

# Career Opportunities

The **Bureau of Land Management Fire and Aviation Program** offers many career opportunities in both field and office settings. Opportunities include working on fire crews, such as fuels management, engine, helicopter, and hand and hotshot crews, as well as smokejumping, heavy equipment operation, dispatch, community outreach, and management. With more than 3,000 employees in 52 district fire programs throughout the western United States, Alaska, and Mississippi, the BLM offers diverse careers in locations that support an active, outdoor lifestyle. More than a summer job, these careers allow growth—from seasonal work to senior leadership—with the BLM's Fire and Aviation Program.
