The Capital Improvement Plan (CIP) consists of the projects the city needs to build, repair, expand or maintain to serve the community. A five-year CIP is developed and updated annually, including budgeted funding sources. \$1.1 billion has been adopted in the FY 2024/25 CIP budget, which is a 22 percent decrease from the prior year's budget of \$1.4 billion. These projects address City Council priorities and critical capital infrastructure needs in a variety of areas and are supported by different funding sources, including many directly funded by the city's voters-approved general obligation bonds.

A few notable capital improvement projects completed during FY 2023/24 and planned for the upcoming FY 2024/25 are highlighted on the following pages.

**FY 2024/25 Adopted Capital Improvement Plan  
\$1.1 Billion Budgeted Program Expenditures**

search "budget"

Includes contingencies

## Water Management

Water Management projects ensure delivery of safe, reliable water and water reclamation services.

Scottsdale Princess Metering Station

### Highlighted Accomplishments

The Princess Metering Station is a critical component of the sewer collection system. This station measures both the flow and the quality of the water as it leaves Scottsdale and enters the Sub-Regional Operating Group (SROG) system. The project involved replacing large diameter pipes, manholes, and monitoring equipment. A massive temporary sewer bypass system had to be used for over a year to facilitate the construction. The City of Scottsdale now has a reliable metering station with an expected life of 100 years.

### Looking Forward

Construction of a new 36-inch diameter sewer line is underway to serve new development in the Scottsdale Airport Area. This gravity sewer line will facilitate build-out development flows while at the same time providing a valuable water resource which will be pumped back to the water campus for treatment and recycled use. This supports the city sustainability and water resources management goals.

## Transportation

Transportation projects provide safe, efficient and affordable mobility options via streets, roads, paths, traffic signals and traffic management technology.

### Highlighted Accomplishments

#### Raintree Extension & Raintree-Hayden Roundabout

Scottsdale has finished expanding and extending Raintree Drive west of Hayden Road, which included the installation of a roundabout. Roundabouts enhance road safety by lowering intersection speeds, reducing lanes of traffic crossed for pedestrians and preventing more dangerous (head-on) collisions through the angle at which vehicles make contact.

Raintree-Hayden Roundabout

### Looking Forward

#### Arizona State Route 101 Freeway Widening

In a partnership with the Arizona Department of Transportation (ADOT), Scottsdale will upgrade four interchanges along the Loop 101 by adding more lanes for vehicles to travel on, increasing the freeway’s capacity for traffic. With increased capacity, the freeway can handle more vehicles per hour, leading to smoother traffic flow, fewer delays, and improved overall efficiency of the transportation network.

#### Chaparral Road Underpass

Scottsdale will finalize a dedicated crossing for bicycles and pedestrians along the Indian Bend Wash Multi-use Path, located on the eastern side of Hayden and Chaparral Roads. Pedestrian underpasses allow street crossing without disrupting the flow of traffic and avoiding the risk of vehicles colliding with wayfarers. Overall, these channels play a crucial role in safety and connectivity in communities.

## Service Facilities

Service Facilities provide buildings and technology for efficient and effective city operations.

### Highlighted Accomplishments

The design phase has commenced for two solar projects under the Bond 2019 program at the Civic Center campus. These initiatives aim to boost solar power generation and lower energy expenses at the campus. Enhancing energy efficiency in public facilities and expanding the use of renewable energy align with objectives outlined in the current General Plan.

Scottsdale Solid Waste Recycling Vehicle

### Looking Forward

The expansion project for the Solid Waste Transfer Station is scheduled to begin construction in 2025 to improve efficiency and capacity of the city’s waste management system. This project will double the facility’s size and introduce new drop-off points, with a hazardous waste facility for residents and a green waste site for commercial businesses.

## Community Facilities

Community Facilities help the city deliver services via recreation facilities, parks, paths, aquatic centers, libraries and senior centers.

Reata Sports Complex

### Highlighted Accomplishments

As part of the Bond 2019 program, the city completed the Reata Sports Complex against the McDowell Mountains. It features five premier sand-based sports fields with LED lighting, walking paths, restrooms, and a large, shaded pavilion overlooking the fields.

### Looking Forward

The Ashler Hills Neighborhood Park will complete construction. The highly anticipated park will provide North Scottsdale with a variety of amenities including eight pickleball courts, a basketball court, a shaded playground, walking paths and open turf areas.

Meanwhile, McCormick-Stillman Railroad Park is undergoing enhancements, including a new indoor play facility themed around railroads and a summer-ready splash pad.

## Public Safety

Public Safety projects help keep Scottsdale safe via modern fire and police stations, training facilities and automation systems related to fire and police operations.

### Highlighted Accomplishments

The city completed renovations to police facilities, such as the 911 Communications Center and the Real Time Crime Center, with new workstations for current technology and increased security measures for reception areas. These renovated spaces provide the infrastructure to utilize the most current technology and keep the public and employees safe.

### Looking Forward

Construction projects at Fire Station 612 and the Thomas A. Hontz Police and Fire Training Facility will be completed by 2025, providing Scottsdale residents with enhanced police and fire safety services.

## Drainage / Flood Control

Drainage / Flood Control projects prevent property damage from flooding with detention basins, channel projects and a program of neighborhood drainage improvements.

### Highlighted Accomplishment

#### Rawhide Wash Flood Hazard Mitigation Project

The Rawhide Wash Flood Hazard Mitigation Project commenced in collaboration with the City of Phoenix and the Maricopa County Flood Control District. Phase I has concluded, and Phase II is scheduled for completion by Fall 2024. This initiative incorporates a floodwall and protective system designed to withstand a 100-year flood event, minimizing flood hazards for residents of Scottsdale.

Rawhide Wash Flood Hazard Mitigation Project

### Looking Forward

#### Reata Wash Channel Improvement Project

Scottsdale is actively enhancing the stormwater infrastructure along the Reata Wash, which is located in the northeastern part of the city. These enhancements will provide increased flood protection for homes in Scottsdale and eliminate the need to regulate areas currently vulnerable to damage from a 100-year flood event.

#### Granite Reef Wash Project

Scottsdale, along with the Maricopa County Flood Control District and the Salt River Pima-Maricopa Indian Community, is undertaking storm drain enhancements within the Granite Reef Wash watershed (in the eastern part of the city). Upon completion, these enhancements will redirect stormwater westward to Indian Bend Wash. Consequently, the 100-year floodplain for the Granite Reef Wash watershed is expected to be smaller than indicated on the Federal Emergency Management Agency's (FEMA's) current Flood Insurance Rate Maps (FIRMs). Phase I of these enhancements has been finalized and the city is currently progressing with the final design and construction of Phase II improvements.

## Preservation

Preservation Programs focus on preserving the character and environment of Scottsdale with an emphasis on maintaining open space such as Scottsdale's McDowell Sonoran Preserve.

Browns Ranch Interpretive Trail, McDowell Sonoran Preserve

### Highlighted Accomplishments

The city completed a variety of projects, including those that improved visitor experience and safety, reduced the threat of wildfires and protected the natural and cultural resources of the McDowell Sonoran Preserve.

### Looking Forward

In the Scottsdale's McDowell Sonoran Preserve, staff will continue to remove unwanted trails and roads, invasive plants and wildland fire fuels. The city will also complete the update to the Preserve's Ecological Resource Plan, finish construction of the Brown's Ranch Interpretive Trail and nominate the Brown's Ranch site to the National Register of Historic Places.

## Definition of CIP Projects

- Relatively high monetary value (\$50,000)
- Useful life of five years or more
- Results in the creation of a capital asset or the revitalization of an existing capital asset

The Capital Improvement Plan (CIP) authorizes and provides the basis for control of expenditures for the acquisition of significant city assets and construction of all capital facilities. A five-year CIP is developed and updated annually, including anticipated funding sources. Under Arizona law\*, unused funds from one fiscal year can only be spent in the following fiscal year if the Council formally reappropriates the funds as part of the new budget. Since many capital projects extend across fiscal years during planning, design, and construction, it's essential to reappropriate funds to ensure completion. Importantly, this process doesn't increase total project costs. Additionally, the City of Scottsdale follows the Government Finance Officers Association (GFOA) multi-year capital planning recommended practices.

Included with the above CIP project definition are the following items:

- Construction of new facilities
- Remodeling or expansion of existing facilities
- Purchase, improvement and/or development of land
- Operating equipment and machinery for new and expanded facilities
- Planning and engineering costs related to specific capital improvements
- Street construction, reconstruction, resurfacing or renovation

In general, automotive and other rolling stock, personal computers, and other equipment not attached to or part of new facilities are not included as a CIP project. The exception to this is when the aggregate dollar amount of all the items are of a significant enough value that they are grouped together and considered a single capital project.

## Recurring Capital Maintenance Projects

Recurring capital maintenance projects reflect the recurring capital expenditure needs required to preserve or replace existing city assets due to wear and tear. These projects are reviewed and evaluated as part of the annual budget development process. The desired goal is to close out the projects within one year. The first year's appropriation may be carried forward into the next fiscal year if and when the project requires more time for completion. The recurring capital maintenance projects are assigned a project number with the prefix "Y".

Each division is required to submit new funding requests to the City Treasurer Division, who then compiles the information for the applicable CIP review team. If the review teams have questions concerning a request, the divisions are asked to provide input and feedback to assist the review team in prioritizing the projects against all city needs.

*\*According to the Arizona Revised Statutes Title 9, Article 6 – Municipal Planning.*

## CIP Review Process

The City of Scottsdale traditionally uses three cross-divisional CIP Review Teams: for construction-related projects, transportation-related projects and technology-related projects.

The **Construction Review Team** and **Transportation Review Team** consist of individuals from a variety of divisions and professional disciplines to review project submissions and ensure that:

- Projects are scoped properly (i.e., a building has Americans with Disabilities Act (ADA) access, includes telephones, computers, etc.)
- Infrastructure components are coordinated (i.e., a waterline is installed at the same time as a roadway improvement at a specific location)
- Long-term operating impacts are included in estimates (staffing, utility and maintenance costs are considered)
- Timeframes for construction activity and cash flow requirements are realistic
- Projects are coordinated geographically (i.e., no more than one north/south major thoroughfare is restricted at a time)
- Project costs are reviewed to determine adequacy of the budget and appropriate funding sources

The **Technology Review Team** includes individuals from a variety of divisions to review technology project submissions and ensure that:

- Projects meet city's current hardware, software, and security standards
- Network bandwidth requirements are needed to support the application if technology will be accessed from remote locations
- Long-term operating impacts are included in estimates (training, maintenance, and support)
- Funding for ongoing maintenance of hardware, operating system, application, and database, if applicable, is identified
- Parties responsible for day-to-day support are identified
- Systems that require after hours technical support are identified
- Backups and data retention have been considered
- Funding is included to cover ongoing monthly communication costs associated with the system
- Disaster recovery and security considerations have been considered

The CIP review teams prioritize the projects based on City Council's broad goals, division priorities, anticipated funding sources, and recommended practices from GFOA and the International City/County Management Association (ICMA).

