, to the commissioner of corrections within ten days from the occurrence, including any demographic information as required by the commissioner. The commissioner of corrections shall consult with the Minnesota Sheriffs' Association and a representative from the Minnesota Association of Community Corrections Act Counties who is responsible for the operations of an adult correctional facility to define "use of force" that results in substantial bodily harm for reporting purposes.

The commissioner may require that any or all such information be provided through the Department of Corrections detention information system. The commissioner shall post each inspection report publicly and on the department's website within 30 days of completing the inspection. The education program offered in a correctional facility for the ~~detention or~~ confinement or incarceration of juvenile offenders must be approved by the commissioner of education before the commissioner of corrections may grant a license to the facility.

(b) For juvenile facilities licensed by the commissioner of human services, the commissioner may inspect and certify programs based on certification standards set forth in Minnesota Rules. For the purpose of this paragraph, "certification" has the meaning given it in section 245A.02.

(c) Any state agency which regulates, inspects, or licenses certain aspects of correctional facilities shall, insofar as is possible, ensure that the minimum standards it requires are substantially the same as those required by other state agencies which regulate, inspect, or license the same aspects of similar types of correctional facilities, although at different correctional facilities.

(d) Nothing in this section shall be construed to limit the commissioner of corrections' authority to promulgate rules establishing standards of eligibility for counties to receive funds under sections 401.01 to 401.16, or to require counties to comply with operating standards the commissioner establishes as a condition precedent for counties to receive that funding.

(e) The department's inspection unit must report directly to a division head outside of the correctional institutions division.

~~(e) When the commissioner finds that any facility described in paragraph (a), except foster care facilities for delinquent children and youth as provided in subdivision 2, does not substantially conform to the minimum standards established by the commissioner and is not making satisfactory progress toward substantial conformance, the commissioner shall promptly notify the chief executive officer and the governing board of the facility of the deficiencies and order that they be remedied within a reasonable period of time. The commissioner may by written order restrict the use of any facility which does not substantially conform to minimum standards to prohibit the detention of any person therein for more than 72 hours at one time. When, after due notice and hearing, the commissioner finds that any facility described in this subdivision, except county jails and lockups as provided in sections 641.26, 642.10, and 642.11, does not conform to minimum standards, or is not making satisfactory progress toward substantial compliance therewith, the commissioner may issue an order revoking the license of that facility. After revocation of its license, that facility shall not be used until its license is renewed. When the commissioner is satisfied that satisfactory progress towards substantial compliance with minimum standard is being made, the commissioner may, at the request of the appropriate officials of the affected facility supported by a written schedule for compliance, grant an extension of time for a period not to exceed one year.~~

~~(f) As used in this subdivision, "correctional facility" means any facility, including a group home, having a residential component, the primary purpose of which is to serve persons placed therein by a court, court services department, parole authority, or other correctional agency having dispositional power over persons charged with, convicted, or adjudicated to be guilty or delinquent.~~

Sec. 6. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1a. **Correction order; conditional license.** (a) When the commissioner finds that any facility described in subdivision 1, except foster care facilities for delinquent children and youth as provided in subdivision 2, does not substantially conform to the minimum standards established by the commissioner and is not making satisfactory progress toward substantial conformance and the nonconformance does not present an imminent risk of life-threatening harm or serious physical injury to the persons confined or incarcerated in the facility, the commissioner shall promptly notify the facility administrator and the governing board of the facility of the deficiencies and must issue a correction order or a conditional license order that the deficiencies be remedied within a reasonable and specified period of time.

The conditional license order may restrict the use of any facility which does not substantially conform to minimum standards, including imposition of conditions limiting operation of the facility or parts of the facility, reducing facility capacity, limiting intake, limiting length of detention for individuals, or imposing detention limitations based on the needs of the individuals being confined or incarcerated therein.

The correction order or conditional license order must clearly state the following:

(1) the specific minimum standards violated, noting the implicated rule or law;

(2) the findings that constitute a violation of minimum standards;

(3) the corrective action needed;

(4) time allowed to correct each violation; and

(5) if a license is made conditional, the length and terms of the conditional license, any conditions limiting operation of the facility, and the reasons for making the license conditional.

(b) The facility administrator may request review of the findings noted in the conditional license order on the grounds that satisfactory progress toward substantial compliance with minimum standards has been made, supported by evidence of correction, and, if appropriate, may include a written schedule for compliance. The commissioner shall review the evidence of correction and the progress made toward substantial compliance with minimum standards within a reasonable period of time, not to exceed ten business days. When the commissioner has assurance that satisfactory progress toward substantial compliance with minimum standards is being made, the commissioner shall lift any conditions limiting operation of the facility or parts of the facility or remove the conditional license order.

(c) Nothing in this section prohibits the commissioner from ordering a revocation under subdivision 1b prior to issuing a correction order or conditional license order.

Sec. 7. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1b. **License revocation order.** (a) When, after due notice to the facility administrator of the commissioner's intent to issue a revocation order, the commissioner finds that any facility described in this subdivision, except county jails and lockups subject to active condemnation proceedings or orders as provided in sections 641.26, 642.10, and 642.11, does not conform to minimum standards, or is not making satisfactory progress toward substantial compliance with minimum standards, and the nonconformance does not present an imminent risk of life-threatening harm or serious physical injury to the persons confined or incarcerated in the facility, the commissioner may issue an order revoking the license of that facility.

The notice of intent to issue a revocation order shall include:

(1) the citation to minimum standards that have been violated;

(2) the nature and severity of each violation;

(3) whether the violation is recurring or nonrecurring;

(4) the effect of the violation on persons confined or incarcerated in the correctional facility;

(5) an evaluation of the risk of harm to persons confined or incarcerated in the correctional facility;

(6) relevant facts, conditions, and circumstances concerning the operation of the licensed facility, including at a minimum:

(i) specific facility deficiencies that endanger the health or safety of persons confined or incarcerated in the correctional facility;

(ii) substantiated complaints relating to the correctional facility; or

(iii) any other evidence that the correctional facility is not in compliance with minimum standards.

(b) The facility administrator must submit a written response within 30 days of receipt of the notice of intent to issue a revocation order with any information related to errors in the notice, ability to conform to minimum standards within a set period of time including but not limited to a written schedule for compliance, and any other information the facility administrator deems relevant for consideration by the commissioner. The written response must also include a written plan indicating how the correctional facility will ensure the transfer of confined or incarcerated individuals and records if the correctional facility closes. Plans must specify arrangements the correctional facility will make to transfer confined or incarcerated individuals to another licensed correctional facility for continuation of detention.

(c) When revoking a license, the commissioner shall consider the nature, chronicity, or severity of the violation of law or rule and the effect of the violation on the health, safety, or rights of persons confined or incarcerated in the correctional facility.

(d) If the facility administrator does not respond within 30 days to the notice of intent to issue a revocation order or if the commissioner does not have assurance that satisfactory progress toward substantial compliance with minimum standards will be made, the commissioner shall issue a revocation order. The revocation order must be sent to the facility administrator and the governing board of the facility, clearly stating:

(1) the specific minimum standards violated, noting the implicated rule or law;

(2) the findings that constitute a violation of minimum standards and the nature, chronicity, or severity of those violations;

(3) the corrective action needed;

(4) any prior correction or conditional license orders issued to correct violations; and

(5) the date at which the license revocation shall take place.

A revocation order may authorize use until a certain date, not to exceed the duration of the current license, unless a limited license is issued by the commissioner for purposes of effectuating a facility closure and continued operation does not present an imminent risk of life-threatening harm or is not likely to result in serious physical injury to the persons confined or incarcerated in the facility.

(e) After revocation of the facility's licensure, that facility shall not be used until the license is renewed. When the commissioner is satisfied that satisfactory progress toward substantial compliance with minimum standards is being made, the commissioner may, at the request of the facility administrator supported by a written schedule for compliance, reinstate the license.

Sec. 8. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1c. **Temporary license suspension.** The commissioner shall act immediately to temporarily suspend a license issued under this chapter if:

(1) the correctional facility's failure to comply with applicable minimum standards or the conditions in the correctional facility pose an imminent risk of life-threatening harm or serious physical injury to persons confined or incarcerated in the facility, staff, law enforcement, visitors, or the public; and

(i) if the imminent risk of life-threatening harm or serious physical injury cannot be promptly corrected through a different type of order under this section; and

(ii) the correctional facility cannot or has not corrected the violation giving rise to the imminent risk of life-threatening harm or serious physical injury; or

(2) while the correctional facility continues to operate pending due notice and opportunity for written response to the commissioner's notice of intent to issue an order of revocation, the commissioner identifies one or more subsequent violations of minimum standards which may adversely affect the health or safety of persons confined or incarcerated in the facility, staff, law enforcement, visitors, or the public.

A notice stating the reasons for the immediate suspension informing the facility administrator must be delivered by personal service to the correctional facility administrator and the governing board of the facility.

Sec. 9. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1d. **Public notice of restriction, revocation, or suspension.** If the license of a facility under this section is revoked or suspended, or use of the facility is restricted for any reason under a conditional license order, the commissioner shall post the facility, the status of the facility's license, and the reason for the restriction, revocation, or suspension publicly and on the department's website.

Sec. 10. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1e. **Reconsideration of orders; appeals.** (a) If the facility administrator believes the correction order, conditional license order, or revocation order is in error, the facility administrator may ask the Department of Corrections to reconsider the parts of the order or action that are alleged to be in error. The request for reconsideration must:

(1) be made in writing;

(2) be postmarked and sent to the commissioner no later than 30 calendar days after receipt of the correction order, conditional license order, or revocation order;

(3) specify the parts of the order that are alleged to be in error;

(4) explain why the correction order, conditional license order, or revocation order is in error; and

(5) include documentation to support the allegation of error.

The commissioner shall issue a disposition within 60 days of receipt of the facility administrator's response to correction, conditional license, or revocation order violations. A request for reconsideration does not stay any provisions or requirements of the order.

