Dear Cyrus

On behalf of the Registrars and Registries Stakeholder Groups (RrSG and RySG), Graeme and I are pleased to advise that our respective SGs endorse the attached RDAP profile documents provided to us by Rick Wilhelm, Chair of the RDAP Profile Working Group, on 15 February 2019. As such we are forwarding the attached RDAP profile documents to you so that ICANN org can commence the implementation phase. We understand that contracted parties will have 180 days to implement the RDAP profile upon receipt of a legal notice from ICANN.

We wish to recognize the considerable effort of the WG in preparing and finalising these documents over these past months and the assistance provided by ICANN org.

We also wish to note, depending on recommendations from the Expedited Policy Development Process on the Temporary Specification for gTLD Registration Data, that it may be necessary for the WG to revisit the profile in the future to ensure it is consistent with any resulting consensus policy.

Regards

Donna and Graeme
