

Dear friend,
I have a very good opportunity for you today. Please call me at (415) 666-5444 before it's too late.
John

Doesn't seem like a friend to me!

Steer clear of suspicious emails. If you think it's someone you know, reach them at a known number or email.

What is Phishing?

Phishing is a "social engineering" tactic used by scammers and hackers. They trick you into sharing your private information or passwords to steal your accounts.

Watch Out For...

- Too good to be true's
- URGENT EMAILS AND MESSAGES
- Emails and messages with errors or suspicious email addresses
