Speaker Evans: "The House shall be in order. Members shall be in their chairs. We shall be led today by Pastor Stang. Pastor Stang is the Senior Pastor at Central Baptist Church in Springfield, Illinois. Pastor Stang is the guest is Rep. Coffey. Members and guests are asked to refrain from starting their laptops, turn off all cell phones, and rise for the invocation and Pledge of Allegiance."

Pastor Stang: "Please join me in a word of prayer. To the eternal God who is marked by love, peace, patience, kindness, grace, mercy, and reconciliation, I ask that you preside over the thoughts and will of this Legislative Body so that the common good may come about. May the debates be rigorous, but also productive. Lord, grant clarity and conviction to each person in this chamber. America's mother tongue is one of freedom. God's mother tongue is one of love. May love and freedom prevail through these deliberations. May love and freedom be the compass that guides this Body. We lift up our Governor and our President unto you. In the name of the Father, the Son, and the Holy Spirit, we pray, Amen."

Speaker Evans: "We will be led in the Pledge of Allegiance today by Representative Ozinga."

Ozinga - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Evans: "Roll Call for Attendance. Leader Mah is recognized to report any excused absences on the Democratic side of the aisle."

Biden ending Title 42 today. I received these figures on Monday totaling one week's worth of activity on the border. Border agents and other authorities were able to apprehend or stop 55 thousand illegal immigrants from coming into the United States. Additionally, border agents seized the following: \$714 thousand in cash, 101 pounds of cocaine, 1,050 pounds of marijuana, 2,721 pounds of meth, 138 pounds of fentanyl, which is enough fentanyl to potentially kill 30 million people and more if it's taken by minors. Additionally, they confiscated 16 guns, 66 sex offenders, and 7 gang members. These seizures take place all the while our border law enforcement are assaulted continually, including female border agents who have been brutally beaten by male illegal immigrants. Those arrest and seizure numbers are just incredible. But unfortunately, this is not the whole story. It's not the whole story because still last week the border reports nearly 19 thousand illegal immigrants escaped Border Patrol. Based on the numbers above, one can assume that hundreds of pounds of cocaine, fentanyl, and other substances, along with guns and criminals, came right across the border with them. And yet, Joe Biden says illegal immigration is down by 90 percent. Homeland Security Secretary Mayorkas says the border is secure. If those things are true, I would sure hate to see what an unsecure border looks like to the Biden administration. Make no mistake, Illinois will feel the pain of this invasion. Chicago is already bursting at its seams and the spread is happening. These people will come with no resources, criminals will continue their gang activity here, and the drugs will come,

and our friends and family will be the ones who overdose on them. This is a disaster, an actual disaster, worthy not only of Title 42, but serious action to control and secure our border. Thank you."

Speaker Evans: "Representative Ladisch Douglass, for what reason do you seek recognition?"

Ladisch Douglass: "Point of personal privilege."

Speaker Evans: "Please speak your point."

Ladisch Douglass: "Thank you, Mr. Speaker. Good.. good morning, everyone. I stand to welcome students from Lincoln Elementary School, Lincoln Park, Chicago. They are in the gallery to my left. I happened to run into two people I knew, Josh Liebman and Carla Varner, both of whom I know from work, and they happened to be with students. So, I ask that you all please give them a warm welcome to the Capitol."

Speaker Evans: "Representative Miller, for what reason do you seek recognition?"

Miller: "A point of personal privilege."

Speaker Evans: "Please speak you point."

Miller: "Thank you, Mr. Speaker. Today, President Joe Biden allowed the expiration of Title 42. This is one of the few standing measures protecting our borders from the invasion of illegal immigrants, drugs, and crime. Estimates predict that 700 thousand illegals are ready to cross our southern border when Title 42 ends today. Illinoisans should have the confidence of the President and the Governor looking out for the safety and best interest. Joe Biden and JB Pritzker seem to be content to stand by and allow massive numbers of illegals to enter in... to enter first into our border states

and then the rest of our nation. The consequences of this behavior will be most severe. Joe Biden is violating his oath of office to defend our nation's borders and to uphold our immigration laws. The cartels control our border, and Joe Biden has made the cartels billionaires through drug trafficking and human trafficking. Seven million foreign nationals have crossed illegally, which includes known terrorists, fentanyl traffickers, and even MS-13 gang members. Joe Biden is doing this on purpose to appease his radical base which wants to erase our borders and to tear apart our country. President Trump said that without borders, we don't have a country. Fentanyl is killing our kids, crime is raging, and our schools and hospitals can't absorb millions of foreign nationals coming here illegally. It's past time to secure our border, and we need to do it today. Thank you very much."

Speaker Evans: "Representative Mayfield, for what reason do you seek recognition?"

Mayfield: "I'd like to just recognize a group of students that are here today. I have students from St. Anastasia, Most Blessed Trinity, Cristo Rey, and Carmen High School... Carmel Catholic High School. All of these are in my district, or the students are, at the very least. And they are all here to advocate for the scholarship program. So, can we give them a warm welcome to... there we are, up here. Can we give them a warm welcome to Springfield? Yes, thank you."

Speaker Evans: "Please speak your point."

Avelar: "Thank you. Going to try to keep calm today because, as it was mentioned, there's something big that's happening at the federal level, which is Title 42 and the lift of it. If the Members on the other side would have done their homework, they wouldn't refer to people as illegal immigrant, but rather know that nobody is illegal. It is undocumented. In going back to doing your homework, you would know that they are asylum seekers. I'll be more than happy to talk to you as well to let you know about the process, as somebody who was undocumented myself for 13 years. Since the founding of our country, the United States has been a destination for immigrants from all parts of the world. And as a nation of people, by the people, and for the people seeking a better life, the contributions of immigrants have.. that have made on the local and federal level are undeniable. I think that people seem to forget that immigrant taxpayer excluded from federal benefits contribute over \$11 billion in tax revenue that they will not get back. So, when we think about the actual disaster, the disaster here is the slew of misinformation. Thank you."

Speaker Evans: "Representative Windhorst is recognized."

Windhorst: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "She indicated she will."

Hirschauer: "Yes. That's correct."

Windhorst: "All right. And so, it... it provides courts greater ability to make those orders?"

Hirschauer: "That's correct."

Windhorst: "There was a question that came up in committee regarding forfeiture when an animal is ordered to be forfeited. Those animals will be offered for adoption after that. Is that accurate?"

Hirschauer: "That is correct. This does not put forth any new procedure for forfeiture. It would follow what is already in practice."

Rita: "You're... you're correct. This does not have a fee increase."