### Prioritization Criteria for Capital Projects

- Mayor & City Council's Strategic Goals and Priorities – Does the project directly address the Mayor and City Council's Strategic Goals and Priorities?
- Mandated – Is the project mandated by any local, state, or federal laws?
- Emergency/Negative Impact of Not Investing – Determine if the public or the city's financial position is negatively impacted or if there is a Health and Safety impact by failure to invest in a particular project.
- Annual Operating Cost – What is the expected impact to ongoing operations and maintenance costs associated with the project?
- Matching Funding – Does the project have matching funds from other agencies?
- Economic Vitality – Does the project contribute to the improved economic vitality of the city and bring in improved revenue?
- Master Plan – Is the project anticipated in the General Plan, Character Area Plans, or Master Plan?
- Distributional Effects – Does the project impact a large number of residents or specific target groups?

### Capital Management Review Committee

The Construction, Transportation, and Technology Review Teams forward their prioritization results to the Capital Management Review Committee (CMRC) for the next phase of review. This group includes senior management members who provide an enterprise-wide view for synergy and priority while balancing project requests against known City Council objectives. The CMRC makes funding recommendations to the full City Council. These and the five-year CIP plan are discussed at public hearings prior to budget adoption.

**FY 2024/25 Adopted Budget**

The Capital Improvement Plan (CIP) uses funding from various sources, including prior-year carryovers. For FY 2024/25, approximately 80 percent is funded by “pay-as-you-go” revenues, which are defined as all sources of revenue other than city debt issuance, i.e., fund balance, dedicated revenues, contributions, grants etc. Per Financial Policy No. 3.02e, Pay-as-you-go funding should account for a minimum of 25 percent of the CIP for each five-year planning period, except for capital improvement programs funded by voter-approved debt where the amount of debt is authorized by voters.

All potential capital funding resources are evaluated to ensure equity of funding for the CIP. Equity in funding is achieved when those who benefit from a project or service contribute to its cost. General tax revenues and G.O. Bonds are used for projects benefiting the general public, while user fees, development fees, and contributions fund projects benefiting specific users. Other considerations in the capital plan include the timing of funding availability and the financial costs of different funding sources.

The chart below represents the funding sources percentages for FY 2024/25.

FY 2024/25 Adopted Capital Improvement Plan  
Source of Funds

## General Fund

The General Fund represents the transfer of cash from the General Fund to fund the “pay-as-you-go” contributions from general revenues for capital projects that do not have a dedicated funding source. The General Fund transfer of cash to the CIP is considered and approved by the City Council each fiscal year and complies with the city’s Budget Governing Guidance No. 1 that states: a) 50 percent of the unrestricted portion of construction privilege tax revenues; b) 100 percent of interest earnings; and c) any additional funding as recommended through the budget process.

## G.O. Bonds 2019

**General Obligation (G.O.) Bonds** are bonds secured by the full faith and credit of the issuer. G.O. Bonds issued by local units of government are secured by a pledge of the issuer’s property taxing power (secondary portion). They are usually issued to pay for general capital improvements such as new neighborhood parks, new parking structures, and the expansion of a public safety training facility.

## Enterprise Funds

Enterprise Funds are established to account for operations, including debt service financed and operated similarly to private businesses - where the intent of the service is self-sufficient, with all costs supported predominantly by user charges. The city maintains three Enterprise Funds to account for Water & Water Reclamation, Solid Waste, and Aviation activities.

**Water and Water Reclamation Rates** are utility bill revenues received from the sale of domestic water and the fees collected for the disposal of sanitary sewer waste from customers within the city. Water and water reclamation operating revenues in excess of operating expenditures are transferred to the CIP to fund water and water reclamation capital improvement projects.

**Aviation Fees** represent fee revenues received from users of the city’s municipal airport and related facilities. Fees paid include transient landing fees, tie-down fees, hangar fees, etc.

**Solid Waste Rates** represent utility bill revenues received for the collection and disposal of solid waste from residential and commercial customers.

## Transportation Funds

**Highway User Revenue Fund (HURF)** are Highway User Tax revenues distributed to the city based on the official U.S. Census Bureau population estimate, as directed by State Statute. The State of Arizona taxes motor fuels and collects a variety of fees and charges relating to the registration and operation of motor vehicles on the public highways of the state. These collections include gasoline and use-fuel taxes, motor-carrier taxes, vehicle-license taxes, motor vehicle registration fees and other miscellaneous fees. These monies must be used for street construction, reconstruction, or maintenance.

**Maricopa Association of Governments (MAG) Fund** represents amounts paid by the Maricopa Association of Governments (MAG) which manages the Proposition 400 revenues received from the 2004 voter-approved 20-year extension of a half-cent transportation sales tax in Maricopa County that was first approved in 1985 to fund freeway construction.

**Transportation Sales Tax (0.20%)** accounts for revenues received from the 1989 voter-approved 0.2 percent sales tax on local retail and other sales. Per the city’s Financial Policy Appendix A, No. 5, no less than 50 percent of the dedicated 0.2 percent privilege tax revenue for transportation improvements will be allocated to the capital budget for planning, design, construction and acquisition costs associated with building, renovating, or enhancing capital projects for streets, highways, traffic control, and transit.

**Transportation Sales Tax (0.10%)** accounts for revenues received from the 2018 voter-approved 0.10 percent sales tax on local retail and other sales for a period of ten years. This revenue is restricted to fund transportation improvements.

### Enterprise Revenue Bonds

Enterprise Revenue Bonds include bonds issued by the city for water and sewer or solid waste capital improvements, pledging water and sewer or solid waste revenues, and bonds issued by the Municipal Property Corporation, pledging city excise tax but are repaid with water and sewer or solid waste revenues.

### Preservation Sales Tax Fund

The Preservation Sales Tax Fund represents revenues received from the 1995 voter-approved 0.2 percent sales tax on local retail and other sales dedicated to the purpose of acquiring land for the McDowell Sonoran Preserve and revenues received from the 2004 voter-approved 0.15 percent sales tax on local retail and other sales dedicated to the purpose of acquiring land and constructing essential preserve related necessities such as proposed trailheads for the McDowell Sonoran Preserve.

### Internal Service Funds

Internal Service Funds account for the financing, on a cost-reimbursement basis, of commodities or services provided by one program for the benefit of other programs within the city. Users of internal services are charged for those services based on use. Scottsdale has four separate Internal Service Funds to account for the activity of this fund type: Fleet Management, PC Replacement, Risk Management, and Healthcare Self Insurance. Internal Service Offsets are included to avoid duplicating the budget since the charges for these services are already included in the divisions' budgets.

### MPC Bonds

MPC Bonds represent the bonds issued by the Municipal Property Corporation (MPC), a non-profit corporation established to issue bonds to fund city capital improvements. The debt incurred by the corporation is a city obligation and does not require voter approval. In order to obtain the funds necessary for the construction or acquisition of facilities, the MPC issues bonds and then leases the facilities to the city for lease-rental payments which equal the semiannual debt service payments on the MPC bonds.

### Intergovernmental Funds

Intergovernmental Funds include the amounts paid by other organizations for capital projects through intergovernmental agreements (IGAs) and include the Maricopa County Flood Control District (MCFCD) and the Salt River Pima-Maricopa Indian Community (SRPMIC).

### Grants Fund

The Grants Fund represents revenues received from federal or state sources. Most grants require a matching funding source with the percentage of the match dependent on grant requirements. The funding is restricted in use to the improvements requested and approved in the grant application.

The FY 2024/25 adopted Capital Improvement Plan (CIP) budget, including contingencies summarized by program in the chart below is \$1.1 billion. Expenditures are presented on a budget basis rather than a cash flow basis. Under Arizona law\*, unused funds from one fiscal year can only be spent in the following fiscal year if the Council formally reappropriates the funds as part of the new budget. Since many capital projects extend across fiscal years during planning, design, and construction, it's essential to reappropriate funds to ensure completion. Importantly, this process doesn't increase total project costs. The following summarizes the seven major programs that comprise the total Capital Improvement Plan.

FY 2024/25 Adopted Capital Improvement Plan  
 Budgeted Program Expenditures  
 Percent of Total - \$1.1 billion

\* Under Arizona law, unused funds from one fiscal year can only be spent in the following fiscal year if the Council formally reappropriates the funds as part of the new budget. Since many capital projects extend across fiscal years during planning, design, and construction, it's essential to reappropriate funds to ensure completion. Importantly, this process doesn't increase total project costs.

### Community Facilities

Community Facilities focuses on enhancing and protecting a diverse, family-oriented community where neighborhoods are well maintained. These recreational needs are met by providing library improvements, recreation facilities, parks, park improvements, multiuse paths, neighborhood enhancements, youth sports lighting, aquatic centers, library facilities and senior centers. Approximately 11.3 percent of the CIP has been identified to address the needs of this program.

### Drainage/Flood Control

Drainage/Flood Control focuses on enhancing and protecting a diverse, family-oriented community where neighborhoods are well maintained by preventing property damage from flooding. This program achieves these goals through flood plain mapping, meeting regulatory requirements, and identifying and correcting hazards to reduce future flood damage potential. This is accomplished using detention basins, culvert and channel projects, and a program of neighborhood drainage improvements. Approximately 1.6 percent of the CIP has been identified to address the drainage and flood control needs of the city.

### Preservation

Preservation focuses on preserving the character and environment of Scottsdale. This goal is met by land acquisition activities for the McDowell Sonoran Preserve for the purpose of maintaining scenic views, preserving native plants and wildlife, and providing public access to the McDowell Mountains and Sonoran Desert. The 1998 election expanded the recommended study boundary from the original 12,876 acres to 34,400 acres. The 2004 election provided an additional revenue stream (0.15 percent sales tax rate increase) as well as the bonding capacity (\$500.0 million) that continues to provide authority to carry on preservation efforts. Approximately 0.5 percent of the CIP has been identified to address this program.

### Public Safety

Public Safety focuses on enhancing and protecting a diverse, family-oriented community where neighborhoods are safe. This goal is met by providing fire and police stations, training facilities and automation and communication systems related to fire and police operations. Approximately 8.2 percent of the CIP has been identified to address the public safety needs of the city.

### Service Facilities

Service Facilities focuses on coordinating land use and infrastructure planning within the context of financial demands and available resources. These programs achieve this goal through the renovation of current facilities and technology needs necessary for the efficient and effective operations of the city. Approximately 12.8 percent of the CIP has been identified to address this program.

### Transportation

Transportation focuses on providing for the safe, efficient, and affordable movement of people and goods. This program meets this goal by attempting to offer real transportation choices in a way that meets the needs of the community and include aviation, streets, traffic and transit projects. In 1989 voters authorized a 0.2 percent sales tax on local retail and other sales to fund transportation improvements. In 2004 voters approved a 20-year extension of a half-cent transportation sales tax in Maricopa County that was first approved in 1985 to fund freeway construction. Additionally, in 2018 voters authorized a 0.1 percent sales tax on retail and other sales for ten years to fund transportation improvement projects. This program looks for the best use of these funding sources and addresses the multi-modal concept. Approximately 23.5 percent of the CIP has been identified to address the transportation needs of the city.

## Water Management

Water Management focuses on coordinating land use and infrastructure planning within the context of financial demands and available resources. This program achieves this goal by delivering safe, reliable water and providing wastewater services. This program also reflects the city’s commitment to federal and state regulations. Approximately 42.2 percent of the CIP has been identified to address the water and water reclamation needs of the city.

### Bond 2019 Program

On November 5, 2019, Scottsdale voters approved the Bond 2019 program which includes three questions containing 58 projects, totaling \$319.0 million. The projects forecasted to be implemented in the next five years are included in the FY 2024/25 – 2028/29 CIP.

