ProfitPoint

Intelligent assistant system for national health insurance declaration

- Facilitate the optimization of the reporting operations of medical institutions, and reduce the burden of tedious and repetitive tasks for users
- Through the verification mechanism, reduce the risk of being deleted and indirectly increase the number of declared benefit points
- Get instant and highly reliable data analysis results quickly and immediately

- Remind the declaration optimization/doubtful items to reduce the omission of manual inspection
- Real-time presentation of data analysis charts related to declarations
- Assist the hospital to grasp key information about medical decision-making in advance