Halbrook: "Right. And the other question I had was, we had done a fee Bill, a county fee structure Bill, about five years ago. Those were my concerns. How is this different? How is it the same? And evidently, there's a small percentage of fees that needed to be kind of merged together and realigned. And that was the explanation I got. And I also reached out to some of my local county clerks and that they said that this would affect downstate counties, smaller downstate counties, very little. So, with that, not being a fee increase, I think this would be a... a positive vote. Thank you."

It's an economic development initiative that encompasses 10 counties, 5 state ports, and 3 regional planning agencies. By giving this federal designation as a U.S. Principal Port, it will allow for greater federal funding opportunities. It is supported by many groups in agriculture and industry. It passed out of the Senate unanimously and out of committee unanimously. And I know of no opposition to it, and we have bipartisan support as well. And I ask for your 'aye' vote today."

LaPointe: "Thank you, Mr. Speaker. Senate Bill 855 expands the investigative powers of our DHS Inspector General related to allegations of resident abuse and neglect of people that reside at our state mental health developmental centers, our CILAs, and our day training sites. So, this is related to our facilities that are both state operated and staffed by AFSCME workers, but also our nonprofits. In short, this Bill gives the DHS Inspector General a mechanism to hold workers at all the facilities mentioned above accountable for witnessing abuse and neglect and then materially obstructing an investigation. So, today the IG only has powers to hold accountable the worker that commits the abuse and neglect. And after an investigation is substantiated, that worker might end up on our health care registry. But with this Bill, a worker that witnesses that abuse and neglect and materially obstructs an investigation could also be placed on that health care registry. So, the intent of this Bill is to break up the code of silence that the OIG encounters at times around the state, both at our state-operated developmental centers but also at our CILAs. And at the end of the day, the code of

silence that does exist puts our most vulnerable at continued risk, but it also creates a really harmful workplace. It's traumatic for workers to go to work every day in a place that is harboring a code of silence. That's the basics behind this Bill, and I'm happy to answer to any questions."

Mayfield: "Thank you so much. Senate Bill 1251 creates the Donald (DJ) Stallworth Act. On May 16, 2022, Donald Stallworth, III, who friends and family lovingly call DJ, was riding his motorcycle when he was tragically killed by a speeding ambulance. Ambulances are supposed to activate both lights and sirens when going to or from an emergency so that pedestrians and other motorists are warned of their approach. But the ambulance which killed DJ reportedly activated only its lights, neglecting to use its sirens. Without the ability to hear it coming, DJ Stallworth had no chance. By the time he saw the ambulance, it was already too late. According to the National Highway Transportation and Safety Administration, 662 people were killed in crashes involved... involving an ambulance between 1992 and 2011. Of these, around 75 percent were either pedestrians or occupants of another vehicle while driving during the same period. Over 10 thousand people were injured in such crashes, with over half of these occupants being occupants of other vehicles. Relying on the ambulance companies and paramedics to self-regulate has not worked. That is why I'm proud to act as chief House Sponsor of Senate Bill 1251, the Donald (DJ) Stallworth Act, introduced by our friend and colleague, Senator Adriane

Johnson. This Bill will change the law so that ambulances must have both lights and sirens activated in order to legally run a red light. And that when they do so, may only do so after slowing down to ensure that it is safe to proceed. It also tightens rules to require documentation of proper training before any person may operate an ambulance or other rescue vehicle. This Bill passed out of the Senate without opposition. It passed out of the committee, House committee, without opposition. As amended, it is supported by the Illinois Association of Fire Departments, the Illinois Fire Chiefs Association, and the Illinois Association of Fire Protection Districts. Mayfield: "I believe... I'm not sure."

Windhorst: "Is it... does it include or cover police vehicles, police squad cars?"

This Bill requires the Illinois Department of Transportation to develop a mobile app to provide motorists with accurate and up-to-date information on road conditions, including, but not limited to, accidents, construction, lane closures, delays, weather conditions, and other pertinent information. Currently, there are no such apps available for... from an official source and the only way for motorists to get real time updates on road conditions is via private third-party apps which provide information that may not always be accurate. This Bill would directly benefit every Illinois motorist on a daily basis and passed by the Senate by an overwhelming bipartisan majority. I urge an 'aye' vote."

And as somebody that travels a lot, I love, love the concept of the Bill. And so... and that was one of the reasons why I supported it in committee and we let it go on leave. Since then, we got a cost analysis from IDOT, and the cost of the... of the development of the app and the maintenance of the app was a little... a little more than we expected. And so, that gives me a little pause. I think the... the analysis on the cost was about 2 and half million dollars to develop it and then a reoccurring cost of about

\$700 thousand a year. So, with that in... in mind, I won't be supportive today and... and would probably encourage our side not to, just on the cost. But if the costs come down, I love your idea. I think it's a great concept and a... a great idea for a Bill. Thank you."

Speaker Evans: "Representative Ammons is recognized."

Ammons: "Thank you, Mr. Speaker. To the Bill. Senate Bill 1526 is a commonsense piece of legislation that I appreciate Representative Hernandez for bringing this forward. I've been on a highway during winter storms of which all of access points to tell you what's ahead of you are not available. This is a commonsense piece of legislation, and I encourage IDOT to recruit an intern from the many public universities that we have that build apps every single day and to use the internship program, give opportunities to students to help State Government. And this is a really wonderful way to do it. So, I don't believe that it will cost them millions of dollars. It'll cost them a little effort for them to recruit a student who's in engineering, who's in computer science in order to create this app and to maintain it if they want to do that. I think this is a very good piece of legislation, and it's in the public interest for them to have immediate access to road conditions. And so, I urge an 'aye' vote for this Bill."

Speaker Evans: "Representative Keicher is recognized."

Keicher: "Will the Sponsor yield?"

concerns on this. Are you familiar with the Getting Around website that the Department of Transportation maintains?"

Hernandez, N.: "Can you repeat that again? I'm sorry."

Keicher: "Are you familiar with the website where, Getting Around, all the information is maintained?"

Hernandez, N.: "I am, yes. I have a..."

Keicher: "Okay. So, they... they do post information. And... and as I'm thinking about what I'm reading in the analysis, and please correct me if I'm wrong, this would be something that you would want them to create, like a Google Map. Is that..."

Hernandez, N.: "Yes, like a mobile... mobile app."

