LOOKBOOK *Fitness*

Introduction

In the intensely competitive fitness industry, smart operators are choosing to install a network of digital signs that deliver immersive and engaging content, such as Virtual Group Fitness Classes, transforming gyms into exciting, dynamic fitness centers. Choosing the right display allows you to broadcast selected content to each area of the fitness center. Proper implementation of a digital signage network can give your fitness center the competitive edge it needs to both grow and retain loyal clients.

LG offers large 4K displays and Video Walls for group fitness spaces and Commercial Televisions for all other areas of the facility. In addition to TVs, LG Digital Signage serves as a great visual vehicle for gyms and fitness clubs to communicate messaging, branding, class schedules, advertising and much more to their members.

Game-Changing LG Digital Displays

DYNAMIC CONTENT MANAGEMENT

1
SIGNAGE

Reception Areas

UHD Commercial TVs welcome and inform members on schedules, events, announcements, and special promotions.

Locker Rooms

Inform members with inviting Digital Touchscreen Displays that encourage interaction.

Training Classes

Small Digital Signage placed throughout the facility can be used to deliver center news and offers and provide efficient scheduling of workout areas.

Snack Bars

Ultra-Stretch LED displays are the perfect choice to liven up lounge areas and can serve as menu boards that promote healthy food and drink options.

Dynamic Exercise

Group fitness participants will appreciate Large Format Ultra-Stretch Displays or marvel at the Ultra-Narrow Bezel Video Walls streaming instructional messaging.

Group Fitness Classes

Video Walls deliver immersive and engaging 3rd party content to transform conventional training into exciting, dynamic virtual classes.

2
GROUP FITNESS

Cross Fitness

Direct View LED displays can be configured to create large displays free from distracting visible seams or gaps, producing seamless digital mosaics that conform to existing architectural features.

Group Exercise

Durable Commercial-grade displays can withstand high user rates and provide various installation options to suit every environment.

Images are simulated.

Game-Changing LG Digital Displays

CUSTOMIZED WORKOUT OPTIONS

3

INDIVIDUAL
FITNESS

Custom Workouts

Ultra-Stretch displays can be synchronized as individual fitness stations.

Cardio Sessions

Cardio Equipment Displays with touchscreen capability give enhanced user interaction.

Motivated Spaces

Large Format Commercial TVs can be synchronized or configured as individual fitness stations, allowing members to program a "one-on-one" workout.

Community Complex Centers

IT Multi-Touch Point UHD IPS Digital displays can transform outdated weight rooms into exciting dynamic fitness centers.

4

COMMUNITY

Swimming Facilities

Direct View LED displays inspire swimmers with motivational imagery and stand out in daylight or brightly lit interiors.

Specific Applications for Signage

LG's displays fit into a broad array of applications – with full software and available technical support.

Deliver Content Facility-Wide

From Small and Large Format Digital Signage to UHD Commercial TVs, a network of digital displays can be used to deliver customized content, welcome members, and communicate class schedules, events, health tips, announcements, and special promotions.

Motivating Workout Spaces

A wide range of display options can be synchronized or configured as individual fitness stations, allowing you to provide dynamic personalized and group workout sessions and illuminating swimming centers can inspire swimmers with motivational imagery.

Health Bar Menu Boards

Increase your revenue options by displaying food and drink choices at Health Bars and an assortment of products offered for retail sale.

Advertising and

Promotional Messaging

Make your brand logo and promotional messages stand out and get noticed. LG's webOS makes it easy to change your offers so you can maximize advertising results based on time of day or rotational advertising calendar.

Creating an Efficient and Secure Back Office

LG's high-performance Cloud Device options provide portability and enhanced security to your work environment while helping you increase productivity and efficiency.

Game-Changing LG Digital Displays Deliver Stress-Free Workout Options

LG Commercial displays provide game-changing options, from exciting video walls to individual workout stations, and are designed to deliver years of service with little maintenance. Utilizing LG's webOS™ Smart Signage Platform, operators have powerful multimedia capabilities and the critical management tools needed to address enterprise-class requirements from a central location or remotely, to monitor and control each display around the clock.