(b) The facility administrator may request reconsideration of an order immediately suspending a license. The request for reconsideration of an order immediately suspending a license must be made in writing and sent by certified mail, personal service, or other means expressly stated in the commissioner's order. If mailed, the request for reconsideration must be postmarked and sent to the commissioner no later than five business days after the facility administrator receives notice that the license has been immediately suspended. If a request is made by personal service, it must be received by the commissioner no later than five business days after the facility administrator received the order. The request for reconsideration must:

(1) specify the parts of the order that are alleged to be in error;

(2) explain why they are in error; and

(3) include documentation to support the allegation of error.

A facility administrator and the governing board of the facility shall discontinue operation of the correctional facility upon receipt of the commissioner's order to immediately suspend the license.

(c) Within five business days of receipt of the facility administrator's timely request for reconsideration of a temporary immediate suspension, the commissioner shall review the request for reconsideration. The scope of the review shall be limited solely to the issue of whether the temporary immediate suspension order should remain in effect pending the written response to commissioner's notice of intent to issue a revocation order.

The commissioner's disposition of a request for reconsideration of correction, conditional license, temporary immediate suspension, or revocation order is final and subject to appeal. The facility administrator must request reconsideration as required by this section of any correction, conditional license, temporary immediate suspension, or revocation order prior to appeal.

No later than 60 days after the postmark date of the mailed notice of the commissioner's decision on a request for reconsideration, the facility administrator may appeal the decision by filing for a writ of certiorari with the court of appeals under section 606.01 and Minnesota Rules of Civil Appellate Procedure, Rule 115.

Sec. 11. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1f. **Report.** By February 15, 2022, and by February 15 each year thereafter, the commissioner of corrections shall report to the chairs and ranking minority members of the house of representatives and senate committees and divisions with jurisdiction over public safety and judiciary on the status of the implementation of the provisions in this section over the prior year, particularly the health and safety of individuals confined or incarcerated in a state correctional facility and a facility licensed by the commissioner. This report shall include but not be limited to data regarding:

(1) the number of confined or incarcerated persons who died while committed to the custody of the facility, regardless of whether the death occurred at the facility or after removal from the facility for medical care stemming from an incident or need for medical care at the correctional facility, including aggregated demographic information and the correctional facilities' most recent inspection reports and any corrective orders or conditional licenses issued;

(2) the aggregated results of the death reviews by facility as required by subdivision 8, including any implemented policy changes;

(3) the number of uses of force by facility staff on persons confined or incarcerated in the correctional facility, including but not limited to whether those uses of force were determined to be justified by the facility, for which the commissioner of corrections shall consult with the Minnesota Sheriffs' Association and a representative from the Minnesota Association of Community Corrections Act Counties who is responsible for the operations of an adult correctional facility to develop criteria for reporting and define reportable uses of force;

(4) the number of suicide attempts, number of people transported to a medical facility, and number of people placed in segregation;

(5) the number of persons committed to the commissioner of corrections' custody that the commissioner is housing in facilities licensed under subdivision 1, including but not limited to:

(i) aggregated demographic data of those individuals;

(ii) length of time spent housed in a licensed correctional facility; and

(iii) any contracts the Department of Corrections has with correctional facilities to provide housing; and

(6) summary data from state correctional facilities regarding complaints involving alleged on-duty staff misconduct, including but not limited to the:

(i) total number of misconduct complaints and investigations;

(ii) total number of complaints by each category of misconduct, as defined by the commissioner of corrections;

(iii) number of allegations dismissed as unfounded;

(iv) number of allegations dismissed on grounds that the allegation was unsubstantiated; and

(v) number of allegations substantiated, any resulting disciplinary action, and the nature of the discipline.

Sec. 12. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1g. **Biennial assessment and audit of security practices; state correctional facilities.** (a) Beginning in 2022, the commissioner shall have the department's inspection unit conduct biennial security audits of each state correctional facility using the standards promulgated by the state correctional facilities security audit group. The unit must prepare a report for each assessment and audit and submit the report to the state correctional facilities security audit group within 30 days of completion of the audit.

(b) Corrections and detention confidential data, as defined in section 13.85, subdivision 3, that is contained in reports and records of the group maintain that classification, regardless of their classification in the hands of the person who provided the data, and are not subject to discovery or introduction into evidence in a civil or criminal action against the state arising out of the matters the group is reviewing. Information, documents, and records otherwise available from other sources are not immune from discovery or use in a civil or criminal action solely because they were acquired during the group's audit. This section does not limit a person who presented information to the group or who is a member of the group from testifying about matters within the person's knowledge. However, in a civil or criminal proceeding, a person may not be questioned about the person's good faith presentation of information to the group or opinions formed by the person as a result of the group's audits.

Sec. 13. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1h. **State correctional facilities security audit group.** (a) Beginning in fiscal year 2022, the commissioner shall form a state correctional facilities security audit group. The group must consist of the following members:

(1) a department employee who is not assigned to the correctional institutions division, appointed by the commissioner;

(2) the ombudsperson for corrections;

(3) an elected sheriff or designee nominated by the Minnesota Sheriffs Association and appointed by the commissioner;

(4) a physical plant safety consultant, appointed by the governor;

(5) a private security consultant with expertise in correctional facility security, appointed by the governor;

(6) two senators, one appointed by the senate majority leader and one appointed by the minority leader; and

(7) two representatives, one appointed by the speaker of the house and one appointed by the minority leader of the house of representatives.

(b) By January 1, 2022, the group shall establish security audit standards for state correctional facilities. In developing the standards, the group, or individual members of the group, may gather information from state correctional facilities and state correctional staff and inmates. The security audit group must periodically review the standards and modify them as needed. The group must report the standards to the chairs and ranking minority members of the house of representatives and senate committees with jurisdiction over public safety policy and finance by February 15, 2022.

(c) The group shall review facility audit reports submitted to the group by the agency's inspection unit. Notwithstanding any law to the contrary, the group is entitled to review the full audit reports including corrections and detention confidential data. Within 60 days of receiving an audit report from the department's inspection unit, the group must make recommendations to the commissioner. Within 45 days of receiving the group's recommendations, the commissioner must reply in writing to the group's findings and recommendations. The commissioner's response must explain whether the agency will implement the group's recommendations, the timeline for implementation of the changes, and, if not, why the commissioner will not or cannot implement the group's recommendations.

(d) Beginning in 2023, the commissioner must include a written aggregate of the group's recommendations based on each security audit and assessment of a state correctional facility and the commissioner's responses to the recommendations in the biennial report required under section 241.016, subdivision 1. The commissioner shall not include corrections and detention confidential data, as defined in section 13.85, subdivision 3, in the commissioner's report to the legislature.

(e) The commissioner shall provide staffing and administrative support to the group.

Sec. 14. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 1i. **Definition.** As used in this section, "correctional facility" means any facility, including a group home, having a residential component, the primary purpose of which is to serve persons placed therein by a court, court services department, parole authority, or other correctional agency having dispositional power over persons charged with, convicted, or adjudicated guilty or delinquent.

Sec. 15. Minnesota Statutes 2020, section 241.021, subdivision 2a, is amended to read:

Subd. 2a. **Affected municipality; notice.** The commissioner must not ~~issue~~ grant a license without giving 30 calendar days' written notice to any affected municipality or other political subdivision unless the facility has a licensed capacity of six or fewer persons and is occupied by either the licensee or the group foster home parents. The notification must be given before the license is first ~~issuance of a license~~ granted and annually after that time if annual notification is requested in writing by any affected municipality or other political subdivision. State funds must not be made available to or be spent by an agency or department of state, county, or municipal government for payment to a foster care facility licensed under subdivision 2 until the provisions of this subdivision have been complied with in full.

Sec. 16. Minnesota Statutes 2020, section 241.021, subdivision 2b, is amended to read:

Subd. 2b. **Licensing; facilities; juveniles from outside state.** The commissioner may not:

(1) ~~issue~~ grant a license under this section to operate a correctional facility for the detention or confinement of juvenile offenders if the facility accepts juveniles who reside outside of Minnesota without an agreement with the entity placing the juvenile at the facility that obligates the entity to pay the educational expenses of the juvenile; or

(2) renew a license under this section to operate a correctional facility for the detention or confinement of juvenile offenders if the facility accepts juveniles who reside outside of Minnesota without an agreement with the entity placing the juvenile at the facility that obligates the entity to pay the educational expenses of the juvenile.

Sec. 17. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 2c. **Searches.** The commissioner shall not grant a license to any county, municipality, or agency to operate a facility for the detention, care, and training of delinquent children and youth unless the county, municipality, or agency institutes a policy strictly prohibiting the visual inspection of breasts, buttocks, or genitalia of children and youth received by the facility except during a health care procedure conducted by a medically licensed person.

Sec. 18. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 2d. **Disciplinary room time.** The commissioner shall not grant a license to any county, municipality, or agency to operate a facility for the detention, care, and training of delinquent children and youth unless the county, municipality, or agency institutes a policy strictly prohibiting the use of disciplinary room time for children and youth received by the facility. Seclusion used in emergency situations as a response to imminent danger to the resident or others, when less restrictive interventions are determined to be ineffective, is not a violation of this subdivision.

Sec. 19. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 7. **Intake release of information.** All correctional facilities that confine or incarcerate adults are required at intake to provide each person an authorization form to release information related to that person's health or mental health condition and when that information should be shared. This release form shall allow the individual to select if the individual wants to require the correctional facility to make attempts to contact the designated person to facilitate the sharing of health condition information upon incapacitation or if the individual becomes unable to communicate or direct the sharing of this information, so long as contact information was provided and the incapacitated individual or individual who is unable to communicate or direct the sharing of this information is not subject to a court order prohibiting contact with the designated person.

Sec. 20. Minnesota Statutes 2020, section 241.021, is amended by adding a subdivision to read:

Subd. 8. **Death review teams.** In the event a correctional facility as defined in subdivision 1g receives information of the death of an individual while committed to the custody of the facility, regardless of whether the death occurred at the facility or after removal from the facility for medical care stemming from an incident or need for medical care at the correctional facility, the administrator of the facility, minimally including a medical expert of the facility's choosing who did not provide medical services to the individual, and, if appropriate, a mental health expert, shall review the circumstances of the death and assess for preventable mortality and morbidity, including recommendations for policy or procedure change, within 90 days of death. The investigating law enforcement agency may provide documentation, participate in, or provide documentation and participate in the review in instances where criminal charges were not brought. A preliminary autopsy report must be provided as part of the review and any subsequent autopsy findings as available. The facility administrator shall provide notice to the commissioner of corrections via the Department of Corrections detention information system that the correctional facility has conducted a review and identify any recommendations for changes in policy, procedure, or training that will be implemented. Any report or other documentation created for purposes of a facility death review is confidential as defined in section 13.02, subdivision 3. Nothing in this section relieves the facility administrator from complying with the notice of death to the commissioner as required by subdivision 1, paragraph (a).