Keicher: "Okay. So, a couple concerns I have on that. First, I think both Google and Apple and TomTom and all these other vendors do an amazing job of integrating that into our current mapping technology. And here we're asking the Department to create a wheel that arguably won't have the same backbone that these innovative, cutting-edge companies are able to offer. So, my... my first concern is that we're putting them up to fail, and we're not going to have an app that anybody's going to utilize. Not because it won't be valuable, but because the other information is... is out there. So, the first point I would like to make is, I would actually encourage the department to visit with any of those online vendors about doing some sort of plug-in or... or tying to that. The second and more critical, as I look at some of the other government websites that have been created, and while two point something million dollars seems like a lot of money, it's very nominal for something that's going to be this integrated and arguably this incomplete with the information, is that we are putting

people at a safety risk. Right? We're... we're basically encouraging people, despite the laws that we've passed over the last five years, to be referring to their mobile device to see where road conditions are, while these other apps that we spoke about earlier integrate with CarPlay and Apple Play while it's on your dashboard. So, I... I appreciate the idea. I love the idea of us being more innovative. I think we're going about it the wrong way and spending taxpayer dollars in the wrong way. And I think safety will be a big concern as we look through that lens. I'm happy to work with you on an alternative solution as we get to next spring, but I will be voting 'no'. Thank you."

Speaker Evans: "Representative Rashid is recognized."

Rashid: "Thank you, Mr. Speaker. To the Bill. First of all, Representative Hernandez, thank you so much for bring this piece of legislation. I echo Representative Ammons' sentiments. This does not need to cost 2 and a half million dollars to build or over \$700 thousand to maintain. This can be done for much cheaper, and I urge IDOT to find ways to build an app like this to... to help the residents of our state. I do urge an 'aye' vote. Thank you."

Speaker Evans: "Representative Halbrook is recognized."

Halbrook: "Yes. Thank you, Mr. Speaker, and to the Bill. My understand is the current IDOT website is mobile friendly. They've got some road closure information and things on it. upgrades. I think this a waste of money and time. And I would urge a 'no' vote. Thank you."

in both landowners and the valuable resource. There is some fiscal impact to this. This Bill has not been updated since the 1980s, so the fees, licensure fees, will be... they're currently \$25. Walsh: "Is that a question?"

Halbrook: "Yes. What... what is the additional fee increases? Is... is there additional fees increases, or is just the timber buyer... timber buyers tax that was increased?"

Walsh: "It's... it's the licensure fee for the timber industry. And for residents, it's going from 25 per year to 125. And it's going to go to 300 for nonresidents. That's just the licensure fee, and it has not been updated since the 19... early 1980s. So..."

Halbrook: "Right."

Walsh: "...it's almost 40... 30, 40 years old."

Halbrook: "Okay. And then I... it looks like there's a bonding number here. Is that an increase in their bonding..."

Walsh: "Correct."

Halbrook: "...rate?"

Walsh: "Currently, they... they have to hold a bond for \$1 thousand. And that is going to be increased to \$10 thousand."

Halbrook: "So, what... what was driving these changes? Was this DNR or the timber sellers, the timber buyers? What was driving..."

Walsh: "It... it was a combination of both. The industry is looking for the department to be more active within the use of the timbers within the State of Illinois. And over the last, I would say, multiple decades, that that's one of the places within the DNR that, let's just say, they have been less than stellar. And they're looking to get that back on track to where it's a productive part of the agency."

Races, ethnicities, age, sex can all impact how different people respond to some... the same medicines, vaccines, and medical devices. This effort is important for the health and wellness of all. This is why diversity among clinical trials and participation is so important. Fifty percent of clinical trials in Illinois are for conditions unrelated to cancer, like diabetes, sickle cell, heart disease, mental health, and rare diseases. Tens of thousands of patients participating in clinical trials do not have the opportunity for ancillary costs to be reimbursed. A study found that patients enrolled in clinical trials spend more than \$600 per month to pay for additional costs of travel and lodging. Patients needing to travel from outside of the region spend more than \$900. SB1774 will reduce the financial burden for all qualified patients participating in clinical trials

Yednock: "Well, they have to be elected. But there's 38 regional superintendents. They all have about similar territories, and they have absolutely the same responsibilities. They get elected. And so, you get to vote on them every four years."

The employer and the employee has to pick up the normal cost of anything different. I think it's going to be a total of about a... less than 100 or right around 100 thousand dollars a year in additions that come from Personal Property Replacement Tax."

Wilhour: "Where do Personal Property Replacement Taxes come from?"

Yednock: "They come from the corporate... once we... we took some of the property tax... some of the liabilities away from, you know, big corporate entities, your... obviously, your capital, other things comes from businesses and other entities in everyone's district."

Yednock: "The... the best I can tell you, Representative, is that it's a historical factor. They did the research and found out this was put in, you know, a century ago or something. At some point, we had county superintendents, and I... I guess all we can reason is, at the time, they didn't want them having another job for whatever reason. I can't say that this is going to have a bunch of other people go out and do other jobs because I think they are pretty fairly compensated and their duties are... are pretty, you know, important, what they do. However, if someone was to, say, you know, go work for a nonprofit or something in their other time, this could potentially hurt them. They could be in violation of the law

unless we did this. So, it's just a historical fact that we really can't discern why it's in there."

Windhorst: "Just kind of a follow-up question on that. Is there anything in the law that would prohibit a regional superintendent from also serving as a superintendent of a local school district at the same time if this prohibition is removed?"

Yednock: "I really don't know that. I'm sorry."

Windhorst: "That's all right. I've heard the justification for the removal being some regional superintendents are farmers or may own a small business... or want to own a small business. I can potentially understand that. But I... I think the greater concern is regional superintendents may use this removal as a way to have other education-related jobs that may be in conflict with this position. Thank you."

Yednock: "Talking with the Regional Office of Education people, I don't think that would be the intent here. But I... I will acknowledge that I do not have that answer. But I would try to get it for you."

There's three tiers. This puts them all into the middle tier.

There are 9 that are paid less than the rest of the 38."

Frese: "How did that come about?"

Yednock: "Again, we... we believe it was probably just because they used to be county superintendents. It was part of the statute from many years ago. I think downstate was... they almost did it tiers by parts of the state, the way I remember the... the research on this. So, the northern part of the state, bigger counties got a bigger... got a bigger amount of pay. Middle... or population counties got a middle ground. And then lower population counties had lower. However, we regionalized this, and they all have the same duties. That's why it's changing."

Frese: "Was there a... when we regionalized this, was there an oversight? Was... was there a mistake made that all were not included? Or was there a reason established at that time that it should be split this way? Do you know?"

Yednock: "It... what I have in my notes is that the salary schedule varied depending on the population of the county at the time."

Frese: "At the time?"

Yednock: "At the time."

Frese: "But again, what you mentioned when you... your opening statements on this Bill were that they all have the same duties, they all do the same job."

Yednock: "Yes. They all have... under the statute, because they're Regional Office of Education and they cover all our public schools, they have many different duties. But they all have to do the same duty. They are regional superintendents for the state."

Frese: "And you also mentioned that this is estimated to... was there... there's 9 of them, about \$10 thousand a year extra. What do they currently make? Do you know? Is this a sizable raise?"

Yednock: "Yeah, actually, what I remember, or what I have here, is that it would be in total about 100 thousand more dollars a year. 'Cause some of them are actually going to be lowered, I believe."

