

Annual Community Policing Plan

Administration Bureau – Fleet & Facilities Division

CITY & COUNTY OF SAN FRANCISCO

Police Department

12.20.2022

Facilities and Fleet Division Overview

- The Facilities and Fleet Division oversees and manages the various fixed and mobile assets of the department.
- The portfolio of properties comprises 30 locations that include structures such as police stations, training facilities, special operation sites, evidence storage sites, and a crime lab.
- The fleet is composed of 1,100 units that include items such as marked and unmarked patrol vehicles, specialized equipment, and operational support equipment.
- It is the mission of the Facilities and Fleet Division to provide a robust, consistent, and stable network of buildings and vehicles to allow our staff to fulfill their mission critical roles in providing effective public safety to all the residents and guests of San Francisco.

Ongoing Initiatives

- While the Facilities and Fleet Division is primarily a department facing operation with limited day to day exposure to the public, the investments in our capital and maintenance activities have an impact on the responsiveness and professionalism of the staff who do.
- Facility Renovations
 - Ingleside Station – renewal project to ensure resiliency and environmentally conscious design paired with a redesign to meet current and future operational needs
 - Property Control Division – a new site is being developed for the permanent storage of our property and evidence with the goal of an improved customer experience through improved convenience, upgraded parking, and improved access to recovered property
- Fleet Renewal
 - Continued renewal efforts of first responder equipment to ensure timely and consistent operational capabilities
 - Evaluation and planned piloting of near zero emission and zero emission technologies to meet future vehicle trends

Thank you.
