ORDER SETTING DATE FOR
SUGGESTED CORRECTIONS OF
PROPOSED WATER RIGHTS

CONTESTED CASE NAME: *In re Redfield Canyon State Claims*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

DESCRIPTIVE SUMMARY: The Special Master issues abstracts for proposed water rights for stockponds and for stock watering analyzed by Watershed File Report Nos. 113-09-016, 113-12-005, 113-12-008, and 113-13-007 and sets a deadline to file suggested corrections.

NUMBER OF PAGES: 40.

DATE OF FILING: September 18, 2018

This case involves *de minimis* claims for water rights analyzed by watershed file reports nos. 113-09-016, 113-12-005, 113-12-008, and 113-13-007 included in the final hydrographic

1 survey report for the San Pedro Watershed (“San Pedro HSR”) filed on November 20, 1991. In
2 1994, the Special Master issued a Memorandum Decision, Findings of Fact, and Conclusions of
3 Law for Group 1 Cases involving Stockwatering, Stockponds, and Domestic Uses, dated
4 November 14, 1994, amended February 23, 1995, approved and modified September 27, 2002
5 (“Decision”). The Decision established the procedures for adjudicating *de minimis* water rights
6 for claims in the San Pedro watershed. Once the proposed water right abstracts have been
7 prepared, “the litigants will be provided an opportunity to suggest the correction of mistakes in
8 the proposed abstracts.” Decision, p. 47. This proceeding is not a forum in which to relitigate
9 the Decision, which was the subject of years of briefing and has now been affirmed for more
10 than 14 years. Subsequently, these abstracts will be included in a catalog of proposed water
11 rights where they will be subject to very limited set of objections and ultimately in a final
12 decree.
13
14

15 As required by the Decision, proposed water right abstracts have been prepared for the
16 *de minimis* water rights analyzed by watershed file nos. 113-09-016, 113-12-005, 113-12-008,
17 and 113-13-007. The Arizona Department of Water Resources has reviewed the legal
18 descriptions for place of use, points of diversion and source of water in the draft abstracts
19 submitted to them on July 5, 2018. On August 31, 2018, the Arizona Department of Water
20 Resources submitted a Report with the results of its review. All of the revisions and
21 corrections included in the Report filed by Arizona Department of Water Resources have been
22 adopted and included in the proposed abstracts which are attached as Appendix A.
23

24 **IT IS ORDERED** that any suggested corrections to the proposed abstracts shall be filed
25 on or before November 16, 2018.
