

## DuraSoak® Series General Purpose Medium-Duty Split Rolls

Absorbs up to 22.7 gallons of oil per roll\*

\* per ASTM F726-06

- Made with 60% recycled shop towel fibers
- Meltblown-spunbond coverstock on both sides of the absorbent core creates very durable sorbent rolls
- Absorbs both oil and water as well as grease, transmission fluid, hydraulic fluid, diesel fuel, coolants and many other fluids
- Durable coverstock on both sides of the roll provides greater strength than standard meltblown polypropylene rolls
- Very stable pricing and does not have the volatile costs that are typically associated with oil based absorbents as they are made with recycled fibers

- DuraSoak® Medium-Duty Absorbent Split Rolls are perforated every 19" across
- Class A fire retardant when roll is dry (lab tested per ASTM E84)
- Ash content is 0.63% per ASTM D240
- 10,580 BTU/lb per ASTM D240

*Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.*

# General Purpose Absorbents

Sellers General Purpose TOOLBOX® DuraSoak® pads not only provide more absorbency (see charts on individual product pages) than other popular competitive meltblown sorbents, they're made with recycled fibers (see chart) to create greater price stability. And with our recycled fibers being made from our internal excess wiper material, DuraSoak® provides amazing product consistency.
