U.S. Social Security retirement or disability benefits may be determined using a different formula under the Windfall Elimination Provisions (WEP), when you also receive a pension based on employment or self-employment, (employment, meaning work) from a foreign pension not covered by U.S. Social Security. Social Security benefit amounts use only earnings covered under Social Security with a benefit formula that gives proportionately higher amounts to workers with low lifetime earnings. A worker with a substantial period of non-covered work during their lifetime appears to have lower lifetime earnings than they actually had. WEP reduces the primary insurance amount upon which benefits are based and affects all benefits paid on that record except survivors. The difference in U.S. Social Security benefits computed under WEP cannot be greater than one-half the amount of the non-covered pension received in the first month you are entitled to both the non-covered pension and the U.S. Social Security benefit.