Bond 2019 Program - 3 Questions	# of Projects	Total Amounts (in millions)
1 Parks, Recreation and Senior Services	14	\$112.6
2 Community Spaces and infrastructure	20	\$112.3
3 Public Safety and Technology	24	\$94.1
	58	\$319.0

## FY 2024/25 HIGHLIGHTS OF THE CAPITAL IMPROVEMENT PROGRAM

Begin	Begin the construction of the Transfer Station Enhancements project.
Begin	Begin the design of the Downtown Parking Structure projects.
Begin	Begin the construction of Scottsdale Road from Jomax Road to Dixileta Drive.
Begin	Begin the construction of Bond 2019 project 42 – Add a Dog Park to Thompson Peak Park
Continue	Continue the design of the 68 <sup>th</sup> Street Storm Drain South of Camelback Road and the 68 <sup>th</sup> Street Sidewalk – Arizona Canal to Camelback Road project.
Continue	Continue the construction of the TPC Golf Course 36-inch Gravity Sewer project.
Continue	Continue the design and construction of multiple projects to keep water treatment facilities functioning properly.
Complete	Complete the construction of the Hayden Road/Miller Road from Pinnacle Peak Road to Happy Valley Road
Complete	Complete the construction of Bond 2019 project 38 - Build a new Fire Department Training Facility.
Complete	Complete the construction of 2019 Bond project 55 - Build a 17-acre Neighborhood Park at Ashler Hills Park and 74 <sup>th</sup> Way.

Note: Rounding differences may occur.

(a) Under Arizona law, unused funds from one fiscal year can only be spent in the following fiscal year if the Council formally reappropriates the funds as part of the new budget. Since many capital projects extend across fiscal years during planning, design, and construction, it's essential to reappropriate funds to ensure completion. Importantly, this process doesn't increase total project costs.

# CAPITAL IMPROVEMENT PLAN - PROJECT LIST | Alphabetical

(In thousands of dollars)

The **Project List** section includes four lists. The first three lists summarize all capital projects in: 1) alphabetical order; 2) city division; and 3) program. The last list is for the bond 2019 projects. The lists reflect each project's adopted FY 2024/25 budget with the forecasted funding through FY 2028/29. The forecasted funding, which includes FY 2025/26 through FY 2028/29, was adopted by the City Council as part of the FY 2024/25 budget adoption. This information serves as part of the city's long-term capital planning process and will be revisited and updated in future budget reviews. Following the four project lists is the Operating Impacts section that includes a four-year summary of the projected operating costs associated with capital projects. The operating impacts for projects completed prior to or during FY 2024/25 are calculated and included in the Adopted Operating Budget. Next are project descriptions which include detailed information arranged by major program on each of the city's capital projects, including Community Facilities, Preservation, Drainage/Flood Control, Public Safety, Service Facilities, Transportation and Water Management. The detailed information includes project location, project description, funding source(s) and project number, if applicable.

Project	Adopted 2024/25	Forecast 2025/26	Forecast 2026/27	Forecast 2027/28	Forecast 2028/29	Future	Total	Page
01 - Replace Aging Infrastructure and Improve Public and Event Spaces on Civic Center Plaza (DG04)	2,329.8	-	-	-	-	-	2,329.8	88
02 - Add Splash Pad and Improve Walkways at McCormick-Stillman Railroad Park (PH01)	1,115.1	-	-	-	-	-	1,115.1	98
05 - Modernize Computer Equipment Rooms to Protect City Servers (JH01)	1,753.3	-	-	-	-	-	1,753.3	173
07 - Replace Outdated 9-1-1 Computer Aided Dispatch and Records Management to Improve Efficiency (JG04)	405.0	-	-	-	-	-	405.0	137
08 - Replace Website Management Software (JH04)	13.5	-	-	-	-	-	13.5	174
09 - Install Fiber Optic Infrastructure to Reduce Operating Costs (JG02)	4,118.4	4,110.8	2,110.8	-	-	-	10,340.0	175
12 - Update Scottsdale's 15-year-old Digital Terrain Model (JH03)	177.2	-	-	-	-	-	177.2	176
13 - Expand Granite Reef Senior Center to Meet Demand for Adult Day Care Center (BK05)	594.4	-	2,377.7	-	-	-	2,972.2	89
14 - Replace Obsolete Planning and Permitting Software (JH07)	3,000.9	-	-	-	-	-	3,000.9	176
15 - Build 200 Space Parking Lot off 75th Street to Serve the City Court and Scottsdale Stadium (PI05)	1,530.6	-	-	-	-	-	1,530.6	153
17 - Obtain a Citywide Data Management and Analytics Solution for Data-Based Decision Making (JI01)	72.0	-	-	-	-	-	72.0	177

## Community Facilities

Community Facilities programs focus on enhancing and protecting a diverse, family-oriented community where neighborhoods are safe and well maintained. These recreational needs are met by providing recreation facilities, parks, park improvements, multiuse paths, neighborhood enhancements, youth sports lighting, aquatic centers, library facilities and senior centers. Approximately 11.3 percent (\$123.3 million) of the CIP has been identified to address the needs of this program.

## COMMUNITY FACILITIES | Neighborhood & Community

### 01 - Replace Aging Infrastructure and Improve Public and Event Spaces on Civic Center Plaza - (DG04)

**Est. Completion:** 10/24

**Location:** Downtown Scottsdale; Civic Center Plaza from Brown Avenue to 75th Street

**Project Type:** Construction Related

**Description:** Rebuild the Scottsdale Civic Center Plaza as the community's signature special event and public gathering space. As recommended by the Tourism Strategic Plan, Public Spaces Master Plan, the City of Scottsdale General Plan, the Old Town Character Area Plan, and public outreach conducted since 2015, the conceptual design would create an "event ready" venue that includes an iconic stage structure. With few regional competitors for large events in an outdoor setting, the new public space would place Scottsdale in a competitive position to attract large-scale events, such as Super Bowl Live, a multi-day event leading up to Super Bowl 2023.

### 13 - Expand Granite Reef Senior Center to Meet Demand for Adult Day Care Center - (BK05)

**Est. Completion:** 06/27

**Location:** Granite Reef Senior Center

**Project Type:** Construction Related

**Description:** Add a 7,600 square foot expansion to Granite Reef Senior Center to meet the growing demand for senior services, including an Adult Day Care Center. The new space would offer fee-based adult day care services during the day, due to an increasing demand and no service providers in South Scottsdale. Fee-based leisure education classes would be held in the evenings.

Funding by Expenditure Category (In thousands of dollars)	Total Project Cost

### 21 - Expand Via Linda Senior Center to Meet Demand for Senior Services - (BK01)

**Est. Completion:** 06/25

**Location:** Via Linda Senior Center

**Project Type:** Construction Related

**Description:** Expand the Via Linda Senior Center by approximately 7,800 square feet to address the increasing demand for services and leisure education classes. Demand for adult services and leisure education offerings is increasing, and will continue to increase, as census figures show that 42 percent of Scottsdale population is over the age of 50.

## COMMUNITY FACILITIES | Neighborhood & Community

### 25 - Replace Aging Buildings that Comprise Paiute Community Center - (DK08)

**Est. Completion:** 06/29

**Location:** Paiute Community Center

**Project Type:** Construction Related

**Description:** Build a new 22,700 square foot facility to replace the existing buildings that comprise Paiute Neighborhood Center. The existing buildings have fallen into a state of disrepair and are costing the city approximately \$144,000 per year in maintenance costs. The new facility has a projected increase of \$25,000 in annual leisure education revenue.

Funding by Expenditure Category (In thousands of dollars)	Total Project Cost

### 32 - Renovate and Modernize the Stage 2 Theater at the Scottsdale Center for the Performing Arts - (BL03)

**Est. Completion:** 06/26

**Location:** Scottsdale Civic Center

**Project Type:** Construction Related

**Description:** Design and renovate the Stage 2 Theater at Scottsdale Center for the Performing Arts. This smaller theater is an integral part of Scottsdale Arts' commitment to provide artistic and cultural programming for the community. However, the 42-year-old theater needs a complete physical renovation and technical modernization. The result would create a flexible performance space and greatly enhance the number of bookings and attendance of the theater.

### 51 - Install Permanent Lighting at WestWorld Parking Lots to Reduce Operating Costs - (TEMP1991-F)

**Est. Completion:** 06/28

**Location:** WestWorld

**Project Type:** Construction Related

**Description:** Install permanent lighting for gravel parking lots K & M at WestWorld which are utilized for parking during WestWorld events. These parking lots are used by over 800,000+ people annually and are currently lit with temporary light towers to ensure public safety. The temporary light towers are noisy, create glares impacting WestWorld's neighbors to the north, and are costly due to their diesel generators. Permanent lights will reduce operating costs, improve the event experience at WestWorld and increase the ability to attract new events.

## Arizona State Land Department Land Purchase - (BL04)

**Est. Completion:** 06/25  
**Location:** A 17.46-acre parcel of land adjacent to Arizona State Route 101, Pima Road, and the Water Treatment Plant.  
**Project Type:** Construction Related  
**Description:** Purchase a 17.46-acre parcel of land at the Arizona State Land Department auction. Purchase land for possible municipal uses including relocation of Transportation and Streets material storage and Solid Waste container storage. Transportation and Street currently stores traffic signal and streetlight poles and associated equipment in an area between the Water Campus and the old Pima Road alignment. This material will eventually need to move as it is located on the site of a future drainage channel that will be built as part of the Crossroads East drainage improvements. The current location has also been subject to vandalism on multiple occasions. Moving this material to a permanent location will avoid the conflict with the stormwater facility and allow the installation of permanent fencing and other security features. In addition to traffic signal and streetlight equipment Transportation and Streets will also store dirt, rock, and asphalt millings in a portion of the new area, allowing the removal of some of this material from WestWorld where it conflicts with future master planned improvements. Solid Waste Departments currently stores most of its supply of residential and commercial containers to the west of the transfer station. This will be the location of the future green waste and household hazardous waste facilities that are planned as part of the transfer station expansion project. Acquiring this land to relocate containers will avoid the need to contract for offsite container storage.

### Construct The Residence at Paiute - (DK09)

**Est. Completion:** 06/30

**Location:** Construct The Residence at Paiute at the Paiute Neighborhood Center with an address location of 6535 E. Osborn Road, Scottsdale AZ. 85251.

**Project Type:** Construction Related

**Description:** The original project description is as follows: The Residence at Paiute will add up to 28 livable units (studios and two-bedrooms) at the Paiute Neighborhood Center. The number and type of the units are only estimated at this time and would be determined during the design phase. Based on an assumption of 20 studio units and eight two-bedrooms the following delineation of units by funding source. Housing ARPA: 11 studio units and two two-bedroom units. This encompasses eight affordable housing studios and three studios and two two-bedrooms for bridge housing. These would house homeless seniors and single parent families in bridge housing and seniors at or below 60 percent AMI. HOME ARP: one studio and one two-bedroom that is affordable housing and one two-bedroom through bridge housing. Two affordable housing units will house individuals transitioning from Bridge Housing and meets HOME ARP qualifying populations. One two-bedroom will be for bridge housing. General Fund: 12 units total with eight studios and four two bedrooms. If in the General Fund units the city chooses to house HCV participants, then individuals would be at or below 50 percent of Area Median Income (AMI) for these specific units. Scottsdale Housing Agency may apply for HUD approval to issue Project Based Vouchers for the HOME ARP Affordable Housing Units. The original project was \$15.7 million funded by ARPA (\$6.6 million), HOME ARP (\$1.2 million) and General Fund (\$7.9 million). Since the original project was approved, Maricopa County did not schedule the approval of the contract with the city for the \$6.6 million in ARPA funding. Without the \$6.6M from the county the housing project is not viable so it will not be moving forward at this time. The \$6.6 million of ARPA and \$7.9 million of General Fund have been removed from the project. The remaining \$1.2 million of HOME ARP funding remains as there is a contract in place with the County for the project's purpose. However, because The Residence at Paiute project will not be moving forward at this time, staff is currently considering allowable alternative uses of the funding and will work with the county on a change to the scope of work. Once finalized, staff will bring forward a new proposed use of the funds. The \$1.2 million of HOME ARP funds must be spent by September 30, 2030.

