IN THE SUPERIOR COURT OF THE STATE OF ARIZONA
IN AND FOR THE COUNTY OF MARICOPA

IN RE THE GENERAL ADJUDICATION
OF ALL RIGHTS TO USE WATER IN THE
GILA RIVER SYSTEM AND SOURCE

CIVIL NO. W1-11-19
(Consolidated)

ORDER REGARDING *DE MINIMIS*
CLAIMS ON FEDERAL LAND

CONTESTED CASE NAME: *In re Sands Group of Cases.*
HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.
DESCRIPTIVE SUMMARY: Order regarding establishing process to resolve ownership of water rights for water used on federal land.
NUMBER OF PAGES: 14.
DATE OF FILING: December 9, 2016.

The proceedings in this case will summarily adjudicate *de minimis* claims for stock watering and for certain stockponds and domestic uses. A *de minimis* water use is a “water use found to be

1 sufficiently small so that the costs of a detailed adjudication of the uses outweigh the benefits” of a
 2 detailed adjudication. Memorandum Decision, Findings of Fact and Conclusions of Law, dated
 3 November 14, 1994, amended February 23, 1995, approved and modified September 27, 2002, p. 5
 4 (*De Minimis* Decision). Guided by this principle, the adjudication of the claims in this case will
 5 be conducted using the summary procedures set forth more than 20 years ago that safeguard both
 6 the statutory and due process rights of the litigants.
 7

8 This order concerns those 84 proposed water rights identified in the San Pedro Hydrographic
 9 Survey Report for the use of water in connection with land owned in fee by the United States that
 10 are included in this contested case. The 84 proposed water rights listed in 18 watershed file reports
 11 (WFRs) consist of 54 claims for stock watering, 27 claims for stockponds and 3 claims for
 12 domestic use. The WFRs involved are shown in Table 1:

27 **Table 1.**

1 A list of the 109 individual claims to the 84 proposed water rights analyzed by the WFRs is
2 attached as Appendix A. The data on Appendix A includes the WFR number, statement of
3 claimant number, claimant, place of use, place of diversion, proposed water right number,
4 ADWR's filing number for the pre-filing document and name of lessee. Appendix A incorporates
5 the information provided in the United States' Notice of Filing Reports of Current Name and
6 Address of Lessees on Federal Lands, dated July 15, 2016, the Arizona Department of Water
7 Resources' Information Concerning Legal Descriptions, dated September 2, 2016, and the Arizona
8 State Land Department's Supplemental Objections to the Information Listed in Appendix B, dated
9 September 7, 2016.

11 In addition to the priority date, quantity and source of water associated with the water right,
12 the remaining information that must be included in the proposed abstracts for each claim is the
13 ownership of the water right and the basis of the water right. The United States suggests that the
14 abstracts should be completed by naming the landowner as the owner of the water rights.
15 Memorandum Regarding Ownership of *De Minimus* Water Rights, dated September 2, 2016, p. 2.
16 In his Order approving as modified the *De Minimis* Decision, Judge Ballinger expressly addressed
17 this issue, i.e., ownership of a water right as between a lessee and a government lessor: "this order
18 does not address the legal ownership of water rights on state's and federal lands, an issue outside
19 the scope of the Special Master's *De Minimis* Report." Order at p. 5. Thus, the ownership issue
20 has not been decided and abstracts will not be prepared that identify the landowner or the lessee as
21 the owner of the water rights until the issue is resolved.

24 The United States next argues that resolution of the ownership of water rights should not
25 proceed "until the proper pre-filing basis for a claim is established, in particular any basis for a
26 claim to a water right on a land a claimant does not own". Memorandum Regarding Ownership of
27

1 *De Minimus* Water Rights dated September 2, 2016, p. 3. This argument is not accepted for three
2 reasons.

3 First, Arizona Department of Water Resources has located and identified prefiling documents
4 for 95 of the statements of claimant. Only 13% of the statements of claimant do not have a
5 reported prefiling basis and of those statements of claimant with no associated prefiling documents
6 71% were filed by the United States. Only three statements of claimant filed by private claimants
7 lack a reported prefiling basis. The list of those statements without any associated prefiling
8 documents is attached as Appendix B. While each filing will need to be reviewed as part of the
9 abstract preparation process, the preliminary information has been collected and is readily
10 available. The need to complete the review process does not constitute a reason to delay
11 resolution of the ownership issue. Second, the *de minimis* process was expressly designed to
12 reduce the burden on claimants to establish water rights, not to create new burdens. According to
13 the *De Minimis* Decision, once the proposed abstracts have been prepared in this case, the litigants
14 will have an opportunity to suggest corrections to any mistaken information. *De Minimis* Decision,
15 p. 35. Thus, in the absence of any abstracts it is premature to question the prefiling basis. Third,
16 to the extent that the United States is arguing that a prefiling basis cannot exist if the claimant does
17 not own the land, then litigation of that issue would simply be a variation on the issue of whether a
18 lessee may own water rights for water used on federal land.
19
20
21
22

23 **IT IS ORDERED:**

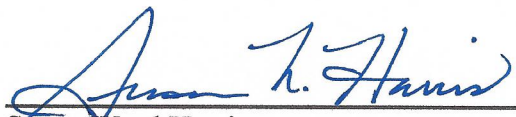

- 24 1. The United States shall file by **February 17, 2017**, a report identifying any WFRs
25 included in this contested case for which the United States is the landowner that are
26 not included in Table 1. (WFR 115-04-006 will not be included due to absence of
27 the required adjudication filings and prefiling basis documents.)

- 2. The United States shall submit a memorandum by **February 17, 2017**, proposing a process to resolve the ownership issue, which may include requesting the Special Master to designate the issue as one of broad legal significance in accordance with the Rules for Proceedings before the Special Master. If the United States proposes test cases, then the United States shall identify the proposed water rights and obtain the consent of the lessee.
- 3. Responses to the United States' proposal shall be filed by March 20, 2017.
- 4. A scheduling conference will be held on April 5, 2017, at 1:30 p.m.

Courtroom 1201, Central Court Building
201 West Jefferson Street, Phoenix, Arizona.

- Instructions for telephonic participation:
- 1. Dial 1 602-506-9695 (toll free number)
 - 2. Dial Participant Pass Code 163622# (pound)

Susan Ward Harris
Special Master

On December 9, 2016, the original of the foregoing was delivered to the Clerk of the Maricopa County Superior Court for filing and distributing a copy to all persons listed on the Court approved mailing list for Contested Case No. W1-11-19.
