All closures are in effect.

USSS Access Points are open at this time.

Many/Most visitors have brought backpacks that are not permitted in venue by USSS. USPP units are having to collect and sweep these backpacks. Some of the backpacks were placed in the trees on the WAMO grounds and are being removed by USPP and NPS assets.

Wave #2 USPP Officers are in roll call and will be on post momentarily.

**Subject:** Sitrep - 1/6/2021

Following the permitted event at the Ellipse, a large crowd breached police lines at the Capitol to include gaining unauthorized access to the building. US Capitol Police (USCP) made a direct support request to several agencies including the USPP.

MPD declared the activity a riot (per commander assigned to the MPD-JOCC). USCP and MPD both reported empty on less lethal pepper ball at the West Front of the Capitol and were actively being assaulted. Several USCP officers were reported injured. USPP authorized one (1) pepper ball team to support with a Captain and Lieutenant as on scene Unified Command.

USPP had pepper ball and pepper spray engagements with criminal actors actively assaulting officers, destroying property, and crossing a police line.

Major Adamchik deployed to the USCP Headquarters to meet with USCP leadership and remains at that location coordinating with regional agencies.

At this time, one (1) pepper ball team with one Captain are staged at New Jersey and Independence Ave. All other USPP assets remain staged off the Capitol grounds ready to respond to emergencies on NPS property. USPP beat units have been advised to proactively patrol NPS property. There are no reported issues at NPS properties at the time of this notification. NPS IMT is assisting with logistics and multiple operational periods are being planned by the Special Events Unit.

No reported injuries to USPP personnel. A USPP officer was taken to a hospital with chest pains (unrelated to the incident at the Capitol). Officer is in good condition and communicating with his family.

US Marshal Service SOG was authorized by Acting Chief Smith to assist USPP SWAT and are on station at this time. USMS SOG is the only outside agency working directly under USPP. The NYFO USPP officers are on station and ready for assignment.

At 1800 hours, the chamber of the Lincoln Memorial and the Jefferson Memorial will be closed for precautionary measures. Regular day personnel scheduled to end their tour of duty at 1800 hours are being held until further notice and will remain for response.

USCP continues to develop their operational plan to secure the grounds.

USCP created a perimeter around the Capitol grounds and made an address to the remaining public that they may be subject to arrest if they remain after the Mayor's curfew at 1800 hours. The Joint Session is planning to reconvene tonight (estimated time 2000 hours). In addition to the pepper ball team, USPP has offered portions of the Motorcycle Unit for dignitary escorts as well as a cadre of 40 patrol officers to support USCP operations if needed. At this time, they have not been assigned a specific task from the resource manager with USCP.

The Special Events Unit has created a multi-operational plan that will include 24-hour coverage in addition to our regular patrol schedule (staffing for the USCP post as well as staffing for the MPD-JOCC at key times are included in that plan). Portions of the special detail today have been demobilized as they will be returning early tomorrow AM.

The USPP-NYFO will support the operation tomorrow and remain an additional night in the DC area (Thursday into Friday).

Food and hydration for the special detail (dinner tonight and breakfast in the AM) was authorized and is currently being organized by the NPS IMT and USPP Logistics due to the emergency situation and required patrol duties with extended tours of duty.

USPP units at the Lincoln Memorial have one detained for jumping the bike rack used to close the chamber.

NAMA advised that the Washington Monument will be closed tomorrow.

No injuries to USPP personnel.

This sounds like it's for John. My engagement with USSS is mostly for events and that always seems to be a different person.

John, do you know anything about this?

## Operating posture 1/7 and current status

Mendelson, Lisa <Lisa\_Mendelson-Ielmini@nps.gov>

Colleagues,

First of all, thank you to all who have been involved over the past weeks helping to get to the point where the NPS issued permits for activities to occur this week. The professionalism of our team is unmatched in working to ensure that all have the opportunity to have access to park land for uses allowed under 36 CFR 7.96 in the downtown and close in areas. Your work developing and negotiating permits, monitoring activities from load in to load out, conducting resource damage assessments post-event, communicating with the public, and working closely with our colleagues in SOL and USPP is exemplary and I am proud to work with you and your teams. Please extend my appreciation to all.

Late this afternoon and again tonight, John, Jeff, and I, along with Acting Chief Pamela Smith, had the opportunity to brief DOI and NPS leadership on the status of park and law enforcement operations in DC. All of our park employees are accounted for as of this hour. For your situational awareness we will not operate tours at WAMO tomorrow. USPP remains engaged in operations protecting park lands throughout town tonight.

The DOI Chief of Staff has issued a maximum telework memo for tomorrow 1/7 for MIB and other DOI locations in the area. For NPS we know that telework is still in effect for nearly all regional office employees, and maximized many in parks. For parks in the downtown area that could potentially be subject to continued civil unrest, you're authorized to determine the best staffing model for your operations including maximizing telework. For the remainder of the NCA parks outside DC, I have shared with the Director that we will generally maintain our "normal" COVID operating stance. All - once you determine your status for tomorrow please let me know if there are any deviations from "normal" COVID.

You may have some questions that I'm not addressing – if so, please let me know and I'll get answers/info to everyone.

I hope all rest well tonight and ask that you continue to remain vigilant for personal safety and health.

I thank you all for your leadership at this (yet another) unprecedented time,

~Lisa

The Joint Session reconvened at the Capitol without incident. The session is still ongoing.

USCP advised that fencing will get installed around the Capitol complex shortly. They are planning for multi-operational periods and may use assisting agencies to supplement their sworn staffing to hold a secure perimeter.

USCP has relieved some of the assisting agencies from staging to include the USPP for this operational period. The USPP command will evaluate the availability of USPP units to assist during the next phase and will communicate that to the USCP staging area manager.

The majority of the special detail assigned on 1/6/2021 was relieved and will report back in a few hours. A USPP tactical element remains available for 24 response and will be under the command of Car 31. Sign off days for USPP-WMA have been cancelled through January 9, 2021 and a special detail will be staffed each day.

Constitution Avenue between 15th and 17th street remains closed due to significant debris in the roadway (currently being cleaned by DPW).

No other significant incidents were reported and no reported injuries to USPP. MPD and USCP police reported several injuries to their personnel to include medical transports.

This will be the last sitrep for this operational period pending a reportable incident.