Sec. 21. Minnesota Statutes 2020, section 241.025, subdivision 1, is amended to read:

Subdivision 1. **Authorization.** The commissioner of corrections may appoint peace officers, as defined in section 626.84, subdivision 1, paragraph (c), who shall serve in the classified service subject to the provisions of section 43A.01, subdivision 2, and establish a law enforcement agency, as defined in section 626.84, subdivision 1, paragraph (f), known as the Department of Corrections Fugitive Apprehension Unit, to perform the duties necessary to make statewide arrests under sections 629.30 and 629.34. The Department of Corrections Fugitive Apprehension Unit may exercise general law enforcement duties during the course of official duties, including carrying out law enforcement activities in coordination with the law enforcement agency of jurisdiction, investigating criminal offenses in agency-operated correctional facilities and surrounding property, and assisting other law enforcement agencies upon request.

Sec. 22. Minnesota Statutes 2020, section 241.025, subdivision 2, is amended to read:

Subd. 2. **Limitations.** The initial processing of a person arrested by the fugitive apprehension unit for an offense ~~within the agency's jurisdiction~~ is the responsibility of the fugitive apprehension unit unless otherwise directed by the law enforcement agency with primary jurisdiction. A subsequent investigation is the responsibility of the law enforcement agency of the jurisdiction ~~in which a new crime is committed~~ unless the law enforcement agency authorizes the fugitive apprehension unit to assume the subsequent investigation. At the request of the primary jurisdiction, the fugitive apprehension unit may assist in subsequent investigations or law enforcement efforts being carried out by the primary jurisdiction. Persons arrested for violations that the fugitive apprehension unit determines are not within the agency's jurisdiction must be referred to the appropriate local law enforcement agency for further investigation or disposition.

Sec. 23. Minnesota Statutes 2020, section 241.025, subdivision 3, is amended to read:

Subd. 3. **Policies.** The fugitive apprehension unit must develop and file all policies required under state law for law enforcement agencies. The fugitive apprehension unit also must develop a policy for contacting law enforcement agencies in a city or county before initiating any fugitive surveillance, investigation, or apprehension within the city or county. ~~These policies must be filed with the board of peace officers standards and training by November 1, 2000.~~ Revisions of any of these policies must be filed with the board within ten days of the effective date of the revision. The Department of Corrections shall train all of its peace officers regarding the application of these policies.

(6) a record of the programs that the inmate completed while in prison;

(7) an accounting of any court-ordered payments, fines, and fees owed by the inmate upon release of which the department has knowledge;

(8) assistance in obtaining a Social Security card;

(9) a medical discharge summary;

(10) information on how the inmate may obtain a complete copy of the inmate's medical record at no charge to the inmate; and

(11) general information on the Supplemental Nutrition Assistance Program (SNAP) benefits, eligibility criteria, and application process.

Subd. 2. **Assistance relating to birth certificate and identification cards.** (a) Upon the request of an inmate, the commissioner shall assist the inmate in obtaining a copy of the inmate's birth certificate at no cost to the inmate. (b) The commissioner, in collaboration with the Department of Public Safety, shall facilitate the provision of a state identification card to an inmate at no cost to the inmate under the same criteria described in paragraph (a) relating to birth certificates, provided the inmate possesses the necessary qualifying documents to obtain the card.

(c) The commissioner shall inform inmates of the commissioner's duties under paragraphs (a) and (b) upon intake and again upon the initiation of release planning.

Subd. 4. **Medications.** (a) When releasing an inmate from prison, the commissioner shall provide the inmate with a one-month supply of any non-narcotic medications that have been prescribed to the inmate and a prescription for a 30-day supply of these medications that may be refilled twice.

(b) Paragraph (a) applies only to the extent the requirement is consistent with clinical guidelines and permitted under state and federal law.

(c) Nothing in this subdivision overrides the requirements in section 244.054.

Subd. 5. **Exception; release violators.** Subdivisions 1 to 3 do not apply to inmates who are being imprisoned for a release violation. Subdivision 4 applies to all inmates being released.

(3) development of internal metrics for the agency to report on its progress toward implementing the plan and achieving the plan's goals.

(b) The commissioner shall submit the plan to the chairs and ranking minority members of the legislative committees having jurisdiction over criminal justice policy and finance by October 31, 2022.

Subd. 2. **Reporting on individuals released to homelessness.** (a) By February 15 of each year beginning in 2022, the commissioner shall report to the chairs and ranking minority members of the legislative committees having jurisdiction over criminal justice policy and finance the following information on adults, disaggregated by race, gender, and county of release:

(2) the total number released to homelessness by each Minnesota correctional facility;

(3) the total number released to homelessness by county of release; and

(4) the total number under supervised, intensive supervised, or conditional release following release from prison who reported experiencing homelessness or a lack of housing stability.

A moderate fee may be required of visitors, other than those allowed to visit at pleasure. All fees so collected shall be reported and remitted to the commissioner of management and budget under rules as the commissioner may deem proper, and when so remitted shall be placed to the credit of the general fund.

Sec. 27. Minnesota Statutes 2020, section 243.52, is amended to read:

243.52 DISCIPLINE; PREVENTION OF ESCAPE; DUTY TO REPORT.

Subdivision 1. **Discipline and prevention of escape** If any ~~inmate of~~ person confined or incarcerated in any adult correctional facility either under the control of the commissioner of corrections or licensed by the commissioner of corrections under section 241.021 assaults any correctional officer or any other person ~~or inmate~~, the assaulted person may use force in defense of the assault, except as limited in this section. If any ~~inmate~~ confined or incarcerated person attempts to damage the buildings or appurtenances, resists the lawful authority of any

correctional officer, refuses to obey the correctional officer's reasonable demands, or attempts to escape, the correctional officer may enforce obedience and discipline or prevent escape by the use of force. If any ~~inmate~~ confined or incarcerated person resisting lawful authority is wounded or killed by the use of force by the correctional officer or assistants, that conduct is authorized under this section.

Subd. 2. **Use of force.** (a) Use of force must not be applied maliciously or sadistically for the purpose of causing harm to a confined or incarcerated person.

(b) Unless the use of deadly force is justified in this section, a correctional officer working in a correctional facility as defined in section 241.021 may not use any of the following restraints:

(1) a choke hold;

(2) a prone restraint;

(3) tying all of a person's limbs together behind the person's back to render the person immobile; or

(4) securing a person in any way that results in transporting the person face down in a vehicle, except as directed by a medical professional.

(c) For the purposes of this subdivision, the following terms have the meanings given them:

(1) "choke hold" means a method by which a person applies sufficient pressure to a person to make breathing difficult or impossible, and includes but is not limited to any pressure to the neck, throat, or windpipe that may prevent or hinder breathing or reduce intake of air. Choke hold also means applying pressure to a person's neck on either side of the windpipe, but not to the windpipe itself, to stop the flow of blood to the brain via the carotid arteries;

(2) "prone restraint" means the use of manual restraint that places a person in a face-down position; and

~~As used in this section, "use of force" means conduct which is defined by sections 609.06 to 609.066.~~ (3) "deadly force" has the meaning given in section 609.066, subdivision 1.

(d) Use of deadly force is justified only if an objectively reasonable correctional officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that deadly force is necessary:

(1) to protect the correctional officer or another from death or great bodily harm, provided that the threat:

(i) can be articulated with specificity by the correctional officer;

(ii) is reasonably likely to occur absent action by the correctional officer; and

(iii) must be addressed through the use of deadly force without unreasonable delay; or

(2) to effect the capture or prevent the escape of a person when the officer reasonably believes that the person will cause death or great bodily harm to another person under the threat criteria in clause (1), unless immediately apprehended.

Subd. 3. **Duty to report.** (a) Regardless of tenure or rank, staff working in a correctional facility as defined in section 241.021 who observe another employee engage in neglect or use force that exceeds the degree of force permitted by law must report the incident in writing as soon as practicable, but no later than 24 hours to the administrator of the correctional facility that employs the reporting staff member.

(b) A staff member who fails to report neglect or excessive use of force within 24 hours is subject to disciplinary action or sanction by the correctional facility that employs them. Staff members shall suffer no reprisal for reporting another staff member engaged in excessive use of force or neglect.

(c) For the purposes of this subdivision, "neglect" means:

(1) the knowing failure or omission to supply a person confined or incarcerated in the facility with care or services, including but not limited to food, clothing, health care, or supervision that is reasonable and necessary to obtain or maintain the person's physical or mental health or safety; or

(2) the absence or likelihood of absence of care or services, including but not limited to food, clothing, health care, or supervision necessary to maintain the physical and mental health of the person that a reasonable person would deem essential for health, safety, or comfort.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 28. **[243.95] PRIVATE PRISON CONTRACTS PROHIBITED.**

The commissioner may not contract with privately owned and operated prisons for the care, custody, and rehabilitation of offenders committed to the custody of the commissioner.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 29. **[244.049] INDETERMINATE SENTENCE RELEASE BOARD.**

Subdivision 1. **Establishment; membership.** (a) The Indeterminate Sentence Release Board is established to review eligible cases and make release decisions for inmates serving indeterminate sentences under the authority of the commissioner.

(b) The board shall consist of five members as follows:

(1) four persons appointed by the governor from two recommendations of each of the majority leaders and minority leaders of the house of representatives and the senate; and

(2) the commissioner of corrections who shall serve as chair.

(1) a bachelor's degree in criminology, corrections, or a related social science, or a law degree;

(2) five years of experience in corrections, a criminal justice or community corrections field, rehabilitation programming, behavioral health, or criminal law; and

(3) demonstrated knowledge of victim issues and correctional processes.

Subd. 2. **Terms; compensation.** (a) Members of the board shall serve four-year staggered terms except that the terms of the initial members of the board must be as follows:

(1) two members must be appointed for terms that expire January 1, 2024; and

(2) two members must be appointed for terms that expire January 1, 2026.

