

# Prepare with Pedro!

FLOOD 

American  
Red Cross

Hi! I'm Pedro!  
I'm learning how  
to prepare for  
emergencies.

Prepare means “get ready.”

You get ready for things all the time—like when you put on a jacket and grab an umbrella to get ready for a rainy day.

I want to be ready for any emergency, so I'm learning how to stay safe when emergencies happen.

You can prepare  
for emergencies, too!  
Just follow me!

**Important words to know: FLOOD, FLOOD WATCH, EVACUATE, FLOOD WARNING, FLASH FLOOD, "TURN AROUND, DON'T DROWN"**

**Pedro was playing outside with his friends, Martin and Matthew, when it began to rain. They went inside and found Martin and Matthew’s parents looking at a map.**

**“Are we going on a trip?” asked Martin.**

**“We are making plans in case we have to leave our home because of a flood,” his dad replied.**

**“What’s a flood?” asked Pedro.**

“A **FLOOD** happens when a lot of water flows onto land that is normally dry,” replied Martin’s mom. “Flooding can happen when there’s a lot of rain or a creek or river overflows.”

“How do I know there will be a flood?” asked Pedro.

“You’ll hear about a flood watch. A **FLOOD WATCH** means a flood might happen, so we need to be prepared. You’ll hear the message on the radio, TV, by a cell phone alert, or from a grown-up,” said Matthew.

**“What should I do when there’s a flood watch?” asked Pedro.**

**“You should BE PREPARED in case a flood comes,” replied Martin’s mom. “We are checking the emergency kit in the car so we’ll have the supplies we need if we have to leave. We will be sure to bring extra clothes, blankets, diapers for Lorena, water, food, and some extra money.”**

**“Can I bring my ball?” asked Pedro.**

**“Yes! You should bring some things you can play with like your favorite book, game, or toy,” Martin’s mom replied.**

“If there is a flood, you might need to **TAKE ACTION** and evacuate. **EVACUATE** means to go to a safer place,” said Martin.

“How will I know if I need to evacuate?” asked Pedro.

“You will know because there will be a flood warning.

A **FLOOD WARNING** means flooding is happening in your area!

A safe place could be a higher floor if you are in a tall building or somewhere nearby that you can easily get to that’s on higher ground,” Matthew said.

“Sometimes a different kind of flood, called a **FLASH FLOOD**, can happen without warning and you have to act very quickly,” said Matthew. “That’s why it’s important to be prepared.”

“Our home is in an area that floods easily. So, if we have to evacuate, we want to find many different ways out of our neighborhood to get to higher ground where we will be safer,” said Martin.

“Why can’t you just get out the way you usually do?” asked Pedro.

“Streets may be filled with water, and it’s never safe to drive into it!” replied Martin.

“Whenever you see flood water, **TURN AROUND, DON’T DROWN!**” said Martin. “Whether you are in a car or walking, it’s always safer to stay away from the water.”

“Well, I am a good swimmer,” said Pedro. “I could swim across!”

“No way!” said Martin. “Playing or swimming in flood water can make you sick. The water can be full of unsafe things that you cannot see. It’s better to stay far away!”

**“After a flood, you can get updates from the local radio, TV, a cell phone, or a grown-up to know when it is safe to return home.**

**Don’t return home until it is safe.” said Martin.**

**“Also, if your toys or clothes get wet in a flood, it’s important to let an adult inspect them before you try to touch them,” Martin’s mom added.**

**“Wow, there is so much to learn about flood safety,” Pedro said.**

**“Thank you for teaching me.”**

**A FEW WEEKS LATER...**

**Pedro was sitting at home and noticed that it was raining a lot. He turned on the TV and saw that there was a flood watch.**

**“I know what to do!” said Pedro.**

**“I’m so glad I’m already prepared!”**

**Pedro found his emergency kit and added some fresh snacks and drinking water. Using his map of the city, Pedro reviewed the routes he had planned to get to higher ground.**

**Later that day, the news announcer said the flood watch had been canceled. “Phew! I didn’t have to evacuate this time, but I’m so glad I learned how to be prepared just in case!” said Pedro.**

## Chill Out with Pedro!

Wow!  
Practicing for emergencies is exciting. But it makes me feel nervous, too. So I take big, slow breaths to calm down.

Breathe in slowly through your nose, like me.

Then breathe out slowly through your mouth.

After just five or six breaths, I feel better and start to relax. Try it yourself and see!

# Grownups -

We hope that your child has enjoyed learning how to prepare for an emergency! To learn more, please visit: [redcross.org/prepare](https://www.redcross.org/prepare) and [www.ready.gov/kids](https://www.ready.gov/kids).

## Pedro's Safety Checklist

- Make a family emergency plan that everyone understands.
- Make a family emergency supplies kit and keep it updated.
- Start saving for an emergency fund.

**Did you know that home fires affect more homes in the U.S. than all other emergencies combined?**

- Practice your home fire escape drill—be sure you can get outside in 2 minutes or less!
- Test all smoke alarms once a month.