Frese: "So, an additional \$11 thousand per. And do you know what they currently make?"

Yednock: "Yep. Yep. No, I'd have to pull it up on the..."

Frese: "So, they... they currently make 127. This would take them to 138?"

But I think we need to, once again, recognize the State of Florida, with about 8 million more people, have 74 school superintendents. So, in this Body, when we end up wondering why we're so behind and not competitive with states around the country, perhaps it's an overabundance of superintendents. And to Representative Wilhour's comments, perhaps we should be spending more money on classrooms and less money on administration. So, to the Bill. I believe this is one of the biggest problems in the State of Illinois. We have more administrators taking care of less students than surrounding states. And let's pay the teachers. At that time, she told me that one woman had been found dead in her bed due to the excessive heat in the building. I quickly ran over there to help her do well-being checks. By the end of the day, three women, Gwendolyn Osborne, Janice Reed, and Delores McNeely, died in the 103-degree heat of their apartment. For the entire week preceding this.. this tragedy, Alderwoman Hadden pleaded with the building management to switch over from heating to cooling. We spent close to 12 hours at the building, first doing well-being checks, then comforting people who had lost their friends and neighbors, then comforting the families of these women. Alderwoman Hadden made a change to the city's heating and cooling ordinance, But that's not quite enough. Our state funds these buildings. Our state helps put these affordable housing buildings into place. Under Senate Bill 2013, any residential building financed through our Housing Development Authority must meet a minimum standard of living requirement that includes giving control over the unit temperature to the resident so that, under these circumstances, I don't have to spend a day like that ever again, and I hope none of you ever do either. For parents working at employers with 50-249 employees, they get 6 weeks of leave in a year. And parents working of... for employers with 250 or more are eligible for 12 weeks of unpaid leave within that year. Please allow me to show you... help clarify why we are here today on this Bill. Laura Kane from Marshmallow's HOPE is a constituent of mine who turned friend while we dealt with this process. Her son, Zachary Birkholz, in 2018, lost his life to suicide. It was during the time she just found the job that she wanted to make her career. She was ready to... to find this job and stay there until retirement. But out of nowhere, unfortunately, her other children found their big brother in his room. And so, as a mom, as a parent, we can only imagine. I would never wish that on any of us, any of us. But you can only imagine. My other children find their big brother. I have to be there for them. And while she was going through the process of her grief, that job that she had, that she was ready to retire from, fired her because she was still in the probational... probationary phase of her job. And so, while grieving the loss of her son, she lost the job as well. And

so, that's what... where this Bill is birthed. Zachary... we lovingly called this Bill Zachary's Parent Protection Act. His mom, Laura Kane, she told me that he was compassionate, he was selfless, he was loving, and he was dealing with mental health issues. This Bill, I see... I know of no opposition. The Department of Labor is neutral. Chicago Chamber of Commerce is neutral. Illinois Manufacturers' Association is neutral. CMS is neutral. AFSCME is a proponent. Please, for the sake of parents in the future... and I'm hoping it's few and far between, but such is life. We all know it's not. But this Bill will support parents who may unfortunately lose their child to homicide or suicide, to ensure that, while they grieve, their job would be for them when they come back. two numbers? Was that an accommodation made to smaller

that means your revenue stream is a little bit... is a little
bit deeper than those who are smaller. So, it's just our way

Windhorst: "Now, with regard to how the time is taken, my understanding is that it doesn't need to be taken all at once. It can be taken in increments. Is that correct?"

West: "Yes, Sir. It can be taken within increments, but within the year... within the one-year time."

Windhorst: "And what was the reasoning for allowing it to be taken in increments rather than all at... in one lump?"

West: "Based on my conversation with Laura Kane, my constituent who brought this Bill forward, the grieving process when you lose a... a child in that way, and I was... I can confidently say when we lose anyone as a loved one, there's day... there's ups, there's downs, highs and lows to the grieving process, and we want to ensure that their performance is up... is still adequate at their job. So, if they need to take a mental health day... or that time to go back into the grieving of their... of their child, they can do that, but within that one-year time."

Windhorst: "And this is unpaid leave. I believe you said that, just so... so we're clear on that?"

West: "Yes, unpaid leave."

Windhorst: "And are there any known opponents to the Bill?"

West: "Not that I know of."

Windhorst: "Thank you."

Speaker Evans: "Representative Ugaste is recognized."

Ugaste: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "He indicates he will."

Ugaste: "Thank you. Representative, we discussed this a little bit in committee. And... and I don't think there's a person in this chamber that doesn't completely sympathize with people who have to go through this. And there's... there's always a

grieving process, and everyone handles it differently. But we keep asking our... our businesses to have to absorb things within this state. Do you know, by any chance, how many leave Bills we've passed through the House prior to this?"

West: "Not on the top of my head, Sir. But my priority at this moment is SB2034 and SB2034 only."

Ugaste: "Okay. We've... we've already done seven. And I... I wish that these had been brought to us as group so we could have considered them all together and looked at them at once and... and figured out a way to help all these individuals who... who need time when they are grieving but without just continually piling on and piling on. Because even though it is unpaid, and I appreciate that fact greatly, it... it does still have additional costs that are attached to it. So... so, thank you for answering my questions."

West: "Thank you."

Speaker Evans: "Representative West to close."

West: "Thank you all for indulging this debate and for your questions. Again, this is the legacy of Zachary. This is the legacy of his mother, Laura Kane. And the hope is that no other parent will have to deal with the loss of a child due to suicide and homicide. But unfortunately, we all know that that may be the case. But after you vote on today, those grieving parents will know that the State of Illinois will be there for them as they grieve the loss of their child. And I want to thank you in advance for your 'aye' vote."

Speaker Evans: "Representative Guzzardi."

Guzzardi: "Thank you, Mr. Speaker. Senate Bill 2037 will create
the Community Land Trust Task Force. Community land trusts
are a vital tool for developing and growing communities. We're
fortunate enough to have one in my district. It's called the
Here to Stay Community Land Trust. These are novel economic
development tools that ensure long-term affordability of
homeownership in communities that are rapidly changing.
Because these are still developing entities, some of our
state's policies don't properly accommodate them. For
instance, we learned recently that, at least up to now, the
state's down payment assistance programs can't be applied to
buyers who are buying through land trusts. So, we're working
with IHDA to change those policies, and I really appreciate
their hard work on that. But we understand that if we want to
support and grow these community land trusts, we need a
thorough look at our state's policies pertaining to housing
to understand how the community land trust model will fit
within those... those existing policies and what changes might
need to be made. So, this Bill will convene a task force. The
task force will study this issue and provide recommendations

Windhorst: "Representative, our analysis shows that the Housing Development Authority is neutral on the Bill. Is that correct?"