### Drinkwater Underpass Public Art - (DG03)

**Est. Completion:** 10/24  
**Location:** Drinkwater Bridge at Civic Center Plaza  
**Project Type:** Construction Related  
**Description:** Design and install a public art element to be located within the Drinkwater Underpass at the Civic Center Mall. Scottsdale Arts, the selected artist and Capital Project Management (CPM) staff will work closely together to ensure the art does not create a distraction to drivers and does not attract pedestrians into areas without pedestrian access.

## Shade and Tree Master Plan Initial Implementation - (JK03)

**Est. Completion:** 03/28  
**Location:** Various locations as identified by the Shade and Tree Plan.  
**Project Type:** Construction Related  
**Description:** Implementation of the Shade and Tree master plan to be completed in December 2024 that will identify the best heat mitigation implementation strategies for Scottsdale. The project will include specific site, landscape, and engineering design accompanied by implementation to create assets in our community, as actual implementation will be most beneficial and understandable for and by Scottsdale citizens, tourist, and businesses. Green stormwater infrastructure and low-impact stormwater management techniques will be included in the implementation for the trees being planted to reduce the amount of potable water used to support the new trees.

## 02 - Add Splash Pad and Improve Walkways at McCormick-Stillman Railroad Park - (PH01)

**Est. Completion:** 10/24

**Location:** McCormick-Stillman Railroad Park

**Project Type:** Construction Related

**Description:** Add a splash pad and improve walkways at McCormick-Stillman Railroad Park to implement the park's master plan to boost attendance and revenues. The splash pad will boost park attendance and revenues from May through August when both numbers drop off. McCormick-Stillman Railroad Park is Scottsdale's signature park and generates approximately \$1.5 million of revenue annually.

## 22 - Build New Swimming Pools and Replace Building at Cactus Pool - (BK06)

**Est. Completion:** 06/26

**Location:** Cactus Pool

**Project Type:** Construction Related

**Description:** Renovate aging swimming pool and buildings at Cactus Aquatic Center to meet increasing demand and increase revenue. The current pool and building have many limitations including pool leakage, dated restrooms and showers, limited Americans with Disabilities Act (ADA) access and security concerns and limited possibilities for improvement. Cactus Pool hosts 144,000 guests annually and is the only city aquatics facility that can host swimming and diving competitions. The renovated facility is projected to increase revenue by \$125,000 annually.

## 23 - Repair Lakes and Irrigation at Vista del Camino Park in the Indian Bend Wash - (PH03)

**Est. Completion:** 06/27

**Location:** Vista del Camino Lakes

**Project Type:** Construction Related

**Description:** Repair failing lakes and irrigation from McKellips Road to Thomas Road in the Indian Bend Wash. The lake system is showing signs of aging and failure due to punctures in the lake liner, erosion of the lake edges and leaks in the spillway system. The irrigation systems are outdated, undersized and perform inadequately. Updating materials and technologies will lower annual operating cost, enhance water conservation and quality, resolve lake edge erosion and allow more effective use of park open space areas.

### 61 - Purchase land, expand Pinnacle Peak Park parking lot, staff office and restrooms, renovate hiking trail and construct an interpretive trail - (PI02)

**Est. Completion:** 06/26

**Location:** Pinnacle Peak Park

**Project Type:** Construction Related

**Description:** Acquire two to three acres of land from the State of Arizona for major expansion of existing parking lot. Expand staff office and restroom to better service increasing volume of visitors. Renovate portions of the hiking trail and construct an interpretive trail. The project was originally going to be funded by Preservation Sales Tax. It was recently determined that the project does not meet the requirement of that funding source. As a result, the project will need a new funding source in order to be completed.

# DRAINAGE/FLOOD CONTROL

(In thousands of dollars)

## Drainage/Flood Control

Drainage/Flood Control focuses on protecting a diverse, family-oriented community where neighborhoods are safe and well maintained by preventing property damage from flooding. This program achieves these goals through flood plain mapping, meeting regulatory requirements, and identifying and correcting hazards to reduce future flood damage potential. This is accomplished through the use of detention basins, culvert and channel projects, and a program of neighborhood drainage improvements. Approximately 1.6 percent (\$17 million) of the CIP has been identified to address the drainage and flood control needs of the city.

### Granite Reef Watershed Phase 1 - (FB50)

**Est. Completion:** 10/24

**Location:** North of Jackrabbit Road to Indian School Road and Granite Reef Road to Pima Road

**Project Type:** Construction Related

**Description:** Install new catch basins and storm drains to intercept surface flow from the Granite Reef Watershed, which has major flood hazards downstream (south), and divert it to Indian Bend Wash, which has capacity to handle the increased flows, via previously constructed large storm drains in Jackrabbit Road, Chaparral Road, Camelback Road, and Indian School Road.

**FY 2024/25 Adopted Budget**

(In thousands of dollars)

**Preservation**

Preservation focuses on preserving the character and environment of Scottsdale. This goal is met by land acquisition activities for the McDowell Sonoran Preserve for the purpose of maintaining scenic views, preserving native plants and wildlife, and providing public access to the McDowell Mountains and Sonoran Desert. The 1998 election expanded the recommended study boundary from the original 12,876 acres to about 30,500 acres. The 2004 election provided an additional revenue stream (0.15 percent sales tax rate increase) as well as the bonding capacity (\$500.0 million) that continues to provide authority to carry on preservation efforts. Approximately 0.5 percent (\$5.4 million) of the CIP has been identified to address this program.

**Public Safety**

Public Safety programs focus on enhancing and protecting a diverse, family-oriented community where neighborhoods are safe. This goal is met by providing fire and police stations, training facilities and automation systems related to fire and police operations. Approximately 8.2 percent (\$88.9 million) of the CIP has been identified to address the public safety needs of the city.

**28 - Build a New Fire Station near Hayden Road and the Loop 101 to Improve Response Times - (BI02)**

**Est. Completion:** 01/25

**Location:** Loop 101 and Hayden Road

**Project Type:** Construction Related

**Description:** Design and construct a new 12,000 square foot fire station northwest of the Airpark near the 101 and Hayden Road to improve response times. The response times from this station are significantly impacted by its location and explosive growth for residential and commercial properties in the area. As a result, both stations 609 and 611 have a response time that exceeds the goal of 4 minutes. By moving the station closer to the geographic center of the area it serves and improving access, the response times for emergency services will improve significantly.

**34 - Build New Fire Station at 90th Street and Via Linda to Replace Aging Facility - (BL02)**

**Est. Completion:** 06/28

**Location:** Fire Station 604

**Project Type:** Construction Related

**Description:** Build a new fire station at 90th Street and Via Linda to replace aging facility. The current station was built in 1988 and has been modified several times, but does not meet baseline requirements of the Scottsdale Fire Department. The new station will include crew quarters and facilities, office space, Occupational Safety and Health Administration (OSHA) certified decontamination area, safety gear storage, a double apparatus bay and public parking space with entrance.

**38 - Build a new Fire Department Training Facility - (BH01)**

**Est. Completion:** 12/24

**Location:** Tom Hontz Training Facility

**Project Type:** Construction Related

**Description:** Design and construct a new fire training facility complex at the Tom Hontz training facility. The Scottsdale Fire Department requires a modern training facility to meet staff requirements and ensure department personnel are best prepared to handle the full range of medical and emergency response needs in the community. The current training complex, located on the grounds of the Tom Hontz Fire-Police Training Facility, is a hodgepodge of various buildings and resources including a prefabricated training tower and building, converted mobile storage units and a portable classroom building that is at the end of its useful life. This project would remove these outdated elements, design and build a new training complex on the current site to provide Scottsdale's fire and emergency medical responders with a learning and training environment worthy of our staff and the community.

**Replace HAZMAT Equipment - (EK02)**

**Est. Completion:** 10/24

**Location:** The Hazardous-Material (HAZMAT) equipment is located at Station 606, our HAZMAT Station. The Extrication equipment is located throughout the city on all Ladder companies and Ladder Tenders (Station 602, 608, 611, and 615).

**Project Type:** Technology Related

**Description:** Replace Hazardous Material (HAZMAT) equipment located at Station 606 and Extrication equipment, which is located throughout the city on all ladder companies and tenders (Stations 602, 608, 611, and 615). The HAZMAT response teams utilize special air monitoring devices. The current technology that is utilized has come to the end of its useful life and is undependable. Parts and software to keep the instruments up to date are increasingly hard to locate. The HAZMAT Units are a regional response unit and are required to have certain capabilities and equipment to meet the regional standard. Extrication equipment is utilized for major vehicle accidents for trapped victims. Since this equipment is specialized and costly, it is strategically located on ladder trucks spread throughout the city. The HAZMAT equipment and the Extrication tools are required to provide the core services of the Fire Department to the citizens, visitors, and business within the community.

**07 - Replace Outdated 9-1-1 Computer Aided Dispatch and Records Management to Improve Efficiency - (JG04)**

**Est. Completion:** 10/24

**Location:** Citywide

**Project Type:** Technology Related

**Description:** Replace outdated Police Department Computer Aided Dispatch (CAD) and records management System (RMS) to create a web-based platform designed to interface with new applications and improve reporting and analytics capabilities. The upgrade will enhance mapping and radio capabilities, improve vehicle dispatching, upgrade text-to-9-1-1 capabilities, increase efficiency in report writing and provide better case management. The current suite of systems will not be supported by the vendor after FY 2018/19.

**26 - Replace Deteriorating Vehicle Training Track at the Police and Fire Training Facility - (BH03)**

**Est. Completion:** 06/25

**Location:** The police vehicle training track was previously located at the Hontz Police and Fire Training Facility located at 911 N Stadem Dr in Tempe, AZ. However, with the current site renovation at the Hontz facility the track no longer includes an appropriate driving track for emergency driving operations utilizing police vehicles. The track is to be relocated at the new land acquisition site located just south of the Hualapai Water Campus.

**Project Type:** Construction Related

**Description:** Replace the Deteriorated Vehicle Training Track at the Police and Fire Training Facility to accommodate the weight of Fire Department Vehicles and Equipment. The current track was developed prior to the City having a municipal Fire Department and was designed for use by light duty vehicles, such as motorcycles and automobiles. With the formation of the Scottsdale Fire Department, the track is being utilized by larger and heavier equipment than the track was designed to handle. The track has excessive damage and constant repairs are needed resulting in training delays for police, fire, and municipal departments.

**27 - Modernize and Expand the Police and Fire Training Facility - (BH02)**

**Est. Completion:** 01/25

**Location:** Thomas Hontz Training Facility

**Project Type:** Construction Related

**Description:** Build a stand-alone 5,000 square foot, two story training structure, a 2,000 square foot live fire shoot house and renovate current ballistic range to accommodate 15 shooting lanes. The new training facility will accommodate the size of the police and fire departments and maintain pace with technological and legal changes within the law enforcement community. The current facility is over 20 years old, undersized, does not meet the national training curriculum standards and limits the type of training police officers and personnel can receive creating a safety issue.

