We’ll tell you the rate of brokerage when you open an account with us. We’ll also let you know about any changes to our brokerage rates from time to time. A minimum charge may apply to some transactions.

There may be times when product offerings mean we receive an ongoing commission, referral fee

or trailing commission. These may depend on the nature and amount of business being referred.

Financial products

You can use nabtrade to take up financial products issued by NAB, other companies in the NAB Group, or unrelated product providers.

When you do so, both the product provider and any companies in the NAB Group that give services relating to the product may receive payments, fees or commissions. Those payments may ultimately benefit other members of the NAB Group and directors, or other associates of those companies.

Any commissions or fees and charges paid to NAB, companies in the NAB Group and other product providers will generally be disclosed in the relevant PDS or disclosure documents.

Initial Public Offerings

From time to time, we may receive upfront fees, volume bonuses, ongoing fees and other incentives by making Initial Public Offerings available to our clients. Fees and charges will vary, as they'll depend on the offer at the time. Given each offering is different, details about each offering will be contained in the appropriate offer document.

Referral fees

Where you've been referred to us by a third party, we may have arrangements in place to pay a referral fee or where legally permitted, a commission or other benefit. To find out more, please refer to the Financial Services Guide provided by the third party who referred you to us.

Fees and charges for nabtrade services

Part Two of this FSG details our current fees and charges for nabtrade services. Unless expressly stated otherwise, all fees and charges are expressed on a GST-inclusive basis. Any fees and charges relating to specific products can be found in the relevant PDS or disclosure documents.

Pay and benefits received by NAB staff members

NAB staff members are salaried employees of NAB. In most cases they don't receive any part of the fees or commissions that may be paid to NAB or other companies in the NAB Group in connection with the products and services referred to in this FSG.

Incentives are rewarded based on a balanced approach, including the achievement of both revenue and non-financial threshold targets.

A portion of these incentive payments are deferred and paid annually based on the demonstration of satisfactory corporate, customer and community behaviours.
