Contested Case No. W1-11-2394

ORDER DENYING REQUEST FOR
STAY
AND
ORDER SETTING STATUS
CONFERENCE

CONTESTED CASE NAME: *In re Magma Copper Company*
HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report
DESCRIPTIVE SUMMARY: Order substituting parties, denying request for stay, and setting a status conference for **October 2, 2020 at 1:30 p.m.**
NUMBER OF PAGES: 3
DATE OF FILING: August 31, 2020

In its Status Report filed May 29, 2020, Swift Current Land & Company, LLC represented that it no longer has an interest in 7B Ranch and that Statements of Claimants 39-3161, 39-3163, 39-5227, and 39-5234, which are the subject of Watershed File Report 113-04-DCD-001, have been assigned to Resolution Copper Mining, LLC. The public records of the

1 Arizona Department of Water Resources (“ADWR”) include an Assignment filed June 6, 2020
2 between BHP Copper Inc., assignor, and Resolution Copper Mining LLC, assignee.

3 According to Watershed File Report 113-04-DCD-001, one well provided the source of
4 water for domestic and irrigation uses. The Arizona Department of Water Resources has
5 determined that the well it identified is located in the subflow zone. The Status Report identifies
6 four wells on the property. It states that two of the wells are abandoned, one serves to monitor
7 water levels, and a fourth provides water for livestock and wildlife.

8 Resolution Copper Mining LLC requests that all of its wells should be dealt with in a
9 single proceeding and requests a stay of this action on the grounds that an issue exists as to
10 whether the well is pumping surface water or subflow. In support of its request, Resolution
11 Copper Mining LLC cites to a case that was stayed due to questions about whether an owner of
12 a well located in the subflow zone has a legal basis to assert a claim for surface water.

13
14 Based on the information provided in the Status Report,

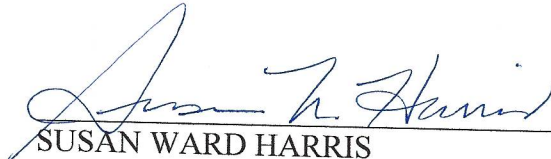

15 **IT IS ORDERED:**

- 16 1. Resolution Copper Mining LLC is substituted as a party in place of
17 Swift Current Land & Cattle, LLC.
 - 18 2. The request to stay the case is denied.
 - 19 3. A status conference shall be held to address:
 - 20 a. The types of water rights that Resolution Copper Mining LLC
21 intends to pursue on the land included within the boundaries of
22 Watershed File Report 113-04-DCD-001;
 - 23 b. The issues that Resolution Copper Mining LLC has identified
24 with respect to the monitoring wells and the abandoned wells;
 - 25 c. A schedule to resolve the issues raised in the objections and
26 claims by motion or by an evidentiary hearing.