**33 - Renovate the Via Linda Police Station to Increase Efficiency - (BI03)**

**Est. Completion:** 06/26  
**Location:** Via Linda Police Station  
**Project Type:** Construction Related  
**Description:** Reconfigure the Via Linda Police Station to increase efficiency. Several areas in the current building are undersized for current staffing levels and are not usable in their current condition. Additionally, the building infrastructure is not adequate to support the critical functions within the facility. The renovation will create increased efficiency throughout the department and modernize the existing infrastructure.

**35 - Install Bullet Proof Glass in Reception Areas of Police Department Facilities - (BH04)**

**Est. Completion:** 10/24

**Location:** Public Safety - Police Facilities

**Project Type:** Construction Related

**Description:** Install approximately 420 square feet of ballistic rated glass in reception areas of the police facilities to improve safety. Over the past year the number of incidences of individuals shooting at or inside public buildings has climbed to an alarming number and the police department is most vulnerable in the areas that have direct public access.

**40 - Renovate and Expand the Civic Center Jail and Downtown Police Facility to Meet Demand - (BI04)**

**Est. Completion:** 06/25

**Location:** Civic Center Jail

**Project Type:** Construction Related

**Description:** These facilities were built in 1971 and no longer provide appropriate working environments for staff or holding environments for prisoners. The layout and infrastructure of the jail (including cell doors, booking and intake areas) is severely outdated and creates potentially unsafe conditions. The police station is the smallest of Scottsdale's four patrol stations, and no longer appropriately accommodates current patrol operations or the specialty units (K-9, Bike Unit, High Enforcement Arrest Team) stationed there. This project would add approximately 7,800 square feet to the jail, including two additional cells, new intake and release points, supervisor offices, and attorney/client interview rooms. The police station would be enlarged and modernized to meet current needs and the entire facility will be brought up to standards of the Americans with Disabilities Act.

**Crime Laboratory Equipment Replacement - (YI03)**

**Est. Completion:** 10/24

**Location:** McKellips Police Station

**Project Type:** Technology Related

**Description:** Replace or upgrade crime laboratory equipment and instrumentation that has reached or exceeded its manufacturer's life expectancy. This improvement will reduce the time it takes to examine forensic evidence, increase the reliability of examination results in court, and reduce maintenance issues and system down-time. This equipment and instrumentation is used daily and is on a five-year replacement cycle. Maintaining updated equipment is a standard required by the Scottsdale crime lab's national accreditation, so the police can access national forensic databases when investigating crimes.

## Service Facilities

Service Facilities focus on coordinating land use and infrastructure planning within the context of financial demands and available resources. These programs achieve this goal through the renovation of current facilities and technology needs necessary for the efficient and effective operations of the city. Approximately 12.8 percent (\$140.1 million) of the CIP has been identified to address this program.

## SERVICE FACILITIES | Municipal Facilities/Improvements

### 15 - Build 200 Space Parking Lot off 75th Street to Serve the City Court and Scottsdale Stadium - (PI05)

**Est. Completion:** 06/25

**Location:** 75th Street parking structure

**Project Type:** Construction Related

**Description:** This project would reconstruct 180–200 parking spaces on 75th Street for the public visiting the City Court and Scottsdale Stadium and improve stadium access for emergency vehicles, solid waste trucks and other services. The new parking would address the daily parking needs at the city court and reduce spillover parking in adjacent neighborhoods during Spring Training games and other large stadium events.

### 57 - Install Solar Systems North Corporation Campus - (DH02)

**Est. Completion:** 10/24

**Location:** 9191 East San Salvador Drive campus including the North Corporation Yard, Police Station 3 (PD-3) and Water Resources administrative buildings as well as existing covered parking structures.

**Project Type:** Construction Related

**Description:** Install photovoltaic (PV) solar systems on 80 percent of the existing covered parking and 30 percent of the roofs of the North Corporation Yard building, PD-3 building and two water resources buildings. Additionally, install two electric vehicle dual charging stations. This project will increase the city's solar generating capacity and reduce the energy cost of the North Campus by approximately \$240,380 per year. Increased energy efficiency in public facilities and increased renewable energy production are goals in the current General Plan.

### 58 - Install Parasol Solar Shade Structure at City Hall Parking Lot - (BJ01)

**Est. Completion:** 06/27

**Location:** City Hall parking lot

**Project Type:** Construction Related

**Description:** Install a photovoltaic (PV) Parasol system over the City Hall parking lot and install two electric vehicle dual-charging stations. This project will increase the city's solar generating capacity, will create a shaded public space for events, and reduce the energy cost at the Civic Center Campus by approximately \$130,526 per year. Increased energy efficiency in public facilities and increased renewable energy production are goals in the current General Plan.

### 60 - Double the Solar Power Generating Capacity at Appaloosa Library - (BJ02)

**Est. Completion:** 10/24

**Location:** Appaloosa Library

**Project Type:** Construction Related

**Description:** Install equipment to double solar electricity generating capacity at Appaloosa Library. The existing solar system was planned for additional generating capacity, but due to budget constraints, only a portion of the system was installed. Conduits and mounting racks for the additional panels are already in place. Increased energy efficiency in public facilities and increased renewable energy production are goals in the current General Plan.

### Alley Conversion - (DH08)

**Est. Completion:** 12/24

**Location:** Homes serviced by alley containers located in the boundaries of the southern city limits to Indian Bend Road, and the western city limits to Pima Road.

**Project Type:** Construction Related

**Description:** Replace existing 300-gallon sized solid waste containers in residential alleys with new 90-gallon size trash containers that will be rolled to the front curb for service and will impact 11,450 residential single-family homes. Subsequently the city will improve the condition of the alley traveling surface.

### Material Yard at Pima and 88th Street Phase I - (BJ04)

**Est. Completion:** 10/24

**Location:** Southwest and northeast corners of Union Hills and 88th Street

**Project Type:** Construction Related

**Description:** Design and construct a secure location for Street Maintenance material and equipment at the southwest corner of Union Hills and 88th Street. This project will secure city owned material and equipment used in the maintenance and repair of city streets, roads, and drainage infrastructure. This project will design and construct a brick wall with gates to mirror the existing wall around Scottsdale North Water Campus to secure Street Maintenance yard. Street Maintenance will provide the labor to demo the existing pipe railing and dirt berm around the existing lot and assist with the prep for the wall footing. Associated cost of project is for the design and construction of the wall.

### Transfer Station Enhancements - (BH06)

**Est. Completion:** 06/26  
**Location:** Residents and commercial customers serviced, located north of Indian Bend Road.  
**Project Type:** Construction Related  
**Description:** Design, permitting, construction, administrative fees, contingency, and escalation fees related to the expansion of the existing layout of the transfer station facility, including the addition of a stand-alone residential household hazardous materials facility, green waste disposal facility, and electronics storage building to be used as a drop off location. Additionally, project includes doubling the current tipping floor loading space to service new customers such as city residents and private haulers.

### WestWorld - Lot T Improvements - (DJ03)

**Est. Completion:** 10/24

**Location:** WestWorld

**Project Type:** Construction Related

**Description:** Improve the drainage at WestWorld Lot T. The current base as roadways in Parking Lot T is millings. There are graded drainage swales in the parking areas of Lot T, but the swales are not graded through the millings roadway. Stormwater ponds first and washes over the roadway second. Drainage generally flows from north to south, towards a drainage channel that discharges into the Reata Wash. This lot is used to park RVs and trailers for horse shows. This is the second most rented RV lot at WestWorld.

### WestWorld Trailhead Parking & Access Improvements - (DL01)

**Est. Completion:** 06/25

**Location:** WestWorld

**Project Type:** Construction Related

**Description:** Design of the access and parking of two adjoining facilities that support local, neighborhood and regional events that occur on-site and within the entire Westworld complex. Access and parking connections will facilitate large vehicle/bus traffic needs for handling public parking and shuttle needs associated with the Phoenix Open and Barrett-Jackson events as well as assuring traffic for daily activities on the sites are efficiently managed for daily and regional type programming. These improvements will support existing and future facility enhancement of WestWorld amenities and this project is identified in the on-going WestWorld Master Plan Process involving users, stakeholders and the surrounding community.

### 05 - Modernize Computer Equipment Rooms to Protect City Servers - (JH01)

**Est. Completion:** 06/25

**Location:** The Scottsdale Data Center; the South Corporation Yard network room; and the Public Safety Administrative Building network/computer room.

**Project Type:** Technology Related

**Description:** Replace the battery backup power and the large cooling units that support the city's primary data center, which has reached the end of its life cycle. Battery backup power allows the data center to remain operational during various weather or power provider events that can cause power disruptions throughout the year. The data center supports the primary data network, phone, and server computing environments that run all of the applications and communications equipment required for the city to operate and supports all eServices for the citizens of Scottsdale.

### 09 - Install Fiber Optic Infrastructure to Reduce Operating Costs - (JG02)

**Est. Completion:** 06/27

**Location:** Citywide – most major streets (i.e. Scottsdale, Hayden and Thomas Roads), parks (i.e. McCormick-Stillman Railroad Park and Paiute Community Center), all libraries (except Civic Center Library), most water sites, all fire stations and WestWorld.

**Project Type:** Technology Related

**Description:** Install city-owned fiber throughout the city to meet increasing need for network bandwidth to conduct business operations and reduce the dependency on leased-lines from telecommunications providers that require ongoing operating costs. The majority of the remote city sites require network bandwidth increases to meet either citizen or city employee needs including Community Centers, Parks, Libraries, Fire Stations, and other community-use or city employee-based locations.

### 12 - Update Scottsdale's 15-year-old Digital Terrain Model - (JH03)

**Est. Completion:** 10/24

**Location:** Citywide

**Project Type:** Technology Related

**Description:** Key city services including fire, parks, police, solid waste and water rely on location data contained in the city's geographic information system. The heart of that system is the digital terrain model - a three-dimensional elevation map of the city upon which buildings, streets, waterlines and other city infrastructure is placed. As the surface of Scottsdale changes with development and redevelopment, the accuracy of our digital terrain model, now 15 years old, continuously degrades. Updating this model is required to maintain the fidelity of data and accuracy of information the city relies on to provide service and make data-based decisions.

### Enterprise Resource Planning System - (JI02)

**Est. Completion:** 06/25

**Location:** Citywide

**Project Type:** Technology Related

**Description:** Replace outdated enterprise resource planning system to enable the effective administration of the city's financial, purchasing, and warehouse systems. The system that has managed the general ledger, fixed assets, budget, capital projects, accounts receivable, accounts payable, purchasing, requisitions, and supplies (warehouse) no longer meets the needs of the city. A new system will streamline overall financial operations and allow the city to continue to operate effectively in meeting the various local, state, and federal mandates.

### IT - Network Infrastructure - (YJ07)

**Est. Completion:** N/A

**Location:** Citywide

**Project Type:** Technology Related

**Description:** Upgrade and replace computer network hardware including routers, cabling, firewalls, security appliances and other components that comprise the electronic backbone of city services. The city's computer networks are used continuously and support the full array of city operations. These components are on a seven-year lifecycle replacement that accounts for routine wear and tear and constantly evolving business needs and service demands (the industry average varies with different types of equipment, but the average life of network equipment is seven years). The replacement list is reviewed and updated annually to reflect the functionality of the current equipment, business needs and changes in technology.