Guzzardi: "Yes, that's my understanding."

Windhorst: "They had maybe expressed some issue with serving as the administrator for the task force and requested perhaps a university serve as administrator. Is that accurate?"

Guzzardi: "That is. And we've worked with some university stakeholders. We've had some conversations about this Bill. And what they've said is that they have resources to support the administrative capacity of the Bill. And once the Bill passes, they'll be able to apply those resources. But they couldn't be named as the administrative entity on the Bill because they couldn't dedicate those resources until the Bill became law."

Windhorst: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Windhorst: "Thank you. Representative, there was some concern expressed on our... by our side in committee regarding the removal of the provision that DHS shall consider the length of time spent on the PUNS waiting list, in addition to other factors considered, when selecting individuals on the list for services. Why was that change made in the law... in this Bill?"

Syed: "The language simply was changed so that ISBE may work with DHS. So, it doesn't necessarily mandate them to work with DHS in ensuring that students are informed about the database."

Windhorst: "Specifically though, relating to the provision regarding length of time on the waiting list, why was that provision removed?"

Syed: "Could you clarify which portion you're looking at? In the Amendment?"

Windhorst: "Give me just a moment, please. Our understanding is one of the considerations being removed is the length of time on the waiting list. That provision's being removed and that... I believe I may have been in the committee when that was heard. And if my understanding was correct about what DHS said, they referenced something about that is not something they use currently when making that consideration. Do you recall that?"

Syed: "Yes, I do."

Windhorst: "So, our side is concerned that that should be a provision that is considered. Why, then, would we remove that length of time consideration from the law?"

Syed: "I think that would require another piece of legislation to address that concern, as it's currently not in the process. So, therefore, we wanted to make sure it wasn't reflected in this Bill, as it's not... as we're not trying to create a new process through this legislation. Happy to work with you in the future on that."

Windhorst: "Our... the Bill shows that it... on page 6 that language is specifically stricken. I... I think the intent of the Bill

is good. I believe we're all supportive of it. Our concern is just removal of that language. Thank you."

Syed: "No, that sounds great. And I think... once again, I think we could use another piece of legislation to address that concern. It is currently not part of the process in the consideration... it's not in consideration. So, therefore, we removed it. It's not created. Rather, just adds some more information in student's IEP regarding how to enroll in a PUNS database."

Speaker Evans: "Representative Keicher is recognized."

Keicher: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "Indicates she will."

Keicher: "All right. Representative, thank you. If you... if you could help me, just... what's the origin of this landing as a piece of legislation that you're working on?"

Syed: "Yeah. So, this measure was originally called for by a mother with a child with developmental disabilities who had not been able to register her son for the PUNS list and wanted to make sure that the system was easier for students with disabilities to use in the future."

Keicher: "Okay. Are you familiar at... at the extent of the backlog on the PUNS list that exists currently?"

Syed: "Yes, I am."

Keicher: "Okay. What's your current time frame that you've been advised it is for somebody to get awarded at the end of the PUNS list?"

Syed: "I'm not exactly sure on what the current time frame is, but that doesn't necessarily mean we shouldn't add students who should be on the PUNS list to the PUNS list. It's

necessary that they have the adequate information to be on the PUNS list. And I would be more than happy to work with you on future legislation and make sure that more students and more people are able to actually get services and that support they need."

Keicher: "Representative, I think you misunderstand. What I want to point out and illustrate through your Bill that I think is... is worthy is that our PUNS list, as I'm told by constituents of mine, we have folks that are now approaching seven years of waiting for assistance on the PUNS list. The adult with disabilities community had asked for additional resources at the end of last year and were denied, despite the fact that the state had additional references and resources to be able to support them. So, I certainly hope that your effort here is in alignment with making sure that the resources for our adults with disabilities are fully met, instead of being ignored time in and time out. Thank you."

Syed: "Thank you, Representative Keicher. And I..."

Speaker Evans: "Representative Syed to close."

Syed: "I want to thank Representative Keicher for those words. I am fully in support with you. We need to be doing a lot more in our state to support our community and our friends and families with developmental disabilities and making that a priority in the budget process but also through legislation. That is exactly what this Bill does. So, I urge an 'aye' vote."

factors, proxy voting, corporate engagement, and stewardship activities."

Speaker Evans: "Seeing no... Representative Windhorst is recognized."

Windhorst: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "She indicated she will."

Windhorst: "Representative, if you could explain, what is a reason or purpose behind this Bill and the law change?"

Kifowit: "Well, the... the purpose behind the Bill is simply that if three-fourths vote of the board believes that the Treasurer should manage the proxy voting activity on behalf of their board, in short, the proxy voting is when shareholders are able to vote on the direction or some of the initiatives of the stocks in the financial institutions that they hold. It's just if the board deems that the Treasurer would do a better job, and... and they look at him to do that with three-fourths vote. I do want to note that only a majority is needed to take back that authority, back to the board."

Windhorst: "So, instead of the... the board managing that voting activity, they give their proxy to the Treasurer to determine the voting. Is that..."

Kifowit: "Correct."

Windhorst: "...do I have that correct?"

Kifowit: "That's correct."

Windhorst: "So, that would potentially, at the discretion of the board, be giving more authority to the Treasurer in that circumstance?"

So, you need a supermajority to give that authority but a simple majority to bring it back."

Wilhour: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "Indicated she will."

Wilhour: "Thank you. So, Representative, just... just to be clear, we're taking the... we're potentially taking the power away from this appointed board and giving it to an elected politician who is..."

Kifowit: "We're not taking anything away from anybody. If the board decides to vote and three-fourths supermajority members of the board decides to vote to authorize the Treasurer to initiate the proxy voting on their behalf. That's the independent nature of the board. We're not giving, mandating anything in this Bill."

Wilhour: "Yeah. To the Bill. Folks, this is not a... not a good idea. We... we all see what happens when... with investments in... in this state when it's subject to the, you know, comings and goings of the political winds of the... of the day. We have these... we have these independent boards for a reason. I would strongly encourage a 'no' vote."

Speaker Evans: "Representative Keicher is recognized."

Keicher: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "She indicated she will."

Keicher: "Okay. Thank you, Representative, for bringing this. I have... I have a couple concerns with trust in our Treasurer to do things because of the overreach that he's expressed during his tenure. And one of the concerns that I have here is, are

STATE OF ILLINOIS
103rd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

44th Legislative Day

there any parameters around the discretion that the Treasurer has in casting those proxy votes?"

Kifowit: "It... it is up to the board. So, again, this... it's so the board..."

Keicher: "I understand. But once that power of the board has been handed over to the Treasurer, are there any safeguards in place to be sure that the Treasurer is voting in the interest of those that are benefiting from the pension fund that he's casting the vote upon?"