(b) A member is eligible for reappointment.

(c) Vacancies on the board shall be filled in the same manner as the initial appointments under subdivision 1.

(d) Member compensation and removal of members on the board shall be as provided in section 15.0575.

Subd. 3. **Quorum; administrative duties.** (a) The majority of members constitutes a quorum.

(b) The commissioner of corrections shall provide the board with personnel, supplies, equipment, office space, and other administrative services necessary and incident to the discharge of the functions of the board.

Subd. 4. **Limitation.** Nothing in this section supersedes the commissioner's authority to revoke an inmate's release for a violation of the inmate's terms of release or impairs the power of the Board of Pardons to grant a pardon or commutation in any case.

Subd. 5. **Report.** On or before February 15 each year, the board shall submit to the legislative committees with jurisdiction over criminal justice policy a written report detailing the number of inmates reviewed and identifying persons granted release in the preceding year. The report shall also include the board's recommendations for policy modifications that influence the board's duties.

Sec. 30. Minnesota Statutes 2020, section 244.05, subdivision 5, is amended to read:

Subd. 5. **Supervised release, life sentence.** (a) The ~~commissioner of corrections~~ board may, under rules ~~promulgated~~ adopted by the commissioner and upon majority vote of the board members, give supervised release to an inmate serving a mandatory life sentence under section 609.185, paragraph (a), clause (3), (5), or (6); 609.3455, subdivision 3 or 4; 609.385; or Minnesota Statutes 2004, section 609.109, subdivision 3, after the inmate has served the minimum term of imprisonment specified in subdivision 4.

(b) The ~~commissioner~~ board shall require the preparation of a community investigation report and shall consider the findings of the report when making a supervised release decision under this subdivision. The report shall reflect the sentiment of the various elements of the community toward the inmate, both at the time of the offense and at the present time. The report shall include the views of the sentencing judge, the prosecutor, any law enforcement personnel who may have been involved in the case, and any successors to these individuals who may have information relevant to the supervised release decision. The report shall also include the views of the victim and the victim's family unless the victim or the victim's family chooses not to participate.

(c) The commissioner shall make reasonable efforts to notify the victim, in advance, of the time and place of the inmate's supervised release review hearing. The victim has a right to submit an oral or written statement at the review hearing. The statement may summarize the harm suffered by the victim as a result of the crime and give the victim's recommendation on whether the inmate should be given supervised release at this time. The ~~commissioner~~ board must consider the victim's statement when making the supervised release decision.

(d) When considering whether to give supervised release to an inmate serving a life sentence under section 609.3455, subdivision 3 or 4, the ~~commissioner~~ board shall consider, at a minimum, the following: the risk the inmate poses to the community if released, the inmate's progress in treatment, the inmate's behavior while incarcerated, psychological or other diagnostic evaluations of the inmate, the inmate's criminal history, and any other relevant conduct of the inmate while incarcerated or before incarceration. The ~~commissioner~~ board may not give supervised release to the inmate unless:

(1) while in prison:

(i) the inmate has successfully completed appropriate sex offender treatment;

(ii) the inmate has been assessed for chemical dependency needs and, if appropriate, has successfully completed chemical dependency treatment; and

(iii) the inmate has been assessed for mental health needs and, if appropriate, has successfully completed mental health treatment; and

(2) a comprehensive individual release plan is in place for the inmate that ensures that, after release, the inmate will have suitable housing and receive appropriate aftercare and community-based treatment. The comprehensive plan also must include a postprison employment or education plan for the inmate.

(e) As used in this subdivision~~,~~:

(1) "board" means the Indeterminate Sentence Release Board under section 244.049; and

(2) "victim" means the individual who suffered harm as a result of the inmate's crime or, if the individual is deceased, the deceased's surviving spouse or next of kin.

Sec. 31. Minnesota Statutes 2020, section 244.065, is amended to read:

244.065 PRIVATE EMPLOYMENT OF INMATES OR SPECIALIZED PROGRAMMING FOR PREGNANT INMATES OF STATE CORRECTIONAL INSTITUTIONS IN COMMUNITY.

Subdivision 1. **Work.** When consistent with the public interest and the public safety, the commissioner of corrections may conditionally release an inmate to work at paid employment, seek employment, or participate in a vocational training or educational program, as provided in section 241.26, if the inmate has served at least one half of the term of imprisonment.

Subd. 2. **Pregnancy.** (a) In the furtherance of public interest and community safety, the commissioner of corrections may conditionally release:

(1) for up to one year postpartum, an inmate who gave birth within eight months of the date of commitment; and

(2) for the duration of the pregnancy and up to one year postpartum, an inmate who is pregnant.

(b) The commissioner may conditionally release an inmate under paragraph (a) to community-based programming for the purpose of participation in prenatal or postnatal care programming and to promote mother-child bonding in addition to other programming requirements as established by the commissioner, including evidence-based parenting skills programming; working at paid employment; seeking employment; or participating in vocational training, an educational program, or chemical dependency or mental health treatment services.

(c) The commissioner shall develop policy and criteria to implement this subdivision according to public safety and generally accepted correctional practice.

(d) By April 1 of each year, the commissioner shall report to the chairs and ranking minority members of the house of representatives and senate committees with jurisdiction over corrections on the number of inmates released and the duration of the release under this subdivision for the prior calendar year.

Sec. 32. Minnesota Statutes 2020, section 244.19, subdivision 3, is amended to read:

Subd. 3. **Powers and duties.** All county probation officers serving a district court shall act under the orders of the court in reference to any person committed to their care by the court, and in the performance of their duties shall have the general powers of a peace officer; and it shall be their duty to make such investigations with regard to any

person as may be required by the court before, during, or after the trial or hearing, and to furnish to the court such information and assistance as may be required; to take charge of any person before, during or after trial or hearing when so directed by the court, and to keep such records and to make such reports to the court as the court may order.

All county probation officers serving a district court shall, in addition, provide probation and parole services to wards of the commissioner of corrections resident in the counties they serve, and shall act under the orders of said commissioner of corrections in reference to any ward committed to their care by the commissioner of corrections.

All probation officers serving a district court shall, under the direction of the authority having power to appoint them, initiate programs for the welfare of persons coming within the jurisdiction of the court to prevent delinquency and crime and to rehabilitate within the community persons who come within the jurisdiction of the court and are properly subject to efforts to accomplish prevention and rehabilitation. They shall, under the direction of the court, cooperate with all law enforcement agencies, schools, child welfare agencies of a public or private character, and other groups concerned with the prevention of crime and delinquency and the rehabilitation of persons convicted of crime and delinquency.

All probation officers serving a district court shall make monthly and annual reports to the commissioner of corrections, on forms furnished by the commissioner, containing such information on number of cases cited to the juvenile division of district court, offenses, adjudications, dispositions, and related matters as may be required by the commissioner of corrections. The reports shall include the information on individuals convicted as an extended jurisdiction juvenile identified in section 241.016, subdivision 1, paragraph (c).

Sec. 33. Minnesota Statutes 2020, section 244.195, subdivision 2, is amended to read:

Subd. 2. **Detention pending hearing.** When it appears necessary to enforce discipline or to prevent a person on conditional release from escaping or absconding from supervision, a court services director has the authority to issue a written order directing any peace officer or any probation officer in the state serving the district and juvenile courts to detain and bring the person before the court or the commissioner, whichever is appropriate, for disposition. If the person on conditional release commits a violation described in section 609.14, subdivision 1a, paragraph (a), the court services director must have a reasonable belief that the order is necessary to prevent the person from escaping or absconding from supervision or that the continued presence of the person in the community presents a risk to public safety before issuing a written order. This written order is sufficient authority for the peace officer or probation officer to detain the person for not more than 72 hours, excluding Saturdays, Sundays, and holidays, pending a hearing before the court or the commissioner.

Sec. 34. **[260B.008] USE OF RESTRAINTS.**

(a) As used in this section, "restraints" means a mechanical or other device that constrains the movement of a person's body or limbs.

(b) Restraints may not be used on a child appearing in court in a proceeding under this chapter unless the court finds that:

(1) the use of restraints is necessary:

(i) to prevent physical harm to the child or another; or

(ii) to prevent the child from fleeing in situations in which the child presents a substantial risk of flight from the courtroom; and

(2) there are no less restrictive alternatives to restraints that will prevent flight or physical harm to the child or another, including but not limited to the presence of court personnel, law enforcement officers, or bailiffs.

The finding in clause (1), item (i), may be based, among other things, on the child having a history of disruptive courtroom behavior or behavior while in custody for any current or prior offense that has placed others in potentially harmful situations, or presenting a substantial risk of inflicting physical harm on the child or others as evidenced by past behavior. The court may take into account the physical structure of the courthouse in assessing the applicability of the above factors to the individual child.

(c) The court shall be provided the child's behavior history and shall provide the child an opportunity to be heard in person or through counsel before ordering the use of restraints. If restraints are ordered, the court shall make findings of fact in support of the order.

(d) By April 1, 2022, each judicial district shall develop a protocol to address how to implement and comply with this section. In developing the protocol, a district shall consult with law enforcement agencies, prosecutors, public defenders within the district, and any other entity deemed necessary by the district's chief judge.

EFFECTIVE DATE. Paragraphs (a), (b), and (c) are effective April 15, 2022. Paragraph (d) is effective the day following final enactment.

Sec. 35. Minnesota Statutes 2020, section 260B.163, subdivision 1, is amended to read:

Subdivision 1. **General.** (a) Except for hearings arising under section 260B.425, hearings on any matter shall be without a jury and may be conducted in an informal manner, except that a child who is prosecuted as an extended jurisdiction juvenile has the right to a jury trial on the issue of guilt. The rules of evidence promulgated pursuant to section 480.0591 and the law of evidence shall apply in adjudicatory proceedings involving a child alleged to be delinquent, an extended jurisdiction juvenile, or a juvenile petty offender, and hearings conducted pursuant to section 260B.125 except to the extent that the rules themselves provide that they do not apply.

(b) When a continuance or adjournment is ordered in any proceeding, the court may make any interim orders as it deems in the best interests of the minor in accordance with the provisions of sections 260B.001 to 260B.421.

