

TTC Communication 7-18-23

To address supplier concerns and assist with the transition to the transportation tariff changes implemented on May 1, 2023, Nicor Gas has agreed to extend the widening (doubling) of the daily storage parameters through the end of March 2024. The wider daily storage parameters will help minimize suppliers' exposure to daily cash-outs while they continue to become familiar with the program. Monthly storage parameters will still apply.

Adjusted Daily Storage Activity Parameters (as % of Storage Capacity)
