IN RE THE GENERAL ADJUDICATION
OF ALL RIGHTS TO USE WATER IN THE
GILA RIVER SYSTEM AND SOURCE

CIVIL NO. W1-11-1676
(Consolidated)

ORDER FOR STATEMENTS OF
CLAIMANT AND SETTING STATUS
CONFERENCE

CONTESTED CASE NAME: *In re Pomerene Water Users Association.*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

DESCRIPTIVE SUMMARY: Order regarding Statements of Claimant and setting a status
conference on October 18, 2017

NUMBER OF PAGES: 89

DATE OF FILING: July 26, 2017

This case concerns rights to water distributed from the Pomerene Water Users Association
Canal (Pomerene Canal) used for irrigation. This case does not concern water pumped from wells.
It also does not involve water rights for domestic water use, which includes water for residential

1 uses such as drinking, food preparation, bathing, and washing. This case only involves water
2 rights for irrigation using water diverted from the Pomerene Canal.

3
4 **1. History of the Case**

5
6 In 1991, the Arizona Department of Water Resources issued a Hydrographic Survey Report
7 (HSR) that analyzed uses of irrigation water diverted from the Pomerene Canal. It reported:

8 The Pomerene Water Users Association (PWUA) operates a canal that
9 diverts surface water from the San Pedro River approximately three-fourths of a
10 mile north of the State Route 80 highway bridge at St. David. The Pomerene Canal
11 extends generally to the north about seven miles to the community of Pomerene.
12 Surface water diversions are normally confined to the period from November
13 through May when surface water is usually available and the flow is relatively
14 sediment free. The Pomerene Canal serves a total of thirty-nine land owners who
15 irrigate nearly 1,052 acres of land. The area served by the Pomerene Canal is
16 located east of the City of Benson.

17 Hydrographic Survey Report (HSR) for the San Pedro River Watershed, filed November 20, 1991,
18 p. 319.

19 The HSR includes a series of individual reports known as Watershed File Reports.
20 Originally, 40 Watershed File Reports were included in this case. A copy of the original list is
21 attached as Appendix 1. In the Watershed File Reports, the Arizona Department of Water
22 Resources identified potential rights to water for irrigation use and the landowners who owned the
23 land on which the irrigation water was used. The Watershed File Reports also typically include
24 the date the water was first used, which is known as the "priority date," the quantity of water used,
25 and any documents previously filed claiming the right to use the water.

26 Each Watershed File Report is also given a unique number. In this case, the number for
27 each Watershed File Report, with the exception of the Watershed File Report prepared with respect
28 to the Statement of Claimant filed by the Pomerene Water Users Association, includes a three-
letter code that identifies a specific geographic area. A copy of a map prepared by the Arizona

1 Department of Water Resources is attached as Appendix 2 that shows the geographic location
2 referenced by the three-letter code. After the Arizona Department of Water Resources filed the
3 HSR, a number of entities filed objections to the potential water rights listed in the Watershed File
4 Reports.

5
6 On February 1, 1994, this case was initiated to judicially determine or establish the extent
7 of and the priority of the water rights for land that received irrigation from the Pomerene Canal and
8 to resolve the objections filed to those potential water rights. During the course of the proceedings,
9 new landowners were added to the case because the land included in 11 Watershed File Reports
10 had been sold and/or split into multiple parcels in the time between the preparation of the
11 Watershed File Reports and the date the case began. Minute Entry filed March 22, 1995. Thirty
12 one landowners were subsequently dismissed from the case based upon their representations or a
13 finding that they had no interest in the water diverted from the Pomerene Canal. A list of the
14 individuals dismissed from the case is attached as Appendix 3. A final list of the landowners and
15 the associated Watershed File Reports as of April 17, 1995, is attached as Appendix 4. Copies of
16 the Watershed File Reports, organized by the number of the Watershed File Report, are attached as
17 Appendix 5. This case was scheduled for trial on May 2, 1995, but the trial date was vacated and
18 no further action has been taken prior to this year with respect to the water rights for irrigation use.
19
20

