Attn. Ms. Donna Smith:

I received your letter of May 17 stating that you will not do anything more with my letter unless I contact you again. (A copy of your letter is enclosed.)

My letter had to do with trades routed through a firm by the name of Madoff Group by the Fidelity Group...I never received an acceptable explanation from them concerning this trade. Further I had previously complained about trades routed through Madoff and they said there was nothing they could do about where the trades were routed...My trades all involved stocks listed on the NYSE and were large cap companies.

I have subsequently been told that there WAS something they could have done about it...I don't like being lied to by a firm that I have done business with for some 25 plus years.

I would appreciate your taking another look at this matter or considering this information in evaluating Fidelity's trading practices.