(c) Except as otherwise provided in this paragraph, the court shall exclude the general public from hearings under this chapter and shall admit only those persons who, in the discretion of the court, have a direct interest in the case or in the work of the court. The court shall permit the victim of a child's delinquent act to attend any related delinquency proceeding, except that the court may exclude the victim:

(1) as a witness under the Rules of Criminal Procedure; and

(2) from portions of a certification hearing to discuss psychological material or other evidence that would not be accessible to the public.

The court shall open the hearings to the public in ~~delinquency or~~ extended jurisdiction juvenile proceedings where the child is alleged to have committed an offense or has been proven to have committed an offense that would be a felony if committed by an adult and the child was at least 16 years of age at the time of the offense, except that the court may exclude the public from portions of a certification hearing to discuss psychological material or other evidence that would not be accessible to the public in an adult proceeding.

(d) In all delinquency cases a person named in the charging clause of the petition as a person directly damaged in person or property shall be entitled, upon request, to be notified by the court administrator in writing, at the named person's last known address, of (1) the date of the certification or adjudicatory hearings, and (2) the disposition of the case.

Sec. 36. **[260B.1755] ALTERNATIVE TO ARREST OF CERTAIN JUVENILE OFFENDERS AUTHORIZED.**

(a) A peace officer who has probable cause to believe that a child is a petty offender or delinquent child may refer the child to a program, including restorative programs, that the law enforcement agency with jurisdiction over the child deems appropriate.

(b) If a peace officer or law enforcement agency refers a child to a program under paragraph (a), the peace officer or law enforcement agency may defer issuing a citation or a notice to the child to appear in juvenile court, transmitting a report to the prosecuting authority, or otherwise initiating a proceeding in juvenile court.

(c) After receiving notice that a child who was referred to a program under paragraph (a) successfully completed that program, a peace officer or law enforcement agency shall not issue a citation or a notice to the child to appear in juvenile court, transmit a report to the prosecuting authority, or otherwise initiate a proceeding in juvenile court for the conduct that formed the basis of the referral.

(d) This section does not apply to peace officers acting pursuant to an order or warrant described in section 260B.175, subdivision 1, paragraph (a), or other court order to take a child into custody.

Sec. 37. Minnesota Statutes 2020, section 260B.176, is amended by adding a subdivision to read:

Subd. 1a. **Risk assessment instrument.** If a peace officer or probation or parole officer who took a child into custody does not release the child as provided in subdivision 1, the peace officer or probation or parole officer shall communicate with or deliver the child to a juvenile secure detention facility to determine whether the child should be released or detained. Before detaining a child, the supervisor of the facility shall use an objective and racially, ethnically, and gender-responsive juvenile detention risk assessment instrument developed by the commissioner of corrections, county, group of counties, or judicial district, in consultation with the state coordinator or coordinators of the Minnesota Juvenile Detention Alternatives Initiative. The risk assessment instrument must assess the likelihood that a child released from preadjudication detention under this section or section 260B.178 would endanger others or not return for a court hearing. The instrument must identify the appropriate setting for a child who might endanger others or not return for a court hearing pending adjudication, with either continued detention or placement in a noncustodial community-based supervision setting. The instrument must also identify the type of noncustodial community-based supervision setting necessary to minimize the risk that a child who is released from custody will endanger others or not return for a court hearing. If, after using the instrument, a determination is made that the child should be released, the person taking the child into custody or the supervisor of the facility shall release the child as provided in subdivision 1.

EFFECTIVE DATE. This section is effective August 15, 2022.

Sec. 38. Minnesota Statutes 2020, section 260B.176, subdivision 2, is amended to read:

Subd. 2. **Reasons for detention.** (a) If the child is not released as provided in subdivision 1, the person taking the child into custody shall notify the court as soon as possible of the detention of the child and the reasons for detention.

(b) No child may be detained in a secure detention facility after being taken into custody for a delinquent act as defined in section 260B.007, subdivision 6, unless the child is over the age of 12.

~~(b)~~ (c) No child may be detained in a juvenile secure detention facility or shelter care facility longer than 36 hours, excluding Saturdays, Sundays, and holidays, after being taken into custody for a delinquent act as defined in section 260B.007, subdivision 6, unless a petition has been filed and the judge or referee determines pursuant to section 260B.178 that the child shall remain in detention.

~~(c)~~ (d) No child may be detained in an adult jail or municipal lockup longer than 24 hours, excluding Saturdays, Sundays, and holidays, or longer than six hours in an adult jail or municipal lockup in a standard metropolitan statistical area, after being taken into custody for a delinquent act as defined in section 260B.007, subdivision 6, unless:

(1) a petition has been filed under section 260B.141; and

(2) a judge or referee has determined under section 260B.178 that the child shall remain in detention.

After August 1, 1991, no child described in this paragraph may be detained in an adult jail or municipal lockup longer than 24 hours, excluding Saturdays, Sundays, and holidays, or longer than six hours in an adult jail or municipal lockup in a standard metropolitan statistical area, unless the requirements of this paragraph have been met and, in addition, a motion to refer the child for adult prosecution has been made under section 260B.125. Notwithstanding this paragraph, continued detention of a child in an adult detention facility outside of a standard metropolitan statistical area county is permissible if:

(i) the facility in which the child is detained is located where conditions of distance to be traveled or other ground transportation do not allow for court appearances within 24 hours. A delay not to exceed 48 hours may be made under this clause; or

(ii) the facility is located where conditions of safety exist. Time for an appearance may be delayed until 24 hours after the time that conditions allow for reasonably safe travel. "Conditions of safety" include adverse life-threatening weather conditions that do not allow for reasonably safe travel.

The continued detention of a child under clause (i) or (ii) must be reported to the commissioner of corrections.

~~(d)~~ (e) If a child described in paragraph ~~(c)~~ (d) is to be detained in a jail beyond 24 hours, excluding Saturdays, Sundays, and holidays, the judge or referee, in accordance with rules and procedures established by the commissioner of corrections, shall notify the commissioner of the place of the detention and the reasons therefor. The commissioner shall thereupon assist the court in the relocation of the child in an appropriate juvenile secure detention facility or approved jail within the county or elsewhere in the state, or in determining suitable alternatives. The commissioner shall direct that a child detained in a jail be detained after eight days from and including the date of the original detention order in an approved juvenile secure detention facility with the approval of the administrative authority of the facility. If the court refers the matter to the prosecuting authority pursuant to section 260B.125, notice to the commissioner shall not be required.

~~(e)~~ (f) When a child is detained for an alleged delinquent act in a state licensed juvenile facility or program, or when a child is detained in an adult jail or municipal lockup as provided in paragraph ~~(c)~~ (d), the supervisor of the facility shall, if the child's parent or legal guardian consents, have a children's mental health screening conducted with a screening instrument approved by the commissioner of human services, unless a screening has been performed within the previous 180 days or the child is currently under the care of a mental health professional. The screening shall be conducted by a mental health practitioner as defined in section 245.4871, subdivision 26, or a probation officer who is trained in the use of the screening instrument. The screening shall be conducted after the initial detention hearing has been held and the court has ordered the child continued in detention. The results of the screening may only be presented to the court at the dispositional phase of the court proceedings on the matter unless the parent or legal guardian consents to presentation at a different time. If the screening indicates a need for assessment, the local social services agency or probation officer, with the approval of the child's parent or legal guardian, shall have a diagnostic assessment conducted, including a functional assessment, as defined in section 245.4871.

Sec. 39. Minnesota Statutes 2020, section 260C.007, subdivision 6, is amended to read:

Subd. 6. **Child in need of protection or services.** "Child in need of protection or services" means a child who is in need of protection or services because the child:

(1) is abandoned or without parent, guardian, or custodian;

(2)(i) has been a victim of physical or sexual abuse as defined in section 260E.03, subdivision 18 or 20, (ii) resides with or has resided with a victim of child abuse as defined in subdivision 5 or domestic child abuse as defined in subdivision 13, (iii) resides with or would reside with a perpetrator of domestic child abuse as defined in subdivision 13 or child abuse as defined in subdivision 5 or 13, or (iv) is a victim of emotional maltreatment as defined in subdivision 15;

(3) is without necessary food, clothing, shelter, education, or other required care for the child's physical or mental health or morals because the child's parent, guardian, or custodian is unable or unwilling to provide that care;

(4) is without the special care made necessary by a physical, mental, or emotional condition because the child's parent, guardian, or custodian is unable or unwilling to provide that care;

(5) is medically neglected, which includes, but is not limited to, the withholding of medically indicated treatment from an infant with a disability with a life-threatening condition. The term "withholding of medically indicated treatment" means the failure to respond to the infant's life-threatening conditions by providing treatment, including appropriate nutrition, hydration, and medication which, in the treating physician's or advanced practice registered nurse's reasonable medical judgment, will be most likely to be effective in ameliorating or correcting all conditions, except that the term does not include the failure to provide treatment other than appropriate nutrition, hydration, or medication to an infant when, in the treating physician's or advanced practice registered nurse's reasonable medical judgment:

(i) the infant is chronically and irreversibly comatose;

(ii) the provision of the treatment would merely prolong dying, not be effective in ameliorating or correcting all of the infant's life-threatening conditions, or otherwise be futile in terms of the survival of the infant; or

(iii) the provision of the treatment would be virtually futile in terms of the survival of the infant and the treatment itself under the circumstances would be inhumane;

Subdivision 1. **Peace officers and probation officers serving CCA counties.** (a) When it appears necessary to enforce discipline or to prevent a person on conditional release from escaping or absconding from supervision, the chief executive officer or designee of a community corrections agency in a CCA county has the authority to issue a written order directing any peace officer or any probation officer in the state serving the district and juvenile courts to detain and bring the person before the court or the commissioner, whichever is appropriate, for disposition. If the person on conditional release commits a violation described in section 609.14, subdivision 1a, paragraph (a), the chief executive officer or designee must have a reasonable belief that the order is necessary to prevent the person from escaping or absconding from supervision or that the continued presence of the person in the community presents a risk to public safety before issuing a written order. Sec. 41. Minnesota Statutes 2020, section 401.06, is amended to read:

401.06 COMPREHENSIVE PLAN; STANDARDS OF ELIGIBILITY; COMPLIANCE.

No county or group of counties electing to provide correctional services pursuant to sections 401.01 to 401.16 shall be eligible for the subsidy herein provided unless and until its comprehensive plan shall have been approved by the commissioner. The commissioner shall, pursuant to the Administrative Procedure Act, promulgate rules establishing standards of eligibility for counties to receive funds under sections 401.01 to 401.16. To remain eligible for subsidy counties shall maintain substantial compliance with the minimum standards established pursuant to sections 401.01 to 401.16 and the policies and procedures governing the services described in section 401.025 as prescribed by the commissioner. Counties shall also be in substantial compliance with other correctional operating

standards permitted by law and established by the commissioner and shall report statistics required by the commissioner including but not limited to information on individuals convicted as an extended jurisdiction juvenile identified in section 241.016, subdivision 1, paragraph (c). The commissioner shall review annually the comprehensive plans submitted by participating counties, including the facilities and programs operated under the plans. The commissioner is hereby authorized to enter upon any facility operated under the plan, and inspect books and records, for purposes of recommending needed changes or improvements.