Kifowit: "Yeah, I think that mandate would come from the board."

Keicher: "Okay."

Kifowit: "The board will authorize the Treasurer in the manner which they deem fit. It's not the whole proxy universe. It really could potentially be, maybe, one investment or one portfolio or one stock that the investment board chooses the Treasurer to engage in. Or it could be zero. There could be zero proxies authorized by the board. It depends on, as the previous speaker said, the independent nature and the deliberations and the decisions on this independent board. So, there is a conceptual..."

Keicher: "And I appreciate the independent board, but would... would..."

Kifowit: "...there is conceptual that the proxy... there would be no proxy authorization given to the Treasurer ever. That... that is... that is a realistic scenario as well."

Keicher: "So, it's within the board's parameters, as they hand over this authority on behalf of those benefiting from the pension, that they will be able to put parameters around the

STATE OF ILLINOIS
103rd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

44th Legislative Day

extent of the Treasurer's authority and what guidelines he needs to vote upon?

Kifowit: "Absolutely. And it's a supermajority of that board. So, it's not something that can be put into easily. I'm sure there'll be debate on these boards. It's a supermajority of the board that would authorize the Treasurer in a narrow capacity or the capacity of which they deemed in their authorization. And keep in mind that if something were to fall contrary and the board wants to take that back, it is a simple majority to take that back. So, there is an easier way to take it back than it is to authorize the Treasurer for this."

Keicher: "Is there any recourse that the board has against the Treasurer for making decisions that are not in the approving financial situation of the pension? For example, if he decides on criteria other than earnings and company stability for some social or other issue, is there recourse that the board has against the Treasurer for holding that vote?"

Kifowit: "The board could take action if the Treasurer proxy votes outside the parameters of which they have authorized him to do. They... they have recourse to be able to do that. It's a contractual relationship. They are giving authorization to the Treasurer in the confines that they should. As with any individual that exercises authority outside of the authority given to them, the board will have recourse of their own discretion to go... to take in that event, should it happen."

Keicher: "And this is limited to proxy voting, not investment decisions, correct?"

Kifowit: "Proxy voting."

Kifowit: "Which would... a proxy voting is... could be a statement. It could be anything that's beyond a shareholders that is for the whole company. So, the position of the proxy could be very small and... and not of a significant issue. It could be large. It... it all depends on the parameters that the board, the board, not the General Assembly, that the board, by three-fifths vote, gives to him."

Keicher: "My concern is more out of the shown dispensation of the Treasurer to continue to assume more and greater power outside of what the Treasury Act allows. So, I thank you. I'm going to be voting 'no' on this today."

Speaker Evans: "Representative McLaughlin is recognized."

McLaughlin: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "She indicated she will."

McLaughlin: "Representative, quick question. Are these boards compensated to do their fiduciary duties on behalf of the shareholders... or excuse me, on behalf of the participating members?"

Kifowit: "I don't believe that they're paid. I apologize for that. That's not really pertinent to the Bill at hand. So... but I don't..."

McLaughlin: "No, and the... yeah."

Kifowit: "I apologize if that's... but I know that the boards have a responsibility to the members and a responsibility to those that are contributing to their... these different funds to... all aspects of the fund, not just this voting proximity. And if the board feels that, you know, the... the proxy should stay

with the board, it will stay will the board. It would not go to the Treasurer. This is not a mandate. This is something..."

McLaughlin: "I... yeah."

Kifowit: "...that the board can consider."

McLaughlin: "To... to the Bill, Mr. Speaker. Representative, in many instances, these appointments are compensated. Part of their job as a fiduciary is to make sure they're voting in best of interest of... of plan participants. Further, many agencies, many of our friends, AFL-CIO, retirement, AARP, they actually solicit support of investment guidelines specifically for proxy voting. And the reasons for that is to have influence upon whether management or labor will influence the direction of a corporation. To that, since many are compensated and since it's part of their job and their duty, they should be held responsible as individuals on these boards to make the best decisions possible for the plan beneficiaries and not allow my good friends at the AFL-CIO and others to influence a singular member, which would now be the Treasurer, to vote for proxies which will have an advantage either for or against management of companies. So, for that reason, I'll be voting 'no'. But I'll also be voting 'no' because I believe that it's inherent, the fiduciary responsibility, for a broader number of members to participate in substantive discussions so they can best represent the members in these plans. I love Mr. Frerichs. He's a very good friend. I also love Timmy Drea, a very good friend at the AFL-CIO. But I do believe with more scrutiny and more discussion comes better decision making. And for that reason, I will be voting a hardy 'no'. And I certainly

hope the other Members of this Body will consider what I said in that. We are a... 118 Members. I think we're better together, and I will quote Hillary Clinton on that, making decisions as a group, and so are these boards, and that's we have so many Members. So, thank you."

Speaker Evans: "Representative Kifowit to close."

Kifowit: "Thank you. I appreciate the debate. I got a text that on these boards, they're not compensated. So, I have a difference... different information than what the previous information said. To be succinct, the best decisions and the best interest of the participants is exactly what the boards are to do. If the board feels that handing and.. and allowing the Treasurer to vote the proxies is not in the best interest or decisions of the participant, then I can surmise that three-fifths of the board would not authorize that action. What is happening here is just wordsmithing and it's... it's a little disingenuous. But I understand the concern, which is why this Bill was changed to allow the boards to act in the best interests of the participants, three-fifths vote of the board, a supermajority, a minority vote of the board to reverse that. So, therefore, I ask for an 'aye' vote."

Speaker Evans: "Seeing no further discussion, the question is, 'Shall Senate Bill 2152 pass?' All those in favor vote 'aye'; all those opposed vote 'nay'. The voting is open. Have all voted who wish? Speaker Evans: "Representative Cassidy is recognized."

Cassidy: "Thank you, Mr. Speaker. Since 2016, Illinois has taken a leading role in recognizing that very often survivors of domestic violence are criminalized for surviving their abuse. We passed the Domestic Violence Resentencing Act in 2016. However, some ambiguity in the language has led to confusion and very few people actually getting relief under... under this... this law. Some of you may remember House Bill 4847 from last year. Leader Windhorst and I did a lot of work together on that. It... we passed it out of the House, sent it over to the Senate, and continued to work over the summer getting engagement with some of the stakeholders that weren't able to engage during the last Session. This is... this reflects that. One of the... one of the big things that changed... that changes under this law, it expands the Bill from domestic violence to include gender-based violence, including domestic violence, sexual assault, stalking, and human trafficking. The... another piece of it that's very significant, often survivors accept plea deals that didn't take into account the abuse they experienced because, in some cases, domestic violence was not even a mitigating factor until the original Act was enacted in 2016. So, this will allow for those survivors who were sentenced, either through a plea deal or a full sentencing

hearing, to have all of the factors of gender-based violence considered and ensure that they receive a fair sentence and that mistakes of the past can be rectified. It... it takes care of many past wrongs. We have survivors in prison who are not allowed to talk about being raped by their husbands because, at the time of their... of their sentencing, marital rape was not even a crime. We have survivors in prison because their abusers or traffickers forced them into the impossible choice of being present while they did horrible things or... or risk becoming another fatality. The Bill has widespread support from organizations representing survivors, including the Illinois Coalition Against Domestic Violence, the Illinois Coalition Against Sexual Assault, The Network: Advocating Against Domestic Violence, and many more, including the association of states attorneys that... who really helped us land this plane and come up with language that will be workable for everyone. Happy to answer your questions.

