

**Incident Management Situation Report  
Tuesday, June 20, 2023 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

<b>Fire Activity and Teams Assigned</b>	<b>Total</b>
Initial attack activity:	Light (70 fires)
New large incidents:	2
Large fires contained:	1
Uncontained large fires: **	6
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	1
<a href="#">Complex IMTs</a> committed:	0

Nationally, there are six fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires only include fires being managed under a full suppression strategy.

**[Geographic Area daily reports](#)**

**[Understanding the IMSR](#)**

Three incident management teams, 20 fire suppression crews, 38 smokejumpers and 25 overhead personnel are assigned to large fire support in Canada.

**This report will post Monday – Friday at 0730 Mountain time unless significant activity occurs.**

**Active Incident Resource Summary**

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

**Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.**

## **Predictive Services Discussion:**

Dry and windy weather will continue across much of the Southwest, southern Great Basin, and West Slope ahead of a strong late-season cold front. Very hot temperatures, in some places exceeding 110°F, will continue across much of Texas into Louisiana with relative humidity below 20% in areas. Warm and dry conditions will persist in much of the Great Lakes, with minimum relative humidity below 35% in northern Michigan, Minnesota, and Wisconsin. Well below normal temperatures will continue across much of the West, with isolated to scattered showers and thunderstorms in the northern Intermountain West onto the northern Plains, including severe thunderstorms in the Dakotas. Widespread showers and thunderstorms remain likely in much of the Southeast, southern Appalachians, and Mid-Atlantic, with heavy rain and flooding in portions of the Southeast and southern Appalachians.
