

ICC Approves Rail Crossing Improvements near Pekin

Springfield, IL – As a matter of public safety, the Illinois Commerce Commission recently granted approval of a Stipulated Agreement to install new automatic flashing lights, signals and gates at the Garman Road grade crossing of the Illinois & Midland’s Railroad (IMRR) track near Pekin, in Tazewell County.

The total estimated cost for the new automatic warning device is \$285,456. ICC Staff recommends that the Grade Crossing Protection Fund be used to pay 95% of the signal design and installation costs, not to exceed \$271,183. IMRR will pay all remaining signal design and installation costs, and all future operating and maintenance costs related to the new automatic warning device.

All work is to be completed by within twelve (12) months of the Order date.

“The allocation of Grade Crossing Protection funds enables this rail safety project to move forward, and that is good news for the community and all those traversing the crossing,” said ICC Commissioner Michael T. Carrigan.

ABOUT THE STATE OF ILLINOIS GRADE CROSSING PROTECTION FUND (GCPF)

In 1955, the State of Illinois passed legislation creating the GCPF. Since then, Illinois has strengthened its commitment to public highway-rail safety by increasing funding towards project such as the closure and consolidation of existing public crossings, installation of new warning systems, highway approach improvements, upgrades to existing warning devices and interconnection to nearby traffic signals, construction/reconstruction of grade separation structures and the construction of pedestrian grade separations. The Commission administers the GCPF, which is funded by motor fuel tax money designated for rail safety improvements. The General Assembly appropriates \$42 million annually for the GCPF.