### Real Time Crime Center - (JJ02)

**Est. Completion:** 03/25

**Location:** Communications 911 Center inside the Via Linda Police District building

**Project Type:** Technology Related

**Description:** Implement technology and supporting assets necessary to stand up a fully functional Real Time Crime Center (RTCC). This centralized technology driven unit is used by law enforcement agencies to provide real time information to first responders that may not otherwise be available. As virtual responders, RTCC Technicians are frequently the first public safety on scene, often prior to the call being dispatched to patrol units. This information enables RTCC Technicians to witness conditions at a location, enhancing officer safety, supplying them with information about appropriate approaches to scenes, specific threats, or dangerous conditions as they draw near suspects or otherwise blind areas. The incorporation of the RTCC concept causes officers to be more targeted in responding to crimes, and suspects are regularly apprehended with fewer resources expended.

## Transportation

Transportation programs focus on providing for the safe, efficient, and affordable movement of people and goods. This program meets this goal by attempting to offer real transportation choices in a way that meets the needs of the community. In 1989 voters authorized a 0.2 percent privilege tax to fund transportation operations and improvements. In 2004 voters approved a 20-year extension of a half-cent transportation sales tax in Maricopa County that was first approved in 1985 to fund freeway construction. This program looks for the best use of these funding sources and addresses the multi-modal concept. In 2018 voters approved a 0.1 percent privilege tax for a period of ten years for transportation improvement projects. Approximately 23.5 percent (\$256.3 million) of the CIP has been identified to address the transportation needs of the city.

**48 - Widen 94th Street at WestWorld to Improve Access - (TEMP1992-F)**

**Est. Completion:** 12/27

**Location:** WestWorld

**Project Type:** Construction Related

**Description:** Widen 94th Street from WestWorld Drive to Bahia Drive to include a sidewalk, curbing, gutter, and streetlights to improve access and reduce safety hazards. This is one of the main entrances into WestWorld, and a thoroughfare for many of the 800,000+ attendees to WestWorld events. Temporary light towers, currently used for guest safety, are expensive to operate and generate complaints and would no longer be needed with the new streetlight system.

**Entertainment District Street & Festoon Lighting - (DI02)**

**Est. Completion:** 10/24

**Location:** Downtown Entertainment District

**Project Type:** Construction Related

**Description:** Install up to 18 new street level light poles and fixtures as well as festoon lighting to enhance the nighttime lighting, and improve major public safety concerns expressed by both the Police and Fire Departments within the Entertainment District. With the continued presence of large crowds in the Entertainment District every weekend, police have taken safety precautions by using city light towers to illuminate the streets within the "U". The Entertainment District can welcome anywhere from 7,000 to 30,000 pedestrians depending on the weekend or celebratory event.

**Traffic Signal Pole Inspection and Replacement - (TL01)**

**Est. Completion:** N/A

**Location:** Citywide

**Project Type:** Construction Related

**Description:** Inspect and replace the aging traffic signal infrastructure. ITS operates and maintains 314 traffic signals. There are 5 locations where traffic signal infrastructure is 50 years or older; 28 locations where this infrastructure is between 40 and 50 years old; and 86 locations are between 30 and 40 years old. The expected service life of a traffic signal pole is about 30 years when properly maintained and under normal conditions. This signal infrastructure that is over 30 years old will require immediate attention to prevent potential accidents. Inspection and replacement of four mast arm poles at an intersection has an approximate cost of \$200,000. This is to request establishing a new capital account in the amount of \$800,000 in the next 6 years for traffic signal structure inspection, repaint and replacement. The new poles and arms will be installed with powder-coated paint to match the existing color.

## 19 - Build Roadway and Pedestrian Improvements along Marshall Way North of Indian School Rd - (TEMP2124-F)

**Est. Completion:** 06/27

**Location:** Downtown Scottsdale

**Project Type:** Construction Related

**Description:** Narrow the traffic lanes and widen sidewalks, add bike lanes, new landscaping and pedestrian lighting and add at least two pocket parks to improve the pedestrian experience in this portion of Old Town Scottsdale. The focus of this project is the section of Marshall Way from Indian School Road north to 5th Avenue; Marshall Way has long been envisioned as a major pedestrian corridor connecting the northern and southern ends of Goldwater Boulevard. This project implements recommendations of a handful of planning efforts including the Tourism Strategic Plan, Downtown 2.0, the Public Spaces Master Plan, and the Economic Development Strategic Plan as well as the City of Scottsdale General Plan 2001 and the Old Town Scottsdale Character Area Plan.

## 20 - Build Roadway and Pedestrian Improvements along Main St from Scottsdale Rd to Brown Ave - (TEMP2134-F)

**Est. Completion:** 10/29

**Location:** Historic Old Town Scottsdale, Main Street from Scottsdale Road east to Brown Avenue

**Project Type:** Construction Related

**Description:** Design and build streetscape and pedestrian improvements from Scottsdale Road east to Brown Avenue in Historic Old Town. Main Street has long been envisioned as a major east/west pedestrian corridor; this project would create a better pedestrian experience via improved sidewalks, lighting and landscaping and two pocket parks. This project implements recommendations of a handful of planning efforts including the Tourism Strategic Plan, Downtown 2.0, the Public Spaces Master Plan, and the Economic Development Strategic Plan as well as the City of Scottsdale General Plan 2001 and the Old Town Scottsdale Character Area Plan.

## Arizona Canal Bank Improvements - (DK07)

**Est. Completion:** 12/24  
**Location:** Arizona Canal Bank – east side from Camelback Road north to Waterview project northern limit  
**Project Type:** Construction Related  
**Description:** Construct a 10-foot wide shared use concrete pathway on east bank of the Arizona Canal from Camelback Road extending approximately 2,000 feet northeast to just north of the Highland Avenue Alignment. The pathway will have connections to the adjacent neighborhoods and will be constructed to allow for future expansion of the pathway to the northeast along the canal. The pathway will include new low water use landscaping with a new drip irrigation system.

## Buffered Bike Lanes Phase II - (TK03)

**Est. Completion:** 06/27

**Location:** Citywide

**Project Type:** Construction Related

**Description:** Design and install roadway markings for approximately 50 lane miles of buffered bike lanes on roadways recommended for downsizing through the draft Transportation Action Plan. The project will include a striped buffer typically two feet to six feet wide that separates the travel lane from the bike lane. When the distance is greater than three feet wide, the buffer will include cross hatched striping. The majority of the striping work will be completed in coordination with schedule pavement management treatments.

Water Management

Water Management focuses on coordinating land use and infrastructure planning within the context of financial demands and available resources. The program achieves this goal by delivering safe, reliable water and providing water reclamation services. This program also reflects the city’s commitment to federal and state regulations. Approximately 42.2 percent (\$460.1 million) of the CIP has been identified to address the water and water reclamation needs of the city.

## 64th Street Sewer Improvements - (TEMP2631-F)

**Est. Completion:** 06/28

**Location:** 64th Street from Caron Drive to approximately ¼ mile south of Cactus Road; Shea Boulevard east of 64th Street; Cholla Street east of 68th Street; 68th Street north of Cholla.

**Project Type:** Construction Related

**Description:** Construct 8-inch diameter sewer mains in major and minor roadway collectors to connect area served by septic systems to the city's collection system.

Funding by Expenditure Category (In thousands of dollars)	Total Project Cost

## Direct Potable Reuse Full Scale - (WL02)

**Est. Completion:** 06/27  
**Location:** 8787 E. Hualapai Dr.  
**Project Type:** Construction Related  
**Description:** Improve the Scottsdale Water Campus to meet Arizona Department of Environmental Quality (ADEQ) regulations for the use of Advanced Purified Recycled Water. This will enable the direct use of ultra-purified recycled water to back up and supplement Central Arizona Project (CAP) Colorado River Water when expected cuts to Scottsdale Water's allocation of CAP water occurs. Colorado River cuts are expected in 2027 when the current 2007 Colorado River Interim Guidelines and the 2019 Drought Contingency Plan expire, and a new Colorado River agreement will be required by the Bureau of Reclamation.

## WATER MANAGEMENT | Wastewater Improvements

### RWDS System Improvements - (WH04)

**Est. Completion:** 06/29

**Location:** North of Central Arizona Project Canal

**Project Type:** Construction Related

**Description:** Improve the Reclaimed Water Distribution System (RWDS) pipeline pump stations and reservoirs. This project is funded by the golf courses receiving reclaimed effluent from the Water Campus through the RWDS.

Funding by Expenditure Category (In thousands of dollars)	Total Project Cost
Administration Costs	505.5
Construction	16,344.5
<b>Total:</b>	<b>16,850.0</b>

## Wastewater System Improvements - (VF06)

**Est. Completion:** 06/29

**Location:** Citywide

**Project Type:** Construction Related

**Description:** Design and construct sewer lines, complete treatment plant work and rehabilitate sewer manholes in the aging sewer system per the Asset Management Program. Many of the sewer lines in the city have been in use for over 30 years. In conjunction with the Asset Management Program, sewer lines will be videotaped to identify potential problems. Design will be initiated to correct any identified problems. Additionally, this project will replace undersized sewer lines and provide new infrastructure to support redevelopment associated with downtown revitalization, consistent with the Infrastructure Improvement Plan (IIP).

Funding by Expenditure Category (In thousands of dollars)	Total Project Cost
Administration Costs	4,804.9
City Fees	1,167.2

## WATER MANAGEMENT | Wastewater Improvements

### Wastewater System Oversizing - (VF05)

**Est. Completion:** 12/28

**Location:** Citywide

**Project Type:** Construction Related

**Description:** Oversize city lines and facilities to meet future capacity to Master Plan standards. Residential owners and developers are required by City Code to extend sewer lines (typically an 8-inch sewer line) at the resident/developer cost, and the city wishes to use that opportunity to upsize the line to accommodate regional flows. The city pays the cost difference between the upsized line and the price the resident/developer would have paid to extend the sewer line in-kind.

Funding by Expenditure Category (In thousands of dollars)	Total Project Cost
Administration Costs	10.0
Construction	553.9
<b>Total:</b>	<b>563.9</b>

**Booster Station 57 Replacement - (WE01)**

**Est. Completion:** 06/25  
**Location:** 33475 North Scottsdale Road  
**Project Type:** Construction Related  
**Description:** Rebuild the developer-built booster station that is approximately 25 years old and has reached the end of its useful life. Site improvements include the replacement of electrical and mechanical infrastructure and the existing undersized storage reservoir with a new storage reservoir that provides for sufficient storage volume to meet projected demand and fire flow. The project location is near the Scottsdale Road/Westland Road intersection and is a vital facility for supplying potable water to this portion of the city's water service area.

## Cluster 3 Arsenic Treatment - (WG04)

**Est. Completion:** 06/29

**Location:** Remote well sites north of the Scottsdale Water Campus

**Project Type:** Construction Related

**Description:** Design and construct groundwater treatment infrastructure for arsenic treatment. Strengthen the resiliency of city water supply system in the event Central Arizona Project (CAP) water deliveries are reduced or interrupted, and for long-term supply reliability. Facilitate groundwater delivery from cluster 3 wells into the potable water distribution system while achieving all regulatory water quality standards and city water quality operating goals.

