NTD in Million

Company Org. Chart

A Leading Brand of Graphics Cards for 30 years

A full range of consumer/professional graphics cards, powered by the latest Ampere architecture, support real-time ray tracing and artificial intelligence technology, providing high quality and diverse products to completely meet the needs of the market.

AI Cloud Computing Total Solution

Leadtek AI Deep Learning Solution

- AI/Deep Learning and CUDA Training Courses
- AI Development Project Collaboration
- System Planning, software Integration
- GPU Technical Service, maintenance Service

NVIDIA NGC-Ready
WinFast RTX AI Workstation

NVIDIA HGX-2 architecture
WinFast HSA1600

NVIDIA DGX A100

AI Management Software

GDMS allows you to maximize resource usage, manage your tasks more efficiently, and reduce the total cost of ownership. All kinds of schools, institutions, and corporations will benefit from GDMS in their development environment deployment, no matter it's an AI development project, an AI training course, or a GPU accelerated application project.

Docker Open Platform
12 users = 12 GPU cards

GDMS
12 users = 1 GPU card

GDMS success cases :

NVIDIA DLI Course

Leadtek is an NVIDIA authorized deep learning institute (DLI), and the courses are taught by Leadtek lecturers who are qualified NVIDIA DLI instructors. Nearly 500 school and corporate training sessions have been completed in China and Taiwan, spanning across schools, finance, IT, medical, automobile manufacturing, and many other industries.

Leadtek Zero Client & Thin Client

INTEGRATION · SECURITY · CREATIVITY · GREEN · SCALABILITY

Leadtek delivers truly astounding graphics, outstanding power efficiency, and highly reliable endpoints for VDI applications. Optimized for the latest VDI solutions including VMware, Citrix and Microsoft, Leadtek Zero Client & Thin Client endpoints are designed to meet all types of user's demands and preferences.

Leadtek Big Data Solution

Provide efficiency-optimized information products and services that help decision making

We assist in the construction of data collection, modeling and cleaning, data storage, data acquisition, data analysis, decision-making models, and intelligent imaging platforms to help users in efficient management, precise focus on development strategies, and create value.

Multiple data storage system

- ◆ Data storage and construction
- ◆ Data modeling and cleaning

Big data mining software

- ◆ Support R suite
- ◆ Drag-and-drop simple operation

BI business intelligence

- ◆ Customized dashboard design
- ◆ Supports visualized dynamic charts

Data analysis

- ◆ Data acquisition, design decision model
- ◆ Multi-dimensional analysis settings

A+ Smart engine

- ◆ Develop AI algorithm
- ◆ Deep learning model, predictive analysis

Blockchain high-level encryption storage

- ◆ Decentralized data fragment storage technology
- ◆ Two-step identity verification

Big Data Application Areas and Performance

Leadtek big data service covers five major industries. Through the big data platform, the large amount of data in the database is transformed into beneficial information, utilizing the advantages of data. From academic research, information management to business development, we will work with you to make progress and expand business models together.

