Shauna:

These are the adjustments we have made to the information requested:

1. Please disregard any limitation on size. We would like the information for all orders.
2. For the dates listed, we intend for you to include in the requested audit trail all orders in the QQQ that were routed out to any other venue for execution, including proprietary trades (this may not have been clear from the request).

I apologize you did not receive a phone call before now. Call with any questions.

Eric
