Products

Pluralsight Skills is the technology skills platform for organizations that need to enhance the expertise of their technologists and keep up with the pace of tech change. We help leaders and individuals deliver key innovations on time, on budget, and securely. Businesses can use skill assessments and analytics from Pluralsight Skills to evaluate the technical abilities of their teams and align learning to key objectives with custom plans. Our software platform closes skills gaps in critical areas, like cloud, security, and data, with a library of on-demand courses, certification prep, and hands-on experiences from the largest global network of technology experts.

- Index tech skills across your organization with Skill IQ
- Upskill employees into modern tech roles with Role IQ
- Build fluid teams that meet objectives with skill analytics
- Instantly access the expertise of our network of 1,600 authors
- Develop skills in record time with personalized course recommendations
- Overcome roadblocks with powerful strategy and onboarding services

Pluralsight Flow provides visibility into development processes by pulling data related to code commits, pull requests, tickets, and more into actionable workflow reports. These metrics help teams optimize their processes, improve collaboration, and remove bottlenecks. With Flow, you can:

- Get a fact-based view of effectiveness and performance
- Optimize commit, PR, and ticket work patterns across multiple teams
- Improve knowledge sharing and better understand how teams work together
- Visualize how projects are progressing and identify blockers early on
- Communicate project health and engineering capability to leadership with consistent KPIs

With Skills and Flow together, leaders can turn skills and workflow data into operational improvement—allowing organizations to deploy critical skills at scale and deliver products faster.

Social impact

Pluralsight believes technology has the power to create freedom, equality, and opportunity around the globe. Pluralsight One is our commitment to unlocking that opportunity for the underrepresented by increasing access to technology skill development and promoting diversity in the technology workforce.