When the commissioner shall determine that there are reasonable grounds to believe that a county or group of counties is not in substantial compliance with minimum standards, at least 30 days' notice shall be given the county or counties and a hearing conducted by the commissioner to ascertain whether there is substantial compliance or satisfactory progress being made toward compliance. The commissioner may suspend all or a portion of any subsidy until the required standard of operation has been met.

Sec. 42. Minnesota Statutes 2020, section 609.14, subdivision 1, is amended to read:

Subdivision 1. **Grounds.** (a) When it appears that the defendant has violated any of the conditions of probation or intermediate sanction, or has otherwise been guilty of misconduct which warrants the imposing or execution of sentence, the court may without notice revoke the stay and direct that the defendant be taken into immediate custody. Revocation should only be used as a last resort when rehabilitation has failed.

(b) When it appears that the defendant violated any of the conditions of probation during the term of the stay, but the term of the stay has since expired, the defendant's probation officer or the prosecutor may ask the court to initiate probation revocation proceedings under the Rules of Criminal Procedure at any time within six months after the expiration of the stay. The court also may initiate proceedings under these circumstances on its own motion. If proceedings are initiated within this six-month period, the court may conduct a revocation hearing and take any action authorized under rule 27.04 at any time during or after the six-month period.

(c) Notwithstanding the provisions of section 609.135 or any law to the contrary, after proceedings to revoke the stay have been initiated by a court order revoking the stay and directing either that the defendant be taken into custody or that a summons be issued in accordance with paragraph (a), the proceedings to revoke the stay may be concluded and the summary hearing provided by subdivision 2 may be conducted after the expiration of the stay or after the six-month period set forth in paragraph (b). The proceedings to revoke the stay shall not be dismissed on the basis that the summary hearing is conducted after the term of the stay or after the six-month period. The ability or inability to locate or apprehend the defendant prior to the expiration of the stay or during or after the six-month period shall not preclude the court from conducting the summary hearing unless the defendant demonstrates that the delay was purposefully caused by the state in order to gain an unfair advantage.

EFFECTIVE DATE. This section is effective August 1, 2021, and applies to violations that occur on or after that date.

Sec. 43. Minnesota Statutes 2020, section 609.14, is amended by adding a subdivision to read:

Subd. 1a. **Violations where policies favor continued rehabilitation.** (a) Correctional treatment is better provided through a community resource than through confinement, it would not unduly depreciate the seriousness of the violation if probation was not revoked, and the policies favoring probation outweigh the need for confinement if a person has not previously violated a condition of probation or intermediate sanction and does any of the following in violation of a condition imposed by the court:

(1) fails to abstain from the use of controlled substances without a valid prescription, unless the person is under supervision for a violation of:

(i) section 169A.20;

(ii) 609.2112, subdivision 1, paragraph (a), clauses (2) to (6); or

(iii) 609.2113, subdivision 1, clauses (2) to (6), subdivision 2, clauses (2) to (6), or subdivision 3, clauses (2) to (6);

(8) fails to report contact with a law enforcement agency, unless the person was charged with a misdemeanor, gross misdemeanor, or felony; or

(9) commits any offense for which the penalty is a petty misdemeanor.

(b) A violation by a person described in paragraph (a) does not warrant the imposition or execution of sentence and the court may not direct that the person be taken into immediate custody unless the court receives a written report, signed under penalty of perjury pursuant to section 358.116, showing probable cause to believe the person violated probation and establishing by a preponderance of the evidence that the continued presence of the person in the community would present a risk to public safety. If the court does not direct that the person be taken into custody, the court may request a supplemental report from the supervising agent containing:

(1) the specific nature of the violation;

(2) the response of the person under supervision to the violation, if any; and

(3) the actions the supervising agent has taken or will take to address the violation.

(iii) the person was sentenced under this section or Minnesota Statutes 2004, section 609.108, for one of the prior sex offense convictions.

(b) Notwithstanding paragraph (a), a court may not sentence a person to imprisonment for life for a violation of section 609.345, unless the person's previous or prior sex offense convictions that are being used as the basis for the sentence are for violations of section 609.342, 609.343, 609.344, ~~or~~ 609.3453, or 609.3458, or any similar statute of the United States, this state, or any other state.

Subd. 5. **Life sentences; minimum term of imprisonment.** At the time of sentencing under subdivision 3 or 4, the court shall specify a minimum term of imprisonment, based on the sentencing guidelines or any applicable mandatory minimum sentence, that must be served before the offender may be considered for supervised release.

Subd. 6. **Mandatory ten-year conditional release term.** Notwithstanding the statutory maximum sentence otherwise applicable to the offense and unless a longer conditional release term is required in subdivision 7, when a court commits an offender to the custody of the commissioner of corrections for a violation of section 609.342, 609.343, 609.344, 609.345, ~~or~~ 609.3453, or 609.3458, the court shall provide that, after the offender has been released from prison, the commissioner shall place the offender on conditional release for ten years.

Subd. 7. **Mandatory lifetime conditional release term.** (a) When a court sentences an offender under subdivision 3 or 4, the court shall provide that, if the offender is released from prison, the commissioner of corrections shall place the offender on conditional release for the remainder of the offender's life.

(c) Notwithstanding paragraph (b), an offender may not be placed on lifetime conditional release for a violation of section 609.345, unless the offender's previous or prior sex offense conviction is for a violation of section 609.342, 609.343, 609.344, ~~or~~ 609.3453, or 609.3458, or any similar statute of the United States, this state, or any other state.

Subd. 8. **Terms of conditional release; applicable to all sex offenders.** (a) The provisions of this subdivision relating to conditional release apply to all sex offenders sentenced to prison for a violation of section 609.342, 609.343, 609.344, 609.345, ~~or~~ 609.3453, or 609.3458. Before the offender is placed on conditional release, the commissioner shall notify the sentencing court and the prosecutor in the jurisdiction where the offender was sentenced of the terms of the offender's conditional release. The commissioner also shall make reasonable efforts to notify the victim of the offender's crime of the terms of the offender's conditional release.

(c) If the offender fails to meet any condition of release, the commissioner may revoke the offender's conditional release and order that the offender serve all or a part of the remaining portion of the conditional release term in prison. An offender, while on supervised release, is not entitled to credit against the offender's conditional release term for time served in confinement for a violation of release.

Subd. 9. **Applicability.** The provisions of this section do not affect the applicability of Minnesota Statutes 2004, section 609.108, to crimes committed before August 1, 2005, or the validity of sentences imposed under Minnesota Statutes 2004, section 609.108.

(2) "eligible offense" means any misdemeanor or gross misdemeanor, and any felony that is ranked at severity level 7 or lower or D7 or lower on the Sentencing Guidelines grid;

(3) "pretrial diversion" means the decision of a prosecutor to refer a defendant to a diversion program on condition that the criminal charges against the defendant shall be dismissed after a specified period of time, or the case shall not be charged, if the defendant successfully completes the program of treatment recommended by the United States Department of Veterans Affairs or a local, state, federal, or private nonprofit treatment program; and

(4) "veterans treatment court program" means a program that has the following essential characteristics:

(i) the integration of services in the processing of cases in the judicial system;

(x) development of partnerships with public agencies and community organizations, including the United States Department of Veterans Affairs; and

(xi) inclusion of a participant's family members who agree to be involved in the treatment and services provided to the participant under the program.

Subd. 2. **Deferred prosecution.** (a) The court shall defer prosecution for an eligible offense committed by a defendant who was, or currently is, a member of the United States military as provided in this subdivision. The court shall do this at the request of the defendant upon a finding of guilty after trial or upon a guilty plea.

(b) A defendant who requests to be sentenced under this subdivision shall release or authorize access to military service reports and records relating to the alleged applicable condition. The court must file the records as confidential and designate that they remain sealed, except as provided in this paragraph. In addition, the court may request, through existing resources, an assessment of the defendant. The defendant, through existing records or licensed professional evaluation, shall establish the diagnosis of the condition, that it was caused by military service, and that the offense was committed as a result of the condition. The court, on its own motion or the prosecutor's, with notice to defense counsel, may order the defendant to furnish to the court for in-camera review or to the prosecutor copies of all medical and military service reports and records previously or subsequently made concerning the defendant's condition and the condition's connection to service.

(c) Based on the record, the court shall determine whether, by clear and convincing evidence: (1) the defendant suffered from an applicable condition at the time of the offense; (2) the applicable condition was caused by service in the United States military; and (3) the offense was committed as a result of the applicable condition. Within 15 days of the court's determination, either party may file a challenge to the determination and demand a hearing on the defendant's eligibility under this subdivision.

(d) If the court makes the determination described in paragraph (c), the court shall, without entering a judgment of guilty, defer further proceedings and place the defendant on probation upon such reasonable conditions as it may require and for a period not to exceed the maximum period provided by law. A court may extend a defendant's term of probation pursuant to section 609.135, subdivision 2, paragraphs (g) and (h). Conditions ordered by the court must include treatment, services, rehabilitation, and education sufficient so that if completed, the defendant would be eligible for discharge and dismissal under subdivision 3. In addition, the court shall order that the defendant undergo a chemical use assessment that includes a recommended level of care for the defendant in accordance with the criteria contained in rules adopted by the commissioner of human services under section 254A.03, subdivision 3.