21 22 **2. Changing Circumstances**

23 Facts and circumstances surrounding the Pomerene Canal have changed since these water
24 rights were last considered in 1995. Land ownership has changed. At the time that the Arizona
25 Department of Water Resources prepared the HSR, there were 39 landowners irrigating 1,052
26 acres. Based on the records of the Cochise County Recorder many of the large parcels of land
27 that were used to grow crops have been split and sold to multiple owners and, in some instances,
28

1 farms have become residential subdivisions. Consequently, the number of landowners associated
2 with lands that Arizona Department of Water Resources identified as irrigated lands on the maps
3 included in the HSR has significantly increased. A list of landowners associated with each
4 Watershed File Report is attached as Appendix 6. The list has been compiled based on records
5 maintained by the Cochise County Recorder and Cochise Assessor. Given that this case concerns
6 water rights and not rights to land, neither this Order nor the attached appendix constitutes any
7 findings or determinations regarding land ownership. The inclusion of a landowner on Appendix
8 6 is simply for the purpose of providing notice to the landowner of these proceedings to determine
9 water rights for irrigation use.
10

11 In addition to the changes in land ownership and presumably, in some cases, changes in
12 water use, changes to the Pomerene Canal and the Pomerene Water Users Association have
13 occurred since these water rights were last considered. According, to David Brown, the current
14 attorney for the Pomerene Water Users Association, who appeared at the status conference on June
15 28, 2017, little or no water has flowed through the Pomerene Canal in recent years. Mr. Brown
16 also indicated that he had been advised that none of the former board members of the Pomerene
17 Water Users Association are living. Motion for Extension of Time to Comply with Court Order,
18 filed June 16, 2017.
19
20

21 A case with a number of parties can become expensive and difficult to manage. In the past,
22 the Pomerene Water Users Association assumed an active role in this case on behalf of a number
23 of landowners. In 1994, the Pomerene Water Users Association was ordered to file a Statement
24 of Claimant with the Arizona Department of Water Resources that identified the name and
25 addresses of those individuals on whose behalf the Statement of Claimant was filed. Minute
26 Entry, filed June 27, 1994. Although all water rights to irrigation water from the Pomerene Canal
27 will be adjudicated in the name of individual users, the court ruled that the Pomerene Water Users
28

1 Association could act on behalf of the landowners using irrigation water from the Pomerene Canal
2 to claim their rights in this adjudication. Minute Entry, filed March 22, 1995. Current counsel for
3 the Pomerene Water Users Association, David Brown will file a report concerning the viability of
4 the Pomerene Water Users Association on October 2, 2017. Minute Entry, filed July 6, 2017.
5

6 7 **3. Procedures for Asserting a Water Right**

8 A person who desires to obtain a water right must file a timely Statement of Claimant with
9 the Arizona Department of Water Resources, have a valid Statement of Claimant filed on his or her
10 behalf or receive an assignment of an existing Statement of Claimant. Ariz. Rev. Stat. §45-254.
11 Approximately one-half of the landowners listed on Appendix 4 or their predecessors filed
12 individual Statements of Claimant. In addition, as stated above, the Pomerene Water Users
13 Association filed a Statement of Claimant on behalf of a number of landowners. To determine on
14 whose behalf the Pomerene Water Users Association had filed a claim, additional information may
15 be available from the Arizona Department of Water Resources, P. O. Box 36020, Phoenix, AZ
16 85067, or current counsel for Pomerene Water Users Association, David A. Brown, Brown &
17 Brown Law Offices, P.C., P. O. Box 1890, St. Johns, AZ 85936.
18

19
20 Due to the changes in land use, it is expected that many landowners listed on Appendix 6
21 may only require water for domestic use (domestic water use is not part of this case) and will have
22 no interest in asserting a claim to water diverted through the Pomerene Canal for irrigation use.
23 Thus, the proceedings in this case will initially focus on identifying those parties who have an
24 interest in establishing water rights to water for irrigation use from the Pomerene Canal.
25 Landowners who have no interest in the water diverted by the Pomerene Canal from the San Pedro
26 River for irrigation use will be dismissed from this case and removed from the mailing list and any
27 persons not included on the current mailing list who properly assert a claim will be added. Thus,
28

1 the initial proceedings will be structured to insure the inclusion of those persons validly claiming a
2 right to use irrigation water delivered by the Pomerene Canal.