### Deep Well Recharge/Recovery Projects - (WF08)

**Est. Completion:** 06/25  
**Location:** Multiple locations  
**Project Type:** Construction Related  
**Description:** Design and construct deep well water recharge and recovery facilities to ensure long term sustainability of the city's drinking water aquifer. The city uses this aquifer for both the long-term and short-term storage of water and needs improved capacity to store more water to meet 'Safe Yield' and enhance drought preparedness. This program will determine the best areas for this to occur and design and construct wells to best meet the city's needs.

## WATER MANAGEMENT | Water Improvements

### New Well North of Loop 101 near Hayden ASR Well 159 - (WF05)

**Est. Completion:** 06/25  
**Location:** Legacy Boulevard east of Scottsdale Road  
**Project Type:** Construction Related  
**Description:** Drill and equip a new aquifer storage and recovery well north of Arizona State Route 101 near Hayden Road to increase treated Central Arizona Project (CAP) water aquifer storage and recovery capacity for growth. The project includes site work (piping, electrical gear, communications, wall, security, etc.)

## WATER MANAGEMENT | Water Improvements

### Water Distribution System Improvements - (WH21)

**Est. Completion:** 06/29  
**Location:** Citywide  
**Project Type:** Construction Related  
**Description:** Improve the water distribution system due to system aging and increasing demands including downtown revitalization. The project includes replacement of mains, pressure regulating valves, meters and other valves, as well as design, easement acquisition, and construction of new water mains at various locations throughout the distribution system to improve service and to reduce operating cost. Replacement of existing small mains (4 -inch and smaller) is required to meet fire flow requirements as set forth by city ordinance. This project will also include inspection, design, repair and replacement of water storage reservoirs and pump stations as driven by findings from the Asset Management Program.

# WATER MANAGEMENT | Water Improvements

## Water Participation Program - (WH10)

**Est. Completion:** 06/29

**Location:** Citywide

**Project Type:** Construction Related

**Description:** Facilitate the extension of water lines as required by City Code. The program allows the city to administer payback agreements to assist single-family residences connecting to the city's water distribution system. These paybacks are settled in the future, and the funding outlays made through this program will be re-paid to the city with interest.

**Water System Oversizing - (WF07)**

**Est. Completion:** 06/29

**Location:** Citywide

**Project Type:** Construction Related

**Description:** Oversize lines and facilities to meet future capacity according to the Water Master Plan standards. Residential owners and developers are required by City Code to extend water lines (typically an 8-inch water line) at the resident/developer cost, and the city wishes to use that opportunity to upsize the line to accommodate regional flows. The city pays the cost difference between the upsized line and the price the resident/developer would have paid to extend the water line in-kind.

## WATER MANAGEMENT | Water Improvements

### Water Treatment Facility Improvements - (WD04)

**Est. Completion:** 06/29  
**Location:** Water Treatment Facilities - Central Arizona Project (CAP) Plant, Chaparral Water Plant and Arsenic Treatment Facility  
**Project Type:** Construction Related  
**Description:** Improve the water treatment facilities due to aging components. This project will include minor design, maintenance and construction modifications to various water treatment plant infrastructure. In addition, design and replace pump stations and storage tanks will be conducted as identified in the Asset Management Program.

Funding Sources (In thousands of dollars)	Total Project Cost	ITD Expenditures (Thru 01/24)	Adopted 2024/25	Forecast 2025/26	Forecast 2026/27	Forecast 2027/28	Forecast 2028/29	Future	Total Remaining Budget

### Zone 3W Water System Improvements - (WD03)

**Est. Completion:** 06/25  
**Location:** Hayden Road and Frank Lloyd Wright Boulevard west of the Arizona State Route 101  
**Project Type:** Construction Related  
**Description:** Design and construct water system improvements in the Airpark area due to growth driven capacity demands including the installation of 12-inch, 20-inch and 30-inch transmission mains. The improvements will help meet growing water demands due to projected increased densities in the greater Airpark region.

**Accrual Basis** – A basis of accounting whereby transactions are recognized when they are incurred, as opposed to when cash is received or paid.

**Actual** – As used in the fund summaries and division summaries within the budget document, represents the actual cost results of operations. This category is presented on a modified accrual basis, with the exception that depreciation and amortization are not budgeted and principal payments on debt in the enterprise funds are budgeted as expenses.

**Adopted** – As used in the fund summaries and division summaries within the budget document, represents the budget as approved by formal action of the City Council.

**American Rescue Plan Act (ARPA)** – Economic stimulus bill passed by the United States Congress in 2021 which, in part, set up a fiscal recovery fund for state and local governments, including Scottsdale, to enable them to address the revenue losses they have experienced as a result of the COVID-19-caused economic crisis. It helped state and local governments cover the costs incurred from responding to the public health emergency and provided support for a recovery through direct assistance payments and funding for infrastructure, including water, sewer, and broadband services.

**Appropriation** – An authorization made by the City Council, which permits the city to incur obligations and to expend resources for specific purposes.

**Assessed Valuation** – A value that is established annually by the Maricopa County Assessor’s Office for real and personal property as a basis for levying taxes.

**AZCares** – A funding source created by the governor to provide immediate relief for COVID-19 response efforts in local communities across Arizona based on population and in direct correlation with a city or county’s expenditures for public safety personnel.

**Audit** - A government audit is an independent assessment of an entity’s operations, at all levels of the government. The scope of an audit varies, but usually includes an assessment of effectiveness, efficiency, and compliance to legal requirements.

**Balanced Budget** – Arizona state law requires a “balanced budget” (Title 42 Arizona Revised Statutes) and requires the City Council to annually adopt a balanced budget by purpose of public expense. State law defines that as the primary property tax levy, when added together with all other available resources, must equal expenditures.

Arizona state law also requires an “expenditure limitation,” imposed by the Arizona Constitution and approved by the voters in 1980 (Article 9, Section 20). Under Arizona state law “expenditure limitation” means if an item is not budgeted (i.e. does not have an appropriation), it cannot legally be spent during the fiscal year. Therefore, the budget must include sufficient appropriation and contingency provisions for expenditures related to revenues (e.g., possible future grants) that cannot be accurately determined or even anticipated when the budget is adopted in June. This budgetary flexibility allows the city to comply with the Arizona state law and to pro-actively pursue emerging revenue sources as the budget year unfolds. Expenditures (i.e., appropriations) associated with items such as possible future grants/revenues may not be spent without City Council’s prior approval at a public meeting.

**Base Budget** – Cost of continuing the existing levels of service in the current budget year.

**Beginning Balance** – The residual funds brought forward from the previous fiscal year (ending balance).

**Bond 2019** – General Obligation Bonds that were authorized by voters in calendar year 2019 and are secured by the full faith and credit of the issuer. General Obligation Bonds issued by local units of government are secured by a pledge of the issuer’s property taxing power and must be authorized by the electorate.

**Bonds** – Debt instruments, which require repayment of a specified principal amount on a certain date (maturity date), together with interest at a stated rate or according to a formula for determining the interest rate.

**Bond Rating** – The measure of the quality and safety of a bond. It indicates the likelihood that a debt issuer will be able to meet scheduled repayments and dictates the interest rate paid.

**Budget** – A plan of financial operation embodying an estimate of proposed expenditures and the means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year. In practice, the term budget is used in two ways. Sometimes it designates the financial plan presented for adoption and other times it designates the plan finally approved. It is usually necessary to specify whether the budget under consideration is preliminary and tentative, or whether the appropriating body has approved it.

**Budget Calendar** – The schedule of key dates, which a government follows in the preparation and adoption of the budget.

**Budgetary Basis** – Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), with the exception that: 1) no depreciation is budgeted for proprietary funds; and 2) bond principal in the enterprise funds is subject to appropriation. The budgetary basis of accounting is used to present all proposed budget and forecast amounts in the budget document to facilitate meaningful comparisons.

**Capital Expenditures** – The city defines a capital expenditure as using the following criteria: 1) relatively high monetary values (equal to or greater than \$25,000); 2) long asset life (equal to or greater than five years of useful life); and 3) results in the creation of a capital asset, or the revitalization of a capital asset

**Capital Improvement Funds** – Established to account for financial resources to be used for the acquisition or construction of major capital facilities. The city maintains several capital project funds to ensure appropriate legal compliance and financial management for various restricted revenues.

**Capital Improvement Plan (CIP)** – A comprehensive plan that annually forecasts the capital needs of the City of Scottsdale for a period of five years. The CIP is essential to the city's comprehensive financial planning process and fundamental in upholding the city's sound infrastructure. The annual adopted capital budget is derived from the CIP five-year forecast.

**Capital Outlays** – Includes the purchase of land, the purchase or construction of buildings, structures, and facilities of all types and the acquisition of machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life or economy of operating an existing fixed asset. For an item to qualify as a capital outlays expenditure it must meet all of the following requirements: 1) have an estimated useful life of more than two years; 2) typically have a unit cost of \$10,000 or more; and 3) be a betterment or improvement. Replacement of a capital item is classified as a capital outlays under the same criteria as the original purchase. Replacement or repair parts are classified under commodities.

**Coronavirus Aid, Relief, and Economic Security (CARES) Act** – Economic stimulus bill passed by the United States Congress during 2020 in response to the economic fallout from the COVID-19 pandemic. Amongst other provisions, the bill provided funding to local governments, including Scottsdale, to help municipal economies return to a pre-pandemic state.

**Commodities** – Expendable items purchased through the city-approved centralized purchasing process. Examples of commodities include supplies, repair and replacement parts, and small tools.

**Contingency** – A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

**Contracts Payable** – A liability reflecting amounts due on contracts of goods or services furnished to the city.

**Contractual Services** – Expenditures for services performed by non-city firms or individuals, or by other city divisions.

**Debt Service** – Payment of principal, interest, and related service charges on obligations resulting from the issuance of bonds.

**Debt Service Funds** – Funds established to account for the accumulation of resources and for the payment of general long-term debt principal and interest that are not serviced by the General, Special Revenue, or Enterprise Funds. They do not include contractual obligations accounted for in the individual funds.

**Deficit** – A fiscal deficit occurs when the government's expenditures exceed its revenue.

**Department** – A functional unit within a division consisting of one or more cost centers engaged in activities supporting the unit's mission and objectives.

**Depreciation** – The systematic and rational allocation of the historical cost of a capital asset over its useful life.

**Division** – The combination of departments and programs of the city with a specific and unique set of goals and objectives (i.e., Public Works, Community Services, etc.).

**Ending Balance** – The residual funds that are spendable or available for appropriation at the end of the fiscal year.

**Enterprise Funds** – Funds established to account for operations, including debt service that are financed and operated similarly to private businesses - where the intent is that the service is self-sufficient, with all costs supported predominantly by user charges. The city maintains three Enterprise Funds to account for Water & Water Reclamation, Solid Waste, and Aviation activities.

**Estimate** – Represents the original adopted budget plus any contingency transfers, approved changes, and anticipated year-end savings.

**Excise Debt** – Debt that is repaid by excise taxes. In this case, the excise taxes used to fund the debt service payments are a portion of the sales tax and transient occupancy tax.

**Expenditure** – Outlay of funds for obtaining assets or goods and services. Expenditures represent decreases in net financial resources.

**Expenditure Limitation** – An amendment to the Arizona State Constitution limiting annual expenditures for all municipalities. The Arizona Economic Estimates Commission sets the limit based on population growth and inflation.

**Fees** – Charges for specific services.

**Financial Policy** – A government's directive with respect to operating, capital and reserve management, and financial reporting related to services provided, programs, and capital investment. A financial policy provides an agreed upon set of principles for the planning and programming of government budgets and their funding.