(e) If the court determines that the defendant is eligible for a deferred sentence but the defendant has previously received one for a felony offense under this subdivision, the court may, but is not required to, impose a deferred sentence. If the court does not impose a deferred sentence, the court may sentence the defendant as otherwise provided in law, including as provided in subdivision 4.

(f) Upon violation of a condition of probation, the court may enter an adjudication of guilt and proceed as otherwise provided in law, including as provided in subdivision 4.

(g) As a condition of probation, the court may order the defendant to attend a local, state, federal, or private nonprofit treatment program for a period not to exceed the maximum period for which the defendant could have been incarcerated.

(h) The court, when issuing an order under this subdivision that a defendant attend an established treatment program, shall give preference to a treatment program that has a history of successfully treating veterans who suffer from applicable conditions caused by military service, including but not limited to programs operated by the United States Department of Defense or Veterans Affairs.

(i) The court and any assigned treatment program shall collaborate with, when available, the county veterans service officer and the United States Department of Veterans Affairs to maximize benefits and services provided to the defendant.

(j) If available in the county or judicial district having jurisdiction over the case, the defendant may be supervised by a veterans treatment court program under subdivision 5. If there is a veterans treatment court that meets the requirements of subdivision 5 in the county in which the defendant resides or works, supervision of the defendant may be transferred to that county or judicial district veterans treatment court program. Upon the defendant's successful or unsuccessful completion of the program, the veterans treatment court program shall communicate this information to the court of original jurisdiction for further action.

(k) Sentencing pursuant to this subdivision waives any right to administrative review pursuant to section 169A.53, subdivision 1, or judicial review pursuant to section 169A.53, subdivision 2, for a license revocation or cancellation imposed pursuant to section 169A.52, and also waives any right to administrative review pursuant to section 171.177, subdivision 10, or judicial review pursuant to section 171.177, subdivision 11, for a license revocation or cancellation imposed pursuant to section 171.177, if that license revocation or cancellation is the result of the same incident that is being sentenced.

Subd. 3. **Discharge and dismissal.** (a) Upon the expiration of the period of the defendant's probation the court shall hold a hearing to discharge the defendant from probation and determine whether to dismiss the proceedings against a defendant who received a deferred sentence under subdivision 2. The hearing shall be scheduled so that the parties have adequate time to prepare and present arguments regarding the issue of dismissal. The parties may submit written arguments to the court prior to the date of the hearing and may make oral arguments before the court at the hearing. The defendant must be present at the hearing unless excused under Minnesota Rules of Criminal Procedure, rule 26.03, subdivision 1, clause (3).

(b) The court shall provide notice to any identifiable victim of the offense at least 15 days before the hearing is held. Notice to victims of the offense under this subdivision must specifically inform the victim of the right to submit an oral or written statement to the court at the time of the hearing describing the harm suffered by the victim as a result of the crime and the victim's recommendation on whether dismissal should be granted or denied. The judge shall consider the victim's statement when making a decision. If a victim notifies the prosecutor of an objection to dismissal and is not present at the hearing, the prosecutor shall make the objections known to the court.

(c) The court shall dismiss proceedings against a defendant if the court finds by clear and convincing evidence that the defendant:

(1) is in substantial compliance with the conditions of probation;

(2) has successfully participated in court-ordered treatment and services to address the applicable condition caused by military service;

(3) does not represent a danger to the health or safety of victims or others; and

(4) has demonstrated significant benefit from court-ordered education, treatment, or rehabilitation to clearly show that a discharge and dismissal under this subdivision is in the interests of justice.

(d) In determining the interests of justice, the court shall consider, among other factors, all of the following:

(1) the defendant's completion and degree of participation in education, treatment, and rehabilitation as ordered by the court;

(2) the defendant's progress in formal education;

(3) the defendant's development of career potential;

(4) the defendant's leadership and personal responsibility efforts;

(5) the defendant's contribution of service in support of the community;

(6) the level of harm to the community from the offense; and

(7) the statement of the victim, if any.

(e) If the court finds that the defendant does not qualify for discharge and dismissal under paragraph (c), the court shall enter an adjudication of guilt and proceed as otherwise provided in law, including as provided in subdivision 4.

(f) Discharge and dismissal under this subdivision shall be without court adjudication of guilt, but a not public record of the discharge and dismissal shall be retained by the Bureau of Criminal Apprehension for the purpose of use by the courts in determining the merits of subsequent proceedings against the defendant. The not public record

may also be opened only upon court order for purposes of a criminal investigation, prosecution, or sentencing. Upon request by law enforcement, prosecution, or corrections authorities, the bureau shall notify the requesting party of the existence of the not public record and the right to seek a court order to open the not public record under this paragraph. The court shall forward a record of any discharge and dismissal under this subdivision to the bureau, which shall make and maintain the not public record of the discharge and dismissal. The discharge and dismissal shall not be deemed a conviction for purposes of disqualifications or disabilities imposed by law upon conviction of a crime or for any other purpose. For purposes of this paragraph, "not public" has the meaning given in section 13.02, subdivision 8a.

Subd. 4. **Sentencing departure; waiver of mandatory sentence.** (a) This subdivision applies to defendants who plead or are found guilty of any criminal offense except one for which registration is required under section 243.166, subdivision 1b.

(b) Prior to sentencing, a defendant described in paragraph (a) may present proof to the court that the defendant has, since the commission of the offense, engaged in rehabilitative efforts consistent with those described in this section. If the court determines that the defendant has engaged in substantial rehabilitative efforts and the defendant establishes by clear and convincing evidence that:

(1) the defendant suffered from an applicable condition at the time of the offense;

(2) the applicable condition was caused by service in the United States military; and

(3) the offense was committed as a result of the applicable condition;

the court may determine that the defendant is particularly amenable to probation and order a mitigated durational or dispositional sentencing departure or a waiver of any statutory mandatory minimum sentence applicable to the defendant.

Subd. 5. **Optional veterans treatment court program; procedures for eligible defendants.** A county or judicial district may supervise probation under this section through a veterans treatment court, using county veterans service officers appointed under sections 197.60 to 197.606, United States Department of Veterans Affairs veterans justice outreach specialists, probation agents, and any other rehabilitative resources available to the court.

Subd. 6. **Creation of county and city diversion programs; authorization.** Any county or city may establish and operate a veterans pretrial diversion program for offenders eligible under subdivision 2 without penalty under section 477A.0175.

Subd. 7. **Exception.** This section does not apply to a person charged with an offense for which registration is required under section 243.166, subdivision 1b.

(b) If the defendant has a history of stroke, traumatic brain injury, or fetal alcohol spectrum disorder and the court believes that the offender may have a mental impairment that caused the offender to lack substantial capacity for judgment when the offense was committed, the court shall order that the offender undergo a neuropsychological examination unless the offender has had a recent examination as described in paragraph (c). The report prepared under subdivision 1 shall contain the results of the examination ordered by the court or the recent examination and the officer preparing the report may consult with any medical provider, mental health professional, or other agency or person with suitable knowledge or experience for the purpose of providing the court with information regarding treatment and case management options available to the defendant.

(2) the examination took place at least 18 months after the person's most recent stroke or traumatic brain injury; and

(3) the examination took place within the previous three years.

(d) At sentencing, the court may consider any relevant information including but not limited to the information provided pursuant to paragraph (b) and the recommendations of any diagnosing or treating medical providers or mental health professionals to determine whether the offender, because of mental impairment resulting from a stroke, traumatic brain injury, or fetal alcohol spectrum disorder, lacked substantial capacity for judgment when the offense was committed.

Subd. 2. **Prosecutor-initiated sentence adjustment.** The prosecutor responsible for the prosecution of an individual convicted of a crime may commence a proceeding to adjust the sentence of that individual at any time after the initial sentencing provided the prosecutor does not seek to increase the period of confinement or, if the individual is serving a stayed sentence, increase the period of supervision.

Subd. 3. **Review by prosecutor.** (a) Prosecutors may review individual cases at their discretion.

(b) Prior to filing a petition under this section, a prosecutor shall make a reasonable and good faith effort to seek input from any identifiable victim and shall consider the impact an adjusted sentence would have on the victim.

(c) The commissioner of corrections, a supervising agent, or an offender may request that a prosecutor review an individual case. A prosecutor is not required to respond to a request.

Subd. 4. **Petition; contents; fee.** (a) A petition for sentence adjustment shall include the following:

(5) the details of the offense for which an adjustment is sought, including:

(i) the date and jurisdiction of the occurrence;

(ii) either the names of any victims or that there were no identifiable victims;

(iii) whether there is a current order for protection, restraining order, or other no contact order prohibiting the individual from contacting the victims or whether there has ever been a prior order for protection or restraining order prohibiting the individual from contacting the victims;

(8) the individual's criminal charges record indicating all prior and pending criminal charges against the individual in this state or another jurisdiction, including all criminal charges that have been continued for dismissal, stayed for adjudication, or were the subject of pretrial diversion; and

(9) to the extent known, all prior requests by the individual, whether for the present offense or for any other offenses in this state or any other state or federal court, for pardon, return of arrest records, or expungement or sealing of a criminal record, whether granted or not, and all stays of adjudication or imposition of sentence involving the petitioner.

(b) The filing fee for a petition brought under this section shall be waived.

Subd. 5. **Service of petition.** (a) The prosecutor shall serve the petition for sentence adjustment on the individual on whose behalf the petition is being brought.

(b) The prosecutor shall make a good faith and reasonable effort to notify any person determined to be a victim of the offense for which adjustment is sought of the existence of a petition. Notification under this paragraph does not constitute a violation of an existing order for protection, restraining order, or other no contact order.

(c) Notice to victims of the offense under this subdivision must:

(1) specifically inform the victim of the right to object, orally or in writing, to the proposed adjustment of sentence; and

(2) inform the victims of the right to be present and to submit an oral or written statement at the hearing described in subdivision 6.

(d) If a victim notifies the prosecutor of an objection to the proposed adjustment of sentence and is not present when the court considers the sentence adjustment, the prosecutor shall make these objections known to the court.

