

Public Safety Power Shutoff

Prepare Your Business

We may need to turn off power to help prevent wildfires when risk is high. This is known as a Public Safety Power Shutoff (PSPS). We have resources to help you and your business prepare.

Complete this checklist before a power outage

Visit pge.com/psps to:

- Update your contact information to receive outage alerts.
- Sign up for Address Alerts to receive PSPS notifications for additional locations.
- Have backup power for your cell phones and/or mobile credit card readers.
- Consider using a mobile hotspot to stay connected if the internet goes out.

Keep your business running during a power outage

Backup Power Programs

- **The Backup Power Transfer Meter Program** makes it easy to safely switch to generator power when the power is out.
- **The Generator and Battery Rebate Program** offers a financial rebate for a backup power system.
- **The Self-Generation Incentive Program** helps you save money on battery storage installation.

Explore these free and reduced-cost options at pge.com/backuppowers.