Speaker Evans: "Representative Windhorst is recognized."

Windhorst: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Evans: "Indicated she will."

Windhorst: "Thank you. Representative, you mentioned that the States Attorneys Association is a proponent of the Bill. They had some language that satisfied them. What changes were they specifically looking for?"

Cassidy: "There were questions about... let me find the exact... there we go, sorry. It changes the third factor that a movant must establish to present a petition with a much more clear definition that there is substantial evidence of domestic violence or gender-based violence against the movant that was

not presented at the original sentencing hearing. So, using that language gave the states attorneys comfort that it was actually a term of art that is recognized and could be measured objectively."

Windhorst: "So, using substantial evidence made sure that there was a... a threshold that would be met for the petition to be brought and then ruled upon?"

Cassidy: "Exactly. If you recall, I made the example when... when we debated 4847 last year that there was one petitioner who's petition to have a resentencing hearing was denied when the transcripts of the trial showed no mention whatsoever of her abuse. And the judge's response was, 'I noticed you were wearing a neck brace. I figured as much.' So, this... this would definitely address situations like that because it's very clear that... that substantial evidence was not offered in that case."

Windhorst: "Thank you."

Speaker Evans: "Representative Davidsmeyer is recognized."

Davidsmeyer: "Thank you, Mr. Speaker. Question of the Sponsor."

Speaker Evans: "The Sponsor will yield."

Davidsmeyer: "So, I... I just want to be clear on what we're trying to do here. So, we're... is this a Bill that if a victim of domestic violence is somehow forced to commit a crime or... or seen as forced to commit a crime by the violent offender, they would be able to make an agreement with the state's attorney to make sure they're not charged with that crime? That the victim is not charged with that crime? Is that correct?"

I am guilty of that crime on accountability."

Davidsmeyer: "But you were under duress, right? Yeah."

Cassidy: "But I was under duress. So, this would allow that to be contemplated to resentence... to give me an opportunity to argue for a resentencing."

have had their fees adjusted over the years. I believe it's over 20 years that we have not adjusted this fee. Usually, these are bundled applications where they apply for all the licenses at once. Sometimes, they're individual licenses, though. And so, this accounts for the increased costs for the surveyors and for the department and matches what those other licenses are charging."

Windhorst: "And if you could give the dollar amount changes, yes."

Morgan: "Of course. So, this would be \$1500 every 2 years, as opposed to the 1 thousand annually for the other 2 licenses."

Windhorst: "And what are the current... under the current law, what would the fees be?"

Morgan: "Well, right now, I believe it's \$100. But again, more often than not, they're doing it as a bundle. So, this really just reflects an update of what we've done with the other licenses."

Windhorst: "Under current law, local governments are required to make these accommodations for 65-foot trucks. Is that accurate?"

Buckner: "That's right."

Windhorst: "And the change in this... this Bill would eliminate that requirement. Is that correct?"

Buckner: "It does."

Swanson: "So, what you're attempting to do is to limit semis, 18 wheelers, from operating on our county and state highways?"

Buckner: "No. This would just say that municipalities are no longer required, when new infrastructure is built, to... to allow trucks of a certain size past 65 feet on these roads."

Swanson: "Do you see that as a limitation in some of the logistics getting to some of our businesses by some of these roads being narrowed and... and smaller in size and possibly can prevent some the traffic flow that we see today?"

Buckner: "Yep."

Swanson: "...if we're narrowing highways."

Buckner: "We're not narrowing. This... this is just removing a

anything that exists today. This... this is for new
infrastructure."

Swanson: "New construction."

Buckner: "Yes, Sir."

Swanson: "And... and we see the logistics issues we have today. And
as far as farm equipment, construction equipment that's
transported over our highways today is getting larger and
larger. I'm concerned that it could cause some limitations
and... especially with some of our oversized vehicles that we
see today. So, I'm somewhat concerned about this, but thank
you for your responses."

Buckner: "Thank you. And I just wanted to... to that point,
municipalities will, once again, have the ability to make
their own rules in this space. So, if in a city or a town or
a village somewhere in Illinois, they need that
infrastructure to look a different way, then they'll still
have the ability to do that."

However, they can have consequences that result in the deprivation of liberty. And so, because of that, many states like the State of New York, the American Bar Association, have recommended that in particular in cases where somebody might be deprived of their liberty or face dire consequences similar to those that you would face in the criminal context, that we provide a right to counsel in those types of cases."

Keicher: "Okay. And I think, as of... as of a matter of course, entitling someone to representation is the key question here that I now the task force is looking into. I think we'll have both up and down votes on this side of the aisle. Thank you for your work on the issue."

Gong-Gershowitz: "Thank you."

Speaker Evans: "Seeing no further discussion, the question is, 'Shall Senate Bill 2379 pass?' All those... all those in favor vote 'aye'; all those opposed vote 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. On this question, there are 77 voting 'yes', 34 voting 'no', and 0 voting 'present'. And this Bill, having received the Constitutional Majority, is hereby declared passed. Senate Bill 2391, Representative Collins. Mr. Clerk, please read the Bill."

Clerk Bolin: "Senate Bill 2391, a Bill for an Act concerning education. Third Reading... Third Reading of this..."

Speaker Evans: "Representative Collins is recognized."

Collins: "Thank you, Mr. Speaker. This Bill expands the definition of sustainable community schools. It also clarifies the definition of trauma-informed intervention. And it adds community school coordinator to the staff required to secure a community school's grant, and it mirrors the federal requirements. And it expands the definition of wraparound services. I ask for a favorable vote."

Speaker Evans: "Representative Windhorst is recognized."

Windhorst: "Thank you, Mr. Speaker. Will the Sponsor yield?"