Our Clients

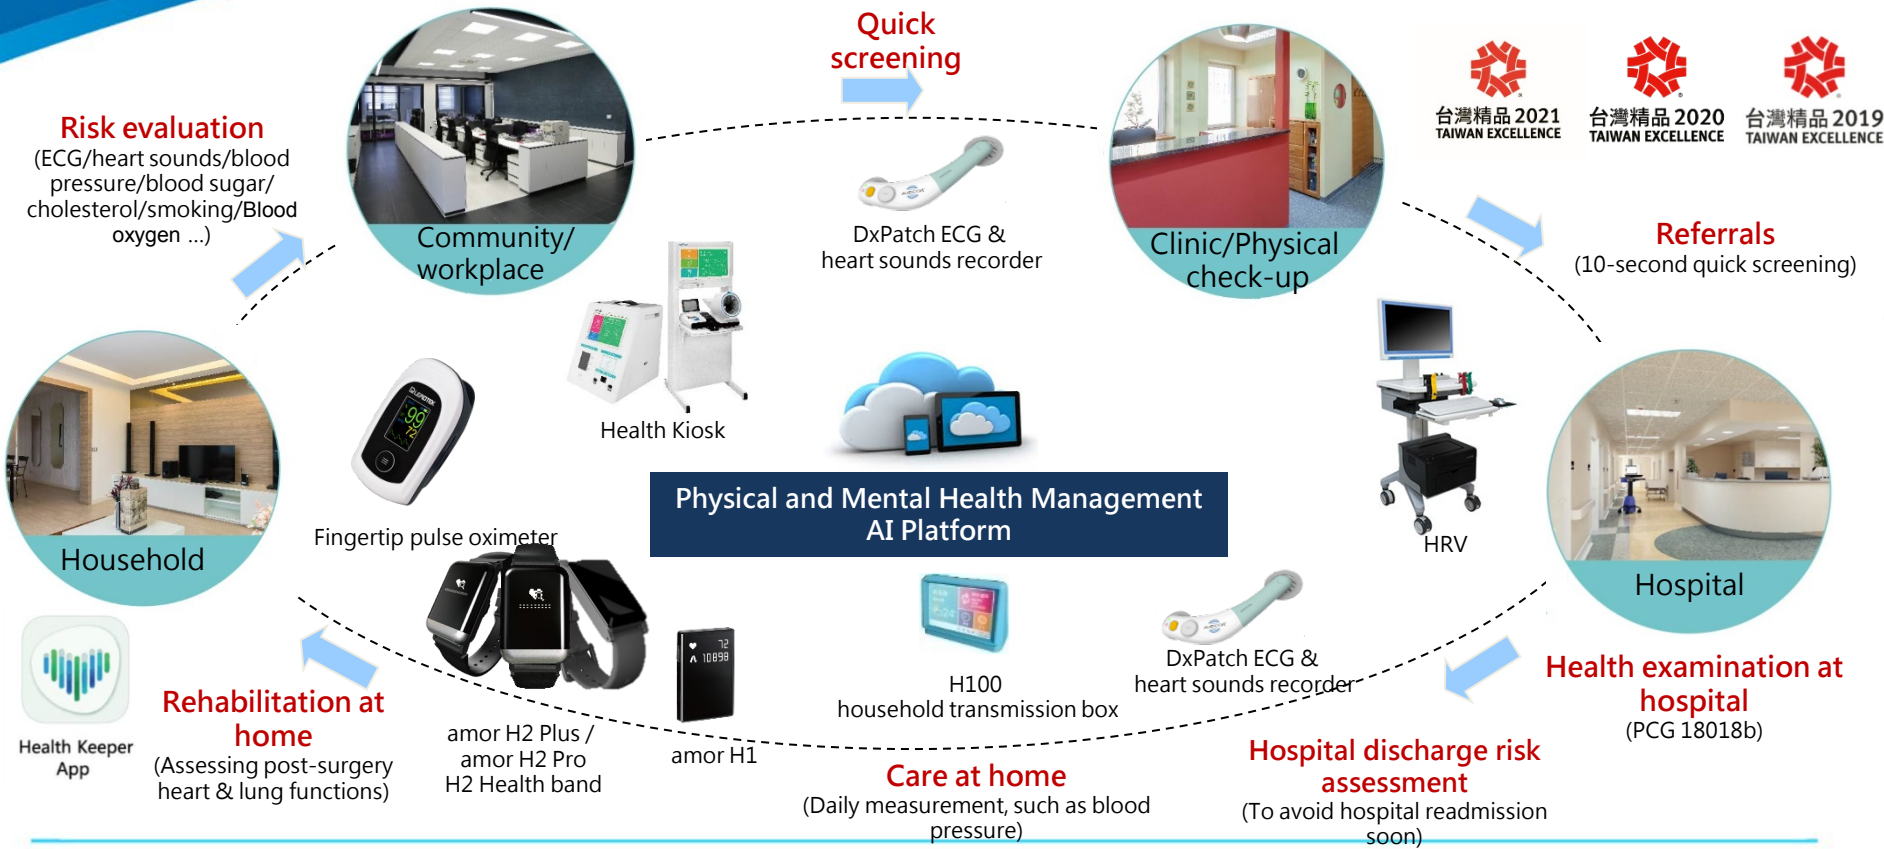

Education Industry
-More than 50 colleges

Some clients are not disclosed in the briefing due to Confidentiality Agreement.

AI Smart Medical Solution

H2 Plus Wearable ECG Recorder

Heart disease is still one of the most important health issues in the world, and it ranks second among the top ten causes of death in our country. Coronary heart disease is currently one of the largest cases of heart disease, and vascular stent implantation is the main treatment method. The restenosis rate within half a year after a general stent is implanted is as high as 25%-40%. If there is no follow-up care and monitoring, heart failure may also occur. Constant hospitalizations and operations are a huge burden on the patient and the country's medical costs.

Fingertip Pulse Oximeter & Baby Micro Motion Detector

Leadtek Fingertip Pulse Oximeter

Quickly and accurately measure SpO2 and pulse rate by touching with your fingertips. It is suitable for home care monitoring, and can also be used to measure whether the blood oxygen saturation is sufficient. (Medical equipment license number: Ministry of Health Medical Device No. 005876)

Leadtek Baby Micro Motion Detector

By detecting the baby's breathing, heartbeat and related micro movements, parents know that the baby is in the crib safe and sound.

THANK YOU
