

DuraSoak® Series General Purpose Medium-Duty Pads

What's Inside:

DuraSoak® General Purpose Absorbents start with excess material from our popular shop towels

Absorbs up to 30.3 gallons of oil per bale*

* per ASTM F726-06

- Made with 60% recycled shop towel fibers
- Meltblown-spunbond coverstock on both sides of the absorbent core creates very durable sorbent pads
- Absorbs both oil and water as well as grease, transmission fluid, hydraulic fluid, diesel fuel, coolants and many other fluids
- Durable coverstock on both sides of the pad provides greater strength than standard meltblown polypropylene pads
- Very stable pricing and does not have the volatile costs that are typically associated with oil based absorbents as they are made with recycled fibers
- Class A fire retardant when pad is dry (lab tested per ASTM E84)
- Ash content is 0.63% per ASTM D240
- 10,580 BTU/lb per ASTM D240
- U.S. Patent No. 8, 118, 117

Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.

Per Pad Comparison

Over 25% more absorbent than New Pig MAT203 & over**
35% more absorbent than SPC* MRO100**

One pad of DuraSoak® 23200 absorbs 0.303* gallons of SAE 30 motor oil vs. 1 pad of New Pig** MAT203 which adsorbs 0.241* gallons of SAE 30 motor oil and 1 pad of SPC*** MRO100 which adsorbs 0.22* gallons of SAE motor oil

General Purpose Absorbents

Sellers General Purpose TOOLBOX® DuraSoak® pads not only provide more absorbency (see charts on individual product pages) than other popular competitive meltblown sorbents, they're made with recycled fibers (see chart) to create greater price stability. And with our recycled fibers being made from our internal excess wiper material, DuraSoak® provides amazing product consistency.