**Fiscal Year** – A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization. The City of Scottsdale's fiscal year is July 1 through June 30.

**Five-Year Financial Plan** – An estimation of sources and uses required by the city to operate for the next five-year period.

**Forecast** – A prediction of a future outcome based on known and unknown factors.

**Franchise Fee** – Annual fees paid by utilities (electricity, cable TV and natural gas) for the use of city public rights of way. Franchise fees are also paid by the city's Water & Water Reclamation Funds, as a reimbursement to the General Fund for the utility's use of city streets and right of ways. Franchise fees are typically a set percentage of gross revenue within the city.

**Full-Time Equivalent (FTE)** – A calculation used to convert part-time hours to equivalent full-time positions. Full-time employee salaries are based on 2,080 hours per year. The full-time equivalent of a part-time employee is calculated by dividing the number of hours budgeted by 2,080.

**Full Cash Value** – Arizona Revised Statutes defines Full Cash Value (FCV) as being synonymous with market value. For assessment purposes, full cash value approximates market value. *Also see secondary assessed valuation.*

**Fund** – A fiscal and accounting entity with a self-balancing set of accounts. Records cash and other financial resources together with all related liabilities and residual equities or balances and changes therein. Funds are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

**Fund Balance** – The balance of net financial resources that are spendable or available for appropriation. As used in the budget, the excess of sources (revenues and cash transfers-in) over uses (expenditures, debt service, and cash transfers-out). The beginning fund balance is the residual funds brought forward from the previous fiscal year. The fund balance is comprised of a reserved fund balance and an undesignated, unreserved fund balance. The reserved fund balance is restricted for specific purposes, while the unreserved fund balance is not restricted for a specific purpose and is available for general appropriation.

**Fund Summary** – A combined statement of sources, uses, and changes in fund balance showing the prior year's actual, adopted, estimated budgets, and the current year's adopted budgets.

**General Fund** – Primary operating fund of the city. It exists to account for the resources devoted to finance the services traditionally associated with local government. Included in these services are police and fire protection, parks and recreation, planning and economic development, general administration of the city, and any other activity for which a special fund has not been created.

**Long-Term Debt** – Represents any unmatured debt not considered to be a fund liability.

**General Obligation Bonds (GO Bonds)** – Bonds secured by the full faith and credit of the issuer. GO bonds issued by local units of government are secured by a pledge of the issuer's property taxing power (secondary portion). They are usually issued to pay for general capital improvements such as parks and roads.

**Generally Accepted Accounting Principles (GAAP)** – The uniform minimum standards and guidelines to financial accounting and reporting, which govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define the accepted accounting practices at a particular time. They include both broad guidelines of general application and detailed practices and procedures. In addition, GAAP provides standards by which to measure financial presentations.

**Goal** – A statement of broad direction, purpose or intent based on the needs of the community. A goal is general and timeless.

**Governmental Fund** – A fund that accounts for the core services and activities of a government, except for those required to be accounted for in a different fund.

**Grant** – A contribution by one government unit or funding source to another. The contribution is usually made to aid in the support of a specified function (i.e., education or drug enforcement), but it is sometimes for general purposes.

**Highway User Fuel Tax (HURF)** – Gasoline tax shared with municipalities; a portion is distributed based upon the population of the city and a portion is distributed based upon the origin of the sale of the fuel. The Arizona State Constitution requires that this revenue be used solely for street and highway purposes.

**Indirect Cost Allocation** – Funding transferred to the General Fund from Enterprise Funds for specific central administrative functions, which benefit those funds (i.e., City Manager, Information Technology, Human Resources, City Attorney, etc.).

**Intergovernmental Revenues** – Revenues levied by one government but shared on a predetermined basis with another government or class of governments.

**Internal Service Funds** – Established to account for the financing, on a cost-reimbursement basis, of commodities or services provided by one service area for the benefit of other service areas within the city. The city maintains Internal Service Funds to account for fleet, PC replacement, and self-insurance activities.

**Mission** – Defines the primary purpose of the city and is intended to guide all organizational decisions, policies, and activities (internal and external) on a daily basis.

**Municipal Property Corporation (MPC)** – A non-profit corporation established to issue bonds to fund city capital improvements projects.

**Needs Assessment** – The foundation for determining what city customers' needs are. Market surveys, public hearings, and boards and commission surveys are conducted to obtain this information.

**Objective** – Something to be accomplished in specific, well-defined and measurable terms, and that is achievable within a specific time frame.

**Operating Budget** – The plan for current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing, acquisition, spending, and service delivery activities of a government are controlled. The use of annual operating budgets is required by law in Arizona and is a requirement of Scottsdale's City Charter.

**Operating Revenue** – Funds that the government receives as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services.

**Ordinance** – A formal legislative enactment by the governing body of a municipality. If it is not in conflict with any higher form of law, such as a state statute or a constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies.

**Outstanding Debt** – The balance due at any given time resulting from the borrowing of money or from the purchase of goods and services.

**Pay-As-You-Go Capital Improvement Projects (PAYGO)** – Capital projects whose funding source is derived from city revenue sources other than through the sale of voter-approved bonds.

**Performance Measure** – Data collected to determine how effective or efficient a service area is in achieving its objectives.

**Personnel Services** – Includes the compensation paid periodically to employees plus employee fringe benefit costs, such as the city's contributions to retirement, social security, health and life insurance. It also includes fees paid to elected officials, election judges, and clerks.

**Permanent Fund** – Used to account for financial resources for which only the earnings can be used for the support of government programs. This type of fund would typically be used when a government receives a grant or endowment.

**Preserve Bonds** – A category of excise tax revenue bonds and GO bonds. The bonds are special revenue obligations of the Scottsdale Preserve Authority (SPA) payable solely from and secured by either a 0.20 percent sales tax approved by city voters in 1995 and issued for the purpose of acquiring land for the Scottsdale McDowell Sonoran Preserve or a 0.15 percent sales tax approved by city voters in 2004 and issued for the purpose of acquiring land and construction of essential preserve related necessities such as proposed trailheads.

**Primary Assessed Valuation (Limited Property Value)** – In Arizona, the primary assessed valuation is used to compute primary taxes for the maintenance and operation of school districts, community college districts, municipalities, counties, and the state. The limited property value is calculated according to a statutory formula mandated by the Arizona state legislation and cannot exceed the full cash value (also known as secondary assessed valuation).

**Primary Assessment** – The amount of tax calculated according to a statutory formula based on the primary assessed valuation.

**Primary Property Tax** – Tax levied for the purpose of funding general government operations. Annual increases are limited to two percent of the previous year's maximum allowable primary property tax levy plus allowances for new construction and annexation of new property and tort litigation settlements.

**Program** – A group of related activities performed by one or more organizational units for the purpose of accomplishing a function for which the city is responsible.

**Property Tax** – Tax calculated according to value of property and used as the source of monies to support the General Fund (primary property tax) and to pay general obligation debt (secondary property tax). Each year the Maricopa County Assessor's Office determines the value of all property, commercially and privately owned, within the county. These assessment values are then used on a pro-rata basis for levying property taxes. Property taxes are paid twice a year. The first half is due on October 1 and the second half is due on the following March 1.

**Proprietary Fund** – A fund type used in governmental accounting to account for activities that involve business-like interactions, which are similar to what would be found in the private sector. Two types of proprietary funds are enterprise funds and internal services funds.

**Refunding** – A procedure whereby an issuer refinances an outstanding bond issue by issuing new bonds. There are generally two major reasons for refunding: 1) to reduce the issuer's interest costs; or 2) to remove a burdensome or restrictive covenant imposed by the terms of the bonds being refinanced. The proceeds of the new bonds are either deposited into escrow to pay the debt service on the outstanding obligations when due, or they are used to immediately retire the outstanding obligations. The new obligations are referred to as the refunding bonds and the outstanding obligations being refinanced are referred to as the refunded bonds or the prior issue.

**Regional Sales Tax (Proposition 400)** – Tax representing revenues received from the 2004 voter approved 20-year extension of a half-cent transportation sales tax in Maricopa County that was first approved in 1985 to fund freeway construction.

**Reserve** – An account which records a portion of the fund balance segregated for some future use and which is, therefore, not available for further appropriation or expenditure.

**Revenue Bonds** – Bonds payable from a specific source of revenue, which do not pledge the full faith, and credit of the issuer. Revenue bonds are payable from identified sources of revenue and do not affect the property tax rate. Pledged revenues may be derived from operation of the financed project, grants, excise, or other specified non-property tax.

**Sales Tax** – A tax on goods and services. Scottsdale levies a 1.1 percent sales tax, of which 0.10 percent is dedicated solely to public safety. The remaining 1.0 percent of the sales tax is available to fund basic municipal services such as police, fire, libraries, and parks. Sales tax receipts received in the current month are based on prior month activity.

**Secondary Assessed Valuation (Full Cash Value)** – In Arizona, the secondary assessed valuation is used to compute secondary taxes, which may consist of those related to bonds, budget overrides, and special districts such as fire, flood control, and other limited purpose districts. Full cash value is a reflection of the market value of property.

**Secondary Assessment** – The amount of tax calculated according to a statutory formula based on the secondary assessed valuation.

**Secondary Property Tax** – Tax levied for the purpose of funding the principal, interest and redemption charges on general obligation bonds of the city. The amount of this tax is determined by the annual debt service requirements on the city's GO bonds.

**Self-Insurance** – The retention by an entity of a risk of loss arising out of the ownership of property or from some other cause instead of transferring that risk through the purchase of an insurance policy.

**Service Levels** – Describes the present services provided by a city division.

**Special Assessment** – A compulsory levy made against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

**Special Revenue Funds** – Funds established to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The city maintains funds to support the following four special revenue sources: Transportation, Preservation, Special Programs, and Tourism Development.

**Stakeholder** – Refers to anyone affected by or who has a stake in government. This includes, but is not limited to: citizens, customers, elected officials, board and commission members, management, employees, and their representatives (whether unions or other agents), businesses, vendors, other governments, and the media.

**Streetlight Districts** – Districts formed to provide a means for properties within a district to maintain streetlights within their boundaries. A street light tax is levied against the property owner to cover the cost of electrical billings received and paid by the city.

**Tax Levy** – The total amount of revenue to be raised by general property taxes for purposes specified in the tax levy ordinance.

**Tax Rate** – The amount of tax levied for each \$100 of assessed valuation.

**Taxes** – Compulsory charges levied by a government for the purpose of financing services performed for common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges, such as water service.

**Transfers** – The authorized exchanges of cash or other resources between funds, divisions, and/or capital projects.

**Transportation Sales Tax (1989)** – Sales Tax of 0.2 percent which was approved in 1989 and is dedicated to funding transportation improvements and operations.

**Transportation Sales Tax (2018)** – Sales Tax of 0.1 percent which was approved by city voters in 2018 for a period of 10 years to fund transportation projects.

**Trends Analysis** – Examination of changes over time, which provides useful management information such as the city's current financial situation and its future financial capacity to sustain service levels.

**Trust Funds** – Funds established to administer resources received and held by the city as the trustee or agent for others. Use of these funds facilitates the discharge of responsibility placed upon the city by virtue of law or other similar authority.

**User Fee** – The fee charged for services to a party or parties who directly benefits from the service.

**Workorder Credits** - Allocation of a portion of a budgeted amount to different funds or divisions based on where the work was completed.
