

# Workspace for forward traders

The right solutions for every stage of the trade

In today's highly fragmented and increasingly scrutinized FX market, traders need platforms that offer optimal transparency, maintain equal access to liquidity, and improve the efficiency and effectiveness of execution – supported by complete post-trade solutions.

Thousands of customers around the world trust LSEG's award-winning transaction platforms to trade more than \$425 billion in average daily volume.

**FX Trading** is an innovative desktop platform designed to deliver the value of the entire LSEG and LSEG FX offering to the global professional FX community.

## FX Trading: key benefits for forward traders

- Trade with confidence with the market's most trusted independent provider of FX trading solutions
- Efficiently manage risk with a single point of access to unrivalled liquidity in hundreds of currency pairs from the **Matching**, **Conversational Dealing** and **FXall®** platforms
- Collaborate with the world's largest global professional FX community, with more than 16,000 **Conversational Dealing** counterparties, 2,300 **FXall** buy-side liquidity takers and 300,000 **Workspace Messenger** contacts
- Advanced Dealing is a technical and functional enhancement to our already-popular Conversational Dealing. Furthermore, it is a key strategic element of our FX strategy, centered on Workspace for FX Trading. Advanced Dealing brings together Messenger and Dealing communities to deliver Collaborative Trading workflow.

- Streamline your workflow with a comprehensive end-to-end solution that offers market-leading compliance, straight-through processing, confirmations, settlement and trade history reports
- Comply with regulatory trade requirements through our regulated trading venues, the **Swap Execution Facility (SEF)** and the **Multilateral Trading Facility (MTF)**
- Leverage advanced execution management capabilities, including desktop liquidity aggregation across LSEG and Refinitiv venues
- Gain timely access to new functionality and other enhancements facilitated by simplified, software-based product delivery with no proprietary hardware requirements