Subd. 6. **Hearing.** (a) The court shall hold a hearing on the petition no sooner than 60 days after service of the petition. The hearing shall be scheduled so that the parties have adequate time to prepare and present arguments regarding the issue of sentence adjustment. The parties may submit written arguments to the court prior to the date of the hearing and may make oral arguments before the court at the hearing. The individual on whose behalf the petition has been brought must be present at the hearing, unless excused under Minnesota Rules of Criminal Procedure, rule 26.03, subdivision 1, clause (3).

(b) A victim of the offense for which sentence adjustment is sought has a right to submit an oral or written statement to the court at the time of the hearing describing the harm suffered by the victim as a result of the crime and the victim's recommendation on whether adjustment should be granted or denied. The judge shall consider the victim's statement when making a decision.

(c) Representatives of the Department of Corrections, supervising agents, community treatment providers, and any other individual with relevant information may submit an oral or written statement to the court at the time of the hearing.

Subd. 7. **Nature of remedy; standard.** (a) The court shall determine whether there are substantial and compelling reasons to adjust the individual's sentence. In making this determination, the court shall consider what impact, if any, a sentence adjustment would have on public safety, including whether an adjustment would promote the rehabilitation of the individual, properly reflect the severity of the underlying offense, or reduce sentencing disparities. In making this determination, the court may consider factors relating to both the offender and the offense, including but not limited to:

(1) the individual's performance on probation or supervision;

(2) the individual's disciplinary record during any period of incarceration;

(3) records of any rehabilitation efforts made by the individual since the date of offense and any plan to continue those efforts in the community;

(4) evidence that remorse, age, diminished physical condition, or any other factor has significantly reduced the likelihood that the individual will commit a future offense;

(5) the amount of time the individual has served in custody or under supervision; and

(6) significant changes in law or sentencing practice since the date of offense.

(b) Notwithstanding any law to the contrary, if the court determines that there are substantial and compelling reasons to adjust the individual's sentence, the court may modify the sentence in any way provided the adjustment does not:

(1) increase the period of confinement or, if the individual is serving a stayed sentence, increase the period of supervision;

(2) reduce or eliminate the amount of court-ordered restitution; or

(3) reduce or eliminate a term of conditional release required by law when a court commits an offender to the custody of the commissioner of corrections.

The court may stay imposition or execution of sentence pursuant to section 609.135.

(c) A sentence adjustment is not a valid basis to vacate the judgment of conviction, enter a judgment of conviction for a different offense, or impose sentence for any other offense.

(d) The court shall state in writing or on the record the reasons for its decision on the petition. If the court grants a sentence adjustment, it shall cause a sentencing worksheet as provided in section 609.115, subdivision 1, to be completed and forwarded to the Sentencing Guidelines Commission. The sentencing worksheet shall clearly indicate that it is for a sentence adjustment.

Subd. 8. **Appeals.** An order issued under this section shall not be considered a final judgment, but shall be treated as an order imposing or staying a sentence.

EFFECTIVE DATE. This section is effective August 1, 2021.

Sec. 40. Minnesota Statutes 2020, section 609A.025, is amended to read:

609A.025 NO PETITION REQUIRED IN CERTAIN CASES WITH PROSECUTOR AGREEMENT AND NOTIFICATION.

(a) If the prosecutor agrees to the sealing of a criminal record, the court shall seal the criminal record for a person described in section 609A.02, subdivision 3, without the filing of a petition unless it determines that the interests of the public and public safety in keeping the record public outweigh the disadvantages to the subject of the record in not sealing it. The prosecutor shall inform the court whether the context and circumstances of the underlying crime indicate a nexus between the criminal record to be expunged and the person's status as a crime victim and, if so, request that the court make the appropriate findings to support the relief described in section 609A.03, subdivision 6a.

(b) At least 90 days before agreeing to the sealing of a record under this section, the prosecutor shall make a good faith effort to notify any identifiable victims of the offense of the intended agreement and the opportunity to object to the agreement.

(c) Subject to paragraph (b), the agreement of the prosecutor to the sealing of records for a person described in section 609A.02, subdivision 3, paragraph (a), clause (2), may occur before or after the criminal charges are dismissed.

(d) A prosecutor shall agree to the sealing of a criminal record for a person described in section 609A.02, subdivision 2a, unless substantial and compelling reasons exist to object to the sealing.

EFFECTIVE DATE. This section is effective August 1, 2021, and applies to agreements to the sealing of a criminal record entered into by a prosecutor on or after that date.

Sec. 41. Minnesota Statutes 2020, section 609A.03, subdivision 5, is amended to read:

Subd. 5. **Nature of remedy; standard.** (a) Except as otherwise provided by paragraph (b), expungement of a criminal record under this section is an extraordinary remedy to be granted only upon clear and convincing evidence that it would yield a benefit to the petitioner commensurate with the disadvantages to the public and public safety of:

(1) sealing the record; and

(2) burdening the court and public authorities to issue, enforce, and monitor an expungement order.

(b) Except as otherwise provided by this paragraph, if the petitioner is petitioning for the sealing of a criminal record under section 609A.02, subdivision 3, paragraph (a), clause (1) or (2), the court shall grant the petition to seal the record unless the agency or jurisdiction whose records would be affected establishes by clear and convincing evidence that the interests of the public and public safety outweigh the disadvantages to the petitioner of not sealing the record.

(c) In making a determination under this subdivision, the court shall consider:

(1) the nature and severity of the underlying crime, the record of which would be sealed;

(2) the risk, if any, the petitioner poses to individuals or society;

(3) the length of time since the crime occurred;

(4) the steps taken by the petitioner toward rehabilitation following the crime;

(5) aggravating or mitigating factors relating to the underlying crime, including the petitioner's level of participation and context and circumstances of the underlying crime;

(6) the reasons for the expungement, including the petitioner's attempts to obtain employment, housing, or other necessities;

(7) the petitioner's criminal record;

(8) the petitioner's record of employment and community involvement;

(9) the recommendations of interested law enforcement, prosecutorial, and corrections officials;

(10) the recommendations of victims or whether victims of the underlying crime were minors;

(11) the amount, if any, of restitution outstanding, past efforts made by the petitioner toward payment, and the measures in place to help ensure completion of restitution payment after expungement of the record if granted; and

(12) other factors deemed relevant by the court.

(d) Notwithstanding section 13.82, 13.87, or any other law to the contrary, if the court issues an expungement order it may require that the criminal record be sealed, the existence of the record not be revealed, and the record not be opened except as required under subdivision 7. Records must not be destroyed or returned to the subject of the record.

(e) Information relating to a criminal history record of an employee, former employee, or tenant that has been expunged before the occurrence of the act giving rise to the civil action may not be introduced as evidence in a civil action against a private employer or landlord or its employees or agents that is based on the conduct of the employee, former employee, or tenant.

EFFECTIVE DATE. This section is effective August 1, 2021.

Upon request by law enforcement, prosecution, or corrections authorities, an agency or jurisdiction subject to an expungement order shall inform the requester of the existence of a sealed record and of the right to obtain access to it as provided by this paragraph. Sec. 11. Minnesota Statutes 2020, section 244.09, subdivision 5, is amended to read:

Subd. 5. **Promulgation of Sentencing Guidelines.** The commission shall promulgate Sentencing Guidelines for the district court. The guidelines shall be based on reasonable offense and offender characteristics. The guidelines promulgated by the commission shall be advisory to the district court and shall establish:

(1) the circumstances under which imprisonment of an offender is proper; and

(2) a presumptive, fixed sentence for offenders for whom imprisonment is proper, based on each appropriate combination of reasonable offense and offender characteristics. The guidelines shall provide for an increase of 20 percent and a decrease of 15 percent in the presumptive, fixed sentence.

The Sentencing Guidelines promulgated by the commission may also establish appropriate sanctions for offenders for whom imprisonment is not proper. Any guidelines promulgated by the commission establishing sanctions for offenders for whom imprisonment is not proper shall make specific reference to noninstitutional sanctions, including but not limited to the following: payment of fines, day fines, restitution, community work orders, work release programs in local facilities, community based residential and nonresidential programs, incarceration in a local correctional facility, and probation and the conditions thereof.

Although the Sentencing Guidelines are advisory to the district court, the court shall follow the procedures of the guidelines when it pronounces sentence in a proceeding to which the guidelines apply by operation of statute. Sentencing pursuant to the Sentencing Guidelines is not a right that accrues to a person convicted of a felony; it is a procedure based on state public policy to maintain uniformity, proportionality, rationality, and predictability in sentencing.

In establishing and modifying the Sentencing Guidelines, the primary consideration of the commission shall be public safety. Promoting public safety includes the promotion of human rights. "Public safety" means reducing or preventing crime while maintaining the basic rights, freedoms, and privileges that belong to every person including the right to dignity, fairness, equality, respect, and freedom from discrimination, and is achieved by preferring the use of community services to imprisonment or other confinement unless confinement is necessary to protect the public, promoting the rehabilitation of those convicted through the provision of evidence-based programming and services, and imposing sanctions that are the least restrictive necessary to achieve accountability, address the harm for the offense, and ensure victim safety. The commission shall also consider current sentencing and release practices; correctional resources, including but not limited to the capacities of local and state correctional facilities; and the long-term negative impact of the crime on the community.

The provisions of sections 14.001 to 14.69 do not apply to the promulgation of the Sentencing Guidelines, and the Sentencing Guidelines, including severity levels and criminal history scores, are not subject to review by the legislative commission to review administrative rules. However, the commission shall adopt rules pursuant to sections 14.001 to 14.69 which establish procedures for the promulgation of the Sentencing Guidelines, including procedures for the promulgation of severity levels and criminal history scores, and these rules shall be subject to review by the Legislative Coordinating Commission.

Sec. 12. Minnesota Statutes 2020, section 299A.01, subdivision 2, is amended to read:

"Public safety" means reducing or preventing crime while maintaining the basic rights, freedoms, and privileges that belong to every person including the right to dignity, fairness, equality, respect, and freedom from discrimination, and is achieved by engaging in practices that include promoting community cohesion, employing meaningful problem-solving strategies, and utilizing the least restrictive sanctions or interventions necessary to reduce or repair harm, ensure victim safety, and ensure accountability for offending.