3
4 Accordingly,

5
6 **IT IS ORDERED** that by **October 9, 2017**, each party who has not filed a Statement of
7 Claimant, obtained an assignment of an existing Statement of Claimant, or had a Statement of
8 Claimant filed on his or her behalf and intends to assert a claim for a right to water diverted
9 through the Pomerene Canal for irrigation use shall:

- 10 1. file a Statement of Claimant with the Arizona Department of Water Resources and a
11 Notice of Filing with this Court that references this case, **Case No. W1-11-1676**, at
12 the top of the form; or
13
14 2. appear in person, through an authorized representative or telephonically at the
15 **October 18, 2017** status conference and express an intent to assert a right and an
16 estimate of time necessary to file a Statement of Claimant.

17 **IT IS FURTHER ORDERED** setting a status conference to consider Mr. Brown's report
18 regarding the Pomerene Water Users Association to determine whether the Pomerene Water Users
19 Association can and will assume its prior role of representing a number of landowners. In
20 addition, the status conference will address the process of compiling a final list of landowners who
21 have an interest in asserting water rights to irrigation water from the Pomerene Canal. The status
22 conference shall be held on **October 18, 2017, at 2:15 p.m.** in the Superior Court of Arizona,
23 Central Court Building, Courtroom 301, 201 West Jefferson Street, Phoenix, AZ, 85003-2202.

FILINGS AND DECREES

FILING 39-6572 - CLAIMS IRRIGATION, DOMESTIC, STOCKWATERING, RECREATION, AND WILDLIFE USES.
NO DOMESTIC USE WAS FOUND AT THE CLAIMED LOCATION.

DIVERSIONS

D1 - DIVERSION FROM THE SAN PEDRO RIVER INTO THE POMERENE WATER USERS ASSOCIATION CANAL.
W1-W4 & W9 - WELLS PROVIDE WATER FOR IRRIGATION USES.
W5, W6 & W8 - WELLS PROVIDE WATER FOR IRRIGATION, STOCKWATERING, AND WILDLIFE USES.
W7 & W10 - UNUSED WELLS.

USES AND RESERVOIRS

IR4 - IRRIGATED ALFALFA.
IR90-IR92 - DISCONTINUED IRRIGATION: D.W.R. HAS DETERMINED THAT NO IRRIGATION HAS OCCURRED ON A PORTION OF THIS PROPERTY IN THE LAST FIVE YEARS, BUT THERE HAS BEEN IRRIGATION WITHIN THE PAST TEN YEARS BASED UPON A REVIEW OF HISTORICAL AERIAL PHOTOGRAPHY AND FIELD INVESTIGATIONS.
PS2 - PRIMARY STORAGE RESERVOIR, SUPPLIED BY D1, W1 & W2, IS USED FOR IRRIGATION, STOCKWATERING, AND WILDLIFE PURPOSES.
SR1 - SMALL RESERVOIR, SUPPLIED BY WELL W5, IS USED FOR IRRIGATION, STOCKWATERING, AND WILDLIFE PURPOSES.
SR2 - SMALL RESERVOIR, SUPPLIED BY WELL W8, IS USED FOR IRRIGATION, STOCKWATERING, AND WILDLIFE PURPOSES.
SR3 - SMALL RESERVOIR, SUPPLIED BY DIVERSION D1 AND WELL W1, IS USED FOR IRRIGATION PURPOSES.

SHARED USES AND DIVERSIONS

W1-W3 - WELLS ARE SHARED WITH W.F.R.'S #112-17-ACB-8 & #112-17-BDA-14.
W4 - WELL IS SHARED WITH W.F.R. #112-17-BDA-4.
W9 - WELL IS SHARED WITH W.F.R. #112-17-BDA-11.
PS2 - WATER FROM PS2 IS ALSO USED IN W.F.R.'S #112-17-ACB-8 & #112-17-BDA-14.
PRIMARY STORAGE RESERVOIR PS1, FOUND IN W.F.R. #112-17-ACB-8, PROVIDES WATER TO USES IN THIS W.F.R.