After 1,155 todays, today is the day. A momentous occasion that the Governor finally, begrudgingly aligning Illinois' COVID-19 policies with the rest of the country and allowing the COVID-19 emergency to expire. So, thank you, thank you, Governor Pritzker. Thank you, Governor Pritzker, for putting the acquisition of political power ahead of the health and the well-being of the people of this state. Thank you, Governor Pritzker, for destroying kids' education. Thank you, Governor Pritzker, for destroying the businesses and the livelihoods of so many people in this state. Thank you, Governor Pritzker, for closing playgrounds. Thank you for forcing disgusting masks on our kids long after the science, observation, and common sense deemed it unnecessary. Thank you, Governor Pritzker, for the increase in depression, addiction,

antisocial behavior. Thank you, Governor Pritzker, for making our loved ones die alone. Thank you, Governor Pritzker, for the massive inflation and recession that will be the result of your reign of tyranny. Thank you for your lack of transparency on the data behind all of these measures. Thank you for putting fear, shame, and coercion over truth, education, and freedom. Thank you, Governor Pritzker, for forever destroying the public trust in public health. So, as we give thanks and celebrate this momentous occasion, I hope we never forget the wreckage, the absolute carnage that these dark days have wrecked on our society. I know I never will. And I'll never forget that your side of the aisle recklessly refused to do your job. You were more concerned with kicking Members out of here for ridiculous things, like not wearing a mask, than you were for standing up for what you knew was in the best interest of our citizens, especially our kids. The Governor owes this state, owes our citizens an apology for this wreckage. And you all owe citizens an apology for hiding, for fecklessly hiding on your desk and letting it happen. Speaker Evans: "He indicates he will."

Windhorst: "Thank you. Leader Buckner, I have just a couple questions. I think you hit on it in your presentation, but just want to get further explanation. What is the purpose behind bringing this Bill forward?"

Buckner: "Yeah. So... so, right now, IDOT... there is no requirement to have any new safety plans or policies when it comes to pedestrian and cyclist safety rights. So, this is trying to push the agency, you know, in... into the space where they're actually being proactive about this and then reporting to the General Assembly about their... what they have done."

Windhorst: "And with Floor Amendment 2, which changed the distance from... or to 500 feet from a thousand feet of the maintenance work, what was the purpose behind that Amendment?"

Buckner: "Yeah. IDOT brought that Amendment forth. They thought that the change in that distance would be better and easier for them to actually to be able to... to practically succeed in that space."

Windhorst: "Thank you."

Buckner: "Yep."

Speaker Evans: "Representative Guzzardi is recognized."

and nuance in this Bill. I'm not witty that way with words. I just want to get some clarification about the Bill. Do you... are you a cyclist, Representative Buckner?"

Buckner: "Say it again."

Guzzardi: "Are you a cyclist?"

Buckner: "I am."

Guzzardi: "Are you a pedestrian?"

Buckner: "I... most times, yes."

Guzzardi: "I... I know that you and I are both aware that in the vicinity of IDOT roads in... in our communities in the City of Chicago there have been a number of incidents in recent years in which pedestrians and cyclists have been hit, struck, killed along, near these roadways. Is it your intention that IDOT has a responsibility to engage in a process to make pedestrians and cyclists safer on... in our communities?"

Buckner: "Absolutely. I think way too often, specifically with IDOT's interplay with some of the... the municipal DOTs, like CDOT in Chicago, there's not been, I think, a close enough relationship. And so, we've... we've seen, unfortunately, many fatalities throughout the state, which, you know, most recently near our neck of the woods. And hopefully what this will do is to push the agency to be forward-thinking and forward-leaning to actually be responsive to what's going on in our streets."

Guzzardi: "Thank you. And to the Bill. This is an excellent measure that will improve pedestrian and cyclist safety not just in our communities in the City of Chicago, but near IDOT roadways across the state. And I urge for an 'aye' vote."

University and pursue the American dream. He relocated to Chicago, Illinois in his mid-twenties and settled right in my neighborhood of Uptown Chicago next to Asia on Argyle. Over the course of his long and industrious career, he achieved great success in business and became a leading figure in the Chinese American community. Tang's business career began in the 1960s when he first founded Electronics, a lamination business in 1960, and then the National Material Company in 1964, a distribution company that became the foundation for many of his future businesses. His company grew rapidly, eventually becoming one of the largest independent companies in the Midwest, and he would go on to found and acquire many other successful companies in different industries. However, his success was not limited to his business endeavors. Cyrus Tang was also a committed philanthropist who gave generously to a wide range of causes. One of Tang's greatest contribution was his support for education. He is often quoted, 'Education is one of those areas that has the potential to produce exponential social returns.' He believed education was the key to unlocking the potential of individuals and communities, and he generously donated over 100 thousand scholarships to universities and other educational institutions throughout his life. His philanthropic work in Chicago has included his support for the Field Museum of Natural History, where he established the Cyrus Tang Hall of China that served as an educational resource for thousands of Chicagoans as well as 200... 2 and half million visitors to date. He also has established the Tang Center for Herbal Medicine Research at the University of Chicago to support

medical research. Other philanthropic endeavors have included promote... promoted culture exchange programs and aiding disaster relief efforts. In recognition of his many contributions, Tang received numerous honors and awards during his lifetime. But perhaps the most fitting tribute to Tang's legacy is his commitment to education and cross-cultural understanding between the United States and China that's touched countless lives in both countries. Today, on May 11, we commemorate Cyrus Tang, who passed away in 2018, and celebrate his remarkable life and achievements. His unwavering commitment to excellence and his dedication to making the world a better place serves as an inspiration for all of us. We honor his memory and his pledge to continue his work of building a brighter future for all of us. Thank you so much for your time. Thank you so much to the Speaker. And thank you so much for listening to us on the month of May for Asian American history month."

Speaker Manley: "Chair recognizes Representative Weber."

Weber: "Thank you, Madam Chair. A point of personal privilege."

Speaker Manley: "Please proceed."

Weber: "I rise today to call attention to an issue that is very important to many families that are in my district. But not just in my district, but something that is vital to families in all of our districts across the state. I've never met a group of students so determined to fight for their future, and I am sure that we have all seen them every week here at the Capitol wearing their blue shirts. And I don't if there's any up in the gallery right now, but we all know who I'm talking about. Without action, the Invest in Kids Tax Credit

Scholarship Program will expire next year. This program has had a profound impact on helping so many low-income families. This program opens up opportunities that otherwise may not exist. By obtaining these scholarships, these students and families are able to send the child... their child to a higher performing school of their choice. And imagine this, the program is funded through donations. In my district alone, 170 families have benefited from these vital academic scholarships that are awarded entirely based on financial need. But the demand is high, that nearly 800 families just in my district have sought out scholarships. Statewide more than \$300 million has been raised and more than 38 thousand scholarships have been awarded. The impact of a quality education cannot be underestimated. It is life changing to so many families and so many children. Now is the time to act to save this vital scholarship program that has already helped so many students and families across our state. Thank you, and please join me in supporting the Invest in Kids Program."
